#### TITLE III—ADDITIONAL GOVERNMENT WEAPONS AGAINST TERRORISM ACT

Sec. 301. Short title.

Sec. 302. Prevention and deterrence of material support for terrorist suicide bombings.

Sec. 303. Prohibiting attempts and conspiracies to obtain military-type training from a foreign terrorist organization.

Sec. 304. Prohibiting use of false travel documents.

Sec. 305. Preventing unwarranted release of convicted terrorists and sex offenders pending sentencing or appeal.

#### TITLE I—USA PATRIOT REAUTHORIZATION ACT OF 2009

### SEC. 101. SHORT TITLE.

This title may be cited as the "USA PATRIOT Reauthorization Act of 2009".

### SEC. 102. USA PATRIOT IMPROVEMENT AND REAUTHORIZATION ACT REPEAL OF SUNSET PROVISIONS.

Section 102(b) of the USA PATRIOT Improvement and Reauthorization Act of 2005 (Public Law 109-177; 50 U.S.C. 1805 note, 50 U.S.C. 1861 note, and 50 U.S.C. 1862 note) is repealed.

### SEC. 103. REPEAL OF SUNSET RELATING TO INDIVIDUAL TERRORISTS AS AGENTS OF FOREIGN POWERS.

Section 6001(b) of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108-458; 50 U.S.C. 1801 note) is repealed.

## TITLE II—CLASSIFIED INFORMATION PROCEDURES REFORM ACT

### SEC. 201. SHORT TITLE.

This title may be cited as the "Classified Information Procedures Reform Act of 2009".

### SEC. 202. DEFINITIONS.

(a) IN GENERAL.—Section 1 of the Classified Information Procedures Act (18 U.S.C. App.) is amended—

(1) by redesignating subsection (b) as subsection (c); and

(2) by inserting after subsection (a) the following:

"(b) 'Disclosure', as used in this Act—

"(1) means the release, transmittal, or making available of, or providing access to, classified information to any person (including a defendant or counsel for a defendant) during discovery, or to a participant or member of the public at any proceeding; and

"(2) does not include the release, transmittal, or making available of, or providing access to, classified information by the defendant to an attorney representing the defendant in a matter who has received—

"(A) the necessary security clearance to receive the classified information; and

"(B) if the classified information has been designated as sensitive compartmented information or special access program information, any additional required authorization to receive the classified information,."

(b) TECHNICAL AND CONFORMING AMENDMENT.—Section 501(3) of the Immigration and Nationality Act (8 U.S.C. 1531(3)) is amended by striking "section 1(b)" and inserting "section 1".

### SEC. 203. EX PARTE AUTHORIZATIONS UNDER THE CLASSIFIED INFORMATION PROCEDURES ACT.

Section 4 of the Classified Information Procedures Act (18 U.S.C. App.) is amended—

(1) in the second sentence—

(A) by striking "may" and inserting "shall"; and

(B) by striking "authorization in the form of a written statement to be inspected" and inserting "authorization, together with any argument in support of that request, in the form of a statement made ex parte and to be considered"; and

(2) in the third sentence—

(A) by striking "If the court enters an order granting relief following such an ex parte showing, the" and inserting "The"; and

(B) inserting ", and the transcript of any argument and any summary of the classified information the defendant seeks to obtain," after "text of the statement of the United States".

### SEC. 204. APPLICATION OF CLASSIFIED INFORMATION PROCEDURES ACT TO NON-DOCUMENTARY INFORMATION.

Section 4 of the Classified Information Procedures Act (18 U.S.C. App.), as amended by section 203 of this Act, is amended—

(1) in the section heading, by inserting "AND ACCESS TO" after "OF";

(2) by inserting "(a) IN GENERAL.—" before "The court, upon"; and

(3) by adding the following at the end of the following:

"(b) ACCESS TO OTHER CLASSIFIED INFORMATION.—(1) If the defendant seeks access through deposition under the Federal Rules of Criminal Procedure or otherwise to non-documentary information from a potential witness or other person which the defendant knows or reasonably believes is classified, the defendant shall notify the attorney for the United States and the district court in writing. Such notice shall specify with particularity the classified information sought

by the defendant and the legal basis for such access. At a time set by the court, the United States may oppose such access to the classified information.

“(2) If, after consideration of any objection raised by the United States, including any objection asserted on the basis of privilege, the court determines that the defendant is legally entitled to have access to the information specified in a notice made under paragraph (1), the United States may request the substitution of a summary of the classified information or the substitution of a statement admitting relevant facts that the classified information would tend to prove.

“(3) The court shall permit the United States to make an objection to access to classified information under paragraph (1) or a request for a substitution under paragraph (2) in the form of a statement made ex parte and to be considered by the court alone. The entire text of the statement of the United States, and any summary of the classified information the defendant seeks to obtain, shall be sealed and preserved in the records of the court and made available to the appellate court in the event of an appeal.

“(4) A court shall grant the request of the United States to substitute a summary of the classified information or to substitute a statement admitting relevant facts that the classified information would tend to prove under paragraph (2) if the court finds that the summary or statement will provide the defendant with substantially the same ability to make a defense as would disclosure of the specific classified information.

“(5) A defendant may not obtain access to classified information subject to this subsection except as provided in this subsection. Any proceeding, whether by deposition under the Federal Rules of Criminal Procedure or otherwise, in which a defendant seeks to obtain access to classified information subject to this subsection not previously authorized by a court for disclosure under this subsection shall be discontinued or may proceed only as to lines of inquiry not involving the classified information.”

#### **SEC. 205. INTERLOCUTORY APPEALS UNDER THE CLASSIFIED INFORMATION PROCEDURES ACT.**

Section 7(a) of the Classified Information Procedures Act (18 U.S.C. App.) is amended by adding the following at the end: “The right of the United States to appeal under this subsection applies without regard to whether the order appealed from was entered under this Act.”

### **TITLE III—ADDITIONAL GOVERNMENT WEAPONS AGAINST TERRORISM ACT**

#### **SEC. 301. SHORT TITLE.**

This title may be cited as the “Additional Government Weapons Against Terrorism Act of 2009”.

#### **SEC. 302. PREVENTION AND DETERRENCE OF MATERIAL SUPPORT FOR TERRORIST SUICIDE BOMBINGS.**

(a) IN GENERAL.—Chapter 113B of title 18, United States Code, is amended by adding at the end the following:

##### **“§ 2339E. Providing material support to international terrorism**

“(a) DEFINITIONS.—In this section—

“(1) the term ‘facility of interstate or foreign commerce’ has the meaning given that term in section 1958;

“(2) the term ‘material support or resources’ has the meaning given that term in section 2339A;

“(3) the term ‘perpetrator of an act’ includes any person who—

“(A) commits the act;

“(B) aids, abets, counsels, commands, induces, or procures the commission of the act; or

“(C) attempts, plots, or conspires to commit the act; and

“(4) the term ‘serious bodily injury’ has the meaning given that term in section 1365.

“(b) PROHIBITION.—Whoever, in a circumstance described in subsection (c), provides, or attempts or conspires to provide, material support or resources to the perpetrator of an act of international terrorism, to a family member of the perpetrator of an act of international terrorism, or to any other person, with the intent to facilitate, reward, or encourage that act or other acts of international terrorism, shall be fined under this title, imprisoned not more than 15 years, or both, and, if death results, shall be imprisoned for any term of years or for life.

“(c) JURISDICTIONAL BASES.—A circumstance referred to in this subsection is that—

“(1) the offense occurs in or affects interstate or foreign commerce;

“(2) the offense involves the use of the mails or a facility of interstate or foreign commerce;

“(3) an offender intends to facilitate, reward, or encourage an act of international terrorism that affects interstate or foreign commerce or would have affected interstate or foreign commerce had the act been consummated;

“(4) an offender intends to facilitate, reward, or encourage an act of international terrorism that violates the criminal laws of the United States;

“(5) an offender intends to facilitate, reward, or encourage an act of international terrorism that is designed to influence the policy or affect the conduct of the United States Government;

“(6) an offender intends to facilitate, reward, or encourage an act of international terrorism that occurs in part within the United States and is designed to influence the policy or affect the conduct of a foreign government;

“(7) an offender intends to facilitate, reward, or encourage an act of international terrorism that causes or is designed to cause death or serious bodily injury to a national of the United States while that national is outside the United States, or substantial damage to the property of a legal entity organized under the laws of the United States (including any State, district, commonwealth, territory, or possession of the United States) while that property is outside of the United States;

“(8) the offense occurs in whole or in part within the United States, and an offender intends to facilitate, reward, or encourage an act of international terrorism that is designed to influence the policy or affect the conduct of a foreign government; or

“(9) the offense occurs in whole or in part outside of the United States, and an offender is a national of the United States, a stateless person whose habitual residence is in the United States, or a legal entity organized under the laws of the United States (including any State, district, commonwealth, territory, or possession of the United States).”

(b) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) TABLE OF SECTIONS.—The table of sections for chapter 113B of title 18, United States Code, is amended by adding at the end the following:

“2339D. Receiving military-type training from a foreign terrorist organization.

“2339E. Providing material support to international terrorism.”

(2) OTHER AMENDMENT.—Section 2332b(g)(5)(B)(i) of title 18, United States Code, is amended by inserting “2339E (relating to providing material support to international terrorism),” before “or 2340A (relating to torture)”.

#### **SEC. 303. PROHIBITING ATTEMPTS AND CONSPIRACIES TO OBTAIN MILITARY-TYPE TRAINING FROM A FOREIGN TERRORIST ORGANIZATION.**

Section 2339D(a) of title 18, United States Code, is amended by inserting “, or attempts or conspires to do so,” after “foreign terrorist organization”.

#### **SEC. 304. PROHIBITING USE OF FALSE TRAVEL DOCUMENTS.**

(a) IN GENERAL.—Section 1028 of title 18, United States Code, is amended—

(1) in the section heading, by inserting “false travel documents,” after “identification documents,”;

(2) in subsection (a)—

(A) in paragraph (1), by striking “or a false identification document” and inserting “false identification document, or false travel document”;

(B) in paragraph (2), by striking “or a false identification document” and inserting “false identification document, or false travel document”;

(C) in paragraph (3), by striking “or false identification documents” and inserting “false identification documents, or false travel documents”;

(D) in paragraph (5), by inserting “, false travel document,” after “false identification document”; and

(E) in paragraph (8), by inserting “false travel documents,” after “false identification documents,”;

(3) in subsection (b)—

(A) in paragraph (1)(B), by striking “or false identification documents” and inserting “false identification documents, or false travel documents”; and

(B) in paragraph (2)(A)—

(i) by striking “document,” and inserting “document,”; and

(ii) by striking “or a false identification document” and inserting “a false identification document, or a false travel document”;

(4) in subsection (c)(3)(B), by inserting “false travel document,” after “false identification document,”;

(5) in subsection (d)—

(A) in paragraph (11), by striking “and” at the end;

(B) in paragraph (12), by striking the period at the end and inserting “; and”; and

(C) by adding at the end the following:

“(13) the term ‘false travel document’ means a document issued for the use of a particular, identified individual and of a type intended or commonly accepted for the purposes of passage on a commercial aircraft or mass transportation vehicle, including a ticket or boarding pass, that—

“(A) was not issued by or under the authority of a commercial airline or mass transportation provider, but appears to be issued by or under the authority of a commercial airline or mass transportation provider; or

“(B) was issued by or under the authority of a commercial airline or mass transportation provider, and was subsequently altered for purposes of deceit.”; and

(6) in subsection (h), by inserting “false travel documents,” after “identification documents,”.

(b) TECHNICAL AMENDMENT.—The table of sections for chapter 47 of title 18, United States Code, is amended by striking the item

related to section 1028 and inserting the following:

“1028. Fraud and related activity in connection with identification documents, false travel documents, authentication features, and information.”.

**SEC. 305. PREVENTING UNWARRANTED RELEASE OF CONVICTED TERRORISTS AND SEX OFFENDERS PENDING SENTENCING OR APPEAL.**

(a) IN GENERAL.—Section 3145 of title 18, United States Code, is amended by adding at the end the following:

“(d) APPLICATION.—No person shall be eligible for release under subsection (c) based on exceptional reasons if the person is being detained pending sentencing or appeal in a case involving—

“(1) an offense under section 2332b of this title;

“(2) an offense listed in section 2332b(g)(5)(B) of this title for which a maximum term of imprisonment of 10 years or more is prescribed; or

“(3) an offense involving a minor victim under section 1201, 1591, 2241, 2242, 2244(a)(1), 2245, 2251, 2251A, 2252(a)(1), 2252(a)(2), 2252(a)(3), 2252A(a)(1), 2252A(a)(2), 2252A(a)(3), 2252A(a)(4), 2260, 2421, 2422, 2423, or 2425 of this title.”.

## SUBMITTED RESOLUTIONS

### SENATE RESOLUTION 290—TO CONSTITUTE THE MAJORITY PARTY'S MEMBERSHIP ON CERTAIN COMMITTEES FOR THE ONE HUNDRED ELEVENTH CONGRESS, OR UNTIL THEIR SUCCESSORS ARE CHOSEN

Mr. REID submitted the following resolution; which was considered and agreed to:

S. RES. 290

*Resolved*, That the following shall constitute the majority party's membership on the following committees for the One Hundred Eleventh Congress, or until their successors are chosen:

COMMITTEE ON ARMED SERVICES: Mr. Levin (Chairman), Mr. Byrd, Mr. Lieberman, Mr. Reed, Mr. Akaka, Mr. Nelson (Florida), Mr. Nelson (Nebraska), Mr. Bayh, Mr. Webb, Mrs. McCaskill, Mr. Udall (Colorado), Mrs. Hagan, Mr. Begich, Mr. Burris, and Mr. Kirk.

COMMITTEE ON HEALTH, EDUCATION, LABOR AND PENSIONS: Mr. Harkin (Chairman), Mr. Dodd, Ms. Mikulski, Mr. Bingaman, Mrs. Murray, Mr. Reed, Mr. Sanders, Mr. Brown, Mr. Casey, Mrs. Hagan, Mr. Merkley, Mr. Franken, and Mr. Bennet.

COMMITTEE ON HOMELAND SECURITY AND GOVERNMENTAL AFFAIRS: Mr. Lieberman (Chairman), Mr. Levin, Mr. Akaka, Mr. Carper, Mr. Pryor, Ms. Landrieu, Mrs. McCaskill, Mr. Tester, Mr. Burris, and Mr. Kirk.

JOINT ECONOMIC COMMITTEE: Mr. Schumer (Vice Chairman), Mr. Bingaman, Ms. Klobuchar, Mr. Casey, Mr. Webb, and Mr. Warner.

### SENATE RESOLUTION 291—EXPRESSING SUPPORT FOR THE GOALS OF NATIONAL ADOPTION DAY AND NATIONAL ADOPTION MONTH BY PROMOTING NATIONAL AWARENESS OF ADOPTION AND THE CHILDREN AWAITING FAMILIES, CELEBRATING CHILDREN AND FAMILIES INVOLVED IN ADOPTION, AND ENCOURAGING AMERICANS TO SECURE SAFETY, PERMANENCY, AND WELL-BEING FOR ALL CHILDREN

Ms. LANDRIEU (for herself, Mrs. LINCOLN, Mr. LEVIN, Mr. BURR, Mr. KERRY, Mr. DEMINT, Mr. ROBERTS, Mr. THUNE, Mr. ALEXANDER, Mr. MENENDEZ, Mr. BROWNBACK, Mr. BAUCUS, Mr. REID, Mr. LAUTENBERG, Mr. LIEBERMAN, Mr. VITTER, Mr. CARDIN, Mr. DURBIN, Mr. JOHNSON, Ms. KLOBUCHAR, Mr. INHOFE, Mr. BEGICH, Mrs. HUTCHISON, Mrs. GILLIBRAND, Mr. CONRAD, Mr. FRANKEN, Mr. JOHANNES, Mr. HATCH, Ms. COLLINS, Mr. NELSON of Nebraska, Mr. BROWN, Mr. GREGG, Mr. SPECTER, Mr. CASEY, Mr. MERKLEY, Mr. DODD, and Mr. RISCH) submitted the following resolution; which was referred to the Committee on Health, Education, Labor, and Pensions:

S. RES. 291

Whereas there are approximately 510,000 children in the foster care system in the United States, approximately 129,000 of whom are waiting for families to adopt them;

Whereas 61 percent of the children in foster care are age 10 or younger;

Whereas the average length of time a child spends in foster care is over 3 years;

Whereas, for many foster children, the wait for a loving family in which they are nurtured, comforted, and protected seems endless;

Whereas the number of youth who “age out” of foster care by reaching adulthood without being placed in a permanent home has continued to increase since 1998, and more than 26,000 foster youth age out every year;

Whereas every day loving and nurturing families are strengthened and expanded when committed and dedicated individuals make an important difference in the life of a child through adoption;

Whereas a 2007 survey conducted by the Dave Thomas Foundation for Adoption demonstrated that though “Americans overwhelmingly support the concept of adoption, and in particular foster care adoption . . . foster care adoptions have not increased significantly over the past five years”;

Whereas, while 4 in 10 Americans have considered adoption, a majority of Americans have misperceptions about the process of adopting children from foster care and the children who are eligible for adoption;

Whereas 71 percent of those who have considered adoption consider adopting children from foster care above other forms of adoption;

Whereas 45 percent of Americans believe that children enter the foster care system because of juvenile delinquency, when in reality the vast majority of children who have entered the foster care system were victims of neglect, abandonment, or abuse;

Whereas 46 percent of Americans believe that foster care adoption is expensive, when in reality there is no substantial cost for adopting from foster care and financial support is available to adoptive parents after the adoption is finalized;

Whereas both National Adoption Day and National Adoption Month occur in November;

Whereas National Adoption Day is a collective national effort to find permanent, loving families for children in the foster care system;

Whereas, since the first National Adoption Day in 2000, more than 25,000 children have joined forever families during National Adoption Day;

Whereas, in 2008, adoptions were finalized for over 4,500 children through more than 325 National Adoption Day events in all 50 States, the District of Columbia, Puerto Rico, and Guam; and

Whereas the President traditionally issues an annual proclamation to declare November as National Adoption Month, and National Adoption Day is on November 21, 2009: Now, therefore, be it

*Resolved*, That the Senate—

(1) supports the goals and ideals of National Adoption Day and National Adoption Month;

(2) recognizes that every child should have a permanent and loving family; and

(3) encourages the citizens of the United States to consider adoption during the month of November and all throughout the year.

### SENATE RESOLUTION 292—CONGRATULATING THE PARK VIEW ALL-STAR LITTLE LEAGUE TEAM FOR WINNING THE 2009 LITTLE LEAGUE WORLD SERIES CHAMPIONSHIP

Mrs. BOXER (for herself and Mrs. FEINSTEIN) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 292

Whereas on August 30, 2009, the Park View All-Star Little League team, affectionately known as the “Blue Bombers”, of Chula Vista, California defeated the Kuei-Shan Little League team of Chinese Taipei, by a score of 6-3 to win the 2009 Little League World Series at Williamsport, Pennsylvania, becoming the 2009 Little League World Series champions;

Whereas in their previous game, the Blue Bombers defeated a versatile and dynamic team from San Antonio, Texas, winning 12-2 in 4 innings to become the United States Little League champions;

Whereas the Park View All-Star Little League team is the first San Diego County team to win a Little League World Series championship since 1961 and the first team from California to win the championship since 1993;

Whereas 2009 is the fifth time a Little League World Series champion has been crowned from California and the 31st time a United States team has won the Little League World Series championship;

Whereas the Blue Bombers set the record for most home runs in the Little League World Series, with 19 home runs overall in the tournament, besting the previous record by an incredible 6 home runs;

Whereas the Park View All-Star Little League team is comprised of: Bradley Roberto, Andy Rios, Markus Melin, Nick

Conlin, Seth Godfrey, Bulla Graft, Daniel Porras, Jr., Jensen Peterson, Kiko Garcia, Luke Ramirez, Isaiah Armenta, and Oscar Castro;

Whereas the Park View All-Star Little League championship team is coached by Ric Ramirez and managed by Oscar Castro;

Whereas true to the Little League pledge, the Blue Bombers played with heart, dignity, and class and, in a gesture of extraordinary sportsmanship, the Blue Bombers invited the Chinese Taipei team to join them on their victory lap around the field at Williamsport;

Whereas while the Park View All-Star Little League team is made up of 12 all-stars that won the championship, the entire league is made up of more than 400 players and thousands of family members of players, who are all part of this success; and

Whereas the victory by the Park View All-Star Little League team has brought tremendous excitement and pride to the city of Chula Vista, the county of San Diego, the State of California, and the United States: Now, therefore, be it

*Resolved*, That the Senate—

(1) congratulates the Park View All-Star Little League team from Chula Vista, California for winning the 2009 Little League World Series championship; and

(2) commends the families, coaches, volunteers, and community of the team, whose untold dedication and countless hours of volunteerism contributed to the team's success on and off the field.

#### SENATE RESOLUTION 293—RELATIVE TO THE DEATH OF HENRY LOUIS BELLMON, FORMER UNITED STATES SENATOR FOR THE STATE OF OKLAHOMA

Mr. REID (for himself, Mr. MCCONNELL, Mr. INHOFE, Mr. COBURN, Mr. AKAKA, Mr. ALEXANDER, Mr. BARRASSO, Mr. BAUCUS, Mr. BAYH, Mr. BEGICH, Mr. BENNET, Mr. BENNETT, Mr. BINGAMAN, Mr. BOND, Mrs. BOXER, Mr. BROWN, Mr. BROWNBACK, Mr. BUNNING, Mr. BURR, Mr. BURRIS, Mr. BYRD, Ms. CANTWELL, Mr. CARDIN, Mr. CARPER, Mr. CASEY, Mr. CHAMBLISS, Mr. COCHRAN, Ms. COLLINS, Mr. CONRAD, Mr. CORKER, Mr. CORNYN, Mr. CRAPO, Mr. DEMINT, Mr. DODD, Mr. DORGAN, Mr. DURBIN, Mr. ENSIGN, Mr. ENZI, Mr. FEINGOLD, Mrs. FEINSTEIN, Mr. FRANKEN, Mrs. GILLIBRAND, Mr. GRAHAM, Mr. GRASSLEY, Mr. GREGG, Mrs. HAGAN, Mr. HARKIN, Mr. HATCH, Mrs. HUTCHISON, Mr. INOUE, Mr. ISAKSON, Mr. JOHANNES, Mr. JOHNSON, Mr. KAUFMAN, Mr. KERRY, Mr. KIRK, Ms. KLOBUCHAR, Mr. KOHL, Mr. KYL, Ms. LANDRIEU, Mr. LAUTENBERG, Mr. LEMIEUX, Mr. LEAHY, Mr. LEVIN, Mr. LIEBERMAN, Mrs. LINCOLN, Mr. LUGAR, Mr. MCCAIN, Mrs. MCCASKILL, Mr. MENENDEZ, Mr. MERKLEY, Ms. MIKULSKI, Ms. MURKOWSKI, Mrs. MURRAY, Mr. NELSON of Nebraska, Mr. NELSON of Florida, Mr. PRYOR, Mr. REED, Mr. RISCH, Mr. ROBERTS, Mr. ROCKEFELLER, Mr. SANDERS, Mr. SCHUMER, Mr. SESSIONS, Mrs. SHAHEEN, Mr. SHELBY, Ms. SNOWE, Mr. SPECTER, Ms. STABENOW, Mr. TESTER, Mr. THUNE, Mr. UDALL of Colorado, Mr. UDALL of New Mexico, Mr. VITTER, Mr. VOINOVICH, Mr. WARNER, Mr. WEBB, Mr.

WHITEHOUSE, Mr. WICKER, and Mr. WYDEN) submitted the following resolution; which was considered and agreed to:

#### S. RES. 293

Whereas Henry Bellmon served as a United States Marine from 1942–1946, where he served as a platoon tank commander in the Pacific theater, and was awarded the Legion of Merit for his service in Saipan and the Silver Star for bravery in action on Iwo Jima;

Whereas Henry Bellmon served as a Major in the Marine Corps Reserve until 1954;

Whereas Henry Bellmon served two non-consecutive terms as governor of the State of Oklahoma from 1963–1967, when he was elected as the state's first Republican governor, and from 1987–1991; and

Whereas Henry Bellmon served the people of Oklahoma with distinction for 12 years in the United States Senate from 1969–1981;

*Resolved*, that the Senate has heard with profound sorrow and deep regret the announcement of the death of the Honorable Henry Bellmon, former member of the United States Senate.

*Resolved*, That the Secretary of the Senate communicate these resolutions to the House of Representatives and transmit an enrolled copy thereof to the family of the deceased.

*Resolved*, That when the Senate adjourns today, it stand adjourned as a further mark of respect to the memory of the Honorable Henry Bellmon.

#### AMENDMENTS SUBMITTED AND PROPOSED

SA 2558. Mr. MCCAIN proposed an amendment to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes.

SA 2559. Mr. SANDERS (for himself, Mr. BYRD, and Mr. FEINGOLD) submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2560. Mr. MCCAIN (for himself, Mr. FEINGOLD, and Mr. COBURN) submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2561. Mr. CASEY submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2562. Mr. REID submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2563. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2564. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2565. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2566. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2567. Mr. BARRASSO submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2568. Mr. KYL submitted an amendment intended to be proposed by him to the

bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2569. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2570. Mrs. FEINSTEIN (for herself and Mr. LEAHY) submitted an amendment intended to be proposed by her to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2571. Mr. BYRD submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2572. Mr. DODD (for himself and Mr. CHAMBLISS) submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2573. Mr. CARDIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2574. Mr. MCCAIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2575. Mr. MCCAIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

#### TEXT OF AMENDMENTS

**SA 2558.** Mr. MCCAIN proposed an amendment to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. (a) REDUCTION OF AIRCRAFT PROCUREMENT, AIR FORCE, FOR EXCESS AMOUNTS FOR C-17 AIRCRAFT.—The amount appropriated by title III under the heading "AIRCRAFT PROCUREMENT, AIR FORCE" is hereby reduced by \$2,500,000,000, the amount equal to the amount by which the amount available under that heading for the procurement of C-17 aircraft exceeds the amount requested by the President in the budget for the Department of Defense for fiscal year 2010 for the procurement of such aircraft, with the amount of the reduction to be allocated to amounts otherwise available for the procurement of such aircraft.

(b) AVAILABILITY FOR OPERATION AND MAINTENANCE.—The amount appropriated by title II for Operation and Maintenance is hereby increased by \$2,438,403,000, in accordance with amounts requested by the President in the budget for the Department of Defense for fiscal year 2010.

(c) AVAILABILITY FOR OPERATION AND MAINTENANCE, ARMY, FOR OVERSEAS CONTINGENCY OPERATIONS.—The amount appropriated by title IX under the heading "OPERATION AND MAINTENANCE, ARMY", is hereby increased by \$61,597,000.

**SA 2559.** Mr. SANDERS (for himself, Mr. BYRD, and Mr. FEINGOLD) submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. Of the amount appropriated or otherwise made available by title IV under the heading "RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, ARMY", \$12,000,000 shall be available for the peer-reviewed Gulf War Illness Research Program of the Army run by Congressionally Directed Medical Research Programs.

**SA 2560.** Mr. MCCAIN (for himself, Mr. FEINGOLD, and Mr. COBURN) submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. Any specific project contained in the Joint Explanatory statement accompanying this Act that is considered a congressional earmark for purposes of clause 9 of rule XXI of the Rules of the House of Representatives or a congressionally directed spending item as defined in rule XLIV of the Standing Rules of the Senate, when intended to be awarded to a for-profit entity, shall be awarded under full and open competition.

**SA 2561.** Mr. CASEY submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. (a) LIMITATION ON AVAILABILITY OF FUNDS FOR EXECUTION OF CONTRACTS UNDER LOGCAP.—None of the funds appropriated or otherwise made available by this Act may be obligated or expended for the execution of a contract under the Logistics Civil Augmentation Program (LOGCAP) unless the Secretary of the Army determines that the contract explicitly requires the contractor to inspect and immediately correct deficiencies that present an imminent threat of death or serious bodily injury so as to ensure compliance with the United States National Electric Code in work under the contract.

(b) WAIVER.—The Secretary of the Army may waive the applicability of the limitation in subsection (a) to any contract if the Secretary certifies in writing to Congress that—

(1) the waiver is necessary for the provision of essential services to troops in the field; or

(2) the work under such contract does not present an imminent threat of death or serious bodily injury.

**SA 2562.** Mr. REID submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 245, between lines 8 and 9, insert the following:

SEC. 8104. (a) It is the sense of Congress that—

(1) the Nevada Test Site of the National Nuclear Security Administration can play an

effective and essential role in developing and demonstrating—

(A) innovative and effective methods for treaty verification and the detection of nuclear weapons and other materials; and

(B) related threat reduction technologies; and

(2) the Administrator for Nuclear Security should expand the mission of the Nevada Test Site to carry out the role described in paragraph (1), including by—

(A) fully utilizing the inherent capabilities and uniquely secure location of the Site;

(B) continuing to support the Nation's nuclear weapons program and other national security programs; and

(C) renaming the Site to reflect the expanded mission of the Site.

(b) Not later than one year after the date of the enactment of this Act, the Administrator for Nuclear Security shall submit to the congressional defense committees a plan for improving the infrastructure of the Nevada Test Site of the National Nuclear Security Administration—

(1) to fulfill the expanded mission of the Site described in subsection (a); and

(2) to make the Site available to support the threat reduction programs of the entire national security community, including threat reduction programs of the National Nuclear Security Administration, the Defense Threat Reduction Agency, the Department of Homeland Security, and other agencies as appropriate.

**SA 2563.** Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. (a) Notwithstanding any other provision of this Act and except as provided in subsection (b), any report required to be submitted by a Federal agency or department to the Committee on Appropriations of either the Senate or the House of Representatives in this Act shall be posted on the public website of that agency upon receipt by the committee.

(b) Subsection (a) shall not apply to a report if—

(1) the public posting of the report compromises national security; or

(2) the report contains proprietary information.

**SA 2564.** Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 239, beginning on line 21, strike "the total amount" and all that follows through "\$236,000,000" and insert "the total amount appropriated in title III of this Act is hereby reduced by \$322,000,000, the total amount appropriated in title IV of this Act is hereby reduced by \$530,000".

**SA 2565.** Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of De-

fense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 177, line 23, strike "the modernization" and all that follows through line 25 and insert the following: "and the Secretary of Defense, who upon completion of a thorough review, shall provide to each standing committee of Congress a modernization priority assessment for their respective Reserve or National Guard component.".

**SA 2566.** Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. No amounts appropriated or otherwise made available by this Act may be obligated or expended to fund any congressionally directed spending item included in the report of the Committee on Appropriations of the Senate (Senate Report 111-74) with respect to any account as follows:

- (1) Operation and Maintenance, Army.
- (2) Operation and Maintenance, Navy.
- (3) Operation and Maintenance, Marine Corps.
- (4) Operation and Maintenance, Air Force.
- (5) Operation and Maintenance, Defense-Wide.
- (6) Operation and Maintenance, Army Reserve.
- (7) Operation and Maintenance, Navy Reserve.
- (8) Operation and Maintenance, Marine Corps Reserve.
- (9) Operation and Maintenance, Air Force Reserve.
- (10) Operation and Maintenance, Army National Guard
- (11) Operation and Maintenance, Air National Guard.

**SA 2567.** Mr. BARRASSO submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. No amounts appropriated or otherwise made available by this Act may be available for the Center on Climate Change and National Security of the Central Intelligence Agency.

**SA 2568.** Mr. KYL submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. Of the amounts appropriated or otherwise made available by title II under the heading "OPERATION AND MAINTENANCE, DEFENSE-WIDE" and available for the Office

of the Secretary of Defense, up to \$250,000 may be available to the Under Secretary of Defense for Policy for the declassification of the nuclear posture review conducted under section 1041 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106-398; 114 Stat. 1654A-262) upon the release of the nuclear posture review to succeed such nuclear posture review.

**SA 2569.** Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 239, beginning on line 21, strike “the total amount” and all that follows through “\$236,000,000” and insert “the total amount appropriated in title III of this Act is hereby reduced by \$322,000,000, the total amount appropriated in title IV of this Act is hereby reduced by \$530,000,000”.

**SA 2570.** Mrs. FEINSTEIN (for herself and Mr. LEAHY) submitted an amendment intended to be proposed by her to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 245, between lines 8 and 9, insert the following:

SEC. 8104. (a) No funds appropriated or otherwise available by this Act may be obligated or expended to use any cluster munitions unless—

(1) the submunitions of the cluster munitions, after arming, do not result in more than 1 percent unexploded ordnance across the range of intended operational environments; and

(2) the policy applicable to the use of such cluster munitions specifies that the cluster munitions will only be used against clearly defined military targets and will not be used where civilians are known to be present or in areas normally inhabited by civilians.

(b) The President may waive the requirement under subsection (a)(1) if, prior to the use of cluster munitions, the President—

(1) certifies that it is vital to protect the security of the United States; and

(2) not later than 30 days after making such certification, submits to the appropriate congressional committees a report, in classified form if necessary, describing in detail—

(A) the steps that will be taken to protect civilians; and

(B) the failure rate of the cluster munitions that will be used and whether such munitions are fitted with self-destruct or self-deactivation devices.

(c) In this section, the term “appropriate congressional committees” means—

(1) the Committee on Foreign Relations, the Committee on Armed Services, and the Committee on Appropriations of the Senate; and

(2) the Committee on Foreign Affairs, the Committee on Armed Services, and the Committee on Appropriations of the House of Representatives.

**SA 2571.** Mr. BYRD submitted an amendment intended to be proposed by him to the bill H.R. 3326, making ap-

propriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. (a) REPORT ON USE OF LIVE PRIMATES IN TRAINING RELATING TO CHEMICAL AND BIOLOGICAL AGENTS.—Not later than 90 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report setting forth a detailed description of the requirements for the use by the Department of Defense of live primates at the United States Army Medical Research Institute of Chemical Defense, and elsewhere, to demonstrate the effects of chemical or biological agents or chemical (such as physostigmine) or biological agent simulants in training programs.

(b) ELEMENTS.—The report required by subsection (a) shall include, at a minimum, the following:

(1) The number of live primates used in the training described in subsection (a).

(2) The average lifespan of primates from the point of introduction into such training programs.

(3) An explanation why the use of primates in such training is more advantageous and realistic than the use of human simulators or other alternatives.

(4) An estimate of the cost of converting from the use of primates to human simulators in such training.

**SA 2572.** Mr. DODD (for himself and Mr. CHAMBLISS) submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 245, between lines 8 and 9, insert the following:

SEC. 8104. TEMPORARY AUTHORITY FOR MONTHLY SPECIAL PAY FOR MEMBERS OF THE ARMED FORCES SUBJECT TO CONTINUING ACTIVE DUTY OR SERVICE UNDER STOP-LOSS AUTHORITIES.

(a) SPECIAL PAY AUTHORIZED.—The Secretary of the military department concerned may pay monthly special pay to any member of the Armed Forces described in subsection (b) for any month or portion of a month in which the member serves on active duty in the Armed Forces or active status in a reserve component of the Armed Forces, including time served performing pre-deployment and re-integration duty regardless of whether or not such duty was performed by such a member on active duty in the Armed Forces, or has the member's eligibility for retirement from the Armed Forces suspended, as described in that subsection.

(b) COVERED MEMBERS.—A member of the Armed Forces described in this subsection is any member of the Army, Navy, Air Force, or Marine Corps (including a member of a reserve component thereof) who, at any time during the period beginning on September 11, 2001, and ending on June 30, 2011, serves on active duty in the Armed Forces or active status in a reserve component of the Armed Forces, including time served performing pre-deployment and re-integration duty regardless of whether or not such duty was performed by such a member on active duty in the Armed Forces, while the member's en-

listment or period of obligated service is extended, or has the member's eligibility for retirement suspended, pursuant to section 123 or 12305 of title 10, United States Code, or any other provision of law (commonly referred to as a “stop-loss authority”) authorizing the President to extend an enlistment or period of obligated service, or suspend eligibility for retirement, of a member of the uniformed services in time of war or of national emergency declared by Congress or the President.

(c) AMOUNT.—The amount of monthly special pay payable to a member under this section for a month may not exceed \$500.

(d) CONSTRUCTION WITH OTHER PAYS.—Monthly special pay payable to a member under this section is in addition to any other amounts payable to the member by law.

(e) FUNDING.—

(1) IN GENERAL.—In addition to the amounts appropriated or otherwise made available elsewhere in this Act, \$29,000,000 is hereby appropriated to the Secretary of Defense to carry out this section. Such amount shall be made available to the Secretaries of the military departments only to provide special pay during fiscal year 2010 to members of the Armed Forces described in subsection (b) as provided in this section.

(2) OFFSET.—The amount appropriated or otherwise made available by title II under the heading “OPERATION AND MAINTENANCE, ARMY” is hereby reduced by \$29,000,000.

**SA 2573.** Mr. CARDIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. (a) ADDITIONAL AMOUNT FOR RDTE, DEFENSE-WIDE, FOR INTEGRATED CHEMICAL AND BIOLOGICAL DETECTION SYSTEM.—The amount appropriated by title IV under the heading “RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, DEFENSE-WIDE” is hereby increased by \$3,600,000, with the amount of the increase to be available for the Integrated Chemical and Biological Detection System.

(b) OFFSET.—The amount appropriated by title II under the heading “OPERATION AND MAINTENANCE, ARMY” is hereby decreased by \$3,600,000, with the amount of the decrease to be allocated to amounts available for Installation Processing Node-Phase IIa.

**SA 2574.** Mr. MCCAIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. The amount appropriated by title III under the heading “AIRCRAFT PROCUREMENT, AIR FORCE” is hereby reduced by \$2,500,000,000, the amount equal to the amount by which the amount available under that heading for the procurement of C-17 aircraft exceeds the amount requested by the President in the budget for the Department of Defense for fiscal year 2010 for the procurement of such aircraft, with the

amount of the reduction to be allocated to amounts otherwise available for the procurement of such aircraft.

**SA 2575.** Mr. MCCAIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. (a) **TESTIMONY BEFORE CONGRESS ON MEETING UNITED STATES OBJECTIVES ON AFGHANISTAN AND PAKISTAN.**—The officials specified subsection (b) shall each be made available, by not later than November 15, 2009, to testify in open and closed sessions before the relevant committees of Congress regarding recommendations for additional forces and resources required to achieve the objectives of United States policy with respect to Afghanistan and Pakistan stated pursuant to section 1117(a) of the Supplemental Appropriations Act, 2009 (Public Law 111-32; 123 Stat. 1907).

(b) **OFFICIALS.**—The officials specified in this subsection are the following:

(1) The Commander of the United States Central Command.

(2) The Commander of the United States European Command and Supreme Allied Command, Europe.

(3) The Commander of United States Forces-Afghanistan.

(4) The United States Ambassador to Afghanistan

## NOTICES OF HEARINGS

### COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a hearing previously announced for Thursday, October 1, 2009, at 9:45 p.m., is postponed until a later date.

The purpose of the hearing was to receive testimony on Energy and Related Economic Effects of Global Climate Change Legislation.

For further information, please contact Jonathan Black at (202) 224-6722 or Gina Weinstock at (202) 224-5684.

### SUBCOMMITTEE ON PUBLIC LANDS AND FORESTS

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a hearing previously announced before the Subcommittee on Public Lands and Forests on Thursday, October 1, 2009, at 2:30 p.m., is postponed until a later date.

The purpose of the hearing was to receive testimony on managing Federal forests in response to climate change, including for natural resource adaptation and carbon sequestration.

For further information, please contact Scott Miller at (202) 224-5488 or Alison Seyferth at (202) 224-4905.

## AUTHORITY FOR COMMITTEES TO MEET

### COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. INOUE. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on September 29, 2009, at 2 p.m. to conduct a hearing entitled "Strengthening and Streamlining Prudential Bank Supervision."

The PRESIDING OFFICER. Without objection, it is so ordered.

### COMMITTEE ON FINANCE

Mr. INOUE. Mr. President, I ask unanimous consent that the Committee on Finance be authorized to meet during the session of the Senate on September 29, 2009, at 10 a.m., in room 216 of the Hart Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

### COMMITTEE ON HOMELAND SECURITY AND GOVERNMENTAL AFFAIRS

Mr. INOUE. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs be authorized to meet during the session of the Senate on September 29, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

### COMMITTEE ON THE JUDICIARY

Mr. INOUE. Mr. President, I ask unanimous consent that the Committee on the Judiciary, Subcommittee on Crime and Drugs, be authorized to meet during the session of the Senate, on September 29, 2009, at 2:30 p.m., in room SD-226 of the Dirksen Senate Office Building, to conduct a hearing entitled "Body Building Products and Hidden Steroids: Enforcement Barriers."

The PRESIDING OFFICER. Without objection, it is so ordered.

### AD HOC SUBCOMMITTEE ON CONTRACTING OVERSIGHT

Mr. INOUE. Mr. President, I ask unanimous consent that the Ad Hoc Subcommittee on Contracting Oversight of the Committee on Homeland Security and Governmental Affairs be authorized to meet during the session of the Senate on September 29, 2009, at 10 a.m. to conduct a hearing entitled, "Improving Transparency and Accessibility of Federal Contracting Databases."

The PRESIDING OFFICER. Without objection, it is so ordered.

### SUBCOMMITTEE ON CHILDREN'S HEALTH

Mr. INOUE. Mr. President, I ask unanimous consent that the Subcommittee on Children's Health of the Committee on Environment and Public Works be authorized to meet during the session of the Senate on September 29, 2009, at 9:30 a.m. in Dirksen room 406 to hold a hearing entitled, "Promoting and Improving Children's Health Protections."

The PRESIDING OFFICER. Without objection, it is so ordered.

## PRIVILEGES OF THE FLOOR

Mr. BOND. Mr. President, I ask unanimous consent that my military fellow, LTC John Moreth, be granted floor privileges for the duration of the consideration of H.R. 3326 on the floor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INOUE. Mr. President, I ask unanimous consent that a military fellow in the office of Senator CHRISTOPHER DODD, CPT Lindsay George, be granted floor privileges for the consideration of H.R. 3326, the Defense appropriations bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

## EXECUTIVE SESSION

### EXECUTIVE CALENDAR

Mr. REID. Mr. President, I ask unanimous consent the Senate proceed to executive session to consider Calendar Nos. 459, 460, 461, that the nominations be confirmed en bloc, the motions to reconsider be laid on the table en bloc, that no further motions be in order and any statements relating to the nominations be printed in the RECORD as if read; provided further that the President be immediately notified of the Senate's action and the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

### DEPARTMENT OF JUSTICE

Jenny A. Durkan, of Washington, to be United States Attorney for the Western District of Washington for the term of four years.

Florence T. Nakakuni, of Hawaii, to be United States Attorney for the District of Hawaii for the term of four years.

Deborah K.R. Gilg, of Nebraska, to be United States Attorney for the District of Nebraska for the term of four years.

## LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate returns to legislative session.

## UNANIMOUS CONSENT AGREEMENT—CONFERENCE REPORT TO ACCOMPANY H.R. 2918

Mr. REID. Mr. President, I ask unanimous consent that on Wednesday, September 30, following a period of morning business, the Senate proceed to consider the conference report to accompany H.R. 2918, the Legislative Branch appropriations; that all debate time until 4:30 be equally divided and controlled between Senators NELSON of

Nebraska and Senator MURKOWSKI or their designees; that if points of order are raised, any vote on the motions to waive occur beginning at 4:30 p.m. tomorrow and that no amendments be in order to the motions; I further ask consent that following the disposition of points of order, and if the motions to waive are successful, the Senate then proceed to the adoption of the conference report immediately, with 2 minutes of debate, equally divided, prior to each vote.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### APPOINTMENT OF CONFEREES— H.R. 2647

Mr. REID. Mr. President, with respect to the conferees on the Defense authorization measure, I ask unanimous consent that Senators KIRK and LEMIEUX be added to replace the late Senator Kennedy and recently retired Senator Martinez.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### EXTENDING BY ONE YEAR THE OPERATION OF RADIO FREE ASIA

#### REAUTHORIZING THE UNITED STATES ADVISORY COMMISSION ON PUBLIC DIPLOMACY

Mr. REID. I ask unanimous consent the Foreign Relations Committee be discharged from further consideration of H.R. 3593 and H.R. 2131 en bloc, and the Senate proceed to their immediate consideration en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bills by title.

The legislative clerk read as follows:

A bill (H.R. 3593) to amend the United States International Broadcasting Act of 1994 to extend by one year the operation of Radio Free Asia, and for other purposes.

A bill (H.R. 2131) to amend the Foreign Affairs Reform and Restructuring Act of 1998 to reauthorize the United States Advisory Commission on Public Diplomacy

There being no objection, the Senate proceeded to consider the bills.

Mr. REID. Mr. President, I ask unanimous consent the bills be read a third time and passed en bloc, the motions to reconsider be laid on the table en bloc, with no intervening action or debate, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 3593) was ordered to a third reading, was read the third time, and passed.

The bill (H.R. 2131) was ordered to a third reading, was read the third time, and passed.

#### CYBERSECURITY AWARENESS MONTH

Mr. REID. Mr. President, I ask unanimous consent that the Commerce,

Science, and Transportation Committees be discharged from further consideration of S. Res. 285, and that the Senate proceed to its consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 285) supporting the goals and ideals of national cybersecurity awareness month and raising and enhancing the state of cybersecurity in the United States.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motions to reconsider be laid upon the table en bloc; that any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 285) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

#### S. RES. 285

Whereas the use of the Internet in the United States, to communicate, conduct business, or generate commerce that benefits the overall United States economy, is ubiquitous;

Whereas many people use the Internet in the United States to communicate with family and friends, manage finances and pay bills, access educational opportunities, shop at home, participate in online entertainment and games, and stay informed of news and current events;

Whereas United States small businesses, which employ a significant fraction of the private workforce, increasingly rely on the Internet to manage their businesses, expand their customer reach, and enhance the management of their supply chain;

Whereas nearly all public schools in the United States have Internet access to enhance children's education, with a significant percentage of instructional rooms connected to the Internet to enhance children's education by providing access to educational online content and encouraging self-initiative to discover research resources;

Whereas the number of children who connect to the Internet continues to rise, and teaching children of all ages to become good cyber-citizens through safe, secure, and ethical online behaviors and practices is essential to protect their computer systems and potentially their physical safety;

Whereas the growth and popularity of social networking websites has attracted millions of teenagers, providing access to a range of valuable services, making it all the more important to teach young users how to avoid potential threats like cyber bullies, predators, and identity thieves they may come across while using such services;

Whereas cybersecurity is a critical part of the United States national security and economic security;

Whereas the United States critical infrastructures and economy rely on the secure and reliable operation of information networks to support the United States military, civilian government, energy, telecommunications, financial services, transportation,

health care, and emergency response systems;

Whereas Internet users and information infrastructure owners and operators face an increasing threat of malicious crime and fraud attacks through viruses, worms, Trojans, and unwanted programs such as spyware, adware, hacking tools, and password stealers, that are frequent and fast in propagation, are costly to repair, and may disable entire systems;

Whereas millions of records containing personally identifiable information have been lost, stolen, or breached, threatening the security and financial well-being of United States citizens;

Whereas consumers face significant financial and personal privacy losses due to personally identifiable information being more exposed to theft and fraud than ever before;

Whereas national organizations, policymakers, government agencies, private sector companies, nonprofit institutions, schools, academic organizations, consumers, and the media recognize the need to increase awareness of cybersecurity and the need for enhanced cybersecurity in the United States;

Whereas coordination between the numerous Federal agencies involved in cybersecurity efforts is essential to securing the cyber infrastructure of the United States;

Whereas the National Strategy to Secure Cyberspace, published in February 2003, recommends a comprehensive national awareness program to empower all people in the United States, including businesses, the general workforce, and the general population, to secure their own parts of cyberspace;

Whereas the White House's Cyberspace Policy Review, published in May 2009, recommends that the government initiate a national public awareness and education campaign to promote cybersecurity; and

Whereas the National Cyber Security Alliance, the Multi-State Information Sharing and Analysis Center, the Department of Homeland Security, and other organizations working to improve cybersecurity in the United States have designated October 2009 as the sixth annual National Cybersecurity Awareness Month which serves to educate the people of the United States about the importance of cybersecurity: Now, therefore, be it

*Resolved*, That the Senate—

(1) supports the goals and ideals of National Cybersecurity Awareness Month, as designated by the National Cyber Security Alliance, the Multi-State Information Sharing and Analysis Center, the Department of Homeland Security, and other organizations working to improve cybersecurity in the United States;

(2) continues to work with Federal agencies, businesses, educational institutions, and other organizations to enhance the state of cybersecurity in the United States; and

(3) congratulates the National Cyber Security Alliance, the Multi-State Information Sharing and Analysis Center, the Department of Homeland Security, and other organizations working to improve cybersecurity in the United States on the sixth anniversary of the National Cybersecurity Month during October 2009.

#### RELATIVE TO THE DEATH OF FORMER SENATOR HENRY L. BELLMON

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to S. Res. 293.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 293) relative to the death of Henry Louis Bellmon, former United States Senator for the State of Oklahoma.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. I ask unanimous consent the resolution and preamble be agreed to en bloc, and the motions to reconsider be laid upon the table en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 293) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

#### S. RES. 293

Whereas Henry Bellmon served as a United States Marine from 1942-1946, where he served as a platoon tank commander in the Pacific theater, and was awarded the Legion of Merit for his service in Saipan and the Silver Star for bravery in action on Iwo Jima;

Whereas Henry Bellmon served as a Major in the Marine Corps Reserve until 1954;

Whereas Henry Bellmon served two non-consecutive terms as governor of the State of Oklahoma from 1963-1967, when he was elected as the state's first Republican governor, and from 1987-1991; and

Whereas Henry Bellmon served the people of Oklahoma with distinction for 12 years in the United States Senate from 1969-1981;

*Resolved*, That the Senate has heard with profound sorrow and deep regret the announcement of the death of the Honorable Henry Bellmon, former member of the United States Senate.

*Resolved*, That the Secretary of the Senate communicate these resolutions to the House of Representatives and transmit an enrolled copy thereof to the family of the deceased.

*Resolved*, That when the Senate adjourns today, it stand adjourned as a further mark of respect to the memory of the Honorable Henry Bellmon.

#### ORDERS FOR WEDNESDAY, SEPTEMBER 30, 2009

Mr. REID. I ask unanimous consent that when the Senate completes its business today, it adjourn until 10 a.m. tomorrow, Wednesday, September 30;

that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate then proceed to a period of morning business for 1 hour, with Senators permitted to speak therein for up to 10 minutes each, with the time equally divided and controlled between the two leaders or their designees, with the Republicans controlling the first half and the majority controlling the final half; that following morning business, the Senate proceed to the consideration of the conference report to accompany H.R. 2918, the Legislative Branch Appropriations Act, as provided under the previous order; finally I ask that the Senate recess from 12:30 to 2:15 p.m. to allow for the weekly caucus luncheons.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### PROGRAM

Mr. REID. Mr. President, there will be at least three votes around 4:30 tomorrow afternoon.

#### ADJOURNMENT UNTIL 10 A.M. TOMORROW

Mr. REID. If there is no further business to come before the Senate, I ask unanimous consent that the Senate adjourn under the provisions of S. Res 293 as a mark of further respect to former Senator Henry Bellmon of Oklahoma.

There being no objection, the Senate, at 6:50 p.m., adjourned until Wednesday, September 30, 2009, at 10 a.m.

#### NOMINATIONS

Executive nominations received by the Senate:

##### DEPARTMENT OF DEFENSE

GLADYS COMMONS, OF VIRGINIA, TO BE AN ASSISTANT SECRETARY OF THE NAVY, VICE DOUGLAS A. BROOK, RESIGNED.

##### DEPARTMENT OF AGRICULTURE

HARRIS D. SHERMAN, OF COLORADO, TO BE UNDER SECRETARY OF AGRICULTURE FOR NATURAL RESOURCES AND ENVIRONMENT, VICE MARK EDWARD REY, RESIGNED.

HARRIS D. SHERMAN, OF COLORADO, TO BE A MEMBER OF THE BOARD OF DIRECTORS OF THE COMMODITY CREDIT CORPORATION, VICE MARK EDWARD REY.

##### DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

STEVEN L. JACQUES, OF KANSAS, TO BE AN ASSISTANT SECRETARY OF HOUSING AND URBAN DEVELOPMENT, VICE CATHY M. MACFARLANE.

##### DEPARTMENT OF HOMELAND SECURITY

ALAN D. BERSIN, OF CALIFORNIA, TO BE COMMISSIONER OF CUSTOMS, DEPARTMENT OF HOMELAND SECURITY, VICE W. RALPH BASHAM.

##### DEPARTMENT OF STATE

MICHAEL C. POLT, OF TENNESSEE, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF MINISTER-COUNSELOR, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF ESTONIA.

##### NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

ADELE LOGAN ALEXANDER, OF THE DISTRICT OF COLUMBIA, TO BE A MEMBER OF THE NATIONAL COUNCIL ON THE HUMANITIES FOR A TERM EXPIRING JANUARY 26, 2014, VICE MARGUERITE SULLIVAN, TERM EXPIRED.

##### EXECUTIVE OFFICE OF THE PRESIDENT

VICTORIA ANGELICA ESPINEL, OF THE DISTRICT OF COLUMBIA, TO BE INTELLECTUAL PROPERTY ENFORCEMENT COORDINATOR, EXECUTIVE OFFICE OF THE PRESIDENT. (NEW POSITION)

#### CONFIRMATIONS

Executive nominations confirmed by the Senate, September 29, 2009:

##### THE JUDICIARY

JEFFREY L. VIKEN, OF SOUTH DAKOTA, TO BE UNITED STATES DISTRICT JUDGE FOR THE DISTRICT OF SOUTH DAKOTA.

##### DEPARTMENT OF JUSTICE

JENNY A. DURKAN, OF WASHINGTON, TO BE UNITED STATES ATTORNEY FOR THE WESTERN DISTRICT OF WASHINGTON FOR THE TERM OF FOUR YEARS.

FLORENCE T. NAKAKUNI, OF HAWAII, TO BE UNITED STATES ATTORNEY FOR THE DISTRICT OF HAWAII FOR THE TERM OF FOUR YEARS.

DEBORAH K. R. GILG, OF NEBRASKA, TO BE UNITED STATES ATTORNEY FOR THE DISTRICT OF NEBRASKA FOR THE TERM OF FOUR YEARS.

#### WITHDRAWALS

Executive message transmitted by the President to the Senate on September 29, 2009 withdrawing from further Senate consideration the following nominations:

HARRIS D. SHERMAN, OF CALIFORNIA, TO BE UNDER SECRETARY OF AGRICULTURE FOR NATURAL RESOURCES AND ENVIRONMENT, VICE MARK EDWARD REY, RESIGNED, WHICH WAS SENT TO THE SENATE ON SEPTEMBER 10, 2009.

HARRIS D. SHERMAN, OF CALIFORNIA, TO BE A MEMBER OF THE BOARD OF DIRECTORS OF THE COMMODITY CREDIT CORPORATION, VICE MARK EDWARD REY, WHICH WAS SENT TO THE SENATE ON SEPTEMBER 10, 2009.

## HOUSE OF REPRESENTATIVES—Tuesday, September 29, 2009

The House met at 12:30 p.m. and was called to order by the Speaker pro tempore (Mr. CLAY).

### DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,  
September 29, 2009.

I hereby appoint the Honorable WM. LACY CLAY to act as Speaker pro tempore on this day.

NANCY PELOSI,  
*Speaker of the House of Representatives.*

### MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 6, 2009, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with each party limited to 30 minutes and each Member, other than the majority and minority leaders and the minority whip, limited to 5 minutes.

### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair notes a disturbance in the gallery in contravention of the law and rules of the House.

The Sergeant at Arms will remove those persons responsible for the disturbance and restore order to the gallery.

### RECOVERY ACT HAS INCREASED GDP

The SPEAKER pro tempore. The Chair recognizes the gentleman from Virginia (Mr. CONNOLLY) for 5 minutes.

Mr. CONNOLLY of Virginia. Mr. Speaker, this summer many of my colleagues on the other side of the aisle lined up to criticize the Recovery and Reinvestment Act on the floor of the House claiming it wasn't working. In an August 21 newsletter, the minority leader stated, "By any objective measure, the trillion-dollar 'stimulus' spending bill isn't working."

Let's examine some of those objective measures:

The number of new unemployment claims dropped in August, for the lowest total of the year. In addition, the

number of people claiming continuing unemployment benefits for more than 1 week decreased by 123,000. Unemployment remains a challenge, because, as we all know, unemployment is a lagging indicator. But because of the Recovery Act, we have saved 1 million jobs that otherwise would have been lost in this economy.

This June, home sales increased by 11 percent over May, the largest increase over 8 years. And total home sales this year have increased by 3.4 percent over 2008, indicating that the housing market is stabilizing.

After declining by 0.1 percent in the last economic quarter of the Bush administration, U.S. productivity growth has increased 6.6 percent in the most recent quarter.

The manufacturing sector is improving. Orders for durable goods were up 4.9 percent in July, the largest increase in 2 years, and has risen in 3 of the past 5 months.

The Consumer Confidence Index rose once again in August to 54.1, more than double the February low of 25, demonstrating that consumers are viewing the economy in an increasingly positive light.

The Dow Jones Industrial Average has grown more than 11 percent this year, returning value to 401(k)s and college funds of American families. We know there is a lot more to be done, but even Republican economists have stated the stimulus is working.

Mark Zandi, the economic adviser to JOHN MCCAIN's Presidential campaign last year, said that the stimulus has contributed to GDP growth. He stated, "As the fiscal stimulus provides its maximum benefit in the next few months, real GDP should turn from negative to positive in the current quarter." Current projections show that the Recovery Act increased GDP by 2.3 percent this year.

When we voted on the Recovery Act this winter, economists from across the political spectrum emphatically stated that a fiscal stimulus was essential. Dr. Zandi, for example, stated, "The stimulus plan as laid out will provide a vital boost to a flagging economy." President Reagan's chief economic adviser Martin Feldstein testified before a joint House and Senate committee that a large fiscal stimulus would be essential to avoid catastrophic unemployment. Ben Bernanke, the Republican-appointed Chairman of the Federal Reserve stated, "The incoming administration and Congress are currently discussing a substantial fiscal

package that, if enacted, could provide a significant boost to economic activity." Since then, that same Chairman has said explicitly that the stimulus bill for the recovery is, in fact, responsible for a large part of that recovery.

Dr. Zandi, Dr. Feldstein, and Chairman Bernanke were all right, as the objective data now shows.

My friends on the other side of the aisle have made a decision to oppose virtually every initiative of President Obama no matter what the substance or content. Now, as President Obama sets to reform our broken health care system, they are at it once again, refusing to play a constructive role in the process.

President Obama has worked toward a bipartisan solution for health care and has made a number of positive overtures to incorporate several concepts proposed by the Republican side of the aisle. For example, he committed to tort reform. He embraced Senator JOHN MCCAIN's initiative on providing low-cost protection for individuals with preexisting medical conditions. He pledged to work with any serious effort to improve and provide more affordable, accessible health care for all Americans. Despite the fact that the President has incorporated Republican ideas and proposals into his plan, the other side still refuses to work with him. Their plan: Just say, "no."

When faced with the largest recession since World War II, the American people didn't want partisan bickering; they wanted solutions. With the Recovery Act and other stabilizing measures, we have enacted those solutions, and we have seen positive results. Our economic recovery efforts are working. But the Republicans just said, "no."

The need for health care reform is clear. Health insurance premiums over the past decade have increased three times greater than incomes, and they will increase 5 percent more this year. Millions of Americans with preexisting medical conditions are finding themselves unable to access health care even if they have health insurance. A recent survey by the Kaiser Family Foundation revealed that without reform, 8 percent of businesses will drop health insurance for their employees altogether. And still, Republicans are saying, "no."

When providing affordable and accessible health care, the American people will not accept "no" for an answer any longer. They want to hear us say, "yes."

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

## RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until 2 p.m. today.

Accordingly (at 12 o'clock and 38 minutes p.m.), the House stood in recess until 2 p.m.

□ 1400

## AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. TONKO) at 2 p.m.

## PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer: Have we hardened our hearts, O Lord?

You have said: "If today you hear the voice of the Lord, harden not your hearts."

Once the heart is deadened by indifference to Your Word or to the cry of a neighbor in need, where do we find ourselves? Alone and cold.

How are we to find happiness? Only love can melt the hardened heart.

When the adventure of sensual love has run its course or unfaithful love stabs betrayal, the heart may become paralyzed or broken.

In the stillness, Lord, quiet memory brings us back to You. Believing we are born out of love and have searched for its fulfillment all life long, moments of true love once found in truth and beauty fall into place. Your grace then steps through the open cracks and we come to know by heart:

"I am with you"—now and forever. Amen.

## THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

## PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentlewoman from Arizona (Mrs. KIRKPATRICK) come forward and lead the House in the Pledge of Allegiance.

Mrs. KIRKPATRICK of Arizona led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

## COMMUNICATION FROM THE HONORABLE PATRICK MCHENRY, MEMBER OF CONGRESS

The SPEAKER pro tempore laid before the House the following commu-

nication from the Honorable PATRICK MCHENRY, Member of Congress:

CONGRESS OF THE UNITED STATES,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, September 28, 2009.

Hon. NANCY PELOSI,  
Speaker, House of Representatives, Washington, DC.

DEAR MADAM SPEAKER: This is to notify you formally, pursuant to Rule VIII of the Rules of the House of Representatives, that I have been served with a subpoena for deposition testimony issued by the District court of Caldwell, State of North Carolina in connection with a civil case now pending in the same court.

After consultation with the Office of General Counsel, I will make the determinations required by Rule VIII.

Sincerely,

PATRICK T. MCHENRY,  
Member of Congress.

## WE MUST RETURN TO BALANCED BUDGETS AND PAY DOWN OUR NATIONAL DEBT

(Mrs. KIRKPATRICK of Arizona asked and was given permission to address the House for 1 minute.)

Mrs. KIRKPATRICK of Arizona. Mr. Speaker, I first want to welcome two people from my district who are in the House gallery today, Ken and Teresa Lamont from Cottonwood, Arizona.

Welcome to the House.

The time is now to develop a plan for the United States to return to balanced budgets and pay down our national debt.

Yes, these are difficult decisions to make. However, the folks in my district and across the country are tightening their belts and doing more with less. It is time for Congress to work with the Federal Reserve and the Treasury to develop plans to do the same before it is too late.

We must take this work seriously and remain committed. Our country, our security, and our future depend on it.

I ask that my colleagues from both sides of the aisle join me in this effort.

## DANCING WITH THE CZARS

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, we have 44 czars in America and the dance card keeps growing. The new czar for the day is the safe schools czar.

Add that to the Afghanistan-Pakistan czar, the AIDS czar, auto recovery czar, behavioral science czar, bailout czar, border czar, car czar, climate change czar, copyright czar, counterterrorism czar, cybersecurity czar, diversity czar, disinformation czar, two economic czars, an education czar, energy czar, food czar, government performance czar, Great Lakes czar, Gitmo closure czar, health care czar, info tech czar, intelligence czar, Latin American czar, Mideast peace czar,

Mideast policy czar, pay czar, regulatory czar, religion or God czar, science czar, stimulus czar, Sudan czar, TARP czar, technology czar, trade czar, urban affairs czar, war czar, water czar, weapons czar. And now we have a safe schools czar.

Who are these people, and what do they do? Is this a shadow government?

Since we continue to dance with the czars, it would be nice to know who brought us to the dance.

And that's just the way it is.

## HONORING KEITH MORRISON AS AN ANGEL IN ADOPTION

(Mr. BOOZMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BOOZMAN. Mr. Speaker, I rise today to honor Keith Morrison of Fayetteville, Arkansas, as an Angel in Adoption. Keith is very deserving of this honor and recognition because of his work and dedication to finding children from around the world permanent families.

Working as an attorney since 1984, he has represented hundreds of families throughout the United States both in domestic and international adoptions. Morrison also regularly represents private adoption agencies. He continues his work beyond the walls of his office, helping start church adoption ministries and raising funds to support families with adoption-related expenses. He also regularly counsels others who are considering beginning or working their way through the adoption process. Finally, he and his wife have found fulfillment in adoption, adopting both domestically and internationally.

I commend him for his leadership and his selfless service to unite children with loving families. I'm proud to recognize his effort and accomplishments. And I ask my colleagues today to join with me in honoring Keith and the other Angels who are working to create a better life for children all around the world.

## NATIONAL MEDIA FACE CREDIBILITY VOID

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mr. SMITH of Texas. Mr. Speaker, the national media don't have a credibility problem; they have a credibility void.

Five out of six Americans see the national news media as "very or somewhat biased," according to a new poll by Sacred Heart University. Six out of seven Americans say the media have their own political and public policy positions and attempt to influence opinion and policy.

Nearly nine out of ten Americans say the media played a strong role in electing Barack Obama as President. Seven in ten say the national media are intent on promoting the Obama presidency. And a majority say the media are promoting the White House's health care plan without criticism.

The poll found that biased reporting is driving away the media's audience. Almost half of Americans have stopped watching a news outlet because of media bias.

If the national media want to keep their remaining audience, they need to restore Americans' trust by giving them the facts, not telling them what to think.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken after 6:30 p.m. today.

#### UNITED STATES CIVIL RIGHTS TRAIL SPECIAL RESOURCE STUDY ACT OF 2009

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 685) to require a study of the feasibility of establishing the United States Civil Rights Trail System, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 685

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

*This Act may be cited as the "United States Civil Rights Trail Special Resource Study Act of 2009".*

#### SEC. 2. SPECIAL RESOURCE STUDY REGARDING PROPOSED UNITED STATES CIVIL RIGHTS TRAIL.

(a) **STUDY REQUIRED.**—The Secretary of the Interior shall conduct a special resource study for the purpose of evaluating a range of alternatives for protecting and interpreting sites associated with the struggle for civil rights in the United States, including alternatives for potential addition of some or all of the sites to the National Trails System.

(b) **CONSULTATION.**—The Secretary shall conduct the special resource study in consultation with appropriate Federal, State, county, and local governmental entities.

(c) **STUDY REQUIREMENTS.**—The Secretary shall conduct the study required under subsection (a) in accordance with section 8(c) of Public Law 91-383 (16 U.S.C. 1a-5(c)) and section 5(b) of the National Trails System Act (16 U.S.C. 1244(b)), as appropriate.

(d) **STUDY OBJECTIVES.**—In conducting the special resource study, the Secretary shall evaluate alternatives for achieving the following objectives:

(1) *Identifying the resources and historic themes associated with the movement to secure racial equality in the United States for African Americans that, focusing on the period from 1954 through 1968, challenged the practice of racial segregation in the Nation and achieved equal rights for all American citizens.*

(2) *Making a review of existing studies and reports, such as the Civil Rights Framework Study, to complement and not duplicate other studies of the historical importance of the civil rights movements that may be underway or undertaken.*

(3) *Establishing connections with agencies, organizations, and partnerships already engaged in the preservation and interpretation of various trails and sites dealing with the civil rights movement.*

(4) *Protecting historically significant landscapes, districts, sites, and structures.*

(5) *Identifying alternatives for preservation and interpretation of the sites by the National Park Service, other Federal, State, or local governmental entities, or private and nonprofit organizations, including the potential inclusion of some or all of the sites in a National Civil Rights Trail.*

(6) *Identifying cost estimates for any necessary acquisition, development, interpretation, operation, and maintenance associated with the alternatives developed under the special resource study.*

(e) **REPORT.**—Not later than 3 years after the date on which funds are made available to carry out this section, the Secretary shall submit to the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report containing the results of the study conducted under subsection (c) and any recommendations of the Secretary with respect to the route.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Virginia (Mr. WITTMAN) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

#### GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, I yield myself such time as I may consume.

We must never forget the struggle for racial equality that spanned our Nation in the 1950s and the 1960s nor the people who waged that fight to obtain basic civil rights for all Americans.

The many sites linked to the civil rights movement together tell the story of how it profoundly transformed our history.

H.R. 685, as amended, authorizes the National Park Service to complete a Special Resource Study to analyze alternatives and make recommendations for the preservation and the interpretation of these multiple sites, including a possible national Civil Rights Trail linking the sites with common maps, signs, and educational material.

Mr. Speaker, we commend our distinguished colleague, Representative WILLIAM LACY CLAY, for his vision and dedication to this legislation. We support passage of H.R. 685 and urge its adoption by the House today.

Mr. Speaker, I reserve the balance of my time.

Mr. WITTMAN. Mr. Speaker, I yield myself such time as I may consume.

H.R. 685 has been adequately explained by chairwoman BORDALLO, and we thank her for that effort.

We support the legislation with the understanding that the original intent of the bill is being preserved. The National Park Service proposed changes that would have prevented the program from focusing on the history of the movement to overcome slavery and racial discrimination and instead would have directed it to include other political causes, and we appreciate that change.

We agree with the intent of the bill's sponsor, Mr. CLAY, that the trail system tells the story of the struggle for civil rights based on racial equality. We thank Mr. CLAY for his leadership and efforts on those lines and in bringing this bill forward.

Mr. Speaker, I reserve the balance of my time.

Ms. BORDALLO. Mr. Speaker, I yield such time as he may consume to the author of this legislation, the gentleman from Missouri (Mr. CLAY).

Mr. CLAY. First of all, I thank the chairwoman, Ms. BORDALLO, as well as the ranking member, Mr. WITTMAN, for their assistance on this legislation.

Mr. Speaker, as the sponsor of this legislation, along with Congressman ZACH WAMP of Tennessee, I am pleased to present H.R. 685 for consideration by the House today. I also want to thank my good friend, chairman of the Subcommittee on National Parks, Forests and Public Lands, RAÚL GRIJALVA, for guiding this legislation through the committee process.

This legislation will fully recognize the remarkable American story of the struggle for civil rights. That ongoing journey stretches across three centuries through multiple generations and touches every American.

The United States Civil Rights Trail Special Resource Study Act of 2009 would recognize those brave souls who fought to make the promises enshrined in our Constitution ring true. In many places across this Nation and for far too long, that story is still incomplete and remains largely untold.

H.R. 685 would authorize a study by the Secretary of the Interior to determine the feasibility of establishing a national trail system marking the geographic location of historically significant events related to the fight for racial equality in the United States.

□ 1415

The American civil rights movement challenged the practice of racial segregation in the Nation and achieved

equal rights for all American citizens. It is my hope that this bill and the resulting historic civil rights trails will tell the full and sometimes painful story of the struggle for civil rights. The knowledge and understanding gained from the trails will provide this generation and those who follow us with tremendous educational opportunities.

Let me close by urging all of my colleagues to support the bill.

Mr. WITTMAN. Mr. Speaker, I have no additional speakers, and I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I again urge Members to support this very important piece of legislation.

Mr. LEWIS of Georgia. Mr. Speaker, I rise today in strong support of the United States Civil Rights Trail System Act of 2009. I would like to commend my colleagues and friends, Congressman WILLIAM LACY CLAY and Congressman ZACH WAMP for championing this important legislation.

The fight for civil rights was one of the most significant social and cultural movements in our nation's history. Because of the hundreds and thousands of ordinary people with extraordinary vision who participated in the Civil Rights Movement, we witnessed a nonviolent revolution under the rule of law, a revolution of values and ideas that changed this nation forever. We must ensure that the next generation, and the current generation, learn and do not forget the story of the Civil Rights Movement and the ideals that it strove to achieve. This proposed system of trails, would mark the geographic locations in the United States of historically significant events tied to the struggles for racial equality. I saw firsthand the struggle and the pains that ordinary citizens endured at many of these sites to help break down the walls of segregation and their efforts must be memorialized and never forgotten. It is my hope, and belief, that this trail system will help to educate and inspire the next generation of Civil Rights leaders who still have many fights ahead of them. This act will help to preserve and protect the legacy and the story of the Movement for future generations and I urge all of my colleagues to support it.

Mr. WAMP. Mr. Speaker, I rise today in support of H.R. 685, the United States Civil Rights Trail Act. I joined with my colleague, Mr. CLAY, to introduce this legislation.

From 1954 through 1968, many significant events of the Civil Rights Movement took place in the United States. On February 1, 1960, in Greensboro, North Carolina, four courageous African-American students from the North Carolina Agricultural and Technical College took their seats at the lunch counter of the F. W. Woolworth Company, but the store refused to serve them at the counter. One of the students stated that, "We believe, since we buy books and papers in other parts of the store, we should get served in this part." Over the next several days, they sat peacefully at the lunch counter in quiet protest, and close to a hundred others joined them. Soon, thousands across the South joined the students' protest and conducted lunch counter sit-ins of their own.

While many may only think of events that occurred in southern and eastern States, there

were important events in other parts of the country where individuals overcame injustice. In Washington, D.C., in 1961, 13 individuals of different races, known as the Freedom Riders, boarded a bus bound for New Orleans, Louisiana, in an attempt to desegregate places of public accommodations. Their courage and sacrifice led to the desegregation of all public places under Title II of the Civil Rights Act of 1964. To learn more about other events, the Civil Rights Trail System Act would authorize the Secretary of the Interior to study the feasibility of establishing a national trail system to mark locations in the United States (including its territories) of historically significant events related to the struggle for racial equality.

With this study and the help of an advisory committee of experts in historic preservation and African-American history, the Secretary of the Interior would provide information about the many people and places that played such an important role in the Civil Rights Movement for all Americans, and everyone would have the opportunity to stand and breathe the air where history was made. The Secretary would first establish at least six national trails in States where significant civil rights events occurred, with other trails sure to follow as documentation is available.

This legislation provides the U.S. Congress an opportunity to honor those who were a part of a movement that ensured that everyone was created equal and that everyone had the freedom to achieve the American dream. The trail system would serve as a marker for how far our country has come and would remain for future generations so that our history is accurate and instructive on all that is necessary for justice and equality to reign down on our land.

Mr. Speaker, I urge all my colleagues to support this important legislation.

Mr. JOHNSON of Georgia. Mr. Speaker, I rise today in support of H.R. 685, the United States Civil Rights Trail System Act of 2009. This legislation would direct the Archivist of the United States to conduct a study of the feasibility of establishing the United States Civil Rights Trail System. The State of Georgia is home to numerous historic civil rights landmarks including Albany, Georgia, home to the Albany Movement, which was led by Dr. Martin Luther King Jr., and Savannah, Georgia, which desegregated public and private facilities eight months ahead of federal civil rights legislation. Savannah was once described as the most desegregated city south of the Mason-Dixon Line. I strongly support H.R. 685 and I urge my colleagues to support this important resolution.

H.R. 685 simply seeks to unify our nation's civil rights landmarks through maps and other resources. This will facilitate remembrance of the struggles for civil rights based on racial equality as well as provide information about the ordinary individuals, some of whom gave up their lives, for the right to equal rights. The civil rights landmarks highlighted in this trail signify to a period that many here today are too young to remember, and would be held as a tribute to a historic era. By chronicling such historic civil rights landmarks including the Montgomery Bus Boycotts, the Greensboro sit-in, and the historic marches from Selma to Montgomery, Alabama, we can bring true rec-

ognition to the numerous historical sites that led to the passage of the Civil Rights Act of 1964, and the Voting Rights Act of 1965. It is my hope that in the future, we can truly create equality for all. This is an important issue and I applaud the efforts of this Congress to emphasize the importance of civil rights landmarks around the country.

Ms. BORDALLO. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 685, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The title was amended so as to read: "A bill to require the Secretary of the Interior to conduct a special resource study regarding the proposed United States Civil Rights Trail, and for other purposes."

A motion to reconsider was laid on the table.

#### BAY AREA REGIONAL WATER RECYCLING PROGRAM EXPANSION ACT OF 2009

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2442) to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to expand the Bay Area Regional Water Recycling Program, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2442

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Bay Area Regional Water Recycling Program Expansion Act of 2009".

#### SEC. 2. PROJECT AUTHORIZATIONS.

(a) IN GENERAL.—The Reclamation Wastewater and Groundwater Study and Facilities Act (43 U.S.C. 390h et seq.) (as amended by section 512(a) of the Consolidated Natural Resources Act of 2008) is amended by adding at the end the following:

#### "SEC. 16. CCCSD-CONCORD RECYCLED WATER PROJECT.

"(a) AUTHORIZATION.—The Secretary, in cooperation with the Central Contra Costa Sanitary District, California, is authorized to participate in the design, planning, and construction of recycled water distribution systems.

"(b) COST SHARE.—The Federal share of the cost of the project authorized by this section shall not exceed 25 percent of the total cost of the project.

"(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project authorized by this section.

"(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$1,800,000.

**"SEC. 16 \_\_\_\_ . CENTRAL DUBLIN RECYCLED WATER DISTRIBUTION AND RETROFIT PROJECT.**

"(a) AUTHORIZATION.—The Secretary, in cooperation with the Dublin San Ramon Services District, California, is authorized to participate in the design, planning, and construction of recycled water system facilities.

"(b) COST SHARE.—The Federal share of the cost of the project authorized by this section shall not exceed 25 percent of the total cost of the project.

"(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project authorized by this section.

"(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$1,150,000.

**"SEC. 16 \_\_\_\_ . PETALUMA RECYCLED WATER PROJECT, PHASES 2A, 2B, AND 3.**

"(a) AUTHORIZATION.—The Secretary, in cooperation with the City of Petaluma, California, is authorized to participate in the design, planning, and construction of recycled water system facilities.

"(b) COST SHARE.—The Federal share of the cost of the project authorized by this section shall not exceed 25 percent of the total cost of the project.

"(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project authorized by this section.

"(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$6,000,000.

**"SEC. 16 \_\_\_\_ . CENTRAL REDWOOD CITY RECYCLED WATER PROJECT.**

"(a) AUTHORIZATION.—The Secretary, in cooperation with the City of Redwood City, California, is authorized to participate in the design, planning, and construction of recycled water system facilities.

"(b) COST SHARE.—The Federal share of the cost of the project authorized by this section shall not exceed 25 percent of the total cost of the project.

"(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project authorized by this section.

"(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$8,000,000.

**"SEC. 16 \_\_\_\_ . PALO ALTO RECYCLED WATER PIPELINE PROJECT.**

"(a) AUTHORIZATION.—The Secretary, in cooperation with the City of Palo Alto, California, is authorized to participate in the design, planning, and construction of recycled water system facilities.

"(b) COST SHARE.—The Federal share of the cost of the project authorized by this section shall not exceed 25 percent of the total cost of the project.

"(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project authorized by this section.

"(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$8,250,000.

**"SEC. 16 \_\_\_\_ . IRONHOUSE SANITARY DISTRICT (ISD) ANTIOCH RECYCLED WATER PROJECT.**

"(a) AUTHORIZATION.—The Secretary, in cooperation with the Ironhouse Sanitary District (ISD), California, is authorized to participate in the design, planning, and construction of recycled water distribution systems.

"(b) COST SHARE.—The Federal share of the cost of the project authorized by this section

shall not exceed 25 percent of the total cost of the project.

"(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project authorized by this section.

"(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$7,000,000."

(b) PROJECT IMPLEMENTATION.—In carrying out sections 1642 through 1648 of the Reclamation Wastewater and Groundwater Study and Facilities Act and the sections added to such Act by subsection (a), the Secretary shall enter into individual agreements with the San Francisco Bay Area Regional Water Recycling implementing agencies to fund the projects through the Bay Area Clean Water Agencies (BACWA) or its successor, and shall include in such agreements a provision for the reimbursement of construction costs, including those construction costs incurred prior to the enactment of this Act, subject to appropriations made available for the Federal share of the project under sections 1642 through 1648 of the Reclamation Wastewater and Groundwater Study and Facilities Act and the sections added to such Act by subsection (a).

(c) CLERICAL AMENDMENTS.—The table of contents of the Reclamation Projects Authorization and Adjustment Act of 1992 (43 U.S.C. prec. 371) (as amended by section 512(a) of the Consolidated Natural Resources Act of 2008) is amended by inserting after the item relating to section 1648 the following new items:

- "Sec. 16 \_\_\_\_ . CCCSD-Concord recycled water project.
- "Sec. 16 \_\_\_\_ . Central Dublin recycled water distribution and retrofit project.
- "Sec. 16 \_\_\_\_ . Petaluma recycled water project, phases 2a, 2b, and 3.
- "Sec. 16 \_\_\_\_ . Central Redwood City recycled water project.
- "Sec. 16 \_\_\_\_ . Palo Alto recycled water pipeline project.
- "Sec. 16 \_\_\_\_ . Ironhouse Sanitary District (ISD) Antioch recycled water project."

**SEC. 3. MODIFICATION TO AUTHORIZED PROJECTS.**

(a) ANTIOCH RECYCLED WATER PROJECT.—Section 1644(d) of the Reclamation Wastewater and Groundwater Study and Facilities Act (43 U.S.C. 390h-27) (as amended by section 512(a) of the Consolidated Natural Resources Act of 2008) is amended by striking "\$2,250,000" and inserting "\$3,125,000".

(b) SOUTH BAY ADVANCED RECYCLED WATER TREATMENT FACILITY.—Section 1648(d) of the Reclamation Wastewater and Groundwater Study and Facilities Act (43 U.S.C. 390h-31) (as amended by section 512(a) of the Consolidated Natural Resources Act of 2008) is amended by striking "\$8,250,000" and inserting "\$13,250,000".

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Virginia (Mr. WITTMAN) each will control 20 minutes.

The Chair now recognizes the gentlewoman from Guam.

**GENERAL LEAVE**

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, H.R. 2442, introduced by our colleague, Representative GEORGE MILLER of California, would authorize six projects as part of the Bay Area Regional Water Recycling Program. When completed, these projects are expected to create up to 14,470 acre-feet of recycled water.

At a time, Mr. Speaker, when imported water in California is unreliable, the Title XVI water recycling program is a tool that communities can use to create a reliable local supply to meet future demands for both northern and southern California and across the West.

So I ask my colleagues to support passage of this very important legislation.

I reserve the balance of my time.

Mr. WITTMAN. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, the chairwoman has adequately described the legislation, and as my colleagues know, areas throughout the West are experiencing significant drought. Communities are faced with overcoming long-term water shortages as a result, and some communities have built water storage reservoirs while others have sought alternative water supplies through water recycling. This bill seeks to assist the bay area of California to help construct water recycling facilities.

Mr. GEORGE MILLER of California. Mr. Speaker, I want thank Chairwoman NAPOLITANO and Chairman RAHALL for bringing this legislation to the floor, and thank Ranking Members HASTINGS and MCCLINTOCK for their consideration.

This bill, H.R. 2442, represents a very exciting opportunity for California. With the Bay Area Regional Water Recycling Program Expansion Act of 2009, we are bringing an innovative new program online that reduces our state's demands for fresh water from the Bay-Delta.

The six new water reuse projects authorized in today's legislation are projected to save 2.6 billion gallons of water per year.

The six water projects contained this bill add enough water to the system to meet the needs of 24,225 households—that's the equivalent to serving every household in Pittsburg and most in Bay Point.

These projects will help the cities of Concord, Dublin, Petaluma, Redwood City, Antioch, and throughout the Palo Alto area including Stanford University.

But more importantly, these water projects will help the state as a whole.

This bill—and others like it, is a critical piece of the puzzle. We cannot solve California's water situation without a significant investment in recycling wastewater and putting it to beneficial use.

This program is a smart and efficient way to conserve water supplies, lessen our impact on our natural resources, and create jobs and support local businesses.

Today's bill expands on a successful partnership that the Congress has already authorized—in total, the 14 water reuse projects that the Bay Area partnership is building will produce nearly 100,000 acre-feet of water per year.

The bill before us today allows us to take some of the pressure off the Bay-Delta, and it authorizes cities across the Bay Area to join in a strong Federal-State local partnership that is providing our region a sustainable and reliable clean water supply.

I urge my colleagues to support H.R. 2442.

Mr. WITTMAN. Mr. Speaker, I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 2442, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. BROUN of Georgia. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

#### ALLOWING FOR PREPAYMENT OPTION FOR UTAH WATER CONSERVANCY DISTRICT CONTRACT

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2950) to direct the Secretary of the Interior to allow for prepayment of repayment contracts between the United States and the Uintah Water Conservancy District, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2950

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. PREPAYMENT OF CERTAIN REPAYMENT CONTRACTS BETWEEN THE UNITED STATES AND THE UTAH WATER CONSERVANCY DISTRICT.

*The Secretary of the Interior shall allow for prepayment of the repayment contract no. 6-05-01-00143 between the United States and the Uintah Water Conservancy District dated June 3, 1976, and supplemented and amended on November 1, 1985, and on December 30, 1992, providing for repayment of municipal and industrial water delivery facilities for which repayment is provided pursuant to such contract, under terms and conditions similar to those used in implementing section 210 of the Central Utah Project Completion Act (Public Law 102-575), as amended. The prepayment—*

*(1) shall result in the United States recovering the net present value of all repayment streams that would have been payable to the United States if this Act was not in effect;*

*(2) may be provided in several installments to reflect substantial completion of the delivery facilities being prepaid, and any increase in the repayment obligation resulting from delivery of*

*water in addition to the water being delivered under this contract as of the date of enactment of this Act;*

*(3) shall be adjusted to conform to a final cost allocation including costs incurred by the Bureau of Reclamation, but unallocated as of the date of the enactment of this Act that are allocable to the water delivered under this contract;*

*(4) may not be adjusted on the basis of the type of prepayment financing used by the District; and*

*(5) shall be made such that total repayment is made not later than September 30, 2019.*

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Virginia (Mr. WITTMAN) each will control 20 minutes.

The Chair now recognizes the gentlewoman from Guam.

#### GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, H.R. 2950, as amended, would allow a water district in central Utah to pay off the debt it owes to the Federal Government early. The bill, sponsored by Congressman JIM MATHESON of Utah, has broad bipartisan support.

I ask my colleagues to support passage of this important legislation.

I reserve the balance of my time.

Mr. WITTMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today I rise in support of this legislation. This bill would allow the Uintah Water Conservancy District to prepay its contractual commitment to the U.S. Treasury. This prepayment will bring much-needed funds to the Federal Treasury over a 10-year period.

Unfortunately, current Federal law does not allow most water districts with Federal water contracts to prepay their balances. This is similar to prohibiting a homeowner from prepaying a mortgage loan. Congress must enact a law each time a water district wants to prepay its balance on a Bureau of Reclamation project.

For this reason, Water and Power Subcommittee Ranking Member TOM MCCLINTOCK has indicated that he may author general legislation to allow more water districts to prepay their contracts without congressional approval. That would mean that water districts are not saddled with longer-term debts and taxpayers will benefit.

With that, I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I yield to the gentleman from Utah (Mr. MATHESON), the author of this legislation, such time as he may consume.

Mr. MATHESON. Mr. Speaker, I would really like to thank Chairman

RAHALL for moving this bill so quickly, and folks on both sides of the aisle on the Resources Committee have been very helpful in moving this bill.

As was discussed, this legislation will allow the Uintah Water Conservancy District to better use its resources to prepay its debt to the Federal Government.

Rural counties in Utah—the second-most arid State in the Nation—have a significant need for water that has only increased over time. The water in Uintah County is utilized by both municipalities, irrigators, and manufacturing industries. This bill will move us towards greater assurance of the development of water supplies in that part of our State.

I will just point out the Uintah Water Conservancy District has operated and maintained both the Vernal and Jensen units of the Central Utah Project since 1956. It has been around for a long time, and the debt that the county would like to prepay, which is the subject of this legislation, was incurred to construct a water project that is part of the original Central Utah Project.

Now, the district has always made its payments on time, but we have a circumstance now where its capability and its financing create a situation where it makes economic sense for it to prepay its debt; and, interestingly enough, at the same time, the CBO scores this as a positive for the Federal Government as well. So this is one of those classic win-wins, where a local water conservancy district can prepay its debt and do right by its constituents, and it also assists the Federal Government in terms of a positive score from CBO in terms of how it affects the Federal finances as well.

As was mentioned, the bill has broad bipartisan support. I do want to thank everyone on both sides of the aisle—both members and staff on the Resources Committee—for helping us with this.

I would add one other point that the gentleman from Virginia mentioned. It is unfortunate that we have to do a bill every time to allow for this type of prepayment. This is pretty common sense, and a decision in the private sector gets made all the time. And so I would encourage the effort to try to come up with a broader piece of legislation that will allow us to look at this issue in a more extensive way.

I encourage passage of the bill.

Ms. BORDALLO. Mr. Speaker, I again urge Members to support this very important piece of legislation.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 2950, as amended.

The question was taken; and (two-thirds being in the affirmative) the

rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

#### LEADVILLE MINE DRAINAGE TUNNEL REMEDIATION ACT OF 2009

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3123) to direct the Secretary of the Interior, acting through the Bureau of Reclamation, to remedy problems caused by a collapsed drainage tunnel in Leadville, Colorado, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3123

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. LEADVILLE MINE DRAINAGE TUNNEL REMEDIATION.

(a) **SHORT TITLE.**—This section may be cited as the “Leadville Mine Drainage Tunnel Remediation Act of 2009”.

(b) **TUNNEL REMEDIATION.**—The Reclamation Projects Authorization and Adjustment Act of 1992 (Public Law 102-575) is amended as follows:

(1) By striking section 705.

(2) In section 708(a)—

(A) by striking “(a)” and inserting “(a)(1)”;

(B) by striking “The Secretary shall have” and inserting “Except as provided by paragraph (2), the Secretary shall have”; and

(C) by adding at the end the following:

“(2) The Secretary shall participate in the implementation of the operable unit 6 remedy for the California Gulch Superfund Site, including, but not limited to, the following actions:

“(A) Treating water behind any blockage or bulkhead in the Leadville Mine Drainage Tunnel, including surface water diverted into the Tunnel workings as part of the remedy.

“(B) Managing and maintaining the mine pool behind such blockage or bulkhead at a level that precludes surface runoff and releases and minimizes the potential for tunnel failure due to excessive water pressure in the tunnel.”.

(3) In section 708(f), by striking “and 708” and inserting “, 708, and 709”.

(4) By adding at the end of title VII the following:

#### “SEC. 709. TUNNEL MAINTENANCE.

“The Secretary shall take such steps to repair or maintain the structural integrity of the Leadville Mine Drainage Tunnel (LMDT) as may be necessary in order to prevent tunnel failure and to preclude uncontrolled release of water from any portion of the tunnel.”.

(5) In the table of sections contained in section 2—

(A) by striking the item relating to section 705; and

(B) by inserting after the item relating to section 708 the following new item:

“Sec. 709. Tunnel maintenance.”.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Virginia (Mr. WITTMAN) each will control 20 minutes.

The Chair now recognizes the gentlewoman from Guam.

#### GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, H.R. 3123, introduced by our colleague, Representative DOUG LAMBORN, would direct the Bureau of Reclamation to remedy problems caused by collapses in the Leadville Mine Drainage Tunnel. Due to structural deterioration, contaminated water has backed up in the tunnel, posing a public health threat and an environmental threat.

I ask my colleagues to support the bill's passage.

I reserve the balance of my time.

Mr. WITTMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today I rise in support of this legislation offered by our Colorado colleague, DOUG LAMBORN. This legislation has been supported on a bipartisan basis and deserves passage today because it will help prevent a potential human safety disaster in Leadville, Colorado.

The Leadville Mine Tunnel was supposed to be used for a nearby Federal water project; however, it has ended up becoming a public danger because of its potential to burst with chemical-laden water on nearby residents. Since the Federal Government owns this tunnel, it is therefore a Federal responsibility.

I urge my colleagues to support this necessary legislation which fell victim to party politics earlier this year.

Mr. Speaker, I yield 5 minutes to the gentleman from Colorado (Mr. LAMBORN).

Mr. LAMBORN. I thank my colleague for yielding.

Mr. Speaker, the Leadville Mine Drainage Tunnel was originally constructed by the Federal Bureau of Mines in the 1940s and 1950s to facilitate the extraction of lead and zinc ore for the World War II and Korean war efforts. The Bureau of Reclamation acquired the tunnel in 1959 hoping to use it as a source of water for the Frypan-Arkansas project.

With the passage and subsequent signing into law of H.R. 429 during the 102d Congress in 1992, the Bureau of Reclamation constructed and continues to operate a water treatment plant at the mouth of the tunnel. This treatment plant removes metal contaminants from the water.

Groundwater levels at the tunnel have fluctuated in recent years.

□ 1430

In addition, a collapse in the tunnel has increased the tunnel's mine pool significantly, leading to new seeps and

springs in the area. Estimates suggest that at one time up to 1 billion gallons of water may have accumulated.

Emergency measures are currently being undertaken by the Environmental Protection Agency and the Bureau of Reclamation to relieve water pressure in the vicinity. However, legislation attempting to address this matter and authorizing the Secretary of the Interior to rehabilitate this tunnel dates back to at least 1976.

In response to the request for action from the local community, I have again worked together with Senator MARK UDALL of Colorado in a bipartisan manner and reintroduced H.R. 3123. The bill would direct the Bureau of Reclamation to relieve water pressure behind blockages in the tunnel, permanently manage the mine pool behind any blockage to prevent any releases of contaminated water, and manage the tunnel in such a way to prevent failure of the structure.

I remind Members that only minor technical changes have been made since this bill was originally passed by the House of Representatives in the previous Congress. I respectfully request each Member to support this legislation. Human safety and environmental integrity need to be appropriately and responsibly addressed.

Ms. BORDALLO. Mr. Speaker, I have no additional requests for time and would inquire of the minority whether they have any additional speakers.

Mr. WITTMAN. Mr. Speaker, the minority has no additional speakers, and with that I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I again urge Members to support this bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 3123, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

#### THUNDER BAY NATIONAL MARINE SANCTUARY AND UNDERWATER PRESERVE BOUNDARY MODIFICATION ACT

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 905) to expand the boundaries of the Thunder Bay National Marine Sanctuary and Underwater Preserve, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 905

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE.**

This Act may be cited as the "Thunder Bay National Marine Sanctuary and Underwater Preserve Boundary Modification Act".

**SEC. 2. FINDINGS AND PURPOSES.**

(a) **FINDINGS.**—Congress makes the following findings:

(1) Thunder Bay National Marine Sanctuary and Underwater Preserve in Lake Huron contains more than 100 recorded historic vessel losses.

(2) The areas immediately surrounding the Sanctuary, including the offshore waters of Presque Isle and Alcona Counties, Michigan, contain an equal number of historic vessel losses.

(3) Many of these shipwrecks and underwater cultural resources are popular recreational diving destinations, and all contribute to our collective maritime heritage.

(4) These resources are susceptible to damage from human activities, and must be properly preserved for themselves and to protect the economic viability of their contribution to national and regional economies.

(b) **PURPOSES.**—The purposes of this Act are—

(1) to expand the Thunder Bay National Marine Sanctuary and Underwater Preserve boundaries to encompass the offshore waters of Presque Isle and Alcona Counties, Michigan and outward to the international border between the United States and Canada; and

(2) to provide the underwater cultural resources of those areas equal protection to that currently afforded to the Sanctuary.

**SEC. 3. DEFINITIONS.**

In this Act:

(1) **SANCTUARY.**—The term "Sanctuary" means the Thunder Bay National Marine Sanctuary and Underwater Preserve.

(2) **SECRETARY.**—The term "Secretary" means the Secretary of Commerce.

**SEC. 4. SANCTUARY BOUNDARY ADJUSTMENT.**

(a) **BOUNDARY ADJUSTMENT.**—Notwithstanding any provision of law or regulation, including section 922.190 of title 15, Code of Federal Regulations, as in effect on the date of the enactment of this Act, the Sanctuary shall consist of the geographic area described in subsection (b).

(b) **EXPANDED BOUNDARY ADJUSTMENT.**—The area referred to in subsection (a) is all submerged lands, including the underwater cultural resources, lakeward of the mean high waterline, within the boundaries of a line formed by connecting points in succession beginning at a point along the mean high water line located approximately at 45.6262N, 84.2043W at the intersection of the northern Presque Isle and northeastern Cheboygan County boundary, then north to a point approximately 45.7523N, 84.2011W, then northeast to a point approximately 45.7777N, 84.1231W, then due east to the international boundary between the United States and Canada approximately located at 45.7719N, 83.4840W then following the international boundary between the United States and Canada in a generally southeasterly direction to a point approximately 44.5128N, 82.3295W, then due west to a point along the mean high water line located approximately at 44.5116N, 83.3186W at the intersection of the southern Alcona County and northern Iosco County boundary, returning to the first point along the mean high water line.

(c) **AUTHORITY TO MAKE MINOR ADJUSTMENTS.**—The Secretary may make minor adjustments to the boundary described in subsection (b) to facilitate enforcement and clarify the boundary to the public provided the resulting boundary is consistent with the purposes described in section 2(b).

(d) **INCLUSION IN THE SYSTEM.**—The area described in subsection (b), as modified in accordance with subsection (c), shall be managed as part of the National Marine Sanctuary System established by section 301(c) of the National Marine Sanctuaries Act (16 U.S.C. 1431(c)), in accordance with that Act.

(e) **UPDATED NOAA CHARTS.**—The Secretary shall—

(1) produce updated National Oceanic and Atmospheric Administration charts for the area in which the Sanctuary is located; and

(2) include on such charts the boundaries of the Sanctuary described in subsection (b), as modified in accordance with subsection (c).

**SEC. 5. EXTENSION OF REGULATIONS AND MANAGEMENT.**

(a) **REGULATIONS.**—The regulations applicable to the Sanctuary codified in subpart R of part 922 of title 15, Code of Federal Regulations, as in effect on the date of the enactment of this Act, shall apply to the geographic area added to the Sanctuary pursuant to section 4, unless the Secretary specifies otherwise by regulation.

(b) **EXISTING CERTIFICATIONS.**—The Secretary may certify that any license, permit, approval, other authorization, or right to conduct a prohibited activity made pursuant to section 922.194 of title 15, Code of Federal Regulations, that exists on the date of the enactment of this Act shall apply to such an activity conducted within the geographic area added to the Sanctuary pursuant to section 4.

(c) **DATE OF SANCTUARY DESIGNATION.**—For purposes of section 922.194 of title 15, Code of Federal Regulations, the date of the enactment of this Act shall be deemed to be the date of Sanctuary designation.

(d) **MANAGEMENT PLAN.**—To the extent practicable, the Secretary shall apply the management plan in effect for the Sanctuary on the date of the enactment of this Act to the geographic area added to the Sanctuary pursuant to section 4.

The **SPEAKER** pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Virginia (Mr. WITTMAN) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

**GENERAL LEAVE**

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill under consideration.

The **SPEAKER** pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, the Thunder Bay National Marine Sanctuary is the only national marine sanctuary located in the Great Lakes. The sanctuary provides protection for more than 100 nationally significant historic shipwrecks in an area of Lake Huron known as "shipwreck alley," but an equal number of historic wrecks lie immediately north and south of the existing sanctuary boundary.

The pending measure would extend the sanctuary's boundary to encompass more than 100 additional shipwrecks and submerged resources and afford to these historic resources the protection,

research, education and public outreach capabilities of the National Marine Sanctuaries Act.

This bipartisan legislation, introduced by our colleague, Representative BART STUPAK of Michigan, is strongly supported by the administration, the State of Michigan, the affected counties, the communities, the local chambers of commerce, and the Thunder Bay Sanctuary Advisory Council.

So I ask Members on both sides of the aisle to support its passage.

I reserve the balance of my time.

Mr. WITTMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, according to testimony on H.R. 905, the Thunder Bay National Marine Sanctuary and Underwater Preserve Boundary Modification Act, there appears to be broad local support for this expansion. In addition, the legislation does not include any new statutory prohibitions which would prohibit or restrict activities within the sanctuary. However, there have been concerns voiced on this side of the aisle about the potential increased costs of this boundary expansion that expands the current sanctuary by almost nine times its current size.

While the Thunder Bay National Marine Sanctuary is entirely within the waters of the State of Michigan, concern has been raised that the cost of this expansion and any future needs will fall on the Federal Government. Not only will this increase the Federal costs for managing the resources that are entirely within State waters, but it could also have a negative effect on the other national marine sanctuaries.

With that, though, Mr. Speaker, we do thank Mr. STUPAK for his efforts in preserving national marine sanctuaries.

I reserve the balance of my time.

Ms. BORDALLO. Mr. Speaker, I yield to the gentleman from Michigan (Mr. STUPAK), the author of this legislation, such time as he may consume.

Mr. STUPAK. Mr. Speaker, I thank the gentlelady for yielding me time.

I introduced H.R. 905, the Thunder Bay National Marine Sanctuary and Underwater Preserve Boundary Modification Act, to expand the boundaries of the preserve. I want to thank the bill's cosponsors, my Michigan colleagues, Congressmen KILDEE, MCCOTTER and EHLERS. Their support has been instrumental in moving this legislation.

In 1975, Michigan State University, in response to local interest, collected an inventory of shipwrecks located within Lake Huron's Thunder Bay. What they found was that Thunder Bay potentially contained the largest number of historical shipwrecks in the country.

This discovery warranted the establishment of an underwater "reserve," and in 1981, the State of Michigan declared Thunder Bay Michigan's first Great Lakes bottomland preserve.

Following this State recognition, the National Oceanic and Atmospheric Administration designated the Thunder Bay National Marine Sanctuary in 2000, making it the first sanctuary in the Great Lakes.

The sanctuary is a Federal-State partnership with a unique focus on preserving the large collection of underwater cultural resources. These resources consist of 100 shipwrecks spanning more than 200 years of Great Lakes shipping history. In order to study and preserve the cultural resources present at Thunder Bay, in 2005 the National Oceanic and Atmospheric Administration and the State of Michigan established the Great Lakes Maritime Heritage Center in Michigan in Alpena, Michigan.

The Great Lakes Maritime Heritage Center allows visitors to learn about Great Lakes maritime history, explore shipwrecks via live video feeds, and see how archaeologists continue to preserve these historic sites. To continue this positive outcome, the Thunder Bay Sanctuary Advisory Council, a 15-member group representing local interests such as fishermen, the business community, educational institutions and local government, have passed a resolution recommending the sanctuary be expanded.

This legislation is supported by the State of Michigan, the local units of government, and the local chambers of commerce of each county that is affected.

H.R. 905 would extend the sanctuary's boundaries to include the waters off Alcona, Alpena and Presque Isle counties in Michigan and extend the sanctuary east to the international boundary with Canada.

Currently, the sanctuary covers 448 square miles of water and 115 miles of shoreline, protecting 116 shipwrecks. H.R. 905 would increase this area to 3,722 square miles of water and 226 miles of shoreline, adding an additional 180 shipwrecks to the sanctuary. In addition, the legislation would direct NOAA to produce updated charts of the newly designated areas and apply the protection and preservation provisions in the existing management plan to the newly added areas.

By authorizing an expansion of Thunder Bay National Marine Sanctuary, the affected local communities would receive the benefits of having additional historical resources highlighted and preserved, as well as increased tourism, which is an important driver for economic growth of this part of northeastern lower Michigan.

I urge my colleagues to support my legislation. I thank the chairperson and the ranking member for their help and support on this legislation.

Ms. BORDALLO. Mr. Speaker, I have no additional speakers, and I inquire if the minority has any additional speakers.

Mr. WITTMAN. Mr. Speaker, we have no additional speakers, and with that I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I again urge Members to support this important bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 905, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. BROWN of Georgia. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

#### CHESAPEAKE BAY SCIENCE, EDUCATION, AND ECOSYSTEM ENHANCEMENT ACT OF 2009

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1771) to reauthorize the Chesapeake Bay Office of the National Oceanic and Atmospheric Administration, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1771

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

*This Act may be cited as the "Chesapeake Bay Science, Education, and Ecosystem Enhancement Act of 2009".*

#### SEC. 2. REAUTHORIZATION OF NOAA CHESAPEAKE BAY OFFICE.

*Section 307 of the National Oceanic and Atmospheric Administration Authorization Act of 1992 (15 U.S.C. 1511d) is amended—*

*(1) in subsection (a)—*

*(A) in paragraph (1) by striking "(in this section)" and all that follows and inserting a period;*

*(B) by amending paragraph (2) to read as follows:*

*"(2) The Office shall be headed by a Director, who—*

*"(A) shall have knowledge and experience in research or resource management efforts in the Chesapeake Bay; and*

*"(B) shall be responsible for the administration and operation of the office and the implementation of this Act.";* and

*(C) by striking paragraph (3);*

*(2) in subsection (b)—*

*(A) by striking so much as precedes paragraph (1) and inserting the following:*

*"(b) PURPOSE.—The purpose of this section is to focus the relevant science, research, and resource management capabilities of the National Oceanic and Atmospheric Administration as they apply to the Chesapeake Bay and to utilize the Office to—"*

*(B) in paragraph (2), by striking "Secretary of Commerce" and inserting "Administrator";*

*(C) in paragraph (3)—*

*(i) by striking the matter preceding subparagraph (A) and inserting the following:*

*"(3) coordinate the programs and activities of the various organizations within the National Oceanic and Atmospheric Administration in furtherance of such administration's coastal resource stewardship mission, including—"*

*(ii) in subparagraph (A), by striking "and" after the semicolon at the end of clause (vi), and by inserting after clause (vii) the following:*

*"(viii) coastal hazards and climate change; and";* and

*(iii) in subparagraph (B), by striking "and" after the semicolon at the end of clause (iii), by inserting "and" after the semicolon at the end of clause (iv), and by adding at the end the following:*

*"(v) integrated ecosystem assessments;"*

*(D) in paragraph (4)—*

*(i) by striking "Environmental Protection Agency" and inserting "Chesapeake Executive Council";* and

*(ii) by inserting before the semicolon at the end the following: "as appropriate to further purposes of this section";*

*(E) by striking paragraphs (5) and (7);*

*(F) by redesignating paragraph (6) as paragraph (5);* and

*(G) by adding at the end the following:*

*"(6) perform any functions necessary to support the programs referred to in paragraph (3).";* and

*(3) by striking subsection (c) and all that follows through the end of the section and inserting the following:*

*"(c) PROGRAM ACTIVITIES.—*

*"(1) IN GENERAL.—The Administrator, through the Director, shall implement the program activities authorized by this subsection to support the activity of the Chesapeake Executive Council and to further the purposes of this section.*

*"(2) ENSURING SCIENTIFIC AND TECHNICAL MERIT.—The Director shall—*

*"(A) establish, and utilize an effective and transparent mechanism to ensure that projects funded under this section have undergone appropriate peer review; and*

*"(B) provide other appropriate means to determine that such projects have acceptable scientific and technical merit with the purpose of achieving maximum utilization of available funds and resources to benefit the Chesapeake Bay area.*

*"(3) CONSULTATION WITH CHESAPEAKE EXECUTIVE COUNCIL.—The Director shall, in the implementation of the program activities authorized under this section, consult with the Chesapeake Executive Council, to ensure that the activities of the Office are consistent with the purposes and priorities of the Chesapeake Bay Agreement and plans developed pursuant to the Agreement.*

*"(4) INTEGRATED COASTAL OBSERVATIONS.—*

*"(A) IN GENERAL.—The Administrator, through the Director, may collaborate with scientific and academic institutions, State and Federal agencies, non-governmental organizations, and other constituents in the Chesapeake Bay watershed, to support an integrated observations system for the Chesapeake Bay consistent with the purposes of subtitle C of title XII of Public Law 111–11 (33 U.S.C. 3601 et seq.).*

*"(B) SPECIFIC REQUIREMENTS.—To support the system referred to in subparagraph (A) and provide a complete set of environmental information for the Chesapeake Bay, the Director shall—*

*"(i) coordinate existing monitoring and observing activities in the Chesapeake Bay;*

*"(ii) identify new data collection needs and deploy new technologies, as appropriate;*

*"(iii) collect and analyze the scientific information necessary for the management of living marine resources and the marine habitat associated with such resources;*

*"(iv) manage and interpret the information described in clause (iii); and*

“(v) organize the information described in clause (iii) into products that are useful to policy makers, resource managers, scientists, and the public.

“(C) CHESAPEAKE BAY INTERPRETIVE BUOY SYSTEM.—To further the development and implementation of the Chesapeake Bay Interpretive Buoy System, the Director may—

“(i) support the establishment and implementation of the Captain John Smith Chesapeake National Historic Trail;

“(ii) delineate key waypoints along the trail and provide appropriate real-time data and information for trail users;

“(iii) interpret data and information for use by educators and students to inspire stewardship of Chesapeake Bay; and

“(iv) incorporate the Chesapeake Bay Interpretive Buoy System into the Integrated Ocean Observing System regional network of observatories.

“(5) CHESAPEAKE BAY WATERSHED EDUCATION AND TRAINING PROGRAM.—

“(A) IN GENERAL.—The Administrator, through the Director, may establish a Chesapeake Bay watershed education and training program. The program shall—

“(i) continue and expand the Chesapeake Bay watershed education programs offered by the Office immediately before the enactment of the Chesapeake Bay Science, Education, and Ecosystem Enhancement Act of 2009;

“(ii) improve the understanding of elementary and secondary school students and teachers of the living resources of the ecosystem of the Chesapeake Bay;

“(iii) provide community education to improve watershed protection; and

“(iv) meet the educational goals of the Chesapeake 2000 Agreement.

“(B) GRANT PROGRAM.—The Director may award grants for the purposes of this paragraph. Grants awarded under this subparagraph may be used to support education and training projects that enhance understanding and assessment of a specific environmental problem in the Chesapeake Bay watershed or a goal of the Chesapeake Bay Program, or protect or restore living resources of the Chesapeake Bay watershed, including projects that—

“(i) provide classroom education, including the development and use of distance learning and other innovative technologies, related to the Chesapeake Bay watershed;

“(ii) provide watershed educational experiences in the Chesapeake Bay watershed;

“(iii) provide professional development for teachers related to the Chesapeake Bay watershed and the dissemination of pertinent education materials oriented to varying grade levels;

“(iv) demonstrate or disseminate environmental educational tools and materials related to the Chesapeake Bay watershed;

“(v) demonstrate field methods, practices, and techniques including assessment of environmental and ecological conditions and analysis of environmental problems;

“(vi) build the capacity of organizations to deliver high quality environmental education programs; and

“(vii) educate local land use officials and decision makers on the relationship of land use to natural resource and watershed protection.

“(C) COLLABORATION.—The Director shall implement the education and training program in collaboration with the heads of other relevant Federal agencies.

“(6) COASTAL AND LIVING RESOURCES MANAGEMENT AND HABITAT PROGRAM.—

“(A) IN GENERAL.—The Administrator, through the Director, may establish a Chesapeake Bay coastal living resources management and habitat program to support coordinated

management, protection, characterization, and restoration of priority Chesapeake Bay habitats and living resources, including oysters, blue crabs, and submerged aquatic vegetation.

“(B) ACTIVITIES.—Under the program, the Director may, subject to the availability of appropriations, carry out or enter into grants, contracts, and cooperative agreements and provide technical assistance to support—

“(i) native oyster restoration;

“(ii) fish and shellfish aquaculture that is carried out in accordance with a valid Federal or State permit;

“(iii) establishment of submerged aquatic vegetation propagation programs;

“(iv) the development of programs that protect and restore critical coastal habitats;

“(v) habitat mapping, characterization, and assessment techniques necessary to identify, assess, and monitor restoration actions;

“(vi) application and transfer of applied scientific research and ecosystem management tools to fisheries and habitat managers;

“(vii) collection, synthesis, and sharing of information to inform and influence coastal and living resource management issues; and

“(viii) other activities that the Director determines are appropriate to carry out the purposes of such program.

“(d) REPORTS.—

“(1) IN GENERAL.—The Administrator, through the Director, shall submit a biennial report to the Congress and the Secretary of Commerce on the activities of the Office and on progress made in protecting and restoring the living resources and habitat of the Chesapeake Bay.

“(2) ACTION PLAN.—Each such report shall include an action plan for the 2-year period following submission of the report, consisting of—

“(A) a list of recommended research, monitoring, and data collection activities necessary to continue implementation of the strategy under subsection (b)(2); and

“(B) recommendations to integrate National Oceanic and Atmospheric Administration activities with the activities of the partners in the Chesapeake Bay Program to meet the commitments of the Chesapeake 2000 agreement and subsequent agreements.

“(e) AGREEMENTS.—

“(1) IN GENERAL.—The Administrator, through the Director, may, subject to the availability of appropriations, enter into and perform such contracts, leases, grants, or cooperative agreements as may be necessary to carry out the purposes of this Act.

“(2) USE OF OTHER RESOURCES.—For purposes related to the understanding, protection, and restoration of Chesapeake Bay, the Director may use, with their consent and with or without reimbursement, the land, services, equipment, personnel, and facilities of any Department, agency, or instrumentality of the United States, or of any State, local government, Indian tribal government, or of any political subdivision thereof.

“(3) DONATIONS.—The Director may accept donations of funds, other property, and services for use in the understanding, protecting, and restoring the Chesapeake Bay. Donations accepted under this section shall be considered as a gift or bequest to or for the use of the United States.

“(f) DEFINITIONS.—In this section:

“(1) ADMINISTRATOR.—The term ‘Administrator’ means the Administrator of the National Oceanic and Atmospheric Administration.

“(2) CHESAPEAKE BAY AGREEMENT.—The term ‘Chesapeake Bay Agreement’ means the formal, voluntary agreements executed to achieve the goal of restoring and protecting the Chesapeake Bay ecosystem and the living resources of the Chesapeake Bay ecosystem and are signed by the Chesapeake Executive Council.

“(3) CHESAPEAKE EXECUTIVE COUNCIL.—The term ‘Chesapeake Executive Council’ means the

representatives from the Commonwealth of Virginia, the State of Maryland, the Commonwealth of Pennsylvania, the Environmental Protection Agency, the District of Columbia, and the Chesapeake Bay Commission, who are signatories to the Chesapeake Bay Agreement, and any future signatories to that agreement.

“(4) DIRECTOR.—The term ‘Director’ means the Director of the Office.

“(5) OFFICE.—The term ‘Office’ means the Chesapeake Bay Office established under this section.

“(g) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary to carry out this section—

“(1) \$17,000,000 for fiscal year 2011;

“(2) \$18,700,000 for fiscal year 2012;

“(3) \$20,570,000 for fiscal year 2013; and

“(4) \$22,627,000 for fiscal year 2014.”.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Virginia (Mr. WITTMAN) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, the Chesapeake Bay Office of the National Oceanic and Atmospheric Administration has taken bold steps to meet the bay's emerging challenges with ecosystem-based science, new coastal management techniques, and an effective environmental literacy program. However, these new priorities are not reflected in the office's existing authorizing statute.

The pending measure, introduced by Mr. SARBANES of Maryland, would realign the office and improve its ability to support ecosystem-based management, research science and education, all of which are very essential in our efforts to restore the Chesapeake Bay.

I ask Members on both sides to support passage of this legislation.

I reserve the balance of my time.

Mr. WITTMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today I rise in support of H.R. 1771, the Chesapeake Bay Science, Education, and Ecosystem Enhancement Act of 2009, which will authorize a number of programs within the Chesapeake Bay program. I am a cosponsor of H.R. 1771 and strongly support the efforts of my friend, Mr. SARBANES from Maryland. He has been a true leader on bay issues in this effort to improve and extend popular programs in the Chesapeake Bay watershed, which is a tremendous advancement in the effort to preserve the bay.

For example, the bill supports efforts to move forward with the Captain John Smith Chesapeake National Historic

Trail. This, the Nation's first all-water historic trail, traces John Smith's 17th-century voyages of discovery in the bay from Jamestown in my district.

The bill also furthers efforts to extend NOAA's smart buoy system that provides real-world weather data and historical interpretation of points of interest along the Captain John Smith Trail. My district includes two of these high-tech buoys. One buoy is located just offshore from the site of the first permanent English settlement in the New World at Jamestown. The second buoy is located off Sting Ray Point in the Rappahannock River. This marks the site where Captain John Smith nearly died from the toxic sting of a sting ray.

Mr. Speaker, these programs highlight the historical and recreational significance of the bay and are extraordinarily important to many of our constituents here in the bay watershed. And, again, I would like to thank Mr. SARBANES for his leadership on bay issues and thank him for all of his efforts to preserve the bay.

I reserve the balance of my time.

Ms. BORDALLO. Mr. Speaker, I yield to the gentleman from Maryland (Mr. SARBANES), the author of this legislation, such time as he may consume.

Mr. SARBANES. Mr. Speaker, I want to thank Chairperson BORDALLO for yielding her time.

I strongly urge, as one would imagine as the original sponsor of this bill, that the Chesapeake Bay Science, Education, and Ecosystem Enhancement Act of 2009 be adopted by the Chamber.

I want to thank Congressman WITTMAN for his cosponsorship of this bill. Congressmen KRATOVIL and CONNOLLY as well have been strong supporters of it. But I do want to emphasize Congressman WITTMAN's commitment to the Chesapeake Bay. He and I have gotten in the habit of, we sort of have a mutual admiration society going here in terms of our commitment to the bay. I think it demonstrates how the health of the Chesapeake Bay and its protection and preservation going forward is really a bipartisan concern. We hope to continue to work together with each other and with other Members in this Chamber to make sure that the Chesapeake Bay is preserved.

Now, the NOAA Chesapeake Bay office that this would reauthorize provides very important and vital scientific research and data, habitat restoration and environmental education, which all play a very critical role in the health of the Chesapeake Bay and its restoration.

□ 1445

There are a number of important provisions; some have been alluded to.

Just to reiterate, this will enhance the Chesapeake Bay Interpretative Buoy System, which provides real-time

weather and environmental information like wind speed, temperature, and wave heights to the public, especially to boaters and researchers.

It's got an historical and cultural component as well. I just emailed my staff so they could remind me of the toll free number (877) BUOY-BAY if you want to call and tap into this information on a real-time basis, or you can go to [www.buoybay.org](http://www.buoybay.org). This is an incredible resource for people, particularly for the next generation.

That is another thing this reauthorization will do. It will bolster the Chesapeake Bay watershed education and training program, which we know as the B-WET program which provides hands-on environmental education and teaches young people about how their everyday actions affect the health of the bay.

I'm an author of the No Child Left Inside Act, which is designed to get people, young people, outdoors and into nature. This is the kind of information and data that is then made available to them so that they can really engage firsthand in this effort on behalf of the bay.

And there are many other dimensions of this that strengthen the NOAA Chesapeake Bay office, but let me just close by acknowledging again my real thanks and appreciation for Chairman RAHALL, for Chairperson BORDALLO, for their assistance in getting this through the Natural Resources Committee. Again, a salute to Congressman WITTMAN for his continuing efforts on behalf of the bay.

We're going to turn the corner on the Chesapeake Bay—I have no doubt—and it's because of the data and the information and statistics and other things that are provided by the NOAA office. So reauthorizing that component of the Chesapeake Bay program is absolutely vital to the enterprise, and I urge my colleagues to support the bill today.

Ms. BORDALLO. Mr. Speaker, I would like to yield to the gentleman from Maryland (Mr. KRATOVIL) such time as he may consume.

Mr. KRATOVIL. Mr. Speaker, I rise in support of H.R. 1771, the Chesapeake Bay Science, Education and Ecosystem Enhancement Act, and also, with your permission, Mr. Speaker, H.R. 1053, the Chesapeake Bay Accountability and Recovery Act of 2009, which I believe is next up on the calendar.

Both bills will protect the beauty and utility of the Chesapeake Bay for future generations while building the economic base of districts like Maryland's First District, my district, whose local economies are dependent on the health of the Chesapeake Bay.

By reauthorizing much-needed funding, the Chesapeake Bay Science, Education and Ecosystem Enhancement Act will allow NOAA's Chesapeake Bay office to continue to play a vital role in

the management and restoration of the bay.

Additionally, H.R. 1771 will formally authorize NOAA's Bay Watershed Education and Training, B-WET, program that you heard Congressman SARBANES discuss. Since first being established in 2002, this program has provided critical assistance for hands-on watershed education for thousands of students and teachers.

When educators are given the necessary tools to engage their students, the curriculum can foster a lifelong understanding about the importance of the bay and create future generations of stewards committed to its health and beauty.

In the short term, the bill will expand the technical assistance that NOAA can offer watermen who practice emerging aquaculture techniques. Many watermen have found success with aquaculture that has led to an increase in both the clam and oyster populations. This bill will build on these successes, keeping the seafood industry viable and protecting the overall ecosystem of the Chesapeake Bay.

Support of the legislation will help ensure the vitality of our natural resources throughout the bay in the long term, and I thank again my colleague from Maryland, Congressman SARBANES, for introducing this bill.

Similarly, H.R. 1053, the Chesapeake Bay Accountability and Recovery Act, is legislation that will protect one of our national treasures and North America's largest estuary while applying financial responsibility and accountability practices to the funds that we appropriate to do so, and I want to thank Congressman WITTMAN for his leadership on this. As Congressman SARBANES said, he's been a leader on a number of issues related to the bay, and I congratulate him on it.

This legislation institutes performance-based measures to ensure that dollars spent on restoration activities are producing results. Every dollar we spend on the bay is money well spent, but not if we fail to track these dollars in order to determine best practices and eliminate waste and duplicity.

The bill would require the adoption of two methods: crosscut budgeting by the Office of Management and Budget; and adaptive management by the Environmental Protection Agency. These initiatives will provide a comprehensive accounting of all bay restoration activities and would be available to everyone, including Congress. By sharing this information, stakeholders can make better-informed funding decisions.

Adaptive management will provide a means to evaluate the success and efficiency of bay restoration programs. It will increase coordination, reduce overlap, and improve decisionmaking. Financial responsibility is a theme we should apply to every dollar we spend,

and that includes protection of the bay. We aren't doing future generations any favors if we protect the health of the Chesapeake Bay but, at the same time, neglect to protect the health of our economy as a whole.

And again, I want to congratulate and thank Congressman WITTMAN from Virginia for introducing the bill.

Mr. Speaker, I urge support of both H.R. 1771 and H.R. 1053.

Mr. WITTMAN. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, I'd like to recognize Mr. KRATOVIL for his work, too. He is very much a partner in making sure that we restore the bay and put forth the efforts that we need to.

We know that Maryland's First District and Virginia's First District are very, very similar. They have many, many resources in common; they have many needs in common. We all realize that restoring the bay is a good environmental effort, but it's also a good economic effort. We know it's an economic driver. We know the jobs that the bay creates. We know a healthy bay creates more jobs and creates a more vibrant economy, both for our seafood industry and for our tourism industry.

So I appreciate his effort to partner to make sure that we get things done with the bay, and I think it's a great partnership that should stand as an example of how you can, across State lines and across party lines, work to get things done in the best interests of our natural resources.

Mr. Speaker, we have no further speakers, and I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I again urge Members to support this important piece of legislation, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 1771, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. BROUN of Georgia. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

#### CHESAPEAKE BAY ACCOUNTABILITY AND RECOVERY ACT OF 2009

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1053) to require the Office of Management and Budget to prepare a cross-cut budget for restoration activities in

the Chesapeake Bay watershed, to require the Environmental Protection Agency to develop and implement an adaptive management plan, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1053

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Chesapeake Bay Accountability and Recovery Act of 2009".

#### SEC. 2. CHESAPEAKE BAY CROSSCUT BUDGET.

(a) CROSSCUT BUDGET.—The Director, in consultation with the Chesapeake Executive Council, the chief executive of each Chesapeake Bay State, and the Chesapeake Bay Commission, shall submit to Congress a financial report containing—

(1) an interagency crosscut budget that displays—

(A) the proposed funding for any Federal restoration activity to be carried out in the succeeding fiscal year, including any planned interagency or intra-agency transfer, for each of the Federal agencies that carry out restoration activities;

(B) to the extent that information is available, the estimated funding for any State restoration activity to be carried out in the succeeding fiscal year;

(C) all expenditures for Federal restoration activities from the preceding 3 fiscal years, the current fiscal year, and the succeeding fiscal year; and

(D) all expenditures, to the extent that information is available, for State restoration activities during the equivalent time period described in subparagraph (C);

(2) a detailed accounting of all funds received and obligated by all Federal agencies for restoration activities during the current and preceding fiscal years, including the identification of funds which were transferred to a Chesapeake Bay State for restoration activities;

(3) to the extent that information is available, a detailed accounting from each State of all funds received and obligated from a Federal agency for restoration activities during the current and preceding fiscal years; and

(4) a description of each of the proposed Federal and State restoration activities to be carried out in the succeeding fiscal year (corresponding to those activities listed in subparagraphs (A) and (B) of paragraph (1)), including the—

(A) project description;

(B) current status of the project;

(C) Federal or State statutory or regulatory authority, programs, or responsible agencies;

(D) authorization level for appropriations;

(E) project timeline, including benchmarks;

(F) references to project documents;

(G) descriptions of risks and uncertainties of project implementation;

(H) adaptive management actions or framework;

(I) coordinating entities;

(J) funding history;

(K) cost-sharing; and

(L) alignment with existing Chesapeake Bay Agreement and Chesapeake Executive Council goals and priorities.

(b) MINIMUM FUNDING LEVELS.—The Director shall only describe restoration activities in the report required under subsection (a) that—

(1) for Federal restoration activities, have funding amounts greater than or equal to \$100,000; and

(2) for State restoration activities, have funding amounts greater than or equal to \$50,000.

(c) DEADLINE.—The Director shall submit to Congress the report required by subsection (a) not later than 30 days after the submission by the President of the President's annual budget to Congress.

(d) REPORT.—Copies of the financial report required by subsection (a) shall be submitted to the Committees on Appropriations, Natural Resources, Energy and Commerce, and Transportation and Infrastructure of the House of Representatives and the Committees on Appropriations, Environment and Public Works, and Commerce, Science, and Transportation of the Senate.

(e) EFFECTIVE DATE.—This section shall apply beginning with the first fiscal year after the date of enactment of this Act for which the President submits a budget to Congress.

#### SEC. 3. ADAPTIVE MANAGEMENT PLAN.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Administrator, in consultation with other Federal and State agencies, shall develop an adaptive management plan for restoration activities in the Chesapeake Bay watershed that includes—

(1) definition of specific and measurable objectives to improve water quality, habitat, and fisheries;

(2) a process for stakeholder participation;

(3) monitoring, modeling, experimentation, and other research and evaluation practices;

(4) a process for modification of restoration activities that have not attained or will not attain the specific and measurable objectives set forth under paragraph (1); and

(5) a process for prioritizing restoration activities and programs to which adaptive management shall be applied.

(b) IMPLEMENTATION.—The Administrator shall implement the adaptive management plan developed under subsection (a).

(c) UPDATES.—The Administrator shall update the adaptive management plan developed under subsection (a) every 3 years.

(d) REPORT TO CONGRESS.—

(1) IN GENERAL.—Not later than 60 days after the end of a fiscal year, the Administrator shall transmit to Congress an annual report on the implementation of the adaptive management plan required under this section for such fiscal year.

(2) CONTENTS.—The report required under paragraph (1) shall contain information about the application of adaptive management to restoration activities and programs, including programmatic and project level changes implemented through the process of adaptive management.

(3) EFFECTIVE DATE.—Paragraph (1) shall apply to the first fiscal year that begins after the date of enactment of this Act.

#### SEC. 4. INDEPENDENT EVALUATOR FOR THE CHESAPEAKE BAY PROGRAM.

(a) IN GENERAL.—There shall be an Independent Evaluator for restoration activities in the Chesapeake Bay watershed, who shall review and report on restoration activities and the use of adaptive management in restoration activities, including on such related topics as are suggested by the Chesapeake Executive Council.

(b) APPOINTMENT.—

(1) IN GENERAL.—The Independent Evaluator shall be appointed by the Administrator from among nominees submitted by the Chesapeake Executive Council.

(2) **NOMINATIONS.**—The Chesapeake Executive Council may submit to the Administrator 4 nominees for appointment to any vacancy in the office of the Independent Evaluator.

(c) **REPORTS.**—The Independent Evaluator shall submit a report to the Congress every 3 years in the findings and recommendations of reviews under this section.

(d) **CHESAPEAKE EXECUTIVE COUNCIL.**—In this section the term “Chesapeake Executive Council” has the meaning given that term by section 307 of the National Oceanic and Atmospheric Administration Authorization Act of 1992 (Public Law 102-567; 15 U.S.C. 1511d).

#### SEC. 5. DEFINITIONS.

In this Act, the following definitions apply:

(1) **ADAPTIVE MANAGEMENT.**—The term “adaptive management” means a type of natural resource management in which project and program decisions are made as part of an ongoing science-based process. Adaptive management involves testing, monitoring, and evaluating applied strategies and incorporating new knowledge into programs and restoration activities that are based on scientific findings and the needs of society. Results are used to modify management policy, strategies, practices, programs, and restoration activities.

(2) **ADMINISTRATOR.**—The term “Administrator” means the Administrator of the Environmental Protection Agency.

(3) **CHESAPEAKE BAY STATE.**—The term “Chesapeake Bay State” or “State” means the States of Maryland, West Virginia, Delaware, and New York, the Commonwealths of Virginia and Pennsylvania, and the District of Columbia.

(4) **CHESAPEAKE BAY WATERSHED.**—The term “Chesapeake Bay watershed” means the Chesapeake Bay and the geographic area, as determined by the Secretary of the Interior, consisting of 36 tributary basins, within the Chesapeake Bay States, through which precipitation drains into the Chesapeake Bay.

(5) **CHIEF EXECUTIVE.**—The term “chief executive” means, in the case of a State or Commonwealth, the Governor of each such State or Commonwealth and, in the case of the District of Columbia, the Mayor of the District of Columbia.

(6) **DIRECTOR.**—The term “Director” means the Director of the Office of Management and Budget.

(7) **RESTORATION ACTIVITIES.**—The term “restoration activities” means any Federal or State programs or projects that directly or indirectly protect, conserve, or restore living resources, habitat, water resources, or water quality in the Chesapeake Bay watershed, including programs or projects that promote responsible land use, stewardship, and community engagement in the Chesapeake Bay watershed. Restoration activities may be categorized as follows:

- (A) Physical restoration.
- (B) Planning.
- (C) Feasibility studies.
- (D) Scientific research.
- (E) Monitoring.
- (F) Education.
- (G) Infrastructure Development.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Virginia (Mr. WITTMAN) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

#### GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, restoration of Chesapeake Bay continues to be a very important goal for Congress and the administration, yet accounting and oversight is difficult because the restoration activities are managed concurrently by a network of Federal agencies, States, and non-governmental organizations.

The pending measure introduced by our colleague, Mr. WITTMAN of Virginia, would enhance congressional oversight of restoration activities in Chesapeake Bay by requiring the preparation of a crosscut budget. It would also require the Environmental Protection Agency and other partners to develop and implement a comprehensive adaptive management strategy for restoration activities to ensure that the best available scientific information is incorporated.

So I ask Members, Mr. Speaker, to support H.R. 1053.

I reserve the balance of my time.

Mr. WITTMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would first like to thank Chairman RAHALL, Ranking Member HASTINGS, Mr. BROWN and Ms. BORDALLO for working with me to bring this legislation to the floor.

I am honored to represent Virginia's First Congressional District. The First District includes many of the bay's major tributaries and borders much of the Chesapeake's shores. Improving the health of the bay is a priority to me and many of my constituents, and I think most Members of Congress.

As Members have heard on a number of occasions, the health of the Chesapeake Bay is in trouble. While the States and Federal Government continue to fund restoration activities, the news has not been getting much better. It is time we reevaluate our efforts and determine if we can get better results from Federal and State expenditures.

I offered H.R. 1053, the Chesapeake Bay Accountability and Recovery Act, to address these issues and help move forward bay cleanup efforts.

H.R. 1053 would implement and strengthen management techniques like crosscut budgeting and adaptive management to ensure that we get more bang for our buck and continue to make progress in Chesapeake Bay restoration efforts.

Both techniques will ensure that we're coordinating how restoration dollars are spent and making sure that everyone understands how individual

projects fit into the bigger picture. That way, we're not duplicating efforts, wasting money, or working at cross purposes.

H.R. 1053 would require the Office of Management and Budget, in coordination with State and Federal agencies involved in the bay, to report to Congress on the status of Chesapeake Bay restoration activities. This legislation would also require the Environmental Protection Agency to develop and implement an adaptive management plan for the Chesapeake Bay and all of its restoration activities.

Finally, on recommendations heard during committee hearings on this bill, we included the creation of an independent evaluator for the bay. An independent evaluator will serve to help implement adaptive management and drive success in the bay program.

I believe that these are key components for the complex restoration activities necessary to truly bring the bay back to a state that we will all be pleased with.

I ask my colleagues to support H.R. 1053.

I reserve the balance of my time.

Ms. BORDALLO. Mr. Speaker, I yield to the gentleman from Maryland (Mr. SARBANES) such time as he may consume.

Mr. SARBANES. Mr. Speaker, I want to thank Chairperson BORDALLO again for yielding to me.

I want to urge my colleagues to support H.R. 1053, Congressman WITTMAN's bill. I'm a cosponsor and proud to be one. This is a good way of bringing more of a comprehensive perspective to our efforts on behalf of the Chesapeake Bay.

As many have mentioned, you know, we're talking about the bay, we're talking about a watershed with a tributary system that originates in six States and the District of Columbia, all flowing into the Chesapeake Bay. So we've got a lot of geographic areas to manage and link together, as well as numerous organizations, governmental and nongovernmental organizations, citizens organizations, educational organizations, that are all working on the same goal.

There's only benefit that can be had when you bring this crosscutting perspective in terms of the dollars that are spent, and I want to congratulate Congressman WITTMAN for bringing that kind of discipline to the overall program.

I also just wanted to emphasize the adaptive management strategy, because in a way this dovetails very nicely with the bill we just spoke about regarding reauthorization of the NOAA office, and the reason is that what adaptive management strategies are all about is recognizing if you can adopt a certain strategy to deal with the health of the Chesapeake Bay, and then just put it on a course, it never changes.

□ 1500

Science is always changing, and because science changes, we have to adjust to make sure that our management strategies reflect that science. The very kind of information and data that the NOAA office will be producing because it is reauthorized is the exact kind of data that can be used for this adaptive management approach.

So I think this is a very good and strong bill, and is going to enhance our efforts to protect and preserve and strengthen the Chesapeake Bay over time. I congratulate Congressman WITTMAN for his efforts, and I urge support of the bill.

Mr. WITTMAN. Mr. Speaker, we have no additional speakers, and with that I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I applaud the author of this legislation, Mr. WITTMAN of Virginia, and I again urge Members to support this very important legislation.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 1053, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Ms. BORDALLO. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

#### NATIONAL LIFE INSURANCE AWARENESS MONTH

Mr. LYNCH. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 16) supporting the goals and ideals of National Life Insurance Awareness Month.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

#### H. RES. 16

Whereas life insurance is an essential part of a sound financial plan;

Whereas life insurance provides financial security for families by helping surviving members meet immediate and long-term financial obligations and objectives in the event of a premature death in their family;

Whereas approximately 68,000,000 United States citizens lack the adequate level of life insurance coverage needed to ensure a secure financial future for their loved ones;

Whereas life insurance products protect against the uncertainties of life by enabling individuals and families to manage the financial risks of premature death, disability, and long-term care;

Whereas individuals, families, and businesses can benefit from professional insur-

ance and financial planning advice, including an assessment of their life insurance needs; and

Whereas numerous groups supporting life insurance have designated September 2009 as "National Life Insurance Awareness Month" as a means to encourage consumers to—

(1) become more aware of their life insurance needs;

(2) seek professional advice regarding life insurance; and

(3) take the actions necessary to achieve financial security for their loved ones: Now, therefore, be it

*Resolved*, That the House of Representatives—

(1) supports the goals and ideals of "National Life Insurance Awareness Month"; and

(2) calls on the Federal Government, States, localities, schools, nonprofit organizations, businesses, and the citizens of the United States to observe the month with appropriate programs and activities.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. LYNCH) and the gentleman from Ohio (Mr. TURNER) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

#### GENERAL LEAVE

Mr. LYNCH. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. LYNCH. I now yield myself such time as I may consume.

Mr. Speaker, on behalf of the Committee on Oversight and Government Reform, I am pleased to present House Resolution 16 for consideration. This resolution expresses our support for the goals and ideals of National Life Insurance Awareness Month.

House Resolution 16 was introduced on January 6, 2009, by my colleague, Representative JUDY BIGGERT of Illinois, and favorably reported out of the Oversight Committee on September 24 by unanimous consent. In addition, this legislation enjoys the bipartisan support of over 50 Members of Congress.

Mr. Speaker, the life insurance industry estimates that approximately 68 million Americans lack sufficient life insurance coverage to safeguard the financial security of their families. Accordingly, House Resolution 16 seeks to increase the awareness regarding the importance of life insurance products to the financial security of American families by supporting the goals and ideals of National Life Insurance Awareness Month.

While preparing for the inevitable may be a difficult task, it is a task that we should all take time to complete. Life insurance products are intended to better insure the financial security and stability of our loved ones by allowing them to meet impending

and future financial obligations in the event of a death, disability or other uncertainty in their family. Given the importance of life insurance to sound financial planning, I would encourage all families to review their financial situations and consider life insurance products as a possible safeguard against the financial impact of an unforeseen event.

I'd like to thank the gentlewoman from Illinois (Mrs. BIGGERT) and the gentleman from Pennsylvania (Mr. KANJORSKI) for offering this informative measure, and I urge my colleagues to join me in supporting House Resolution 16.

I reserve the balance of my time.

Mr. TURNER. Mr. Speaker, I yield as much time as she may consume to my distinguished colleague from the State of Illinois (Mrs. BIGGERT).

Mrs. BIGGERT. I thank the gentleman from Ohio (Mr. TURNER) for yielding me the time, and I also want to thank my colleague from Massachusetts (Mr. LYNCH) for managing this resolution.

Mr. Speaker, I rise today to urge my colleagues to support House Resolution 16, which offers support to the goals and ideals of National Life Insurance Awareness Month as recognized this September. I want to thank my friend and colleague, the gentleman from Pennsylvania (Mr. KANJORSKI), for introducing this resolution with me for the sixth year. During previous years the House has passed identical resolutions by voice vote or with as many as 412 "yes" votes. This year's resolution has 59 cosponsors from both sides of the aisle.

I also want to thank the gentleman from New York, Chairman EDOLPHUS TOWNS, and the gentleman from California, DARRELL ISSA, for moving this resolution through the Committee on Oversight and Government Reform. And last, I acknowledge and thank Senator SAXBY CHAMBLISS of Georgia and Senator BEN NELSON of Nebraska for introducing a companion resolution in the Senate, Senate Resolution 211, making this a bipartisan, bicameral effort.

Mr. Speaker, life insurance too often is thought of only when it's too late. How many times have we heard friends or loved ones sadly reflecting that the deceased had no life insurance or had too little life insurance? Today, only four in 10 adults in America own individual life insurance policies. And among those who do have life insurance, the amount is often too small to safeguard the financial future of their loved ones. Due to insufficient coverage, many families, upon losing loved ones, often are forced to work extra jobs or longer hours, borrow money, or move to less desirable housing because there was no insurance.

House Resolution 16 calls on the Nation to observe the month of September as Life Insurance Awareness

Month, and the issue has been elevated by a broad coalition of providers and advocates, including members of the Life and Health Insurance Foundation for Education, the National Association of Insurance and Financial Advisors, and the American Council of Life Insurers. Our collective goal for the month is to make families more aware of their life insurance needs and encourage them to seek professional advice, as well as take the actions necessary to provide financial security for their loved ones.

Mr. Speaker, many of my colleagues on both the Financial Services Committee and the Education and Labor Committee, especially my colleague from Texas, RUBÉN HINOJOSA, and I have been working very hard to increase the level of financial literacy across the Nation. We recognize that by empowering consumers with the knowledge and understanding of how financial products work and how they can work towards financial security, we are taking a critical step that will help protect consumers from unexpected financial hardships and prepare them to succeed in today's complex financial marketplace. It is my hope that recognizing Life Insurance Awareness Month will help motivate Americans to seek information about the benefits of life insurance so that the premature death of a loved one does not bring with it economic hardships that too often accompany tragedy.

I ask my colleagues to join me in support of the goals and ideals of this year's National Life Insurance Awareness Month.

Mr. TURNER. Mr. Speaker, I urge all Members to support the passage of H. Res. 16, and I yield back the balance of my time.

Mr. LYNCH. Mr. Speaker, in closing, I will simply urge my colleagues to support this measure offered and sponsored by Mrs. BIGGERT of Illinois and also Mr. KANJORSKI of Pennsylvania.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and agree to the resolution, H. Res. 16.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. LYNCH. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

#### HONORING THE LATE JIM JOHNSON

Mr. LYNCH. Mr. Speaker, I move to suspend the rules and agree to the reso-

lution (H. Res. 693) honoring the life and accomplishments of Jim Johnson and extending the condolences of the House of Representatives to his family on the occasion of his death.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

#### H. RES. 693

Whereas the City of Philadelphia, Pennsylvania, and the NFL lost one of our greatest treasures yesterday;

Whereas Philadelphia Eagles Defensive Coordinator Jim Johnson passed away on July 28, 2009, after a courageous battle with cancer;

Whereas he was a veteran of 22 years as an NFL assistant;

Whereas Johnson is regarded as one of the top defensive masterminds in NFL history;

Whereas over the last decade, he gained a great deal of praise as the orchestrator of the renowned Eagles defense;

Whereas his aggressive style kept Philadelphia at or near the top of the NFL in nearly every major defensive category since he joined the Eagles staff on January 22, 1999;

Whereas from 2000–08, Johnson's units ranked second in the NFL in sacks (390), 3rd down efficiency (34.0 percent) and red zone touchdown percentage (43.9 percent), and fourth in fewest points allowed (17.7 per game);

Whereas during his 10-year tenure in Philadelphia, the Eagles earned 7 playoff berths, 5 trips to the NFC Championship game, and 1 Super Bowl appearance (following the 2004 season);

Whereas as the Eagles' defensive chief, Johnson's defense has produced 26 Pro Bowl selections, including Brian Dawkins (7), Troy Vincent (5), Jeremiah Trotter (4), Hugh Douglas (3), Lito Sheppard (2), Asante Samuel (1), Trent Cole (1), Michael Lewis (1), Corey Simon (1), and Bobby Taylor (1);

Whereas Head Coach Andy Reid correctly stated that "He (Johnson) really represented everything this city (Philadelphia) is all about, with his toughness and grit", "That's the way he fought this cancer";

Whereas 4 of his defensive assistants have gone on to successful careers with other NFL franchises, including Steve Spagnuolo (head coach of the St. Louis Rams), John Harbaugh (head coach of the Baltimore Ravens), Ron Rivera (defensive coordinator of the San Diego Chargers), and Leslie Frazier (defensive coordinator of the Minnesota Vikings);

Whereas prior to his tenure in Philadelphia, Johnson served as the linebackers coach with Seattle in 1998;

Whereas that year, Johnson helped the Seahawks register 10 touchdowns on defense, including 8 interceptions returned for scores, second-most in NFL history;

Whereas he arrived in Seattle after a 4-year stint in Indianapolis, spending the last 2 years as defensive coordinator;

Whereas while with the Colts, Johnson helped them secure a berth in the AFC Championship game at Pittsburgh in 1995;

Whereas Johnson spent 8 seasons with the Arizona Cardinals (1986–93);

Whereas after overseeing the Cardinals defensive line for 4 seasons, Johnson excelled as their secondary coach, helping Aeneas Williams become the first rookie cornerback to lead the league in interceptions (6) since 1981;

Whereas Johnson began his coaching career as head coach at Missouri Southern

(1967–68), before serving 4-year tenures at Drake and Indiana;

Whereas from 1977–83, Johnson served as defensive coordinator and assistant head coach at Notre Dame, a stint that included a national championship in 1977;

Whereas an all-conference quarterback himself at Missouri, Johnson went on to spend 2 seasons with Buffalo as a tight end (1963–64);

Whereas a native of Maywood, Illinois, Johnson earned a bachelor's degree in education and a master's degree in physical education from Missouri; and

Whereas Johnson is survived by his wife, Vicky, 2 children, Scott and Michelle, and 4 grandchildren, Katie, Justin, Brandon, and Jax: Now, therefore, be it

*Resolved*, That the House of Representatives honors Jim Johnson and extends condolences to his family on the occasion of his death.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. LYNCH) and the gentleman from Ohio (Mr. TURNER) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

#### GENERAL LEAVE

Mr. LYNCH. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H. Res. 693.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. LYNCH. Mr. Speaker, at this time I would like to yield 3 minutes to the gentleman from Pennsylvania (Mr. BRADY).

Mr. BRADY. Mr. Speaker, I rise to honor a man who will always be known as a great Philadelphian and a great American. Eagles Coach Jimmy Johnson was a man of few words. He always let his game do his talking for him. He was a star quarterback at Missouri and began his coaching career at Missouri Southern. Jim Johnson spent nearly 50 years in football. He coached in the USFL, for the Arizona Cardinals and for the Indianapolis Colts. But he earned the title Genius during 10 seasons coaching in my hometown of Philadelphia.

The Eagles led the league with 48 takeaways, including 28 interceptions, during Mr. Johnson's first season as defensive coordinator. By 2001, when the Eagles went to their first of four straight NFC championship games, the defense was ranked among the best in the NFL in almost every category. And they remain an elite unit today. In Coach Johnson's final season, the team had the NFC's top-ranked defense and earned yet another trip to the NFC title game.

The Eagles' defense had 26 Pro Bowl selections during Mr. Johnson's tenure, including seven by safety Brian Dawkins. The team played in five NFC championship games and one Super Bowl, and won five NFC East titles.

And his greatest legacy hasn't yet been written. Coach has seeded the league with his disciples. Many of his former assistants are coaching across the country, including Steve Spagnuolo, the head coach of the St. Louis Rams, and John Harbaugh, head coach of the Baltimore Ravens. Coach Johnson could have been a head coach anytime, anyplace, anywhere, but his loyalty was with the Philadelphia Eagles.

But the greatest thing about Jim Johnson has nothing to do with the football field. He was known by everyone as the picture of honesty and as a man who never sought the spotlight but one who gave generously of his time and his talents.

Mr. Speaker, Jim Johnson is survived by his wife, Vicky, two children, Scott and Michelle, and four grandchildren, Katie, Justin, Brandon and Jax. He leaves behind grieving friends, players, colleagues and fans. But our memories of him will live forever.

I ask my colleagues to support this resolution.

Mr. TURNER. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of H. Res. 693, honoring the life and accomplishments of Jim Johnson and expressing condolences to his family on his death. Today we honor Jim Johnson for his life accomplishments and for his positive attitude he exhibited, even as he battled with cancer.

Mr. Johnson began his coaching career as head coach at Missouri Southern University. He went on to coach at Notre Dame, winning the national championship in his first year with the university. He entered the NFL in 1986 with the Arizona Cardinals and coached for 22 years for the Cardinals, the Indianapolis Colts, the Seattle Seahawks and the Philadelphia Eagles.

Mr. Johnson's achievements in life and his career are truly inspiring. He was one of the top defensive masterminds in NFL history. In fact, his aggressive style, noted for its frequent blitzing, kept Philadelphia at or near the top of the NFL in nearly every major defensive category since Mr. Johnson joined the Eagles staff in 1999. With Mr. Johnson at the helm of the defense, the Philadelphia Eagles appeared in five NFC championship games, including in 2004 when they advanced to the Super Bowl.

Philadelphia Eagles Head Coach Andy Reid stated:

"Johnson really represented everything the City of Philadelphia is all about, with his toughness and grit. That's the way he fought this cancer."

It is clear that Mr. Johnson made a large impact on those around him on and off the field. Sadly, Mr. Johnson passed away from melanoma on July 28, 2009, at the age of 68. Though he has left this world, he will forever be remembered for his accomplishments.

I rise today to ask my colleagues to join me in honoring Mr. Johnson and expressing our condolences to his family in his passing by supporting H. Res. 693.

Mr. Speaker, I reserve the balance of my time.

Mr. LYNCH. Mr. Speaker, on behalf of the Committee on Oversight and Government Reform, I am proud to present House Resolution 693 for consideration. This resolution serves to honor the life and accomplishments of NFL coaching legend Jim Johnson, as well as extend our condolences to the Johnson family on his passing.

The measure before us was introduced on July 29, 2009, by my colleague who spoke earlier, Representative BOB BRADY of Pennsylvania.

□ 1515

This measure was reported out of the Oversight Committee on September 4, 2009, by unanimous consent.

Additionally, House Resolution 693 has been cosponsored by over 50 Members of Congress and enjoys strong support from the members of the Pennsylvania House delegation.

Mr. Speaker, House Resolution 693 honors the life and accomplishments of Mr. Jim Johnson, whose celebrated football career spanned over 40 years at the collegiate level and with the National Football League.

A native of Maywood, Illinois, Coach Johnson began his career in football as a player—first as an All-Big Eight quarterback from 1959 to 1962 at the University of Missouri, under Coach Dan Devine, and subsequently as a tight end with the Buffalo Bills of the American Football League from 1963 to 1964.

In 1967, Mr. Johnson turned his attention to coaching and was hired by Missouri Southern College as the head football coach. Coach Johnson's 2-year tenure at the school was followed by 4-year tours at Drake University and at Indiana University, and ultimately led to a 6-year stint as a defensive backs coach and defensive coordinator at the University of Notre Dame. Notably, the Fighting Irish won the national championship in Coach Johnson's first season with the team.

After leaving Notre Dame in 1984, Coach Johnson went on to coaching positions with the Oklahoma Outlaws and Jackson Bulls of the United States Football League, and in 1986 entered the National Football League as a defensive line and secondary coach for the Arizona Cardinals.

Coach Johnson would later join the defensive coaching staffs of the Indianapolis Colts and the Seattle Seahawks before Philadelphia Eagles Coach Andy Reid pursued and hired Johnson to be the Eagles' defensive coordinator in 1999. It is Coach Johnson's 10-year period with the Eagles that perhaps most epitomizes his mastery of defensive

schemes and cemented his status, as noted by Andy Reid, as the "best in the business at what he does."

Coach Johnson's tenure in Philadelphia witnessed 26 Pro Bowl selections for the Eagles' defense, including seven by safety Brian Dawkins and five by quarterback Troy Vincent.

As noted by the Philadelphia Inquirer, Coach Johnson's Eagles career will be remembered as "one of the finest decades of defensive football in the Eagles' history, and when the chapter about the top of the 21st century is written about this football team, the name Jim Johnson will be mentioned prominently."

In addition to his professional accomplishments, Coach Johnson will be equally remembered as a loving husband to his wife, Vicky; a dedicated father to his son, Scott, and daughter, Michelle; and an endearing grandfather to four grandchildren.

Regrettably, Coach Johnson passed away in July of 2009 at the age of 68. Mr. Speaker, it is my hope that we can honor the life and accomplishments of Coach Jim Johnson, as well as express our sincerest condolences to his family, through the passage of House Resolution 693. I urge my colleagues to join me in supporting this resolution.

I reserve the balance of my time.

Mr. TURNER. Mr. Speaker, I urge all Members to support the passage of House Resolution 693, and I yield back the balance of my time.

Mr. LYNCH. In closing, I urge my colleagues to join with the lead sponsor of this resolution, BOB BRADY of Pennsylvania, in supporting House Resolution 693.

I yield back the balance of my time. The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and agree to the resolution, H. Res. 693.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

#### SICKLE CELL DISEASE AWARENESS MONTH

Mr. LYNCH. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 186) supporting the goals and ideals of Sickle Cell Disease Awareness Month.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

#### H. CON. RES. 186

Whereas Sickle Cell Disease is an inherited blood disorder that is a major health problem in the United States and worldwide;

Whereas Sickle Cell Disease causes the rapid destruction of sickle cells, which results in multiple medical complications, including anemia, jaundice, gallstones,

strokes, and restricted blood flow, damaging tissue in the liver, spleen, and kidneys, and death;

Whereas Sickle Cell Disease causes episodes of considerable pain in one's arms, legs, chest, and abdomen;

Whereas Sickle Cell Disease affects an estimated 70,000 to 100,000 Americans;

Whereas approximately 1,000 babies are born with Sickle Cell Disease each year in the United States, with the disease occurring in approximately 1 in 500 newborn African-American infants, 1 in 1,000 newborn Hispanic-Americans, and is found in persons of Greek, Italian, East Indian, Saudi Arabian, Asian, Syrian, Turkish, Cypriot, Sicilian, and Caucasian origin;

Whereas more than 2,000,000 Americans have the sickle cell trait, and 1 in 12 African-Americans carry the trait;

Whereas there is a 1 in 4 chance that a child born to parents who both have the sickle cell trait will have the disease;

Whereas the life expectancy of a person with Sickle Cell Disease is severely limited, with an average life span for an adult being 45 years;

Whereas, though researchers have yet to identify a cure for this painful disease, advances in treating the associated complications have occurred;

Whereas researchers are hopeful that in less than two decades, Sickle Cell Disease may join the ranks of chronic illnesses that, when properly treated, do not interfere with the activity, growth, or mental development of affected children;

Whereas Congress recognizes the importance of researching, preventing, and treating Sickle Cell Disease by authorizing treatment centers to provide medical intervention, education, and other services and by permitting the Medicaid program to cover some primary and secondary preventative medical strategies for children and adults with Sickle Cell Disease;

Whereas the Sickle Cell Disease Association of America, Inc. remains the preeminent advocacy organization that serves the sickle cell community by focusing its efforts on public policy, research funding, patient services, public awareness, and education related to developing effective treatments and a cure for Sickle Cell Disease; and

Whereas the Sickle Cell Disease Association of America, Inc. has requested that the Congress designate September as Sickle Cell Disease Awareness Month in order to educate communities across the Nation about sickle cell and the need for research funding, early detection methods, effective treatments, and prevention programs: Now, therefore, be it

*Resolved by the House of Representatives (the Senate concurring), That the Congress supports the goals and ideals of Sickle Cell Disease Awareness Month.*

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. LYNCH) and the gentleman from Ohio (Mr. TURNER) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

#### GENERAL LEAVE

Mr. LYNCH. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. LYNCH. I yield myself such time as I may consume.

Mr. Speaker, on behalf of the Oversight and Government Reform Committee, I'm proud to present House Concurrent Resolution 186 for consideration. This legislation expresses our support for the goals and ideals of Sickle Cell Disease Awareness Month.

The measure before us was introduced on September 16, 2009, by my colleague and good friend, Representative DANNY DAVIS of Illinois, and favorably reported out of the Oversight Committee on September 24, 2009, by unanimous consent. In addition, this measure enjoys the support of over 70 Members of Congress, and I am proud to say that I am also an original cosponsor.

Mr. Speaker, House Concurrent Resolution 186 highlights the importance of Sickle Cell Disease Awareness Month. Sickle cell disease is an inherited blood disorder that predominantly affects people of sub-Saharan African ancestry. Today, an estimated 70,000 to 100,000 Americans suffer from this disease, and nearly 1 in 500 African American newborns is born with sickle cell.

Individuals with sickle cell have red blood cells that assume a rigid sickle shape. When these blood cells travel through small blood vessels, they often become stuck and clog blood flow. This causes repeated episodes of severe pain, organ damage, serious infections, and/or anemia.

Tragically, the life expectancy of those with sickle cell is also greatly reduced—42 years for males and 48 years for females. In Africa, more than 90 percent of children with sickle cell die before the illness is even diagnosed.

There is no cure for this illness; although, with careful supervision, individuals with sickle cell can live full and healthy lives. Treatment today is primarily aimed at avoiding crises, relieving symptoms, and preventing complications.

Despite its prevalence and seriousness, little is known publicly about sickle cell disease. For this reason, Sickle Cell Disease Awareness Month presents a valuable opportunity to increase public understanding of this illness and to work collectively to find a cure for sickle cell.

In closing, I wholeheartedly support this measure and encourage all my colleagues to join myself and Representative DANNY DAVIS of Illinois in voting in favor of House Concurrent Resolution 186.

I reserve the balance of my time.

Mr. TURNER. I yield myself such time as I may consume.

This resolution seeks to bring attention to sickle cell disease and to support the designation of September as Sickle Cell Awareness Month.

Sickle cell disease, SCD, is a deadly genetic blood disorder that strikes, primarily, persons of African descent.

Those affected by the disease most often appear to be healthy, but their lives are disturbed by sporadic and painful attacks in their arms, legs, chest, and abdomen.

SCD also causes the rapid destruction of sickle cells that results in multiple medical complications, including anemia, jaundice, gallstones, strokes, and restricted blood flow, causing tissue damage, cardiovascular, and organ damage. Approximately 80,000 African Americans suffer from sickle cell disease, and millions are affected worldwide.

Statistics shockingly show that 1 in every 350 African American babies born in the United States has the disease. One in eight African American babies carry the sickle cell trait. There is a one in four chance that a child born to parents who both carry the sickle cell trait will have the disease. Life expectancy is limited, as an average lifespan for an adult with the disease is only 45 years old.

A universal cure, though, remains elusive. However, early diagnosis through newborn screening and education has improved survival and quality of life for those who suffer from SCD. Because SCD affects so many people and research funding is critical to effectively treating and ultimately to preventing the disease, we are grateful for organizations such as the Sickle Cell Disease Association of America that continues to shine the light of hope for all of those who are affected.

Therefore, I ask my colleagues to join me in supporting the designation of the month of September as National Sickle Cell Disease Awareness Month so that communities throughout the country will become aware of this disease and the need for additional research, effective treatments, and prevention programs that will ultimately lead to a cure.

I reserve the balance of my time.

Mr. LYNCH. Mr. Speaker, I don't have any further speakers on this matter, but I continue to reserve the balance of my time.

Mr. TURNER. Mr. Speaker, I urge all Members to support the passage of H. Con. Res. 186, and I yield back the balance of my time.

Mr. LYNCH. I thank my colleague, and I also urge all of our friends on both sides of the aisle to join with Congressman DANNY DAVIS, who's the lead sponsor of this measure, to support the ideals and goals of Sickle Cell Disease Awareness Month by voting for House Concurrent Resolution 186.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I stand before you today in strong support of H. Con. Res. 186, "Supporting the goals and ideals of Sickle Cell Disease Awareness Month." Sickle Cell Anemia affects an estimated 70,000 to 100,000 Americans. Every year 1,000 babies are born with Sickle Cell Disease in the United States, with the disease occurring in approximately 1 in 500 newborn

African-American infants. We must educate the public and shed light on this disease, especially considering that there is a 1 in 4 chance that a child born to parents who both have the sickle cell trait will have the disease.

Sickle Cell Anemia is an inherited blood disorder that is a major health problem in the United States and worldwide. It not only affects African Americans, but Hispanics and persons of Greek, Italian, East Indian, Saudi Arabian, Asian, Syrian, Turkish, Cypriot, Sicilian, and Caucasian origin.

Sickle Cell Disease causes the rapid destruction of sickle cells, which results in multiple medical complications such as: pain episodes, strokes, increased infections, leg ulcers, bone damage, yellow eyes or jaundice, early gallstones, lung blockage, kidney damage and loss of body water in urine, priapism, blood blockage in the spleen or liver (sequestration), eye damage, anemia, delayed growth and even death.

Although it cannot be cured, effective treatment is available for persons with sickle cell disease. The trait and the disease are inherited. The most important thing one can do is to make sure to get tested. More than 2,000,000 Americans have the sickle cell trait, and 1 in 12 African-Americans carry the trait.

Although researchers have not yet identified a cure for this painful disease, advances in treating the associated complications have occurred. Once almost exclusively a pediatric illness, research has resulted in early detection and improvements in treatment that have extended life expectancy from the 20s to the mid-40s for many patients. Although the life expectancy of a person with Sickle Cell Disease is severely limited, researchers are hopeful that in less than two decades, Sickle Cell Disease may join the ranks of chronic illnesses that, when properly treated, do not interfere with the activity, growth, or mental development of affected children.

I am glad to be able to recognize the Texas Children's Sickle Cell Center for serving over 900 children in the state of Texas and having one of the largest educational programs in the country. The Texas Children's Sickle Cell Center offers comprehensive family-centered care for children with sickle cell disease. The center provides treatment for all aspects of sickle cell disease, offering patient care, education, screening and counseling for afflicted patients and their families. The Sickle Cell Center offers access to new drug therapies for sickle cell disease and its complications. The staff works closely with the neuropsychology, neuroradiology, cardiology and pulmonary departments in order to better understand the pathophysiology and to develop treatment options. I believe we need more facilities like the Texas Children's Sickle Cell Center in order to not only treat those with the disease, but offer services and educational programs to the family as well.

Mr. Speaker, I urge my colleagues in this Congress to recognize the importance of researching, preventing, and treating Sickle Cell Disease by authorizing treatment centers to provide medical intervention, education, and other services and by permitting the Medicaid program to cover some primary and secondary preventative medical strategies for children and adults with Sickle Cell Disease. Fur-

thermore, I hope that my colleagues will support designating September as Sickle Cell Disease Awareness Month in order to educate communities across the Nation about sickle cell and the need for research funding, early detection methods, effective treatments, and prevention programs.

Ms. RICHARDSON. Mr. Speaker, I rise today in strong support of H. Con. Res. 186, "Supporting the goals and ideals of Sickle Cell Disease Awareness Month."

Sickle cell disease is an inherited blood disorder that affects nearly 100,000 Americans. This disease causes red blood cells to mutate and deliver less oxygen to the body. Numerous medical complications result including bone pain, fatigue, fever, jaundice, chest pain, rapid heart rate and ulcers. Most people afflicted with the disease also suffer painful episodes called vaso-occlusive crises, which vary in frequency and severity. Ultimately, this disease limits a person's average life span to just 45 years.

In the United States, while 1 in 1,000 infants are born with the disease, the rate of disease for African-American infants is 1 in 500. The sickle cell disease gene is carried by 2,000,000 Americans, yet this number is 1 in 12 within the African-American community. If both parents of a child have sickle cell, there is a 1 in 4 chance that their child will inherit the disease. Millions of people world-wide suffer from sickle cell disease, and those of African and Caribbean ancestry are primarily affected.

Despite these devastating statistics, a cure has not been found. Researchers are hopeful that if sickle cell disease is properly treated and diagnosed early, it will not interfere with the growth and mental development of afflicted children. Educating our communities about this disease will enable researchers and advocacy organizations to develop effective treatments and ultimately a cure.

I thank Congressman DANNY K. DAVIS for introducing this legislation and look forward to working with my colleagues to raise awareness of sickle cell disease.

Mr. JOHNSON of Georgia. Mr. Speaker, I rise today in support of H. Con. Res. 186, Supporting the Goals and Ideals of Sickle Cell Disease Awareness Month. Mr. Speaker, the State of Georgia has over 7,000 individuals, from diverse backgrounds, many of whom are my constituents living in DeKalb County, living with sickle cell anemia. I have tirelessly advocated on their behalf to support the Georgia Comprehensive sickle cell center, which is located at nearby Grady Hospital. While sickle cell anemia is found in more diagnosed at a higher rate among African Americans and Latinos, it has also found among people of Greek, Turkish, and Saudi Arabian descent. I strongly support H. Con. Res. 186 and I urge my colleagues to support this important resolution.

Sickle cell anemia is a major health problem that affects millions of people worldwide. More than 70,000 people in the United States have inherited sickle cell anemia, while more than 2 million carry the sickle cell trait, including 1 in 12 African-Americans. There is a 25 percent chance that parents carrying the Sickle Cell trait will pass the disease onto a child. This chronic disease deserves our attention and I

applaud the efforts of this Congress to ensure that mire is done.

While there is no widely available cure, the goal of sickle cell disease management is to alleviate the painful symptoms associated with the disease, including gallstones, strokes, tissue, liver, and spleen damage. There has been a glimmer of hope for a small number of those infected; bone marrow transplants have proven to be a successful treatment for the disease. Over the past 30 years, advances in advocacy and awareness, and improvements in medicine have led to increases in early diagnoses, improved disease management, and longer life spans for individuals diagnosed with sickle cell anemia.

It is my hope that in the near future, we can develop a cure for this chronic illness, and ensure that people living with Sickle Cell Anemia live full, productive lives.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise today in support of House Concurrent Resolution 186 to recognize the goals and ideals of Sickle Cell Disease Awareness Month.

As we all know, sickle cell disease is a genetic blood disorder that affects tens of thousands of individuals here in the United States and countless others across the globe. Within our country, it is particularly prevalent in the African-American community, and I believe we must continue to fight and research this disease in order to create a happier and healthier life for those who suffer from it, both at home and abroad.

In my district in Dallas, we are doing extraordinary things to combat sickle cell disease. At the UT Southwestern Medical Center, we have one of the leading research groups that studies this disease, and in recent years they have accomplished numerous breakthroughs in sickle cell research. Under the leadership of Dr. George Buchanan, the Sickle Cell Center has recently published an important paper which clarifies how to predict the severity of sickle cell disease in young people much more accurately than previously accepted predictors. Additionally, the center has developed a clinic that caters specifically to adult patients who are now living with the disease well into adulthood. These advances in sickle cell research are crucial blocks in the foundation of our understanding of this painful and destructive disease.

I applaud the goals and ideals of Sickle Cell Disease Awareness Month, and I encourage my colleagues to join me and support this resolution to educate people about the need for early detection methods, effective treatments, and research funding for sickle cell disease.

Mr. LYNCH. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 186.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

# CONGRATULATING LITTLE LEAGUE WORLD SERIES CHAMPION CHULA VISTA PARK VIEW

Mr. LYNCH. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 725) congratulating the Chula Vista Park View Little League team of Chula Vista, California, for winning the 2009 Little League World Series Championship.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

## H. RES. 725

Whereas on Sunday, August 30, 2009, the Chula Vista Park View Little League Baseball Team from Chula Vista, California, rallied to defeat the Taoyuan, Taiwan (Chinese Taipei) Little League Team by a score of 6 to 3 to win the 2009 Little League World Series Championship at South Williamsport, Pennsylvania;

Whereas Chula Vista Park View is in its 41st season of playing little league baseball and is the fourth team from San Diego County to play in the Little League World Series championship game;

Whereas the 2009 Chula Vista Park View Little League World Championship Team consists of players Isaiah Armenta, Oscar Castro, Jr., Nick Conlin, Kiko Garcia, Bulla Graft, Seth Godfrey, Markus Melin, Jensen Petersen, Daniel Porras, Jr., Luke Ramirez, Andy Rios, and Bradley Roberto;

Whereas the 2009 Chula Vista Park View Little League World Championship Team is led by Manager Oscar Castro, Coach Ric Ramirez, and Park View Little League President Rod Roberto;

Whereas the Chula Vista Park View Little League team was successful because of solid coaching and execution of fundamentals and discipline;

Whereas the fans of the Chula Vista Park View Little League team showed enthusiasm, support, and courtesy for the game of baseball and all of the players and coaches;

Whereas the performance of the Chula Vista Park View Little League team demonstrated to parents and communities throughout the United States that athletic participation builds character and leadership in children; and

Whereas the achievement of the Chula Vista Park View Little League Baseball Team is the cause of enormous pride for the Nation, the State of California, and especially for the city of Chula Vista: Now, therefore, be it

*Resolved*, That the House of Representatives—

(1) congratulates the Chula Vista Park View Little League Baseball Team from Chula Vista, California, on winning the 2009 Little League World Series Championship;

(2) recognizes and commends the hard work, dedication, determination, and commitment to excellence of the members, parents, coaches, and managers of the Chula Vista Park View Little League team;

(3) recognizes and commends the people of Chula Vista, California, for the outstanding loyalty and support that they displayed for the Chula Vista Park View Little League team throughout the season; and

(4) respectfully requests that the Clerk of the House transmit an enrolled copy of this resolution to the City of Chula Vista and each player, manager, and coach of the Chula Vista Park View Little League Baseball Team.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. LYNCH) and the gentleman from Ohio (Mr. TURNER) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

## GENERAL LEAVE

Mr. LYNCH. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. LYNCH. Mr. Speaker, I yield 5 minutes to the lead sponsor of this resolution, the gentleman from California (Mr. FILNER).

Mr. FILNER. Mr. LYNCH, I thank you. I thank Chairman TOWNS and the Speaker for getting us this resolution so quickly.

We celebrate today and congratulate the Chula Vista Park View Little League team for winning the 2009 Little League World Series.

I will tell you, Mr. Speaker, for several weeks last month, our whole region, the San Diego region and the city of Chula Vista in particular, was enthralled by these 12 young men on the little league team who managed to win victory after victory, some with dramatic comebacks from behind.

They hit home runs whether they were 5 foot 1 or 6 foot 2 and, in fact, set the little league world series record for number of home runs. Their defensive play was incredible, making some fantastic double plays that were worthy of the Major Leagues.

Running the bases or just cheering on the team, every one of these 12 young men played a very important role, and our whole region was enthralled by them.

So we want to thank Isaiah, Oscar, Nick, Kiko, Garcia, Bulla, Seth, Markus, Jensen, Daniel, Luke, Andy, and Bradley for their incredible play in this World Series. The manager, Oscar Castro; the coach, Ric Ramirez; and the little league president, Rod Roberto, were key figures, of course, in this incredible victory.

These young men were dubbed the Blue Bombers. Their final victory was over Taipei in a 6-3 victory. They come from behind in that one, too.

They displayed the success that solid coaching brings and the execution of the fundamentals that little league stresses. Again, the whole region was thrilled by their performance—playing with poise, with class, with sportsmanship. They even invited the Chinese Taipei team to join them on their victory lap around the field at Williamsport to show their own incredible team spirit and sportsmanship.

Chula Vista is a city hard hit by foreclosures and the national recession. It often feels overshadowed by the bigger

city of San Diego and affluent suburbs further north, so this victory was particularly sweet for the city of Chula Vista. It helped us all through some tough times. When our professional teams in the area were losing, the little league team was, in fact, victorious.

□ 1530

So all of us here today commend the hard work, dedication and determination of the members, the parents who came out always to support them and were with them the whole way, their coaches, their managers, and the community itself for the outstanding loyalty and support that they displayed to the team throughout the whole season. The welcome home ceremony was attended by 12,000 people in the stadium.

So I thank the House. I thank the Speaker. I thank Mr. LYNCH and Chairman TOWNS for joining me in congratulating and honoring the Chula Vista Park View Little League team for winning the 2009 World Championship game of the Little League World Series. I urge my colleagues to support the resolution.

Mr. TURNER. Mr. Speaker, I yield myself as much time as I may consume.

I rise today to urge passage of the resolution, to congratulate the Chula Vista Park View Little League team of Chula Vista, California, for winning the 2009 Little League World Series championship. The players kept their sights high, even after falling behind by three runs early in the game. Through their perseverance, the players were able to come through with the win by a score of 6-3.

"We knew we could come back," said 13-year-old Kiko Garcia. "We always do." The fantastic attitude of these players definitely helped them in achieving victory. There were many notable achievements on the field, including Bulla Graft's single, which scored the go-ahead run in the fourth inning, and Kiko Garcia pitched three-plus scoreless innings of relief to lead the team to victory.

The amazing attitude and determination of the Chula Vista Little League team is not unique to this championship game. It is something that they have learned through hundreds of hours of practice and previous games played. Our Nation should be proud of the great sportsmanship displayed by the players, coaches and fans of the Chula Vista Park View Little League team.

After the win, the Chula Vista players invited the Taipei team players to join them in a victory lap around the stadium. These young men should be proud of the way they played the game of baseball, even more, the way that they represented their country.

It is for these reasons that I rise today to honor the Chula Vista Park View Little League team of Chula

Vista, California, for winning the 2009 Little League World Series championship.

With that, Mr. Speaker, I reserve the balance of my time.

Mr. LYNCH. Mr. Speaker, on behalf of the Committee on Oversight and Government Reform, I am pleased to support House Resolution 725 for consideration. This resolution congratulates the Chula Vista Park View Little League team of Chula Vista, California, for winning the 2009 Little League World Series championship. The measure before us was introduced on September 9 by my colleague and friend, Representative BOB FILNER of California, and it was favorably reported out of the Oversight Committee on September 24 by unanimous consent. Notably, this measure enjoys the support of over 50 Members of Congress.

Mr. Speaker, House Resolution 725 applauds the Chula Vista Park View Little League baseball team's Little League World Series championship run. Led by Coach Ric Ramirez and Manager Oscar Castro, this group of young men clinched the sixth Little League World Series title for the State of California and extended America's Little League World Series championship streak to 5 years.

In the championship game, the California club overcame a three-run deficit to beat a formidable team from Taipei, China, 6-3. These young men demonstrated the type of teamwork, camaraderie and never-say-never spirit necessary to succeed in all facets of life. I wish them the best in their future endeavors, and I hope if any pursue a career in baseball, they find their way to my beloved Red Sox.

I also want to applaud the Little League World Series organizers for orchestrating another successful tournament. The Little League World Series was first held in 1947, and although only American teams competed in the inaugural tournament, today the competition is a truly international event, welcoming teams from Canada, the Caribbean, Latin America, Asia, Europe, the Middle East and Africa.

In closing, let us, as a body, applaud the Chula Vista Park View Little League baseball team for their hard work and success and congratulate the organizers of the Little League World Series for helping to instill the indispensable values of teamwork, sportsmanship, and dedication in today's youth. I encourage all of my colleagues to support this measure.

I reserve the balance of my time.

Mr. TURNER. Mr. Speaker, I urge all Members to support the passage of H. Res. 725.

I yield back the balance of my time.

Mr. LYNCH. I thank my colleague for his remarks. I want to ask all of our colleagues on both sides of the aisle to join with Mr. FILNER of California, the

lead sponsor of this measure, to congratulate the Chula Vista Park View Little League team by agreeing to House Resolution 725.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and agree to the resolution, H. Res. 725.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

#### CONSTITUTION DAY

Mr. LYNCH. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 734) expressing the support for and honoring September 17, 2009 as "Constitution Day," as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

#### H. RES. 734

Whereas the Constitution of the United States was signed on September 17, 1787, by 39 delegates from 12 States;

Whereas the Constitution was subsequently ratified by each of the original 13 States;

Whereas the Constitution was drafted in order to form a more perfect Union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty for the citizens of the United States;

Whereas the Constitution has provided the means and structure for this Nation and its citizens that is unparalleled by any other country;

Whereas the Constitution's contributions to the welfare of the human race reach far beyond the borders of the United States;

Whereas the House of Representatives continues to strive to preserve and strengthen the values and rights bestowed by the Constitution upon the United States and its citizens;

Whereas the Constitution is recognized by many to be the most significant and important document in history for establishing freedom and justice through democracy;

Whereas the Constitution deserves the recognition, respect, and reverence of all people in the United States;

Whereas every person in the United States should celebrate the freedom and responsibilities of the Constitution;

Whereas the preservation of such values and rights in the hearts and minds of United States citizens would be advanced by official recognition of the signing of the Constitution; and

Whereas September 17, 2009, is designated as "Constitution Day": Now, therefore, be it Resolved, That the House of Representatives—

(1) expresses support for the goals and ideals of "Constitution Day"; and

(2) calls upon the people of the United States to observe the day with appropriate ceremonies and activities.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from

Massachusetts (Mr. LYNCH) and the gentleman from Ohio (Mr. TURNER) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

#### GENERAL LEAVE

Mr. LYNCH. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. LYNCH. Mr. Speaker, I yield myself such time as I may consume.

On behalf of the Oversight Committee, I now present House Resolution 734 for consideration. This resolution expresses support for the goals and ideals embodied in Constitution Day. House Resolution 734 was introduced on September 10, 2009, by my colleague, Representative ROBERT LATTA of Ohio, and favorably reported out of the Oversight Committee on September 24, 2009. In addition, this resolution enjoys the support of over 60 Members of Congress.

Mr. Speaker, House Resolution 734 expresses our support for Constitution Day, which is routinely celebrated on September 17. Eleven years after the signing of the Declaration of Independence, 55 delegates from the first American States came together in Philadelphia, Pennsylvania, to create a Constitution for a Federal Republic. After much hard work and careful deliberation, the Constitution of the United States was signed on September 17, 1787, by 39 delegates from 12 States.

As the supreme law of the United States, the Constitution provides the basic structure for the organization of the American Government. It is no exaggeration to say that the United States Constitution is one of the most important documents in history, often referred to as a living document. This framework from our representative and democratic system of government has served the American people for over 200 years, making it the oldest Federal Constitution still in use in the world. With its separation of powers, its checks and balances and preservation of rights, the Constitution is a worthy example to burgeoning democracies everywhere.

Furthermore, the values and principles it enshrines continue to be central to our Nation's identity. I am sure my colleagues share my pride in serving, protecting, and defending the United States Constitution, and I am pleased that we are taking the opportunity today to honor this most treasured document of our democracy.

Mr. Speaker, I urge my colleagues to join me in supporting House Resolution 734.

I reserve the balance of my time.

Mr. TURNER. Mr. Speaker, I yield as much time as he may consume to my

distinguished colleague from the State of Ohio, the author of H. Res. 734, Mr. LATTA.

Mr. LATTA. I thank my colleague.

Mr. Speaker, I rise today in support of House Resolution 734, which I introduced on September 10, honoring and supporting Constitution Day. I have always been grateful that so many of our country's greatest leaders and statesmen were able to be on Earth at the same time and place to draft the Constitution. Within this document are the fundamental principles of the American system of liberty. Our Constitution has been that beacon upon the hill, that guiding star at night in that shining city that millions of people around the world have long been guided by within their own countries.

The Constitution took 4 hard, acrimonious months from May to September 1787 to actually bring it to fruition through their hard labor. Again, the citizens that attended the convention in Philadelphia were some of our greatest leaders and scholars of government and history: Madison, Franklin, Hamilton, Morris, and Washington. Many different ideas were brought to the convention. Were they only empowered to amend the Articles of Confederation? There is great debate about that. Could they go farther and start from scratch? Many a discussion was held in Philadelphia's boarding houses and taverns.

These members began debates on creating three branches of government: legislative, executive, and judicial. James Madison, the Father of our Constitution, was one of the first to arrive in Philadelphia, and he brought with him his specifically researched ideas while others had theirs. You know, it turned out to be a very hot summer that year. There was no air conditioning. Secrecy was enforced. The proceedings mandated that all windows and doors be shut. Tempers flared, but through it all they worked because these men knew that they were creating a document that would be there for a Nation and for the ages.

The birth of a new Nation was being watched by the powers around the world. As mentioned, 55 delegates attended the Constitution Convention with 39 of them signing the document. What emerged was a document containing 4,400 words. The story goes that when asked what kind of new government was formed, Benjamin Franklin replied, "A Republic, if you can keep it." The Constitution is both the oldest and shortest written constitution of any form of government in the world.

Again, personally I marvel at what these individuals did and what they could accomplish in 4 months. Today, citizens should look to guidance from our Forefathers. All Americans should read this great document because, since the Constitution's ratification, it has been the framework for our great

Nation. Not only did great men bring forth great ideas, but for 222 years, this great experiment that we call America has been paid for by hundreds of thousands of lives, the lives of our brave military men and women. Let the living always remember to give thanks to our honored dead, who have paid the ultimate sacrifice that the Constitution of the United States remains our guiding light.

Too few citizens today have read this important document and understand its importance. It is short, and it should be learned, and it should be studied. The preamble of our document states that "We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defense, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America." The words "We the People" affirm that any power of the Federal Government is given to by the people of this great land, and we in Congress must always remember that.

Mr. LYNCH. Mr. Speaker, we have no further speakers at this time, and I continue to reserve the balance of my time.

Mr. TURNER. Mr. Speaker, I urge Members to support the passage of H. Res. 734, and I yield back the balance of my time.

Mr. LARSON of Connecticut. Mr. Speaker, I rise in support of House Resolution 734, which expresses support for and honors September 17, 2009, as "Constitution Day." September 17 is the day that our United States Constitution was signed in 1787, by 39 delegates from 12 States, including from Connecticut, Samuel Huntington, Oliver Wolcott, and Roger Sherman, whose statue resides in the crypt of this Capitol building.

My home State of Connecticut has a strong and proud connection to the founding principles and documents of this country. Roger Sherman was the only man to sign the Articles of Association, the Declaration of Independence, the Articles of Confederation, and the Constitution. Connecticut itself is known as the Constitution State, for its enactment of the Fundamental Orders of Connecticut, the first written constitution of its kind.

The Fundamental Orders of Connecticut was adopted by the Connecticut Colony in 1639 and established a government for the Connecticut Colony, based on the yearly election of a governor and six magistrates, two from each town in the colony. These officials were chosen by the count of a written vote, and all freedmen who resided in the colony and had taken an oath of fidelity were eligible to cast their vote.

The Fundamental Orders established limits on the powers of government, emphasizing the power of the people to elect their leaders and act against them should those leaders ignore their concerns. Further, it defined the operating procedures of a government established by the people, of the people, and for

the people, ensuring each elected magistrate a vote in matters of governance, and the governor a vote only in the event of a tie.

Many of the principles in the eleven sections of the Fundamental Orders of Connecticut later were echoed in the familiar cadences of our great Constitution, which continues to represent the American ideal of a government consisting of a body of officials elected by the people to serve in their best interests.

It was Roger Sherman's "Connecticut Compromise," made during the Philadelphia Convention of 1787, which ensured fair representation for large and small States in the bicameral legislature which defines our body of Congress.

As a high school history teacher, I had the privilege of studying, learning, and teaching the Constitution. It is the innovation and undiminished endurance of the ideals of our Constitution for which I rise in support of House Resolution 734 to express support for and honor September 17, 2009, as "Constitution Day."

Mr. LYNCH. Mr. Speaker, I thank my colleagues for their remarks and support of this resolution. I urge them to support Mr. LATTA and his lead sponsorship of this resolution in support of the goals and ideals of Constitution Day, and I urge my colleagues to join me in supporting House Resolution 734.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and agree to the resolution, H. Res. 734, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

The title was amended so as to read: "A resolution expressing support for the goals and ideals of 'Constitution Day'."

A motion to reconsider was laid on the table.

□ 1545

#### COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

HOUSE OF REPRESENTATIVES,

Washington, DC, September 29, 2009.

Hon. NANCY PELOSI,  
*The Speaker, The Capitol, House of Representatives, Washington, DC.*

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on September 29, 2009, at 11:06 a.m.:

That the Senate passed with an amendment H.R. 3614.

That the Senate passed S. 1717.

That the Senate passed with an amendment; requests a conference with the House of Representatives and appointed conferees H.R. 2996.

With best wishes, I am  
Sincerely,

LORRAINE C. MILLER,  
*Clerk of the House.*

#### SMALL BUSINESS ADMINISTRATION EXTENSION

Ms. VELÁZQUEZ. Mr. Speaker, I move to suspend the rules and concur in the Senate amendment to the bill (H.R. 3614) to provide for an additional temporary extension of programs under the Small Business Act and the Small Business Investment Act of 1958, and for other purposes.

The Clerk read the title of the bill.

The text of the Senate amendment is as follows:

Senate amendment:  
Strike sections 2 and 3.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from New York (Ms. VELÁZQUEZ) and the gentleman from Ohio (Mr. TURNER) each will control 20 minutes.

The Chair recognizes the gentlewoman from New York.

#### GENERAL LEAVE

Ms. VELÁZQUEZ. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from New York?

There was no objection.

Ms. VELÁZQUEZ. Mr. Speaker, I yield myself such time as I may consume.

The legislation before us will ensure that a number of Small Business Administration programs can continue operating through the end of October. The House and the Senate have been working diligently on a comprehensive reauthorization of the SBA's programs. However, as we approach the deadline for when these programs will otherwise expire, this bill is necessary to keep the agency's programs running.

Some minor changes to the programs, which were contained in the extension that the House passed last week, are not in this measure. Although the Senate chose not to address these matters at this time, there is widespread support for these measures. I am hopeful that we can revisit those changes soon in future legislation.

In coming weeks the Small Business Committee will continue working with our Senate counterparts to modernize the SBA's programs, some of which have not been updated in 10 years. While we continue our work, this bill will allow the SBA's programs to continue operating and serving entrepreneurs.

I urge my colleagues to vote "yes."

Mr. Speaker, I reserve the balance of my time.

Mr. TURNER. Mr. Speaker, I yield myself such time as I may consume.

I rise today in support of the chairwoman's request to suspend the rules and pass H.R. 3614, as amended. The bill extends until October 31, 2009, the authorization of all programs authorized by the Small Business Act, the Small Business Investment Act, and any program operated by the Small Business Administration for which Congress has already appropriated funds.

While the goal is to pass comprehensive legislation reauthorizing the SBA for a longer period, this short-term extension ensures that these programs will remain available to small businesses across the country.

Without enactment of this extension, a number of essential programs that the SBA operates would cease to function. Given the importance that small businesses play and will continue to play in the revitalization of the American economy, we cannot allow the SBA authorizations to run out.

Enactment of this legislation will enable the House and Senate to continue to work in a diligent manner to address necessary changes to SBA programs.

I urge all of my colleagues to suspend the rules and pass H.R. 3614.

Mr. Speaker, I reserve the balance of my time.

Ms. VELÁZQUEZ. Mr. Speaker, I yield 3 minutes to the gentleman from Oregon (Mr. WU).

Mr. WU. Mr. Speaker, I rise in support of H.R. 3614 and specifically those provisions which extend the SBIR and STTR programs.

Small businesses grow our economy and they innovate. The SBIR and STTR programs help small companies develop cutting-edge technologies for the marketplace.

However, these programs will expire at the end of this month, and H.R. 3614 temporarily extends the authorization of these programs while we work to finalize reauthorization efforts.

Both the House and the Senate passed legislation earlier this year to reauthorize SBIR and STTR. We have been working to find those areas of common ground on areas where we disagree, and while we have yet to reach a final agreement, we all have the same goal: to reauthorize important programs which drive our economy and drive job creation.

SBIR is a program for small business, and it is also an innovation program. It can and should serve both policy purposes. It should not be a stalking horse for Big Business nor should it become the preserve of only some small businesses while shutting out other small businesses who are frequently very good innovators in and of themselves.

We need to find the common ground that serves these policy objectives and serve them well for the good of our Nation, our economy, and job creation.

With that, I want to recognize the very good work of Chairwoman VELÁZQUEZ in this arena.

Mr. TURNER. Again, I urge all Members to support the passage of H.R. 3614.

Mr. Speaker, I have no further requests for time. I yield back the balance of my time.

Ms. VELÁZQUEZ. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from New York (Ms. VELÁZQUEZ) that the House suspend the rules and concur in the Senate amendment to the bill, H.R. 3614.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 3 o'clock and 56 minutes p.m.), the House stood in recess subject to the call of the Chair.

□ 1802

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. BLUMENAUER) at 6 o'clock and 2 minutes p.m.

#### MOTION TO INSTRUCT CONFEREES ON H.R. 2997, AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

Ms. DELAURO. Mr. Speaker, pursuant to clause 1 of rule XXII and by direction of the Committee on Appropriations, I move to take from the Speaker's table the bill (H.R. 2997) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes, with a Senate amendment thereto, disagree to the Senate amendment, and agree to the conference asked by the Senate.

The Clerk read the title of the bill.

The motion was agreed to.

Mr. KINGSTON. Mr. Speaker, I offer a motion to instruct conferees.

The SPEAKER pro tempore. The Clerk will report the motion.

The Clerk read as follows:

Mr. Kingston moves that the managers on the part of the House at the conference on the disagreeing votes of the two Houses on the Senate amendment to the bill H.R. 2997 be instructed to not record their approval of the final conference agreement (within the meaning of clause 12(a)(4) of House rule

XXII) unless the text of such agreement has been available to the managers in an electronic, searchable, and downloadable form for at least 72 hours prior to the time described in such clause.

The SPEAKER pro tempore. Pursuant to clause 7 of rule XXII, the gentleman from Georgia (Mr. KINGSTON) and the gentlewoman from Connecticut (Ms. DELAURO) each will control 30 minutes.

The Chair recognizes the gentleman from Georgia.

Mr. KINGSTON. Mr. Speaker, I yield myself such time as I may consume. I also want to thank the chairwoman of the Subcommittee on Agriculture, Ms. DELAURO. I have enjoyed working with her throughout this process. We've had a very good debate, we've had a number of good productive hearings, and we've had a lot of good discussions outside the scope of the hearings that have been helpful. So we have been, I would say, moving the ball forward in good communication.

One of the things, though, that Members of Congress need that are not on this committee is time to read bills. And this was really brought to our attention by Mr. BAIRD of Oregon who introduced a bill earlier this session that said that a health care bill should lay on the table for 72 hours.

To underscore this, I think back at the TARP bill that we had almost a year ago in November last year. And what happened during that bill, as we remember, Secretary Paulson was in a rush to do something big and bold, I think those were his exact words, something significant to send a signal to the Wall Street markets that the Federal Government was going to stand behind their financial travails.

And I remember at one particular point posting that bill on my Web site on a Sunday night which was the weekend that we were in Washington and people back home were calling, but they couldn't get any information. And we put it on our Web site as soon as it was available, which I think was about 10 p.m. at night. By the morning, I was flooded by the number of constituents who had already read that bill who appreciated the bill being put on the Web site.

I think also about the cap-and-trade bill, which was not a very popular bill. Indeed, it hasn't passed the Senate because of the public outcry on it. But during the time in the House, the way the Democratic majority passed the bill was through the usual system which we, both parties, use around here called "arm twisting" and sometimes sweetening the pot of the bill. And in that case, the cap-and-trade bill was actually being renegotiated, I believe, at 3 in the morning when the House was convening at 9 a.m.

Now, I was sleeping, and I would suggest that 435 Members of the House were probably sleeping. Maybe a hand-

ful of Members were still awake. Maybe they were in the Speaker's office having their arms twisted. And maybe they said, In exchange for my vote, I would like to see some language that's put in the bill. I don't know what happened, Mr. Speaker. But what I do know is that bill was amended. At 3 in the morning, there were things that were put in that bill.

I think because of that, Mr. BAIRD, a Democrat from Oregon, has reacted and said we need to make sure. Because Democrats and Republicans have been guilty of last-minute bill changing and last-minute arm twisting, let's put the bill out on the Web site. Let's lay it out on the table for 72 hours so that everybody has an opportunity to read about it.

I think in this case the sunshine is always helpful. I think in this bill I believe I know what's in this bill. I feel very comfortable about this bill, voting for it, and I think most members of the subcommittee and the Appropriations Committee will. But I will also say that Members who are not on the Appropriations Committee, who always kind of jump on us for doing things behind the scenes, they would benefit by having the bill out on the table. I know I would have benefited from the Energy and Commerce Committee having the cap-and-trade bill out on the table for 72 hours.

So what we are asking in this amendment is that Members have time to read bills by putting it on the table for 72 hours. That's all that this motion does.

I reserve the balance of my time.

Ms. DELAURO. Mr. Speaker, I yield myself as much time as I may consume.

I, too, want to compliment my colleague, friend and ranking member, Mr. KINGSTON. I think we have worked together on a bipartisan basis with regard to this piece of legislation, and I think we both feel that we've had sufficient input and we have come through this with identifying the needs that this Agriculture appropriation bill focuses on, the needs of the people who rely on this piece of legislation. And we've had a very thorough examination. We've had hearings, not only with regard to the budget processes, but as well external to that on issues that impact a rural community, people who care about conservation, people who care about nutrition, people who care about research in these areas. So, again, I think that within the subcommittee, we have had a very, both at a member level, and at a staff level, a very, very close-knit effort.

I might also say that in translating that as well to the conference with the Senate, that Members were engaged in that process as well as staff for several weeks as we tried to meld the two views together so that it was a thorough examination of all of the issues

that are there, and that we could come to some common resolve about it. So I think we can feel good about both the work done at the subcommittee level in the House and our work with the Senate on this conference report.

Now, I think we have some specific time constraints, which I wish we didn't, but we are guided by a September 30 deadline in terms of being able to pass a bill and what happens if that doesn't happen with an appropriation bill. There is that time constraint, but in addition, and the fiscal year coming to an end, if you will, tomorrow, which would then, with this motion to instruct would really tie the hands of the managers, of the conferees, in trying to be able to move forward given the weeks that have gone into producing the conference report.

Also, the time constraints in this institution which have to do with, and it's none of our doing, we were not in session yesterday with regard to a holiday. We come back, we are in session today, we have other constraints when people are coming and going, so that you're looking at time is of the essence in trying to pass legislation. Particularly, I might add, what we are trying to do is to keep the bills moving, appropriations bills moving, because we know what that means in terms of that fiscal year deadline. And we want to try to get bills passed into law without delay.

I know that there has been talk of 48 hours; now I understand this is 72 hours. I think that I want to, if I can say it this way, responsibly oppose my colleague's motion to instruct. I don't know if we can meet that deadline, but I also do believe fundamentally that we have, in fact, had a thorough examination of all the issues that are in this appropriations bill and in the conference bill that I think we can take to our colleagues who as well have been following what is going on because they have specific and particular interests in what this bill means for them.

I'm someone who agrees that we need to look at bills, read them, understand them, et cetera. And I honestly do believe that on this piece of legislation we have that kind of understanding.

With that, if I may, I would like to yield such time as he may consume to my colleague, the chairman of the Appropriations Committee, the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. I thank the gentlewoman for the time. Let me say this is a very interesting institution, and we have all kinds of demands placed upon it which are often contradictory. Example: many a Member in this Chamber will loudly request that we limit earmarks.

□ 1815

And then they will also ask when we go into conference that their own earmarks be funded at the highest possible level. I've had two Members of the

House talk to me just today about those matters. Didn't seem to be at all bothered by the conflict in what they're asking.

We have people who say these bills should be available for 72 hours before we vote on them, but some of those same people will not want the House to meet on Monday and they will not want the House to meet on Friday. And if that's the case, then that means that this bill, for instance, even if it is conferenced tomorrow could not be voted on any day in the remainder of the week.

We have people who want us to push these bills through before the end of the fiscal year, and yet, when we say, Well, can you go to conference at 8 o'clock tomorrow morning, we were just told today, no, they couldn't; can you go to conference at 9 o'clock, no, they can't; and then when we talk to the Members of the other body and say can you go to conference at 11 o'clock tomorrow, no, we can only go to conference at 2, if it's in the afternoon.

So anyone managing a bill, as the gentlewoman from Connecticut is going to have to manage this one, is faced with all kinds of conflicting demands from Members who seem to be almost unconscious about the fact that their demands, in fact, are conflicting. And all I can say as chairman of the committee is we will try to give Members the maximum time possible to review the bills, consistent with our obligation to get the work done.

So I think if anyone is concerned about a specific item in the bill, I'm sure the gentlewoman and I'm sure the gentleman from Georgia will be willing to walk them through what the committee has in mind.

But in the end, I would simply—I'm not going to vote for this motion because I can't with a straight face both promise to make these bills available for 72 hours and meet all of the other conflicting demands that Members of the House are making. We've got an obligation to try to balance those requirements, and we will do that to the best of our ability. And in the end, I think we will have reasonable bills, and we will let the public be the judge of just how reasonable they are.

I thank the gentlewoman for the time.

Mr. KINGSTON. I yield myself such time as may consume.

I want to say this, as my friends on the Appropriations Committee know on the other side, that this concern really is far beyond this bill. I do believe this process, particularly on the subcommittee, has been open and that Members on our side of the aisle have had plenty of time to read it.

However, I know there are Members who are not on the Appropriations Committee who are constantly criticizing our committee for doing things, and I believe that they do deserve the

time to view the bill. It is a \$23 billion bill in terms of the discretionary spending and I think around \$80 billion for the nondiscretionary spending. So \$100 billion is probably worth 3 days of scrutiny.

Yet, I think what's really more concerning is because the process of appropriations has gone through regular order—and I think the gentleman from Wisconsin and the gentlewoman from Connecticut have done a great job of being open to all members of the committee and all Members of the House on it—other bills which have been significant, which have not gone through our committee, did not have the sunshine of this bill or the sunshine of some of the other bills.

And so a lot of the things that are concerning the constituents back home right now—and I think that Mr. BAIRD from Oregon has picked up on—is that people are thinking about the stimulus bill, \$787 billion. And I know that the gentleman from Wisconsin had hearings in December on that, and we were appreciative of it, but a lot of the Members of the House did not have the opportunity to read that bill and scrutinize it as much as they would like to. And then the most recent one was the cap-and-trade bill, which Members were aware was getting amended at 3 a.m. and we were supposed to vote on it the next day. We convened 6 hours later at 9 a.m.

Now, we also have out there in the realm of possibilities a massive health care bill, a bill that the CBO has scored at \$1.29 trillion, and our constituents are very concerned. In fact, I've never seen a petition like this before, but there's actually been a petition sent up to Members of Congress saying, Will you agree to read the bill before you vote on it? And I think that's a fair request by our constituents, the minimum bid, for Members of Congress, to read the bill.

And I think that the Appropriations Committee can lead by example on this by allowing 72 hours, but I think there are also concerns, you know, perhaps this should be regularly part of the process when we have a large spending bill. This one's \$100 billion; again, the health care bill is \$1.29 trillion. People deserve the opportunity to look at it.

Now, I also know, having served in the majority, how difficult it is to manage a bill in a House with 435 independent contractors and conflicting schedules, and then you go to the really hard job and that's the other body, and sometimes it's difficult to get everybody just in the room at the same time. But that's why we passed last week in the House a continuing resolution, which actually builds in some time now, that we will have—should the other body pass that this week, we will have until October 30 to pass these bills. So the 72 hours won't put in jeopardy any of the funding levels or force

the government to go back on some money or scramble around. So we do have until October 30, but there certainly would be no reason to wait that long. We're just asking for 72 hours.

And we feel very strongly about this. We have done this already on the energy and water bill, and I think that we're just concerned about spending, Mr. Speaker.

That's kind of what this bill boils down to, and again, it goes well beyond the Appropriations Committee and certainly beyond this bill, but we are hearing from the folks back home, and I represent Georgia. Mr. BAIRD represents Oregon. I share his concern. We have a discharge petition on his bill trying to get it on the floor of the House right now. I don't know if it's bipartisan, but 160 Members have already signed that discharge petition expressing concern to have more time to read bills once they are out of the conference committee.

I reserve the balance of my time. We do not have any other speakers on this side, so if my colleague is ready to yield back, I would be, too.

Ms. DELAURO. I thank the gentleman, and I would just, with the remaining few comments, because I think that we have had this conversation, discussion, about it, focus my attention on this particular piece of legislation, and I understand the gentleman is talking about other areas.

But I think that this is particularly and maybe unique in the sense of the kinds of efforts that have gone into making this a very open process, a process where people are knowledgeable about what they're doing and how they're doing it and what kinds of input have gone in. And again, there are not too many folks around here, whether they're from north, south, east or west, and the folks from the Northeast who care about animal and plant disease. There are folks in the west coast, east coast that care about dairy. There are people who have expressed their views who are on the committee, off the committee with regard to our settling the issue of the Chinese poultry. So I think everyone has had a very adequate amount of time to look at this and to be able to reflect on it so that they can come to a conclusion.

Let me just ask the gentleman if he does have any more speakers?

Mr. KINGSTON. No, I do not have any speakers, and I'm ready to yield back the balance of my time.

Ms. DELAURO. As am I.

Mr. KINGSTON. With the exception that I have been admonished that, as I was looking at the Speaker from Oregon, I was thinking Oregon. Mr. BAIRD is from Washington, and so I'm asking for forgiveness from Mr. BAIRD. And they're both great States, of course, and I just want to make sure that's a matter of record.

I yield back the balance of my time.

Ms. DELAURO. I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to instruct.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to instruct.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. KINGSTON. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

#### COMMUNICATION FROM CHAIR OF COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE.

The SPEAKER pro tempore laid before the House the following communication from the Chair of the Committee on Transportation and Infrastructure; which was read and, without objection, referred to the Committee on Appropriations:

U.S. HOUSE OF REPRESENTATIVES,  
COMMITTEE ON TRANSPORTATION  
AND INFRASTRUCTURE,

Washington, DC, September 29, 2009.

Hon. NANCY PELOSI,  
Speaker of the House, House of Representatives,  
Washington, DC.

DEAR MADAM SPEAKER, on September 24, 2009, the Committee on Transportation and Infrastructure met in open session to consider 11 resolutions to authorize appropriations for the General Services Administration's (GSA) FY 2010 Capital Investment and Leasing Program, including six construction resolutions (authorizing \$302.6 million) and five repair and alteration resolutions (authorizing \$510.4 million). The Committee adopted the resolutions by voice vote with a quorum present.

Enclosed are copies of the resolutions adopted by the Committee on Transportation and Infrastructure on September 24, 2009.

Sincerely,

JAMES L. OBERSTAR, M.C.

Chairman.

Enclosures.

#### ALTERATION ENERGY AND WATER RETROFIT AND CONSERVATION MEASURES PROGRAM VARIOUS BUILDINGS—PEW-2010

*Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Representatives*, that, pursuant to 40 U.S.C. § 3307, appropriations are authorized to implement energy and water retrofit and conservation measures in Government-owned buildings during fiscal year 2010, at a proposed cost of \$20,000,000, a prospectus for which is attached to and included in this resolution.

*Provided*, that, to the maximum extent practicable, the Administrator of General Services shall require that the procurement includes minimum performance requirements requiring energy efficiency and the use of renewable energy.

*Provided further*, that the General Services Administration shall not delegate to any other agency the authority granted by this resolution.

#### PROGRAM SUMMARY

This alteration prospectus proposes the implementation of energy and water retrofit and conservation measures in Government-owned buildings during fiscal year 2010. Projects to be accomplished in Federal buildings throughout the country are currently being identified through surveys and studies. The projects to be funded will have positive savings-to-investment ratios, will provide reasonable payback periods, and may generate rebates and savings from utility companies and incentives from grid operators. Projects will vary in size, by location, and by delivery method. This prospectus requests authority to fund energy and water retrofit work. The authority requested in this prospectus is for a diverse set of retrofit projects with engineering solutions to reduce energy or water consumption and/or costs.

#### JUSTIFICATION

The Energy Policy Act of 2005 (Public Law 109-58) required a 2% energy usage reduction as measured in BTU/GSF per year from 2006 through 2015 over a 2003 baseline. Additionally, this act sets a mandate to install advanced meters for electricity in all buildings by 2012. Guidance issued by the Department of Energy pursuant to this requirement states that savings anticipated from advanced metering can range from 2% to 45% annually when used in combination with continuous commissioning efforts. Executive Order 13423 on Strengthening Environmental, Energy and Transportation Management was, concerning energy consumption reduction, incorporated into law as the energy independence and Security Act of 2007. The Executive Order also established a water reduction mandate of 2% per year based on a 2007 baseline as measured in gallons/gsf.

By the year 2015, all Federal agencies are directed to reduce overall energy use in federally operated buildings they operate by 30 percent from 2003 levels and reduce overall water use by 16 percent from 2007 levels. Increased energy and water efficiency in buildings and operations will require capital investment for changes and modifications to physical systems which consume energy and water.

In addition, the Energy Independence and Security Act of 2007 included provisions that exceed the requirements of the Energy Policy Act of 2005. One such long-term requirement is to eliminate fossil fuel-generated energy consumption in new and renovated Federal buildings by FY 2030 by achieving targeted reductions beginning with projects designed in FY 2010. Other shorter-term measures include increasing the use of solar hot water heating (to 30%); installation of advanced meters for water and gas (previously only electricity was covered); and broader application of energy efficiency in all major renovations. Approval of this FY 2010 request will enable GSA to continue to provide leadership in energy/water conservation and efficiency to both the public and private sectors.

#### AUTHORIZATION REQUESTED—\$20,000,000

Potential projects to be accomplished in Federal buildings throughout the country are currently being identified through surveys and studies. The projects to be funded will have positive savings-to-investment ratios, will provide reasonable payback periods, and may generate rebates and savings from utility companies and incentives from grid operators. Projects will vary in size by location and by delivery method. Typical projects include the following:

Upgrading heating, ventilating, and air-conditioning (HVAC) systems with new high

efficiency systems including the installation of energy management control systems.

Altering constant volume air distribution systems to variable air flow systems by the addition of variable air flow boxes, fan volume control dampers, and related climatic controls.

Installing building automation control systems, such as night setback thermostats and time clocks, to control HVAC systems.

Installing automatic occupancy light controls, lighting fixture modifications and associated wiring to reduce the electrical consumption per square foot through the use of higher efficiency lamps and use of non-uniform task lighting design.

Installing new or modifying existing temperature control systems.

Replacing electrical motors with multi-speed or variable-speed motors.

Insulating roofs, pipes, HVAC duct work, and mechanical equipment.

Installing and caulking storm windows and doors to prevent the passage of air and moisture through the building envelope.

Providing advanced metering projects which enable building managers to better monitor and optimize energy performance.

Providing and implementing water conservation projects.

Providing renewable projects including photovoltaic systems, solar hot water systems, and wind turbines.

Providing distributed generation systems.

#### CERTIFICATION OF NEED

It has been determined that the practical solution to achieving the identified building energy and water management goals is to proceed with the energy and water retrofit work indicated above.

Submitted at Washington, DC, on June 11, 2009.

Recommended:— —, Acting Commissioner, Public Building Service.

Approved: Paul F. Prouty, Acting Administrator, General Services Administration.

#### DESIGN/ALTERATION—HIGH PERFORMANCE ENERGY PROJECTS—ENERGY INDEPENDENCE AND SECURITY ACT OF 2007—VARIOUS BUILDINGS—PEISA-2010

*Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Representatives*, that, pursuant to 40 U.S.C. § 3307, appropriations are authorized for implementation of high performance energy projects and conservation measures in Government-owned buildings during fiscal year 2010, at a proposed cost of \$20,000,000, a prospectus for which is attached to and included in this resolution.

*Provided*, that, to the maximum extent practicable, the Administrator of General Services shall require that the procurement includes minimum performance requirements requiring energy efficiency and the use of renewable energy.

*Provided further*, that the General Services Administration shall not delegate to any other agency the authority granted by this resolution.

#### PROGRAM SUMMARY

This alteration prospectus proposes the implementation of high performance energy projects and conservation measures in Government-owned buildings during fiscal year 2010. Projects, to be accomplished in Federal buildings throughout the country, are currently being identified through surveys and studies. The projects to be funded will have positive savings-to-investment ratios, will provide reasonable payback periods, and may generate rebates and savings from utility

companies and incentives from grid operators. Projects will vary in size, by location, and by delivery method. This prospectus requests authority to fund geothermal and other high-performance green building retrofit work, as well as designs for new facilities that incorporate these technologies. As we formulate and develop future projects, we will incorporate these activities into our designs. As appropriate, we will use the authority in this prospectus to incorporate this requirement into previously funded and authorized activities. The authority requested in this prospectus is for a diverse set of retrofit and design projects with engineering solutions to reduce energy consumption and/or costs.

#### JUSTIFICATION

The Energy Policy Act of 2005 (Public Law 109-58) required a 2% energy usage reduction as measured in BTU/gsf per year from 2006 through 2015 over a 2003 baseline. Additionally, this act sets a mandate to install advanced meters for electricity in all buildings by 2012. Guidance issued by the Department of Energy pursuant to this requirement states that savings anticipated from advanced metering can range from 2% to 45% annually when used in combination with continuous commissioning efforts. In regard to energy consumption reduction, Executive Order 13423 on Strengthening Environmental, Energy and Transportation Management was, incorporated into law as the Energy Independence and Security Act of 2007 (EISA). Both increased the energy reduction mandates to 3% per year, and the Executive Order also established a water reduction mandate of 2% per year based on a 2007 baseline as measured in gallons/gsf.

By the year 2015, all Federal agencies are directed to reduce overall energy use in federally operated buildings they operate by 30 percent from 2003 levels and reduce overall water use by 16 percent from 2007 levels. Increased energy and water efficiency in buildings and operations will require capital investment for changes and modifications to physical systems which consume energy and water, as well as other high performance green building initiatives and infrastructure designs and retrofits.

In addition, EISA included provisions that exceed the requirements of the Energy Policy Act of 2005. One specific long term requirement is to eliminate fossil fuel generated energy consumption in new and renovated Federal buildings by FY 2030 by achieving targeted reductions beginning with projects designed in FY 2010. High-performance green building initiatives and infrastructure designs and retrofits will assist in reaching the targeted reductions.

EISA also requires GSA to create at least two technology acceleration programs, for high-efficiency lighting and for geothermal space conditioning (ground source heat pump), as well as others that are cost effective.

The technology acceleration programs are broad in their application and potentially dramatic in their ability to improve the human and energy performance attributed to buildings. Lighting control systems, even with the lighting energy improvements of the past 30 years in Federal buildings, have the ability to improve the working performance conditions and reduce energy consumption by nearly 30%. The capital cost of these renovations is considerable, as most require the removal and replacement of ceiling systems, and the re-wiring of electrical distribution. The geothermal (ground source heat pump) program requires significant

training both for GSA personnel and contractors. EPA and DoE have programs that can be adapted for GSA, and the cost of the program is reduced accordingly. The feasibility studies are considerable in number, and involve information about site conditions for existing buildings that are not readily available in our records, as well as vast changes in the direction to procurement and engineering professionals across the agency. GSA's ability to design and implement this acceleration program will have great value to the rest of the Federal inventory, as the lessons learned and programmatic guidance developed will be applicable to many other building types. The upfront capital costs of geothermal systems are typically 1.5 times conventional systems, and yield a positive return on investment typically in the 10-15 year range (dependent upon geological conditions (capital) and the cost of energy (operations)).

Approval of this fiscal year 2010 request will enable GSA to continue to provide leadership in energy/water conservation and efficiency to both the public and private sectors. Authorization Requested—\$20,000,000.

Potential projects to be accomplished in Federal buildings throughout the country are currently being identified through surveys and studies, along with potential new designs. The projects to be funded will have positive savings-to-investment ratios, will provide reasonable payback periods, and may generate rebates and savings from utility companies and incentives from grid operators.

Projects will vary in size by location and by delivery method. Typical projects include the following:

Designing new facilities to conform to EISA and to incorporate these new technologies.

Designing new facilities to incorporate other sustainable, green building technologies, such as solar power, wind power, green roofs, and photovoltaic techniques.

Drilling to install vertical and horizontal geothermal loops.

Installing heat pumps and other types of geothermal equipment.

Installing building insulation and seals to enhance equipment performance and reduce the size and energy consumption of geothermal and other energy-efficient equipment.

Installing new or modifying existing green building materials.

Installing wastewater recycling processes for use on lawns, in toilets, and for washing cars.

Insulating roofs, pipes, HVAC duct work, and mechanical equipment.

Installing other green building technologies such as hot water heat recycling, renewable heating systems, seasonal thermal storage systems, and solar air conditioning, green roofs, and cool roofs.

#### CERTIFICATION OF NEED

It has been determined that the practical solution to achieving the identified building energy and water management goals is to proceed with the energy and water retrofit work indicated above.

ALTERATION—FIRE PROTECTION & LIFE SAFETY PROGRAM—VARIOUS BUILDINGS—PFP—2010

*Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Rep-*

*resentatives*, that, pursuant to 40 U.S.C. §3307, appropriations are authorized for alterations to upgrade, replace, and improve life safety features and fire protection systems in Government-owned buildings during fiscal year 2010, at a proposed cost of \$20,000,000, a prospectus for which is attached to and included in this resolution.

*Provided*, that, to the maximum extent practicable, the Administrator of General Services shall require that the procurement includes minimum performance requirements requiring energy efficiency and the use of renewable energy.

*Provided further*, that the General Services Administration shall not delegate to any other agency the authority granted by this resolution.

#### PROGRAM SUMMARY

This prospectus proposes alterations to upgrade, replace, and improve life safety features and fire protection systems in Government-owned buildings during Fiscal Year 2010. Projects in federal buildings throughout the country are currently being identified through surveys and studies and will vary in size, location, and delivery method. The authority requested in this prospectus is for a diverse set of retrofit projects with engineering solutions to reduce fire and life safety hazards. Typical projects include the following:

Replacing antiquated fire alarm and detection systems that are in need of repair or for which parts are no longer available.

Installing emergency voice communication systems to facilitate occupant notification and/or evacuation.

Installing and/or expanding fire sprinkler coverage to protect federal property.

Constructing additional or enclosing existing exit stair towers to ensure timely evacuation of buildings in the event of an emergency.

#### JUSTIFICATION

GSA conducts periodic life safety and fire protection assessments of federal buildings nationwide to assess fire risk. As a result of these assessments, a number of life safety and fire protection issues have been identified that need to be addressed in order to reduce the risk of injury, the loss of federal property, and interruption of a federal agency mission.

This prospectus will provide upgrades to a number of GSA federal buildings that do not meet current or national or GSA building fire alarm codes. These buildings contain antiquated hardwired fire alarm systems with replacement parts that are no longer available, lack voice communication capability, and a complete sprinkler system.

Authorization Requested—\$20,000,000.

#### CERTIFICATION OF NEED

It has been determined that the practical solution to achieving the identified building fire and life safety goals is to proceed with the fire and life safety work indicated above.

Submitted at Washington, DC, on June 11, 2009.

Recommended: — — — Acting Commissioner, Public Buildings Service.

Approved: Paul F. Prouty, Acting Administrator, General Services Administration.

ALTERATION—NEW EXECUTIVE OFFICE BUILDING—WASHINGTON, DC—PDC-0105-WA10

*Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Representatives*, that, pursuant to 40 U.S.C. §3307, appropriations are authorized for repairs and alterations to the New Executive Office Building, located at 725 17th Street, NW., in

Washington, D.C., at design and review costs of \$394,000 (design costs of \$451,000 were previously authorized), management and inspections costs of \$6,257,000 (management and inspection costs of \$423,000 were previously authorized), and estimated construction costs of \$23,625,000 (estimated construction costs of \$5,388,000 were previously authorized), at a proposed total cost of \$30,276,000, a prospectus for which is attached to and included in this resolution. This resolution amends the Committee resolution of July 21, 2004.

*Provided*, that, to the maximum extent practicable and considering life-cycle costs appropriate for the geographic area, the General Services Administration (GSA) shall use energy efficient and renewable energy systems, including photovoltaic systems, in carrying out the project.

*Provided further*, that within 180 days of approval of this resolution, GSA shall submit to the Committee on Transportation and Infrastructure of the U.S. House of Representatives and the Committee on Environment and Public Works of the U.S. Senate a report on the planned use of energy efficient and renewable energy systems, including photovoltaic systems, for such project and if such systems are not used for the project, the specific rationale for GSA's decision.

*Provided further*, that beginning on the date of approval of this resolution, GSA shall, to the maximum extent practicable and considering life-cycle costs appropriate for the geographic area, use energy efficient and renewable energy systems, including photovoltaic systems, in carrying out alteration, design, or construction projects.

*Provided further*, that beginning on the date of approval of this resolution, each alteration, design, or construction prospectus submitted by GSA shall include an estimate of the future energy performance of the building and specific description of the use of energy efficient and renewable energy systems, including photovoltaic systems, in carrying out the project.

#### PROJECT SUMMARY

The General Services Administration (GSA), proposes to amend Prospectus PDC-0105-DC05 due to changes in scope, internal swing space requirements, material escalations, and security escort costs not originally contemplated for the New Executive Office Building located at 725 17th Street, NW in Washington, DC.

#### MAJOR WORK ITEMS

HVAC system upgrades, demolition and abatement, interior construction, internal swing space build out, fire protection alarm, lighting and branch wiring, communications, superstructure.

#### PROJECT BUDGET

Design and Review	
Design and Review (FY2005) .....	\$451,000
Additional Design (FY2010 Request) .....	394,000
Design and Review Subtotal .....	845,000
Management and Inspection (M&I)	
M&I (FY2005) .....	423,000
Additional M&I (FY2010 Request) .....	6,257,000
M&I Subtotal .....	6,680,000
Estimated Construction Cost (ECC)	
ECC (FY2005) .....	5,388,000
Additional ECC (FY2010 Request) .....	23,625,000
ECC Subtotal .....	29,013,000
Estimated Total Project Cost* .....	36,538,000

\*Tenant agencies may fund an additional amount for alterations above the standard normally provided by the GSA.

Authorization Requested (Additional—Design, ECC and M&I)—\$30,276,000.

#### PRIOR AUTHORITY AND FUNDING

The House Committee on Transportation and Infrastructure authorized \$6,262,000 for design, construction and management and inspection on July 21, 2004.

The Senate Committee on Environment and Public Works authorized \$6,262,000 for design, construction and management and inspection on November 17, 2004.

Through Public Law 108-447, Congress appropriated \$6,262,000 for design, construction and management and inspection in FY 2005.

#### PRIOR PROSPECTUS-LEVEL PROJECTS IN BUILDING (PAST 10 YEARS):

None.

Schedule	Start	End
Design .....	FY2005	FY2009
Construction .....	FY2010	FY2012

#### BUILDING

The New Executive Office Building is a 10-story reinforced concrete building with a red brick façade. The building which is proximate to the White House Complex, a desirable feature for the building's tenants, was constructed in 1966. The building has approximately 432,131 gsf with 110 parking spaces.

#### MAJOR TENANT AGENCIES

Executive Office of the President—Office of Management and Budget, Defense—Office of the Secretary; Department of Homeland Security—U.S. Secret Service.

#### PROPOSED PROJECT

The proposed project will replace components of the existing HVAC system. The fan coil units (FCUs) on the ninth and tenth floors will be replaced, along with deteriorated black iron riser piping from the third through tenth floors.

In addition to replacing the existing perimeter riser system, asbestos-containing material (ACM) shall be abated. To avoid potential hazardous exposure from the asbestos abatement, GSA will create internal swing space for the tenant agency to temporarily relocate from the ninth and tenth floors. Costs to build out the temporary space, and tenant moves including relocation of the telecommunication equipment, and the furniture are included in this prospectus.

Funds for escort security costs during construction are requested due to the sensitive nature of the customers' operations. Access to the project site will be limited to cleared escorted personnel.

Superstructure work will cover firestopping (insulation and sealing) of the pipe penetrations on each floor.

As the ceilings are demolished, new energy efficient lights will replace the existing lighting and wiring. Project specifications include the replacement of ceiling panels with a panel product which includes approximately seventy-five percent recycled content and finished with paint composed of low volatile organic compounds (VOC).

In 2002, a project replaced the FCUs except those on the ninth and tenth floors. The FCUs on floors nine and ten were not replaced at that time because the coils are located in the ceiling plenum. The ninth floor ceiling plenum is insulated with sprayed-on fireproofing containing asbestos which needs to be abated prior to construction. The initial project revealed that the riser piping

along with its branches and valves have deteriorated and should be replaced.

#### MAJOR WORK ITEMS

HVAC Upgrades .....	\$16,972,000
Building Demolition and Abatement .....	3,317,000
Interior Construction .....	4,679,000
Internal Swing Space Build Out .....	546,000
Fire Protection Alarm .....	628,000
Lighting and Branch Wiring .....	1,704,000
Communications .....	980,000
Superstructure .....	187,000
Total ECC .....	\$29,013,000

#### JUSTIFICATION

Congress previously authorized this project in fiscal year 2005; however, the project scope increased pursuant to review of the 35% design completion, which uncovered logistical difficulties in maintaining customer operations during construction as originally scoped. Initial estimates did not fully capture the complexities of construction in the occupied building. The project scope is therefore increased to include: additional upgrades for the heating, ventilating and air-conditioning components and controls; security escorts required during construction; customer move expenses; and materials escalation costs.

After further investigation of the piping and FCUs, additional equipment and operating deficiencies were identified. Most of these deficiencies are related to equipment having reached the end of its useful life and some are a result of previous renovations that did not include certain adjustments to the HVAC system that might have been incorporated in larger projects.

Significant leaks due to the deterioration of the risers have resulted in extensive damage and disruption to agency operations. A major leak in August 2006 caused a day-long building shutdown and tenant productivity losses, as well as extensive damage to the tenant's space. Riser failures should be considered eminent and leaks could again cause extensive damage and interruption to the tenant's missions which are critical to the operation of the Executive Office of the President.

The upgraded HVAC work will provide increases in energy efficiency and will provide improved controls and monitoring by utilizing newer state of the art technology.

The recent implementation of HSPD-12 and the customer's need for security escorts during construction must now be accommodated.

Customer moves are required in order to abate the asbestos and install the new fan coil units and variable frequency drives located in the ceilings on the 9th and 10th floors. It is necessary to remove the ceilings in their entirety including lights, sprinklers and fire alarms, and telecommunication equipment.

Materials escalation will be necessary because construction will proceed in four phases to accommodate OMB's time sensitive operations. This lengthens the project delivery schedule and is a reason for the increase in cost.

#### ALTERNATIVES CONSIDERED (30-YEAR, PRESENT VALUE COST ANALYSIS)

There are no feasible alternatives to this project.

#### RECOMMENDATION

Alteration.

#### CERTIFICATION OF NEED

The proposed project is the best solution to meet a validated Government need.

Submitted at Washington, DC, on June 11, 2009.

Recommended: — — — Acting Commissioner, Public Buildings Service.

Approved: Paul F. Prouty, Acting Administrator, General Services Administration.

ALTERATION—DWIGHT D. EISENHOWER EXECUTIVE OFFICE BUILDING—WASHINGTON, DC—PDC-0035-WA10

*Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Representatives*, that, pursuant to 40 U.S.C. § 3307, appropriations are authorized for repairs and alterations to the Dwight D. Eisenhower Office Building located at Pennsylvania Avenue and 17th Street, NW, in Washington, D.C., at design and review costs of \$1,050,000, at management and inspections costs of \$1,800,000, and estimated construction costs of \$12,150,000, at a proposed total cost of \$15,000,000, a prospectus for which is attached to and included in this resolution.

*Provided*, that, to the maximum extent practicable and considering life-cycle costs appropriate for the geographic area, the General Services Administration (GSA) shall use energy efficient and renewable energy systems, including photovoltaic systems, in carrying out the project.

*Provided further*, that within 180 days of approval of this resolution, GSA shall submit to the Committee on Transportation and Infrastructure of the U.S. House of Representatives and the Committee on Environment and Public Works of the U.S. Senate a report on the planned use of energy efficient and renewable energy systems, including photovoltaic systems, for such project and if such systems are not used for the project, the specific rationale for GSA's decision.

*Provided further*, that beginning on the date of approval of this resolution, GSA shall, to the maximum extent practicable and considering life-cycle costs appropriate for the geographic area, use energy efficient and renewable energy systems, including photovoltaic systems, in carrying out alteration, design, or construction projects.

*Provided further*, that beginning on the date of approval of this resolution, each alteration, design, or construction prospectus submitted by GSA shall include an estimate of the future energy performance of the building and specific description of the use of energy efficient and renewable energy systems, including photovoltaic systems, in carrying out the project.

#### PROJECT SUMMARY

The General Services Administration (GSA) proposes a comprehensive roof replacement to the Dwight D. Eisenhower Executive Office Building (EEOB) located at Pennsylvania Ave and 17th Street, NW, in Washington, DC.

#### MAJOR WORK ITEMS

Building roofing systems repairs and select systems replacement activities including; flat seam copper roofing replacement; skylight repairs and replacement; dormer and chimney repairs; lightning protection; flashing systems repairs and/or replacement and slate repairs and/or replacement.

#### PROJECT BUDGET

Design and Review .....	\$1,050,000
Estimated Construction	
Cost (ECC) .....	12,150,000
Management and Inspection (M&I) .....	1,800,000

Estimated Total Project	
Cost (ETPC)* .....	\$15,000,000

\*Tenant agencies may fund an additional amount for alterations above the standard normally provided by the GSA.

Authorization Requested (Design, ECC, M&I)—\$15,000,000.

#### PRIOR AUTHORITY AND FUNDING

None.

Schedule	Start	End
Design .....	FY2010	FY2010
Construction .....	FY2010	FY2011

#### BUILDING

The EEOB, constructed in 1888, is on the National Register of Historic Places. This building functions as the principal support facility for the White House operations, offering 691,783 gross square feet and 46 outside parking spaces.

#### TENANT AGENCIES

Executive Office of the President of the United States, Department of Homeland Security, Department of Defense and General Services Administration

#### PROPOSED PROJECT

The existing roof design is a complex mansard system with flat, vertical and angled surfaces; multiple peaks, valleys, changes in plane and flashing connections, dormers, chimneys, skylights, domes, and other impressive architectural details. The long term replacement tasks include repairs, replacement and/or new installation of all; skylights, flat seam copper roofing, lightning protection, cast iron dormer metals, chimney trim and flashings, other roof flashing and counter flashing components and miscellaneous sealants and appurtenances.

#### MAJOR WORK ITEMS

Flat Seam Copper Roofing	\$6,339,000
Skylight Repair .....	2,641,000
Dormer and Chimney Repair .....	1,585,000
Lightning Protection .....	528,000
Flashing and Slate Replacement .....	1,057,000
Total ECC .....	\$12,150,000

#### JUSTIFICATION

The EEOB roofing system was partially repaired and replaced under a major project completed during 1988-1994. The previous scope of work in the most recent multi phased project did not provide for or include, the installation of roof-access traffic ways, maintenance platforms, waterproof mission-critical equipment installations, a permanent and available fall protection system, gutter/downspout and rain water conductor piping. Foot traffic, to accomplish maintenance of the roofing system and other work, has exacerbated damage, resulting in hundreds of leaks throughout the building.

#### SUMMARY OF ENERGY COMPLIANCE

The EEOB roof replacement will implement design principles to be integrated as seamlessly as possible into all aspects of both the design and construction process. Currently we are looking at options that will achieve the goal of obtaining certification through the Leadership in Energy and Environmental Design (LEED) Green Building Rating System of the U.S. Green Building Council.

#### ALTERNATIVES CONSIDERED (30-YEAR, PRESENT VALUE COST ANALYSIS)

There are no feasible alternatives to this project.

#### RECOMMENDATION

Alteration.

#### CERTIFICATION OF NEED

The proposed project is the best solution to meet a validated Government need.

Submitted at Washington, DC, on June 11, 2009.

Approved: Paul F. Prouty, Acting Administrator, General Services Administration.

ALTERATION—WEST AND EAST WING INFRASTRUCTURE SYSTEMS REPLACEMENT—WASHINGTON, DC—PDC-0017-WA10

*Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Representatives* that, pursuant to 40 U.S.C. § 3307, appropriations are authorized for repairs and alterations to the New Executive Office Building, located at 725 17th Street, NW, in Washington, DC, at design costs of \$18,687,000 (design costs of \$22,179,000 were previously authorized), at management and inspections costs of \$14,504,000 (management and inspection costs of \$12,416,000 were previously authorized), and estimated construction costs of \$164,159,000 (estimated construction costs of \$144,271,000 were previously authorized), at a proposed total cost of \$197,350,000, a prospectus for which is attached to and included in this resolution. This resolution amends the Committee resolution of September 24, 2008.

*Provided*, that, to the maximum extent practicable and considering life-cycle costs appropriate for the geographic area, the General Services Administration (GSA) shall use energy efficient and renewable energy systems, including photovoltaic systems, in carrying out the project.

*Provided further*, that within 180 days of approval of this resolution, GSA shall submit to the Committee on Transportation and Infrastructure of the U.S. House of Representatives and the Committee on Environment and Public Works of the U.S. Senate a report on the planned use of energy efficient and renewable energy systems, including photovoltaic systems, for such project and if such systems are not used for the project, the specific rationale for GSA's decision.

*Provided further*, that beginning on the date of approval of this resolution, GSA shall, to the maximum extent practicable and considering life-cycle costs appropriate for the geographic area, use energy efficient and renewable energy systems, including photovoltaic systems, in carrying out alteration, design, or construction projects.

*Provided further*, that beginning on the date of approval of this resolution, each alteration, design, or construction prospectus submitted by GSA shall include an estimate of the future energy performance of the building and specific description of the use of energy efficient and renewable energy systems, including photovoltaic systems, in carrying out the project.

#### PROJECT SUMMARY

The General Services Administration (GSA) proposes to amend prospectus number PDC0017-WA09 for repair and alterations to the West Wing of the White House to include the East Wing of the White House located at 1600 Pennsylvania Avenue, NW, Washington, DC. GSA re-examined the original plan and phases to implement critical changes at the West Wing and upon that evaluation recognized that completing the West and East Wing primary system replacement together given the similarity of scope was the most cost and time efficient approach.

#### MAJOR WORK ITEMS

Demolition and abatement, site work, structural and finishes work, fire suppression system, mechanical systems to include HVAC and Chemical Biological Radiological

(CBR), electrical systems and fire alarm, physical security and information technology systems.

## PROJECT BUDGET

Design and Review	
Phase I (FY2008 Reprogramming—West Wing Ph I)	\$9,689,000
Additional Phase I (FY09 Proposed Reprogramming—East Wing Ph I)	16,860,000
Phase II (future fiscal year—West Wing Ph II)	6,245,000
Phase III (future fiscal year—East Wing Ph II)	8,072,000
Design and Review Subtotal	\$40,866,000
Estimated Construction Cost (ECC)	
Phase I (FY2009—West Wing PH I)	\$70,271,000
Additional Phase I ECC (FY2010 Request—East Wing PH I)	111,177,000
Phase II (future fiscal year—West Wing Ph II)	74,000,000
Phase III (future fiscal year—East Wing Ph II)	52,982,000
ECC Subtotal	\$308,430,000
Management and Inspection (M&I)	
Phase I (FY2009—West Wing Ph I)	\$6,216,000
Additional Phase I M&I (FY2010 Request—East Wing Ph I)	9,823,000
Phase II (future fiscal year—West Wing Ph II)	6,200,000
Phase III (future fiscal year—East Wing Ph II)	4,681,000
M&I Subtotal	\$26,920,000
Estimated Total Project Cost *	\$376,216,000

\* Tenant agencies may fund an additional amount for alterations above the standard normally provided by the GSA.

Additional Authorization Requested (Design, ECC, M&I)—\$203,595,000.<sup>1</sup>

<sup>1</sup>This request is for the balance of authorization required for the East Wing portion of the project. The West Wing portion has been fully authorized.

FY2010 Funding Requested (Additional Phase I ECC and M&I)—\$121,000,000.

## PRIOR AUTHORITY AND FUNDING

The House and Senate Appropriations Committees approved a reprogramming request of \$9,689,000 for design for the West Wing portion of the project in FY2008.

The House Committee on Transportation and Infrastructure authorized \$15,934,000 for design for the West Wing portion of the project on September 24, 2008.

The House Committee on Transportation and Infrastructure authorized \$162,932,000 for design construction and management and inspection for the West Wing portion of the project on September 24, 2008.

The Senate Committee on Environment and Public Works authorized \$172,621,000 for design, construction and management and inspection for the West Wing portion of the project on May 21, 2008.

Through Public Law 111-8, Congress appropriated \$76,487,000 for partial construction and management and inspection in FY2009.

## PRIOR PROSPECTUS-LEVEL PROJECTS IN BUILDING (PAST 10 YEARS)

None.

	Schedule	Start	End
Design .....		FY2008	FY2013
Construction .....		FY2010	FY2016.

## BUILDING

Originally constructed in 1902, the West Wing is the part of the White House in which the Oval Office, the Cabinet Room and the Situation Room are located. It serves as the day-to-day office of the President of the United States. It is roughly 30,000 gross square feet and includes offices for senior members of the Executive Office of the President of the United States and their support staff.

The East Wing as it exists today was added to the White House in 1942 and serves as office space for the First Lady and her staff, the Department of Defense, and the United States Secret Service. The East Wing also includes the President's Theater, the visitor's entrance and the East Colonnade.

## TENANT AGENCY

Executive Office of the President of the United States.

## PROPOSED PROJECT

A study of the electrical and mechanical systems of the West Wing was completed and the findings identified a critical need for the immediate replacement of the aged and failing systems in order to prevent an imminent equipment failure and the resultant interruption of services. There is currently no redundant HVAC equipment for the West Wing and this has prevented shutdown for testing and maintenance of the equipment for many years. The West Wing electrical systems have also reached the end of their reliable productivity and failure would result in discontinued operations.

Similar studies have been undertaken and completed on the East Wing and indicate the condition of the utilities in the East Wing is similar to the West Wing, replacement is necessary to prevent imminent failure. In order to secure continuous reliable HVAC and electrical service to both the West and East Wing, GSA proposes replacing all primary systems and secondary distribution systems that serve the interior of the each wing.

While the projects were originally planned as separate projects, GSA is now planning to combine the replacement of the primary systems for the West and East Wing in Phase I of the project. The replacement of the secondary distribution systems for the West and East Wings will follow in Phase II and Phase III, respectively.

The proposed total project includes the construction of a new accessible, utility pathway to allow for the service and maintenance of the new systems infrastructure. As there is currently no space available in the building to accommodate any additional equipment, the project will include the construction of new mechanical and electrical rooms to support the new services. Select structural and architectural restoration of areas that are disturbed in the systems replacement will be included. Fire life safety upgrades including automatic fire suppression and fire alarm systems. Mechanical work includes HVAC systems and controls, CBR systems, plumbing storm and sewer systems. Electrical power, lighting, select emergency power and lighting and select UPS systems. Physical security system includes; access control, intrusion detection, video as-

essment and emergency notifications systems. Both copper and fiber optic backbones are included for the IT systems infrastructure.

All utility services will be rerouted to allow the GSA necessary access to operate, maintain, and repair infrastructure, services and equipment as required.

## MAJOR WORK ITEMS

Site Work .....	\$41,298,000
Structural and Finishes	
Work .....	68,356,000
Fire Suppression System ...	16,062,000
Mechanical Systems .....	87,479,000
Electrical System & Fire Alarm, Physical Security and IT Systems .....	78,560,000
Demolition/Abatement .....	16,675,000
Total ECC .....	\$308,430,000

## JUSTIFICATION

GSA completed a systems evaluation and technical study of the physical plant, infrastructure and facilities serving each wing as well as select systems and equipment resulting in sequential projects. While the projects were originally planned as separate projects, GSA and the Administration have determined that combining the West and East Wing primary systems replacement projects together would be more cost effective by eliminating duplicate costs for mobilization, demobilization, remobilization, management, inspections and reduced construction time and cost. In addition, the combined projects create less disruption to mission critical operations given the connection, continuation and extension of similar utilities and infrastructure scope of work connecting West Wing services with the East Wing. A provision will be made in the design of West Wing Phase I for the replacement of the secondary distribution systems for the West and East Wings that will follow in Phase II and Phase III, respectively.

## SUMMARY OF ENERGY COMPLIANCE

The West and East Wing Infrastructure Project will integrate and implement sustainable design principles and energy efficiency effort as seamlessly as possible into all aspects of both the design and construction process. The goal is to obtain certification through the Leadership in Energy and Environmental Design (LEED) Green Building Rating System of the U.S. Green Building Council.

## ALTERNATIVES CONSIDERED (30-YEAR, PRESENT VALUE COST ANALYSIS)

There are no feasible alternatives to this project.

## RECOMMENDATION

Alteration.

## CERTIFICATION OF NEED

The proposed project is the best solution to meet a validated Government need.

Submitted at Washington, DC, on June 11, 2009.

Recommended: — — — Acting Commissioner, Public Buildings Service.

Approved: Paul F. Prouty, Acting Administrator, General Services Administration.

AMENDED PROSPECTUS—CONSTRUCTION—UNITED STATES COURTHOUSE ANNEX—SAN DIEGO, CA—PCA-CTC-SD09

Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Representatives, that, pursuant to 40 U.S.C. §3307, additional appropriations in the amount of \$78,000,000 are authorized for management and inspection and construction of the United States Courthouse Annex, San Diego,

California, not to exceed 466,886 gross square feet. This resolution amends the Transportation and Infrastructure Committee resolution dated July 19, 2006;

*Provided*, that the Administrator of General Services shall ensure that the San Diego, California Courthouse Complex contains no more than 22 courtrooms;

*Provided further*, that the Administrator of General Services shall not construct more than six courtrooms or 12 chambers in the San Diego, California Courthouse Annex under the authority of this resolution;

*Provided further*, that the Administrator of General Services shall ensure that a sharing plan approved by the Judicial Conference on September 15, 2009, for courtrooms for magistrate judges is adopted within 30 days of this resolution and is implemented in the design of the San Diego Courthouse Complex;

*Provided further*, that the Administrator of General Services shall require that any excess space not allocated to courtroom or other court-related use in the San Diego, California Courthouse Annex shall be used to provide office space to Executive Branch agencies that are not ancillary or related to the Federal judiciary;

*Provided further*, that the Administrator of General Services shall submit a prospectus for any additional expansion space, after completion of construction and occupancy of the San Diego Courthouse Annex, for court or other court-related use requested in the San Diego, California Courthouse Annex;

*Provided further*, that, prior to acceptance of the Guaranteed Maximum Price (GMP), the Administrator of General Services shall advise the Committee on Transportation and Infrastructure of the number of courtrooms, chambers, court space, court related space, and other agency space to be provided in the San Diego, California Courthouse Annex;

*Provided further*, that no additional funds, beyond the GMP, in effect on the date of this resolution, for the procurement for the construction of the San Diego, California Courthouse Annex, as of the date of adoption of this resolution, shall be authorized or obligated for the project.

*Provided further*, that, to the maximum extent practicable and considering life-cycle costs appropriate for the geographic area, the General Services Administration (GSA) shall use energy efficient and renewable energy systems, including photovoltaic systems, in carrying out the project.

*Provided further*, that, within 180 days of adoption of this resolution, GSA shall submit to the Committee on Transportation and Infrastructure of the U.S. House of Representatives and the Committee on Environment and Public Works of the U.S. Senate a report on the planned use of energy efficient and renewable energy systems, including photovoltaic systems, for the project and if such systems are not used for the project, the specific rationale for GSA's decision.

#### DESCRIPTION

The General Services Administration (GSA) proposes the construction of a 466,886 gross square foot U.S. Courthouse Annex (CT Annex), including 105 inside parking spaces, in San Diego, CA. The CT Annex will meet the 30-year space needs of the courts and court-related agencies in conjunction with the existing Edward J. Schwartz Federal Building and U.S. Courthouse (FBCT). San Diego was one of the four emergency projects on the Judiciary's Revised Five-Year Courthouse Project Plan—FY2005–2009, approved by the Judicial Conference on March 26, 2004.

#### PROJECT SUMMARY

Site Information	
Site acquired .....	2.27 acres

Building Area	
Gross square feet (excluding inside parking) .....	419,636
Gross square feet (including inside parking) .....	466,886
Project Budget	
Site (FY1999, 2002, 2003, 2005) .....	\$31,916,000
Design (FY2003, 2006) .....	13,711,000
Management and Inspection (M&I) (FY2006) .....	7,740,000
Additional M&I .....	2,260,000
Estimated Construction Cost (ECC) (FY2006) .....	\$248,816,000
Additional ECC .....	108,102,000
<b>Total ECC (\$760/gsf including inside parking<sup>1</sup>) .....</b>	<b>356,918,000</b>

Estimated Total Project Cost\* .....

<sup>1</sup>The ECC/gsf does not include \$2.3 million for repair and alteration work to the Edward J. Schwartz Federal Building & U.S. Courthouse to re-orient the public entrance to face the proposed annex which is included in the Total ECC.

\*Tenant agencies may fund an additional amount for alterations above the standard normally provided by GSA.

Authorization Requested (Additional ECC & M&I)—\$110,362,000.

FY2009 Funding Requested—\$110,362,000.

#### PRIOR AUTHORITY AND FUNDING

The House Transportation and Infrastructure Committee authorized \$302,183,000:

\$15,400,000 for site on July 23, 1998; \$3,100,000 for site and \$11,237,000 for design, or \$14,337,000, for a 583,746 gsf Courthouse Annex, including 46 inside parking spaces, on July 8, 2001; \$9,360,000 for additional site and \$204,000 for additional design for a 583,746 gsf Courthouse Annex, including 46 inside parking spaces, on July 24, 2002; \$2,516,000 for additional site and \$552,000 for additional design, or \$3,068,000, for a 614,394 gsf Courthouse Annex, including 105 inside parking spaces, on July 21, 2004; and \$1,540,000 for additional site, \$1,718,000 for additional design, \$248,816,000 for construction, and \$7,740,000 for management and inspection for a 466,886 gsf Courthouse Annex, including 105 inside parking spaces, on July 19, 2006.

The Senate Environment and Public Works Committee authorized \$302,183,000: \$15,400,000 for site on September 23, 1998; \$3,100,000 for site and \$11,237,000 for design, or \$14,337,000, for a 583,746 gsf Courthouse Annex, including 46 inside parking spaces, on September 25, 2001; \$9,360,000 for additional site and \$204,000 for additional design for a 583,746 gsf Courthouse Annex, including 46 inside parking spaces, on September 26, 2002; \$2,516,000 for additional site and \$552,000 for additional design, or \$3,068,000, for a 614,394 gsf Courthouse Annex, including 105 inside parking spaces, on November 17, 2004; \$1,540,000 for additional site, \$1,718,000 for additional design, \$221,345,000 for construction, and \$7,740,000 for management and inspection for a 619,644 gsf Courthouse Annex, including 105 inside parking spaces, on July 20, 2005; and \$27,471,000 for additional construction for a 466,886 gsf Courthouse Annex, including 105 inside parking spaces, on May 23, 2006.

Funding is \$302,183,000:  
Congress appropriated \$273,172,000: \$15,400,000 for FY 1999 (Public Law 105-277), \$23,901,000 for FY 2003 (Public Law 108-7); \$3,068,000 for FY 2005 (Public Law 108-447); and \$230,803,000 for FY 2006 (Public Law 109-115).

GSA reprogrammed \$29,011,000: \$1,540,000 to the project in FY 2002 and \$27,471,000 to the project in FY 2006.

#### SCHEDULE

FY 1998—Site.  
FY 2003—Design.  
FY 2009—Construction.  
FY 2013—Occupancy.

#### OVERVIEW OF PROJECT

In fiscal year 2006, GSA submitted a prospectus for a CT Annex providing 619,644 gross square feet of space (PCA-CTC-SD06). Due to increased construction materials costs, GSA and the District Court agreed to reduce the scope of this project. GSA submitted an amended prospectus with a revised plan (PCA-CTC-SD07). Under this revised plan, GSA eliminated six proposed floors of the building. The number of proposed district courtrooms, but not chambers, was reduced from 18 to 14 and the number of appellate chambers was reduced from 3 to 2 in the 10-year program. The proposed expansion district courtrooms, but not chambers, were reduced from 5 to 0 in the 30-year program. The new CT Annex will provide 466,886 gross square feet, 152,758 gross square feet less than the original construction prospectus for this project. After submitting the revised plan, GSA encountered additional difficulty and was unable to award the reduced project. Due to continuing materials escalation, limited bidding, market conditions, and further delays in award, GSA is seeking additional funding and authorization.

The CT Annex will provide 14 district courtrooms and 18 chambers, two Court of Appeals judges' chambers, a visiting district chamber, District Clerk's office, Pretrial Services and the U.S. Marshals Service. Pretrial Services will occupy space within the building until that space is needed for conversion to six additional district judge's chambers. The project will include modification of the entrance to the existing FB-CT. Currently, the lobby of this building is accessed from Front Street. The new access will be from the courtyard between the new CT Annex and the existing FB-CT. Also, construction will include a tunnel linking the existing FB-CT to the new CT Annex and an extension connecting the existing prisoner tunnel to the new CT Annex.

After completion of the CT Annex, the existing FB-CT will be retained to provide space for the magistrate, senior district, and two Court of Appeals judges. The U.S. Bankruptcy Court will continue to occupy the Jacob Weinberger Courthouse.

One Court of Appeals Judge, Pretrial Services and a portion of the U.S. Attorney's office are in leased locations in the downtown area. These leases will be extended or terminated to coincide with the occupancy of the new CT Annex.

#### TENANT AGENCIES

The CT Annex will house the District Judges, District Clerk, two Court of Appeals Judges, Pretrial Services, and the U.S. Marshals Service.

#### DELINEATED AREA

The CT Annex will be constructed in the Central Business District on a site adjacent to the existing FB-CT. This site has been acquired except for closing of Union and E Streets.

#### JUSTIFICATION

The District Court currently occupies space in the existing FB-CT. This building cannot accommodate the Courts' total space requirements and was not designed to accommodate needed expansion on the site. Some of the modifications to FB-CT resulted in less than adequate sized courtrooms that have been used for 13 years.

Federal construction of a new CT Annex in conjunction with continued use of the existing FB-CT is the most desirable housing strategy to meet the projected space needs of the Southern District Courts and court-related agencies in San Diego. The new CT Annex will improve the flow of prisoners, adequately house the district judges, and significantly increase security. Completion of the CT Annex will permit one Court of Appeals judge and Pretrial Services to vacate leased space.

The Judicial Conference, in September 2003, declared a space emergency at San Diego in order to recognize the effect of aggressive border enforcement initiatives on the court's facilities and the serious security and operational problems at this location.

The additional funds requested in this prospectus are due to increased construction material costs. During the past two years, the construction industry has experienced a significant increase in costs, primarily due to the increased demand for raw materials

from construction in international markets and coastal communities in the United States affected by hurricanes. For example, construction material costs in the Southern California area have escalated by approximately 11 percent per year. Much of the raised access flooring in the building and metric measurement were eliminated in further efforts to reduce costs.

EXPLANATION OF CHANGES

The gross square footage of the project is the same as currently authorized. However, to provide one courtroom for every two senior judges, two senior district courtrooms in the existing building were reassigned for magistrate judge use. Also, the projected number of magistrate judges was reduced from 18 to 14. The reassignment and reduction means that there are now five unassigned courtrooms that will be used for ADR Suites and attorney conference rooms.

The Estimated Total Project Cost (ETPC) of the proposed project reflects an increase of \$110,362,000 from the ETPC of the project

currently authorized by the House and Senate Committees (which is the result of construction escalation and change in the projected start of construction from 2006 to 2009.)

DEPARTURES

2nd Special Proceedings Courtroom—This departure was identified in a previous prospectus signed on March 28, 2002 and approved by the House and Senate Committees on July 24, 2002 and September 26, 2002, respectively, and in subsequent resolutions. Approximate cost \$1,000,000.

With eight courtrooms for four senior district judges, the project does comply with the July 19, 2006, resolution of the House Committee on Transportation and Infrastructure, which authorized the proposed project, requiring (via amendment to the U.S. Courts Design Guide) that each U.S. Courthouse construction project provide one courtroom for every two senior judges.

SPACE REQUIREMENTS OF THE U.S. COURTS

	Current		Request		
	Courtrooms	Judges	Courtrooms Existing Buildings	Courtrooms New Building	Judges
District					
Active .....	13	13	0	14	18
Senior .....	3	5	4	0	8
Visiting .....	0	2	0	0	1
Magistrate .....	*8	9	**19	0	14
Circuit .....	0	***3	0	0	4
Total: .....	24	32	***23	14	45

\* These courtrooms do not meet minimum USCDG standards.  
\*\* Seven of these courtrooms do not meet minimum USCDG standards. The five unassigned courtrooms and chambers will be used as ADR Suites and attorney conference rooms.  
\*\*\* One magistrate courtroom will be converted to a new lobby facing the new CT Annex.  
\*\*\*\* One judge is in leased space.

SUMMARY OF ENERGY COMPLIANCE

This project is designed to meet the requirements of the Facilities Standards for the Public Buildings Service.

ALTERNATIVES CONSIDERED (30-YEAR, PRESENT VALUE COSTS)

New Construction: .....	\$340,927,000
Lease: .....	\$540,465,000

RECOMMENDATION—CONSTRUCTION

The 30-year, present value cost of construction is \$199,538,000 less than the cost of leasing, an equivalent annual cost advantage of \$13,129,000.

CERTIFICATION OF NEED

The proposed project is the best solution to meet a validated Government need.

Submitted at Washington, DC, on February 26, 2008.

Recommended: — — —, Commissioner, Public Buildings Service.

Approved: — — —, Administrator, General Services Administration.

**ACQUISITION—COLUMBIA PLAZA BUILDING—  
WASHINGTON, DC—PDC-0000-WA10**

*Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Representatives*, that, pursuant to 40 U.S.C. 3307, appropriations are authorized for acquisition, through a purchase option, of the Columbia Plaza Building located at 2401 E Street, NW, Washington, D.C., at a proposed cost of \$100,000,000, a prospectus for which is attached to and included in this resolution.

**DESCRIPTION**

The General Services Administration (GSA) proposes to acquire, through a purchase option, the Columbia Plaza Building located at 2401 E St., NW, Washington, DC. The government has an option to purchase the building at the set price of \$100,000,000 at the end of the current lease term in 2012, provided 365 days notice has been given to the lessor.

**BUILDING**

The Columbia Plaza Building was constructed in the mid 1960s. Prior to the Department of State's (DOS) initial occupancy in 1992 the building underwent a major renovation converting the space from residential use to office use. GSA currently leases 511,500 rentable square feet and 361 parking spaces at Columbia Plaza for the DOS under a 20-year lease agreement that expires in April 2012.

**PROJECT BUDGET**

Building and Site Acquisition—\$100,000,000.  
*Authorization Requested* (Acquisition)—\$100,000,000.

**JUSTIFICATION**

DOS and GSA signed a Memorandum of Understanding (MOU) in 1987 committing both agencies to consolidate DOS space and personnel in the Foggy Bottom area of the District of Columbia and Rosslyn, VA. The Columbia Plaza Building, located northwest of the Harry S Truman (Main State) Building, has been occupied for more than 20 years as a leased location. The Columbia Plaza Building's location in Foggy Bottom is directly adjacent to Main State and supports the goals of DOS as identified in the 1987 MOU. The building's proximity to both Main State and the approximately 3.5 million square feet DOS occupies in the Foggy Bottom area provides many operational benefits ranging from human resources, mobility in and around the State's Foggy Bottom locations, and efficiencies in facility operations through information technology linkages and security. Given all of these factors, DOS continues to have a long-term need for the space in the Columbia Plaza Building.

Alterations for \$30,600,000 were completed in 1992 and the government currently operates virtually all aspects of the facility. GSA recently performed a Building Engineering Report (BER) for the Columbia Plaza Building which reported that the building is in fair overall condition. As part of the \$30M investment in 1992, GSA was directed by Congressional resolution that "GSA will attempt to include a purchase option in the lease contract". GSA successfully negotiated a purchase option as part of the terms of the 20-year lease. The terms of the purchase option and price were set when the lease transaction was signed in 1992. The government's option to purchase the building is currently established at \$100,000,000 or approximately \$151 per gross square foot. This price is well below the current market rates for buildings of comparable size in Washington, DC, especially a building with long-term government occupancy. In 2006, GSA completed a fair

market value (FMV) appraisal which indicated the FMV of Columbia Plaza Building to be approximately \$190,000,000, well above the established option price to the government.

**TENANT AGENCIES**

Department of State.

**ALTERNATIVES CONSIDERED (30-YEAR, PRESENT  
VALUE COST ANALYSIS)**

Purchase—\$317,305,000.

Lease—\$513,447,000.

The 30-year, present value cost of purchase is \$196,142,000 less than the cost of leasing, an equivalent annual cost advantage of \$12,614,000.

**RECOMMENDATION**

Acquisition.

**CERTIFICATION OF NEED**

The proposed project is the best solution to meet a validated Government need.

Submitted at Washington, DC, on June 11, 2009.

Recommended: — — —, Acting Commissioner, Public Buildings Service.

Approved: Paul F. Prouter, Acting Administrator, General Services Administration.

**DESIGN/BUILD—FEDERAL BUILDING—FBI DISTRICT OFFICE—MIAMI/MIRAMAR, FL—PFL—FBC—MI10**

*Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Representatives*, that, pursuant to 40 U.S.C. §3307, appropriations are authorized for a new Federal Building in the Miami/Miramar, Florida area for the Federal Bureau of Investigation, currently located in twelve separate locations spread across the Miami, Miramar, and Dade County, Florida area, at site costs of \$9,000,000, design and review costs of \$11,924,000, management and inspection costs of \$8,401,000 and estimated construction costs of \$161,350,000, for a combined cost of \$190,675,000, a prospectus for which is attached to and included in this resolution.

*Provided*, that, to the maximum extent practicable and considering life-cycle costs appropriate for the geographic area, the General Services Administration (GSA) shall use energy efficient and renewable energy systems, including photovoltaic systems, in carrying out the project.

*Provided further*, that within 180 days of approval of this resolution, GSA shall submit to the Committee on Transportation and Infrastructure of the U.S. House of Representatives and the Committee on Environment and Public Works of the U.S. Senate a report on the planned use of energy efficient and renewable energy systems, including photovoltaic systems, for such project and if such systems are not used for the project, the specific rationale for GSA's decision.

*Provided further*, that beginning on the date of approval of this resolution, GSA shall, to the maximum extent practicable and considering life-cycle costs appropriate for the geographic area, use energy efficient and renewable energy systems, including photovoltaic systems, in carrying out alteration, design, or construction projects.

*Provided further*, that beginning on the date of approval of this resolution, each alteration, design, or construction prospectus submitted by GSA shall include an estimate of the future energy performance of the building and specific description of the use of energy efficient and renewable energy systems, including photovoltaic systems, in carrying out the project.

**DESCRIPTION**

The US General Services Administration proposes building a new Federal Building in

the Miami/Miramar, Florida area for the Federal Bureau of Investigation (FBI). This facility will serve to meet the FBI's current and future space needs as their new District Office in South Florida, and will consolidate their current space spread across the Miami, Miramar, and Dade County, Florida area in twelve separate locations.

**PROJECT SUMMARY**

**Site Information**

To be acquired acreage	9.0

Management and Inspection (M&I)	8,401,000

Estimated Total Project Cost (ETPC)\* \$190,675,000

\*Tenant agencies may fund an additional amount for alterations above the standard normally provided by the GSA.

Authorization Requested (Design, ECC, and M&I)—\$190,675,000.

FY 2010 Funding Request—\$190,675,000.

Schedule	Start	End
Design	FY2010	FY2012
Construction	FY2011	FY2014

**OVERVIEW OF PROJECT**

The new Miami FBI District Office will provide for the space requirements and security needs for the FBI in the South Florida area. 535 secured structured parking spaces will be incorporated into the construction of the FBI District Office facility and made available to the FBI, primarily for the use of Government-owned vehicles and other official Government purposes. Surface parking spaces will also be provided.

**TENANT AGENCIES**

Department of Justice—Federal Bureau of Investigation

**JUSTIFICATION**

An important component of the priorities of the FBI is the availability of efficient and cost effective facilities, with state-of-the-art infrastructure in which to carry out the FBI's mission. FBI requires a facility that meets the Level 4 Interagency Security Committee (ISC) criteria, with sufficient space for the current and projected workforce. In addition, the expansion of the secure work environment is essential to foster synergy among FBI elements for greater coordination and productivity internally and with partner organizations. The existing, disparate FBI facilities are incapable of providing the increased square footage necessary to support new functions and cannot meet enhanced IT infrastructure and security requirements. A new, consolidated location will provide the FBI with sufficient space to meet its current requirements and allow for full compliance with the ISC guidelines.

The requirement for FBI's consolidated Miami Field Division office was originally to

be included in the larger Miami/Miramar, FL DOJ lease consolidation, along with the Drug Enforcement Administration (DEA) and the Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF), as requested under PFL-01-MI06, and originally authorized by the House Committee on Transportation and Infrastructure on February 16, 2006, and the Senate Committee on Environment and Public Works on November 17, 2005. In 2007, it was determined by DOJ that the original consolidated campus strategy was no longer logistically or financially feasible. Therefore, GSA requested authority to procure DEA's requirements separately (Prospectus No. PFL-02-MI08), which were authorized by the House Committee on Transportation and Infrastructure on September 24, 2008, and the Senate Committee on Environment and Public Works on September 17,

2008. The ATF's requirements were delivered below the prospectus threshold. Given the size, complexity, long term nature, and other aspects of the FBI's requirements, GSA determined that a Federally owned facility would better serve the mission and operations of the Government.

#### SUMMARY OF ENERGY COMPLIANCE

This project will be designed to conform with the requirements of the Facilities Standards for the Public Buildings Service and to earn LEED certification. It will also meet Congressionally-required energy efficiency and performance requirements in effect during design. GSA will encourage exploration of opportunities to gain increased energy efficiency above the measures achieved in the design.

#### ALTERNATIVES CONSIDERED (30-YEAR, PRESENT VALUE COST ANALYSIS)

New Construction—\$352,712,000.  
Lease—\$520,093,000.

The 30 year, present value cost of new construction is \$167,380,000 less than the cost of lease, an equivalent annual cost advantage of \$10,764,000.

#### RECOMMENDATION

Construction.

#### CERTIFICATION OF NEED

The proposed project is the best solution to meet a validated Government need.

Submitted at Washington, DC, on June 11, 2009.

Recommended: — — —, —Acting Commissioner, Public Buildings Service.

Approved: Paul F. Prouty, Acting Administrator, General Services Administration.

CONSTRUCTION—U.S. LAND PORT OF ENTRY—  
MADAWASKA, ME—PME-BSD-MW10

*Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Representatives*, that, pursuant to 40 U.S.C. § 3307, appropriations are authorized for the construction of a new land port of entry at Madawaska, ME to replace the existing Port of Entry, at management and inspection costs of \$3,827,000 and estimated construction costs of \$46,300,000, for a combined cost of \$50,127,000, a prospectus for which is attached to and included in this resolution.

*Provided*, that, to the maximum extent practicable and considering life-cycle costs appropriate for the geographic area, the General Services Administration (GSA) shall use energy efficient and renewable energy systems, including photovoltaic systems, in carrying out the project.

*Provided further*, that within 180 days of approval of this resolution, GSA shall submit to the Committee on Transportation and Infrastructure of the U.S. House of Representatives and the Committee on Environment and Public Works of the U.S. Senate a report on the planned use of energy efficient and renewable energy systems, including photovoltaic systems, for such project and if such systems are not used for the project, the specific rationale for GSA's decision.

*Provided further*, that beginning on the date of approval of this resolution, GSA shall, to the maximum extent practicable and considering life-cycle costs appropriate for the geographic area, use energy efficient and renewable energy systems, including photovoltaic systems, in carrying out alteration, design, or construction projects.

*Provided further*, that beginning on the date of approval of this resolution, each alteration, design, or construction prospectus submitted by GSA shall include an estimate of the future energy performance of the building and specific description of the use of energy efficient and renewable energy systems, including photovoltaic systems, in carrying out the project.

#### DESCRIPTION

The General Services Administration (GSA) proposes the construction of a new land port of entry (POE) at Madawaska, ME to replace the existing POE, expand inspection lanes, and operational functions. The proposed project will replace the undersized main administration building at 2 Bridge Street, while addressing current safety, security, circulation, and efficiency issues.

#### Project Summary

<sup>1</sup>The existing facility does not have any inside parking spaces.

<sup>2</sup>Parking spaces include 5 spaces for visitor parking, 30 for employees, 6 for referral and service, and 7 for truck inspection. Currently, there are 6 outside parking spaces at the facility.

<sup>3</sup>Site Development includes site clearing, demolition, roadways and utilities.

\*Tenant agencies may fund an additional amount for emerging technologies and alterations above the standard normally provided by the GSA.

Authorization Requested (ECC and M&I)—\$50,127,000.\*

\*GSA has worked closely with DHS program offices responsible for developing and implementing security technology at the Land Ports of Entry (LPOE's). These programs include United States Visitor and Immigrant Status Indicator Technology (US-VISIT), Radiation Portal Monitors (RPMs) and Advanced Spectroscopic Portal (ASPs) monitors, Western Hemisphere Travel initiative (WHTI) and Non-Intrusive Inspection (NII). This prospectus contains the funding of infrastructure requirements for each program known at the time of prospectus development since these programs are at various stages of development and implementation. Additional funding by a Reimbursable Work Authorization (RWA) may be required to provide for as yet unidentified elements of each of these programs to be implemented at this port.

#### PRIOR AUTHORITY AND FUNDING

The House Committee on Transportation and Infrastructure authorized \$1,760,000 for site acquisition and design on July 21, 2004.

The Senate Committee on Environment and Public Works authorized \$1,760,000 for site acquisition and design on November 17, 2004.

The House Committee on Transportation and Infrastructure authorized \$17,600,000 for additional site acquisition and additional design on September 20, 2006.

The Senate Committee for Environment and Public Works authorized additional site acquisition and additional design on September 27, 2006.

Through Public Law 108-447, Congress appropriated \$1,760,000 for site acquisition and design in FY 05 on December 8, 2004.

Through Public Law 110-161, Congress appropriated \$17,160,000 for additional site acquisition and design on December 26, 2007.

Through Public Law 111-5, American Recovery and Reinvestment Act of 2009, GSA's Spending Plan included \$750,000 for additional design.

	Schedule	Start	End
Design .....		FY2008	FY2010
Construction .....		FY2010	FY2012

#### OVERVIEW OF PROJECT

This project will provide for the improvement and expansion to this POE on approximately 13.32 acres of land. GSA owns approximately .87 acres and will purchase an additional 12.45 acres. The scope of the project includes a total replacement of the existing original 6,000 gsf building built in 1959 with a new, multiple building facility totaling 28,756 gsf. The planned expansion includes: a 10,423 gsf main administration

building; 1,275 gsf for 2 non-commercial inspection lanes and an enclosed secondary inspection bay; a 146 gsf outbound inspection booth; 12,753 gsf of commercial inspection offices, dock, cargo facility, inspection booth, a non-intrusive inspection (NII) facility; a 1,894 pedestrian processing facility; and 2,265 gsf of indoor parking.

#### TENANT AGENCIES

Department of Homeland Security (DHS)—Customs and Border Protection (CBP), Department of Health and Human Services (HHS)—Food and Drug Administration (FDA), and GSA.

#### LOCATION

The Madawaska land POE is located in northern Maine in Aroostook County, at 2 Bridge Street, at the international border between the United States and Canada separating the State of Maine and the Province of New Brunswick, and adjacent to the Canadian town of Edmundston.

#### JUSTIFICATION

The existing site at Madawaska is very small, situated on less than one acre of land and is geographically constrained by the St. Johns River, Nexfor Fraser Papers and the Montreal Maine & Atlantic Railroad. The planned addition of radiation portal monitors and other on-site inspection equipment will only exacerbate the situation as the existing site lacks sufficient staging and queuing areas. In addition, site parking and vehicle maneuvering areas are inadequate, the commercial truck traffic pattern, and visitor and employee parking are not clear and well defined. Existing site constraints imposed by the railroad and paper company, require that an elevated roadway be constructed to allow for a full inspection operation by CBP.

Madawaska is New England's third busiest port in automobile traffic and sixth busiest in truck traffic. On-site staffing has increased substantially since September 11, 2001, resulting in the need for additional space. The existing facility lacks sufficient office and storage space, as well as a secure area to perform standard interview and search procedures. There is no commercial secondary inspection area to perform a proper secondary inspection, which at times involves unloading a typical tractor-trailer. As a result, secondary truck inspections are done at roadside. This effort often causes traffic congestion that backs up onto the bridge.

#### SUMMARY OF ENERGY COMPLIANCE

This project is designed to conform with the requirements of the Facilities Standards for the Public Buildings Service and to earn Leadership in Energy and Environment Design (LEED) certification. It will also meet Congressionally required energy efficiency and performance requirements in effect during design. GSA will encourage exploration of opportunities to gain increased energy efficiency above the measures achieved in the design.

#### ALTERNATIVES CONSIDERED

GSA owns and maintains the existing facilities at this port of entry; thus no alternative other than Federal construction was considered.

#### RECOMMENDATION

Construction.

#### CERTIFICATION OF NEED

The proposed project is the best solution to meet a validated Government need.

Submitted at Washington, DC, on June 11, 2009.

Recommended: — — Acting Commissioner, Public Buildings Service.

Approved: Paul F. Prouty, Acting Administrator, General Services Administration.

**CONSTRUCTION—U.S. LAND PORT OF ENTRY—  
TORNILLO-GUADALUPE—EL PASO COUNTY,  
TX—PTX-BSC-TG10**

*Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Representatives*, that, pursuant to 40 U.S.C. § 3307, appropriations are authorized for the construction of a new port of entry at Fabens-Casita in El Paso County, TX, at additional design costs of \$3,800,000, management and inspections costs of \$6,381,000 and estimated construction costs of \$81,384,000, for a combined cost of \$91,565,000, a prospectus for which is attached to and included in this resolution.

*Provided*, that, to the maximum extent practicable and considering life-cycle costs appropriate for the geographic area, the General Services Administration (GSA) shall use energy efficient and renewable energy systems, including photovoltaic systems, in carrying out the project.

*Provided further*, that within 180 days of approval of this resolution, GSA shall submit to the Committee on Transportation and Infrastructure of the U.S. House of Representatives and the Committee on Environment and Public Works of the U.S. Senate a report on the planned use of energy efficient and renewable energy systems, including photovoltaic systems, for such project and if such systems are not used for the project, the specific rationale for GSA's decision.

*Provided further*, that beginning on the date of approval of this resolution, GSA shall, to the maximum extent practicable and considering life-cycle costs appropriate for the geographic area, use energy efficient and renewable energy systems, including photovoltaic systems, in carrying out alteration, design, or construction projects.

*Provided further*, that beginning on the date of approval of this resolution, each alteration, design, or construction prospectus submitted by GSA shall include an estimate of the future energy performance of the building and specific description of the use of energy efficient and renewable energy systems, including photovoltaic systems, in carrying out the project.

**DESCRIPTION**

The General Services Administration (GSA) proposes the construction of new port of entry (POE) facilities to replace the existing POE at Fabens-Casita in El Paso County, TX. The proposed facility will be known as the Tornillo-Guadalupe POE.

**PROJECT SUMMARY**

<b>Site Information:</b>	
Government-owned .....	6.3 acres
To be acquired .....	1109 acres
<b>Building Area:</b>	
Building (including canopies) .....	86,596 gsf
Building (excluding canopies) .....	74,596 gsf
Number of outside parking spaces: .....	160
<b>Cost Information</b>	
Site Development Cost <sup>2</sup> ....	\$63,512,000
Building Costs (includes inspection canopies) (\$206/gsf) .....	\$17,872,000

<sup>1</sup> Acreage is to be donated to GSA by El Paso County, TX.

<sup>2</sup> Site development costs include grading, utilities, paving and traffic control, drainage ponds and culverts (including piping and structures), lighting, and fencing.

**PROJECT BUDGET**

Design and Review (FY 2008) .....	\$4,290,000
-----------------------------------	-------------

Additional Design .....	3,800,000
Management & Inspection (M&I) .....	6,381,000
Estimated Construction Cost (ECC) .....	81,384,000

Estimated Total Project Cost .....

\$95,855,000  
\*Tenant agencies may fund an additional amount for emerging technologies and alterations above the standard normally provided by the GSA.

Authorization Requested (Additional Design, ECC, M&I) \$91,565,000.\*

GSA has worked closely with DHS program offices responsible for developing and implementing security technology at the Land Ports of Entry (LPOE's). These programs include United States Visitor and Immigrant Status Indicator Technology (US-VISIT), Radiation Portal Monitors (RPM's) and Advanced Spectroscopic Portal (ASPs) monitors, Western Hemisphere Travel Initiative (WHTI) and Non-Intrusive Inspection (NII). This prospectus contains the funding of infrastructure requirements for each program known at the time of prospectus development since these programs are at various stages of development and implementation. Additional funding by a Reimbursable Work Authorization (RWA) may be required to provide for as yet unidentified elements of each of these programs to be implemented at this port.

**PRIOR AUTHORITY AND FUNDING**

The House Committee on Transportation and Infrastructure authorized \$4,290,000 for design on May 23, 2007.

The Senate Committee on Environment and Public Works authorized \$4,290,000 for design on September 20, 2007.

Through Public Law 110-161, Congress appropriated \$4,290,000 for design on December 26, 2007.

	Schedule	Start	End
Design .....		FY2008	FY2010
Construction .....		FY2010	FY2013

**PROJECT OVERVIEW**

The GSA proposes construction of the Tornillo-Guadalupe POE to support a new international bridge crossing for which the County of El Paso, TX, obtained a Presidential Permit on March 31, 2005. The County of El Paso will construct the bridge structure, while GSA proposes to construct the POE facilities. The proposed POE will include sufficient infrastructure and facilities to support present and future demand by privately owned vehicles (POV), pedestrian and commercial traffic, both northbound and southbound. Facilities to process POV, bus, and pedestrian traffic and inspections are to include: main administration building, headhouse, four primary POV and eight secondary inspection stations, a screened "hard secondary" area, bus disembark and reload areas, parking for staff, service and visitors, secondary inspection canopy, POV return lanes to Mexico, requisite Non-Invasive Inspection (NII) systems (VACIS II, radiation portal monitors (RPM) and license plate readers (LPR), etc.), seizure vehicle parking area, a booth for outlease to the Texas Alcoholic Beverage Commission, and a pedestrian parkway.

Facilities to support commercial traffic and inspections include: a commercial building, ten covered commercial docks, two primary inspection booths with a canopy and bypass lane, NII systems, hazardous materials containment area, exit booth, bulk cargo bin, Agriculture Quarantine Inspection

(AQI), and narcotics storage. The facility will also provide an incinerator, kennel facilities, heliport, and communication tower. Additionally, inspection facilities for the Federal Motor Carrier Safety Administration (FMCSA) will be provided. The site will be fully secured by perimeter fencing and electronic surveillance. The existing Fabens POE will be demolished and the property will be integrated into the new proposed site at the location of the new bridge. Per the Presidential Permit, the County of El Paso will be responsible for demolition of the existing Fabens-Caseta bridge once the new bridge and POE facilities are complete.

The gross square footage requirement has increased by 8,451 square feet from the 78,145 square feet authorized for design in Prospectus PTX-BSD-TG08. The scope increase and need for additional design funding have resulted from additional requirements identified for NII systems, bird holding, security requirements, energy efficiency, and additional paving.

**TENANT AGENCIES**

Department of Homeland Security (DHS)-Customs and Border Protection (CBP), Department of Transportation (DOT)-Federal Motor Carrier Safety Administration (FMCSA), Texas Alcoholic Beverage Commission (TABC), and GSA.

**LOCATION**

The proposed location is approximately one-third mile northwest of the existing Fabens POE in El Paso County, TX.

**JUSTIFICATION**

The County of El Paso and its counterpart in Mexico are attempting to provide border residents with economic development opportunities and relief from the traffic backups at the congested POEs in downtown El Paso. A new facility has been determined to be needed in this area, primarily due to the processing constraints at the Fabens POE and the structural issues of the existing bridge. The proposed POE at Tornillo-Guadalupe will replace the existing port, which subsequently, will be demolished.

The existing Fabens-Caseta Bridge was constructed in 1938 and is not structurally sound enough to allow commercial vehicle crossings. The bridge is only 16 feet wide with a maximum permissible load level of 12 tons, cannot accommodate today's standard 15 to 20 tons, thereby limiting the Fabens port to processing only pedestrian and POV traffic. The existing facility is comprised of modular buildings which have reached full capacity and are unable to adequately support the needs of CBP. The Fabens modular buildings' lack of adequate space has hindered the ability of CBP to process, interview, segregate, and detain visitors to the U.S. Inefficiencies of the current facility include a domestic water system which requires water to be hauled from the nearby community. Water is only used for restrooms and hose bibs and bottled water is provided for employees to drink. Furthermore, the water system is not sufficient to provide fire-fighting capability even though the buildings have fire sprinklers. The existing septic system is not designed for the number of employees at the facility. Also, the main building does not have a public restroom.

The existing site has little utility infrastructure beyond single phase electrical power and copper telecommunications lines. The new facilities will require water, wastewater services, upgraded power, fiber optics, and natural gas. El Paso County, as part of the Presidential Permit application, has made the commitment to bring all necessary utility service to the edge of the property.

SUMMARY OF ENERGY COMPLIANCE

This project is designed to conform with the requirements of the Facilities Standards for the Public Buildings Service and to earn Leadership in Energy and Environmental Design (LEED) certification. It will also meet Congressionally required energy efficiency and performance requirements in effect during design. GSA will encourage exploration of opportunities to gain increased energy ef-

ficiency above the measures achieved in the design.

ALTERNATIVES CONSIDERED

GSA owns and maintains the existing facilities at this port of entry; thus no alternative other than Federal construction was considered.

RECOMMENDATION

Additional design and construction.

CERTIFICATION OF NEED

The proposed project is the best solution to meet a validated Government need.

Submitted at Washington, DC, on June 11, 2009.

Recommended — — —, Acting Commissioner, Public Buildings Service.

Approved Paul F. Prouty, Acting Administrator, General Services Administration.

May 2009

# ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed.

Votes will be taken in the following order:

H.R. 905, by the yeas and nays;

H. Res. 16, by the yeas and nays;

Motion to Instruct on H.R. 2997, by the yeas and nays.

Votes on H.R. 2442, H.R. 1771, and H.R. 1053 will be taken later this week.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 5-minute votes.

# THUNDER BAY NATIONAL MARINE SANCTUARY AND UNDERWATER PRESERVE BOUNDARY MODI- FICATION ACT

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 905, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 905, as amended.

The vote was taken by electronic device, and there were—yeas 286, nays 107, not voting 39, as follows:

# ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1855

Mrs. EMERSON and Messrs. REHBERG, CULBERSON, MACK, STEARNS and MCKEON changed their vote from “yea” to “nay.”

Mrs. BONO MACK and Mr. INGLIS changed their vote from “nay” to “yea.”

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. GRAYSON. Mr. Speaker, on rollcall No. 740, H.R. 905, I missed this vote because of a delayed flight, and heavy traffic on the 14th Street Bridge. Had I been present, I would have voted “yea.”

Stated against:

Mr. BOEHNER. Mr. Speaker, on rollcall No. 740 I was unavoidably detained. Had I been present, I would have voted “nay.”

# NATIONAL LIFE INSURANCE AWARENESS MONTH

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and agree to the resolution, H. Res. 16, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and agree to the resolution, H. Res. 16.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 394, nays 1, not voting 37, as follows:

[Roll No. 741]

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1902

So (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Mr. YARMUTH. Madam Speaker, I was unable to cast the recorded votes for Rollcall 741, H. Res. 16, On Motion to Suspend the Rules and Agree. Had I been present I would have voted "yes" for this measure.

# MOTION TO INSTRUCT CONFEREES ON H.R. 2997, AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

The SPEAKER pro tempore. The unfinished business is the vote on the motion to instruct on H.R. 2997 offered by the gentleman from Georgia (Mr. KINGSTON) on which the yeas and nays were ordered.

The Clerk will redesignate the motion.

The Clerk redesignated the motion. The SPEAKER pro tempore. The question is on the motion to instruct.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 359, nays 41, not voting 32, as follows:

[Roll No. 742]

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1909

Mr. DELAHUNT changed his vote from “yea” to “nay.”

Mr. SCHRADER changed his vote from “nay” to “yea.”

So the motion to instruct was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

## APPOINTMENT OF CONFEREES

The SPEAKER pro tempore. Without objection, the Chair appoints the following conferees: Ms. DELAULO, Messrs. FARR, BOYD, BISHOP of Georgia, DAVIS of Tennessee, Ms. KAPTUR, Messrs. HINCHEY, JACKSON of Illinois, OBEY, KINGSTON, LATHAM, Mrs. EMER-

SON, Messrs. ALEXANDER and LEWIS of California.

There was no objection.

## NO TROOP ESCALATION IN AFGHANISTAN

(Mr. MCGOVERN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MCGOVERN. Madam Speaker, President Obama will soon decide whether to significantly escalate the number of U.S. troops deployed to Afghanistan. I urge him to exercise extreme caution and not increase America's military footprint in Afghanistan.

I was in Afghanistan right after the elections. Everyone admits there was massive fraud and that corruption is widespread in the government. Do we really expect to achieve long-term sustainable development in Afghanistan when the people have no confidence in their leaders? Can we develop and train a credible Afghanistan security force when many of its leaders are allied with warlords and drug lords?

Last Friday, 57 bipartisan Members of Congress sent a letter to the President asking him not to increase the number of U.S. combat troops in Afghanistan in the absence of a well-defined military exit strategy. If we're going to send our men and women to fight and die in Afghanistan for a corrupt and fraudulent government, then at least tell us when they will be able to come home.

CONGRESS OF THE UNITED STATES,  
Washington, DC, September 25, 2009.

Hon. BARACK OBAMA,  
President of the United States, The White House, Pennsylvania Avenue, NW, Washington, DC.

DEAR MR. PRESIDENT: As you consider the latest assessment of U.S. military engagement in Afghanistan by General Stanley A. McChrystal, we urge you to reject any recommendation to increase the number of combat troops there, particularly in the absence of a well-defined military exit strategy.

We have enormous confidence in the ability of the U.S. military, but we question the effectiveness of committing our troops to a prolonged counterinsurgency war that could last ten years or more, involve hundreds of thousands of troops, and impose huge financial costs on taxpayers already saddled with trillions of dollars of government debt.

According to General Charles Krulak (retired), the 31st Commandant of the Marine Corps, the current strategy of protecting the people of Afghanistan with U.S. forces would require an escalation of several hundred thousand additional troops. He warns that our military has already been overburdened: “Not only are our troops being run ragged but, equally important and totally off most people's radar screens, our equipment is being run ragged.” It is unlikely that our NATO allies will be able to sustain the political support necessary for continuing such a mission placing even more of a burden on American forces and the American people.

2009 is already the deadliest year for U.S. forces since the war began eight years ago.

Fifty-one of the seven hundred and thirty-eight U.S. soldiers who have lost their lives in Afghanistan were killed last month alone.

The national Afghanistan election that U.S. Ambassador Karl Eikenberry hoped would lead to a “renewal of trust of the Afghan people for their government” was a disaster and will almost certainly have the opposite effect. The official Electoral Complaints Commission in Afghanistan has announced that it has found “clear and convincing evidence of fraud.” A government already mired in allegations of widespread fraud and incompetence is now facing serious charges and compelling evidence that it has attempted to steal the national election.

A February 2009 ABC/BBC/ARD poll found that only 18 percent of Afghans support increasing the number of U.S. troops in their country. This should come as no surprise. Historically, Afghans have always forcefully resisted the presence of foreign military forces, be they British, Soviet or American. The presence of our forces strengthens the hand of Taliban recruiters. Indeed, an independent analysis early this year by the Carnegie Institute concluded that the presence of foreign troops is probably the single most important factor in the resurgence of the Taliban.

We support your administration's declared goals of defeating Al Qaeda and reducing the global terrorist threat. But, we believe that adding even more U.S. troops to the military escalation that your administration ordered in March would be counterproductive. We urge you to consider and pursue the full range of alternative options including applying the lessons of the Cold War where we isolate and contain those who pose a threat to our national security.

Mr. President, the last thing that our nation needs as it struggles with the pain of a severe economic crisis and a mountain of debt is another military quagmire. We believe that this is why recent polls consistently show that a majority of Americans are opposed to a military escalation in Afghanistan. We urge you to reject any recommendation for a further escalation of U.S. military forces there.

Sincerely,

James P. McGovern, Walter Jones, Ron Paul, Ed Whitfield, Neil Abercrombie, Jim McDermott, Pete Stark, Bruce Braley, Phil Hare, Raúl Grijalva, Lynn Woolsey, Lloyd Doggett, Bob Filner, John Oliver, José Serrano, Barbara Lee, Jerry Costello, Ben Ray Lujan, Alan Grayson, Peter Welch.

Kurt Schrader, Tammy Baldwin, Ed Pastor, Yvette Clarke, Sheila Jackson Lee, John Lewis, Carolyn B. Maloney, Richard Neal, Diane Watson, John Conyers, Jr., Dennis Kucinich, Tim Johnson (IL), Steve Cohen, Keith Ellison, Donna Edwards, Laura Richardson, Michael Honda, Jan Schakowsky, Daniel Maffei, Steve Kagen.

Michael Capuano, Sam Farr, Chellie Pingree, Luis Guterrez, Maurice Hinchey, Maxine Waters, Mazie Hirono, Jared Polis, Roscoe Bartlett, John J. Duncan, Jr., Dana Rohrabacher, Mike Michaud, Earl Blumenauer, Rush Holt, Mike Quigley, Peter DeFazio, Jerrold Nadler.

## MIAMI-DADE HEART ASSOCIATION LEADS THE WAY IN NATIONWIDE HEART WALK

(Ms. ROS-LEHTINEN asked and was given permission to address the House

for 1 minute and to revise and extend her remarks.)

Ms. ROS-LEHTINEN. Madam Speaker, the Miami-Dade Heart Association will hold its Miami-Dade Start! Heart Walk this Saturday, October 2, at the beautiful Tropical Park. Miami's walk is just one of nearly 400 similar events across our great country that will help the tremendous lifesaving activities of the American Heart Association. This major undertaking is designed to promote physical activity and heart-healthy living in a fun-loving atmosphere for the whole family. More than 1 million walkers from around the Nation are expected to participate in this massive effort to help those afflicted by the Nation's number one and the Nation's number three killers, heart disease and stroke.

The main reason behind the walk is to raise awareness that physical inactivity significantly increases the risk of heart disease and stroke. Seventy percent of Americans don't get enough exercise; and as a result, our waistbands have expanded and so have the number of preventable illnesses and health care costs.

Madam Speaker, both locally and nationally, the Heart Association is showing the way to help improve our Nation's health care through this momentous endeavor. Let's all start walking this Saturday.

#### WALSH UNIVERSITY 50TH ANNIVERSARY CELEBRATION

(Mr. BOCCIERI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BOCCIERI. Madam Speaker, this academic year represents a most momentous occasion for the 16th Congressional District of Ohio. We celebrate the 50th anniversary of the founding of Walsh University. On November 17, 1960, the six founding brothers of Walsh University brought their dream to life when Walsh College enrolled 67 male students united under the mission of creating leaders in public service and educating the working class.

Walsh's 50-year history is full of many highlights, but some stand out from the rest. In 1967 Walsh opened its doors to women and officially became coed. In 1981, Walsh established its first graduate program, offering a master of arts in counseling. In 1993, Walsh College became Walsh University, paving the way for further growth and expansion. Under the leadership of President Richard Jusseume, the university has experienced unprecedented growth not only in enrollment but also in physical growth with the addition of several academic buildings, residence halls and athletic facilities.

Today, Walsh University offers more than 50 majors, six graduate programs, a doctorate program in physical ther-

apy, and boasts four campuses throughout northeast Ohio, one just outside of Rome, Italy, and welcomes more than 3,000 students to our great district. We can only imagine what the next 50 years will bring, but I am certain a bright future lies ahead for Walsh University.

□ 1915

#### NATIONAL OVARIAN CANCER AWARENESS MONTH

(Mr. PAULSEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAULSEN. Madam Speaker, I rise to recognize September as National Ovarian Cancer Awareness Month.

This deadly disease hits 1 in every 72 women in the United States and is the fifth leading cause of cancer deaths among women.

As a husband, brother, and father, I believe it's of the utmost importance to call attention to this disease that hits 20,000 American women every year. In just 2008 alone, over 15,000 women died of ovarian cancer.

Cases of this deadly cancer can be very difficult to diagnose because of subtle symptoms that are sometimes confused with many other conditions. When it's detected, however, 9 out of 10 women will survive. However, only 19 percent of ovarian cancer cases in the United States are diagnosed at an early stage.

Let's not only remember those that we have lost to this deadly disease, but as this month ends, let's work together towards creating and improving treatments to save the lives of mothers, sisters, daughters, and all those around us that we love each day.

#### FCC WILL STIFLE INVESTMENT WITH NEW REGULATIONS

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Madam Speaker, yesterday The Washington Post published an editorial about recent rumblings at the Federal Communications Commission. It seems that the FCC Chairman is concerned about "breaks and cracks" in the Internet that pose a threat to openness. His prescription for these apparent fissures: the heavy hand of the Federal Government.

As a result, the FCC appears ready to hand down new regulations that will hinder Internet Service Providers' ability to manage their own networks. The rules would essentially regulate how ISPs manage network traffic. But this seems more like a solution in search of a problem. Or rather it's a solution that will create a problem by hamstringing network operators' ability to manage network congestion.

The Post is right to question the FCC's proposal. Such overregulation will only hamper additional investment by Internet providers, which could negatively affect rural areas like much of the district I represent.

#### PERSONAL EXPLANATION

Ms. JACKSON-LEE of Texas. Madam Speaker, because I was unavoidably detained with constituents, I would like to acknowledge that my vote would have been "aye" in rollcall vote No. 737, the Medicare Premium Fairness Act, on Thursday, September 24, 2009.

Likewise, I was unavoidably detained in a meeting with the Vice President, and I would like to indicate that my votes today on passage of H.R. 905, Thunder Bay National Marine Sanctuary and Underwater Preserve Boundary Modification Act, rollcall vote No. 740, would have been "aye"; H. Res. 16, supporting the goals and ideals of the National Life Insurance Awareness Month, rollcall vote 741, would have been "aye"; and adoption of motion to instruct conferees on H.R. 2997, Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010, rollcall vote 742, would have been "no."

#### SPECIAL ORDERS

The SPEAKER pro tempore (Mrs. HALVORSON). Under the Speaker's announced policy of January 6, 2009, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

#### THE WALL STREET BAILOUT: "HEADS, WE WIN; TAILS, THE TAXPAYERS LOSE"

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois (Mr. LIPINSKI) is recognized for 5 minutes.

Mr. LIPINSKI. Madam Speaker, a year ago we heard that the world financial system was on the verge of collapse. Congress was given a \$700 billion Wall Street bailout plan that we were told was needed to avert catastrophe. After studying the legislation, I decided it contained too many loopholes and provided no guarantee that middle class Americans would be helped by this huge expenditure of their hard-earned money.

One year ago today, I stood here and voted against the bailout bill, and it failed. Unfortunately, later that week the Senate passed it, and it then passed the House on the second try. The bill had gotten no better; so I reluctantly voted against that bill again.

I believed it was the right thing to do then, and I am even more convinced of that today. Much of what I feared would happen if we passed the bailout has come to pass.

We still don't know what the banks have done with the billions they were given. Executives at firms the taxpayers propped up have taken home huge paychecks. Foreign banks wound up receiving taxpayer money. And, most importantly, unemployment has skyrocketed and is expected to go higher.

Last week I joined 28 of my colleagues in calling on the Treasury Department to end the bailout program and stop more taxpayer money from being misspent. A year after Wall Street's recklessness brought the economy to its knees, little has been done to reform the financial system and prevent another such crisis. That must change. We cannot permit the financial industry to continue to live by the slogan "heads, we win; tails, the taxpayers lose."

For the time being, the markets appear to have stabilized, but that is little comfort to the millions of Americans who are out of work or have seen their wages and hours cut, or are wondering if their next day on the job will be their last. They are among the innocent victims of this recession.

There is still great anger about what happened with the bailout and the reckless and misguided actions that caused the problems in the financial industry that led to the pain felt by middle class Americans. I continue to hear about it from my constituents, no matter where they live in my district, what their profession is, or their age.

One constituent I spoke with last month is more well known than most of my constituents, but he echoed a similar sentiment when it came to the bailout and what we need in America today. Dennis DeYoung, lead singer and songwriter for Styx, pointed me to a song he wrote and sang 30 years ago. That song, "Rockin' the Paradise," appeared on the album "Paradise Theater," which went to number one on the charts. It was recorded in a studio in Oak Lawn in my district. Thirty years later, as our country continues to reel from the consequences of the greed of some, the lyrics are as relevant as ever:

"Don't need no fast buck, lame duck profits for fun, quick trick plans, take the money and run. We need long term, slow burn, getting it done, and some straight-talking, hardworking son of a gun."

The song goes on:

"I ain't lookin' to fight, but I know with determination, we can challenge the schemers who cheat all the rules."

"Come on take pride, be wise, spottin' the fools. No big shots, crackpots bending the rules. A fair shot here for me and for you."

That is what Americans want, to know that when they work hard, they'll not get cheated by the "big shots" and the "crackpots."

It's long past time that we "challenge the schemers who cheat all the

rules." That is what my constituents want. That is what all hardworking Americans want us to do in Washington. They want to hear "straight talk." They want to see us "getting it done" so that they have a "fair shot" at the American Dream.

#### BORDER SECURITY IS A NATIONAL SECURITY ISSUE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE of Texas. Madam Speaker, there are still terrorists plotting to attack this Nation of ours. Just last week the FBI arrested a terrorist in Dallas, Texas. He drove up to the 60-story Fountain Place glass office building in downtown Dallas. He thought he had made a car bomb and had it all rigged up to blow up the building with the people inside. Media reports say that this Jordanian that was in the United States was illegally in this country.

Law enforcement was on the job, however. The FBI had undercover agents posing as members of an al Qaeda sleeper cell, and they secretly supplied the terrorist with a dud bomb. But he didn't know that. The terrorist parked his dud bomb car in the parking garage, walked a few blocks away, dialed the cell phone number he thought would set the explosion off. It didn't work, and he was immediately arrested. That's good news for the people that were in that 60-story building in Dallas, Texas.

Over the past 2 weeks, terrorists have been arrested in Dallas, Illinois, New York, and Denver. The threats to the United States from jihadists have not stopped.

One way people who want to harm us get here is simply crossing our porous borders, especially the southern border. Now Border Patrol reports that nearly 1,300 miles of the U.S.-Mexico border is not under effective control. The Department of Justice admits that vast stretches of the border are just easily breached. The Government Accountability Office says that three terrorists have been caught at the border; 530 aliens from terrorist countries were stopped at Border Patrol checkpoints just last year. And that's at a checkpoint. What about the hundreds who get through our borders between the checkpoints?

Our government's response to all of this is to decrease the number of Border Patrol agents at our southern border. Beginning in 3 days, they're pulling hundreds of agents off the Southern border. Does this make sense to anyone?

Each year the Border Patrol sets a goal for "border miles under effective control." "Effective control" means, in their jargon, when the Border Patrol

detects somebody crossing, they expect to catch them.

Homeland Security says the Border Patrol's goal last year was to have only 815 miles of the 8,600 miles of border under "effective control." That's on both the southern and the northern border. Next year the goal is exactly the same: 815 miles under "effective control." That means Homeland Security is not planning to secure one additional mile of either border next year, not one. And, of course, that's good news to people who want to cross illegally into the United States and do us harm.

The southern border is nearly 2,000 miles long. Yet less than 700 miles are what Homeland Security calls secured. Over 1,200 miles are not effectively under control, they say. And their media border guy, Lloyd Easterling, said the Border Patrol could protect the Mexican border with fewer agents. He may be the only person in America that feels that way. He said local police and sheriffs departments were on the job, and they are. But they're overwhelmed, and they're overwhelmed with crime crossing into the United States. They don't have nearly enough officers, and they don't have the money to hire more personnel.

It's the job of the Federal Government to protect our borders. I've been down to the Texas-Mexico border numerous times, and it's no longer a friendly, safe place to be. There are parts of the South Texas border that are so remote that people just walk across every day. We do not know who these people are. We don't know their intentions. And we don't know what they're bringing over into the United States. Not everyone coming into the United States illegally is looking for work.

Instead of decreasing the number of Border Patrol agents, it needs to be increased, and we need to send the National Guard to the border as well. We should also move our military training exercises and operations to the southern border.

Border security is a national security issue, and it's the number one duty of government: national security.

□ 1930

The American people are asking, Why don't we expect and make the government secure our borders? That is a good question. This question has been asked for years, but yet we still have the same results: porous borders. The greatest Nation on Earth secures the borders of other nations but refuses to secure our own border, and the question is why.

And that's just the way it is.

# REPUBLICAN HEALTH CARE PLAN: DON'T GET SICK, OR IF SICK, DIE QUICKLY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida (Mr. GRAYSON) is recognized for 5 minutes.

Mr. GRAYSON. You may recall that a few weeks ago, President Obama came to this Chamber and he addressed the Chamber on health care before a joint session of the House and the Senate. During that session, I was privileged to be here, and I saw my colleagues on the far side of the aisle, the Republicans, waving pieces of paper during his speech, and I was wondering what they were. I couldn't imagine. It almost seemed like they wanted President Obama's autograph. I just didn't get it. I heard from one of my colleagues that this is what they call the Republican health care plan.

I went over after the speech was over. I picked up a copy that was lying down on the Republican side, and it turns out that the Republicans health care plan was a blank piece of paper. I inquired further, trying to find out exactly what Republicans health care plan is, and it is my duty and pride tonight to be able to announce exactly what the Republicans plan to do for health care in America. It is this. It is a very simple plan. Here it is.

The Republicans' health care plan for America: Don't get sick. That's right. Don't get sick. If you have insurance, don't get sick. If you don't have insurance, don't get sick. If you are sick, don't get sick. Just don't get sick. That's what the Republicans have in mind for you, America. That's the Republicans' health care plan.

But I think that the Republicans understand that that plan isn't always going to work. It is not a foolproof plan. So the Republicans have a back-up plan in case you do get sick. If you get sick in America, this is what the Republicans want you to do. If you get sick, America, the Republican health care plan is this: Die quickly. That's right. The Republicans want you to die quickly if you get sick.

Now, the Democrats have a different plan. The Democrats say that if you have health insurance, we are going to make it better. If you don't have health insurance, we are going to provide it to you. If you can't afford health insurance, then we'll help you afford it.

So America gets to decide. Do you want the Democratic plan or do you want to Republican plan?

Remember, the Republican plan: Don't get sick. And if you do get sick, die quickly.

## REPUBLICANS CAN SOLVE HEALTH CARE PROBLEMS

The SPEAKER pro tempore. Under a previous order of the House, the gen-

tleman from Indiana (Mr. BURTON) is recognized for 5 minutes.

Mr. BURTON of INDIANA. I can't believe what I just saw. I can't believe it.

First of all, it's totally wrong; and secondly, it's making fun of a very important issue for the American people. We do have health care problems in this country, and we need to solve those problems, but coming down here and making light of the issue by coming up with a lot of silly talk is just ridiculous.

The Republicans have a bill, H.R. 3400, which deals with the problem in a way that does not get the government in between the patient and their doctor. My colleagues on the other side of the aisle want to come up with a government plan where the government starts making all the rules and taking a major place in between the patient and their doctor.

And, you know, I would like to say to my friends across the country, if they happen to be watching, and my colleagues—and I know I can't do that. I can't address anybody except my colleagues. But if I were talking to people across this country, I would like to ask them, What government agency has done such a great job that you would want to rely on them for your health care? Just start naming a couple. What government agency has done such a good job that they're not spending much more money than you anticipate they're going to spend, and then think about health care.

The projections are that the Democrats' plan is going to cost between \$1 and \$3 trillion over the next 10 years, money we do not have. Money that your kids and your grandkids are going to have to pay for with higher taxes and inflation.

And they say that we don't have a plan. We do have a plan. We want to allow businesses to band together so they can get the best rates like major corporations. We want businesses to be able to go across State lines to buy insurance at the best rate possible. We want to set up medical savings accounts so people will have the money of their own, tax deductible money put into the account by them and their employer, and they can use it as they see fit for medical coverage, and then if there is a major expense above the \$2,000 or \$3,000 of their money that's in the bank, you can have a major medical policy. It would save an awful lot of money.

There is no question that we have maybe 10 million people in the country who are indigent, who don't have health care, that we need to deal with. Not the illegal aliens, not the people who elected not to have insurance, but the 10 million people who really don't have it and need it. And in our plan, H.R. 3400, we address that. And we could solve this problem for a few billion dollars, not trillions of dollars like the Democrats talk about.

In their original bill—they talk about we're waiting for people to die. In their bill, they had a phrase in there that said, or a paragraph that said you should have regular meetings with paraprofessionals to talk about end-of-life planning. End-of-life planning. That's something that should be between an individual, their pastor, and their family, and their doctor.

Mr. DUNCAN. If the gentleman will yield.

Mr. BURTON of Indiana. I would be happy to yield to my friend from Tennessee.

Mr. DUNCAN. I want to speak very briefly to say that the Republicans want—or that our health plan is to hope that all of the people die quickly is—I have been here 21 years, and that is about the most mean-spirited, partisan statement that I've ever heard made on the floor of this House. And I, for one, don't appreciate it at all, and that brings the debate on this important issue to about the lowest level of any debate I've heard since I have been here.

Mr. PRICE of Georgia. Will the gentleman yield?

Mr. BURTON of Indiana. I would be happy to yield to my colleague from Georgia.

Mr. PRICE of Georgia. The gentleman from Florida, Mr. GRAYSON, is still on the floor. He could have an opportunity to come down and apologize to the House right now for denigrating this discussion, this debate, for debasing Members of not just the House of Representatives, but this entire Nation. It's shameful what's been done.

Mr. GRAYSON, how about apologizing? Mr. GRAYSON? Mr. GRAYSON, how about apologizing?

Mr. BURTON of Indiana. I think Mr. GRAYSON has left the Chamber.

Mr. PRICE of Georgia. I thank the gentleman.

Mrs. BLACKBURN. If the gentleman will yield.

Mr. BURTON of Indiana. I would be happy to.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The gentleman will suspend.

The Chair reminds all Members to direct their comments to the Chair.

Mrs. BLACKBURN. I thank the gentleman for yielding.

And, Madam Speaker, I find it just so unfortunate as we are seeking to address and find bipartisan agreement on an issue of paramount importance to the American people on an issue that our seniors continue to talk to us about every day because of their concerns over Medicare, what the delivery is going to be, that we would have someone, Madam Speaker, who would come to this floor and would make such a statement and would make such accusations.

And, Madam Speaker, I think that it is fully appropriate that the gentleman

return to the floor and apologize to the Members of this body.

Mr. BURTON of Indiana. Let me say as we end, Madam Speaker, we don't want rationing for seniors, and we don't want \$500 billion taken out of Medicare.

#### ASSISTANCE TO LIBYA

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Florida (Ms. ROS-LEHTINEN) is recognized for 5 minutes.

Ms. ROS-LEHTINEN. Madam Speaker, I am here to speak on a different topic, on U.S. assistance to Libya and the need for U.N. and foreign aid reform in our budgeting process.

Madam Speaker, just as the convicted extremist of Pan Am Flight 103 was being given a hero's welcome in Libya and just prior to the Libyan leader's own bizarre 93-minute diatribe against all freedom-loving nations before the U.N. General Assembly last week, the Congress was receiving a notification from our State Department that it intended to provide \$2.5 million in economic support funds for Libya. That's unbelievable.

The State Department plans also to send 400,000 of those dollars to organizations run by members of the Qaddafi family; \$200,000 of this is to go to the Qaddafi Development Foundation for assisting indigenous NGOs identify potential for reform. Reform in Libya? You have got to be kidding. This foundation is not a nongovernment organization. It has direct links to Libyan Government and is actually run by the son of Qaddafi. For those of who don't know Qaddafi's second oldest son, he is the one who personally escorted the man responsible for the tragedy of Pan Am Flight 103 from Scotland upon his release back to Libya on his father's personal jet.

The foundation run by Qaddafi's second oldest son is the very group that was used by the Libyan regime to channel funds to compensate American victims of Libyan-sponsored attacks, including victims of Pan Am Flight 103. State Department funding for this foundation may, in fact, serve as a backdoor replenishment of funds used by Libya to compensate our victims of Libyan-sponsored attacks.

Turning to a separate \$200,000 slush fund proposed under the heading of "Inclusive Economic Law and Property Rights: Promoting Women's Economic Opportunities," the State Department has indicated that the anticipated implementing partners will be the United Nations Development Programme and an organization run by Qaddafi's daughter. Qaddafi's daughter also serves as the UNDP's goodwill ambassador to Libya, so she gets two opportunities to directly benefit from U.S. Government programs in Libya at our taxpayers' expense.

The role of the United Nation Development Programme is very disturbing. It has been the center of several major corruption scandals in recent years. It reportedly cannot account for millions of American dollars that it received in Afghanistan. It also allegedly funneled hard currency to the North Korean regime while Kim Jong Il was consolidating his nuclear program. UNDP then retaliated against the whistleblower who uncovered this wrongdoing.

So I ask you, was funding for the Qaddafi family and a notoriously unaccountable UNDP what Congress had in mind when it appropriated funds to support what they call promotion of democracy and human rights in Libya? Oh, my gosh. Absolutely not.

Unfortunately, the Libya aid program presents just one more example of the need for broad, comprehensive reform of the United States foreign assistance program. Our U.S. foreign assistance can go a long way in improving people's lives while promoting our most cherished ideals of freedom and human rights. However, when administered poorly where unaccounted foreign governments, international organizations and bureaucrats are the beneficiaries, then our foreign aid programs only serve to undermine our very own interests.

It is time for us to get serious about reforming our foreign aid system and about effectively vetting our programs and partners.

Toward this end, Madam Speaker, I have proposed two separate pieces of legislation: H.R. 1062, the Foreign Assistance Partner Vetting Act, and H.R. 557, the United Nation's Transparency, Accountability, and Reform Act, and I hope that we can get those bills heard forthwith.

Thank you very much, Madam Speaker.

#### NO GOVERNMENT OPTION

(Mr. BURTON of Indiana asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BURTON of Indiana. Let me just say as an extension of what we were discussing a few minutes ago, the other body, the Senate today twice voted down in the Senate Finance Committee the government option because they know the American people, by a large majority, does not want the government interfering in health care and sticking their nose in between a doctor and a patient. That was done in the U.S. Senate today.

And I would just like to say one more thing—this won't take a whole minute—and that is seniors of this country, and I've talked to a lot of them, they know that they're going to be taking between \$500 and \$600 billion out of Medicare and Medicare Advantage over the next decade, which is

going to cause the Medicare program to be in worse shape than it is already. And the program they're talking about is going to result in rationing. It is going to result in problems for seniors, and the seniors know it.

I would just like to end by saying this to my Democrat colleagues: They all vote.

□ 1945

#### HEALTH CARE REFORM

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from South Carolina (Mr. INGLIS) is recognized for 5 minutes.

Mr. INGLIS. Madam Speaker, the gentleman just before me was speaking about the public option. And I, like him, am happy that the Senate Finance Committee has turned down the public option. But I don't think the snake is dead yet here on the House floor because it seems that the Speaker is working over the CBO numbers in trying to persuade some folks there is some \$85 billion worth of savings if we just set the reimbursement rate at 5 percent above Medicare.

Well, let's think that through. Here is what we've got. We've already got two public programs that under-reimburse providers. In fact, for hospitalizations, Medicaid, which is a Federal and State program, reimburses typically at 87 percent of actual cost for hospitalizations. Medicare reimburses at 92 percent of actual cost. So if you go 5 percent higher than Medicare, if I'm doing the math right, it means that maybe the new public option would reimburse maybe 93, 94 percent of actual cost, which means that you have got a 13 percent cost shift in Medicaid, a 7 percent cost shift in Medicare; and now if a public option comes to be, a 6 percent or so cost shift there. The result is that private payers have to pay 129 percent of actual cost, on average, when they go into the hospital. Now that's a problem because if it's 129 percent of actual cost, it means that premiums go up.

So the public option, far from solving the problem of cost shift, actually is going to add to the problem of cost shift by giving us a third Federal program that adds to the problem. So it's clear that this is not a solution, and the \$85 billion worth of savings is not a real savings. It's a savings only if you can go pull money out of the pocket of anybody that walks into the hospital with an insurance card in their pocket, because again, they pay 129 percent of actual costs.

So somehow what we have to do here in this health care reform business is figure out how to stop that cost shift, how to be accountable here at the Federal Government so that we're not paying just 87 percent of actual cost for Medicaid patients, not just paying 92

percent of actual costs for Medicare patients, and certainly not creating a third program that will under-reimburse hospitals.

So our challenge, the challenge before us, is to figure out how to stop the cost shift and how to be accountable from here in Washington, from our State capitals, and surely not to create a public option that just adds to the problem.

#### HONORING VICTOR ASHE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Tennessee (Mr. DUNCAN) is recognized for 5 minutes.

Mr. DUNCAN. Madam Speaker, I had the privilege of going earlier today to the flag ceremony at the State Department for Victor Ashe who is retiring as our ambassador to Poland. Victor Ashe is a longtime friend of mine, and in fact, we roomed together in San Francisco where we were attending the 1964 Republican National Convention. I was between my junior and senior years in high school and at the time was an honorary assistant sergeant at arms at the convention. I don't suppose you can get any lower than being an honorary assistant, but it got me in the door. And Victor that summer had just completed his first year at Yale, and I'm sure had a much more important position.

In the years since then, Victor Ashe has had one of the most distinguished careers of anyone from our State. He was elected to the Tennessee State House at the age of 21, the minimum age for service in that body. He began his service in the Tennessee State Senate at the age of 30, also the minimum age required. He was the Republican nominee for the U.S. Senate and then spent a year and a half as the executive director of the President's Commission on Americans Outdoors.

In 1987, he was elected as mayor of Knoxville, eventually serving for 16 years and becoming the longest-serving mayor in the city's history. In that position, he achieved national recognition by being named president of the U.S. Conference of Mayors.

Five years ago, President George W. Bush named Victor Ashe as our Ambassador to Poland, where he served longer than any other U.S. ambassador to that country. Political appointees usually become our very best ambassadors, and that was certainly true in the case of Victor Ashe. He visited approximately 200 villages, towns and cities in Poland, covering almost every nook and cranny of that country. He hosted receptions and parties for over 28,000 people and had 320 overnight guests at the ambassador's residence. Showing that he never forgot where he came from, most of his overnight guests were from the Knoxville area.

I had the privilege of leading a congressional delegation of 11 Members to

Poland; and Ambassador Ashe and his wife, Joan, went far above and beyond the call of duty in hosting us at that time. In addition, I had several Members of Congress who had met him on other trips, and they always came back singing the praises of our great ambassador.

I have met many U.S. ambassadors and ambassadors from other countries during my time in Congress. I have never met, heard of, or read about anyone who has worked as hard or has spent as much time going around the country getting to know people from all walks of life. I want to commend Victor Ashe for all his service to the people of Tennessee in the State house and senate and as mayor of Knoxville. But tonight I especially want to salute him for his great service as the 24th U.S. Ambassador to one of our strongest allies, the nation of Poland.

Having summed up his distinguished career thus far, I also want to commend him for continuing to advocate good things for our Nations.

James Morrison, a friend of mine, writes the "Embassy Row" column for the Washington Times. This past Friday, most of his column was about the farewell message Victor Ashe posted on the Web site of the U.S. embassy in Poland. In that message, Ambassador Ashe criticized the construction of "fortress-like" American embassies throughout the world. He pointed out that these fortresses have been built even in countries where Americans face little danger of terrorist attacks.

Going ridiculously overboard on security causes two very serious problems. One, it sends an unfriendly message from our diplomats, who are supposed to be trying to make friends; and, two, it has cost U.S. taxpayers many unnecessary billions all over the world. Ambassador Ashe wrote: "The design of many of these buildings quite often creates a fortress-like atmosphere, and the impression given to host nations can be less than friendly, not the warm, welcoming impression we should offer as Americans."

He complained that the State Department is imposing security requirements and design elements for all new U.S. embassies, regardless of the threat posed in more peaceful nations. "Given different security situations in virtually every nation, wide flexibility in construction design and location is needed, as opposed to the one-size-fits-all approach," Mr. Ashe said. "As such, different sites and designs can be adopted at less cost and with greater architectural warmth."

I agree with Victor Ashe and congratulate him on his outstanding service to our country.

#### HONORING THE LIFE AND WORKS OF SENATOR EDWARD M. KENNEDY

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Massachusetts (Mr. MARKEY) is recognized for 60 minutes as the designee of the majority leader.

#### GENERAL LEAVE

Mr. MARKEY of Massachusetts. I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the subject of my Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. MARKEY of Massachusetts. I say that while noting that Representative NEAL from Massachusetts and Representative CAPUANO from Massachusetts want to, at this point, insert their written statements in honor of Senator Kennedy, and that is why I made that unanimous consent request. But it is also for the purpose of any other Member seeking to be recognized to be able to insert their comments at this point.

We rise to honor our friend and our mentor, Senator Edward M. Kennedy, one of the greatest Senators in the history of the United States. He will be on a very short list of the greatest who have ever lived and served our country. We tonight gather, noting that his son, PATRICK, serves with us here in the House of Representatives, and we extend our best to him and to his sister, Kara, and to Teddy, Jr., as well as and especially to his beloved wife, Vicky, and to all of the other members of the Kennedy family.

He was, without question, "an idealist without illusions," in the words of his brother. He worked as best he could to achieve the goals that he set for our country while at the same time reaching across the aisle to find partners that he could work with in order to accomplish those legislative goals. Without question, it was our great honor, as the Massachusetts delegation, to work with him for all of those years.

Let me, at this point, turn and recognize the gentleman from Massachusetts (Mr. FRANK), and then we will go through and recognize the other members of our delegation and other Members who have joined here to speak about the Senator. I recognize the gentleman from Massachusetts.

Mr. FRANK of Massachusetts. Madam Speaker, the gentleman who just recognized me, the dean of our delegation, has the distinction of having worked very closely with the late Senator Kennedy for 33 years, for more than two-thirds of the Senator's term. And I know that Senator Kennedy greatly valued his colleagueship, as all of us do who serve with him as the dean, and his work now in a number of

the areas pays tribute. I do think it is important to note that the longer you worked with Senator Kennedy, the more you came to admire what he did.

I would have one difference with my colleague with whom I rarely differ on things. He said Senator Kennedy would be seen as one of the greatest Senators. I would say the best. And I know my colleague is gracious and may have a Senator or two he needs on the cap-and-trade bill, so he doesn't want to go too far. But I think we would all agree.

I was a fledgling academic before I went into politics. I was studying for a Ph.D., and I then learned I had a personal characteristic which was a defect in academics but absolutely essential to serve in this body. I have a very short attention span. And it works to my advantage here and to my disadvantage in serious scholarship. But from both ends, I don't think there is much question about his greatness as a Senator.

Obviously, those of us in the delegation and our great colleague and civil rights leader, the gentleman from Georgia (Mr. LEWIS) who has worked with Senator Kennedy, goes back even before any of the rest of us in terms of collegiality; but we obviously agreed with his values, and that is a big part of it. But even those who didn't, and this is what's so striking and so needed in our country today, many Members of Congress who served with him who disagreed with him on most substantive issues, joined in the praise for his integrity and his character and his dedication.

We are at a time now where politics is held in low repute by a lot of young people. I would hope that younger people in particular would think back to the deep, deep love for Senator Kennedy that was expressed by so many people across the political spectrum. Think about the accomplishments to which so many people attribute; think about the people who express the enormous gratitude for the difference he made in their lives. There could not be a better example of how you can get into this business of politics and do good. I would hope people would be encouraged by that.

Beyond that, there is one particular point that I want to stress. We have a besetting sin today in our politics where people think that you show your depth of commitment to a cause by rigidity, not just by rigidity, but impugning the motives of those on your side who try to get something done. Compromise for its own sake is a very bad idea. People who talk about the "center" have to be clear what they mean. The "center" is not a place of value. It may be where you wind up. But you wind up there as you try to move the center. Yes, you want to try to be representative of a majority. Those who have as a goal finding the precise middle are giving up their own moral and intellectual capacity.

What Senator Kennedy did was to start firmly from a set of moral principles and then work to get them accomplished the best that he could. And that is, unfortunately, a practice that today isn't as appreciated as it should be. Purity is a wonderful state, I am told. I do not say that from experience. But it doesn't make anybody any better off.

No one was more firmly committed to the ideals of fairness and equity than Edward M. Kennedy, and he understood that the more firmly committed he was to them, the more he was morally obligated to make some progress on them.

I realize ideals help nobody, and I say that because he was at the same time one of the premier idealists of our time. No one better or more consistently articulated the goal of a society in which no one suffered unfairly, in which all were treated with dignity and had a certain minimum, at least, of substance. But while he was preeminent as a preacher of that set of moral virtues, he was also preeminent as a hands-on politician who could work with others within the democratic process with other people elected who might have disagreed with him, and because of him, more of his goals were accomplished than were accomplished by anybody else. No one did more to advance those causes which he exemplified.

But he never got all he wanted. And I hope that is also an example; and the example is that, sure, you do not belong in politics unless you have a set of ideals. You don't have any business trying to gain influence over others unless it's to make this world a better place.

□ 2000

But once you have those ideals, your obligation is not simply to treat them in a way that makes you feel good; it is to get them accomplished.

I do not think in American history over the time of his Senate career that anybody did a better job for people of all income, for the victims of discrimination, whether it was based on race or sexual orientation, or gender, for the whole concept of what we think is the genius of America; namely, that when you're born, you're born with a chance to maximize your potential, and the economic circumstances or the prejudice of others or anything else don't hold you back.

This Nation is enormously indebted to Senator Edward Kennedy for the work that he did and for the example that he set. And I thank my colleague, the dean of our delegation, for leading this Special Order.

Mr. MARKEY of Massachusetts. I thank the gentleman very much, and I turn and recognize now a good friend of the senator, BILL DELAHUNT from Quincy.

Mr. DELAHUNT. Thank you.

I just want to pick up on a theme that BARNEY touched on. You know, Ted Kennedy might have had adversaries but they were never his enemies. He treated everyone with respect and with dignity and that character, that DNA, if you will, was the proximate cause of his success as a Senator who championed all of the great causes in the past 50 years.

You know, Tip O'Neill said that all politics is local. Well, with Ted it was personal. It was based upon those personal relationships. I'm sure that there are literally thousands that considered Ted Kennedy a dear and close personal friend. I know I did.

I had the fun of being Ted Kennedy's Congressman, and as you all know here from Massachusetts, we had our own schtick. It was a great banter. And he would leave me messages on occasion on my cell phone at night, reminding me that the grass hadn't been cut and that the snow hadn't been shoveled out in Hyannis Port.

I sailed with Ted Kennedy frequently; our colleague and his son, PATRICK; his oldest son, Teddy, junior; and a sister, Kara; and his devoted wife and soulmate, Vicki Kennedy. He was an exceptional friend. I miss him terribly. But I know that my experience with him was multiplied by the thousands. He had a way of communicating with people that was unique. You could reveal to him your concerns. You could share with him your secrets, and you could always be assured that the advice that you received was sound, and it was in your best interests.

You know, we're saddened by his death, those of us who have served with him, those of us who considered him a dear and close friend. But I guess for me the gift of that friendship was something that was so special that it overwhelms the sadness that we all share and that so many share.

We were indeed fortunate not just to serve with probably the most prolific Senator that ever served in the United States Congress—2,500 bills. I'm not going to touch on his public record, but we know that his record speaks for itself.

But what many in this country are only beginning to discover is that for Ted Kennedy, it was not about himself; it was about others. He had his share of pain and tragedy in his own life, and I dare say that that provided him with an incredible capacity for empathy and to understand others better than anyone I've ever met in public life.

So let me conclude by saying I miss you terribly, Teddy, but I know you're still with us. Sail on.

Mr. MARKEY of Massachusetts. I recognize the gentleman from Worcester, a good friend of the Senator's, JIM MCGOVERN.

Mr. MCGOVERN. Thank you and I thank my colleague for arranging this

Special Order to honor an incredible leader and an incredible friend, Ted Kennedy.

You know, in the McGovern household in Worcester, Massachusetts, the Kennedy name has always been magic. Our family admired and respected President Kennedy. We all supported him, were committed to Robert Kennedy and the causes that he stood for, and we always felt it a very special privilege to be represented in Massachusetts by Ted Kennedy. You know, all of us, especially the Massachusetts delegation, already miss Senator Kennedy. We miss his humor, we miss his friendship, his advice, his leadership.

I tell my colleagues from outside of Massachusetts that I'm proud to call myself a Ted Kennedy Democrat, and a Ted Kennedy Democrat is somebody who's a believer in dynamic and efficient, bold and effective government, somebody who believes it is important to stand up for human rights and for civil rights, and Senator Kennedy did so with incredible integrity and with incredible character.

You know, I believe as has been said here that he is the greatest legislator in the history of the United States Senate.

On health care, I mean every major piece of health care legislation that has been enacted into law has Ted Kennedy's fingerprints all over it. There are millions of children in America today who have health care because of Ted Kennedy.

And education: Every major education bill to expand educational opportunities for people of every background is a result of Ted Kennedy's leadership.

In the area of workers rights, a strong champion of organized labor, somebody who promoted and enacted major legislation that protected workers and workers rights.

In the area of civil rights, you're going to hear from our colleague from Georgia, JOHN LEWIS, a hero in the civil rights movement who will talk to you about the fact that Ted Kennedy was the leader in the area of civil rights in the United States Senate.

And on the Iraq War, I have a special admiration and respect for his courage, for the stand he took against that war, when it was not popular to do so, but he took that stand because he believed it was the right thing to do. He thought that war should always be a last resort, not a first resort, and I think he was right on that war.

But to all of us in Massachusetts, he was our Senator who assembled the best staff you could possibly imagine. When somebody lost their Social Security check, they called Ted Kennedy in his office. When a veteran needed help, they called Ted Kennedy. When a local official needed funding for a local college or hospital or road project, they called Ted Kennedy's office. All phone

calls were returned, whether it was from the Queen of England or Mrs. O'Leary who lived in a three-decker in Worcester.

But more than that, I appreciate very much his personal touch. I was grateful for that personal touch, you know, the notes and the calls. When somebody was sick in your family, you got a phone call. When you got a special recognition or if you won an election, you got a note. If something great happened to you, you know, he was the first to call.

When my son, Patrick, was born, the very first call we received was from Ted Kennedy, even before my mother and father called the hospital. The very first gift that we received was from Ted Kennedy, a blanket that had my son's name stitched into the blanket with the words, Love, Vicki and Ted. And the same thing happened when my daughter was born a couple of years later. Those are things that I will never forget and always treasure.

You know, when he died, I said that nobody can ever fill his shoes, but we must try to follow in his footsteps, and I really believe that.

You know, one of the things that Senator Kennedy said was that the great unfinished goal of his life was health care. He believed that everyone in this country deserves health care. He thought it was a national scandal that tens of millions of Americans are without health care. He believed that we could provide better health care to people, that we could put a greater emphasis on preventative care to prevent people from getting sick. He believed we could come up with a health care system that would control costs so that families and small businesses wouldn't go broke trying to provide health care for their families or for their workers.

And so while he is no longer with us, we need to continue his work. He was the conscience of our country, and I believe that we need to continue to be inspired by his example. We need to continue to stand up for what's right. We need to continue to fight for what's right.

And I will say as my colleagues have said, I feel it has been a special privilege and an honor for me to be part of this delegation that for so many years was led by Senator Kennedy, a great leader and a great friend. And the world is going to miss him. And I already do.

I thank my colleague for yielding to me.

Mr. MARKEY of Massachusetts. And we thank the gentleman for his excellent comments.

Let me turn now and recognize the gentleman from Massachusetts, a good friend of the Senator's, JOHN OLVER.

Mr. OLVER. I thank the gentleman for yielding to me. I was still making changes in what I was intending to say, and usually I do that all the time.

I rise tonight to remember and honor the life and the life's work of a dear friend, Senator Ted Kennedy. There are few Americans alive today whose lives are not affected in some way by Senator Kennedy's vast body of legislative achievements. He's credited with hundreds of laws enacted over his 47-year Senate career, and many of those laws make up fundamental tenets of the social contract that is our modern society.

One of the best examples of Senator Kennedy's impact on society can be seen in his groundbreaking Americans with Disabilities Act, which opened the door to jobs, housing, transportation, communications, and a better life for millions of citizens. It also fundamentally changed the way people viewed others who live with disabilities.

Providing opportunity was a great theme of Senator Kennedy's work, as evidenced by his contributions to strengthening public education. Throughout his career, he fought for better teachers, better schools, more funding, and better methods to enhance learning for America's children.

For wage-earning Americans, Ted Kennedy will perhaps be best remembered for his refusal to accept minimum wage levels as they fell further and further behind in their purchasing power. When others balked or faltered on the issue, Senator Kennedy had a knack for pushing through a deal to get everything he could for workers as soon as it could be achieved.

On the international front, when the great debate over America's waging a preemptive war arose at the outset of this decade, Senator Kennedy used his stature and status as a national newsmaker to oppose the President and the Congress' transgressions, as he saw them, with the use of America's military power.

There are many other important accomplishments one could list, but the issue Senator Kennedy himself labeled as the cause of his life, health care, probably stands out as his greatest area of achievement.

Senator Kennedy extended COBRA coverage for workers in between jobs and eliminated preexisting condition restrictions for workers in group insurance plans. He fought for and won uncommon allies in his crusade to provide health coverage for all children, which he considered a moral obligation. He created the Family and Medical Leave Act and the Ryan White CARE Act for Americans living with HIV and AIDS.

□ 2015

Though his ultimate cause of universal health care was one he did not live to see enacted, we are where we are today because of Kennedy's lifelong commitment to that cause. In a sense, the effort is still his effort. The gains that Congress will eventually pass will also be a part of his legacy.

Back in my part of Massachusetts, Senator Kennedy was always a good friend to the First Congressional District. In recent years he championed the development of the University of Massachusetts' Pioneer Valley Life Sciences Institute and helped to support Holyoke Hospital, a critical health services provider in the Connecticut Valley. He was ever willing to exercise his seniority in the Senate when Massachusetts companies needed it, and when campaign season came around, no one could bring out and motivate as many workers as Senator Kennedy. His stump speeches in remote corners of Massachusetts, for State or local candidates, were always an oratorical treat for those lucky enough to hear them.

To me personally, Senator Kennedy was an inspiring and thoughtful friend. I could always count on an immediate and passionate response to whatever was on his mind and on my mind, and his attentive friendship came with a warm smile, a sense of humor and a caring heart. Senator Kennedy's breadth and depth of leadership was unmatched in the Congress. He was a tireless worker for his constituents and all humanity, and I am honored to have known him and served with him.

Mr. MARKEY of Massachusetts. We thank the gentleman so much for his words. Next we recognize another great friend of the Senator, JOHN TIERNEY, from the State of Massachusetts.

Mr. TIERNEY. I thank the gentleman for recognizing me and want to acknowledge before we start, PATRICK, I know you're going to speak later, but I hope that this is somewhat fulfilling for you. It can never replace the loss of your dad, but hopefully it will at least let you know how much the people that served with him had the honor and pleasure of doing that, loved doing it and appreciated him every day. And my colleague, BILL DELAHUNT, was more than just the Congressman for the Senator, so I extend my sympathies to you as well; you were a friend, probably even closer than most of us were because you were there so often and spent so much time with him. And so I express those condolences to you. But it's a loss to all of us. The Dean of the delegation, ED MARKEY, of course, served many, many years with the Senator. I looked at a little factoid the other day that indicated that Senator Kennedy was born on the 200th anniversary of George Washington's birthday. I thought if that's accurate, and I assume that it is, how interesting it was, because nobody appreciated history more than Senator Kennedy and nobody appreciated his role in history more than that.

I can remember ED MARKEY at one point, at a function introducing Senator Kennedy as one of the best United States Senators, only to be corrected by the Senator saying, One of the best?

The best. And while he was joking, I think he turned out to be absolutely right on that because he certainly has a record that you have heard from JOHN OLVER and others here that is just phenomenal. JIMMY MCGOVERN expressed it as well.

I won't start to enumerate all of the things that the Senator did. We'd be here for far too long. And I think, after hearing my colleagues, most people finally start to appreciate that wherever you were in life, you benefited from him; whether you were cleaning hotel rooms or doing some other job that was difficult like that, you benefited from the minimum wage, health care, education, all the things that we care about. And frankly, when we are all looking to try and have the honor of serving here, listening to people in our constituencies, they're talking about those things that matter to them, the bread and butter issues, whether or not they're going to have a job, whether or not it pays well, whether or not they're going to be able to keep their family healthy; whether or not they're going to be able to give their children opportunity. This great Senator epitomized all of that.

One thing that I don't think has been mentioned so far that I just want to hit on is the fact that the Senator used to tell a story about being lectured by his father when he turned 21 or so about the fact that he was going to be the recipient of some resources that other people didn't have the benefit of; he could choose to be idle and do nothing with his time, or he could choose to be of service to others and to mankind. We all know which route he took. But that remains an inspiring story to all people even to today.

And during the course of this summer when the President had his Service to America campaign going on, many of us had the opportunity to go and visit a lot of organizations that had volunteers in, and when you would remind them of that story and tell them about the Edward M. Kennedy Serve America Act that was signed into law earlier in the year by President Obama and now their role in stepping into his belief of service and doing something for their fellow citizens, doing something for America and no matter how small or large, no matter where it was, you could see the inspiration that they got from the Senator, from his life, from his acts, and from the fact that this law had passed because he motivated people to pass it and get it through. This will remain as one of his great legacies, the fact that he spent his life serving others, that he was selfless in that regard, and that while he was serious about the business that he did, he was also never taking himself too seriously, and always willing to make people feel comfortable and to see the lighter side of things and to see the better part of humanity. In even

people who were his political opponents, he saw a good part, and he was able to draw out of them a response that made them accept him and others and work on issues together.

I can remember being with the Senator when we would go out, particularly to senior citizen places where he just couldn't resist singing a song, particularly Irish song, couldn't resist getting out and dancing if there was a ballroom dance going on. And, of course, I guess I must take myself too seriously, or just know how bad a singer or bad a dancer I am. I was always looking for the door, and he would never let that happen. He'd be the first one to force you on the floor, make a fool of yourself, but have some fun and go on that. That's the humanity of the man; that he loved everybody, he loved having a good time with them, could get them to go along with him; and then when it was time to get serious, he could do that in a heartbeat. He could make the case. He had great oratorical skills that carried the day over and over again. And he truly is a giant. I know that the story of his life is just jumping off the shelves right now because people are starting to remember all that he did.

Sometimes in the hustle and bustle of political jargon, people making attacks and going back and forth, people forget that when you separate all that out, whether you are a conservative, or whether you are a liberal, whatever your political opinion, there are things in your life that you have that you're grateful for that are a result of the work of Senator Kennedy. I think that's the bottom line in all of this is that this Senator was a great Senator for America. He was a great friend to all of us. He was a great father and brother for people in Massachusetts. We sorely, sorely miss him. But none of us regret at all having had the opportunity to know him and to serve with him.

Mr. MARKEY of Massachusetts. I thank the gentleman very much. And the gentleman is so right. I could call Senator Kennedy one of the greatest Senators in history, I could call him one of a small handful of the greatest Senators in history. But that would be inaccurate. That just wouldn't capture not only how history will record him, but how he wants to be recorded by history. And there will be an accurate reflection of that, I think, as people, as the gentleman pointed out, continue to focus upon his life.

Before I turn to the gentleman from South Boston, let me go back the gentleman from Quincy, Mr. DELAHUNT.

Mr. DELAHUNT. If the gentleman would yield for a moment before our friend, STEVE LYNCH, makes his remarks, this conversation, the colloquy between yourself and JOHN TIERNEY, reminds me of an anecdote. I wasn't

present and maybe PATRICK could attest to its validity. But when Ted Kennedy was described as one of the two most significant United States Senators in that institution's history, the other being Webster, that his response was, Well, what did Webster do?

Mr. MARKEY of Massachusetts. I thank the gentleman.

No place played a more important role in the history of Massachusetts Irish politics than South Boston, the home of the next friend of Senator Kennedy, STEVE LYNCH from South Boston, Massachusetts.

Mr. LYNCH. Mr. Speaker, I thank my friend, Mr. MARKEY, the dean of the New England delegation, for reserving this time in order for us to pay a special tribute to our friend and colleague, Senator Ted Kennedy. If you have been watching tonight, you will notice that the Members with the most seniority have been given the privilege to speak first, which is the way it works down here. The longer you are here, the more you appreciate that. However, I am one of the more junior members of the delegation, and unlike some of the fellows that have been around here forever, like Mr. MARKEY and Mr. FRANK and Mr. DELAHUNT, I had a relatively short time, 8 years, to spend working with Ted Kennedy. And I cherish every one of those years. But in addition to working with Ted, as a colleague—and Ted could, he could get it done. He could get it done. And I was always amazed at that.

But I also had a different perspective of Ted Kennedy. I saw him in action before I came to this House. I grew up in the public housing projects in South Boston, the Old Colony housing projects. And I can tell you that whether you lived in the housing projects in Old Colony in Southie or Bromley-Heath or Mission Main or Franklin Field, if you grew up, if your family struggled to make ends meet in public housing, no one in public housing had a better champion, a more valiant and noble champion than Ted Kennedy. And that's really the first perspective that I had of Ted Kennedy as someone who was working for our benefit as a family growing up in public housing and in pretty tough circumstances. He was there for us.

I also had a perspective of working as an iron worker for 18 years, strapping on a pair of work boots, becoming a union president for the iron workers. I can say from that perspective as well, whether you were an iron worker, like I was, working in the building trades with a lot of my union brothers and sisters, or whether you worked on a factory floor, or maybe you were a nurse going out every day working double shifts and overtime, or you were a policeman or a fireman, no working person in this country had a more gallant champion to protect their rights and protect the conditions on the job than

we had in Ted Kennedy. And the outpouring of love that we saw during the memorial service and the wake and the funeral and even during Ted's illness, it reflected that collective experience of not only the people of Massachusetts but of New England and the United States. And it was something to see.

My mom raised us in public housing, and when the motorcade came along Carson Beach in the shadow of the housing project where we grew up, my mom insisted that I help her down there—she's not as young as she used to be, but I helped her down there and just to give respect to the Kennedy family and to Ted during that last journey, last part of his journey. There is a saying from the iron workers, especially in the steel mills, that the strongest steel comes through the hottest fire. And really, when you looked at Ted's life and saw what he accomplished and the challenges that he had; his brother, President of the United States, taken in violence; his brother, the Attorney General, candidate for the presidency, taken from us in the same way; the huge challenges to Ted. They were unthinkable, unimaginable, yet he worked through it, and not only did he overcome that, but he also reached out to other people and shared a strength that he gathered from those experiences.

I'll never forget—this is my only Ted Kennedy story that I'll relate tonight, but I was a freshman, actually, I was very early in my career as a State Representative, and we had six of our brave fire fighters killed in a terrible fire in Worcester, Massachusetts. We all went to the Worcester Centrum for that ceremony. The families were there and every seat was taken and every bit of space on the floor was taken. The place was filled to the rafters. And that's where I was sitting, far above the floor. But I'll remember Ted's remarks. Here are six families that just lost their loved ones. And Ted Kennedy, you know, you could have heard a pin drop in that Centrum that day.

□ 2030

He basically said to the family—I'll never forget his words. He said, From my own experience, I have found that every once in a while life breaks your heart. And even though there were thousands and thousands and thousands of people in that Centrum that day, in reality, it was just Ted and it was just those six families, and he was helping them through that. And that's a gift.

We all go to wakes and funerals and try to help families through tough times, but I never saw anybody carry it off with the grace and the profound empathy and love that Ted was able to accomplish.

I just want to say that I'm delighted that we had an opportunity tonight to say our thoughts and to share our con-

cerns for Ted's family, PATRICK and the entire family. We know what they're going through.

I think the test of all of us who are born on this Earth, the true test of our time, however short it is on this Earth, is whether the work we do while we're on this Earth is going to live after us and is it going to positively affect the people that we leave behind.

By any measure, by any test, Ted has passed that test with flying colors. He has left the power of his example for all of us to try to follow.

I want to thank you, the dean of our delegation, ED MARKEY, for the opportunity to share my thoughts. My prayers and the prayers of my family go out to the Kennedy family.

Mr. MARKEY of Massachusetts. We thank the gentleman so much for his words.

In 1974, Paul Tsongas from Lowell was elected to the United States Congress. Today, these many, many years later, NIKI TSONGAS serves here in the Congress. So the Tsongas and the Kennedy story goes back many years.

I'd like to recognize the gentlelady from Lowell, NIKI TSONGAS.

Ms. TSONGAS. I'd like to thank the dean of our delegation for hosting this Special Order so we can remember our most remarkable Senator.

As I was thinking about how best to talk about him—and we've heard some wonderful remembrances this evening—I was looking back to the early sixties when I was, like so many of us, a student in high school, a beginning student in high school—I hate to give away our age—but the inspirational figures of the Kennedy family, in particular, President John F. Kennedy.

My husband, Paul, used to say that he was inspired by that Presidency to seek public office. But he had grown up in what he called a "disadvantaged household." His parents were Republicans. And it was the Presidency of John Kennedy who inspired him and so many either to become a Democrat or to seek out public office, little knowing that some years later we would be serving with the man we remember tonight.

My first recollection, though, of Senator Kennedy is in 1974, when Paul was a candidate for the seat that I now hold. Senator Kennedy agreed to come to Lawrence, Massachusetts, to campaign for Paul, who was part of the great Watergate class in which there were many, many Democrats running across this country. Paul was running against an incumbent Republican.

Senator Kennedy came to Lawrence, Massachusetts, to St. Mary's Church. He was accompanied by Barbara Souliotis, who many, many years later still serves as his State director. At the time, I think she was an advance person, whom I remember her utter professionalism in keeping Ted on track.

We've heard tonight what a great speaker he was, how he could really

connect with the crowd. And so he did that evening. While Ted was speaking, Paul looked at me like, "Now what on Earth do I do?" because he knew he could never compare with Ted Kennedy. And he didn't even try. But you could see then how fundamentally Ted connected with people, because they trusted him and they knew that he was working on their behalf.

I remember, again, Ted in 1978, when he supported Paul against an incumbent United States Senator, somebody who was his colleague, a Republican, as he did so often; kept his word, supported his colleagues, whether they were seeking the Presidency, as they in turn supported him.

Well, I haven't had the opportunity to serve, unfortunately, with Ted as long as others here. I do have a couple of remembrances from the past several years. One was when he did agree to come and campaign for me, again, in Haverhill and Lawrence, Massachusetts, the cities of the Fifth District of Massachusetts.

This time, though, he came with a van. He brought Sonny and Slash, the dogs. Barbara Souliotis, who was with him in 1974, was there at his side yet again, along with Vicki. We started out in Haverhill. We went to an old diner that was owned by a Greek American family. Barbara's mother brought pastries that she cooked. Ted sat there with a little demitasse of coffee, ate the pastries, and thoroughly enjoyed the morning.

Then we traveled on to a small school where we were going to read. It was an early reading program, a very, very good one; one that I think is a real model going forward. And Ted, this remarkable Senator who has met with every imaginable world leader, sat and sang Itsy Bitsy Spider to the 2-year-olds and 3-year-olds that were in the room with him. He had a remarkable ability to connect with all of humanity.

My last conversation with him was around a point of legislation that we both jointly sponsored to protect a farm called Barrett's Farm. We've learned to know what a lover of history he is. But I represent two parks: The Minute Man National Historical Park and the Lowell National Historical Park.

Barrett's Farm is a farm that played a very important role in the beginnings of the American Revolution. It was a farm that housed munitions that the Minutemen were going to use. And the British, learning of the new munitions, decided to march on Lexington and Concord, prompting Paul Revere's ride to warn that the British were coming.

The Minutemen got to Barrett's Farm, hid the munitions, so by the time the British arrived, the munitions were safely set aside where they could be used as we advanced our Revolutionary War effort, but the shot was

heard round the world that changed the history of this country.

So we worked hard. My former Congressman, Marty Meehan, had initially filed the legislation. I followed up on that, working with Senator Kennedy. The bill finally was signed into law.

This April, I was sitting in my office and got a call. It was Senator Kennedy on the line, and I picked it up and he said, NIKI, isn't it grand? He could celebrate that small legislative act that protected such important history with the same joy and commitment that he did the grandest of efforts.

Senator Kennedy's legislation has shaped American lives in ways we cannot even know. Every day our lives are different for all that he did. And we are so fortunate to have had his service, to have the great legacy of the Kennedy family, and to be serving today with Representative PATRICK KENNEDY, who continues that legacy as well.

We will miss him. We will miss him forever. But we will always remember him in the large acts and small kindnesses of his life.

Mr. MARKEY of Massachusetts. We thank the gentlelady so much for those words.

Now we turn to—and a number of Members have alluded to him—the great civil rights leader who knew the Kennedys in the sixties and now serves here in the House of Representatives, Congressman JOHN LEWIS from the State of Georgia.

Mr. LEWIS of Georgia. Mr. Speaker, I want to thank my colleague ED MARKEY and members of the Massachusetts delegation for holding this Special Order in honor of Senator Kennedy. I rise today just to say thanks to Senator Kennedy and to the Kennedy family.

During the sixties, I had an opportunity to meet President Kennedy, in June of 1963, when I was only 23 years old, and then to see him at the end of the March on Washington when he invited us back down to the White House. I got to know Robert Kennedy, the Attorney General, meeting with him in his office and campaigning with him in Indiana, Oregon, and California.

I have known Senator Ted Kennedy for a long time. He was a very special man, a very special friend. I remember long before I came to Washington as a Member of Congress on an occasion we needed him to speak at a fundraiser for nonpartisan voter registration efforts in the South. He answered our call without hesitation. He spent time among us, honoring not just men and women of means, but everyday people and their little children.

Senator Kennedy, this extraordinary man, was an elegant man who walked with kings, but never lost the common touch. As a colleague, he was generous and committed. He was our leader, our champion, our shepherd. He took up the causes of those who were weak and

tried to make them strong. He stood tall and spoke with passion for all of those who have been left out and left behind; the people who had no voice in America.

Ted Kennedy never lost hope. He demanded justice for people of color when it came to civil rights and voting rights, and he also took a stand for seniors and for those with a different sexual orientation and for the disabled.

Senator Kennedy was a man who lived his faith and tried to act on it every single day by doing good to help the least among us. At some of the most tragic and difficult moments in this Nation's history, Senator Kennedy had the capacity, had the ability to gather his strength and lead us toward a more hopeful future.

As a Nation and as a people, he encouraged us to build upon the inspirational leadership of his two brothers and use it to leave a legacy of social transformation that has left its mark on history.

I would say tonight, Mr. Speaker, and to members of the Massachusetts delegation and to PATRICK and to other members of the Kennedy family, Senator Kennedy was so thoughtful and so considerate. He was one of the most sharing, caring, giving human beings that I have ever met.

During July 2006, when the Senate was about to reauthorize the Voting Rights Act, he invited me over to the other side of the Capitol to be his guest on the Senate floor. When the last vote had been tallied, he gave me a copy of the tally sheet. Then he suggested that we walk out into an adjoining room, and he showed me the desk where President Lyndon Johnson had signed the original act on August 6, 1965.

He had a photographer to take a picture of the two of us standing near that desk. A few days later, I received the most beautiful copy of that picture with an inscription from Senator Kennedy. It is hanging on the wall in my home in Atlanta. I will always cherish it as long as I live.

I remember in 1977, Senator Kennedy came to Atlanta and we hosted a little reception for him at my home. He met a few of our friends: my wife, Lillian, and our son, John Miles. He spent so much time playing and talking with my young son, who was not quite a year old.

Senator Kennedy had a heart full of grace and a soul generated by love that never forgot the spark of divinity that runs through us all, no matter whether you were his closest friend or his fiercest adversary.

A brilliant light has gone out that uplifted not just America, but the entire world community. During his life, Senator Kennedy touched so many of us with his brilliant light. He touched more than Members of Congress, but also ordinary people. He touched our President and the leaders of tomorrow.

The spark of light that he gave to each one of us still burns brightly, and it is our duty, our obligation to continue his legacy and pass that light on to unborn generations.

Senator Kennedy will be deeply missed but not forgotten, and his legacy will live on in all of us. He was a wonderful friend. He was a wonderful friend, a wonderful colleague. He was like a brother.

□ 2045

Mr. MARKEY of Massachusetts. We thank the gentleman so much for his great words. For me, I had the honor of serving for 33 years out of the 47 that Ted Kennedy served in Congress, here as his colleague. It was my great honor. For each of us, there are too many stories to retell.

But for me, it all begins with Ted Kennedy running for the Senate; and from that moment on, whenever he spoke about the war in Vietnam or health care or energy or injustice to any person, no matter where they are in the world, I listened. And not only did I listen, but tens of millions of other people listened as well because he took us on a journey, a journey to issues and people that we did not know of but he wanted us to know about and to respond to.

That was really his greatness, that when he spoke, he was true north. He was someone who you knew that he was speaking from his heart and speaking for issues that really only he had the capacity to draw the attention to, and he used his power to do so. He used the special gift that he had been given to accomplish those goals.

I remember at the Democratic Convention in 1980, Senator Kennedy had asked me and Henry Royce over here, who was chairman of the Banking Committee, to introduce his energy bill which would be the counter to the incumbent President's energy bill. It called for solar and wind and conservation and higher fuel economy standards and a different direction for our country. Although his candidacy failed and energy was the big issue at that time, I got a call to come up to his room right after he gave that great "The dream shall never die" speech. He was up in his room with his family—PATRICK was there and others.

In that room, there was not a defeated man. There was someone who had been a great victor. There was someone who had brought all of these issues to the American people. In 1983, as Ronald Reagan had pulled out of all arms control negotiations with the Soviet Union—the first time in a generation—he called me, and he said, EDDY, you know what I would like to do, I would like to work with you on a nuclear freeze resolution to end all production of new nuclear weapons in the world. And he said, You know what would be a good idea, why don't we

have it at American University, where my brother gave his speech to end all atmospheric nuclear testing?

Then one month later, there was an attention brought to this issue that changed that whole issue, and 3 months later, 1 million people were in Central Park calling for an end to the nuclear arms race. On every single issue he talked about in his entire life, it changed the whole dynamic of that issue because Ted Kennedy stood up and spoke to it. He inspired me; and he inspired, I think, millions of people across the planet to change the course of their lives.

So it has been a great honor for me and for all of the rest of our delegation to be able to work with him. It is an especially great honor to have as our concluding speaker this evening, his son. His son, who is our colleague here in the House of Representatives, who in and of himself is a great United States Congressman and who continues the Kennedy tradition of fighting for those causes that other people do not want to fight for and to bring the attention to those who are most in need of help in our country and in our world.

It is my great honor to recognize the great Congressman from the State of Rhode Island, PATRICK KENNEDY.

Mr. KENNEDY. I want to thank my good friend and colleague ED MARKEY for organizing this Special Order and all of my colleagues for the wonderful tribute that they've given my dad tonight. I will just say that he loved people in public life because they were willing to go out and face the elements and weather the scorn of public opinion in order to stand up for what they believed in. That's why he really admired political figures, and especially in a time where political figures aren't very revered. They're pretty much down at the bottom of the public opinion polls in terms of most professions.

But he knew what a difference it meant to have people of good faith and conviction be involved in the political process because he knew what a difference it made in terms of getting good policy done for the American people. He knew how easy it would be for most people to sit back and make criticisms from the sidelines, but it took a really special person to put themselves out and really sacrifice a big part of their lives because it takes enormous sacrifice of their private lives to be in the public life, especially today.

So he always really got so much energy out of the people that he served with. They were the ones that sustained him so much because he felt like he was part of a team effort. There is nothing that he loved more than being part of a team, whether it was playing sports or whether it was just being part of a family team, being part of a family. That was his politics. His politics was simple. It was being part of a group and making sure that no-

body in the group was left behind. I think it's a great kind of a spirit that he brought to his politics. It was a family spirit that I saw over and over again in every issue that he faced. He wanted to treat everybody else the way he expected to be treated if he were a member of a family, and I was included.

He was brought up to believe that everybody had dignity and everybody had a place. You know, when I was growing up in my family, we all had a place. A lot has been said about his belief in everybody having an opportunity in society. Well, in an anecdotal way, I can tell you, in my life, he always made sure that I had an opportunity to participate.

The SPEAKER pro tempore (Mr. MINNICK). The time of the gentleman has expired.

#### REMEMBERING SENATOR KENNEDY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Massachusetts (Mr. DELAHUNT) is recognized for 5 minutes.

Mr. DELAHUNT. I yield the time to my friend and colleague.

Mr. KENNEDY. Thank you. I just will conclude now because I know my friends and colleagues have their time to speak.

I would like to say to each and every one of the folks who spoke tonight, thank you for being here tonight to pay tribute to my father. To the folks on both sides of the aisle that have been so generous to me, it's a great thing, being part of this House, to have colleagues treat you as one of their own, as a part of a collegial family of sorts, in a professional way but also in a personal way.

The thing he loved so much about serving over in the Senate was the great friendships he developed there. I can tell you, having been through what I have been through in the last couple of weeks, I can appreciate personally what a difference it's made to have the friends that I've had in this Chamber be so supportive of me through this time. I want to thank all of my colleagues for their outpouring of support and affection from both sides of the aisle. It is in times like these where you really get to appreciate the fact that you work in a place where everybody appreciates and respects one another.

I think that is the thing my father would want most for our country right now, for people from very divergent points of view to respect one another and respect this country, which was founded on an appreciation for difference of opinion. The reason why he had worked so well across the aisle on so many occasions on important issues was because he understood that this country can't move forward unless people work together in good faith.

I think the thing that he found most distressing at any point in American history was when the country would stray from its foundation of believing that we could resolve our difficult problems through dialogue, because I think he knew personally, better than any other person in American history, what happens when people don't resolve their problems peacefully and, instead, resort to violence. I think that my dad is one of those people who believed in the democratic process. And at the end of the day, people saw what a difference his work made in their lives because of the work that he did within the democratic process, to make our country a better place for everybody to live in.

Even though he was from a different station in life from many people that he worked to help, he didn't look at it from the point of view of socioeconomic background. He looked at it from the point of view that we're all human beings, that we all have a spark of divinity in us, and we all ought to treat each other with the same respect that we would want to be treated with ourselves. The golden rule, so to speak.

That's why it didn't matter what the issue was. He believed in fairness for everybody because he would want his family to be treated the same way he would want every other family to be treated. But there for the grace of God, he was lucky enough to come from a family that didn't have to worry about paying for health care, education, housing or a pension to retire. He just knew that if he had come from a different family, he would hope that he wouldn't have to worry about the basic necessities of life that too many Americans have to worry about.

And I respect that about him because through the power of example he showed me that you could be a person of conscience and really try to work to make the lives of those who didn't have it as well off as you better through the work that you did in public life. Through that, I think he showed himself as a patriot in more than one way. He not only wore the uniform of this country in the Army, but he wore the uniform in the sense that he fought in the Senate to advance the lives of people in this country through the policy work that he did as a United States Senator.

So, again, let me thank all my colleagues for their great tributes. I look forward to paying him the biggest tribute that we could pay, and that is to make sure that the promise of health care for all is a promise that we ultimately achieve in this session.

Mr. DELAHUNT. Thank you for sharing that with us, PATRICK. Thank you for your service, and know that we love you.

Speaking of reaching across the aisle, I'm going to expose him as someone who had great love and affection for

Ted Kennedy, your dad, and a wonderful guy for whom Senator Kennedy had the highest respect, even though they agreed on very little. That's the senior Republican on the House Judiciary Committee, LAMAR SMITH.

Mr. SMITH of Texas. I thank my friend from Massachusetts, Congressman DELAHUNT, for yielding. I also want to thank my colleagues on both sides of the aisle for their forbearance tonight in not strictly enforcing the time limits.

The SPEAKER pro tempore. The time of the gentleman has expired.

#### REMEMBERING SENATOR KENNEDY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. SMITH) is recognized for 5 minutes.

Mr. SMITH of Texas. This gives me a second opportunity to thank my colleagues for their forbearance tonight.

Senator Kennedy was a friend, as are members of his family, including his son PATRICK who is here tonight. It was a privilege to have known him in lots of different ways. In my being a conservative Republican from Texas, and the Senator being a liberal Democrat from Massachusetts, many people wonder about this friendship. And therein lie many stories, but let me tell a couple tonight.

The first one goes back to when I was a fairly junior Member of Congress. I don't remember what the meeting was about, but there was a meeting in the Capitol in a small room. I was late getting to the meeting, and apparently so was Senator Kennedy. When I walked in, there were no remaining seats around the table, but there were a couple of seats over by a window. In fact, there was only one seat empty, and it was next to Senator Kennedy who at that point I had not met. I felt like I had nowhere else to go, so I sat by Senator Kennedy.

After we had been there about a half hour and were bored by the discussion that was going on at the table, we started talking. I mentioned to Senator Kennedy that, in fact, my grandmother had been from Boston, that I had enjoyed that part of the country many times on vacations, and we discovered that we had a mutual interest in sailing, although I have not gotten to do nearly as much of it as he has.

□ 2100

In any case, we spent the next hour just having a wonderful, friendly discussion. And that was the beginning of this friendship that I have referred to.

Not long after that, I was at another meeting. Actually this was a conference meeting in the Capitol, where there were four or five Members of the House and four or five members of the Senate in attendance trying to work

out the differences on a particular piece of legislation. What so happened at that particular meeting, I was at the table and so was Senator Kennedy. In fact, he was directly across the table from me. And we had had a relatively mild discussion of the issues at hand, and it was time for Senator Kennedy to speak.

He stood up at the table, proceeded to lay into us Republicans as if we knew nothing about the issues at hand, made a very persuasive argument on his own behalf and on behalf of the issues that he cared about. The voice was so loud that, quite frankly, the walls of this small room were rattling. All the staff who were seated around the room were shaking. And I was wondering what I had gotten myself into. And here was the Senator with whom I had struck a friendship, and he was practically accusing all of us of not knowing what we were talking about on this particular legislation.

Well, the Senator talked for 5 or 10 minutes, completely dominated the room, and there really wasn't much else to say, or at least no one felt like saying anything in response to the Senator. Well, when he sat down, he picked up a piece of paper in front of them, grabbed a pencil, which I was absolutely sure he was going to break in half. But instead of breaking the pencil in half, he scribbled a note on this piece of paper. And everybody in the room is watching him. And he throws the piece of paper across the table to me. And I'm thinking, what is going on?

So I pick up the piece of paper. This must have been around July of that particular summer. I look at the piece of paper, and Senator Kennedy has written on the piece of paper, "LAMAR, what are you doing for vacation this summer?"

You had to sort of be there to appreciate what had gone on in the previous 10 minutes and the friendship that this particular note to me showed.

I very quickly folded the note up and put it in my pocket so no one else would see it. And, of course, everybody in the entire room was now wondering what was it that Senator Kennedy had written to the Republican across the table, SMITH from Texas.

I never have revealed that note until right now. But that does show not only friendship, but both stories and many others that I could tell I think reveal a larger point. And that is the public is probably not nearly as aware as they might be of the genuine friendships that occur in Congress between individuals who might not agree on many of the political issues but who can agree to be friends and appreciate each other's company.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. SMITH of Texas. May I ask unanimous consent for 1 more minute?

The SPEAKER pro tempore. The Speaker's announced policy of January 6, 2009, does not permit the extension of a Special Order speech by unanimous consent.

#### REMEMBERING SENATOR KENNEDY

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute.)

Mr. SMITH of Texas. Thank you, Mr. Speaker.

In this case, the idea that individuals can be friends from different sides of the aisle, and even if they disagree on some things political, it occurs more often than a lot of people might expect. In fact, that's probably one of the unwritten stories of Congress. And I'm glad it exists.

Certainly on the surface there is an extreme partisanship. Sometimes that is regrettable. But underneath the surface, there are friendships that can occur, for which I think both sides and both friends can be grateful, and I am certainly in that category.

Mr. MARKEY of Massachusetts. Will the gentleman yield?

Mr. SMITH of Texas. I will be happy to yield to the gentleman.

Mr. MARKEY. I thank the gentleman for his great words. And we thank all of the other Members for their participation in this Special Order.

The RECORD is going to remain open so any Member that wishes to make a comment about our great Senator Ted Kennedy may do so.

Mr. Speaker, I rise today to honor Senator Edward M. Kennedy—a mentor, a friend and the greatest Senator our country has ever known.

While it is still difficult to imagine these hallowed halls without Teddy, today we honor the man who was an inspiration to all of us who have answered the call to public service. And while one hour is not nearly enough to pay tribute to the life and legacy of Sen. Kennedy, today we pause to celebrate the life of this extraordinary man.

Never afraid to 'sail against the wind' in the name of justice, equality and opportunity, Teddy was a treasured friend, a tireless advocate for the people of Massachusetts and a legislator without peer. Throughout his distinguished career, he helped bring health care to millions of children, enabled many young people to afford a college education and ensured that so many of our citizens could realize the American dream.

I am honored to serve with his son PATRICK and to know his other children Teddy Jr. and Kara, his beloved wife Vicki and all the members of the Kennedy family. And there is no doubt that his trusted friend and former staffer, PAUL KIRK, will serve with distinction in his interim appointment.

Teddy was 'an idealist without illusions,' as his brother, the late President John F. Kennedy used to say. He came to the Senate to get things done. He was unafraid to reach across the aisle to make a deal and he count-

ed some of his staunchest ideological foes among his closest friends. But he never compromised his core beliefs in justice, equality and access to the American dream.

From his first speech on the Senate floor in support of the Civil Rights Act until his valiant final fight for health care reform, when Ted Kennedy spoke, you knew you were hearing the "true compass" of a committed, principled progressive.

He transcended petty politics to become "the lion of the Senate," a legislator like no other. Teddy's was an unmatched legislative career, which included 47 years in office, more than 2,500 bills authored and scores of laws bearing his name.

On issues of war and peace there was no better moral compass than Teddy. He picked up the banner of nuclear arms control from his fallen brother John and fought tirelessly to reduce the threat of nuclear weapons and make the world a safer place. Beginning in the 1980s, Teddy worked closely with me to highlight the dangers of a nuclear arms race between the U.S. and the Soviet Union, and the need to prevent the proliferation of nuclear weapons.

In 1982, when I introduced the first nuclear freeze resolution in Congress to stop the buildup of nuclear weapons, no one thought we could do it. But it was Teddy who led the fight for a freeze in the Senate, paving the way for a dramatic showdown with President Reagan that made it necessary for the Reagan Administration to embrace nuclear arms control—a course it initially had rejected.

Our country is a better place because of Ted Kennedy. For the worker who struggled to make ends meet in a minimum wage job, Ted Kennedy was there. For the new mother caring for a newborn, Ted Kennedy was there. For a family in need of health care for a sick child, Ted Kennedy was there. For a planet in peril due to the threat of nuclear war, Teddy was there.

And now we must be there for the causes that Senator Kennedy championed throughout his long and distinguished career.

In his final days, Senator Kennedy wrote a letter to President Obama, reminding us all of just what is at stake in the health care debate. "What we face is above all a moral issue," he wrote. "At stake are not just the details of policy, but fundamental principles of social justice and the character of our society."

And there is no one who better understood those principles than Teddy.

At the Democratic Convention in 1980, when it was clear that Teddy's inspired campaign for the nomination had come to an end, he was still fighting for the issues he cared about.

Just hours after he delivered his famous speech declaring that the "dream shall never die" I went up to see him in his hotel room headquarters. And what struck me that night and stays with me to this day, was that instead of being heartbroken after coming up short in his quest for the presidency, there was no defeat in that hotel room. Instead, Teddy was triumphant. Despite the difficult day, he was still in high spirits.

Although he was a great Senator before that day, it was on that night, that he truly began his transformation into the "Lion of the Sen-

ate," the master legislator fighting for the issues that mattered most: health care, civil rights, education, human rights and others. That night, like so many other nights in his long career, he was able to transcend misfortune and shape something bigger. To commit to a cause larger than himself.

Above all, I will remember Ted Kennedy for his sense of hope. In rough seas and in calm, he always believed our better days were just ahead. In his final fight, the dignity and grace he showed was an inspiration to us all.

And throughout a long life of tragedy and triumph he never faltered in his belief in this country and its highest ideals. From landmark legislation like The Americans with Disabilities Act that touched the lives of millions, to simple gestures like reading to schoolchildren at a school near the capitol, Teddy believed in the American dream and helped so many to realize it.

And although the mighty Lion has passed on, Teddy's roar in defense of the disadvantaged and vulnerable will echo eternally in the halls and history of America, inspiring future generations to service, self-sacrifice and a commitment to our country's highest ideals.

And as we pause to remember this great man, the task now is to follow Teddy's immortal words and ensure that the causes which he championed shall endure, that his hopes will live on and his dreams of a better future for everyone shall never die.

Mr. RAHALL. Mr. Speaker, I rise today to recognize and remember the outstanding life and legislative achievements of U.S. Senator Edward M. Kennedy.

I was first elected to the House of Representatives in 1976 and although that is over 33 years ago, Ted Kennedy had already been serving in the U.S. Senate for over a decade. The achievement of being the third longest serving Senator in our history is an accomplishment in its own right, but Senator Kennedy affected public policy in such a substantial and enduring way that the length of his time in office is really only one achievement in his remarkable journey.

Senator Kennedy boldly championed landmark legislation to improve the lives of all Americans. He fought fiercely for the poor and the disadvantaged. His legislative achievements include being a major player in a wide range of issues; from addressing funding for cancer research, health insurance reform, benefits for the mentally disabled, discrimination against disabilities, and the Children's Health Insurance program to Civil Rights, and education reform. Kennedy always considered healthcare the pinnacle issue of his legislative career, and it was a great achievement for him to see comprehensive healthcare reform moving further along in legislative process than it ever has before, five of the six committees handling the healthcare bill had passed them out of committee at the time of his passing.

One of his most recent achievements was the signing into law of The Edward M. Kennedy Serve America Act of 2009. This landmark legislation tripled volunteer opportunities across the country and created a new service corps for education, health care, energy, and veterans.

Although Kennedy was diagnosed last year with a malignant brain tumor, he continued to

play a major role in the healthcare debate, and up until his final days he was truly the "Lion of the Senate" serving fiercely and passionately on behalf of so many Americans both in Massachusetts and around the country. August 25, 2009 was surely a sad day for all of us—but although Kennedy's life was filled with tragedy, his life was also filled with triumph. His victories in life far surpass most men and women's and his story is one of humanity and progress.

Senator Kennedy was a great statesman and a true leader, who cared deeply about America's future and I am honored to have served in the United States Congress with him. I extend my deepest sympathy and heartfelt condolences to Senator Kennedy's wife and family, and hope they take comfort in knowing that his legend and legacy carries on in the hearts and memories of a grateful nation.

Mr. CAPUANO. Mr. Speaker, I rise today to honor a man who dedicated his life to the people of Massachusetts. The passing of Senator Ted Kennedy has left our Commonwealth without its principal champion, and while we grieve, we take solace in remembering the magnitude of his many accomplishments during almost 47 years in the United States Senate.

I am proud to have served with Senator Kennedy as a Member of the Massachusetts Delegation and humbled when I recognize what we have lost. His work impressed me before I was elected to Congress, but it was in this context that I came to know Senator Kennedy personally and witness his insight and intelligence and his formidable skills as a legislator. His ability to recognize an important and often daunting goal, and then effect legislation to achieve that end, was unparalleled. The testimonies we have heard from friends and colleagues in recent weeks bear witness to that.

Ted Kennedy's approach to government had been instilled in him from an early age—that we must, no matter our position in life, strive to help those in need and speak up for those whose voices cannot be heard. It is a lesson both he and his brothers took to heart and to which they gave their lives in service. Senator Kennedy knew the people of Massachusetts needed his help, but his compassion did not stop there. He often championed national causes and shepherded major legislation with broad impact across the country: ensuring civil rights, expanding children's health insurance, establishing the Americans with Disabilities Act, strengthening education and service programs, and finally the effort he called "the cause of my life"—reform of our health care system.

Senator Kennedy soared to great heights in the Senate. He achieved immense influence among his colleagues, both Republican and Democrat, while never compromising his progressive values or quenching his fighting spirit. The personal touch he lent to relationships with colleagues and constituents told of his deep connection to the work he was doing and his dedication to being the most effective Senator that chamber has ever seen.

I can say I am a better person for having known Ted Kennedy. I am saddened by his loss not only for myself and for the people of

Massachusetts, but for the citizens of a grateful nation. Indeed, the world mourns the loss of his passion for justice and peace. We must all strive to honor his legacy and continue fighting for the causes he defended with such vigor.

Let it be forgotten or overlooked, Ted Kennedy was also a father and husband. I offer my deepest condolences to Vicki, Kara, Ted Jr., Caroline, Curran, and of course my colleague PATRICK. I thank each of you for allowing us to share this great man with you. He is, and will always be, greatly missed.

Mr. NEAL of Massachusetts. Mr. Speaker, with the passing of Senator Edward M. Kennedy last month, the Commonwealth of Massachusetts lost its greatest champion, and the United States of America lost one of its strongest voices for fairness, equality and justice. Personally, I lost a treasured friend. From civil rights to health care, from voting rights to Head Start, Ted Kennedy played a significant role in the passage of some of the most important legislation in our lifetime. I have often said his record in the United States Senate is unrivaled. And I believe history will remember him as the most effective individual to ever serve in that institution.

The Ted Kennedy his friends and colleagues knew was a kind, considerate, generous, funny, thoughtful and hard working person whose presence lit up the room. His personality and charisma were contagious. He loved his family and spoke about them with great pride. During good times and bad, he was always there with a phone call or a note. When it came to western and central Massachusetts, he always offered to help. He was a master of detail. His ability to work across the aisle was legendary. At the end of the day, Ted Kennedy made a difference in the lives of countless individuals.

For the past year he faced one of the most difficult challenges of his life. But he did so with characteristic dignity and grace. Whether it was sailing on Cape Cod in his beloved Mya, or throwing out the first pitch at Fenway Park, he taught us how to live life while facing adversity. And in the process he became an inspiration for us all.

I became interested in public service during John F. Kennedy's historic campaign for president nearly 50 years ago. Since then, I have been an outspoken and loyal supporter of the Kennedy family. It has been the honor of a lifetime to call Ted Kennedy my friend. His extraordinary life and legacy will never be forgotten. As we pay tribute to him tonight, my thoughts are with Vicki, Kara, Edward Jr, PATRICK, Curran, Caroline and the rest of the Kennedy family. He will never be forgotten.

Mr. HOLT. Mr. Speaker, what a remarkable life Edward M. Kennedy lived. When I first met Senator Kennedy in 1963, I mistakenly believed he was in office because of his family connections. As I watched and interacted with him over the subsequent decades of his great legislative career—matched by few if any—he demonstrated a strong work ethic. No one worked harder. He had a deep commitment to freedom, fairness, and justice, and his persistent defense of the 'little guy' was absolutely genuine. The result is a body of legislation that has brought equality, justice, and opportunity to millions. This towering figure was

an inspiration to so many of his colleagues, and he showed each of us—from the most senior to the most junior—the highest level of consideration.

My thoughts go out to his family, including his wife Vicki and his son PATRICK, who is a close friend of mine. Edward M. Kennedy will live on in the accomplishments he leaves. May all of those close to him know we are grateful for his service to the nation.

Ms. LEE of California. Mr. Speaker, today we gather to recognize the legacy of a man who will surely be remembered among the great legislators in our nation's history—"the Lion of the Senate"—Senator Ted Kennedy.

Senator Kennedy was a champion for peace and justice throughout his entire career, and our nation is undoubtedly a better place thanks to his leadership over the years—in particular on the issues of education, health care, and civil rights.

I vividly remember the first time I met Ted Kennedy.

I was interning in Washington, DC in the summer of 1974, at a time when there were very few African American interns on Capitol Hill. My friend, the late Ron Brown, was working for Senator Kennedy at that time, so I called him and requested a meeting with my fellow African American interns.

Senator Kennedy immediately granted our request—we met with him a few hours later and knew immediately that we were truly in the presence of greatness.

More recently, I attended several election events with Senator Kennedy during the primary election.

I had the pleasure of attending the American University rally for Senator Obama where Senator Kennedy first announced his support and delivered one of the best speeches of the entire campaign.

A few weeks later, I attended an amazing rally at the Beebe Memorial Cathedral in Oakland where I was honored to introduce Senator Kennedy before he delivered another amazing speech.

The line to get in the door seemed to stretch for miles as supporters waited with anticipation to see this great statesman and warrior for peace and justice.

Over the course of his career in public office, Senator Kennedy underscored the meaning of the phrase "to whom much is given much is required."

His legislative legacy is unrivaled, and affects the lives of tens of millions of Americans every single day—especially the less fortunate among us.

But despite his countless achievements, there is one unfinished piece of business that was dear to his heart that we must continue to fight for: achieving universal health care in America, and doing so in a way that truly reforms our broken health care system.

In a letter written to President Obama shortly after learning of the terminal nature of his illness, Senator Kennedy described our nation's current health care crisis as a "moral issue"—which concerns "not just the details of policy, but the fundamental principles of social justice and the character of our country."

Senator Kennedy knew, as we know, that healthcare is a fundamental human right.

Let us work to pass real health care reform, not just in remembrance of the cause that was

this great man's life work, but because we see this issue as he saw it—as a test of our society's integrity.

Last week I had the honor, alongside my colleague, the Honorable KENDRICK MEEK, of presenting the late Senator Kennedy with the Mickey Leland Award at the Congressional Black Caucus Foundation's Annual Legislative Conference Awards Dinner.

The award, received by his son, the Honorable PATRICK KENNEDY, was bestowed upon him in recognition of his lifetime's work in providing opportunities for society's less fortunate.

From civil rights, to education, and finally to health care, the late Senator Kennedy is destined to be remembered as a true champion of equality and opportunity.

Our charge now is to keep this noble legacy alive by renewing our efforts to ensure that health care reform—his great, unfinished cause—provides each and every American with the universal and affordable coverage that was his vision.

I look forward to working with you in the weeks to come to do everything we can to make sure that happens.

#### THE RULE OF LAW

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Texas (Mr. CARTER) is recognized for 60 minutes as the designee of the minority leader.

Mr. CARTER. Mr. Speaker, to my hall mate, Mr. KENNEDY, that was a moving tribute and well deserved. I am glad we could yield the time.

The subject of this hour that we have been talking about now for, I believe, about 14 or 15 weeks is we are talking about the rule of law and how the rule of law must prevail. It is the glue that holds our society together. And when we start to ignore rules or ignore others' laws, then we are ignoring what our Founding Fathers intended to rule us.

When we established this Nation, the people who established it came from a monarchy. Yet they felt that a much greater society would be a society which would pledge itself to the rules, not to the authority. So they didn't want a king. They didn't want some powerful dictator. They wanted the rules to prevail in the Nation. And that's one of the secret parts of the society that was created that nobody can see, that over time has developed the most important and most powerful Nation on the face of the Earth that has ever existed.

We cannot ignore that rule of law today. We cannot let personalities or concepts or attitudes change the fact that there are rules that you follow, and you must follow those rules. And there are laws, both civil and criminal laws, that have to be upheld. We as a society have created those laws. They have governed us in some instances since the beginning of the Republic. And to waive or to ignore those laws, we do it at our peril.

So tonight we're going to talk about some legislation that addresses the issue of ignoring or not following certain laws or bending laws.

We are going to start off with my good friend ROSCOE BARTLETT. I'm going to yield to him, and he's going to talk to us about a bill that he has, H.R. 2743, the Car Dealer Equity Act, in which he talks about the fact that he feels some laws, some contract laws, were either bent or ignored.

I yield to my colleague.

Mr. BARTLETT. I thank the gentleman for yielding.

Before talking about this very interesting subject, I would like to spend just a few moments talking about why I think the rule of law is so important.

We are one person out of 22 in the world, and we have a fourth of all of the good things in the world. And I ask myself how come we are so darned fortunate that this one person out of 22 has a fourth of all the good things in the world?

I look around for people who are working, bending their back, and sweating. And I will tell you I don't see very many white faces, and I don't see an awful lot of black faces. I see Hispanics. So it's not hard work that's accountable for the fact that we're so lucky.

And then I look at education and technical education. We live in a technical world today. But most of our bright young people are going into careers of political science and law. This year the Chinese will graduate seven times as many engineers as we graduate, and about half of our engineers are Chinese and Indian students. So it's not our commitment to technical areas that makes us so fortunate.

Just what is it that is so different about this country that we are so fortunate, this one person in 22 that has a fourth of all the good things in the world?

Mr. Speaker, I think that it's our commitment to the rule of law and particularly our commitment to those laws that protect our civil liberties.

You see, there is no Constitution in the world, there is no bill of rights in the world that comes even close to ours in having so many civil liberties that are so protected. And I think this established an environment, a milieu in which creativity and entrepreneurship could flourish. And I think we put at risk who we are, and I think we put at risk this enormous privilege that we have, this one person out of 22 who has a fourth of all the good things in the world, if we in any way violate these very sacred rights which are given to us by God, which our Constitution, our government, is supposed to protect.

So I am very concerned about the rule of law because I will tell you if in one place you can rationalize that it's okay to violate the Constitution, what next? I think that our civil liberties

could come tumbling down and I think with them our privileged status in the world today.

Now, the thing you asked me to talk about, and that is this bill, H.R. 2743.

Several months ago I was mystified by something that was happening in our country. We were shutting down auto dealerships. I thought at first, well, these are owned by the auto manufacturers and they're reducing their overhead, so this will benefit them. But then I learned not a single auto dealership in this country is owned by the manufacturers. Every auto dealership is an independent dealership hiring people, paying taxes, selling cars. And I looked at what they were doing. You know, in almost everything we do in life there are winners and losers, positives and negatives. And in this case I could see only losers. And I thought I must be missing something.

So we held a press conference out in Frederick, I think one of the first ones in the country. We had some of our biggest dealers there. Dar Cars was there, and Tammy Darvis is up in the gallery, and I want to thank her for coming. Jack Fitzgerald was there, one of the biggest auto dealers in the area. And I asked them the question, What am I missing? I seem to see that everybody in this is a loser. Why in the heck would we do something where everybody loses?

Clearly, the dealers that were put out of business lost, and clearly all the people that worked for them lost, and clearly all those secondary jobs that were created by those people were lost. And I couldn't understand how the auto dealers could benefit when there were fewer people selling their cars. It just made sense to me that the more people who are out there competing to sell your cars, the more cars you're going to sell and the better off you are.

And I asked these dealers, What am I missing? I've got to be missing something because Americans don't do really stupid things. And this appeared to me to be a really stupid thing where everybody lost. I couldn't see anybody who was winning in this.

So I came back to the Congress and I asked my colleagues, Who is the winner here? And from both sides of the aisle, and now this bill I think has 275 cosponsors, but from both sides of the aisle they said, We don't see any winners either. We really need to do something about this. We think that some fundamental laws were violated in this.

□ 2115

We think that this needs to be fixed. There is a Web site you can go to. It is YouTube, [www.YouTube.com/rejecteddealers](http://www.YouTube.com/rejecteddealers). And you're going to find more than 11,000 dealers that have logged on to that to tell you their story. Some very, very sad stories are told by these dealers. Enormous losses.

So I am very privileged to come here this evening to talk about this because

I think that in the violation of some of these very simple, obvious, common-sense laws, that a great many people in our country have been hurt.

And I want to thank you for committing this hour to talk about the rule of law, because I think the rule of law is so important. And I hope that Americans will collectively call their Representatives, "I know you probably signed on to that bill, but now make it happen. Bring it to the floor. Vote on it." You know, petition the Senate so they vote on it.

So let's get this fixed. It's really bad. It's really wrong.

Thank you for letting me have a few moments to talk about it.

Mr. CARTER. Reclaiming my time, I thank you, ROSCOE. You have hit on something that when that all happened to me, I just wondered what happened to the law of contract. Where did it go? When did our executive branch think it had the authority to just negate contracts in order for people to, through some threats that were made to settle a bankruptcy, to lose dealerships that—I talked to people in my district. It was not only did you lose your dealership, but your work product got handed to the people you'd been competing with. Just kind of free gratis. You get the win, and I get nothing. And of course, hopefully this will be resolved in the courts or something. I don't know what's going to happen.

But ROSCOE is on the right road. We can do something about it here because if you can't contract, you don't have freedom, and especially freedom of commerce. If you can't make an honest contract with somebody and depend upon that and have it be enforceable in the courts of our country—because the rule of contract is sacred. If you don't have that, which we'd had for the history of our Nation, then the rules of commerce come tumbling down.

And we keep hearing people say, Do we want to be a banana republic? And nothing against our poor banana republic neighbors, but that's what happens when you don't have the rule of law. You can't make a deal that can be enforced and people become—go more and more to the dark side in their trading habits. And this is one of the issues that when we've got the world economy we've got to deal with.

We've got multiple subject matters, and we are going to start with one that's all over the front page. ROSCOE is going to fix the auto dealers, and I am on that bill and proud to be there.

We've got a bill by Leader BOEHNER and DARRELL ISSA, Defunding ACORN Act, and my friend, LYNN WESTMORELAND from Georgia, is here to join me, and my friend Mr. KING from Iowa is here to join me. And we've got a bunch of things to talk about here today.

Let's talk about ACORN.

I think those videos that the American public have now seen were a

shocking wake-up when they had already heard about all of the ACORN violations. We'd already heard about this, and it didn't seem to be bothering anybody that there were all kinds of election law frauds, convictions, and so forth across the country. But then we saw advice being given to two people pretending to be into criminal activity, and you saw people that seemed to be encouraging child prostitution calling it a business, how to do your taxes, just like they weren't talking about criminal activity. And I think that shocked America into realizing that all of this was real, and that cheating on elections and cheating on voter registration and so forth was just as criminal and just led to further, more criminal activities. And now, all of a sudden, the folks at ACORN are all over the front page.

So I will yield to my friend, Mr. WESTMORELAND from Georgia, to let him make a few comments on this. And you've got a sign there. What have you got, LYNN?

Mr. WESTMORELAND. Thank you for yielding.

I did want to bring the substance. We were talking about the rule of law.

Speaker PELOSI, after the 2006 election, made a comment. She said, This leadership team will create the most honest, most open, and most ethical Congress in history.

To my friend from Texas, we know we've been here many times talking about the Rangel rule where Chairman RANGEL was found to not have paid his taxes and then had his accountant figure out what he felt like he did owe and sent it in without penalties and interest and other things.

Then we had Secretary Geithner who did not pay his self-employment taxes and some other taxes on more than one occasion. And this is something that the American people are wanting to know where this most honest, most ethical Congress, most open Congress is at.

I just wanted to kind of bring that up to remind the people that we are not special in this body right here. We need to be operating under the rule of law and be under the same consequences that every American is under.

Let's talk about ACORN and what the bill is that Leader BOEHNER and Ranking Member ISSA have introduced.

We might want to remember that last week the House voted about 345-79 for an amendment to bar the Federal funding of ACORN, but we need to go further than that. We need to pass a stand-alone bill. And that's what this H.R. 3571 does, the Defund ACORN Act.

No Federal contract, grant, cooperative, or agreement or any other form of agreement may be awarded to or entered into with ACORN. No Federal funds may be given to ACORN. No Federal employee may promote ACORN, including some ACORN State chapters,

organizations with financial stakes in ACORN, and organizations that shared directors or employees with ACORN.

And Judge, my friend from Texas, I am glad to announce the great Governor of the great State of Georgia has canceled the contract that the State had with ACORN.

So people are starting to understand that when you have an organization that not only these videos exposed, but even the Committee on Oversight and Government Reform found ACORN had committed a list of offenses: voter fraud, tax evasion, obstruction of justice, aiding and abetting embezzlement, investment fraud, use of taxpayer funding for partisan political activity, Department of Labor violations.

You know, ACORN should not be allowed to get off with just an internal audit. They need to be looked at much deeper than that. An internal audit for ACORN is the same as asking Secretary Geithner to investigate Chairman RANGEL. So we need to go further with that.

ACORN has received hundreds of millions of dollars. We should be more responsible to the people of this country, the hardworking people of this country that pay their taxes that we would want to give it away to organizations such as this.

Right now, I'll be glad to yield to our friend from—I'll yield back the time to you, Judge, and then you can yield. But thank you for giving me this time.

Mr. CARTER. I'll yield time to my friend from Iowa (Mr. KING). And I guess we'll talk about ACORN and then we'll shift gears to something else.

Mr. KING of Iowa. I thank the gentleman from Texas and the general from Georgia for their leadership on these issues. And once a week, at least, we see the judge from Texas down here laying out the conscience of the Congress. And this ACORN issue is something that has burned within me for several years.

I looked back through some of the RECORDS, and I introduced an amendment to unfund ACORN in 2007. Back then, we couldn't get any traction. And as much as has been filled out on the case of ACORN, as much as we learned about ACORN during the last Presidential election—and I think it was very useful because that was a time that America started to pay attention, Mr. Speaker. And we remember that ACORN announced that they had filed 1.3 million new voter registrations during the Presidential election cycle in 2008. And now they're advertising that people should send them a check and help fund their operation to go down there and demonstrate against Sheriff Judge Arpaio, the tent city, pink underwear Sheriff Arpaio. I think that that is a persecution that's going on. But they're trying to raise money to do that.

And the mailing that they have—and it's an Internet document. They still

claim that they registered 1.3 million new voters. Well, the numbers are closer to 450,000 legitimate voter registrations. And ACORN has admitted to over 400,000 false or fraudulent voter registrations. Now, one is too many for me. And we've seen the hue and cry of somebody who was in 2000 driving to vote in Florida, and perhaps they were going to vote for Al Gore, and a mile and a half away they went through a checkpoint to see if they were sober and had a driver's license, and they claimed that to be voter intimidation.

If one person lost their nerve and didn't want to go through the police checkpoint because they were drunk or didn't have a license, that was a voter intimidation on the part of the folks that were on Al Gore's side back in the year 2000.

ACORN can produce over 400,000 false or fraudulent voter registrations, and America can't get up in arms until we see child prostitution promoted in five ACORN offices across this city, in Baltimore, Washington, D.C., in Brooklyn, in San Bernardino, and in San Diego, California, and more to come.

And now they're under a lawsuit. ACORN decides they're going to go out and punish people that have brought out the truth if they can and use the court to intimidate.

Now, when ACORN makes a statement that, well, we only produced over 400,000 false or fraudulent voter registration forms, never fear, it was all in the exercise of trying to get somebody's good vote in there, but no bad votes came out of that, no fraud came from that. Oh, really.

They're being investigated. You say 12 States, then 14 States. Today it came out 20 States.

Today the trial of ACORN started in the State of Nevada. ACORN, as an entity, has been indicted by the prosecution in Nevada, and they have their chief organizer in Nevada is testifying against ACORN saying, Here's our pamphlet, our policy. We were paying commissions and paying a bounty for voter registrations. And, additionally, it came out in the news that in Troy, New York, they have dozens of fraudulent votes that were cast on absentee ballot that were promoted by ACORN.

Now, if there's anything that chisels away and cuts off the underpinnings of our Constitution it is fraudulent election process. And when the American people lose their faith that we have a legitimate process, the result of that will be, then, nothing holds together. You can't expect the President, the United States Senate, the United States House, or any system of government to be consented to by the people if the people don't believe they've consented in a national, legitimate ballot. That is the Banana Republic measure. And there is no entity in America that has been more active or aggressive in the history of this country and under-

mining the underpinnings of our Constitution than ACORN, a criminal enterprise and an entity in and of itself in many other enterprises than the fraudulent votes.

But I think at that component of this, I would yield back to the gentleman from Texas. I have a little bit more to say about ACORN hopefully a little bit later.

Mr. CARTER. We've got a lot of things to talk about, but ACORN is now all over the front page. The trial started in Nevada, and quite frankly, I see a very aggressive prosecutor that was talking on television today, and it's going to be an interesting case. We should all watch it very closely because wrongdoing is being put before the American public, and it's going to be interesting to see how that comes out.

I want to shift gears now because our friend Dr. RON PAUL has introduced a bill which has been talked about now for years, and I think now the American public is starting to say we'd kind of like to know something about this.

We have had, as we talked about before, more money spent since last summer supposedly saving the economy than just about has been spent in the history of the Republic, certainly before 1930. It clearly surpasses what we spent then. It is in the trillions of dollars now.

The Federal Reserve, this mysterious thing that I would bet there is not one American in a hundred who can tell you even close to what the Federal Reserve system even does, where they come from, who sets them up. There is just very limited knowledge. Unless you get to graduate school, you don't even get taught it in universities as to what the Federal Reserve does. And yet the Federal Reserve, as Congressman PAUL points out, is in charge of administering and keeping track of these billions and now trillions of dollars of money that we are going to have to pay back and our children, our grandchildren have to pay back.

□ 2130

What Congressman PAUL, RON PAUL, wants basically is that he would like to see an audit of the Federal Reserve so that we can know just what these guys do. And so I want to throw that out for discussion here, and I recognize my friend from Georgia.

Mr. WESTMORELAND. Well, thank you for yielding the time, and I don't know if we're going to get back to ACORN.

Mr. CARTER. We will.

Mr. WESTMORELAND. Then I will save this for later. Let me just say that the Federal Reserve, think about this for a minute. Under the TARP program, the Federal Reserve got \$700 billion. We gave them \$787 billion in the Obama stimulus package. As you mentioned, that's over \$1 trillion. Judge, a

lot of people don't realize how much \$1 trillion is. If you took \$1 trillion and converted it into seconds, 1 million seconds is 11 days, 1 billion seconds is 32 years, 1 trillion seconds is 32,000 years, 32,000 years is 1 trillion seconds. And so we've given them over \$1 trillion, and they don't want to be audited. I think that this is something that I hope that Chairman FRANK, I'm assuming this is going through Financial Services on a hearing that they're going to have Friday, 290 cosponsors, that is enough to pass a piece of legislation here under suspension.

So I certainly hope that the Speaker and the Democratic leadership will once again kind of honor her statement here: "We will create the most honest, most open and most ethical Congress in history" by letting us have a vote on auditing the Federal Reserve.

The American public deserves the same independent audit accountability from the Fed that they expect from their local bank. The Feds are going out and auditing our local banks every day, Judge, putting a lot of them out of business, putting them on notice that they need to change the way that they're doing business. If they're going to go out and audit our local banks, we certainly need to audit them to make sure that they're doing things by the rule of law and in a commonsense way and in the way that the American people expect them to do with their hard-earned taxpayer dollars.

With that, I yield back to the gentleman.

Mr. CARTER. I will yield now to my friend from Iowa (Mr. KING.)

Mr. KING of Iowa. I thank the gentleman from Texas.

I was thinking about the description of what is big money and what is \$1 trillion and how do you put that into a concept now. Some of us from the part of the country I come from, we think in terms of corn. So to put that into perspective, the State of Iowa, the lead State in corn production, is going to have a good crop this year. It's going to have the best average yields that we have ever had, probably a few less bushels than we have produced though in the past, and we are going to raise about \$10 billion worth of corn, maybe a little less than that, but about \$10 billion.

Now all the corn that Iowa raises, just the value of that \$10 billion, if we do that for 10 years, that's \$100 billion. We do that for an entire century, that's \$1,000 billion, \$1 trillion. So 100 years of all the corn we can raise in Iowa is \$1 trillion. A full century of all the corn that we can raise in what it's worth today, or what it was worth when I figured this, the markets have gone down a little bit, that is \$1 trillion.

Now to take care of Obama's deficit created by his budget this year, that is \$9.7 trillion. You can just think, 970 years of all the corn that Iowa could

raise committed just to taking care of the deficit created by his budget would be just about right. And if you want to look at the deficit that exists today, and you add that to Obama's budget, that's over \$20 trillion between the existing national debt and the debt created by President Obama's budget. So that would be all the corn that Iowa could raise at today's production in market values from the birth of Christ until today, and you would fall a little bit short. That's how much money the United States Government owes as a result of this profligate spending that is going on.

And the Federal Reserve component of this, I am very happy to see there are 290 cosponsors of RON PAUL's bill, H.R. 1207. I am among them, and I'm confident that my colleagues on the floor are as well. There is a hearing coming up on Friday to dig into this. That is a step along the way. From my standpoint, I would be very happy to sign a discharge petition. I don't think that things move very quickly through this Congress. When you have the most ethical Congress in history, I don't know how that could be defined that way, but there's a lot that doesn't happen around here. There's a lot of deliberation that doesn't take place around here, a lot of debate that doesn't take place.

The rules are written in the Rules Committee up there in that tiny little old room that doesn't leave room even for our staff to come in. We have to go up there and genuflect before the Chair of the Rules Committee and ask if we can bring an amendment down here to debate it on the floor of the House. They will say "yes" if they think it embarrasses Republicans. That's the only way they will say "yes."

The deliberate destruction of the greatest debating body in the history of the world here in the United States Congress has taken place because of the rules that have been ripped asunder by the Speaker of the House after 221 years. And the gentleman from Georgia has a sign: "This leadership team will create the most honest, most open and most ethical Congress in history, NANCY PELOSI, November 16, 2006." I don't know how you say that in Georgia, say what? This is the least deliberative body it has ever been.

An open rules process that we had for 221 years that allowed every Members of Congress to force a debate and a vote on a subject matter of their choice within the appropriations process has been utterly suspended since 2007.

The American people deserve better. We deserve, yes, a hearing on H.R. 1207, on the Federal Reserve. But we deserve also to have open debate and force votes so Members have to go on record, because the wisdom of America is processed through 435 congressional districts. And we all have our networks out there. If that debate is stifled here,

if amendments are shut off by order of the Speaker, then the wisdom of America is shut off by order of the Speaker.

This country cannot reach the next level of its destiny if it denies the wisdom of its people, and that is the wisdom of its people as processed through this Congress is how it was envisioned by the Founding Fathers. I yield back to gentleman from Texas.

Mr. CARTER. To finish up this particular subject, let me just point out that I think most people know that the Fed has, as one of its things it does, it uses interest rates to micromanage our economy. It prints money. And the more money that it puts out there, the less value our dollar has. It has an affect on every part of our lives.

Now if you have never contracted with the Federal Government, back in the 1970s, I did a lot of work for people who built section 8 housing projects. And let me tell you, because you're dealing with large numbers, this is what you would hear, you had to be looked at and rel looked at and rel looked at, which is the right thing, to make sure nobody is doing something wrong. When you're dealing with \$8 million or \$10 million, the government wants to look closely at how that money is being spent, are the subcontractors being paid, and so forth. Now, why do they do that? Because they know the nature of certain people is such that there can be wrongdoing.

We are talking about trillions of dollars. And we ought to at least know a little bit that an audit would tell us about what's going on at the Fed. So that's RON PAUL's bill.

I'm going to go to another bill. It's not really a bill, but just a comment. We've been talking about the Rangel rule. I've got a new one today. We are going to talk about Mr. Geithner again because he is back in the news because he says he has got this bank, UBS, over in Switzerland, to open their secret vaults and let him know what's over there. And he is being very magnanimous to the people he thinks have been hiding funds overseas. He is telling them that, I know you. I've made a successful raid. I know who you are. Now if you step up and pay your taxes, we're only going to give a maximum of a 20 percent penalty for your failing to pay taxes.

Wait a minute. What about the Geithner gesture here? When he talks to these people, he owed \$17,230, no penalty. He owed another \$25,960, no penalty. He used bad child credits. He filed additional taxes with interested infrastructure, he had a faulty retirement plan, an improper small business deduction, and he was expensing utility costs that went for personal use. All these things he was doing to no penalty. We call this the fox watching the hen house; he says they've cheated the government. And maybe they have.

Where I come from, if they cheated the government and there's penalties

to be assessed, fine. Everybody ought to get the penalty. When I've been late on paying my taxes, and I have, I filed not on April 15 before, I filed on August 15 before, I filed on October 15 before. I paid my penalties, and I paid my interest because that's what you're supposed to do. I think it is curious that this is the subject of Mr. Geithner's conversation when he has not. He, the boss of the IRS, has not been assessed any penalties.

So I throw that out for quick discussion. I think it's interesting. The Geithner rule ought to be zero penalties on taxes paid back on unreported income until Mr. Geithner pays his.

Mr. WESTMORELAND. So if the gentleman would yield for just a second.

Mr. CARTER. I do.

Mr. WESTMORELAND. Are we going to introduce a new legislation called the Geithner rule?

Mr. CARTER. We're working on it.

Mr. WESTMORELAND. We've got the Rangel rule, and I wonder how many people have, when they returned their money to the IRS and said, I'm claiming the Rangel rule, the Geithner rule is one that definitely people should be concerned about.

Today in my office I had two of my dear friends, I had Coach Mike Pickett who came in and coached me in high school and another guy that I went to school with, Mike Sorrow that Coach Pickett coached, and they came in to talk to me just about some of the issues that we were facing up here.

One of the things that Coach Pickett said was he said, I'm mad as heck. He said, they're cutting my Social Security, and they've got a plan to cut \$500 billion out of the Medicare, he said, and we've got people in Congress that is not even paying their taxes. And of course he was talking about Chairman RANGEL. We didn't bring up Secretary Geithner, but I'm sure that would have made him double mad. That would have made his blood pressure even worse to think that the Secretary of the Treasury has got this kind of tax concerns.

I go back to this, what Speaker PELOSI said, you got to remember that the U.S. Senate approved this gentleman, confirmed him to be a member of the Cabinet.

This is the thing, Judge, that the American people are tired of. And I had one lady tell me the other day at a town hall meeting, she said, I'm sick and tired of being sick and tired. And I think the American people as a whole are sick and tired of being sick and tired of seeing how people in politics, in elected office feel that they're better than the average hardworking American person out there that is paying his taxes.

Now, I've had penalties assessed on me before. I think that probably most Americans have had penalties and interest assessed to them for some reason

or another. This is unbelievable. In fact, we should be above even the least bit of doubt of what we're doing. He should have paid the penalties anyway. If he had been late, he should have paid the penalties and the interest.

Many people may not know this, that when they hear this name on TV, they don't understand that he is the Secretary of the Treasury. He is somebody that is over IRS. And with these findings and the fact that he has not been able to have to pay some of the penalties and the interests that most Americans would have to pay if they were delinquent on their taxes, and especially using your child's time at an overnight camp in three different years, surely he was made aware of that in 2001, but he did it again in 2004 and again in 2005. Surely somebody from the IRS must have told him in that 4-year period that that was not a legal deduction or either he didn't file his taxes.

□ 2145

So, Judge, I appreciate you bringing this back up, and I look forward to being a cosponsor, as I was with the Rangel rule, on the Geithner rule.

Mr. CARTER. Do you wish to be heard on this, Mr. KING?

Mr. KING of Iowa. I thank the gentleman from Texas.

I would submit this idea, I would rather call it the Geithner corollary than the Rangel rule because it gets deeper, and when you think about how much deeper it gets, it doesn't quite show on this poster. And I'm reaching back and dusting off my memory

But it strikes me that the employment that Tim Geithner was involved in reimbursed him for the taxes that he was going to have to pay from income tax liability, for the payroll tax, the Social Security, Medicare, and Medicaid taxes, for the several years that are listed there. The reports that I have read—I believe it will also include The Wall Street Journal report—that Tim Geithner was written a check by his employer to be reimbursed in advance for the tax liability he would incur and signed an agreement multiple years in a row that he understood that he had this tax liability.

So not only did he not pay the taxes until the pressure was on—and they waived the penalty which, apparently, they pre-applied the Rangel rule with Tim Geithner, but he had actually profited by not paying his taxes because he had been reimbursed by his employer in advance for the liabilities that you see on the poster that Judge CARTER has put up.

So this is a bridge too far from my standpoint. If you have a tax liability and your employer's writing you a check to pay those taxes, you cash the check, put it in your kids' retirement fund—I'm going to presume that's what happened. That's any equity that we

don't spend when we die goes into our kids' retirement fund. And so you profit from this and avoid the taxes; that's a double operation there.

So I will label that Geithner corollary to the Rangel rule, and that would be if you're nominated for a high position of, let me say, confirmation position before the United States Senate, and you find yourself, you have a tax problem, if you are able to settle this issue out of court and do so without interest or penalty—he owed \$17,230 in taxes but they waived the penalty, so apparently he paid the interest, not the penalty, from that language. I want to make sure that is clear.

If you get that all done, and if America's patience and appetite will believe the idea that Tim Geithner is so smart that we can't get along without him regardless of whether he could remember to pay his taxes and regardless of whether it was an ethical decision or not, if we remember America's appetite for that was completely satiated by the time Tom Daschle was appointed and his tax problem emerged, then America said, Enough, I can't tolerate anymore of these appointments by the President that will be confirmed by the Senate that have people that have been avoiding taxes.

So now we have the lead tax writer in the United States Congress, Chairman RANGEL, that has stimulated a bill that's been introduced by Congressman CARTER, the Rangel rule, precedent that if any taxpayer admits their mistake and pays their back taxes, no penalty or interest should be assessed, especially if you're up for an appointed position to be confirmed by the United States Senate, especially if America can be convinced that your skills are so valuable that out of 306 million people there isn't a single soul that can match up to the job that you might do, regardless of the problem you might have of being paid in advance to pay your taxes, cashing the check, putting into the equity account for your kids' inheritance, and then along comes the old "uh-oh" from Georgia, that is, the "I guess I better pay my taxes" Geithner corollary.

Mr. CARTER. Reclaiming my time, it's kind of interesting that, back to our other subject, talking about holding the Federal Reserve accountable, one of the suggestions was that the Secretary of Treasury Tim Geithner be able to review the books of the Fed. Probably the smartest thing the Fed said was, No, I don't think that's a good idea, and maybe there's something to that. That may be the smartest thing the Fed has done in a long time.

We have got another issue that's been an issue for many of us, and GREG WALDEN and JOHN CULBERSON and BRIAN BAIRD have introduced a bill, House Res. 554, and they're asking that each bill have 72 hours before you take

action. And this is not hard for us. We know what they're talking about because we have seen in this Congress bill after bill after bill spending billions and billions and billions of dollars that we get in the middle of the night to vote on the next day. And all they're saying is, let's do what, when Thomas Jefferson wrote the rules of this body, still follows. He said they need 3 days before voting. That's in Thomas Jefferson's rules, which he wrote for this House, and they're basically the same rules we follow now, with some changes that have been made.

All they're asking to do is let's do what Jefferson said we ought to do in this House, and what they did in this House for a century, well, let's do it.

I yield to Mr. WESTMORELAND.

Mr. WESTMORELAND. Well, I thank you and my congratulations go to Mr. BAIRD and to the Chair, Mr. MINNICK, for pushing this, along with GREG WALDEN, the gentleman from Oregon, and the gentleman from Texas (Mr. CULBERSON).

In full disclosure, my friend from Texas and Iowa, in full disclosure, when the Republicans were in charge, we did the same thing. We rushed things through, and Mr. BAIRD, the gentleman from Washington, I think has had this 72-hour resolution in before when we were in charge, and so my hat's off to him for continuing to do this. I think he now has about 178 signatures. Mr. WALDEN who has a discharge petition has got signatures. We need 218.

So if anyone were watching this, if anyone were watching this and if we could speak to them from this floor, I would say make sure your Congressperson has signed this, because I think this is very important that not only the people voting on this have 72 hours to look at it but the people that it's going to affect.

I think sometimes we lose sight in this body that when we pass a law, it doesn't just affect the Members in this Chamber. It affects all 300 million people in this country, and so we need to make sure that the people that are going to be affected by the legislation that we're passing has an opportunity to read it.

Is everybody going to read it? I doubt it very seriously. Are all the Members of this body going to read it? I doubt it very seriously, but at least they can be held accountable and we can be held accountable for our votes, and people saying, Well, you had 3 days to read it, don't tell me it was something you would rush through. They've got 3 days to read it, and so I commend the gentleman from Texas (Mr. CULBERSON).

I commend Mr. WALDEN for trying to do the discharge petition, and I think we have about five people from the minority party that has signed that discharge petition, and I want to commend them because that's a courageous

act on their part because, as we know from being in the majority at one time, leadership does not like you signing those discharge petitions.

But this is something that needs to be brought to the floor. This is something that I think the American people are entitled to have some accountability for from their Members of Congress, and so this goes back to that I'm sick and tired of being sick and tired.

And so we need to do this, and again, I hope that this is something that we can get the discharge petition through or, if not, that Speaker PELOSI would just bring this bill to the floor and let us vote on it.

Mr. CARTER. I yield to my friend from Iowa.

Mr. KING of Iowa. I thank the gentleman from Texas.

If this is going to be the most open and ethical Congress in history, this Congress has got to have an opportunity to read the bills. This leadership team will create the most honest, most open and most ethical Congress in history: NANCY PELOSI, November 16, 2006.

I will say this: Yes, there were bills that were hustled through this Chamber when Republicans were in the majority, but I have never seen anything quite as egregious as the cap-and-trade bill that came through this House of Representatives. That bill was presented to the floor of the House, scheduled for debate the following day, and at 3:09 a.m., a 316-page amendment—

Mr. WESTMORELAND. A.m., a.m.

Mr. KING of Iowa. Did I say a.m.?

Mr. WESTMORELAND. No, you said p.m.

Mr. KING of Iowa. I'm sorry, I meant to say 3:09 a.m. I appreciate that correction. I must have had some kind of chronological dyslexia in order to come up with such a thing.

However, 3:09 a.m., 316-page amendment, and I can say with great confidence that no one read the bill. I don't have to ask anybody in this Chamber if they read the bill. I know no one read the bill. I was here on the floor engaging in the debate when Congressman GOHMERT from Texas asked a parliamentary inquiry and he said, Madam Speaker, is there a copy of the enrolled bill in the Well? The answer was kind of, maybe, sort of. And we looked at the kind of, maybe, sort of stack of paper that was there, and there was a basic bill of around 1,100 pages, but the kind of, maybe, sort of didn't include the 316-page amendment.

And so after a few more inquiries, they pointed to another stack of paperwork, and Congressman GOHMERT went down to look at that paperwork, and he came back and said, Madam Speaker, parliamentary inquiry, that is not even the amendment. It was a different stack of paper.

And so after 35 minutes of turning this thing around, the most significant question was again asked by LOUIE

GOHMERT of Texas, and there was a lot of dialogue going on. JOE BARTON of Texas was engaged in this thing; I give him that. And anyway LOUIE GOHMERT asked the question, after about 35 minutes of suspension of the debate on the cap-and-trade bill, he said, Madam Speaker, parliamentary inquiry: If the House of Representatives passes a bill that doesn't exist, is it possible to message a bill that doesn't exist to the United States Senate?

Well, today we know it must be possible because we passed cap-and-trade, a bill that didn't exist, and it got messaged to the Senate, and I think it probably began to exist sometime after it was messaged to the Senate. It was an appalling thing that the American people would have to watch, and Thomas Jefferson has to be rolling over two or three times. He spoke about a lot of things, 72 hours, 3 days to read the bill.

I also put out a great big pat on the back for Congressman BRIAN BAIRD for leading on this, as well as GREG WALDEN and JOHN CULBERSON, and I have signed the discharge petition and the bill, and I'm looking for the rest of the signatures on the discharge petition so it can come to this floor. That is a piece of bipartisanship that this Congress can pass that will leave a legacy for a long time to come.

And if we're so afraid of the legislation that might get passed that we can't give anybody an opportunity to read it and we wonder why people go to TEA parties in America, that's why. They're really uneasy about what they've seen: \$700 billion in TARP; eight large private-sector corporations nationalized; along with then a \$787 billion stimulus package rushed through Congress—it had to happen right now—and sat on the President's desk for 5 days before he signed it, and still most of it is not spent.

And with that, they watched cap-and-trade move through here in a hurry-up, rush job, when not one soul in this Congress or across this country read the bill before it passed. And then they see a hurry-up rush for a national health care act that takes away our freedom.

No wonder we have TEA parties. No wonder the American people come out. It's just a wonder that they could be so peaceful, and we've ended up with almost no, let me say, almost no violence of any kind in all the TEA parties that we had. Respectful people that exercised their right to freedom of speech and assembly and a right for redress of their grievances, and they did so in the traditional fashion envisioned by Thomas Jefferson himself.

So many generations have taken place since Thomas Jefferson, but his wisdom remains, and I certainly support H. Res. 554. Encourage everyone, including the Speaker, to sign that discharge petition. Let's get that thing out here on the floor, do the right thing for Democrats and Republicans.

Mr. CARTER. Reclaiming my time, the previous discussion that took a little over an hour before we came to the floor commending Senator Kennedy and his legacy, it seems to me that when we're talking about civility, which is one of the things they talk about, if we can get back to civility, I think the 72-hour rule would have something to do with that.

Very quickly, I want to go to one more thing and then I want to come back and talk about ACORN.

We're the czar champions of the world. We have got more czars than the Romanovs had in the entire history of their dynasty, and our friend STEVE SCALISE, who was going to be here tonight but he got tied up and couldn't come, he's got a bill to sunset these czars.

□ 2200

A czar is someone who heads a task force, a council, is appointed by the President without the consent of the Senate, is excepted from the competitive service and does not have an existing removal date. Appropriated funds can't be used to pay for salaries and expenses of task forces or councils established by the President and headed by a czar.

This is what he's trying to do. He's trying to put a sunset on the czar policy, because it seems to an awful lot of people in this country, the term "czar" means absolute power, and they've created these positions of absolute power without any oversight.

I will start with my friend from Georgia.

Mr. WESTMORELAND. I thank my friend from Texas for yielding.

A czar is something that I've been getting a lot of questions about lately. Everywhere I've been in Georgia's Third Congressional District, I'm starting to get questions about the czars. People are wondering who these 34 or 35 czars are. We have already had one exposed to the extent that he eventually resigned.

People are starting to understand more and more that these czars are being appointed by the President with no confirmation by the Senate. And they're beginning to say, hey, how is this happening? What's going on here? How long are they going to serve? Do they work directly for the President? Who are they accountable to? What if they have some type of job that's under Mrs. Napolitano or under Geithner, or whatever? Who do they report to? What's the deal? They would report directly to the President.

And so we need, really, sunshine on all the appointments, but especially, as the gentleman from Louisiana said, H.R. 3569, at least a sunset on all these czars. This is something that the American people are very inquisitive about.

I think that because of the number of these czars and because of some of the

really Communist views and really ultra left-wing views that some of these czars have that are being exposed is just bringing more and more attention to it. And I think the American people want some accountability. I'll go back to the statement, they're sick and tired of being sick and tired of more government being stacked on.

We've got 10 percent unemployment nationwide. We've got some areas with 15, 16, 17, 20 percent unemployment. The only jobs that are growing right now are in the Federal Government. That's the only thing that's growing.

With that, Judge, I hope that anybody who could be watching might encourage their Representative to look at H.R. 3569.

Mr. CARTER. We're just about to run out of time. We had a surprise guest come from the back of the room. Would you like to tell us about the czars? Did we stimulate you?

Mr. THOMPSON of Pennsylvania. You sure did, Judge. I want to thank you for bringing this up. It's just not who these folks are that we don't know; it's what they step on. I look at this as sort of the fourth or the stealth branch of government.

I came here, I know all my colleagues here, certainly the freshmen, we came knowing that we have a serious responsibility to fulfill on the different committees of jurisdiction that we're appointed to. I bring up just one example, the car czar, and what has happened to the auto industry in this country.

As I could tell, I expected when we had these issues, that we have a committee, I believe it's called Energy and Commerce, that would have dealt with the issues surrounding that industry. And yet everything that has happened in the car industry, of firing an executive from a private organization, to taking over ownership of General Motors, to dictating winners and losers in terms of the auto dealerships, all directed under the leadership of a czar.

Frankly, I know that that's the responsibility of Congress. We have a responsibility to approach that carefully and judiciously and make those types of decisions. The Constitution provided us that authority and that responsibility, and the czars are just stepping all over the Constitution.

Mr. CARTER. Reclaiming my time, thank you. We feel real good when we can call a colleague out of the dark. We're glad you're here. We are just about to wrap up our time.

Before we stop, I'm doing something different today. We've been talking about an awful lot. This is probably the most we've talked about in a single hour. As soon as this is over with, as soon as I walk across the street to my office, if you go to [www.house.gov/carter](http://www.house.gov/carter), we're going to have a live Webcast for the next hour-and-a-half where you can ask questions and make comments about what we've talked about here, or

anything else that's bothering you or that you're concerned about, I want to have it, so that you can tell Congress what you think. I've already started doing this. I enjoy it. I've already got 300 questions waiting right now. I'm going to advertise a little bit and welcome people to come to this Webcast.

Mr. Speaker, how much time have I got left?

The SPEAKER pro tempore. One minute.

Mr. CARTER. Thank you, everybody, for participating. It's most important you remember the subject of this conversation, and that is the rule of law that holds this society together. Never forget. We're all talking about rules and laws and how they seem to be stretched and violated. We've got to get back to the rule of law governing this Nation.

I yield back the balance of my time.

#### ISRAEL

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Illinois (Mr. SHOCK) is recognized for half the remaining time until midnight.

Mr. SCHOCK. Thank you, Mr. Speaker.

We come together tonight to talk about a very important issue and a very important relationship that we enjoy with our only true democratic ally in the Middle East, the State of Israel.

We've seen in the last week this issue come to light with the instability in that region, with the new facility that was just discovered and made public on Friday by the United States, Great Britain and her allies. This just reinforces in the minds of many of us in Congress the importance of us remaining steadfast in making sure that the State of Iran, that country, does not receive a nuclear weapon and that we do all that we can to support our ally, the State of Israel, and peace in that region.

I was fortunate to be a part of a delegation that traveled to Israel. In fact, there were 25 Members who traveled the first week of August to Israel on a fact-finding trip; 25 Republicans, which was the largest delegation of Republicans ever to visit the State of Israel at once. The Republican delegation was led by our whip, ERIC CANTOR. The following week the Democrats were led by Majority Leader STENY HOYER, and my understanding was there were over 30 Democrat Members who went on that trip, which is the largest number of Democratic Members to travel to Israel all at one time.

If you do the math, that's over 50 Members, which is well over 10 percent of the Congress traveling to that region within a 2-week period and I think underscores the importance that this Congress believes that relationship is

and the need for us to press for peace and the need for us to support our allies.

I want to take some time to reflect on my views of what I learned on that trip and some reflections of what I learned on that trip. Also here tonight, I have one of my good friends and allies who has joined me to share his experiences as well.

I would like to take this time to yield to my good friend, Mr. THOMPSON.

Mr. THOMPSON of Pennsylvania. I thank my good friend from Illinois for yielding and thank him for coordinating this time tonight when we truly do talk about our most important ally, a friend that we have and a good democratic friend in a very dangerous part of the world in the Jewish State of Israel.

It was a privilege to be able to visit the country of Israel and to go with other colleagues, to go there with an open mind and to be able to sit down and to visit and talk face to face with the President of Israel, with the Prime Minister of Israel, to meet with the military, to go into the West Bank and sit down with the Prime Minister of the Palestinian Authority and to look at the defense issues that Israel lives with each day and has since the beginning of that democratic nation; to visit all the borders on all sides of Israel and to look out into, whether it was Jordan or Syria or Lebanon, places where, at one time or different times during their short history where missiles rained from and mortars came down on men, women and children in that State of Israel. It's a country that is very familiar and lives every day where defense is on their mind, and a strong defense.

□ 2210

In particular, it was striking to me when we were in the southern part of Israel, and we were overlooking the Gaza Strip. All the borders are being relatively peaceful right now, but at the Gaza Strip and just outside of this small farming community of Sderot where we looked and the leaders of Israel chose, in a goodwill, good-faith offer of peace, gave up what I thought looked like a pretty good piece of real estate that sat along the Mediterranean Sea, and that was the Gaza Strip.

They moved the citizens of Israel out of there, and relocated them into other parts of Israel in the hopes of obtaining a lasting peace and long peace with the Palestinians; and in exchange, what they received is about 3,000 missiles and mortars that came raining down on them.

I think the most striking conversation I had—and I know my good friend was there—was with a young mom of a 9-year-old, and she had grown up in that farming community. Her grandparents lived there. Her parents lived there. She lived her entire life there,

and she lived through that time when those missiles rained. She talked about how—and we saw as we were driving in to Sderot bus stations that looked a little unusual but that was because they were designed also as bomb shelters. We saw the playground, which had a great piece of equipment sitting in it. My kids are grown now, but my boys would have loved it. It looked like a giant caterpillar and kind of weaved around. But to look closer, it actually was a bomb shelter for children that they would run to whenever a missile was launched and would soon be landing.

Now from the time the siren sounds in Israel, they have about 20 seconds until that missile lands and explodes. That young mom I think put it so striking for me. Her words I hear over and over again in my mind. Imagine yourself, you are a parent, and you are driving down the road. That siren sounds, and you've got 20 seconds to get to safety. You've got two children. They're both strapped in car seats in the back seat. Which one do you pick?

I think we take for granted our safety and security in this country. We certainly have had our attacks here. We've been relatively safe since 2001 because of the measures that were taken by President Bush and by the Congress at that point, and we have not experienced another attack on our soil in those 8 years. But we certainly have issues that I look forward to talking about further tonight in terms of future threats to not just our country but to the country of Israel. And I thank my good friend for yielding.

Mr. SCHOCK. Well, thank you for your insights, and obviously I share those observations and would like to take the opportunity to share some of my own. First, let me say that I thought the trip to Israel reinforced what I had already known and that was that the Israeli citizens want peace. I saw this message on the faces of young soldiers. I've heard a passionate thoughtful cry for peace in Prime Minister Netanyahu's words, and I even prayed for peace with Israelis as they ended their prayers on Shabbat.

Furthermore, I found that like every nation in this world, Israel is a nation of contrasts. Specifically, it is a land hemmed by unambiguous borders, yet filled with lines that have been blurred beyond recognition. New and old, the archeological and the militarily strategic, the political and the religious were all indistinguishably bundled together until each lost its own identity and had become part of the same interwoven fabric.

Each day's itinerary was packed with life-changing events; the oppressive heat that hit me every time I stepped off the bus also seemed to also challenge all of my preconceived ideas about Israel. And while I found our agenda to be filled with the study of

distorted lines, there were always those stark borders which clearly separated Israel from her neighbors and delineated fact from fiction.

I found this truth as we toured the Western Wall. As I watched old rabbis press their heads against the blocks of Herod's Temple, I found no ambiguous lines. I was clearly standing at the foundation of modern Israel. Conversely, I did not hear Israel's genesis in the echo of my footsteps through the solemn corridors of Yad Vashem. True, I heard an irrefutable argument against the unforgettable atrocities that happened when the world's Jewry does not have a land to call its own. While important, Yad Vashem's lesson does not speak to Israel's birthright. Plainly, Israel does not exist because of the Holocaust.

Unfortunately, I believe President Obama crossed this unmistakable border in his Cairo speech, linking the history of Israel not to the Western Wall or Masada but to the actions of a mad man. President Obama implied that Israel was thrown together to ease the guilt of a post-World War II Europe. I find this absurd. One can easily trace the tenacity of Masada straight through 2,000 years of history to the weary resolution on the faces of David Rubinger's famous photo "Paratroopers at the Western Wall."

Israel does not date to the instability caused by Adolf Hitler, but to the stability engendered by Abraham. Additionally, the President spoke of mutual respect but failed to show the Israelis the same respect he displayed to Palestinians. He spoke of the daily humiliations endured by Palestinians, but did not mention the daily fears endured by the residents of Sderot as they go about their lives tethered to bomb shelters.

The President also crossed the border between fact and fiction when he put settlement construction on a pedestal as the principal bargaining chip for peace, thereby providing cover for Palestinian leaders to harden their opposition to all construction in the settlements. This misstep was completely unnecessary. It is well known that Israel has no intention of building new settlements. However, the nation also has no intention of stopping normal life in the settlements; and, unfortunately, the President inadvertently called for the latter.

Admittedly, this is a difficult topic for us to understand, and it was only on my trip that I realized the line between Israeli parents and grown children is much more blurred than it is here in the United States. I love my mother dearly, yet I do not wish to have her live right next door to me. However, many Israelis want exactly that. They want to walk to their father's house for Shabbat and employ their mother as a readily available and reliable baby sitter.

Settlements need what is referred to as natural growth, but this term is a misnomer. The settlements have no intention of growing the geographic size of their settlements. Instead, they want a natural filling in of the existing land. They want their son to be able to build a house on the vacant lot next to their home. To deprive settlers of this ability is to deprive them of living the Israeli lifestyle. I wish President Obama had toured the Alfei Menashe settlement with us so he could have learned this lesson himself. The President also needs to learn that the world cannot preach from on high to Israel.

When the President tours U.S. cities, he does not encounter bus stops that double as bomb shelters. When he sees groups of crowded students around the White House, he does not see assault rifles slung over the chaperone's shoulders. He does not live in fear. And due to these facts, the President does not have the capability to lecture Israel on what she must do to keep peace or to make her citizens safe.

Finally, I turn my attention to the largest topic facing Israel, the Iranian threat. Using more than 7,000 centrifuges, Tehran has amassed enough uranium to produce a nuclear device. At their current pace, Iran would be able to produce two more atomic weapons each year, provided they find ways to further enrich this fuel. Never before—not India, not Pakistan, not even North Korea—has a group of criminals so defiant of international law had such destructive capability; and as the people of Iran have become more vocal in their pleas for responsible leadership, the ayatollahs have become more erratic and unpredictable.

As such, we must quickly and decisively act to end this danger. Without a doubt, the United States has failed to do enough to stop Iran from becoming a proud owner of the bomb. It is true, Congress has taken a multitude of votes on this issue. However, the majority of these were simply press releases disguised as legislation. To right this wrong, I have added my name in support of multiple bills this year to strengthen sanctions against Iran.

By no means are these pieces of legislation sufficient. The United States must use every unilateral and multilateral tool it has at its disposal to cut off Iran economically, diplomatically, and politically until this shadow of a state abandons its diabolical goals.

□ 2220

These actions can only help Iran make the decisions sooner. Iran must see it can stand with peace, prosperity, and the international community, or it can continue to live in squalor and obscurity, relegated to the trash heap of the international community with the other juntas, regimes, and cabals.

When I think about the threat of Iran, I am reminded of the saying that

those who do not study history are destined to repeat it. I'm reminded of my tour of Yad Vashem. I recall an eerily similar declaration to annihilate Jews. I remember a leader who perverted a religion to justify his actions. And I am reminded of the famous British Parliamentarian Edmund Burke, who once said, "The only thing necessary for the triumph of evil is for good men to do nothing," which is exactly what too many Christian leaders did in that day: Nothing.

This eerie similarity exists today, not with a leader who quotes the Bible but with one who quotes the Koran. His comments echo those of Hitler's; his stated goal is the same.

So what is necessary for peace? I would contend that there will be no peace until leaders around the world regardless of faiths denounce such comments, until leaders within the Muslim community reject this rhetoric, and until leaders of the Islamic states shun such hate speak within their borders. Whether someone builds a second garage or a second home within a defined community is not what stands between war and peace. A community of citizens who pervert a religion to justify hate and murder are what stand in the way of peace. This is precisely what we should all fear. It was radical Islamic terrorists who attacked the United States on September the 11th, who blew up subways in the UK. This ideology is the true barrier to peace.

I am reminded of a note that was left by the terrorists in Spain during the Madrid bombings. They said, "We will win and you will lose. Because you love life, and we seek death."

Therein lies the real problem with Iran. Unlike the threat of mutual destruction during the Cold War with Russia and the U.S., both knowing that if one attacked, the other would retaliate, we are now dealing with a regime that is not a socialist state like Russia but a religious state, whose leader espouses no fear of death but rather a clearly defined goal to destroy the state of Israel. This threat must be at the center of our President's and Congress's attention for the sake of Israel's security but also for the sake of our own.

Settlements, the West Bank, and a President who seems more interested in giving dictation rather than providing assistance—when spoken aloud, these problems seem rather insurmountable. I believe they are not. There is a path to peace which is as clear as the border formed by the security barrier. We only need to have the courage to take the first step on this path by ensuring Israel has our undeniable support.

Fortunately, we are not alone. The vast majority of Americans support Israel. We recognize that Israel stands as a lone beachhead of democracy in the Middle East. We know that we take

our security for granted and do not judge those who are not afforded this luxury. In short, regardless of the muted lines within Israel, we know where the stark borders between our supporters and detractors are in the Middle East.

During our meeting with Shimon Peres, he said, "Israel and her neighbors seem to be able to live in peace. We just have a problem writing it down."

Focusing on the real threats to peace and democracy around the world, requiring leadership on the part of the Arab states to root out terrorists within their borders, and continuing to support and stand by our ally in the region, as, Mr. Netanyahu definitively stated, "With God's help, we will know no more war. We will know peace."

With that I yield to my good friend from the State of Louisiana, Dr. FLEMING, for his impressions of his trip to Israel and the state of the region there in the Middle East.

Mr. FLEMING. I thank my friend and the gentleman from Illinois (Mr. SCHOCK).

The three of us here this evening spent really an awesome time in Israel during August. But I want to take you back in time, Mr. Speaker, in history 71 years to today. Literally 71 years to today, and what we see in the newsreels. And that was that Lord Chamberlain waved a stack of papers in front of the camera and he uttered, We have peace in our time. And what was he talking about? He had just come from a meeting with Herr Adolph Hitler, and along with France and a few other nations, but not Czechoslovakia, they had come to an agreement to cede to Hitler the Sudetenland, which at that time was the strategic part of Czechoslovakia that was so necessary for their protection. He ceded that. Of course, Hitler claimed that it was mostly populated with Germans, but, nonetheless, Lord Chamberlain and others agreed to let him have it. And we know that today as a policy of appeasement.

He also said that he actually went there for the purpose of honor and peace. And then Winston Churchill, who was in the Parliament, replied that he went there for honor and peace but he returned with neither. Because we know that within months, Hitler began a very aggressive campaign and went on to, of course, not only take Czechoslovakia but also Poland. And, of course, as we say, the rest is history.

And what is that history? The history is that there were 20 million people killed during World War II, Mr. Speaker; 6 million of them were Jews. And in visiting the Holocaust Museum in Israel, in Jerusalem, Yad Vashem, something very interesting, I think, occurred in my mind that I never thought about until it was brought out.

We saw a lot of very interesting things there. A lot of personal stories

about families who were broken apart, most of whom died in the Holocaust, people who were in death camps, a lot of personal letters and books and eyeglasses and things like that that told individual stories. We know the factual parts of this. We have all seen the documentaries that talked about the gas chambers and the ovens. And we, of course, have heard about and read about the Final Solution and Hitler's attempt to take executing human beings to a whole new scientific level, which he was able to achieve. Nothing before and nothing since has been done.

But the important thing, Mr. Speaker, about this that we must understand that really teaches us a second lesson today: The first one being the danger of appeasement, but the second is that while the Jews were being carted off to the death camps, and, of course, many of them attempted to reach safe harbor in the United States and many other countries and were denied that and, in fact, in many cases were thrown out of other countries, there was no one to speak up for the Jews. No one, not even the United States. Even we have the blight of having turned our backs on the Jews. And there was no state, there was no country to speak up for the Jews, who at that time lived in many places of the world. And because of that, after World War II and all the countries began to come together, it was decided that the Jews would have their own homeland.

□ 2230

And of course we know that the U.N. provided for that, and what was then called Palestine today is called Israel. Israel is a state, and that's so important because now Jews have a country to stick up for them. They have a people who will never back down from an evil dictator like Adolf Hitler. They will stand up for their people, and they will stand up as our ally against these things.

But the interesting thing is it's often said that what we don't learn from history is destined to repeat itself. And what we have today is a Hitler-like figure, Mr. Speaker, of course, Ahmadinejad, who is saying many of the same things that Adolf Hitler said in those days, giving the same threats.

Very few people took Hitler seriously when he said that he intended to kill the Jews, and that is what he did. Now we have Ahmadinejad who is making the same statements, and we watch before our very eyes he's building a nuclear arsenal.

And what are we doing, Mr. Speaker? Well, we are talking about sanctions. And how effective are these sanctions going to be when it's necessary to have Russia and China to help us with that? And of course, all we are getting from them is rhetoric. In fact, the only thing structurally that's been done in all of this discussion is we've given up

missile defense in the Czech Republic and in Poland. So we are already beginning the appeasement process in this world while we have another Hitler-like figure out there beginning to plan the destruction of the Jews once again.

So I think we need to stand, Mr. Speaker, with our brothers and sisters in Israel, in their protection. Because in as much as Israel is so capable of taking care of itself—we all know just what a small strip of land that is—and while Israel can protect itself in many ways, there is no way that Israel can protect itself from an intercontinental ballistic missile with a nuclear warhead, and that is precisely what Iran is doing today.

And apart from that, Iran is exporting terrorism around the world. We know that Hamas and Hezbollah; we know that al Qaeda—who is providing al Qaeda, Mr. Speaker, with the weapons they are using to kill our own sons and daughters? Again, it's Iran. So Iran is emerging as, I guess—Ahmadinejad and certainly the mullahs behind him, are really, I think, showing a tremendous parallel to pre-World War II Germany.

And I think that we need to learn from the lessons of the past, and that is that number one, we should never allow a policy of appeasement. It never gets peace and it never gives honor. It always leads to war. It's always a matter of people overseas, folks who really are out for the destruction of others, it gives them an opening to attack other countries.

And then secondly, never again should Israel be without its own country and certainly without its friends around the world. Never again should we have a situation, Mr. Speaker, as we did during World War II that was a holocaust which, of course, we know that Ahmadinejad denies to this day.

And there are many that say, look, this is just a little strip of land out there in the middle of the desert. You've got Arabs out there and you've got Jews and they're fighting over this land. Really, if you think about it, the Jews occupied this land as far back as 3500 B.C. Islam didn't even come into existence until thousands of years later, and in fact, we know that Christianity started even before Islam.

So of course there have been three major religions that have existed there and still exist there today, and as far as I'm concerned, they can exist there forever. But I think that there's no reason to think that there isn't a legitimate right for Israel to claim that as its own state.

And in summary—and this is, I think, to kind of tie it all together, Mr. Speaker—we talked about the issue of the two-state solution, and Mr. Netanyahu believes that is the way to go. We should have two states: a Palestinian state and a Jewish state. But remember that Israel is a democracy, and

just simply by being outgrown by Palestinians or Muslims, it could lose its status as a Jewish state. And I think that it's essential that we not only support this two-state solution in supporting Israel, but that we support the right for Israel to exist as a Jewish state and always will.

Mr. THOMPSON of Pennsylvania. Will the gentleman yield for a question? Actually, both of my colleagues.

When we were there, we had an opportunity to visit a number of the settlements, and I have been distressed that our President, President Obama, has been almost dictating that Israel give up part of its sovereign nation, these settlements. We were there. We walked them. We saw the strategic location of them.

I wanted to get your impressions of what your thoughts were. Should Israel give in to that direction and give up its sovereign land, those settlements that it has today?

Mr. FLEMING. If the gentleman will yield back, I will just simply say that my first impression beyond the fact that Israel is such a lovely country—I mean, just gorgeous, right in the middle of the desert next to the Mediterranean Sea. And of course we were able to see the Dead Sea and many sites that are holy to us as Christians. But just how small that country is, like a postage stamp, as narrow as 5 miles at its waist. And we saw a patchwork of villages, one being Palestinian and one being Jewish, all throughout the country.

And even though, often cases there were checkpoints and there were fences between them, you couldn't really see that. All you could see looking over is you would see evidence of a Palestinian village and you would see evidence of a Jewish village all sitting there peacefully. It's almost difficult to believe how much war and how much violence has existed there for so long.

And of course with that we visited Sderot, which is, I guess, a flash point where there have been rockets hurled and that sort of thing.

So I think that was really what I found to be very impressive.

Mr. THOMPSON of Pennsylvania. If the gentleman will yield.

Mr. FLEMING. Yes, sir.

Mr. THOMPSON of Pennsylvania. It struck me that many of those settlements are in strategic locations. They're high ground from which terrorists, the Palestinians, lobbed missiles and rockets onto the men, women, and children of Israel. And those were taken as a part of the war in 1948, and frankly, they're extremely important areas to hold on to.

I kind of think of the—as I think about our President, President Obama, dictating onto the Israeli nation that they should give up the space, it's a little bit like somebody coming to us and saying, okay, now you need to give

back New Mexico, California, and Nevada to the sovereign nation of Mexico. We wouldn't stand for that. I would certainly hope that the sovereign nation of Israel would not stand for that as well.

Mr. SCHOCK. Will the gentleman yield?

Mr. THOMPSON of Pennsylvania. Yes.

Mr. SCHOCK. Okay. To your point, I think what you're suggesting is, number one, should any of these properties be, quote, given back or surrendered, but, number two, should that really be the focus of our effort towards peace.

It seems to me a little disingenuous on the part of our administration to suggest that somehow what stands between the current situation and a path road to peace is the issue of settlements is really a misnomer.

The reality is the State of Israel has shown throughout their history that they are the ones who have bargained in good faith and time and time again shown a willingness to give up lands as they have and only to their own peril; as you mentioned, what you saw in Sderot with the bomb shelters and the people who have suffered as a result of them giving up the Gaza Strip.

But the issue of Israel willing to give up this settlement or that settlement or redraw the boundaries, you and I both heard from Netanyahu's own words that they're not wedded to any set boundary. But what we also heard was out of the lips of the Prime Minister of the Palestinian Authority, which was his unwillingness to accept Israel as a Jewish state.

□ 2240

Therein lies the real problem with the pathway to peace and a two-state solution: the Palestinians' unwillingness at this point to recognize Israel as a Jewish state. I would only also add that while we are talking about settlements, Iran continues to march towards acquiring a nuclear weapon. While I certainly respect this administration's plans to begin talks and to negotiate and to try and solve this diplomatically, I would remind the American people, and my colleagues here, that this is the same administration that we want to talk to that has lied to the international community and hidden from them a nuclear facility which the world was just made aware of last week.

So I would only question the sincerity and the ability for us to truly negotiate with trust with this regime who up until last weekend we were not even aware of an additional nuclear facility. So it's very alarming. I will tell you, I don't know what my distinguished colleagues here feel, but we have two bills that are still in this Chamber, H.R. 2194, which is the Iran Refined Petroleum Sanctions Act, and then the Iran Sanctions Enabling Act,

which was H.R. 1327. Both of those bills have a majority of Members of Congress supporting it. And it just seems to me a shame that this body has not acted on that legislation to put another tool in the chest of President Obama as he goes forward to negotiate with Iran, the fact that these sanctions are there if and when they become necessary to use.

And I would just yield back.

Mr. THOMPSON of Pennsylvania. I thank the gentleman. I certainly thank you for naming those pieces of legislation. They are extremely important. They do have the large support of this entire Chamber.

I would ask the Speaker support that bill and to bring that bill to the floor so that we can do the right thing by this most important ally that we have in the Middle East and would serve the needs. I think what you have talked about tonight really most recently addresses the most immediate threat in Israel and I think the most immediate threat to the United States, and that is the situation in Iran.

Mr. Speaker, Iran has recently revealed the development of a secret nuclear facility. And Iran's admission of the operations of a secret nuclear facility is a serious problem and a serious threat. While this new revelation is alarming, it's not unexpected. Iran has deceived the world time and time again. And any attempts to assure the world that their nuclear program is peaceful should be seen for what it is, and that is just another lie.

Now, Mr. Speaker, it's time to impose meaningful sanctions on the Iranian Government. We have legislation that has been drafted and introduced and has the support of the majority Members of this Chamber. We must not continue a foreign policy that extends a hand of cooperation to our enemies while they continue dangerous acts of deception. If the nuclear facility was designed for civilian purposes, we have to ask, why did Iran conceal its existence?

We must impose meaningful sanctions on the threat that endangers the safety of American citizens and America's allies. Now, the confirmation of this secret nuclear facility is troubling, especially to me at a time just days after the Obama administration announced plans to abandon the placement of a missile defense system in the Czech Republic and Poland and all because Russia was not happy with the idea. Only 1 year since Russia invaded Georgia and 70 years to the day since the Soviet Union invaded Poland, the administration has announced the dismantling of one of our most important missile defense systems at the expense of our allies.

Mr. Speaker, the abandonment of the European missile defense site, which could have protected the homeland of the United States against Iranian long-

range missiles, is unacceptable. As I was talking with one of the Chairs of our missile defense caucus in this body, he described to me that there are plans for a better system to be put in place.

However, that new missile defense program will not be operational until 2018 or 2020. And while we do have other missile defense shields in place that will remain, he described it like this: it's like trying to bring down an airplane with a baseball. He supposed it could be possible, but it's a one-in-a-million chance. When you think of intercontinental ballistic missiles that travel the speed of 10,000 miles per hour, to me it's unacceptable at this point in time in our history when we have threats that sometimes come from other countries, such as Iran, sometimes from terrorists that hold no national identity, and it's alarming to me that we are taking down this missile defense program.

Mr. FLEMING. Would the gentleman yield on that point?

Mr. THOMPSON of Pennsylvania. Please.

Mr. FLEMING. I appreciate the gentleman pointing out the fact that what we are doing in fact is removing a missile shield that is just before deployment, that would go into the Czech Republic, that would go into Poland. It would be, of course, subsurface. It would be something that would help defend much of that region of the country, including 80 American military bases; and, instead, we are going to exchange it for a whole different, a ship-based system which requires, first of all, a lot of development that is not yet in place.

As you point out, it is going to be another decade before it will even be capable. It would require ships being in exactly the right place at the right time. And it also begs the point: If Iran is developing nuclear material just for civilian purposes, why do they need all of this rocketry ability? They just ran a test, a three-rocket test, one of which had a range of 1,500 miles. Now why do you need that? I'm pretty sure Iran is not planning to go to the Moon. So for what purpose is that?

And what is also, I think, ironic is the fact that our President is talking about renewing the STAR treaty and taking our already reduced nuclear weapons down to an even lower level. If we do this with Russia at the same time as there are more countries than ever that have more nuclear weapons and more capability to deliver those weapons than ever, so again it goes back to the appeasement question: Does it make sense to unilaterally disarm yourself while your potential enemies, and I would say in this case with Iran, our enemy, because they are killing our men and women through their proxies and through their surrogates and their weapons. Why in the world would we be doing that when in

fact we have a growing threat from them?

And going back to Israel, it seems that wherever you see the U.S. military around the world, peace breaks out. You look at World War II, troops were in Japan, troops were in the Philippines, they were in France, they were in England and Germany. All those countries now are very peaceful democracies. And of course we went into Iraq, and Iraq is evolving into an oasis, if you will, of democracy, as is Israel.

So it seems to me that we need to stay on the same post-World War II course of certainly using Theodore Roosevelt's old philosophy, "speak softly but carry a big stick," rather than using a lot of rhetoric about all the things that we want to do and all the sanctions we want to take and yet disarm ourselves and our friends at the same time.

Certainly, one only has to ask around the world who is happy with this right now and who isn't. Well, it turns out our friends are unhappy with us and our enemies are happy with us all the way from Venezuela to Iran to Russia. They are all happy with everything we've been doing lately and the decisions our President has been making. We found out while we were in Israel that the President has a 4 percent, yes, 4 percent favorability rating. They are very unhappy with his position on Iran right now and also on the Palestinian question.

So I think that it's certainly nice to be liked overseas; but when you're liked by your enemies and also of course Poland and the Czech Republic are unhappy with us right now because we left them in the dust after agreeing to put a missile shield there and then pulling out after they've gone out on a limb for us, I think we are going, Mr. Speaker, in the wrong direction in the way we deal with our friends and our enemies in and around this question of Iran and the nuclear weapons that they have.

With that, I will yield back to my friends.

□ 2250

Mr. SCHOCK. Well, I agree, and it's why it's so important that we impress on this body the importance that we take up the legislation that we mentioned earlier dealing with sanctions, but also, we raise this issue in this body.

You know, we've been so focused on the issue of health care the last couple of months, and while this is an important issue that the President has made throughout the past year, the reality is we need to look no further than September 11 to know that, if this country is not safe, if your allies are not safe, and that if terrorism is allowed to breed around the world, that really nothing else matters, and that nothing can be more detrimental to our economy and our way of life than for terrorism to breed, to be successful and,

ultimately, be able to attack democracy, as we saw with our markets here after September 11, the great job loss, the great tumble that it took as a result of the attacks of September 11.

We need to remain vigilant in not only keeping our country safe but also supporting the allies around the world, and I think it's why my friends here tonight have spent some time talking about this important issue, which has been raised last week by the discovery of this facility, that the State of Iran has attempted to keep from the international community.

And one has to ask the question: why? If their intentions are what they say they are, if their intentions are pure and simple, if their intentions are non-nuclear or non-weapons grade, if their intentions are simply to provide energy to their people, certainly that is not something that requires the dark of night or secret. That is something that you would think one would be happy for full disclosure.

And our own estimates suggest that the centrifuges in that facility are not designed to produce energy-grade uranium but, rather, weapons-grade uranium. And so I think it adds to the doubt in many of our minds and the concern for our President to move rather quickly for, if not this facility, perhaps some others that we don't know about that are still out there.

So I thank the gentlemen for being here tonight and sharing their perspectives of our trip to Israel and also impressing on the public the importance of us taking up the issue of Iran and dealing very swiftly with sanctions and, if not sanctions, supporting Israel's efforts to stop a nuclear Iran.

Mr. FLEMING. I would just say I would like to thank Congressman SCHOCK for having this Special Order hour this evening so that we could talk about this important issue, and it's one that we're going to be talking about a lot more in the coming days because it's pretty apparent that all of these issues are beginning to line up. They're beginning to stack up very rapidly.

And of course, the issue that we know our friends and Israel are facing is that if we are unable to bring the Iranians to the negotiating table or to have sanctions that work, then they're still the last option left on the table, which they reserve the right as a sovereign Nation to do, and that is, potentially take out the nuclear facilities in Iran.

We pray that it doesn't come to that, but it has already of course in Syria and Iraq back in the Hussein days, and we are looking for peaceful solutions. But we have counterweight around the world in Russia and China that as soon as we try to do one thing they want to reverse it. Russia is a very significant trading partner with Iran. They're providing Iran with a state-of-the-art SAM missile system which is going to close

the window for the capability of Israel to potentially attack Iran's nuclear facilities if that needs to be done, which is all the more important why decisions are having to be made at an even faster pace.

So, once again, I thank Mr. SCHOCK for bringing us together for this hour.

Mr. SCHOCK. I thank Dr. Fleming for being here.

Mr. THOMPSON of Pennsylvania. I also want to thank my good friend from Illinois and my good friend from Louisiana for being here tonight on this important topic.

I mean, the Constitution, when we were sworn in which seems like a lifetime ago back in January, we placed our hand on the Bible, raised our hand, and we swore to uphold and defend that Constitution. And within that, one of the first responsibilities is for common defense. That's the first, and I think the most responsibility that we have as Members of Congress is our safety and security, and certainly, this issue is one that is all about safety and security.

Frankly, history shows, and we know, that a strong defense is a strong deterrent. We want peace. We pray for peace. I long for a day when the whole world is at peace, but we know that we need a strong defense in order to serve as a deterrent to achieve peace. And I'm hopeful that we will see the day that—and I believe it was the President of Israel, Shimon Peres, who said he longs for a day when rising out of the desert we see buildings and not missiles and that we know the economic impact and that we have peace that we can also cherish.

So I thank Mr. SCHOCK for coordinating this evening.

Mr. SCHOCK. I thank Mr. THOMPSON.

#### LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. ABERCROMBIE (at the request of Mr. HOYER) for today and until 5 p.m. September 30.

Mr. BACA (at the request of Mr. HOYER) for September 25 on account of legislative business.

#### SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. LIPINSKI) to revise and extend their remarks and include extraneous material:)

Ms. WOOLSEY, for 5 minutes, today.

Ms. KAPTUR, for 5 minutes, today.

Mr. LIPINSKI, for 5 minutes, today.

Mr. GRAYSON, for 5 minutes, today.

(The following Members (at the request of Mr. POE of Texas) to revise and extend their remarks and include extraneous material:)

Mr. POE of Texas, for 5 minutes, October 6.

Mr. JONES, for 5 minutes, October 6.

Mr. INGLIS for 5 minutes, today.

Mr. BISHOP of Utah, for 5 minutes, September 30.

Mr. DUNCAN, for 5 minutes, today.

(The following Members (at their own request) to revise and extend their remarks and include extraneous material:)

Mr. DELAHUNT, for 5 minutes, today.

Mr. SMITH of Texas, for 5 minutes, today.

#### ENROLLED BILLS SIGNED

Lorraine C. Miller, Clerk of the House, reported and found truly enrolled bills of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 3607. An act to amend the Internal Revenue Code of 1986 to extend the funding and expenditure authority of the Airport and Airway Trust Fund, to amend title 49, United States Code, to extend authorizations for the airport improvement program, and for other purposes.

H.R. 3614. An act to provide for an additional temporary extension of programs under the Small Business Act and the Small Business Investment Act of 1958, and for other purposes.

#### ADJOURNMENT

Mr. SCHOCK. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 10 o'clock and 57 minutes p.m.), the House adjourned until tomorrow, Wednesday, September 30, 2009, at 10 a.m.

#### EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of Rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

3838. A letter from the Acting Associate Administrator, Department of Agriculture, transmitting the Department's final rule — Country of Origin Labeling of Packed Honey [Doc. No.: AMS-FV-08-0075; FV-08-330] (RIN: 0581-AC89) received August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

3839. A letter from the Administrator, Department of Agriculture, transmitting the Department's final rule — Nectarines and Peaches Grown in California; Changes in Handling Requirements for Fresh Nectarines and Peaches [Doc. No.: AMS-FV-08-0108; FV09-916/917-1 FIR] received August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

3840. A letter from the Administrator, Department of Agriculture, transmitting the Department's final rule — Grapes Grown in a Designated Area of Southeastern California; Decreased Assessment Rate [Doc. No.: AMS-FV-08-0107; FV09-925-2 FIR] received August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

3841. A letter from the Administrator, Department of Agriculture, transmitting the

Department's final rule — Apricots Grown in Designated Counties in Washington; Decreased Assessment Rate [Doc. No.: AMS-FV-09-0038; FV09-922-1 IFR] received August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

3842. A letter from the Administrator, Department of Agriculture, transmitting the Department's final rule — Onions Grown in South Texas; Decreased Assessment Rate [Doc. No.: AMS-FV-09-0044; FV09-959-2 IFR] received August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

3843. A letter from the Administrator, Department of Agriculture, transmitting the Department's final rule — Irish Potatoes Grown in Colorado; Modification of the Handling Regulation for Area No. 2 [Doc. No.: AMS-FV-08-0094; FV09-948-1 FIR] received August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

3844. A letter from the Administrator, Department of Agriculture, transmitting the Department's final rule — Olives Grown in California; Increased Assessment Rate [Doc. No.: AMS-FV-08-0105; FV09-932-1 FIR] received August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

3845. A letter from the Administrator, Department of Agriculture, transmitting the Department's final rule — Grapes Grown in a Designated Area of Southeastern California and Imported Table Grapes; Relaxation of Handling Requirements [Doc. No.: AMS-FV-08-0106; FV09-925-1 FIR] received August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

3846. A letter from the Acting Administrator, Department of Agriculture, transmitting the Department's final rule — Cotton Board Rules and Regulations: Adjusting Supplemental Assessment on Imports (2009 Amendments) [Doc. #: AMS-CN-09-0015; CN-09-002] received August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

3847. A letter from the Acting Administrator, Department of Agriculture/Agricultural Marketing Service, transmitting the Department's final rule — User Fees for 2009 Crop Cotton Classification Services to Growers [Doc. #: AMS-CN-09-0011; CN-09-001] received August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

3848. A letter from the Assistant to the Board, Board of Governors of the Federal Reserve System, transmitting the System's final rule — Truth in Lending [Regulation Z; Docket No. R-1365] received August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Financial Services.

3849. A letter from the Chair, Congressional Oversight Panel, transmitting the Panel's monthly report pursuant to Section 125(b)(1) of the Emergency Economic Stabilization Act of 2008, Pub. L. 110-343; to the Committee on Financial Services.

3850. A letter from the Speaker, National Assembly of Kuwait, transmitting Congratulations to the United States on the Anniversary of its Founding; to the Committee on Foreign Affairs.

3851. A letter from the Secretary General, Organization for Security and Cooperation in Europe, Parliamentary Assembly, transmitting the Vilnius Declaration and Resolutions adopted on July 3, 2009 at the Eighteenth Annual Session of the Organization for Security and Co-operation in Europe Parliamentary Assembly, pursuant to Public Law 102-138,

section 169(e) (105 Stat. 679); to the Committee on Foreign Affairs.

3852. A letter from the Chairman, National Transportation Safety Board, transmitting the Board's Annual No FEAR Report to Congress for Fiscal Year 2008, pursuant to Public Law 107-174, section 203; to the Committee on Oversight and Government Reform.

3853. A letter from the Director, Office of Personnel Management, transmitting the Office's report entitled, "Federal Student Loan Repayment Program FY 2008", pursuant to 5 U.S.C. 5379(a)(1)(B) Public Law 106-398, section 1122; to the Committee on Oversight and Government Reform.

3854. A letter from the Staff Director, Commission on Civil Rights, transmitting notification that the Commission recently appointed members to the Virginia Advisory Committee; to the Committee on the Judiciary.

3855. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Amendment to Restricted Areas R-5103A, R-5103B, and R-5103C; McGregor, NM [Docket No.: FAA-2009-0770; Airspace Docket No. 09-ASW-20] (RIN: 2120-AA66) received September 18, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

3856. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Boeing Model 747 Airplanes [Docket No.: FAA-2009-0136; Directorate Identifier 2008-NM-171-AD; Amendment 39-16022; AD 2009-19-05] (RIN: 2120-AA64) received September 18, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

3857. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Airbus Model A300, A310, and A300-600 Series Airplanes [Docket No.: FAA-2009-0292; Directorate Identifier 2008-NM-011-AD; Amendment 39-16011; AD 2009-18-15] (RIN: 2120-AA64) received September 18, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

3858. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Saab AB, Saab Aerosystems Model SAAB 340A (SAAB/SF340A) and SAAB 340B Airplanes [Docket No.: FAA-2009-0447; Directorate Identifier 2008-NM-172-AD; Amendment 39-15993; AD 2009-17-02] (RIN: 2120-AA64) received August 21, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

3859. A letter from the Chief, Publications and Regulations, Internal Revenue Service, transmitting the Service's final rule — Section 7874: Treatment of Certain Stock of the Foreign Acquiring Corporation [Notice: 2009-78] received September 17, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

3860. A letter from the Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting the Service's final rule — Procedures for taxpayers to make an election to defer recognizing discharge of indebtedness income (Rev. Proc. 2009-37) received August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

3861. A letter from the Chief, Publications and Regulations, Internal Revenue Service, transmitting the Service's final rule — Work Opportunity Tax Credit [Notice 2009-69] re-

ceived August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

3862. A letter from the Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting the Service's final rule — Tier I Issue — Industry Director Directive on Section 936 Exit Strategies #3 received August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

3863. A letter from the Deputy Associate Commissioner, Office of Regulations, Social Security Administration, transmitting the Administration's final rule — Attorney Advisor Program Sunset Date Extension [Docket No.: SSA-2009-0023] (RIN: 0960-AH01) received August 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

3864. A letter from the Acting Deputy Assistant Administrator, U.S. Agency for International Development, transmitting the Agency's third fiscal year 2009 quarterly report on unobligated and unexpended appropriated funds, pursuant to Public Law 111-8, section 7002; jointly to the Committees on Appropriations and Foreign Affairs.

#### REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. RAHALL: Committee on Natural Resources. H.R. 685. A bill to require a study of the feasibility of establishing the United States Civil Rights Trail System, and for other purposes; with amendments (Rept. 111-267). Referred to the Committee of the Whole House on the State of the Union.

Mr. RAHALL: Committee on Natural Resources. H.R. 2442. A bill to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to expand the Bay Area Regional Water Recycling Program, and for other purposes (Rept. 111-268). Referred to the Committee of the Whole House on the State of the Union.

Mr. RAHALL: Committee on Natural Resources. H.R. 2950. A bill to direct the Secretary of the Interior to allow for prepayment of repayment contracts between the United States and the Uintah Water Conservancy District; with an amendment (Rept. 111-269). Referred to the Committee of the Whole House on the State of the Union.

Mr. RAHALL: Committee on Natural Resources. H.R. 905. A bill to expand the boundaries of the Thunder Bay National Marine Sanctuary and Underwater Preserve, and for other purposes; with an amendment (Rept. 111-270). Referred to the Committee of the Whole House on the State of the Union.

Mr. RAHALL: Committee on Natural Resources. H.R. 1771. A bill to reauthorize the Chesapeake Bay Office of the National Oceanic and Atmospheric Administration, and for other purposes; with an amendment (Rept. 111-271). Referred to the Committee of the Whole House on the State of the Union.

Mr. RAHALL: Committee on Natural Resources. H.R. 1053. A bill to require the Office of Management and Budget to prepare a crosscut budget for restoration activities in the Chesapeake Bay watershed, to require the Environmental Protection Agency to develop and implement an adaptive management plan, and for other purposes; with an amendment (Rept. 111-272 Pt. 1). Referred to the Committee of the Whole House on the State of the Union.

Mr. THOMPSON of Mississippi: Committee on Homeland Security. H.R. 1881. A bill to enhance the transportation security functions of the Department of Homeland Security by providing for an enhanced personnel system for employees of the Transportation Security Administration, and for other purposes (Rept. 111-273 Pt. 1). Referred to the Committee of the Whole House on the State of the Union.

Mr. TOWNS: Committee on Oversight and Government Reform. H.R. 1881. A bill to enhance the transportation security functions of the Department of Homeland Security by providing for an enhanced personnel system for employees of the Transportation Security Administration, and for other purposes (Rept. 111-273 Pt. 2). Referred to the Committee of the Whole House on the State of the Union.

Mr. TOWNS: Committee on Oversight and Government Reform. H.R. 2711. A bill to amend title 5, United States Code, to provide for the transportation of the dependents, remains, and effects of certain Federal employees who die while performing official duties or as a result of the performance of official duties; with an amendment (Rept. 111-274). Referred to the Committee of the Whole House on the State of the Union.

Mr. TOWNS: Committee on Oversight and Government Reform. H.R. 2092. A bill to amend the National Children's Island Act of 1995 to expand allowable uses for Kingman and Heritage Islands by the District of Columbia, and for other purposes; with an amendment (Rept. 111-275). Referred to the Committee of the Whole House on the State of the Union.

#### DISCHARGE OF COMMITTEE

Pursuant to clause 2 of rule XII the Committee on Transportation and Infrastructure discharged from further consideration. H.R. 1053 referred to the Committee of the Whole House on the State of the Union.

#### PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. WU:

H.R. 3659. A bill amend the Internal Revenue Code of 1986 to allow a credit against income tax for amounts paid for energy efficient property placed in service in commercial buildings pursuant to an approved energy efficiency plan; to the Committee on Ways and Means.

By Mr. WU (for himself and Mrs. BONO MACK):

H.R. 3660. A bill to amend the Internal Revenue Code of 1986 to promote tax parity between the residential and business fuel cell tax credits; to the Committee on Ways and Means.

By Mr. REHBERG:

H.R. 3661. A bill to amend title 38, United States Code, to provide for a monthly housing stipend under the Post-9/11 Educational Assistance Program for individuals pursuing programs of education offered through distance learning, and for other purposes; to the Committee on Veterans' Affairs.

By Mr. JOHNSON of Georgia (for himself, Mr. CONYERS, Ms. JACKSON-LEE of Texas, Mr. REYES, and Mr. WEXLER):

H.R. 3662. A bill to provide for the appointment of additional Federal circuit and dis-

trict judges, and for other purposes; to the Committee on the Judiciary.

By Mr. SPACE (for himself, Mr. TERRY, Mr. BERRY, Mrs. EMERSON, Mr. MORAN of Kansas, Mr. MELANCON, Mr. GONZALEZ, Mr. DOGGETT, and Mr. POMEROY):

H.R. 3663. A bill to amend title XVIII of the Social Security Act to delay the date on which the accreditation requirement under the Medicare Program applies to suppliers of durable medical equipment that are pharmacies; to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. SCHWARTZ:

H.R. 3664. A bill to direct the Secretary of Health and Human Services to establish a Healthcare Innovation Zone pilot program; to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. BALDWIN (for herself, Mrs. CAPPS, Ms. MATSUI, and Ms. MOORE of Wisconsin):

H.R. 3665. A bill to amend title XIX of the Social Security Act to provide for payment for Medicaid services furnished by Ryan White part C grantees under a cost-based prospective payment system; to the Committee on Energy and Commerce.

By Ms. BALDWIN (for herself and Mr. REICHERT):

H.R. 3666. A bill to amend the Internal Revenue Code of 1986 to extend and increase the exclusion for benefits provided to volunteer firefighters and emergency medical responders; to the Committee on Ways and Means.

By Mr. CRENSHAW:

H.R. 3667. A bill to designate the facility of the United States Postal Service located at 16555 Springs Street in White Springs, Florida, as the "Clyde L. Hillhouse Post Office Building"; to the Committee on Oversight and Government Reform.

By Ms. DEGETTE (for herself, Mr. CASTLE, Mr. KIRK, Mr. SPACE, Mr. COLE, Mr. KILDEE, and Mr. BECERRA):

H.R. 3668. A bill to amend the Public Health Service Act to reauthorize the special diabetes programs for Type I diabetes and Indians under that Act; to the Committee on Energy and Commerce.

By Mr. GUTIERREZ:

H.R. 3669. A bill to prohibit employers from carrying life insurance policies on their rank and file employees; to the Committee on Education and Labor.

By Mr. CARNAHAN (for himself, Mr. TURNER, Ms. SCHWARTZ, Ms. BERKLEY, Mr. CROWLEY, Mr. HINCHY, Mr. LANGEVIN, Mr. COHEN, Mr. VAN HOLLEN, Mr. SKELTON, Mr. BLUMENAUER, Mr. CAPUANO, Mr. DELAHUNT, Mr. CLAY, Mr. CLEAVER, Mr. BRALEY of Iowa, Mr. LOEBSACK, Mr. RYAN of Ohio, Mr. HOLT, Mr. BOUCHER, Mr. KENNEDY, Mr. GONZALEZ, Mr. GORDON of Tennessee, Mr. BOSWELL, and Mr. HIGGINS):

H.R. 3670. A bill to amend the Internal Revenue Code of 1986 to expand the incentives for the rehabilitation of older buildings, including owner-occupied residences; to the Committee on Ways and Means.

By Mr. KIND (for himself, Mr. BERRY, Mr. BRALEY of Iowa, Ms. MCCOLLUM,

Mr. BOSWELL, Mr. ELLISON, Mr. LOEBSACK, and Mr. WALZ):

H.R. 3671. A bill to promote Department of the Interior efforts to provide a scientific basis for the management of sediment and nutrient loss in the Upper Mississippi River Basin, and for other purposes; to the Committee on Natural Resources.

By Mrs. MCCARTHY of New York (for herself, Mr. COSTELLO, Mr. ANDREWS, Mr. KENNEDY, Ms. KAPTUR, and Ms. FUDGE):

H.R. 3672. A bill to provide for an increase of \$150 in Social Security benefits for one month in 2010 to compensate for the lack of a cost-of-living adjustment for that year, and to amend title II of the Social Security Act to eliminate the requirement that there be a Social Security cost-of-living adjustment for an adjustment in the contribution and benefit base to occur; to the Committee on Ways and Means.

By Ms. SCHWARTZ:

H.R. 3673. A bill to extend the temporary suspension of duty on certain liquid-filled glass bulbs; to the Committee on Ways and Means.

By Mr. WELCH (for himself, Mr. OBEY, Mr. WALZ, Mr. PERRIELLO, Mr. HOLDEN, Mr. BARTLETT, Mr. COURTNEY, Mr. ARCURI, Mr. MASSA, Mr. MICHAUD, Ms. SLAUGHTER, Mr. PLATTS, Mrs. DAHLKEMPER, Ms. SHEAPORTER, Mr. OLVER, and Mrs. KIRKPATRICK of Arizona):

H.R. 3674. A bill to impose tariff-rate quotas on certain casein and milk protein concentrates; to the Committee on Ways and Means.

By Mr. TIAHRT:

H. Con. Res. 192. Concurrent resolution expressing the sense of Congress that the Association of Community Organizations for Reform Now (ACORN) should lose its exemption from taxation under the Internal Revenue Code of 1986; to the Committee on Ways and Means.

By Mr. JOHNSON of Georgia (for himself, Ms. CLARKE, Mr. CONNOLLY of Virginia, Mr. DAVIS of Alabama, Ms. GIFFORDS, Mr. GRIFFITH, Mr. HALL of New York, Mr. HIMES, Ms. HIRONO, Ms. JACKSON-LEE of Texas, Mr. MINNICK, Ms. MOORE of Wisconsin, Mr. PAYNE, Mr. PIERLUISI, Ms. LORETTA SANCHEZ of California, Mr. SCOTT of Georgia, Mr. MEEK of Florida, Mr. SMITH of Texas, Mr. PERLMUTTER, Mr. DAVIS of Tennessee, Mr. MILLER of North Carolina, Mr. ANDREWS, Ms. WOOLSEY, Mr. BROUN of Georgia, Mr. HARE, Mr. MEEKS of New York, Ms. BERKLEY, Mr. ENGEL, Ms. WASSERMAN SCHULTZ, Ms. BORDALLO, Mr. AL GREEN of Texas, Mr. LEWIS of Georgia, Mr. DELAHUNT, and Mr. MCGOVERN):

H. Res. 782. A resolution demanding that the Government of Iran immediately disclose the existence of any additional nuclear-related facilities and provide unfettered access to its Qom enrichment facility; to the Committee on Foreign Affairs.

By Mr. MARIO DIAZ-BALART of Florida (for himself, Mr. MEEKS of New York, Mr. PIERLUISI, Mr. NUNES, Mr. LINCOLN DIAZ-BALART of Florida, Mr. PENCE, Mr. GENE GREEN of Texas, Mr. ROSKAM, Mr. SERRANO, Ms. ROSELEHTINEN, Mr. FILNER, Mr. BACA, Mr. DENT, Mr. MCCOTTER, Ms. HIRONO, Mr. JOHNSON of Georgia, Mr. GRIJALVA, Mr. LARSON of Connecticut, and Mr. BURTON of Indiana):

H. Res. 783. A resolution recognizing Hispanic Heritage Month and celebrating the vast contributions of Hispanic Americans to the strength and culture of the United States; to the Committee on Oversight and Government Reform.

By Mr. AL GREEN of Texas (for himself, Mr. CAO, Ms. LEE of California, Mr. GENE GREEN of Texas, Mr. CROWLEY, Mr. HONDA, Ms. CHU, Ms. HIRONO, Mr. DAVIS of Illinois, Ms. WATSON, Mr. ELLISON, Ms. BERKLEY, Mr. SCOTT of Virginia, Mr. HASTINGS of Florida, Ms. FUDGE, Ms. KILROY, Mr. JOHNSON of Georgia, Mr. BECERRA, Ms. EDDIE BERNICE JOHNSON of Texas, Mr. PAYNE, Mr. CUMMINGS, Mr. LEVIN, Mr. CLEAVER, Mr. PASCRELL, Mr. NADLER of New York, Ms. MCCOLLUM, Mr. BUTTERFIELD, Mr. CARSON of Indiana, Ms. CLARKE, Mr. ACKERMAN, Mr. TOWNS, Mr. LEWIS of Georgia, Mr. BISHOP of Georgia, Mr. SCOTT of Georgia, Mr. CLAY, Ms. WATERS, Mr. MEEKS of New York, Mr. MILLER of North Carolina, Mr. SABLON, Mr. SHERMAN, and Mr. FILLNER):

H. Res. 784. A resolution honoring the 2560th anniversary of the birth of Confucius and recognizing his invaluable contributions to philosophy and social and political thought; to the Committee on Foreign Affairs.

## MEMORIALS

Under clause 4 of Rule XXII, memorials were presented and referred as follows:

191. The SPEAKER presented a memorial of the Senate of the State of California, relative to Senate Joint Resolution No. 7 urging the President and the Congress of the United States to expand federally funded research efforts aimed at developing a reliable means of detecting pancreatic cancer in its early stages and more effective means of treatment through legislative measures; to the Committee on Energy and Commerce.

192. Also, a memorial of the Senate of the State of Michigan, relative to Senate Resolution No. 69 urging the Congress of the United States to enact legislation to waive for two years the requirement that Michigan match federal Highway funds; to the Committee on Transportation and Infrastructure.

193. Also, a memorial of the Senate of the State of Michigan, relative to Senate Resolution No. 70 urging the President and Congress to grant Michigan a two-year waiver from federal matching requirements for federal-aid bridge and highway projects; to the Committee on Transportation and Infrastructure.

## ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 39: Mr. OBEY.  
H.R. 161: Mr. POSEY.  
H.R. 211: Mr. BISHOP of New York and Mr. PASTOR of Arizona.  
H.R. 235: Ms. MARKEY of Colorado and Mr. GINGREY of Georgia.  
H.R. 330: Ms. RICHARDSON.  
H.R. 391: Mr. CALVERT.  
H.R. 471: Mr. COSTELLO.  
H.R. 555: Mr. WEINER.

H.R. 560: Mr. LINDER and Mr. LATHAM.  
H.R. 571: Mr. MASSA, Ms. EDWARDS of Maryland, Mr. HONDA, and Mr. ISRAEL.  
H.R. 621: Mr. FORBES, Ms. MOORE of Wisconsin, and Mr. CAMP.  
H.R. 624: Mr. HONDA and Mr. RADANOVICH.  
H.R. 653: Ms. SCHAKOWSKY.  
H.R. 658: Mr. GRAYSON.  
H.R. 669: Ms. HIRONO and Mr. PASCRELL.  
H.R. 676: Mr. RAHALL.  
H.R. 690: Mr. HALL of Texas, Ms. GRANGER, Mr. THOMPSON of Pennsylvania, Mr. THORNBERRY, Mr. BUYER, Mr. FOSTER, Mr. SOUDER, Mr. WHITFIELD, Mr. SMITH of Texas, and Mr. DICKS.  
H.R. 745: Mr. COSTELLO.  
H.R. 790: Mr. NEAL of Massachusetts.  
H.R. 1026: Mr. MCCLINTOCK.  
H.R. 1030: Mr. RANGEL, Mr. LATOURETTE, Mr. ELLISON, and Mr. MCGOVERN.  
H.R. 1065: Mr. FRANKS of Arizona and Mr. FLAKE.  
H.R. 1093: Mr. TIM MURPHY of Pennsylvania, Mr. SPRATT, and Mr. MURTHA.  
H.R. 1126: Mr. MANZULLO.  
H.R. 1179: Ms. MATSUI.  
H.R. 1203: Mr. COURTNEY and Mrs. BONO MACK.  
H.R. 1204: Mr. WESTMORELAND.  
H.R. 1205: Mr. MILLER of Florida.  
H.R. 1207: Mr. DOYLE.  
H.R. 1230: Mr. BRALEY of Iowa and Ms. SCHAKOWSKY.  
H.R. 1245: Mr. DAVIS of Tennessee, Mr. ROE of Tennessee, and Mr. REHBERG.  
H.R. 1255: Mr. LUETKEMEYER.  
H.R. 1283: Mr. REYES.  
H.R. 1319: Mr. RADANOVICH.  
H.R. 1324: Mr. DOGGETT, Mr. NEAL of Massachusetts, Mr. ENGEL, Mr. HIGGINS, Mr. HODES, and Mr. ABERCROMBIE.  
H.R. 1327: Mr. BOUSTANY, Mr. MCCAUL, Mr. HOYER, Mr. PENCE, Ms. CASTOR of Florida, and Mr. HARPER.  
H.R. 1395: Mr. LEWIS of California.  
H.R. 1402: Mr. TIBERI.  
H.R. 1410: Mr. PRICE of North Carolina.  
H.R. 1426: Mr. GOODLATTE.  
H.R. 1454: Mr. BAIRD.

#### PETITIONS, ETC.

Under clause 1 of Rule XXII,

70. The SPEAKER presented a petition of North Carolina State Council of the Junior Order United American Mechanics, relative to Resolution 8 urging the President and Congress to act in every possible manner to defend the freedoms that have been promised to us by the United States Constitution; which was referred to the Committee on Armed Services.

## EXTENSIONS OF REMARKS

A TRIBUTE TO DR. TERRY-JAN  
BLACKETT-BONNETT

**HON. EDOLPHUS TOWNS**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Dr. Terry-Jan Blackett-Bonnett, an active and dedicated medical professional in my district.

From her earliest childhood memories Dr. Terry-Jan Blackett-Bonnett entertained the burning desire of someday becoming a practicing physician. After earning her high school diploma, she enrolled in St. Francis College, where she earned a baccalaureate degree in biology. She subsequently enrolled in the American University of the Caribbean School of Medicine and completed the requisite coursework in the United Kingdom at Eastbourne District Hospital, graduating with a Doctor of Medicine degree. A portion of her graduate curriculum included tropical medicine, requiring that she spend time working in northeast Mexico, in the state of Tamaulipas. During that time, she became adept in the use of the Spanish language. Her postgraduate work included research in the area of Human Genetics at SUNY Downstate Medical School, where she was a contributing writer to medical literature addressing the issue of a Y to X gene Translocation in Mother and Daughter.

After attaining her life long ambition, Dr. Blackett-Bonnett completed her residency training in the disciplines of Internal Medicine and Pediatrics at the University of Medicine and Dentistry in Newark, New Jersey. Upon completion of residency, she joined the staff of Interfaith Medical Center as an attending physician. She later left Interfaith as a full time physician to pursue a full-time schedule as the Medical Director of the Berean Community and Family Life Center in Brooklyn, New York with which she was affiliated since 2002. Dr. Blackett-Bonnett is currently on the medical staff of Interfaith Medical Center and Kingsbrook Jewish Medical Center. She is also a professor at ASA Institute of Technology in Brooklyn, New York. She currently holds positions on the board of directors of early intervention programs in New York and also a contributing member on the advisory boards for several health insurance agencies.

In addition to her involvement in her church community, Dr. Blackett-Bonnett has been instrumental in organizing health fairs for churches and schools in the greater New York area. She has also been a co-laborer in medical missions to the African countries of Nigeria and South Africa, where she provided medical care and education to village residents. Dr. Blackett-Bonnett has been a member of Berean Baptist Church since 1994. She holds fast to the ideology that "as the body is clad in the cloth and flesh in the skin, and the

bones in the flesh and the heart in whole so are we, soul and body clad in the goodness of God and enclosed."

She is the proud mother of Harun Ibrahim and Liam Chukwuemeka, and the loving wife of Reverend Doctor Leary Bonnett.

Madam Speaker, I urge my colleagues to join me in recognizing Dr. Blackett-Bonnett.

### HONORING DARDEN RESTAURANTS

**HON. ALAN GRAYSON**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. GRAYSON. Madam Speaker, I stand here today to honor a great American company. For more than 40 years, Darden Restaurants has been nourishing and delighting guests through the operation of some of the most popular restaurant brands in the country, including Red Lobster, Olive Garden, Long-Horn Steakhouse, the Capital Grille, Bahama Breeze and Seasons 52.

I'm proud to say that central Florida has always been, and will continue to be, home for Darden. The company has been instrumental in helping shape the growth and development of the region through its impassioned involvement and support of the community. Through corporate involvement, restaurant donations and support from the Darden Foundation and Environmental Trust, Darden has contributed millions of dollars to community based organizations and programs over the years.

Today, Darden has once again demonstrated its commitment to central Florida with the opening on September 30, 2009, of a new \$1.52 million, state-of-the-art corporate headquarters in my district that keeps 1,300 jobs in the region.

Not only is Darden one of the leading employers in region, it's also the 29th largest private employer in America—employing 180,000 people in 49 States.

Further, through all of its growth, Darden leads in its environmental stewardship and has remained committed to sustainability. Its new facility is on track to receive Gold certification for Leadership in Energy and Environmental Design for new construction from the United States Green Building Council. Upon final certification, it will be the largest newly constructed Gold LEED certified building in Florida. Additionally, Darden established the Darden Environmental Trust in 1997, which has contributed over \$3 million to organizations that promote sustainability. Since 1997, the Darden Environmental Trust has actively engaged in the protection of endangered sea turtles, the whooping crane, and has assisted in the funding of the Blowing Rocks preserve project, that is working to restore a section of delicate coastline in central Florida. Finally, Darden is helping to lead the way in helping

to reduce the overfishing of lobster and wild fish species, and promoting new sustainable seafood products that improve the overall long term health of the world's increasingly fragile fisheries.

Madam Speaker, I would like to commend Darden on its vision and commitment to building stronger communities through its "best of class" restaurant operations, its commitment to the environment and sustainability practices, and its continued investment in my community and thousands of communities across the country.

### PERSONAL EXPLANATION

**HON. MICHAEL E. CAPUANO**

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. CAPUANO. Madam Speaker, last week I missed several rollcall votes and I wish to state how I would have voted had I been present:

Rollcall No. 720—"yes"; rollcall No. 721—"yes"; rollcall No. 722—"yes"; rollcall No. 723—"yes"; rollcall No. 724—"yes"; rollcall No. 725—"yes"; rollcall No. 726—"yes"; rollcall No. 727—"no"; rollcall No. 728—"yes"; rollcall No. 729—"yes"; rollcall No. 730—"no"; rollcall No. 731—"yes"; rollcall No. 732—"no"; rollcall No. 733—"yes"; rollcall No. 734—"no"; rollcall No. 738—"yes"; and rollcall No. 739—"yes".

### A TRIBUTE TO ANDREA W. EVANS

**HON. EDOLPHUS TOWNS**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Andrea Evans, Chairwoman of New York State Board of Parole and Chief Executive Officer New York State Division of Parole.

Ms. Evans has worked the majority of her professional career in the borough of Brooklyn. For the past 25 years, she has been a member and served in a leadership capacity as the business administrator at the Rehoboth Cathedral, which is pastored by Bishop Gerald Seabrooks. Ms. Evans was most recently Director of the Division of Parole for Region II, an area encompassing Brooklyn, Queens, and Staten Island. In this position, she was responsible for the operation of nine area offices, and the Queensboro Correctional Facility. Prior to this role, Ms. Evans served as Deputy Regional Director for Region I, where she managed the operation of five field offices in Bronx County.

From 2000 to 2006, Ms. Evans served as Special Assistant to the Downstate Director of

Operations. From 1997 to 2000, she worked as an Investigator in the Division of Parole's Office for Professional Responsibility, where she conducted investigations into allegations of professional misconduct. From 1994 to 1997, Ms. Evans was a Senior Parole Officer and served as Acting Supervisor in the Bronx Area Office. Additionally, she worked as a Parole Revocation Officer from 1990 to 1994. Ms. Evans began her career with the Division in 1986 as a Parole Officer. Prior to joining the State Division of Parole, Ms. Evans worked for the Central Brooklyn Coordinating Council from 1979 to 1986, a community-based family services and support organization dedicated to foster care.

Ms. Evans holds a B.A. in Psychology from the City College of New York. She is a Queens resident and is the proud mother of one adult daughter.

Madam Speaker, I urge my colleagues to join me in recognizing Andrea Evans.

**WELCOMING SOUTH KOREAN  
FIRST LADY KIM YOON-OK**

**HON. CHARLES B. RANGEL**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. RANGEL. Madam Speaker, I rise today to honor one of the most graceful and important women to grace our shores, the distinguished First Lady of the Republic of Korea, Kim Yoon-Ok.

Ms. Yoon-ok majored in public health education at Ewha Woman's University, the fourth First Lady to have graduated from this prestigious university. While her husband's career eventually took him from the private sector to the highest public office in their country, she has carved out her own reputation as a strong advocate of the rights of women, children and families in South Korea and around the world.

Ms. Yoon-ok was in New York last week, not only accompanying her husband's visit to the United Nations but also hosting a luncheon in honor of those soldiers—American and Korean—who gave their lives for their democratic nation. It is a war that I am quite familiar with. More than 50 years ago, I fought with millions of Americans to help preserve South Korea's independence during the invasion from communist Korea in 1950. That is why I was very happy this summer when President Obama signed a bill into law that recognized these sacrifices. The bill that I introduced recognizes the 1953 armistice with the display of the American flag each July 27th, that day declared as National Korean War Veterans Armistice Day.

As a Korean war veteran, it gives me great pride to see how the nation has flourished as a democratic and free people. Today, the Republic of Korea is the 13th largest economy in the world and the United States' 8th largest trading partner. Recently, the IMF raised Korea's growth forecast for this year from the growth amount that was originally projected a few months ago, further stating that the nation's growth will increase 2.5 percent next year.

Freedom, of course, is not something that is static. It must be fought for and defended by

every generation. So, as the relationships between our two countries continue to grow and deepen, we cannot forget that our economic and cultural prosperity is built on the achievements and accomplishments of our ancestors. It is a sacrifice we are proud to celebrate, today and forever.

**CONGRATULATING CHRISTOPHER  
DIMATTIO, THE 2009 RECIPIENT  
OF THE MAN OF THE YEAR  
AWARD FROM THE LACKAWANNA  
COUNTY COLUMBUS DAY ASSO-  
CIATION**

**HON. PAUL E. KANJORSKI**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. KANJORSKI. Madam Speaker, I rise today to ask you and my esteemed colleagues in the House of Representatives to pay tribute to Christopher DiMattio, who was named recipient of the 2009 Man of the Year Award from the Lackawanna County, Pennsylvania, Columbus Day Association.

Mr. DiMattio will be honored this year at the annual dinner to be held Sunday, October 11, at the Genetti Manor in Dickson City, Pennsylvania.

A native of Dunmore, Pennsylvania, Mr. DiMattio is the youngest son of Louis and Catherine Summa DiMattio. He graduated from St. Anthony's School and Bishop O'Hara High School as well as Marywood University where he earned a degree in Business Administration and Marketing. He remained active at Marywood and served three terms on the Board of Trustees and established several endowment and scholarship funds. He is a recipient of the Alumni Society's "Recent Graduate Award" and the "Presidential Scholarship Honoree" for outstanding community service.

Mr. DiMattio is a member of the "Chairman's Club," the highest award for production of financial services at the parent company, INVEST Financial Corporation and, last year, he was cited as the top producer in the entire Nation. A past director of the National Advisory Board, he is frequently called on to present at various bank and financial institutions both regionally and nationally. He is an Accredited Investment Fiduciary as well as a member of various professional organizations in the finance and investment areas, primarily concentrating in business retirement plans.

Mr. DiMattio served two terms as a director of the Greater Scranton Chamber of Commerce and he is a member of the Scranton-Lackawanna Industrial Building Corporation.

Mr. DiMattio served on the board of directors for many charitable, civic, religious and cultural organizations. He is active in UNICO National where he currently serves as Executive Vice President and will become National President next July as well as the Scranton Chapter's Secretary. He is the volunteer event chairman and president of La Festa Italiana and he serves on the board of the St. Francis of Assisi Soup Kitchen, Little Flower Manor of the Diocese of Scranton and he chairs the annual coat drive for the Head Start program of the Scranton-Lackawanna Human Develop-

ment Agency. Mr. DiMattio has been the recipient of many honors for his community service including the "Bronze Medallion of the Legion of Honor" by the Chapel of the Four Chaplains, the Outstanding Volunteer Fund Raiser by the Northeast Chapter of the National Society of Fund Raising Executives, UNICO Member of the Year Wall of Fame by Bishop O'Hara High School, Community Roast by Family Services, Honorary Delta Mu Delta by Marywood University's Business Department, Past President's Award by the Columbus Day Association, the Victor Alfieri Literary Society, the St. Francis of Assisi Kitchen, the Diocesan Council of Catholic Men and by the Greater Scranton Jaycees where he was also honored for the founding of the Santa Parade. He has also been honored by the City of Scranton and Lackawanna County for service to the community and by the Volunteer Action Center with the JC Penney's Golden Rule Award. In 1992, he was chairman of the Columbus Quincentenary Parade celebrating the 500th anniversary of America.

Mr. DiMattio resides in Moscow, Pennsylvania, with his wife, the former Ann Celli, and their two sons, Louis Carlo and Robert Christopher.

Madam Speaker, please join me in congratulating Mr. DiMattio on this auspicious occasion. His remarkable spirit of volunteerism and community service should be an inspiration for all, as his accomplishments have improved the quality of life in northeastern Pennsylvania.

**HONORING THE 200TH ANNIVERSARY  
OF THE BETHEL BAPTIST  
CHURCH OF CASEYVILLE**

**HON. JERRY F. COSTELLO**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. COSTELLO. Madam Speaker, I rise today to ask my colleagues to join me in recognizing the 200th anniversary of Bethel Baptist Church of Caseyville, Illinois.

The year 1809 was important in the history of our Nation and the State of Illinois. While James Madison was inaugurated as our young Nation's fourth President and Robert Fulton received a patent on his new invention, the steam boat, the Illinois Territory was formed by an Act of Congress and Abraham Lincoln was born in the backwoods of Kentucky. At the same time, a group of Christians who had concerns about the pro-slavery position of some members of their former church formed the Baptist Church of Christ, Friends to Humanity, which would later become Bethel Baptist Church of Caseyville.

James Lemen, Sr., was the first pastor of the new church and the congregation would meet in the houses of members, traveling up to 36 miles by horseback to attend services. As the congregation grew, the need for a permanent church structure became apparent and the first meeting house was built in 1825.

During the church's early years, members continued to hold strong abolitionist positions. The church building was used as a station along the Underground Railroad, with fugitive

slaves hiding in a crawl space under the church floor. To commemorate this important period, when a new floor was installed in the 1940s, a trap door was installed so the original trap door, through which the fugitive slaves would enter their hiding place, could be seen.

Many changes occurred during the history of the church, many of which mirrored what was going on as our Nation grew. Wars and economic disasters took their toll on the congregation and, for a period during the Great Depression, the church was closed. During that time, concerned parishioners would gather the children of the area into their homes to continue to spread the Word of God.

Responding to the needs of the flock, the church membership was reorganized and the church reopened in 1938. Due to the efforts of many in the congregation, the church rebounded and membership grew.

As they celebrate their past during this historic anniversary year, the congregation of Bethel Baptist Church of Caseyville also looks forward to the future. Their strong commitment to their faith, their families and their community is reflected in their invitation for their bi-centennial observance, "Celebrate God's Goodness with Us!"

Madam Speaker, I ask my colleagues to join me in honoring the 200th anniversary of the Bethel Baptist Church of Caseyville and wishing them the best for many years to come.

#### A TRIBUTE TO DR. EMMANUEL NWOZUZU

#### HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Dr. Emmanuel Nwozuzu, CEO of ACE-IT Educational Consultants and an accomplished educator in my community.

Dr. Nwozuzu was born in Umuoba Uratta Owerri Imo State Nigeria on April 14, 1942, in the middle of the Second World War to a family of six. At the time of his birth, Emmanuel's late father was a sub Army Tailor contractor in Calabara seaport in the Southern Eastern tip of Nigeria. Emmanuel's parents Catherine and Christopher were firm believers in education, having seen at first-hand the advantages of education among people in the army. They invested all that they had in educating all their six children.

Emmanuel obtained his Bachelors in the University of Nigeria Nsukka in 1970, taught sciences in Eastern Region of Nigeria and Benue Plateau State of Nigeria where he was selected later to be the Principal of a school at a very young age of 29. There he worked hard to upgrade the school from a community secondary school to prestigious Kanam Government Secondary. While Principal, Emmanuel went to school and obtained a Post Graduate Diploma in Education from Ahmadu Bello University Zaria.

Dr. Nwozuzu had the opportunity to immigrate to the United States to pursue further education, he obtained his Masters degree in Education in 1982 at Iowa State University in Science and Technology. It was Emmanuel's

major Professor, Kahler who literally "coaxed" him to register for a doctoral program and gave him a job as an Assistant Research fellow.

In 1985, Dr. Nwozuzu took up a teaching position at the New York City Board of Education where he taught subjects from chemistry and physics to reading and writing. On May 1, 1990, the Principal of P.S. 9 recommended Dr. Nwozuzu for recognition from the Board of Education for Outstanding Leadership in Shepherd Program. In 1992, Dr. Nwozuzu was recognized by Kodak Company for the beautification of a triangular inner city park.

In 2005, Dr. Nwozuzu was awarded a teaching merit award from the Secretary of Education in Washington, DC, and in that same year was awarded the U.S. Presidential Scholars Program Teachers Award. Now retired, Dr. Nwozuzu is the CEO of ACE-IT Educational Consultants.

Dr. Nwozuzu is the author of Voice of Generators Past, the Pulse of the Igbo, an African Tribe, a social commentary, a voice that narrates the changing effects in a traditional village in Africa published by Xlibris, PA.

Madam Speaker, I urge my colleagues to join me in recognizing Dr. Emmanuel Nwozuzu.

#### HONORING THE ACCOMPLISHMENTS OF MS. SARITA BROWN

#### HON. JAMES P. MORAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. MORAN of Virginia. Madam Speaker, I rise today to recognize Ms. Sarita Brown upon receiving the 2009 Harold W. McGraw, Jr. Prize in Education. Ms. Brown is highly regarded for her hard work and dedication towards accelerating Latino success in higher education. For over two decades she has served as a shining example for students of Latino heritage.

Ms. Brown started her professional career at the University of Texas at Austin. There she built a national model to promote minority success in graduate education. In 1993, her endeavors carried her to Washington where she joined the Department of Education during the Clinton Administration. As Executive Director of the White House Initiative for Education Excellence for Hispanic Americans, she was tasked with the goal of implementing effective strategies to raise academic achievement and opportunities for low-income and minority students nationwide.

After her time in the administration, Ms. Brown applied her talents and experience to the nonprofit sector, serving as a leader among her colleagues and in her community. Ms. Brown is the co-founder and current President of Excelencia in Education, a not-for-profit organization working to promote Latino educational success in the classroom by linking research, policy, and effective practices in public policy.

Ms. Brown currently sits on the Board of Directors for ACT Inc., the National College Access Network (NCAN) and on advisory boards

for the National Association of Latino Elected and Appointed Officials (NALEO) Educational Fund and the Journal of Hispanic Higher Education. In January 2009, Virginia Governor Tim Kaine bestowed the honor of appointing her to the Board of Visitors for Old Dominion University.

In addition to being an expert on education, Ms. Brown is also an outstanding public speaker. Each year, she travels around the country advocating for the issues she has spent her career championing: promoting access and support for Latinos to receive a higher education.

On behalf of the citizens of Virginia's 8th Congressional District, I congratulate and applaud Ms. Brown for her life's work. She is most deserving of the 2009 Harold W. McGraw, Jr. Prize in Education. May it serve to bolster her on to even greater achievements in the years to come.

#### RECOGNIZES THE EFFORTS OF AGRONOMIST AND NOBEL LAUREATE NORMAN BORLAUG

#### HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Ms. DeLAURO. Madam Speaker: I rise to recognize and pay my respects to the late Norman Borlaug, who passed away earlier this month.

The father of the Green Revolution, and one of only six people in history to have won the Nobel Peace Prize, the Presidential Medal of Freedom, and the Congressional Medal of Honor, Dr. Borlaug may just be the most underappreciated genius in human history. In the annals of our species' time on Earth, he stands like a Colossus. It is no exaggeration to say—indeed it is said often—that Dr. Borlaug saved more lives than anyone else who has ever lived, and that he quite literally changed the fate of our world.

Born in 1914 in Saude, Iowa, Norman Borlaug spent his formative years working on the family farm, leaving, Borlaug said later in life, only because of some sage advice offered by his grandfather—"You're wiser to fill your head now if you want to fill your belly later on." With the help of a gift for wrestling—and Franklin Roosevelt's National Youth Administration—Borlaug enrolled in the University of Minnesota in 1933, supplementing his meager resources with stints in the Civilian Conservation Corps and the United States Forestry Service. He graduated in 1937 with a Bachelor of Science in Forestry, following it up with a Masters of Science in 1940 and a Doctorate in plant pathology and genetics in 1942.

After serving the World War II effort as a microbiologist at DuPont, Borlaug moved to Mexico in 1944 to take part in a Rockefeller Foundation project aimed at boosting wheat production. There, the true work of his life began.

At the time, Mexican farmers were able to raise less than half of the wheat they needed to feed their population, mainly due to a debilitating fungus known as rust. For the next 13 years, Borlaug experimented with and cross-

bred strains of wheat from all over the world to develop a grain that was rust-resistant. When that success was finally achieved, other problems emerged. The new blend of wheat, while resistant to rust and many other diseases, was top-heavy and would break easily. So Borlaug looked to shorter Japanese dwarf strains, and the Green Revolution began in earnest.

By 1956, thanks to Dr. Borlaug's efforts, Mexico grew two to three times more wheat than before, and was self-sufficient in wheat. From there, spurred on by the Rockefeller Foundation and the United Nations, Borlaug brought his extraordinary insights to the rest of the globe. In India and Pakistan, North Africa and Southeast Asia, the Middle East and the Philippines, where scientists followed Borlaug's pioneering vision to create a new strand of rice, Borlaug's hard work and amazing insights transformed agriculture and allowed for incredible new yields all over a hungry world.

In 1970, Norman Borlaug won the Nobel Peace Prize for the transformation he had achieved. In an age that was greatly concerned about the dire consequences of exploding population, Borlaug utilized science, innovation, and his "Iowa-stubborn tenacity" to lead the whole world forward. He remains the only agricultural scientist to have ever won the Nobel Prize—Indeed, in part to correct this oversight, Borlaug later helped to found the World Food Prize, to encourage agronomists of later generations to follow in his footsteps.

Borlaug was not only a pioneering scientist but a pioneering humanitarian. I had the pleasure of meeting with Dr. Borlaug several times over the past few years, and he was a consistent and forceful advocate on global food issues. He dedicated his days not only to feeding hungry people and helping them achieve self-sufficiency, but to improving their lives in any way he could. A professor at Texas A&M University for many years, Borlaug also served as an important advisor to governments around the world and a compelling advocate for the many virtues of agricultural science. To say nothing of his continuing stints as Boy Scout Troopmaster and Mexico's first Little League Baseball coach, and of his life as a husband and father.

After his passing on September 13, 2009, Borlaug's children asked that he be remembered as "a model for making a difference in the lives of others and to bring about efforts to end human misery for all mankind." And so he was, and so he shall. The world has lost one of its great men in Norman Borlaug, and we are all the poorer for it. Nonetheless, his remarkable contributions to our people and our planet will last longer than any of us.

COMMENDING YIXIAO WANG OF  
WESTFIELD, NEW JERSEY

**HON. LEONARD LANCE**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. LANCE. Madam Speaker, I rise today to recognize an exceptionally talented student, Yixiao Wang of Westfield, NJ. Yixiao, along

with three other teammates representing the United States, recently participated in the 41st International Chemistry Olympiad, winning one gold and three silver medals in Cambridge, England.

The U.S. Team competed against 250 students from 65 countries in a battery of exams including theoretical and practical applications. Yixiao placed in the top 10 percent earning him a gold medal. The four students were selected from over 11,000 talented high school chemistry students who had participated at the local level, and are representative of the brightest chemistry students in the Nation.

The International Chemistry Olympiad was created in 1968 to enhance friendly relations among young people from different countries. Since then, thousands of students have participated in this rigorous competition to recognize the most talented students in the world.

I would like to congratulate Yixiao for his exemplary performance, which undoubtedly required disciplined, diligent studies. His is a shining example of the dedication the faculty at Westfield High School have towards helping their students achieve greatness. Yixiao will surely have a bright future in any of his future endeavors.

A TRIBUTE TO DR. R. SANDLIN  
LOWE III

**HON. EDOLPHUS TOWNS**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Dr. R. Sandlin Lowe III, a faculty member of the New York University School of Medicine.

Dr. Lowe was born in Tallapoosa County, Alabama and grew up on the family farm in Coosa County, the poorest county in Alabama. He was influenced greatly by his grandfather, Braxton Hughes Smith, who as a Christian man taught him much about faith and patience, hard work and perseverance; a farmer lives out these things every day. The work on the farm was done by hand with mules pulling the ploughs through the earth and men coming to pick the cotton and corn that grew. It was a life out of Faulkner—trips to the blacksmith's shed to reshape and sharpen ploughshares, killing hogs in the winters, the spring plantings and the eventide hymns as men finished the day's work—a wondrous grounding.

The College and Medical School at Tulane University in New Orleans followed where the interests in human nature and all things human found outlets in anthropology and then later medicine, sparked interest in Dr. Lowe. While attending medical school, Dr. Lowe came to New York City to Bellevue Hospital in the fall of 1986—he has been affiliated with Bellevue either as a student, intern, resident or attending physician ever since.

Currently a member of the Faculty of the New York University School of Medicine, Dr. Lowe's interests and work in brain injury and autism are personal. His research at the Brain Research Laboratories with his recently deceased friend, Roy John, and his work with his

mentor and friend, Rodolfo Llinas, in the Department of Physiology and Neuroscience have led to an innovative theory of coma and vegetative states that is strangely enough applicable to autism spectrum conditions. Dr. Lowe continues his work on this issue in hopes that this work will continue to bear fruit.

Madam Speaker, I urge my colleagues to join me in recognizing Dr. R. Sandlin Lowe III.

A PROCLAMATION HONORING  
AARON HANEY FOR WINNING  
THE BOYS' DIVISION III STATE  
BASEBALL CHAMPIONSHIP

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. SPACE. Madam Speaker:

Whereas, Aaron Haney showed hard work and dedication to the sport of baseball; and

Whereas, Aaron Haney was a supportive coach; and

Whereas, Aaron Haney always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with his friends, family, and the residents of the 18th Congressional District, I congratulate Aaron Haney on winning the Boys' Division III State Baseball Championship. We recognize the tremendous hard work and sportsmanship he has demonstrated during the 2008–2009 baseball season.

RECOGNITION OF EARL W.  
RILINGTON, SR., OF SAVANNAH,  
GEORGIA

**HON. JACK KINGSTON**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. KINGSTON. Madam Speaker, I rise to commemorate the retirement of Mr. Earl W. Rilmington, Sr., from a lifetime of service to the pulp and paper industry of southeast Georgia.

Mr. Rilmington spent his early childhood in Sylvania, Georgia. He has been a resident of Savannah for over 50 years. In 1969, he married his high school sweetheart, the late LaVenia Salley Wyley Rilmington, and had their first child, Earlanda.

Mr. Rilmington was employed with Union Camp, and later, International Paper for 40 years. He began work in the box plant as a slitterman in 1969, making boxes to be shipped all over the world for everyday uses. He attended school at Savannah State University and earned a promotion to electrician in 1973. As an electrician, he ensured the operational efficiency of all major plant equipment such as boilers and presses. The Rilmington family has a noteworthy history with International Paper. Mr. Rilmington's father, Willie V. Rilmington, Sr., was employed with International Paper's predecessor, Union Camp for 23 years as a box car loader and truck driver. Earl's son, William Michael Rilmington, is currently in training for instruments and controls with International Paper.

As Mr. Rilington enters his well-deserved retirement he can look forward to pursuing his hobbies, spending time with family and friends and traveling. Whether at the bowling alley every Monday and Thursday night or leading the Usher Board at Conner's Temple Baptist Church, we can be assured that our country is what it is today thanks to the contributions he has made throughout his lifetime. I rise today to recognize Mr. Rilington as a model husband, father, and citizen. We commemorate his retirement from a lifetime of service to the pulp and paper industry of Southeast Georgia on this day October 30, 2009.

#### REMEMBERING JAMES D. RANGE

### HON. JOHN S. TANNER

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. TANNER. Madam Speaker, I rise today to remember James D. Range, a beloved father, son, brother, and friend.

Jim died peacefully, surrounded by family and loved ones, on Tuesday, January 20, 2009 at the Mayo Clinic in Rochester, Minnesota, after an extraordinarily courageous battle with kidney cancer. He was 63 years old.

A Johnson City, Tennessee, native, Jim was a life long outdoorsman who loved America's wild spaces and loved hunting and fishing.

He was respected as a passionate advocate for the country's fish and wildlife and their habitat and one of the Nation's most prominent champions of natural resource conservation.

In the 1970's, Jim was a trusted advisor and counsel to Senate Majority Leader Howard Baker and the Senate Environment and Public Works Committee where he served with verve and integrity.

During his time in the Senate, Jim was instrumental in the conservation of many different corners of the American landscape and integral in the crafting and final passage of a string of landmark laws such as the Clean Water Act.

Even after his time spent on Capitol Hill, Jim displayed an unrivaled commitment to our nation's natural resources and outdoor traditions by co-founding and serving as chairman of the Theodore Roosevelt Conservation Partnership.

He furthered his service to the cause of conservation through work on the Boards of Directors for Trout Unlimited, Ducks Unlimited, the Wetlands America Trust, the Recreational Boating and Fishing Foundation, the American Sportfishing Association, the American Bird Conservancy, the Pacific Forest Trust, the Yellowstone Park Foundation, the Bonfish and Tarpon Trust, the National Fish and Wildlife Foundation, the Interstate Commission on the Potomac River Basin, the Sportfishing and Boating Partnership Council, and the Valles Caldera Trust.

Through this work, Jim received such honors as the U.S. Department of the Interior's Great Blue Heron Award, the 2003 Outdoor Life Magazine Conservationist of the Year and the Norville Prosser Lifetime Achievement Award presented by the American Sportfishing Association.

He left both the political and natural landscape in which he lived, loved, worked and played better than when he found it. His achievements in conserving the valuable wild and natural resources of the country are unparalleled and he lived his extraordinary life with integrity, humor and goodwill he displayed in all his pursuits.

He left a legacy to all his family, friends and colleagues of a vision for a growing understanding and appreciation of our natural world and a daily commitment to conserving it for future generations.

Madam Speaker, please join our colleagues and me in recognizing Jim Range's accomplishments and contributions.

#### 100TH ANNIVERSARY OF WHITING PARK

### HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. VISCLOSKY. Madam Speaker, it is with great pleasure and enthusiasm that I take this moment to congratulate the city of Whiting, Indiana, in celebrating the 100th anniversary of Whiting Park. Throughout the years, Whiting Park has been an integral part of the community providing residents with a place to create lasting memories while preserving the history of the city. Whiting commemorated this extraordinary milestone on July 18, 2009, with a celebration in the park presented by the Whiting Park Festival Orchestra.

In the early 1900s the idea for Whiting Park began to take shape. Many activists in the area, at the time, could envision the potential for a magnificent park that would serve to bring the community closer together. In 1908, Frank Long, Chairman of the City Council Park Committee, along with Mayor Fred J. Smith, helped the city to acquire 22 acres of land bounded by Front and 117th Streets, the New York Central Railroad tracks and Lake Michigan. Whiting purchased the land from the Forsythe Estate for \$75,000. Whiting Park continued to expand, and by the 1920s the park included a man-made lagoon, fountains, attractive walkways, a baseball diamond, trap-shooting facility, tennis courts, a playground, and a pavilion used for ballroom dancing and different music venues. In addition, a bath house was built for the beach lakefront activities, which included two waterslides and a diving board. The winter months at the park were filled with ice skaters, sledding, and ice hockey games. Over the next two and a half decades, thousands of people would flock to Whiting Park for the amenities on the land and in the water, all year round making the park one of the most popular on the entire lake-shore.

The next 30 years proved to be a troublesome time for Whiting Park, and there were many factors that led to the downfall of the park's glorious days of the past. Whiting Park Beach was closed in the late 1940s due to a high bacteria count in the water. The war emergency, at the time, led to limited city and federal funding for the upkeep of the park and beach. While there were proposed solutions

over the years to bring back the Whiting Park of the past, many of them fell through. People began to think that the once famous Whiting Park would never be restored.

Finally, in 1977, the Whiting Park and Recreation Board was established. Through the efforts of the Parks Department, the beach was reopened on August 23, 1981, and came to be known as Whihala Beach County Park. The name "Whihala" stands for Whiting, Hammond, and Lake County Parks Department. With the new beach open, the Whiting Parks Department began again to concentrate on restoring the beauty of Whiting Park. Over the years, volunteer groups spent much time planting new flowers, and restoring the main garden, pond and waterfall area near the entrance of the park, bringing the park back to life. Today, Whiting Park spans approximately 15 acres and includes playground equipment, walking paths, four tennis courts, one baseball diamond, picnic facilities, a concession area, a fishing pier, two sand volleyball courts, an inline skate/hockey rink, and a fish pond including a waterfall.

As Whiting Park celebrates its 100th anniversary, there are also many innovative plans for the future, including working to become an integral part of the proposed Marquette Plan, a project that will better utilize Northwest Indiana's Lake Michigan shoreline.

Madam Speaker, I ask you and my other distinguished colleagues to join me in honoring and congratulating the city of Whiting on their 100th anniversary of Whiting Park. Throughout the years, Whiting Park has been a historical reminder of a city whose people continue to push forward with enthusiasm and faith to return this park to one of the most prized recreational lakefronts in the region, just as it was at the turn of the century. Their constant dedication and commitment is worthy of our deepest admiration.

#### A TRIBUTE TO DR. THEOPHINE ABAKPORO

### HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Dr. Theophine Abakporo, Medical Director of the Department of Emergency Medicine & Pre-Hospital Care at Wyckoff Heights Medical Center and dedicated public servant.

Dr. Theophine Abakporo, MD was born in Nigeria in 1964. During his childhood, he was deeply influenced by the devastating experience of growing up in a country at war. He witnessed the effects the war had on his local community—displacement, premature deaths, injuries, disease and poverty. As he grew older, he realized the importance of community organizations and public service.

At the age of 23, Dr. Abakporo obtained his MD degree from Jos Medical School in Nigeria. Upon graduation, he was appointed Medical Officer with the Nigerian Army Field Ambulance. Subsequently, he relocated to the United States to pursue his postgraduate medical education. In 1995, he completed his residency in internal medicine at Brookdale University Medical Center in Brooklyn, New York.

He is board certified in internal medicine and emergency medicine.

In response to the increasing need for disaster awareness and management he took further training and certification. He is certified by the United States Department of Homeland Security in healthcare leadership and administrative decision-making in response to weapons of mass destruction (WMD). He is certified by the United States Army in Chemical, Biological, Radiological, Nuclear, and Explosive incidents (CBRNE). In addition, he is certified by the Fire Department of New York (FDNY) in online medical control.

While pursuing his medical career Dr. Abakporo became deeply involved in the health care needs of the inner-city communities in the United States. Dr. Abakporo worked hard and committed himself to participating in the health outreach and other programs related to the well being of the Brooklyn communities such as Ocean Hill, Brownsville, East New York, Bed-Stuy, Bushwick and Ridgewood communities. This strong willingness to help and care for people, contributed to his interest and focus in the field of emergency medicine and pre-hospital care.

In 1996, Dr. Abakporo joined Wyckoff Heights Medical Center as an Attending Physician in the Department of Emergency Medicine. His leadership, hard work and dedication earned him a promotion as Assistant Director in 2005. Dr. Abakporo currently serves as Medical Director of the Department of Emergency Medicine & Pre-Hospital Care at Wyckoff Heights Medical Center.

In 2008, Dr. Abakporo was honored by the Wyckoff Heights Medical Center's Nursing Administration for his motivation, excellence, dedication and service to the patients and staff. He received the Nursing Recognition Award for Physician Education & Nursing Collaboration.

Dr. Abakporo is a member of World Association of Disaster and Emergency Medicine (WADEM); the American Association of Physician Specialists, and the American College of Physicians.

Madam Speaker, I urge my colleagues to join me in recognizing Dr. Theophine Abakporo.

**A PROCLAMATION HONORING  
ADAM MIZER FOR WINNING THE  
BOYS' DIVISION III STATE BASEBALL CHAMPIONSHIP**

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. SPACE. Madam Speaker:

Whereas, Adam Mizer showed hard work and dedication to the sport of baseball; and

Whereas, Adam Mizer was a supportive team player; and

Whereas, Adam Mizer always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with his friends, family, and the residents of the 18th Congressional District, I congratulate Adam Mizer on winning the Boys' Division III State Baseball Cham-

pionship. We recognize the tremendous hard work and sportsmanship he has demonstrated during the 2008–2009 baseball season.

**IN RECOGNITION OF THE U.S.S.  
"COD"'S 50 YEARS IN CLEVELAND**

**HON. DENNIS J. KUCINICH**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. KUCINICH. Madam Speaker, I rise today in recognition of the U.S.S. *Cod's* 50 Years in Cleveland celebration on August 14th, 2009. The celebration featured a special free admission day for the public and ceremony to mark the golden anniversary and restoration of the *Cod's* Cleveland-built diesel engines. The ceremony concluded with a salute to the people of Cleveland with the firing of the *Cod's* deck gun.

On March 21, 1943 the U.S.S. *Cod* was launched and its engines, built in a General Motors plant on Cleveland's west side, powered the submarine around the globe. According to Dr. John Fakan, president of the non-profit U.S.S. *Cod* Submarine Memorial, "GM built *Cod's* five diesels right here in Cleveland, but it didn't end there. Much of the steel plate that forms her hull was made in Cleveland and Youngstown steel mills from Great Lakes ore." Through her heroic missions in World War II, Cleveland-based training programs during the Cold War, and place as a historic site and submarine memorial in Cleveland, the U.S.S. *Cod* has become a national symbol.

After her successful WW II service in the Pacific Ocean, the *Cod* continued to protect America in the Cold War by training NATO anti-submarine forces in the Atlantic Ocean. In 1959 the *Cod* was brought to Cleveland to serve as a dockside trainer for reservists, and instantly became popular with the public. Citizens were allowed to tour the sub when the Navy wasn't conducting training aboard, and these civilian tours continued even after the Navy declared the *Cod* obsolete in 1971 and began the scrap process.

Despite the Navy's decision, the people of Cleveland saved the *Cod* from being scrapped. School children, veterans groups, Scouts and "Save the *Cod*," a group formed by local business leaders in 1972, all banded together to raise money and save the historic and symbolic submarine. In 1976 the Navy turned the *Cod* over to her civilian caretakers, who immediately began restoring the *Cod* to the original beauty that she was while defending America. In 1986 these efforts were recognized by the Federal Government which declared the *Cod* a National Historic Landmark. The *Cod's* world-class restoration continues today, focusing on her Cleveland-built engines.

The *Cod's* caretakers estimate that more than a million people have toured the *Cod* in the 50 years she has called Cleveland home. In addition to being a popular attraction on Cleveland's lakefront, the *Cod* has also helped bring revenue into downtown by hosting television and film documentaries as well as military reunions and other special projects.

Madam Speaker and colleagues, please join me in recognizing the celebration of the U.S.S.

*Cod's* 50 Years in Cleveland. The U.S.S. *Cod* (SS 214) is both a floating memorial to U.S. submariners who gave their lives defending freedom as well as a unique piece of Cleveland's industrial history.

**RECOGNIZING THE JOINT COMMUNITY POLICE PROJECT IN MINNESOTA**

**HON. KEITH ELLISON**

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. ELLISON. Madam Speaker, I rise today to congratulate the Joint Community Police Project (JCPP), an initiative of the Hopkins, Richfield, Brooklyn Park, and Brooklyn Center Police Forces in Hennepin County, Minnesota, for being selected by the International Association of Chiefs of Police (IACP) as the winner of the 2009 Civil Rights Award.

The IACP is made up of over 20,000 law enforcement members at command level in 89+ countries. This is the first time the JCPP has received programming recognition from the International Association of Chiefs of Police.

These four aforementioned cities live the value of civil rights through the actions of the Joint Community Policing Project—which strives to enhance communication and understanding between police and multicultural residents to improve public safety and livability in the community.

I invite all the members of Congress to join me in recognizing the excellent work of these four fine Minnesota police forces of Hopkins, Richfield, Brooklyn Center, and Brooklyn Park for reaching out to new Americans within our cities and providing the services, hospitality, and valued information to make them welcome, active participants in our community.

In 2009, I proposed and Congress approved a \$100,000 appropriation to continue the work of the Joint Community Police Partnership. One example of their work can be seen in Hopkins, where some of the appropriated funds enabled JCPP to hire a Somali college student to work as Public Service Officer for the Hopkins Police Department. Already they are witnessing a powerful positive reaction by the young immigrant children when the youth see this young man in a Hopkins Police Department uniform at the schools and in their apartment complexes. In addition, funds from this appropriation are being used to bring in successful Somali women from the community to speak to the school club, to mentor them in making positive choices, help build their self esteem, and counsel them to avoid involvement in gangs.

In closing, Madam Speaker, I would like to extend my personal congratulations to the Joint Community Police Partnership for being a model of excellence both in our country and abroad.

A TRIBUTE TO MAJOR GENERAL  
MICHAEL R. LEHNERT

**HON. DARRELL E. ISSA**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. ISSA. Madam Speaker, I rise today to honor and pay tribute to an individual whose dedication and contributions to the United States Marine Corps are exceptional. For more than thirty-five years this man has served our nation in the most outstanding and dedicated manner. On the occasion of his retirement, I feel it only right to recognize the magnificent service Major General Michael R. Lehnert has performed for our country.

Major General Lehnert graduated from Central Michigan University in 1973 with an undergraduate degree in History and commissioned a Second Lieutenant through the PLC program. After attending the Marine Officers Basic School in Quantico, Virginia, he was transferred to Camp Lejeune, North Carolina. Assignments at Camp Lejeune included engineer platoon commander and maintenance officer LSU-32 and S-4, H&S Battalion, 2nd FSSG. Assigned to 9th Engineer Support Battalion in Okinawa Japan, he served as Bn Operations Officer and finished his tour as commander Company A, 9th Engineers.

In 1977, he was ordered to Marine Barracks, Subic Bay, Republic of the Philippines as the Operations Officer. In 1978, he took command of Company A, Marine Barracks, Subic Bay. In 1979, Major General Lehnert attended the U.S. Army Advanced Engineer School at Fort Belvoir, Virginia. After graduation, he served as Executive Officer, USMC Recruiting Station, San Antonio, Texas. He was transferred to Camp Pendleton, California in 1983 and held the following assignments from 1983 to 1986. Company Commander, Company C, 1st Landing Support Battalion Commanding Officer, Combat Service Support Detachment 11 Commanding Officer, Combat Service Support Detachment 16 Executive Officer, MAU Service Support Group 17 Landing Force Support Party Cdr, BSSG 7 MEF Engineer, First Marine Amphibious Force.

In 1987, he was selected for Armed Forces Staff College. After graduation, he was assigned to the United States Southern Command in the J-3 Operations Directorate as Chief, Central American Exercise Branch. During the Panama crisis, he participated in Operation Just Cause and Operation Promote Liberty. Major General Lehnert was reassigned in 1990 as Inspector-Instructor, 6th Engineer Support Battalion, Portland, Oregon. He was selected for top level school, completed the Naval War College in 1993 and was awarded a masters degree in International and Strategic Studies.

In 1993, he was assigned to the Joint Warfighting Center in Norfolk, Virginia where he served as the Chief of the Futures Branch, Doctrine Division. In 1995, he reported to 2d MAW and participated in Operation Sea Signal, Guantanamo Bay, Cuba as Commander, Joint Task Group Bulkeley, JTF 160, where he commanded the security forces responsible for operation of Cuban and Haitian migrant camps. Major General Lehnert commanded

Marine Wing Support Group 27 at Cherry Point, North Carolina from 23 May 1996 to 28 May 1998. He was reassigned as the Deputy Chief of Staff, G-4 II MEF. In 1999, he deployed to Panama as the Chief of Staff, Joint Task Force Panama to oversee the final turnover of the Canal and the remaining military bases.

His first tour as a general officer was at Headquarters Marine Corps, where he served as the Assistant Deputy Commandant for Installations and Logistics. He took command of 2d Force Service Support Group in July 2001 and in January 2002, he deployed to Guantanamo Bay, Cuba as Commander, Joint Task Force 160. JTF 160's mission was to construct and operate the detention facilities for Taliban and Al Qaeda detainees. In 2003, he deployed with the 2d FSSG to the CENTCOM theater and participated in Operation Iraqi Freedom as Commander, Marine Logistics Command. His most recent assignment was as Chief of Staff, United States Southern Command, Miami, Florida.

Decorations include the Defense Superior Service Medal with one oak leaf cluster, the Legion of Merit with Gold Star, the Defense Meritorious Service Medal with two oak leaf clusters, the Navy Commendation Medal with gold star and the Navy Achievement Medal.

Major General Lehnert has consistently shown genuine concern for those who serve in his command, regularly placing their comfort and support above his own. He and his wife, Denise, are a prototype for general officers who have the honor to follow them in command.

On the occasion of his retirement, and on behalf of the people of the United States whom he has served with courage and honor, we commemorate the exceptional service of Major General Michael R. Lehnert.

A PROCLAMATION HONORING  
ALEX KNECHT FOR WINNING  
THE BOYS' DIVISION III STATE  
BASEBALL CHAMPIONSHIP

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. SPACE. Madam Speaker:

Whereas, Alex Knecht showed hard work and dedication to the sport of baseball; and

Whereas, Alex Knecht was a supportive team player; and

Whereas, Alex Knecht always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with his friends, family, and the residents of the 18th Congressional District, I congratulate Alex Knecht on winning the Boys' Division III State Baseball Championship. We recognize the tremendous hard work and sportsmanship he has demonstrated during the 2008-2009 baseball season.

IN HONOR AND RECOGNITION OF  
STAN HASSE

**HON. DENNIS J. KUCINICH**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. KUCINICH. Madam Speaker, I rise today in honor and recognition of Stan Haase, who recently celebrated his 85th birthday.

Stan Haase was born on July 22, 1924 in Kitchener, Ontario to Adolph Carl and Anna Caroline Haase. His parents bought a home on Cedar Street, where they raised Stan and his younger brother Gerald. The Haase family enjoyed spending their weekends together at Stan's great-grandmother's house where they took pleasure in square dancing and playing their favorite card game, pinochle. It was a spirited and loving environment in which they celebrated family and their German heritage.

At the age of eighteen, Stan Haase enlisted in the Royal Canadian Air Force to serve his country during World War II as a Chief Pilot Officer. Following his service, Stan returned home and went to work for his father as a truck driver. It was during his years as a driver that Stan met Katherine Schell. They were married on July 7, 1950. Their mutual desire to realize the American Dream began during their honeymoon when they immigrated to Detroit. After several years of hard work they became naturalized American citizens. Mr. Haase was a loving and devoted husband to his beloved wife, Katherine, for 53 years.

By September 1969, Stan and Katherine Haase had moved to a home on Newbury Lane in Parma Heights, Ohio to raise their three young sons, Greg, Woody and Rick. It was at this home that the family began to establish new family traditions, such as sharing the days' events with one another over dinner. Sundays were also a special time for the Haase family. Each Sunday Mrs. Haase created beautiful and elaborate meals while Mr. Haase entertained the family with stories of his childhood. The home on Newbury Lane was full of magic at Christmas time. Mr. Haase made Santa Claus come to life and Mrs. Haase decorated.

Mr. Haase has had several hobbies throughout his lifetime. As a licensed amateur radio operator he has spoken and forged friendships with people in 321 different countries. His skill as an amateur radio operator has won him many awards and certificates. In addition to gaining a reputation as a first-class repairman, Mr. Haase is also a computer enthusiast. Stan has built and programmed several of his home computers. He continues to be interested in learning new technology.

Madam Speaker and Colleagues, please join me in honor and recognition of Stan Haase. Stan is a charismatic and proud man. He remains deeply committed to his family and his friends. Stan's sense of humor reflects his great appreciation for life. I wish Mr. Haase a joyous 85th year and blessings of peace, health and happiness.

CONGRATULATIONS TO  
POSTMASTER OLA HELM**HON. RON PAUL**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. PAUL. Madam Speaker, Ola Helm, a 23 year veteran of the United States Postal Service, will be officially sworn in as the 24th postmaster for the Brazoria, Texas post office on Thursday, October first. I am pleased to extend my congratulations to Postmaster Helm.

Postmaster Helm began her postal career on May 10, 1986 as a letter carrier in my hometown of Lake Jackson, Texas. Over the years, Postmaster Helm held a variety of positions in the postal service, including window clerk, supervisor, coach postmaster and officer in charge at a variety of local post offices, including Danbury, Freeport, West Columbia, Sweeny and Needville.

Prior to being appointed postmaster for Brazoria, Ola Helm served as Postmaster for the Van Vleck office. She has spent the past 17 months familiarizing herself with the employees and patrons of the Brazoria post office. The people of Brazoria County are lucky to have such a dedicated and experienced postal veteran serving as postmaster, and I am pleased to once again extend my congratulations to Postmaster Ola Helm.

UNITED NATIONS HUMAN RIGHTS  
COUNCIL GOLDSTONE REPORT**HON. MICHELE BACHMANN**

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mrs. BACHMANN. Madam Speaker, just as the United States is a symbol of hope and freedom around the globe, Israel stands as a symbol of freedom and democracy in an area historically rampant with violence and oppression. For this reason, I am compelled to voice my strong objections to the allegations made in a recent report commissioned by the United Nations Human Rights Council and carried out by former South African Judge Richard Goldstone. The report alleges human rights violations on the part of Israel.

Madam Speaker, the U.N. Human Rights Council has long been recognized for its anti-Israel bias, so it comes as little surprise they would rubber-stamp the "Goldstone Report" and its findings of "crimes against humanity" with regard to Israel's activities in Gaza. As you may know, Israel is the only country listed on the Council's permanent agenda, which examines only supposed Israeli violations of Palestinian human rights, while ignoring the threats or actions of terrorist groups, or the nations that support them, and their calls for the destruction of other U.N. Member States. To quote Israel's Ambassador to the U.S., Michael Oren, "Israel basically was the equivalent of being summoned to a court in which its guilt was already presumed . . . I can't think of any country in the world which would participate in such a farce of justice."

Indeed, while this report condemns Israel's actions, it ignores the precipitating causes of

Israel's self-defensive actions, concluding that Israel's military operations were "deliberate and systematic," and directed at the people of Gaza as a whole, failing to acknowledge Israel's right to defend itself against terrorism, namely the thousands of rockets launched daily at its citizens. Moreover, the Goldstone Report ignores the extraordinary steps taken by Israel to minimize civilian casualties, often putting its own soldiers at greater risk to do so.

The United States and Israel have shared a close relationship of friendship, cooperation, and strategic alliance that serves as an example to the rest of the world. In order to preserve and foster this relationship, I believe it is imperative for the United States to unequivocally reject the findings of the Goldstone Report. And while recent years have unfortunately been marked by escalating armed conflict between Israel and Hamas, the United States should stand steadfast in its commitment to a free and secure Israel as the Middle East comes to embrace the liberties and freedoms of democratic societies.

HONORING DR. KATHLEEN WESTON  
OF KENTON AND GROSSE  
POINTE, MICHIGAN**HON. BART STUPAK**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. STUPAK. Madam Speaker, I rise to recognize Dr. Kathleen Weston, a remarkable woman who has spent her life at the forefront of medical research in the field of prescription drug toxicology. Dr. Weston's work has included large-scale production development of the first Salk polio vaccine for worldwide distribution and providing legal advice on toxicology issues for a range of government agencies. At 102 years of age, Dr. Weston continues to be an active contributor to her family and community.

Dr. Weston was born in 1907 in the village of Kenton in Michigan's Upper Peninsula. Born Kathleen Shingler, she was one of four children; her father worked as a general store keeper and her mother was a school teacher. After graduating from high school, one of two in her class to do so, Dr. Weston enrolled in Northern State Normal School (now Northern Michigan University) where she graduated with a degree in biology in 1929. After beginning her career teaching biology at Munising High School, Dr. Weston joined her husband, Jean K. Weston, in enrolling in graduate school at the University of Michigan earning a master's degree in anatomy and genetics in 1934.

After taking a position teaching anatomy and physiology to nursing students, Dr. Weston enrolled in medical school at Temple University. Weston credits the nurses she taught with her acceptance to the program after the dean struck a deal that he would admit her, provided she could get the nurses to pass anatomy and physiology. All of the nurses passed and Dr. Weston graduated from medical school in 1951, one of five women in a class of 125.

Upon graduation Dr. Weston moved to Detroit with her husband who worked to develop

a modern toxicology laboratory for Parke-Davis and Company. As one of five pharmaceutical companies to produce the Salk polio vaccine for worldwide distribution, the head of Parke-Davis research recruited Dr. Weston to work on the Salk project because of her experience with microscopes and the nervous system. During the interview process Dr. Weston broke down several barriers for women—Parke-Davis agreed to pay her what it was paying other MD's working for them, far more than the salary they usually paid women at the time, and following the interview she was the first woman to ever lunch in the company's executive dining room.

As Parke-Davis began to produce the Salk polio vaccine on a large scale, Dr. Kathleen Weston directed infectious control tests of the vaccine to certify no live virus was present. She went on to become head of the Parke-Davis toxicology laboratory in Ann Arbor, Michigan. Dr. Weston considers her three years working on the Salk polio vaccine as her top scientific achievement.

Following Parke-Davis, Dr. Weston continued her work in toxicology at Burroughs-Wellcome in New York and as a consultant for government agencies including the National Institute of Health and the Environmental Protection Agency in Washington, D.C. While in Washington, D.C. she also taught at George Washington University Medical School.

Dr. Weston continued to work as a consulting toxicologist until 1997. Today she is still an active reader and is currently assisting the Kenton Historical Society with their research.

Madam Speaker, Dr. Kathleen Weston has spent her life as a leader in toxicology research and as a trailblazer for women entering the medical profession. Her work with the Salk polio vaccine helped save countless lives around the world. I ask Madam Speaker, that you and the entire U.S. House of Representatives join me in honoring Dr. Kathleen Weston on the important work she has accomplished in the field of prescription drug toxicology and in her work to help record the history of her hometown of Kenton.

A PROCLAMATION HONORING  
ANDY ALLENSWORTH FOR WINNING  
THE BOYS' DIVISION III  
STATE BASEBALL CHAMPIONSHIP**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. SPACE. Madam Speaker:

Whereas, Andy Allensworth showed hard work and dedication to the sport of baseball; and

Whereas, Andy Allensworth was a supportive team player; and

Whereas, Andy Allensworth always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with his friends, family, and the residents of the 18th Congressional District, I congratulate Andy Allensworth on winning the Boys' Division III State Baseball

Championship. We recognize the tremendous hard work and sportsmanship he has demonstrated during the 2008–2009 baseball season.

**HONORING CHARLES MYATT UPON  
HIS RETIREMENT**

**HON. BART GORDON**

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. GORDON of Tennessee. Madam Speaker, I rise today to honor Charles Myatt who is retiring from First Tennessee bank after a 40 year career.

In 1969, Charlie graduated from Middle Tennessee State University in Murfreesboro with a bachelor's degree in Marketing. He began his banking career with First Tennessee in Chattanooga, and his talent and understanding of business were quickly recognized. Over the course of his 19 years in Chattanooga, he was promoted to numerous leadership positions, including senior vice president and manager of the branch division, as well as senior vice president and manager of the east region of Chattanooga's correspondent division.

Charlie returned to Murfreesboro in 1988 to become First Tennessee's Rutherford County Regional President. During his 21 year tenure as Regional President, Charlie more than tripled the number of First Tennessee banking centers from three to ten locations in Rutherford County.

Throughout his career, Charlie proved to not only be an excellent banker but also a dedicated community leader. Charlie is an active member, deacon, and past chairman of the budget and finance committee at First Baptist Church in Murfreesboro. He has maintained a constant connection with MTSU, serving on numerous boards and committees, and he has been recognized as an MTSU "Distinguished Alumnus."

Charlie has also served as President of the Boys and Girls Club of Rutherford County, Chairman of the Rutherford County Chamber of Commerce, and Chairman of the Murfreesboro Parks and Recreation Commission.

The many awards and distinctions Charlie has received highlight his successful career, including the Daily News Journal—SunTrust Bank "Humanitarian of the Year" and the Rutherford County Chamber of Commerce "Business Person of the Year."

Charlie, I hope you enjoy a long and happy retirement with your wife, Judy, as well as your children and grandchildren.

**HONORING FIRST BAPTIST  
CHURCH OF CARROLLTON**

**HON. KENNY MARCHANT**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. MARCHANT. Madam Speaker, I rise today to honor the First Baptist Church of Carrollton, Texas. The church is celebrating its

100th anniversary, and I would like to take a moment to speak about the history of the church and its past and present contributions to our community.

Established in 1909 by thirteen people, the First Baptist Church began its history at a missionary tent revival. The church conducted their services within the same tent of its establishment and at the home of one of its founders. On January 12, 1910, the church moved their services to an old bank building. Months following the move to the bank, the Baptist Ladies Aid Society graciously donated land to the church where the tabernacle was built. Over the next forty years, the tabernacle underwent building additions and extensive renovations to include a nursery, an education building, and parsonages.

In 1952, with guidance from Reverend Thomas B. Guinn, the church began building a larger education building south of the sanctuary. In 1955, the services were moved to the education building, and in 1957 a special auditorium was added to the building to hold the services. Twenty-nine years later the congregation would move again.

On Easter Sunday, March 30, 1986, the present-day sanctuary was opened to the public, and on this day, 2,655 people came to celebrate it. As for the former church location, it was decided the building would be transformed into the International Missions Center. The center has hosted five missionary companies which have worked in Latin countries, Korea, Vietnam, Cambodia, and Africa.

Today, the congregation has grown to have 4,500 members, and it continues to grow. With such a large congregation, the First Baptist Church has become a cornerstone of the community. The church involves itself in charity events and community programs. Under the leadership of Dr. Brent Taylor, the pastor since 1999, the church has continued programs such as the Bus Ministry which provides transportation to children and teenagers who are unable to attend service and the Friendship House which provides food, clothes, and Christmas gifts for families in need.

I am honored to represent the First Baptist Church of Carrollton and I ask my colleagues to join me in congratulating the congregation upon their 100th anniversary.

**IN HONOR AND REMEMBRANCE OF  
MAJOR ROCCO M. BARNES**

**HON. DENNIS J. KUCINICH**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. KUCINICH. Madam Speaker, Major Barnes grew up in North Olmsted and graduated from North Olmsted High School. Shortly thereafter, he enlisted in the U.S. Army, and became part of the Army's Special Forces HALO detachment. He was trained as a Special Forces Medical Sergeant, Parachutist and Infantry Officer. Following his service in the Army, he joined the Army National Guard. Major Barnes' service in the military totaled thirty-one years; during which he served two tours in Iraq and two tours in Afghanistan.

Along the way, Major Barnes earned a Bachelor's degree in English Literature. In addition to his military service, his love for books and writing led him to a civilian career in the entertainment industry in California, where he became a playwright and screenplay writer. Additionally, he utilized his military experience within the private security sector; Major Barnes was the Director of West Coast Operations for Vance International.

Throughout his service in the military, Major Barnes consistently exemplified bravery, compassion and he often and readily offered his assistance to anyone in need, without regard to his own sacrifice. Major Barnes served as a father figure, guide and mentor to numerous young military recruits, and was like an uncle to the children of close friends. For many years, Major Barnes sponsored a child from Indonesia, sending money and letters of encouragement on a regular basis. Recently, Major Barnes was part of a successful effort to save the life a severely injured child in Afghanistan.

His compassion, unwavering integrity and professional excellence are documented in the numerous military commendations he received, including the California Medal of Merit, Bronze Star, Meritorious Service Medal, Army Commendation Medal, Humanitarian Service Award, Armed Forces Reserve Medal and the Global War on Terrorism Service Award.

Major Barnes is survived by his mother, Grace Barnes-Filo; his father, Harold Barnes; his sisters, Therese Rose Barnes, Jennifer Barnes, and Julie Keating; And, his nephew Timothy and niece, McKenzie. I also extend my condolences to his extended family members and many close friends.

Madam Speaker, and colleagues, please join me in honor and remembrance of Major Rocco Martin Barnes, whose heroic actions, kindness, generous spirit and love for those closest to him will be remembered always. Major Barnes was a courageous United States soldier, and an exceptional human being. His life, gone too soon, was framed by his great love for family, friends and country. The significant sacrifice, service, courage that defined the life of Major Barnes will be honored and remembered by the entire Cleveland community, and our Country.

**A PROCLAMATION HONORING BILL  
RUEGSEGGER FOR WINNING THE  
BOYS' DIVISION III STATE BASE-  
BALL CHAMPIONSHIP**

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. SPACE. Madam Speaker:

Whereas, Bill Ruegsegger showed hard work and dedication to the sport of baseball; and

Whereas, Bill Ruegsegger was a supportive team player; and

Whereas, Bill Ruegsegger always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with his friends, family, and the residents of the 18th Congressional

District, I congratulate Bill Ruegsegger on winning the Boys' Division III State Baseball Championship. We recognize the tremendous hard work and sportsmanship he has demonstrated during the 2008–2009 baseball season.

TRIBUTE TO ST. ANTHONY OF  
PADUA R.C. CHURCH

**HON. BILL PASCRELL, JR.**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. PASCRELL. Madam Speaker, I would like to call to your attention the work of an outstanding religious institution, St. Anthony of Padua R.C. Church in Paterson, New Jersey, which is celebrating its 100th Anniversary of dedicated service to its parishioners, and by extension, the greater community.

It is only fitting that St. Anthony of Padua R.C. Church Parish be honored in this, the permanent record of the greatest democracy ever known, for the spiritual home it has provided to American families, especially those just embarking on their path to the American dream, and the dedication to the entire community that helps keep this deeply rooted parish family growing towards the future.

On December 8, 1909, the feast of the Immaculate Conception, Salesian Father John Focacci, founding pastor, celebrated the first Mass in a small wooden building on Beech Street, Paterson. The parish was then called Saint Anthony of Padua Mission Church. From this humble beginning, Saint Anthony's ministered to the needs of a growing Italian immigrant population in the Sandy Hill section. Over the years, Saint Anthony's developed into a modern ecclesiastical and educational complex, the result of many sacrifices, hard work and dedication of its loyal parishioners.

Marking its 100th anniversary, Saint Anthony's finds itself once again tending to the spiritual and material needs of immigrants, this time from the Caribbean and Central and South America, seeking to realize the American Dream, parish services now echo English, Italian, and Hispanic voices, and trilingual choirs enrich the festive liturgies.

The parish has built its tradition by giving its parishioners spiritual roots in their neighborhood, providing a deep sense of community to those who have grown in the Church, receiving their sacraments there, as well as welcoming newcomers to the surrounding area. The St. Bonaventure's parish family has expanded throughout the years to include many parishioners who have moved out of the neighborhood, but return with their families to worship at the parish. I am certain that St. Anthony of Padua R.C. Church will continue to thrive and enrich not only those who worship there but so many others in need throughout the area.

The Salesian Fathers have withdrawn from the parish after more than a century of service. St. Anthony School closed its doors after 85 years as an educational Mecca to the neighborhood. Diocesan clergy now serve for the first time. Maintaining the parish's physical plant, especially the beauty of the House of

God, is a constant financial concern. Despite these challenges, Saint Anthony's continues undeterred in its mission, facing the uncertain future with hope and confidence in the parish and their faith. St. Anthony's remains a living monument to those who came before and those who are still here.

The job of a United States Congressman involves much that is rewarding, yet nothing compares to learning about and recognizing the efforts of wonderful, thriving communities like St. Anthony of Padua R.C. Church Parish.

Madam Speaker, I ask that you join all of the parishioners and clergy of St. Anthony of Padua R.C. Church Parish, all those whose faith has been enriched throughout the years, and me in recognizing the outstanding contributions of St. Anthony of Padua R.C. Church Parish to the church community and beyond.

HALL OF FAMER HAL MCCOY  
LEAVES THE PRESS BOX

**HON. MICHAEL R. TURNER**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. TURNER. Madam Speaker, as the Cincinnati Reds wind down their 2009 season, many in Dayton and southwest Ohio are feeling a sense of loss for the departure of the Reds' best known sports writer, Hal McCoy, who retires next week.

To call Hal McCoy an institution in sports journalism is somehow not giving him due credit. Hal McCoy is the Reds to the readers of the Dayton Daily News. He's been on the Reds' beat for 37 years—longer than any other sports reporter following a single team.

His "Real McCoy" blog on the Dayton Daily News site notes "McCoy has covered more than 7,000 major-league baseball games, written close to 18,000 baseball stories and eaten enough hot dogs to give Babe Ruth indigestion."

An honors graduate from Kent State University's School of Journalism, Hal McCoy has 43 Ohio and national writing awards. Most appropriately, he is also a member of the writer's wing of the National Baseball Hall of Fame in Cooperstown, NY.

Hal McCoy's retirement comes as the Dayton Daily News ceases its special reporting on the Cincinnati Reds due to budget limitations. As McCoy put it, "I'll finish the season covering the Reds and baseball, the last hurrah, then say my final goodbyes. They're putting me out to pasture. I only wish it was center field."

While he notes retirement is not something he looks forward to, Hal McCoy admits he may still do some writing for the Dayton Daily News. We hope so. Good luck and thanks for everything, Hal.

HONORING STANLEY L.  
STRAUGHTER

**HON. ROBERT A. BRADY**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. BRADY of Pennsylvania. Madam Speaker, I rise to honor my friend Stanley L. Straughter, Chairman of the Mayor's Commission on African and Caribbean Immigrant Affairs. Throughout his thirty year career, Stanley has been dedicated to the cause of international development and the betterment of those living in his community.

Having lived and worked in various places around the world, including Africa, Asia, Russia, and the Caribbean, Stanley has a long history of working with foreign nations to promote economic development. Stanley has worked with foreign governments on transparency and financial issues, trade policy, and foreign direct investment. Among his many roles, Stanley serves as an advisor to the World Conference of Mayors, as Senior Finance Advisor to Niger and Togo, and as a Senior Advisor to the African Development Bank.

In addition to Stanley's exceptional work in international development, he is also a committed member of other groups and organizations. Stanley is a member of various national and international organizations, such as African American Unity Caucus, the Foundation for Hospice in Sub-Saharan Africa, and the Global Interdependence Center. Stanley is also a member of organizations founded to improve his local community. He is a member of the Housing Association of Delaware County, the Philadelphia Revitalization and Education Program, and the Greater Philadelphia Chamber of Commerce.

In recognition of Stanley's hard work, he will be presented with the Outstanding Community Leader Award at the Laborers' Local 332 Friends of Labor Committee's Annual Black Tie Charity Dinner.

Stanley's impressive career proves a long-standing commitment to the cause of international development. His extensive work showcases his dedication to the improvement of the international community, as well as his local community.

IN RECOGNITION OF MAYOR  
THOMAS LONGO

**HON. DENNIS J. KUCINICH**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. KUCINICH. Madam Speaker, I rise today in recognition of Mayor Thomas Longo, as he retires from his position of Mayor of Garfield Heights, Ohio. For 25 years, Mayor Longo served his constituents with dedication, vision and sincere concern for the people of Garfield Heights, Ohio.

In 2006, after 23 years, Mayor Longo was officially recognized as the longest-serving mayor in Garfield Heights history. He is also recognized as the third-longest serving mayor in Cuyahoga County.

Before being elected mayor, Mayor Longo worked for nearly 20 years as a marketing executive with the former Ohio Bell Telephone Company. In 1975, he was elected to serve on the Garfield Heights City Council, representing the city's 4th Ward. In 1983, Mayor Longo left Ohio Bell upon his election as mayor of Garfield Heights, and successfully retained his seat in every successive election.

In conjunction with his service as the Mayor of Garfield Heights, Mr. Longo holds a seat on the Northeast Ohio Regional Sewer District board of trustees. He also serves as vice president of the Cuyahoga County Planning Commission. Throughout his career, Mayor Longo's vision and tenacity has become a reality, reflecting in several civic milestones that continue to benefit residents of all ages. Some of Mayor Longo's most noteworthy achievements include the building of the Garfield Heights Civic Center, Recreation Center, and Service Department garage, as well as the addition of a new fire station. Moreover, Mayor Longo's genuine love of the people of Garfield Heights is evidenced by his compassionate leadership and consistent willingness to reach out and assist families or individuals in need.

Madam Speaker and colleagues, please join me in honor and recognition of Mayor Tom Longo, as he retires from the role of Mayor of Garfield Heights, reflecting 25 years of loyal and dedicated service to the city and residents of Garfield Heights, Ohio. I wish Mayor Longo, and his entire family, an abundance of health and happiness as he journeys onward from here.

**A PROCLAMATION HONORING  
BOBBY HALL FOR WINNING THE  
BOYS' DIVISION III STATE BASE-  
BALL CHAMPIONSHIP**

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. SPACE. Madam Speaker:

Whereas, Bobby Hall showed hard work and dedication to the sport of baseball; and

Whereas, Bobby Hall was a supportive team player; and

Whereas, Bobby Hall always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with his friends, family, and the residents of the 18th Congressional District, I congratulate Bobby Hall on winning the Boys' Division III State Baseball Championship. We recognize the tremendous hard work and sportsmanship he has demonstrated during the 2008–2009 baseball season.

**TRIBUTE TO PASTOR CLEO O.  
ALBURY, JR.**

**HON. KENDRICK B. MEEK**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. MEEK of Florida. Madam Speaker, I rise to pay tribute to the late Pastor Cleo O. Albury

Jr., a beloved community leader, public servant and religious leader in my district. Pastor Albury was the pastor at Bible Missionary Baptist Church of Miami, Florida.

Pastor Albury, a Miami, Florida native, was an honor graduate of Booker T. Washington High School, attended Florida Agricultural & Mechanical University and graduated from the Southern Baptist Seminary Extension. Moreover, Pastor Albury was one of the first African-American Floridians to solo an aircraft in the United States Air Force.

Having dedicated his life to the church community, Pastor Albury began his pastoral career as pastor of the Mount Sinai Baptist Church from 1969 to 1973, and followed as pastor and charter member of the Bible Baptist Church until 1999.

As pastor of Bible Missionary Baptist Church, Pastor Albury organized a \$2 million dollar facility development program for the church and the community; instituted a food bank to combat hunger in Miami-Dade County; and created a contingency fund for the unemployed and needy in Miami-Dade County through the church. Pastor Albury's other community and religious involvement included: former member of Evangelism Task Force for Southern Baptist Convention, former board member of Direct Action and Research Training Center, D.A.R.T., former board member of People United to Lead the Struggle of Equality, P.U.L.S.E., and he led the 1983 missionary teaching and ministry program for the churches in Ghana, West Africa.

Madam Speaker, I ask you and all the members of this esteemed legislative body to join me in recognizing the extraordinary life and accomplishments of Pastor Cleo O. Albury Jr. Pastor Albury's life was a triumph, and he was blessed with a loving family who took pleasure in every aspect of his life and his interests. I commend him for his dedication to both Bible Missionary Baptist Church and the Baptist community as a whole. He will be missed by all who knew him, and I appreciate this opportunity to pay tribute to him before the United States House of Representatives.

**ON THE RETIREMENT OF DR.  
MACK KING CARTER AS SENIOR  
PASTOR OF NEW MOUNT OLIVE  
BAPTIST CHURCH IN FORT LAU-  
DERDALE, FLORIDA**

**HON. ALCEE L. HASTINGS**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. HASTINGS of Florida. Madam Speaker, I rise today to honor the life and career of Dr. Mack King Carter, Senior Pastor of New Mount Olive Baptist Church in Fort Lauderdale, Florida on the occasion of his retirement. New Mount Olive, founded in 1918, was extremely fortunate to receive Dr. Carter as co-pastor in August 1981. Dr. Carter has led the congregation since November 1982.

Dr. Carter, a native of Ocala, Florida, received a Bachelor of Arts degree from the University of Florida in 1970, a Master of Divinity degree in 1976 and a Doctorate of Ministry degree in 1978, both from Southern Baptist

Theological Seminary. He has done additional studies at Florida Memorial College and has received honorary doctorate degrees from Florida Memorial and Bethune Cookman College.

Dr. Carter is considered one of America's great African American "pulpiters." His travels have taken him throughout the United States and abroad, preaching, teaching and lecturing. A talented educator and popular speaker, his classes at the National Baptist Convention Congress of Christian Education are filled to capacity with preachers and lay persons who come to hear one of God's master teachers. The consummate theologian, he is considered a "preacher's preacher."

During his long career, Dr. Carter served three churches in Ocala, Florida and one in Prospect, Kentucky before coming to New Mount Olive. A great writer in addition to his other talents, he has authored four books: A Catechism for Baptists, To Calvary and Beyond, A Quest for Freedom and Interpreting the Will of God.

In his younger days, Dr. Carter was a huge fan of the New York Yankees. Everyone in the New Mount Olive family and visitors through the years fondly recall his greeting, "We're deliciously proud to have you." Since 1973, he has been the devoted husband of Patricia A. Thomas Carter and is the proud father of two wonderful daughters, Annalisa Robinson-Melton and Pamela Latrice Johnson. He is also the doting grandfather of Brittany N. Robinson and Carter Nathaniel Johnson.

Madam Speaker, it has been a great joy for me and this congregation to have Dr. Carter as a friend, supporter, comforter and mentor. I wish him the very best on his retirement.

**HONORING THE SERVICE OF THE  
LIBRARY OF CONGRESS POLICE**

**HON. ROBERT A. BRADY**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. BRADY of Pennsylvania. Madam Speaker, as Chairman of the Committee on House Administration in conjunction with Ranking Member DANIEL LUNGREN, we want to take a few moments to recognize and say thank you to the Library of Congress Police, who will be formally merged into the U.S. Capitol Police force on October 1, 2009.

The Library of Congress, founded by Congress in 1800, is not only the Nation's oldest federal cultural institution and research arm of the Congress, it is an unparalleled multimedia world resource containing more than 142 million items in its collections with more and more information in digital form, including numerous documents concerning the founding of the Nation and its history.

The Library's collections, buildings, and dedicated staff are widely known and respected and protecting these resources has been both the mission and achievement of the Library of Congress Police. Security at the Library, like other U.S. public institutions, includes protecting facilities, staff and visitors. Uniquely, the Library of Congress must also protect—for the present and future use of

Congress and the Nation—the largest, richest and most diverse collection of recorded knowledge ever assembled.

In the early days, Library of Congress buildings and grounds were policed by building guards commissioned as special policemen. In 1950 the Librarian of Congress was given statutory authority to designate Library of Congress special police as employees of the Library. In 1987 Congress authorized that the Library Police rank structure and pay be made comparable to the Capitol Police and began in the 1990s considering whether the two police forces should be merged. Over time, the Library Police became an integral and critical part of the Library's interlocking structure to protect not only people and buildings but the priceless collections from a variety of threats. With the Oklahoma City bombing in 1995, the 1998 shootings of the Capitol Police officers at the Capitol and especially after the September 11 terrorist attacks, Congress mandated significant security upgrades in the Capitol complex, including the Library of Congress. Finally, in the interest of security uniformity, the President signed into law PL 110–178 in 2008, formally merging the Capitol and Library of Congress police forces, providing, after a transition period, for completion by October 1, 2009.

Over many years, the Library Police have provided exemplary security and law enforcement for the Library of Congress. Library Police have demonstrated the highest level of dedication and excellence in both fulfilling their public safety mission and protecting the Library's irreplaceable collections.

As the force is now merged into the Capitol Police, it marks the end of the storied era of the Library of Congress Police as a distinct entity.

We ask our colleagues to thank them. We want every member of the force, past and present, to know how much we in the Congress have valued their service and professionalism.

IN HONOR AND REMEMBRANCE OF  
UNITED STATES NAVY ENSIGN  
MATTHEW RICHARD MCFARLAND

**HON. DENNIS J. KUCINICH**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. KUCINICH. Madam Speaker, I rise today in honor and remembrance of United States Navy Ensign Matthew Richard "Uncle Buck" McFarland, who courageously and selflessly rose to the call to duty and made the ultimate sacrifice in service to his country.

Matthew McFarland was born on April 1, 1922, the youngest of eight children. Affectionately known as "Uncle Buck" by his family, Ensign McFarland's parents, Hugh McFarland and Grace O'Reilly, and siblings, Hugh, Joseph, Katherine, Margaret, Mary Grace, John and Andrew, were a close family with a strong connection to the Catholic faith. At Holy Name Church, Ensign McFarland served Mass every morning as a child until the day before he entered the Navy. Before entering the Navy Reserves in 1943, he worked at Otis Steel in

Cleveland. In 1944, he earned the rank of Naval Aviator and trained for flight in a Fighting Squadron. In 1947, Ensign McFarland was posthumously awarded the WWII Victory Medal by the United States Navy Chief of Naval Personnel.

He died while serving our country on February 15, 1945 at the age of 22. Navy Ensign Pilots, McFarland and Lt. Battenfeld vanished from the sky during a routine flight from Sand Point Naval Air Station in Washington State. Seven months later the wreckage was discovered on the side of a mountain. For more than 60 years, the bodies of the young soldiers rested in a temporary grave, buried among rock and forestry, their names engraved on the flat surface of a boulder and a cross carved at the base of a tree nearby.

Members of the U.S. military's Joint POW/MIA Accounting Command Team led the effort to return Ensign McFarland and Lt. Battenfeld to their families and permanent places of rest. Members of the Army Reservists from the 737th Transportation Company volunteered in the effort. On September 25, 2009, the body of Navy Ensign Matthew McFarland returns home to Cleveland, Ohio, where friends and family will gather in his honor and memory.

Madam Speaker, and colleagues, please join me in honor and remembrance of Navy Ensign Matthew Richard "Uncle Buck" McFarland, whose service to our nation will be honored and remembered by the Cleveland community. Though sixty-four years have passed, the memory of Ensign McFarland will remain in the hearts of his many nieces, nephews, cousins and friends.

A PROCLAMATION HONORING  
BRENNAN SOKOWOSKI FOR WIN-  
NING THE BOYS' DIVISION III  
STATE BASEBALL CHAMPION-  
SHIP

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. SPACE. Madam Speaker:

Whereas, Brennan Sokowoski showed hard work and dedication to the sport of baseball; and

Whereas, Brennan Sokowoski was a supportive team player; and

Whereas, Brennan Sokowoski always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with his friends, family, and the residents of the 18th Congressional District, I congratulate Brennan Sokowoski on winning the Boys' Division III State Baseball Championship. We recognize the tremendous hard work and sportsmanship he has demonstrated during the 2008–2009 baseball season.

HONORING BISHOP T. GARROTT BENJAMIN, JR., D. MIN., SENIOR PASTOR OF LIGHT OF THE WORLD CHRISTIAN CHURCH FOR OVER 40 YEARS OF LEADERSHIP AND SERVICE

**HON. ANDRÉ CARSON**

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. CARSON of Indiana. Madam Speaker, I rise today to honor Bishop T. Garrett Benjamin, Jr., Deacon Minister and Senior Pastor of the Light of the World Christian Church in Indianapolis.

For the past 40 years, Bishop Benjamin has exhibited bold and charismatic leadership on behalf of his congregation and his community. His efforts on behalf of the World Christian Church have made his congregation one of the most active and well respected in the city. Through his dedicated service, Bishop Benjamin has earned a reputation as a formidable advocate on behalf of poor minorities, fighting unceasingly for racial justice across Indianapolis.

At a time when committed and compassionate leadership is much too rare in public life, Bishop Benjamin's indomitable spirit continues to inspire generations to improve our communities and serve their neighbors through Christian ministry. Thousands of local residents have been touched by Bishop Benjamin and his congregation, a number that continues to grow daily.

Today, I ask my colleagues to join me in honoring Bishop Benjamin for his 40 years of dedicated leadership and service as the esteemed Pastor of Light of the World Christian Church in Indianapolis, Indiana.

INTRODUCTION OF THE FEDERAL  
JUDGESHIP ACT OF 2009

**HON. HENRY C. "HANK" JOHNSON, JR.**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. JOHNSON of Georgia. Madam Speaker, today I am introducing the Federal Judgeship Act of 2009, which calls for the creation of additional federal judgeships in the courts of appeals and district courts.

The United States legal system is the envy of the world. Our legal system has historically provided fair, timely, and expert adjudication of civil disputes and criminal prosecutions for hundreds of years. There are, however, a number of challenges facing our federal legal system that must be addressed if it is to maintain the standard of service our citizens expect and deserve. One of these challenges is an overworked judiciary.

Many of our federal courts are in desperate need of new judges. It has been nearly 19 years since Congress has passed a comprehensive judgeship bill. In this time, caseloads for district courts have gone up 31 percent and the caseloads for appeals courts have gone up 38 percent, placing significantly increased demands upon our federal court

system. This unfairly burdens our judges and leads to delays in the administration of justice. If we are to avoid realization of the old adage, "justice delayed is justice denied," we must not delay in providing our judiciary with the resources it needs.

The Federal Judgeship Act of 2009 calls for 12 additional court of appeals judgeships and 51 additional district court judgeships. The number of judgeships called for in this legislation mirrors those called for by the Judicial Conference of the United States in its 2009 recommendations.

The Judicial Conference's recommendations are based on a comprehensive analysis of the workload of federal judges, which took into consideration not only the number, but also the nature and complexity of the cases before the various courts. According to this analysis, the average weighted case filings for the 25 district courts receiving additional judgeships under this bill were 573, while the target number of case filings is only 430. In other words, the workload before these courts is 133 percent of what is considered the normal capacity of these courts. Clearly, this is stretching our judiciary beyond reason.

In the interests of timely and effective administration of justice, we must pass comprehensive judgeships this Congress. I thank my colleagues Representatives JOHN CONYERS, SILVESTRE REYES, SHEILA JACKSON-LEE, and ROBERT WEXLER, who have worked with me on this very important piece of legislation. I also ask the rest of my colleagues in the House of Representatives to support rapid passage of this legislation.

#### CONGRATULATING CLARKSVILLE POLICE CHIEF GREG DONALDSON—

#### HON. JOHN BOOZMAN

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. BOOZMAN. Madam Speaker, I would like to congratulate Clarksville Police Chief Greg Donaldson for his service to protecting the public, upholding the law and his vision for community involvement in helping find missing children. For his dedication and commitment, Chief Donaldson has been named the Arkansas Association of Chiefs of Police, AACP, 2009 Chief of the Year. Chief Donaldson shares this honor with the community, telling the Russellville Courier that "Without the employees here and the members of the community, I could have never been chief of the year," he said. "It would be easy for me to say, 'I have this award, and this award is about me,' but it belongs to the whole community."

Chief Donaldson is continuously putting the community first, as a police department employee for two decades, serving in a number of roles including dispatcher, patrol officer, investigator, supervisor, Sergeant and for the last 21 months as Chief.

At the helm of the department Chief Donaldson has implemented new and innovative programs including partnering with Morgan Nick Foundation for the "Picture Them Home Campaign" that puts pictures of missing children

on patrol cars. The Clarksville Police Department was the first to do this and since then several other law enforcement agencies have followed. In recognition of the department's efforts Chief Donaldson and the Clarksville Police Department was awarded the "2009 Morgan's Choice Award." Chief Donaldson is always looking for ways to make an impact on the community. "The day I walk out the door, I want people to be able to say 'he made a difference in the lives of children and grandchildren.' If they say that, I've done my job," he told the Russellville Courier.

It is clear he has done that and I am confident that will continue. I commend Chief Donaldson for his service as well as his good work and wish him continued success in the future. I ask my colleagues today to join with me in honoring Greg Donaldson, a wonderful public servant, who is and always will be dedicated to the people of Clarksville.

#### IN HONOR OF WALTER STRINE, SR.

#### HON. JOE SESTAK

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. SESTAK. Madam Speaker, I rise to honor the remarkable life of Walter Strine, Sr., who passed away on September 22, 2009 at the age of 100.

A living example of the Horatio Alger ideal, Mr. Strine was trained as a bricklayer at the Williamson Free School of Mechanical Trades, from which he graduated in 1929. It was at Williamson—established in 1888 to provide financially disadvantaged young men with the opportunity to become productive and respected members of society—that the foundation of a very successful life was laid. From there Walter Strine embarked on a career that included teaching, real estate development, and philanthropy. In each aspect of his exceptional life he reflected very proudly on the virtues and skills he learned at Williamson. His work ethic, intellect, devotion to family and community were unmatched and left the most positive, lasting impression on everyone who knew him.

Married to the love of his life, Elizabeth Sterling Strine, for over 70 years and the father of Walter, Jr. and William—both talented and successful men in their own right—his life could not have been fuller. He was inordinately generous to Williamson—where he was responsible for the construction of the Strine Learning Center and he was a member of the Board of Trustees for 25 years.

His vision, basic decency, and business acumen shaped the Borough of Media, Pennsylvania into one of the most livable and prosperous communities in our Commonwealth. In addition to his work developing the area's commercial district, he also purchased the Media Theater and transformed it over time into a center for the Performing Arts that is a showcase for local talent and venue for residents from throughout Delaware County to gather in the company of one another.

I cannot imagine a better life than the one lived by Walter Strine, Sr. The results of his

work abound in his hometown, he made a great and better difference in the lives of thousands and he was loved and respected. He will be sorely missed.

#### A PROCLAMATION HONORING CHASE BURCHER FOR WINNING THE BOYS' DIVISION III STATE BASEBALL CHAMPIONSHIP

#### HON. ZACHARY T. SPACE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. SPACE. Madam Speaker:

Whereas, Chase Burcher showed hard work and dedication to the sport of baseball; and

Whereas, Chase Burcher was a supportive team player; and

Whereas, Chase Burcher always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with his friends, family, and the residents of the 18th Congressional District, I congratulate Chase Burcher on winning the Boys' Division III State Baseball Championship. We recognize the tremendous hard work and sportsmanship he has demonstrated during the 2008–2009 baseball season.

#### EARMARK DECLARATION

#### HON. ROB BISHOP

OF UTAH

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. BISHOP of Utah. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2265, the Magna Water District Water Reuse and Groundwater Recharge Act, 2009.

Requesting Member: ROB BISHOP

Bill number: H.R. 2265

Account: Title XVI of Public Law 102–575, the Reclamation Wastewater and Groundwater Study and Facilities Act

Legal name and address of requesting entity: Magna Water District, located at 8600 W. 2711 S., PO Box 303 1, Magna, Utah 84044

Description of project: \$12,000,000.00 to allow for the planning, design and construction of the Magna Water District water reuse and groundwater recharge project.

#### HONORING THE YALE WHIFFENPOOFS OF YALE UNIVERSITY ON THEIR CENTENNIAL ANNIVERSARY

#### HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Ms. DeLAURO. Madam Speaker, it gives me great pleasure to rise today to extend my sincere congratulations to the Yale

Whiffenpoofs—the oldest continuous collegiate a cappella singing group in America—as they celebrate their centennial anniversary.

The Whiffenpoofs of Yale University were first formed at the old Mory's Bar on Temple Street in New Haven, Connecticut 100 years ago by 5 men, Denton Fowler, James Merriam Howard, Carl Lohmann, Meade Minnigerode, and George Pomeroy, where they performed weekly concerts. Thus began one of Yale University's most celebrated and hallowed traditions.

Each year, 14 men are selected to participate in this time-honored institution and are asked to make an international tour to U.S. embassies, foreign capitals, palaces, churches, and the smallest of villages on every continent. These outstanding songsters serve as ambassadors of song and goodwill on behalf of Yale University, college students, and the United States. The Whiffenpoofs also stand as a model for a cappella singing groups formed at colleges and universities across America.

The Whiffenpoofs are perhaps best known for the "Whiffenpoof Song"—an unpublished setting of Rudyard Kipling's "Gentlemen-Rankers." The "Whiffenpoof Song" was the adopted theme song of the brave men of the Black Sheep Squadron of the U.S. Army Air Force in World War II and, over the years, has been recorded by some of America's greatest artists including Bing Crosby, Ella Fitzgerald, Louis Armstrong, and Elvis Presley. We could not be more proud of all that this wonderful singing group has accomplished over its 100-year history.

For their many contributions to our community and for all the joy they have brought to audiences around the world, I am very proud to stand today to extend my heartfelt congratulations to the Yale Whiffenpoofs as they celebrate their 100th Anniversary. I wish them all the best for another century of song, tradition, fellowship, and friendship.

**A PROCLAMATION HONORING  
DUSTY BYERS FOR WINNING THE  
BOYS' DIVISION III STATE BASE-  
BALL CHAMPIONSHIP**

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. SPACE. Madam Speaker:

Whereas, Dusty Byers showed hard work and dedication to the sport of baseball; and

Whereas, Dusty Byers was a supportive team player; and

Whereas, Dusty Byers always displayed sportsmanship on and off of the field; Now, Therefore, be it

Resolved, that along with his friends, family, and the residents of the 18th Congressional District, I congratulate Dusty Byers on winning the Boys' Division III State Baseball Championship. We recognize the tremendous hard work and sportsmanship he has demonstrated during the 2008–2009 baseball season.

**PERSONAL EXPLANATION**

**HON. CHRISTOPHER P. CARNEY**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. CARNEY. Madam Speaker, on Tuesday, September 22, I was absent for three roll-call votes. If I had been here, I would have voted: "yes" on rollcall vote 720, "yes" on rollcall vote 721, and "yes" on rollcall vote 722.

**HONORING DIANE LYNCH**

**HON. WALTER B. JONES**

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. JONES. Madam Speaker, I rise today to pay tribute to Diane Lynch, a great North Carolinian and a great educator, upon the occasion of her August 31st retirement from the Public School System in my State.

All of us in Congress know, or should know, that educating our youth is key to insuring a prosperous future. Diane Lynch, of the Moss Hill Community of Kinston, North Carolina, dedicated her entire working life—some 36 years—to the ideal of imparting the very best education possible to young people.

For Diane, educating young people was an imperative that she fulfilled tirelessly every day, even when doing so was sometimes thankless and unappreciated. Diane Lynch is an example to all of us of the power of personal commitment. Her professionalism, dedication, perseverance and love served very well, not only her students and co-workers, but also the hundreds of families whose lives she touched and improved.

Starting as a teacher in 1973, and then rising to assistant principal, then principal and finally to associate superintendent, Diane's career spanned 36 years. Her energy and love of education will be sorely missed.

Congratulations to Diane Lynch for her long and valuable service.

Madam Speaker I ask that an article about Diane Lynch's retirement, which appeared in the August 18, 2009 edition of the Kinston Daily Free Press be submitted in its entirety.

[From the Kinston Daily Free Press]

SAYING GOODBYE

(By Chris Lavender)

Diane Lynch, long-time teacher and principal and current associate superintendent of Lenoir County Schools, will soon say goodbye to a career she has developed for the past 36 years.

Lynch will retire from the school district Aug. 31, after making a decision this summer to walk away. Lenoir County Schools Superintendent Terry Cline announced Tuesday that Lynch had decided to retire.

The announcement was made during a Lenoir County Schools opening ceremony for staff held at Kinston High School. A majority of those in attendance weren't aware Lynch was stepping down, Cline said.

Cline said the school board members were notified last Thursday of Lynch's retirement plan. On Monday, the school district's senior central staff and principals were notified. Lynch said there was no specific reason she decided to retire this month.

"It's just the right time," she said.

Lynch said she plans to stay active in the school district until her final day. Lenoir County schools open for students Tuesday. She said she plans to visit several schools during opening week.

Cline said he was reluctant to accept Lynch's retirement because of her value to the school district.

"I am happy for her but it's a sad day for Lenoir County Schools," Cline said. "I can't replace her because she is a very special lady."

Cline said he hasn't decided yet if the school district will hire an interim or full-time associate superintendent. A decision will come in the next few months. Cline said.

Lynch began her career during 1973 with Wayne County Schools, where she taught elementary school. After several years there, she continued her career at Moss Hill Elementary School in Lenoir County. She taught at Moss Hill for nine years.

Lynch later became assistant principal at La Grange Elementary School and then principal at Northwest Elementary School for 13 years. For the past three years, Lynch has served as associate superintendent.

During her career, Lynch said she strived to help students excel and reach their goals. The personal connections she made with her students will last forever, she said.

"I am always satisfied when I see my former students in the community and we talk about good times," Lynch said. "I was always fair and consistent and worked to earn the respect of my co-workers."

Lynch said she doesn't know what she will do during her retirement. She said she is looking forward to a break from the daily grind.

"I'm going to rest for a few months," Lynch said.

During their five years together, Cline said he developed a strong working relationship with Lynch.

"We cried and laughed together," Cline said. "There were things that I told her that I didn't tell my wife because I didn't want to get my wife involved in the politics. Superintendents have very lonely positions."

Lynch acknowledged she had a great working relationship with Cline. She thanked him for working to make Lenoir County Schools a better place for students.

**MINNIE LOUISE THOMPSON  
GARDNER**

**HON. BOB INGLIS**

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. INGLIS. Madam Speaker, October 8, 2009 marks the 100th anniversary of Minnie Louise Thompson Gardner. She departed this life on Sunday, January 7, 2007. Her life was committed to God, service to family. Friends and community.

Early in her youth, she accepted Christ and united with Springfield Baptist Church, where she became active in the choir, Usher Board, Baptist Student Union and the Missionary Society. Minnie worked faithfully until the birth of her children and care of ailing parents curtailed her involvement. However, her dedication and faithfulness to the legacy and growth of the church during her more than 80 years of membership remained constant. Life led

Minnie toward employment within the field of hospitality. She retired from public service as the head cook of the Holiday Inn Chain of Greenville, South Carolina.

Minnie attended Greenville County public schools and was among the first graduating class of the Sterling Normal and Industrial Institute in 1927. During this time, she was a founding member and soloist of the Marian Anderson Music Club. Minnie was also a founding member of the Hattie Duckett Cultural Club. She was recognized in 1998 by the Phillis Wheatley Center and American Federal Bank for sharing her story as an outstanding member of the Phillis Wheatley basketball team. Following high school, Minnie continued her education at Benedict College, where she was awarded a Teacher's Certificate.

Minnie's lifelong commitment to family was evident in the foundation that she laid to promote personal and professional success of her children and children in the community. SHARE recognized Minnie as a community leadership icon and legendary human advancement advocate for her service to the antipoverty/Community Action movement in upstate South Carolina. In response to her long-standing dedication to the community, the Thompson-Gardner Park in the newly developed Viola Street Community was dedicated in her honor by the city of Greenville on July 11, 2005.

The Minnie Gardner College Fund for the CDC Agency for Toxic Substance Disease Registry Chapter of Blacks in government and the Minnie L. Gardner Scholarship have been established since her death.

#### IN RECOGNITION OF THE 40TH ANNIVERSARY OF AUBURN UNIVERSITY AT MONTGOMERY

### HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. ROGERS of Alabama. Madam Speaker, I respectfully request the attention of the House today to pay recognition to an important educational institution in Montgomery, Alabama, as it celebrates 40 years of excellence in higher education.

In September 1969, the doors to Auburn Montgomery were formally opened to students. Since that time, the student population has grown by a factor of 9 and the areas of study from 16 to over 90. Through its 40 years, Auburn Montgomery has conferred more than 31,000 degrees.

Like so many of east Alabama's proud institutions of higher education, Auburn Montgomery has produced great leaders and thinkers who have made enormous contributions to our State and our Nation. We are all proud of AUM for achieving this important milestone, and look forward to its continued growth and prosperity in its next 40 years of academic excellence.

#### PERSONAL EXPLANATION

### HON. CHRISTOPHER P. CARNEY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. CARNEY. Madam Speaker, I was unable to be here to cast my vote in support for the Unemployment Compensation Extension Act, but I strongly support the targeted extension of unemployment benefits provided by H.R. 3548.

The 314,000 Americans set to lose unemployment insurance this month—and the more than 1 million who will exhaust their benefits by the end of the year—need help to avert an even bigger financial tragedy, such as the loss of their home or a medical bankruptcy, which would ripple out into our larger economy.

Extending these benefits is a cost-effective and efficient way to stimulate the economy. Every \$1 spent on unemployment benefits generates \$1.63 in new economic demand. Not only does it help the unemployed worker stay on top of their bills, it keeps capital flowing through small businesses and keeps the larger economy on the right track to recovery.

#### A PROCLAMATION HONORING JAMIE BURCHER FOR WINNING THE BOYS' DIVISION III STATE BASEBALL CHAMPIONSHIP

### HON. ZACHARY T. SPACE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. SPACE. Madam Speaker:

Whereas, Jamie Burcher showed hard work and dedication to the sport of baseball; and Whereas, Jamie Burcher was a supportive coach; and

Whereas, Jamie Burcher always displayed sportsmanship on and off of the field; Now, Therefore, be it

Resolved, that along with his friends, family, and the residents of the 18th Congressional District, I congratulate Jamie Burcher on winning the Boys' Division III State Baseball Championship. We recognize the tremendous hard work and sportsmanship he has demonstrated during the 2008–2009 baseball season.

#### CRANIOFACIAL ACCEPTANCE MONTH

### HON. MIKE ROSS

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. ROSS. Madam Speaker, I am pleased to share my support and acknowledgement of September as Craniofacial Acceptance Month.

Each year, approximately 100,000 children are born in the United States with some form of facial disfigurement. In many cases, reconstructive surgeons can correct these problems early—often while the children are still infants. In other cases, however, reconstruction is not as easy or even possible.

The Children's Craniofacial Association (CCA) is an organization that supports these children and their families. Nationally and internationally, CCA addresses the medical, financial, psychosocial, emotional, and educational concerns relating to craniofacial conditions. CCA's mission is to empower and give hope to individuals and families affected by facial differences. I am honored to acknowledge that 2009 marks their 20th anniversary and am pleased to share my support and thanks for their designation of September as Craniofacial Acceptance Month.

In 2001, my constituent Wendelyn Osborne brought the craniofacial disorders issue to my attention. At a young age, Wendelyn was diagnosed with Craniometaphyseal Dysplasia (CMD). CMD is a rare disorder that affects only 200 people worldwide. Specifically, CMD involves an overgrowth of bone which never deteriorates. In Ms. Osborne's case, this caused an abnormal appearance, bilateral facial paralysis, and deafness. Other cases can include those characteristics, as well as blindness and joint pain. Wendelyn has undergone many extensive reconstructive surgeries to counteract the medical difficulties that comprise her disorder.

Unfortunately, the majority of reconstructive surgeries, such as those Wendelyn has undergone, are not covered by insurance companies. Rather, many of them are treated as strictly cosmetic. As a result, individuals are forced to fight their insurance companies just to receive the life-saving surgeries they need. The fact that these surgeries have been grouped in the same "cosmetic" category as surgeries that simply make people look better or younger is a tragedy.

It is my hope that further education and understanding of craniofacial disorders will allow our nation to move forward and update existing laws to better meet the medical needs of those needing reconstructive, not cosmetic, surgery. I urge my colleagues—especially in a year focused on health care reform—to join in this effort and help recognize these conditions through Craniofacial Acceptance Month so that all Americans can access the care they need.

#### TRIBUTE TO THE CITY OF JONESBORO'S 150TH ANNIVERSARY

### HON. MARION BERRY

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. BERRY. Madam Speaker, I rise here today to pay tribute to the city of Jonesboro on the 150th anniversary of its establishment. I stand to recognize this milestone in the city of Jonesboro's history and reflect on how far this community has progressed.

The city of Jonesboro is located in Craighead County, which was created in 1859. Despite the opposition of State Senator Thomas Craighead, the Arkansas Senate created the new county from parts of Greene, Mississippi, and Poinsett counties. In an effort of goodwill, State Senator William Jones, who represented St. Francis and Poinsett counties and was a proponent of the bill, named the

new county after Senator Craighead. In return, once the county seat of Jonesboro was established that same year, it was named in honor of Senator Jones.

In 1860, historical records indicate Jonesboro had a population of 50. Currently, the city is a bustling community approaching 60,000 people and has grown to become one of the strongest economic centers in the state. Jonesboro is known for award winning school districts, Arkansas State University, outstanding medical centers, and a regional destination for arts and entertainment. Jonesboro is an outstanding community to me and I am honored to represent all of the wonderful people who call Jonesboro their home.

Over the past 150 years Jonesboro has seen many changes but one thing remains the same—the people of this city, throughout good times and bad, have always come together to cherish, celebrate and support one another. This is what makes the community unique and it is their key to success. I am certain the City of Jonesboro has a bright future and will continue to be the cornerstone for prosperity in our state.

#### BILL OF RIGHTS FOR THE NEW MILLENNIUM

**HON. JOHN J. DUNCAN, JR.**

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. DUNCAN. Madam Speaker, Billy Stokes is the founder and senior partner of the law firm of Stokes, Williams, Sharp and Davies in Knoxville, Tennessee. He was one of the highest-ranking state officials during the administration of former Governor Don Sundquist.

Like most Americans today, he is worried about our Country's future. He has given a lot of thought to where we are and where we are headed as a nation, and he has written to me with a proposal for a "Bill of Rights for the New Millennium."

#### BILL OF RIGHTS FOR THE NEW MILLENNIUM

##### I. WE THE PEOPLE OF THE UNITED STATES:

This means all of us;

##### II. IN ORDER TO FORM A MORE PERFECT UNION:

We pledge to cooperate and communicate with members of the opposing party to address and to resolve issues affecting our Nation in a civil manner;

Communication and cooperation does not require abandoning our core principles;

The Federal Government will not impose its will on state and local governments;

##### III. ESTABLISH JUSTICE:

The right of the people to seek redress and remedy in the Courts will not be impeded;

Those who seek to demean or simply profiteer by abusing our judicial system through frivolous lawsuits will not be tolerated.

##### IV. INSURE DOMESTIC TRANQUILITY:

Lines of communication from the citizenry to the Government will be open and welcome;

Citizens will not be intimidated or insulted for petitioning the government through their elected representatives, to be heard;

##### V. PROVIDE FOR THE COMMON DEFENSE:

The greatest and most honorable military in the history of the world will be maintained and supported;

We will use our might to protect our freedoms and will protect the USA from enemies of such freedoms, state-sponsored or otherwise; foreign or domestic, by all means necessary;

##### VI. PROMOTE THE GENERAL WELFARE:

We will see that access to adequate healthcare is available to all Americans;

The helpless will be helped;  
Meaningful opportunities for success will be open to all who are willing to work;

##### VII. SECURE THE BLESSINGS OR LIBERTY TO OURSELVES AND OUR POSTERITY:

We will support the principles of hard work that this Nation is built upon;

While taxes are necessary, hard work and success will not be punished by attempts to redistribute wealth gained thereby;

We cannot and will not pile debt upon our children and grandchildren;

##### VIII. WE WILL DEFEND AND PROTECT THE CON- STITUTION OF THE UNITED STATES OF AMER- ICA AT ALL TIMES.

#### EMPLOYER-OWNED LIFE INSURANCE LIMITATION ACT

**HON. LUIS V. GUTIERREZ**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. GUTIERREZ. Madam Speaker, I rise today to announce the introduction of my bill, the "Employer-Owned Life Insurance Limitation Act." Every employee makes a commitment to his employer. He commits time, energy and creativity to the advancement of the company.

However, instead of making a commitment to their employees—their health, education and wellbeing—many companies are gambling on their lives by taking out employer-owned life insurance policies in which the company is the only beneficiary. The family and loved ones of a deceased individual should be the only beneficiaries of a life insurance policy, not a speculating company.

As highlighted in Michael Moore's new film, "Capitalism: A Love Story," a corporation is allowed to take out life insurance on its employees—often without their knowledge or consent—and cash in, in the event of their death. These policies are being taken out on everyone from the CEO to the janitor, and the only beneficiary of these countless policies is the company itself.

Every day, 14,000 people in this country lose their health insurance; but instead of investing in the health, life and longevity of its employees, much of Corporate America has adopted the practice of investing its resources in the demise of its employees. My legislation would prohibit the practice of taking out employer-owned life insurance except in the case where the death of an individual would incur a significant cost to the company—that is individuals making \$1 million or more in salary.

In addition, this legislation would require that the company disclose the policy to the covered individual within 30 days of taking out the policy. Also, should the employee move on to another job, the employer would have 30 days to cancel the policy. This will stop the practice of taking out policies without an employee's knowledge and maintaining the policy long after the employee has left the company.

Employees who find that their employer has taken out a policy in violation of this legislation would have the right to bring civil action against their employer to stop the company from holding the contract. Additionally, the employee could be awarded damages amounting to either \$500,000 or, in the case of a deceased employee, three times the amount of the benefit paid to the employer. In the case of a living employee, the employee would be awarded three times the benefit as it exists on the date of action, whichever is greater.

I believe that taking out employer-owned life insurance policies on non-executive level employees is criminal, and my legislation would punish it accordingly by establishing such a violation as a misdemeanor punishable by a \$500,000 fine and imprisonment for up to one year.

This legislation would also commission a GAO study to examine the prevalence of these policies and the number of violations under this bill to ensure that we have the most accurate information on this practice.

Madam Speaker, each year companies spend \$8 billion in premiums on these policies. That is \$8 billion that could be directed toward employee healthcare, pensions and educational opportunities. Instead, it goes to what is essentially a game of Craps, where an employer is betting and banking against the employee's life.

I ask my colleagues to join me in eliminating this unjust practice.

#### TRIBUTE TO THE MEMORY OF MAXINE JAMES

**HON. DONALD M. PAYNE**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. PAYNE. Madam Speaker, I ask my colleagues here in the House of Representatives to join me as I rise with a heavy heart to remember my long time Chief of Staff and friend, Maxine James. Maxine passed away on September 21, 2009, after a lengthy illness. Prior to her retirement last year, Maxine served as my Chief of Staff from the time of my inauguration in 1989. She was an integral part of my career and I credit much of my success to her capable skills. Maxine was the consummate professional who served as my personal advisor and as Staff Developer for my office.

Maxine James was born and raised in Newark, New Jersey. She was a long time resident of Newark until she purchased a home in East Orange 12 years ago. Maxine was always interested in being of service to the public at large. During her 15 years as a Community Affairs Department Staffer for Prudential Insurance Company, she served on the boards of directors of various community organizations including Second Chance, a program developed to help ex-offenders and the problem of recidivism; Newark House, a State run halfway house for prisoners and Newark Emergency Services for Families where she served the board as treasurer, vice president and president. During Maxine's tenure as president, NESF opened the first homeless shelter

for families. It was while I served an executive at Prudential that I had the opportunity to meet this talented and promising young woman.

Maxine was an extraordinarily gifted woman who volunteered her skills and resources to assist others. She was only the third woman and first African-American woman to join the Newark Jaycees. She used her limited knowledge of campaigns and elections to mount a campaign for the position of external vice president which she won handily. Maxine enjoyed a vast network of friends and associates who will all miss her tremendously. Maxine was a dedicated and caring mother to her two sons, Brian and Christopher as well as a devoted grandmother to Olivia and Malcolm.

Madam Speaker, I know my colleagues agree that the Greater Newark Community has lost a visionary and friend in Maxine James. Her family, friends and associates can all be proud of the legacy she leaves behind.

OPPOSING MOTION TO RECOMMIT  
H.R. 3221

**HON. DENNIS J. KUCINICH**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. KUCINICH. Madam Speaker, I rise to voice my concern over the recent motion to recommit the bill HR 3221, the Student Aid and Fiscal Responsibility Act of 2009, which passed the House on September 17, 2009.

The motion to recommit stated, in part, that no organization that has been indicted for any federal or state campaign finance or election law can be eligible for any federal government contract or grant. The motion specifically names the Association of Community Organizations for Reform Now (ACORN) as an organization covered by the bill.

Article I, Section 9 of the Constitution clearly states, "No Bill of Attainder or ex post facto Law shall be passed." Congress cannot legislatively punish an individual or specific class of people. The fact that the motion to recommit appears to meet both criteria for a bill of attainder—specificity and punishment—should give us pause. Legislation that could potentially violate the Constitution surely deserves more debate than twenty minutes.

The recent revelations regarding the conduct of some ACORN employees is disquieting and merits closer investigation; however it is not Congress' place to assign guilt and punishment. The Constitution affords all accused people the protections of the judicial system; Congress must allow the judicial branch to function properly. For this reason I opposed the motion to recommit, and I will oppose any legislation that attempts to punish an individual or specific class of people without the judicial protections afforded them by the Constitution.

PERSONAL EXPLANATION

**HON. LYNN C. WOOLSEY**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Ms. WOOLSEY. Madam Speaker, on September 23, 2009, I was unavoidably detained and was unable to record my vote for rollcall No. 732. Had I been present I would have voted:

Rollcall No. 732: No—on Motion to Adjourn.

HONORING MR. EDWARD C.  
YBARRA, JR.

**HON. CHARLES A. GONZALEZ**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. GONZALEZ. Madam Speaker, Central Catholic High School has a long and glorious history in San Antonio. On March 25, 1852, it became the first boys' school to open in the city and it has served generations of San Antonio's young men. Now, one of Central's distinguished alumni, Edward C. Ybarra, Jr., is poised to become its 35th principal.

Mr. Ybarra first came to Central as a freshman in 1979 and, after graduating in 1983, went on to earn his degree from Texas Lutheran University. Central had clearly put its hold on him, however, and Ybarra returned to the school in 1987 to coach the basketball, football, track, and golf teams. He started teaching history the next year and, after earning his Master's Degree in Education from the University of Texas at San Antonio, became Assistant Principal for Student Development in 1997.

Over the years, he helped to forge Central into a second family and safe haven for its students and their families, efforts that earned him a nomination as Assistant Principal of the Year from the National Catholic Educational Association.

Edward Ybarra's successes stand as a testament to the strong foundation of his school-days at Central as the successes of his thousands of young charges reflect the quality of his leadership as a teacher and assistant principal. Both augur well for the successes to come to him and to Central under his leadership as president. The depth of his connection to the school over the past thirty years also speaks to the strength of community at Central Catholic High School.

Henry Adams once wrote, "A teacher affects eternity; he can never tell where his influence stops." Edward Ybarra has affected eternity, and the world is better for it.

HONORING MR. PAUL E. ATKINSON

**HON. JOE SESTAK**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. SESTAK. Madam Speaker, I rise in honor of Mr. Paul E. Atkinson, who died Au-

gust 4, 2009 following a fall at his residence in Palo Alto, CA. He is survived by a son Paul E. Atkinson of Paris, France, a daughter Mary Hafner of Palo Alto, CA, and a son Peter Atkinson of Grand Junction, CO and seven grandchildren.

Mr. Atkinson was the long time President of Sun Ship, a leading shipyard nationally, and one of the largest employers in Delaware County, part of the District that I have the honor to represent. Very many of my constituents in Delaware County and in its surroundings worked at Sun Ship under the extraordinary leadership of Mr. Atkinson.

Among their many proud achievements were (1) the 590 foot HUGHES GLOMAR EXPLORER, built at the height of the Cold War for the CIA to secretly lift a sunken Soviet submarine from a three mile depth in the Pacific Ocean, (2) conversion of the tanker MANHATTAN into the largest icebreaker of all time, that successfully twice transited the Northwest Passage to Alaska and became the forerunner of the commercial commerce now beginning in the Arctic, and (3) construction of the largest solid rocket cases ever, begun in the period of President Kennedy's renowned reach into space.

With regret at Mr. Atkinson's passing but with thanks to him and those of my constituents who worked with him, I am pleased to add the following record of Mr. Atkinson's achievements.

Mr. Atkinson joined Sun Shipbuilding & Dry Dock Company in Chester, PA after graduating from the Webb Institute of Naval Architecture in May 1942. Mr. Atkinson undertook many varied assignments in both new shipbuilding and ship repair operations during those war years and helped to guide Sun Ship into the post-war era with employment in the 5000 range, introduction of unions and participation in the postwar prosperity with new shipbuilding some 70% of manpower, burgeoning ship repair work 10–20% from increased Delaware River traffic and outside sales (non marine) work 10–20% from wind tunnels, the largest solid rocket cases ever built, much nuclear work for reactors, Savannah River and the Fernald Plant, paper mills, and key components of the Verrazano Bridge.

During the Korean War, Mr. Atkinson became General Superintendent of all operations and in 1956 he became Vice President of Operations. Large shipyards in the United States began with the invention of riveting and Sun Ship was no exception. In 1957, Mr. Atkinson led the complete rebuilding of the shipyard with fewer but greatly enlarged shipways into a true welding shipyard with several pioneering attributes, among them the largest floating drydock then in the United States.

A keen business participant well versed in the involvement of government in marine shipbuilding contracts whether through subsidy or mortgage guarantee, Mr. Atkinson looked for a better way. He became Sun Ship President in 1961. In 1965 he saw a shipping need and a Navy budgetary impediment under Defense Secretary McNamara. Mr. Atkinson conceived the gas turbine propelled ADM. WM. M. CALLAGHAN, and with an established ship operator, Sun Ship formed a joint venture that built, chartered and operated the ship for decades for the Navy.

Building on that success, Mr. Atkinson, was an early pioneer in the development of roll-on/roll-off (ro/ros) vessels. During 1965–1977 Sun Ship constructed ten ro/ros, five 80,000 ton tankers, several 120,000 ton tankers, placing many of those ships in build and charter subsidiaries under the shipping diversification strategy he pioneered at Sun Ship. Among these was TOTE, a dry cargo roll-on/roll-off shipping company, wholly owned by Sun Ship, operating to Alaska. Today it is a leading successful, unsubsidized, American flag operator. During that period, under Mr. Atkinson the yard converted the MANHATTAN for her two pioneering ice-breaking voyages through the Northwest Passage to Alaska and built the legendary HUGHES GLOMAR EXPLORER to secretly lift a sunken Soviet submarine from three miles deep in the Pacific at the height of the Cold War.

Atkinson was a Trustee of Webb Institute for many years and a recipient of its coveted William Selkirk Owen Award. He was a member of the American Bureau of Shipping, and their Technical Committee. He also was a director of the Shipbuilders Council of America, and a member and technical representative of Lloyd's American Committee. He received the prestigious Sea Grant Association award and was active personally and through Sun Ship with the University of Delaware College of Marine Studies at Lewes, DE. He was Vice President of the Greater Philadelphia Chamber of Commerce and active in similar civic organizations.

#### TRIBUTE TO HON. RENEE JONES WEEKS

##### HON. DONALD M. PAYNE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. PAYNE. Madam Speaker, I ask my colleagues here in the House of Representatives to join me as I rise to recognize the Honorable Renee Jones Weeks for her many years of service to the community and to congratulate her upon her retirement from the Chancery Division, Superior Court of New Jersey (Essex Vicinage). Appointed to the Bench on July 14, 1989, Judge Weeks has served in the Family Part, Criminal Part and Civil Part. She has also served in two counties, Essex and Union during her tenure.

Judge Weeks has been actively engaged in various organizations throughout her career. She was a Co-Incorporator of the Garden State Bar Association, Co-Founder and First President of the Association of Black Women Lawyers of New Jersey and Past Secretary of the Garden State Bar Association. She also served as Vice President of the National Bar Association, President of the Women's Division of the National Bar Association and Financial Secretary, Chair-Elect and Chair of the Judicial Council of the National Bar Association.

A graduate of Rutgers Law School in Newark, New Jersey and Ursuline College in Pepper Pike, Ohio, Judge Weeks has served on several committees of the New Jersey Supreme Court. She is the recipient of numerous

awards and was the first Black Trustee of the Essex County Bar Association. Judge Weeks is a member of Alpha Kappa Alpha Sorority, a past Board Member of the New Jersey State Opera and a former Court Liaison to CASA (the Court Appointed Child Advocacy Program).

Madam Speaker, I know my colleagues agree that Judge Weeks is an excellent role model for women and minorities in the legal profession. She will leave a lasting impact on those who were fortunate enough to benefit from her guidance. I am pleased to join all those in attendance at a Retirement Party in her honor in wishing her a wonderful retirement.

#### TRIBUTE TO THE LATE SERGEANT RONNIE O'NEAL BROWN

##### HON. KENDRICK B. MEEK

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. MEEK of Florida. Madam Speaker, I rise to pay tribute to the life and legacy of the late Sergeant Ronnie O'Neal Brown, a nearly 20-year-veteran of the Polk County Sheriffs Office, who recently passed as a result of injury suffered in the line of duty. He worked tirelessly to provide the citizens of Polk County with safety and service.

Sergeant Brown was hired as a detention deputy in October 1989 and was promoted to the rank of Sergeant in April 1997. He was most recently assigned to the South County Jail in Frostproof, Florida as a supervisor in Delta Platoon.

Sgt. Brown was injured in the line of duty on Sunday, August 30, 2009, after responding to a disturbance in an unruly prisoner's cell in the South County Jail. On Monday, September 7, 2009, he passed away.

During his nearly 20-year career, Sgt. Brown was known for his professionalism, attention to detail, positive influence on those around him, and his excellent work ethic. His personnel file is filled with accolades and letters of recognition for his hard work and dedication to the agency and to his fellow agency members. In May 2007, he and two other detention deputies were awarded a Meritorious Service Medal for providing CPR to an unresponsive inmate in the jail. It is quite clear that Sgt. Brown demonstrated a passion for law enforcement and commitment to helping others, qualities that enabled him to become a respected and model member of the Polk County Sheriffs Office.

Sgt. Brown was a loving husband, proud father, and devoted friend. He is survived by his wife Albertina Brown, a detention deputy assigned to the inmate booking area in Bartow, Florida, and one daughter.

Madam Speaker, I ask that my distinguished colleagues join me in recognizing Sgt. Brown's extraordinary life and many accomplishments within the Polk County Sheriffs Office. I appreciate this opportunity to pay tribute to him before the United States House of Representatives. Sgt. Brown was an outstanding American worthy of our collective honor and appreciation. It is with deep respect and admiration

that I commend him for his contributions to his community and the many lives that he touched while serving as a shining example of his legacy.

#### HONORING DENNIS L. MARTIRE

##### HON. ROBERT A. BRADY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. BRADY of Pennsylvania. Madam Speaker, I rise to honor Dennis L. Martire, Vice President and Regional Manager of the Laborers' International Union of North America. Throughout his career, Mr. Martire has shown exceptional leadership and has worked tirelessly for laborers.

In 1990 Mr. Martire began his career as an International Representative for the Laborers' International Union of North America, LIUNA, Jurisdictional Disputes Department. Since then, Mr. Martire has assumed various leadership positions within LIUNA. He became Assistant Director, and then Director, of the Laborers' Construction Department. In March 2000, Mr. Martire became Assistant Regional Manager of the Mid-Atlantic Region of LIUNA, and was elected Vice President and Regional Manager just 2 years later.

In addition to Mr. Martire's role within LIUNA, he also serves on various committees, boards, and organizations committed to advancing the laborers' cause. Mr. Martire serves as a Trustee on several organizations, such as the Laborers' Health and Safety Fund of North America, the LIUNA National Health and Welfare Fund, and the Laborers-AGC Education and Training Fund. Mr. Martire also serves as the Chairman of the Mid-Atlantic Laborers' Employers Cooperation and Education Trust, the Mid-Atlantic Regional Organizing Coalition, and the Mid-Atlantic Laborers' Political League.

In recognition of Mr. Martire's hard work and dedication, he will be presented with the Labor Man of the Year Award at the Friends of Labor Committee of Laborers' Local 332 Annual Black Tie Charity dinner.

Mr. Martire's impressive career with the Laborers' International Union of North America showcases his commitment and drive to promote the wellbeing of LIUNA and its members. His work clearly exemplifies his personal mission to improve working conditions and provide all laborers with well-paying, secure jobs.

#### TRIBUTE TO REVEREND BRANDO IBARRA

##### HON. BILL PASCHELL, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 29, 2009*

Mr. PASCHELL. Madam Speaker, I would like to call to your attention to the work of an outstanding individual, Reverend Brando Ibarra, who was recognized on Friday, September 25, 2009 for his ten years of dedicated service to the people of his community.

It is only fitting that he be honored in this, the permanent record of the greatest democracy ever known, for he has been a true public

servant and someone whose spiritual commitment has enhanced countless lives.

Father Brando was born on November 14, 1970, in El Doncello, Colombia. He came to the United States and earned his Bachelor of Science degree from Seton Hall University. He went on to graduate with a Masters of Theology degree from the University of St. Mary of the Lake, Mundelien Seminary, in Illinois.

He was ordained into the priesthood by Bishop Frank J. Rodimer on September 25, 1999 at St. John's Cathedral in Paterson, New Jersey. He served his Deacon Internship as a Parochial Vicar and Temporary Administrator at Saint Margaret Parish in Morristown, New Jersey for the next seven years. In 2006, he was called on to serve as Parochial Vicar of

St. Gerard Majella Church in Paterson. In 2007, he was appointed Pastor of St. Anthony of Padua Church, where he remains. Father Brando became a citizen of the United States of America on January 14, 2009.

His dedication to his ministry and to helping others reaches far beyond the Parish of St. Anthony of Padua. He is a member of the Paterson Diocesan Liturgical Commission, Spiritual Advisor of Hispanic Cursillos de Cristiandad, and a member of the Diocesan Vocation Board. He is a Chaplain for the Morris County Jail, and is a member of the Pas-saic Alliance Advisory Board Committee.

Father Brando is committed to nurturing and supporting others in their work in ministry. He is a staff member and lecturer in theology for

the College of St. Elizabeth in Morristown. He serves as the President of the Association of Colombian Priests in the USA, and is a Board Member the National Association of Hispanic Priests.

The job of a United States Congressman involves much that is rewarding, yet nothing compares to learning about and recognizing the efforts of individuals like Reverend Brando Ibarra.

Madam Speaker, I ask that you join our colleagues, Father Brando's family and friends, all those who have been spiritually enriched by him, and me in recognizing the outstanding and invaluable service of Reverend Brando Ibarra.

**SENATE—Wednesday, September 30, 2009**

The Senate met at 10 a.m. and was called to order by the Honorable TOM UDALL, a Senator from the State of New Mexico.

**PRAYER**

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Eternal God, we have depended on our own strength long enough. Though we talk of Your greatness and might, we too often seek to tackle life's challenges and problems by leaning completely upon our limited power and understanding.

Remind us that every good and perfect gift comes from You and that we have no strength apart from You. In a world where evil seems so rampant, inspire our lawmakers to lead pure and unselfish lives that are worthy of Your name.

Lord, use them to create goodwill that will challenge the best in people and will usher in the reign of Your abiding peace. Draw them together in oneness in diversity, unity in patriotism, and loyalty in a shared commitment to You.

We pray in Your wonderful Name. Amen.

**PLEDGE OF ALLEGIANCE**

The Honorable TOM UDALL led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

**APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE**

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,  
PRESIDENT PRO TEMPORE,

Washington, DC, September 30, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable TOM UDALL, a Senator from the State of New Mexico, to perform the duties of the Chair.

ROBERT C. BYRD,  
President pro tempore.

Mr. UDALL of New Mexico thereupon assumed the chair as Acting President pro tempore.

**RECOGNITION OF THE MAJORITY LEADER**

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

**CHANGES IN THE SENATE**

Mr. REID. Mr. President, I was thinking this morning after the prayer and pledge how things in the Senate, because of tradition, rarely change. But one of the things that has changed during the time I have been in the Senate is the Pledge of Allegiance. That wasn't done before. I don't know how many years ago the pledge was started, and it doesn't matter who the leader of the Senate is, it is something I think will be with us forever in the Senate. I think it is a good tradition we picked up.

As I recall—my friend is on the Senate floor, the Republican leader—this was started during—was it Senator Frist or Dole? When was that, do you recall? It was one of the Republican leaders.

Mr. MCCONNELL. If the majority leader will yield, I think it was 8 or 10 years ago. Interestingly enough, I believe who first suggested it was former Senator Bob Smith of New Hampshire, and it was widely recognized on both sides of the aisle that this is something we should have been doing for a long time.

Mr. REID. When I was president of the senate in Nevada, that was something we always did. Of course, I remember Bob Smith. I think it was a Republican leader, but, regardless, it is something that is a part of the tradition now, and I am glad we are doing it.

**SCHEDULE**

Mr. REID. Mr. President, following leader remarks, the Senate will be in morning business for 1 hour; Republicans will control the first 30 minutes and the majority will control the next 30 minutes. Following that morning business, the Senate will proceed to the consideration of the conference report to accompany H.R. 2918, the Legislative Branch appropriations bill and the continuing resolution, with the time until 4:30 equally divided and controlled between Senators NELSON of Nebraska and MURKOWSKI. Senators should expect a series of three rollcall votes. We hope there could even be more than that, to begin about 4:30 this afternoon.

The Senate will recess from 12:30 until 2:15 to allow for our weekly caucus luncheons.

I am sure Republican luncheons are packed with a lot of discussion. I know I had a meeting earlier this morning with a number of Senators, and we have a lot to talk about. We have the health care bill. We have to talk about

energy, which is something we need to do. Regulation reform, we are going to talk about that at our caucus. And we are going to spend a little bit of time on Afghanistan.

That brings us to the point that this afternoon there is going to be a Members-only, classified briefing at 5:30 with GEN Jim Jones, the National Security Adviser to the President. The issue of dealing with Afghanistan has heated up. That is going to be there—perhaps on this bill that is before us, if not shortly thereafter—as to what we are going to do on Afghanistan.

Briefly, on health care, the committee is making progress. I am happy about that. I would say that under the Republicans' plan, insurance companies can deny coverage for a pre-existing condition, because you are getting older or because you are a woman. Under their plan, insurance companies can take away your coverage when you need it the most.

Under our plan, if you like what you have, you can keep it; but if you don't, there will be affordable choices for you that cannot be taken away. We will protect Medicare, will not raise taxes on the middle class, and we are not going to add any money to the deficit.

Mr. President, I have been reminded to announce to the Senate—I talked to the Republican leader about this last week—Columbus Day is fast approaching. It is the week after next. With all the things going on here, it would not be right for us to take that week off.

What we are going to do, as I have explained to the Republican leader last week, we will be off that Monday—which is the holiday, Columbus Day—and the following Friday. To make it as convenient as we can for everyone, on Tuesday we will be in session and have a vote late that afternoon. I know that is inconvenient for others because we had indicated there would be that recess.

It is a long period of time, as I have announced on the Senate floor, 11 weeks from the time we started this work period until Thanksgiving. That is a long time when a number of us have families at home, and the work we want to try to do during the week rather than just on weekends. So I apologize to everyone.

Mr. MCCONNELL. If the majority leader will yield, which Tuesday was the leader referring to?

Mr. REID. Tuesday after Columbus Day. It is October 13.

Mr. MCCONNELL. We will be in. There would be a vote at what point on that Tuesday?

Mr. REID. We will vote at 5, 5:30. OK?

As I have indicated, I apologize to everyone for not being able to have that whole week off, but I think with health care, which is beginning to firm up, it would not be right for us to be gone that week. I think we should be able to start our health care work that week in the Senate.

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

Mr. MCCONNELL. Let me reiterate further for the Members on this side of the aisle, what the leader indicated is, the week that includes Columbus Day, which is on a Monday, we will have Monday and Friday of that week off, and he has indicated the first vote will be on the Tuesday after Columbus Day, late in the afternoon.

#### MCCHRYS TAL PLAN

Mr. MCCONNELL. Mr. President, the situation in Afghanistan is urgent, and we are told that action is necessary soon. But to better understand the need for action, the American people need to know all the details. And they should have those details explained to them by the man who knows them best.

It is hard to deny the urgency of General McChrystal's assessment, parts of which have already been made public. And it is impossible to ignore his depiction of a grave and deteriorating situation in the same part of the world where a group of terrorists plotted the 9/11 attacks. General McChrystal's assessment of Afghanistan should worry all of us. As the President told a Turkish audience in April, "The world has come too far to let this region backslide, and to let al Qaeda terrorists plot further attacks."

Earlier this year, President Obama expressed his confidence in General McChrystal by appointing him to his current post. Following the President's lead, the Senate expressed its confidence in General McChrystal by confirming him for his current mission without dissent. Now it is time for Congress to hear his detailed assessment of the mission that we confirmed him for, and to give him an opportunity to explain why he has concluded that additional troops are needed to avert failure.

#### HEALTH CARE WEEK XI, DAY I

Mr. MCCONNELL. Mr. President, Senators will continue to hash out a health care bill in committee today, and anyone who tunes in will hear a dizzying amount of detail about what is in and what is out.

But it is worth noting that the basic shape of this legislation is already clear: Any bill that makes it to the Senate floor will include a heavy dose of tax hikes. Any bill that makes it to the floor will include massive cuts to

Medicare. Any bill that makes it to the floor of the Senate will be about 1,000 pages long, cost about a trillion dollars, affect about one-sixth of the entire U.S. economy, and impact the health care of every single American, whether they like it or not.

And here is the other thing we know: Democrats don't want to give the American people the time they need to review all the details. We saw this last week when they rejected a request for a simple 72-hour review, which is hard for anyone who grasps the scope of this legislation to understand. Nor would they pledge to wait until we understand the full cost of this bill, before acting on it.

There is important work going on in the Finance Committee this week, but no one should lose sight of where the work is headed. What we know for sure is higher taxes when American families and businesses are struggling just to make ends meet, cuts to seniors' Medicare when the program is already going bankrupt, more spending and more debt when we are about to end the fiscal year just today with an annual deficit roughly equivalent to the deficits of the last 5 years combined—the deficit this fiscal year, ending today, will be roughly as much as the last 5 years combined—and a government intrusion into health care of every single American at a time when Americans are asking us to lower costs and lower premiums, not add new burdens to the system or wreck the care they already have and like.

We know the essentials of the health care bill already. Americans have every reason to be concerned.

I yield the floor.

#### RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

#### MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to a period of morning business for 1 hour, with Senators permitted to speak for up to 10 minutes each, with the time equally divided and controlled between the two leaders or their designees, with the Republicans controlling the first half and the majority controlling the final half.

The Senator from Tennessee is recognized.

#### HEALTH CARE REFORM

Mr. ALEXANDER. I wonder, before the Republican leader leaves, if I could ask him a quick question? I ask unanimous consent that Senators BARRASSO, MCCAIN, and BENNETT, and the Republican leader, be permitted to engage in

a colloquy during our 30 minutes and that I be notified when we have about 4 minutes left.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. ALEXANDER. I ask the Senator from Kentucky, the Republican leader, is it not true that the Finance Committee Democrats voted down a Republican proposal to put the health care reform bill on the Internet for 72 hours so Americans could read it?

Mr. MCCONNELL. I would say to my friend from Tennessee that is absolutely correct.

Mr. ALEXANDER. I believe the Republican leader said the bill might be 2,000 pages long?

Mr. MCCONNELL. Certainly, well above 1,000 and probably 2,000.

Mr. ALEXANDER. If I am not mistaken, there are several versions of the bill in the House of Representatives that will come over here. Then there is a version that we did in the Health Committee here that will have to be integrated with that bill; is that not correct?

Mr. MCCONNELL. It is my understanding it is the intention of the majority leader and the administration to merge the bill that came out of the Health Committee on which the Senator from Tennessee serves and the bill that is in the Finance Committee now.

Mr. ALEXANDER. It is my understanding in the Finance Committee they are not even writing a bill yet; they are just working on concepts?

Mr. MCCONNELL. Apparently, the Finance Committee will actually go to a final vote on a concept paper, not an actual bill—which I think will inevitably produce a dilemma for the Congressional Budget Office in trying to assess the cost of a concept bill. Then, apparently, they will turn that into a bill, and then the Congressional Budget Office will have to score, once again, the final bill, and the number there may be different from the number of the concept paper.

Mr. ALEXANDER. How long do you suppose it would take, once the two bills are put together, for the Congressional Budget Office to tell us how much it costs?

Mr. MCCONNELL. I would think for an accurate score we would have to ask them. What a challenge that will be. But I assume it will take a while.

Mr. ALEXANDER. Well, I thank the Republican leader. In our discussion today, I see the Senator from Wyoming is here, it is almost embarrassing to say that—I mean, to people outside Washington, and maybe even to people inside Washington, the idea that we would not take 72 hours to read a 2,000-page bill that spends \$1 trillion or \$1.5 trillion that affects virtually every American and that may have a lot of unresolved questions in it.

It is hard to imagine people would not think that was common sense, that

we ought to read it before we vote on it.

Mr. McCONNELL. I think we can add, the American people, I think correctly, could only assume there is some effort to try to hide the true impact of this rush effort to reorganize one-sixth of our economy, a \$1 trillion bill, well over 1,000 pages that nobody has taken the time to read. It is not even produced in final bill language.

The American people begin to get the drift that this is a process that is going to, I think, enrage them. It enrages them already. I think the rage about it is only going to escalate in the coming weeks.

Mr. ALEXANDER. I thank the Republican leader for his time. I would think every civics class in America, if the teacher would give a test, would say: Should an elected representative read a bill before he or she voted on it? Yes.

Should he or she know how much it costs? Yes.

Even the President has said we cannot have a deficit. Well, how are we going to know if it creates a deficit if we do not read the bill and if the non-partisan Congressional Budget Office has not told us how much it costs?

I thank the Republican leader. The Republican leader mentioned there may be some questions we would want to know. There are some.

Governors across the country may want to know how much it is going to cost them and their budgets because, the other day, the chairman of the National Governors Association and the Republican Governors Association held a joint press conference and they said this: If you are going to expand Medicaid in our States, if the Federal Government is going to do it, the Federal Government ought to pay for it.

Medicaid is the largest government-operated health care program we have in the country. About 55 or 60 million Americans are there. The Federal Government pays about 60 percent of it and the State governments pay about 40 percent.

I noticed two articles in the newspaper. I ask unanimous consent to have these articles printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the New York Times, Sept. 29, 2009]

MAJORITY LEADER PROTECTS HOME STATE

(By Robert Pear)

WASHINGTON.—The Senate majority leader, Harry Reid of Nevada, has secured a special deal protecting his state against the costs of expanding Medicaid under one of the major health care bills moving through Congress.

Mr. Reid, a Democrat, complained about the impact on Nevada when the chairman of the Senate Finance Committee, Max Baucus, Democrat of Montana, unveiled his bill on Sept. 16.

Now Mr. Baucus has modified the bill to spare Nevada and three other states, and Mr. Reid, who faces a potentially difficult race

for re-election next year, is taking credit for getting a "major increase" in federal money for his state.

The Senate bill, like a companion measure in the House, would expand Medicaid to cover childless adults, parents and other people with incomes less than 133 percent of the poverty level, or \$29,327 for a family of four. The federal government would pay most of the new costs—anywhere from 77 percent to 95 percent, with a higher share in poorer states, in the first five years.

Under Mr. Baucus's original proposal, the federal government would have paid 87 percent of the new costs in Nevada. Under the modified version, the federal government would pay 100 percent of the new costs for the first five years. Severe financial problems have prompted Nevada and other states to cut spending and furlough workers, and some states have even considered releasing prison inmates to save money.

There is no guarantee that the provision will be retained as the legislation moves through Congress. Many other lawmakers are trying to influence its particulars to favor their states, but few have the power of the majority leader to get their way.

Mr. Baucus revised his bill to give extra help to certain "high-need states." The states were not named in the bill. But only four states meet the criteria: Michigan, Nevada, Oregon and Rhode Island.

The changes came at the expense of other states, including California, Florida and Illinois, which would see significant increases in state Medicaid spending under the new formula.

The Finance Committee resumes work on the legislation Tuesday, with some of the biggest fights still to come.

Many states worry that the expansion of Medicaid could saddle them with long-term financial obligations.

Representative Nathan Deal of Georgia, the senior Republican on the House Energy and Commerce Subcommittee on Health, said Mr. Reid "appeared to be playing politics to favor Nevada over other states."

"Senator Reid should know that this legislation is not only bad for Nevada, but it is bad for the rest of the United States," Mr. Deal said.

James P. Manley, a spokesman for Mr. Reid, brushed aside the criticism.

"Senator Reid makes no apologies for fighting for federal money for his constituents," Mr. Manley said. "Under Republican governors, Nevada has consistently underfunded programs such as Medicaid."

Mr. Baucus said other provisions of the bill would help all states—for example, by reducing what they spend on prescription drugs for Medicaid recipients and on the Children's Health Insurance Program.

About 220,000 people are on Medicaid in Nevada, and Charles Duarte, the state Medicaid director, said Monday that enrollment could double under the legislation being considered by Congress.

Many parents and childless adults would qualify for Medicaid for the first time, Mr. Duarte said. And many people who are eligible but not enrolled would sign up for Medicaid because, under the legislation, they could be required to pay financial penalties if they did not have insurance.

The Finance Committee has rejected several Republican amendments that would have blocked the expansion of Medicaid if it was found to impose additional costs on states.

"We have got to protect the states from the impact of one more federal mandate at a

time when states are in dire circumstances financially," said Senator Michael D. Crapo, Republican of Idaho.

But Senator Kent Conrad, Democrat of North Dakota, said states must share the cost of covering the uninsured.

"We are going to have a real hard time dealing with this problem," Mr. Conrad said, "if it is all supposed to be on the federal government, which has record deficits and record debt, and if the states just expect the federal government to write a check for 100 percent of everything."

All the major health care bills moving through Congress would expand Medicaid, adding perhaps 11 million people to the rolls, the Congressional Budget Office says.

The Democratic staff of the Finance Committee estimates that, under existing law, state spending on Medicaid will total \$1.7 trillion from 2013 to 2019. That figure could increase by \$33 billion under Mr. Baucus's bill. But when the new costs are combined with savings elsewhere in the bill, Democrats say, state spending would increase by only \$22 billion, or 1.3 percent, over the levels now projected.

A few states, like Arkansas, Colorado, Maryland and Virginia, could see increases of 4 percent or more, according to the data.

Maine and Vermont have led the way in expanding Medicaid. But Senator Olympia J. Snowe, Republican of Maine, said that after talking with the governors of those states, she had concerns about the burdens that would be placed on states under the bill.

[From the Wall Street Journal, Sept. 29, 2009]

#### STATES' QUARTERLY TAX REVENUE PLUNGES 17%

(By Conor Dougherty)

State tax revenue in the second quarter plunged 17% from a year earlier as rising unemployment and falling consumption dragged down sales- and income-tax collections, according to Census figures released Tuesday.

It was the sharpest decline since at least the 1960s. The biggest drop was in state income taxes, which were down 28% in the second quarter from a year earlier. Corporate income taxes, which tend to be volatile, increased 3%.

The numbers aren't adjusted for inflation or tax-rate changes.

The steep declines show how the recession continues to cripple state finances, despite support from the stimulus package and signs of a nascent recovery in economic activity. Falling revenue, combined with growing demand for social programs like food stamps or Medicaid, forced states to slash spending and scramble to raise revenue through measures from new taxes to slot machines and pricier fishing licenses.

"This brings really bad news for almost every single state and leaves them with an unprecedented budget crisis," said Lucy Dadayan, a senior policy analyst with the Nelson A. Rockefeller Institute of Government at the State University of New York.

States—which, unlike the federal government, are generally required to balance their budgets—have already responded to revenue declines with employee furloughs and higher taxes and fees. But with tax collections continuing to decline, many have been forced to reopen budgets midsession to push through even more drastic cuts to staffing and services. In Michigan, stalled budget negotiations between the governor and the legislature could force the state to shut down if a deal isn't reached by Wednesday at midnight local time.

With lower-than-expected revenue, the governor of Massachusetts cut that state's budget four times over the fiscal year that ended in June, including drawing down reserves from a rainy-day fund and eliminating unfilled jobs. With revenue still weaker than expected, the state may be forced to reopen the budget as early as next month, said a spokesman for the Executive Office for Administration and Finance.

Without a budget, Michigan state employees wouldn't report to work, and the governor would likely have to take emergency steps to keep essential services such as hospitals and prisons operating. "We remain optimistic that we will have a budget in place because everyone wants to avoid a shutdown," says Liz Boyd, a representative for Gov. Jennifer Granholm.

Some of the sharpest tax declines were in states that have been among the hardest-hit by the recession, in particular those with high concentrations of jobs in the battered housing sector. In Arizona, overall tax revenue fell 27% in the second quarter from a year ago. Tax revenue fell 12% in Florida and 14% in California.

States across the country saw drastic declines in personal income taxes, the largest source of state funding, representing about one-third of states' overall revenue. The largest decline was in New Mexico, where income taxes fell 59%. In 11 states—including California, New York and Wisconsin—personal income taxes fell more than 30%.

Mr. ALEXANDER. One is from the Wall Street Journal: State quarterly tax revenues plunge 17 percent. Talking about how budgets in California, Florida, other States are going down.

Then there is another article, September 29—actually these both appeared yesterday—in the New York Times entitled "Majority Leader Protects Home State."

Well, the majority leader, Senator REID, has done exactly what all the Governors hope would be done. He has said: If the Federal Government is going to expand Medicaid in my State, the Federal Government is going to pay for it.

But, I would say to the Senator from Wyoming, I wonder how citizens in Wyoming and California and Florida and other States will feel if they pay more in taxes so Nevadans can pay less in taxes? Is that not the kind of question Senators from virtually every State might want to be sure about by reading the bill and knowing what it costs before it comes to the floor?

Mr. BARRASSO. It seems to me the people of Wyoming have those very concerns, as does the Governor of Wyoming.

I served in the Wyoming State Senate for 5 years, and we know that one of the largest budgets is Medicaid, the aid we give to people in need of health care. But it is almost the same as what we are paying for K-12 education. In Wyoming, we sure do not want to pay for what is happening in the majority leader's home State.

I was home yesterday. Yesterday morning, getting on the plane to come back from Wyoming—I go home every weekend. I was at the Wyoming foot-

ball game, where we won, we beat the University of Nevada Las Vegas, the leader's home State. That was another great day for Wyoming football.

But when you go to a game like that in Wyoming, a lot of people come up to you and ask you questions. One of the questions that came up this past weekend was: Have you read the bill? What is in it? What is it going to cost? People of Wyoming say: Am I going to be able to read it? How do I read the bill? Is it going to be on the Internet? Will I be able to see it?

To try to explain: There is no bill. There is this concept paper. I have it here. It is called the chairman's mark. It is the concept paper of 220 pages. You look at this, this is not even in legislative language yet. So you are going to be asked to vote on legislation, not just a concept paper.

Mr. ALEXANDER. I think the Senator from Wyoming is making an awfully good point. He is a distinguished orthopedic surgeon, a doctor, one of two physicians in the Senate. Both of them happen to be on the Republican side of the aisle at this time, Senator COBURN, and I know, Dr. BARRASSO, since we are talking about Medicaid, which is a program that every State has that serves low-income people, that States pay typically roughly 40 percent for, one of the questions somebody might have who reads the bill is: How many more low-income people are going to be added to that bill?

Because it is my understanding that Medicaid reimburses physicians at such a low rate, that about 40 percent of physicians will not see Medicaid patients. So by dumping more low-income Americans into Medicaid, we are dumping them into a program where they have 40 percent of a chance of not seeing the doctor or getting the services they want to have. Have you had any experience with that?

Mr. BARRASSO. Absolutely. In my practice for 25 years in Casper, WY, I took care of a lot of people on Medicaid. I took care of anybody who needed to see me.

But you are right. Across the board, there are many people on Medicaid who do not—are not able to see a doctor. The number you quoted is exactly the one I have.

I have an article that I ask unanimous consent to have printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Wall Street Journal, Sept. 27, 2009]

#### MAX'S MAD MANDATE

The more we inspect Max Baucus's health-care bill, the worse it looks. Today's howler: One reason it allegedly "pays for itself" over 10 years is because it would break all 50 state budgets by permanently expanding Medicaid, the joint state-federal program for the poor.

Democrats want to use Medicaid to cover everyone up to at least 133% of the federal

poverty level, or about \$30,000 for a family of four. Starting in 2014, Mr. Baucus plans to spend \$287 billion through 2019—or about one-third of ObamaCare's total spending—to add some 11 million new people to the Medicaid rolls.

About 59 million people are on Medicaid today—which means that a decade from now about a quarter of the total population would be on a program originally sold as help for low-income women, children and the disabled. State budgets would explode—by \$37 billion, according to the Congressional Budget Office—because they would no longer be allowed to set eligibility in line with their own decisions about taxes and spending. This is the mother—and father and crazy uncle—of unfunded mandates.

This burden would arrive on the heels of an unprecedented state fiscal crisis. As of this month, some 48 states had shortfalls in their 2010 budgets totaling \$168 billion—or 24% of total state budgets. The left-wing Center for Budget and Policy Priorities expects total state deficits in 2011 to rise to \$180 billion. And this is counting the \$87 billion Medicaid bailout in this year's stimulus bill.

While falling revenues are in part to blame, Medicaid is a main culprit, even before caseloads began to surge as joblessness rose. The National Association of State Budget Officers notes that Medicaid spending is on average the second largest component in state budgets at 20.7%—exceeded only slightly by K-12 education (20.9%) and blowing out state universities (10.3%), transportation (8.1%) and prisons (3.4%).

In some states it is far higher—39% in Ohio, 27% in Massachusetts, 25% in Michigan, Rhode Island and Pennsylvania. Forcing states to spend more will crowd out other priorities or result in a wave of tax increases, or both, even as Congress also makes major tax hikes inevitable at the national level.

The National Governors Association is furious about Mr. Baucus's Medicaid expansion, and rightly so, given that governors and their legislatures will get stuck with the bill while losing the leeway to manage or reform their budget-busters. NGA President Jim Douglas of Vermont recently said at the National Press Club that the Baucus plan poses a "tremendous financial liability" and doesn't "respect that no one size fits all at the state level." He added: "Unlike the federal government, states can't print money."

Mr. Baucus hopes to use his printing press to bribe the governors, at least for a time. Currently, the federal government pays about 57 cents out of every dollar the states spend on Medicaid, though the "matching rate" ranges as high as 76% in some states. That would rise to 95%—but only for five years. After that, who knows? It all depends on which budget Congress ends up ruining. Either the states will be slammed, or Washington will extend these extra payments into perpetuity—despite the fact that CBO expects purely federal spending on Medicaid to consume 5% of GDP by 2035 under current law.

As for the poor uninsured, they'll be shunted off into what Democratic backbencher Ron Wyden calls a "caste system." While some people will be eligible for subsidized private health insurance, everyone in the lowest income bracket will be forced into Medicaid, the country's worst insurance program by a long shot. States try to control spending by restricting access to prescription drugs and specialists. About 40% of U.S. physicians won't accept Medicaid at all.

Why? One reason is that Medicaid's price controls are even tighter than Medicare's,

which in turn are substantially below private payers. In 2009 or 2010, 29 states will have either reduced or frozen their reimbursement rates to providers. Democrats love Medicaid because it is much cheaper than subsidizing private insurance, but that is true only because of this antimarket brute force. Of course, such coercion will be extended to the rest of the health market under ObamaCare.

The states aren't entirely victims here. Both Republican and Democratic state houses regularly game the Medicaid funding formula—which itself is designed to reward higher spending—to steal more money from national taxpayers. Then when tax collections fall during downturns, budget gaskets blow all over the place. This dynamic helps explain the spectacular budget catastrophes in New York and California. We'd prefer a policy of block grants, which would extricate Washington from state accounting and encourage Governors to spend more responsibly.

That's not going to happen any time soon, but the least Mr. Baucus can do is not make things worse. Instead, his Medicaid expansion is a disaster on every level—like the rest of ObamaCare.

Mr. BARRASSO. This as also from the Wall Street Journal from September 27, called: "Max's Mad Mandate." The first paragraph says: One reason this Finance Committee bill allegedly pays for itself is because it will break all 50 State budgets by permanently expanding Medicaid.

It says: They are going to expand Medicaid. The Senator was a Governor. The Senator had to deal with this in Tennessee: Using Medicare to cover everyone up to at least 133 percent of the Federal poverty level, that will add some 11 million new people to the Medicaid rolls, which is not going to help, if currently, as the article goes on, about 40 percent of U.S. physicians will not accept Medicaid at all.

Mr. ALEXANDER. I have thought for some time that any Senator who votes to expand Medicaid in the States without paying for it at the Federal level ought to be sentenced to go home and serve as Governor for 8 years and try to pay for it and raise the taxes and deal with the people who cannot do that.

But that is the kind of question I think a Governor would want: Read the bill and know what it costs. For example, I believe there is a question about the Finance Committee, in its concept papers, may say: Well, we will pay for it for 5 years—or we will pay 77 to 95 percent of it.

The Governors are saying—now these are Democratic Governors as well as Republicans—they are all saying to us: Do not do that to us. Our revenues are down 17 percent, 18 percent, 20, 35 percent in some of our States. If you are going to pass it, pay for it. That is a question governors should have a chance to ask and get an answer for. That is why we need to read the bill.

Mr. BARRASSO. That is why the National Governors Association is furious with this huge expansion of Medicaid. It quotes the Governor of Vermont,

who says: Unlike the Federal Government, States cannot print money. Many of us, such as Wyoming, live within our budgets. We live within our means. We balance the budget every year. For Washington, in its effort to take over health care in the country, to force the States to pay for it, in what is, to me, a trickery or a financial gimmick, to say they can make the books balance, is not a favor to the American people.

That is why people at home ask me every weekend: Can I read the bill? Have you read the bill? Can I read the bill? What is it going to cost? It ultimately gets down to people are very worried about a government takeover, very worried that at a time we are spending all this money as a nation, against my wishes, another trillion dollars for kind of an experiment that is going to fund a lot of it through Medicare. We have not even gotten into the discussion of Medicaid.

Mr. ALEXANDER. Let's talk about Medicare because many people, unless they follow health care every day, confuse Medicaid, which is the program for low-income Americans that States help administer—there are about 55 or 60 million Americans in that program—and Medicare, which is the program that about 40 million seniors have.

We have had a lot of talk about Medicare. The President says: There are no Medicare cuts. Then, on the other hand, he said: We are going to take up to  $\$1\frac{1}{2}$  trillion out of Medicare and spend it on a new program.

We are saying: You are going to cut one-quarter of the Medicare beneficiaries' Medicare Advantage payments. The other side is saying: No, that is not what we are doing. We are saying: How can you cut Medicare and spend it on another program when Medicare is going broke?

Well, I would think the American people would want to know the answer to those questions, and we should know the answer before we vote. Is that not another reason we should read the bill to find out who is telling the truth about Medicare?

Mr. BARRASSO. It is the reason that, No. 1, we should read the bill. It is the reason we should make sure the people all across the country have a chance to read the bill. The people of Wyoming want to read the bill. It is the reason we need some time for those people from all our home districts to get back to us.

As I say, all around Wyoming, the wisdom does not come from Washington, the wisdom comes from America, from your State and my State and the other States. I want those people to be able to read the bill, come up with better ideas or suggestions, and a lot of times folks at home will see what I call unintended consequences, something that is in the bill that you say: Well, I had not thought about that.

We have the hospitals across Wyoming, those people want to read it. The doctors, the nurses, the physicians assistants, and the patients, the people who are mostly going to be affected by this, they want to know what is in the bill, which is why I say that is the reason to put it on the Internet. People can read it ahead of time and then let them have time to comment back to us.

Mr. ALEXANDER. I see the Senator from Utah has come. Let me ask one more question to Dr. BARRASSO. Because we are told—and here is another reason to put the bill on the Internet for 72 hours and to wait a couple weeks or whatever it takes for the Congressional Budget Office to tell us how much it costs, because the President has said: There cannot be one dime added to the deficit, which we agree with.

In fact, we think the whole goal of this ought to be to reduce the cost of health care to you and then to your government but not one dime to the deficit.

But one of the assumptions of the bill coming through the Finance Committee has to do with what we elegantly call in the Senate the "doc fix," the fact that basically the government sets what doctors will be paid when they see a Medicare patient. What we do every year is change what is in the formula because it cuts the physicians.

So is not the assumption that we are going to continue to cut what we pay physicians, and if we come along and change that in the second year, will not we then be adding to the deficit?

Mr. BARRASSO. Well, you will be adding to the deficit. That is why seniors all across this country have great concerns about what is being proposed.

I am saying: Who is opposed to this? The No. 1 group is seniors, by 2 to 1. Seniors are opposed to what is happening because they know this is going to be paid for out of their own Medicare.

Just 10 or 15 minutes ago, we heard the majority leader on the floor of this Senate say—and I wrote it down. He said, talking about his plan, he said: If you like what you have, you can keep it. That is what he said.

But you and I both know there are 11 million Americans, seniors in this country, on Medicare Advantage, which is a program set to help people in cities and people in rural communities. They have both in Tennessee. We sure have the rural communities in Wyoming.

It says they cannot keep that if they like it—or 11 million, it is double the number on it in the last couple years because it is so popular, because it actually does what Medicare itself does not do, works with prevention, works with coordinated care. That is what our seniors want. That is why seniors across the country are so opposed to this.

Mr. ALEXANDER. I see the Senators from Utah and Arizona have come to the floor. We were talking, Senator BARRASSO and I, about how well the majority leader has done in helping to do what all of us would like to do in his home State.

He has noticed, I guess he has heard from his Governor, that the Finance Committee is saying we are going to expand Medicaid in the State, but the States are going to help pay for it. The majority leader has put something in the bill so Nevada does not have to pay for it.

I notice—to Senator MCCAIN—according to the New York Times, in Arizona overall tax revenues fell 27 percent in the second quarter of this year from a year ago.

I wonder how Arizonans are going to feel about paying for Nevada's Medicaid.

Mr. MCCAIN. I find it entertaining when our constituents ask: Have you read the bill? Of course we haven't been able to because there is no bill. If I could just quote what happened here. This says:

The Chairman's Mark will provide additional assistance that would be made available to high-needs states which are defined as states that (1) have total Medicaid enrollment that is below the national average for Medicaid enrollment as a percentage of state population as of the date of enactment . . .

It goes on and on for a few more sentences. What does it mean? It means they got a special deal for four States, one of them being the State of Nevada. Who pays? Who pays? The other States. So we have a complaint by the distinguished majority leader that his State of Nevada would have to pay an amount that they don't appreciate, so we shifted it so that three other States—I am sure my friend from Tennessee knows which ones. I believe one of them is Oregon. I am not sure what the other three are.

Mr. ALEXANDER. Michigan, Rhode Island, and Oregon are the three others.

Mr. MCCAIN. So our constituents who don't happen to live in those fortunate four are now going to pay additional funds because we put in the chairman's mark. Everybody wonders why people are so mad. They wonder why is it that there are these tea parties, why is it that there are people marching on Washington, what are they mad about? I hear the pundits and those who very seldom go outside the beltway or outside Manhattan say they are a bunch of crazies. It is this kind of thing. It is this kind of thing. We are going to do a legislative appropriations bill here that has \$500,000 in it so that Senators can send out postcards to announce townhall meetings. Has anybody had any trouble getting people to townhall meetings? We need to spend \$500,000 additional to notify people?

Getting back to the point of the Senator from Tennessee, this is what is

wrong. This is what is wrong with the way we do business. We cut special favors for special States, not based on need or requirements but on the influence of the individual Senator or Member of Congress. That is what they are mad about.

May I mention one other thing to my friend from Tennessee. Yesterday, there was a big vote in the Finance Committee that dominated the headlines. The so-called public option was voted down by a significant margin. And we hear rumors that finally the administration will come up with a proposal. Doesn't that mean the goal will be basically to get any bill through both the House and Senate and then go into conference behind closed doors and rewrite the bill? That is my greatest fear.

Mr. ALEXANDER. That is my fear. The danger is that they will put the bills together from these various committees and ram it through, and then we won't be able to ask the questions: Is my State going to pay more taxes for Medicaid? Is my Medicare benefit going to be cut, or is the national debt going to increase? These are important questions we have a right to know the answers to before we begin the vote on the bill.

I ask the Senator from Utah, what does he see coming down the pike?

Mr. BENNETT. Mr. President, I have said repeatedly that I would vote against my own bill, even if it were to pass the Senate unanimously, unless there were an ironclad guarantee—iron is not strong enough; carved in marble guarantee—from the President that he would veto a conference report that came back that did not have the kinds of protections I think my bill has.

I agree completely with the Senator from Arizona. The big fear is that we craft something in the Senate that is reasonable and then submit it to a conference and it comes back in a conference report that is not amendable and gets passed by a majority vote here and we are stuck with it.

As important as it is that we try to get the Senate bill right, we must recognize that there are two Houses of Congress. At the moment, the other body is not showing the degree of analysis we are trying to get going here in the Senate. The House bill is completely unacceptable.

If I could pick up on the comment about the consequences of what is being done with respect to Medicaid, I will add the experience from the State of Utah to the experience that has been referred to for other States.

In Utah, an expansion of Medicaid, as outlined in the Finance Committee bill, would mean anywhere from an additional \$150 million to \$248 million to Utah taxpayers. I realize that in a State such as California that is multiple billions of dollars in debt, an extra \$150 million to an extra quarter

of a billion is not a lot of money. But in Utah, it is a significant amount. We need to pay attention to the fact that every State is facing those kinds of significant increases.

I call the attention of the Senate to an analysis that is in today's Congressional Quarterly, dated September 30, talking about the bill as it is moving through the Finance Committee. I quote:

Under current law, taxpayers can deduct expenses that exceed 7.5 percent of their adjusted gross income. Under the Baucus original proposal, that floor would have been raised to 10 percent, starting in 2013.

Then further:

According to data from the Joint Committee on Taxation, 45 percent of the taxpayers affected and 53 percent of the revenue from the change would come from people 65 and over.

So for those who are asking—and we read about them in the paper all the time—why are the elderly upset, they have Medicare? The elderly are smarter than that, and they recognize that 53 percent of the increase that would come as a result of these proposed changes would come from them.

Mr. ALEXANDER. Would the Senator not agree that therefore older Americans who depend on Medicare might especially want to read the bill?

Mr. BENNETT. They certainly are going to want us to read the bill and be honest with them as to what is in it. They are going to want us to go into the managers' package, into the small details that usually are considered technical and get passed over, and be very specific in saying to our constituents: We know what is in the bill, and we are being very upfront with you in telling you what is in the bill.

One of the things we need to be upfront about is the amount of increase this will cost seniors and the amount of impact it will have on States. States will then have to turn around and raise their taxes, and seniors will pay twice, with the increase at the Federal level and the increase at the State level.

Mr. ALEXANDER. The Senator from Wyoming was home last weekend. I wonder if he is hearing especially from senior Americans who worry about the effect of this bill on Medicare.

Mr. BARRASSO. I heard that in Wyoming this past weekend. People who depend upon Medicare are rightly suspicious, very suspicious about this program. As they try to learn more about it, what they learn is that it is going to cut Medicare. They are learning it is going to increase taxes. They are learning it will limit what they have in terms of choices for their health care.

For all Americans, if you ask: What do you think, is this going to cost more or less, they think it is going to cost more. When I ask people at townhall meetings: Do you think you will have better or worse care, the show of hands is that they will have worse care.

Americans don't want to pay more and get less. People want value for their money.

People who depend on Medicare are rightly more suspicious than other folks because of the impact this is going to have on them. They understand \$500 billion is going to be cut from their health care.

Mr. ALEXANDER. We have 4 minutes left. I believe I will wrap up and leave the last minute to the Senator from Utah. Our point is a pretty simple one. We believe, we Republicans, that after this bill is put together, we ought to have ample time to read it, that it ought to be on the Internet for 72 hours, and that we ought to hear from the nonpartisan Congressional Budget Office how much it costs. Why would we do that? Because we have differences of opinion over whether it hurts people on Medicare, over whether States will have to raise taxes in order to pay for Medicaid, over whether the assumptions made will actually add to the debt, over how large taxes are on small businesses. We have differences of opinion. The only way we can intelligently debate those is if we can read the bill and know what it costs.

On the Republican side, we believe we should focus on reducing costs and go step by step to re-earn the trust of the American people by fixing health care in that way, starting with such ideas as permitting small businesses to pool their resources in order to offer insurance to a larger number of people. Another way to reduce cost would be to find ways to eliminate junk lawsuits against doctors.

The Senator from Utah may have other thoughts about the importance of reading the bill.

Mr. BENNETT. Mr. President, I will make this comment with respect to the remarks of the Senator from Tennessee with reference to the CBO. We need hard numbers, but we do have a preliminary understanding already.

The Director of the CBO, Mr. Elmen-dorf, was asked if it is true that the fees established in the bill would ultimately be passed on down to the health care consumer, and his response:

Our judgment is that the piece of legislation would raise insurance premiums.

If we go more deeply into the CBO analysis, we find that not only would premiums in the individual market be higher than under the proposed reform, but taxes on insurers and drugs and devices would be passed on to consumers in the form of higher premiums. Finally, CBO also says that the premiums would be extremely high even after the proposed reforms because taxpayers would be subsidizing expensive plans. We clearly need the kind of careful analysis that clothes these comments with actual numbers. Without those, how can we vote with any kind of clarity on the proposal before us.

Mr. ALEXANDER. I thank the Senator from Utah and yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Illinois is recognized.

#### HEALTH CARE REFORM

Mr. DURBIN. Mr. President, I would like to debate the Republican plan for reforming health care. I would like to see the Republican plan for reforming health care. I would like to know what they stand for when it comes to reforming health care. They have been given adequate opportunity—

Mr. ALEXANDER. Will the Democratic leader yield?

Mr. DURBIN. Regular order, please.

The ACTING PRESIDENT pro tempore. The Senator from Illinois has the floor.

Mr. ALEXANDER. He asked me what our plan is. I would be glad to tell him.

Mr. DURBIN. Mr. President, they have been given ample opportunity, to the point where they offered 160 amendments which were adopted in the HELP Committee when we were debating the bill, 160 Republican amendments. So they brought in their ideas, we put them in the bill, and then when the bill came up for final passage, not one Republican would vote for it. Over and over again, all they can do is criticize. They are just upset with the idea of changing the health care system.

I am particularly amused with the defense of Medicare by Republicans. This is a historic change for a party that used to call it socialized medicine, a party that said: Keep the government out of health care, when we created Medicare. Now they are coming to the defense of Medicare. The reason they are is because 45 million Americans count on Medicare every single day; 45 million seniors know that without Medicare, their family savings would be in danger if they had a catastrophic illness after they have reached retirement; 45 million Americans who know the fact that for the last 40 years we have improved the longevity, the life expectancy of seniors because of Medicare.

Let me tell the Senate what their real agenda is. When Republicans come here and talk about Medicare, it is all about health insurance companies. It is all about the health insurance companies that are turning down Americans when they want to have their basic coverage for medical care. It is all about health insurance companies that continue to raise the cost of their product and exclude people from coverage. It is all about health insurance companies that are seeing some of the greatest profits on Wall Street.

So how do you link up these two, Medicare and health insurance companies? In a program called Medicare Advantage. Pay close attention to this program. Here is what the health insurance companies said to the Republicans several years ago. They said:

The government doesn't know how to run health care. The government doesn't know how to run Medicare. We, the private health insurance companies, will show you how to do this. Let us offer Medicare benefits. We will call it Medicare Advantage and let the people decide, let seniors decide if they want to buy the private health insurance plan for Medicare or if they want to stay in the traditional government-administered Medicare.

About one out of four seniors decided to buy into the private health insurance plans for Medicare called Medicare Advantage. In fact, across America, more than 10 million Americans have enrolled in Medicare Advantage. Since 2003, the number of Medicare beneficiaries enrolled in private plans has nearly doubled, from 5.3 million to the 10.2 million I mentioned earlier. It is higher in urban areas than it is in rural areas, higher in some parts of the country than in others.

How did the experiment work? How did it work when the health insurance companies said: We can do it better than the government when it comes to Medicare? They failed. Not by my estimation, by MedPAC, a group that has stepped back and has said: Well, the premiums they are charging per Medicare recipient are higher than what people would be paying under Medicare—14 percent higher.

So these private health insurance companies have a sweet deal: 10 million Americans buying their private health plans instead of traditional Medicare, and they are overcharging them by 14 percent. Who pays the 14 percent? All the rest of Medicare recipients. The money is taken out of the Medicare Program. It means Medicare solvency is challenged because private health insurance companies have failed under Medicare Advantage.

President Obama and Members of Congress have said: This subsidy to private health insurance companies to try to offer Medicare at a lower cost, which has failed, has to come to an end. If it comes to an end, what is it worth over 10 years? It is \$180 billion. So when we say we are taking \$180 billion in savings in Medicare, we are closing down the failed experiment by private health insurance companies to offer Medicare as a private health insurance plan.

The Republicans are coming and complaining: Oh, they are taking money out of Medicare. Yes, we are. We are taking the subsidies to the private health insurance companies out of Medicare. So their complaints are basically complaints in defense of private health insurance companies. They can make all the case they want about private health insurance companies. I will take the case to the American people that private health insurance companies need to treat Americans a heck of a lot better than they are right now.

You know what I am talking about. Preexisting conditions. If you are unfortunate and have a preexisting condition and turn in a claim to a health insurance company, get ready for a battle. First, you are going to battle some faceless clerk in Omaha, NE; and the next thing is going to be your doctor calling that office saying: For goodness sakes, you are not going to cover this procedure, this surgery this person needs under health insurance?

That battle takes place every single day, thousands of times, when private health insurance companies say no or they wait until you are sick to cancel you or they will not let you take your health insurance from one job to another. Over and over again, people across America know what the private health insurance companies are up to.

Because, unfortunately, the Republicans do not have a plan in terms of health care reform, because they will not join us in trying to put one together, President Obama has reached out to them, we have reached out to them. We have asked them to join us in this conversation: Join us in this debate. They have refused to do it. They will not be part of it.

Only one Republican, a Senator from the State of Maine on the Senate Finance Committee, Senator SNOWE, is keeping an open mind on this. I appreciate that. All Americans should. She said: I want to see this final product. I am not ruling out voting for it. Senator BAUCUS, the chairman of the Finance Committee, spent months, literally months, in a room with three of our colleagues—Senator SNOWE was one, Senator ENZI of Wyoming, Senator GRASSLEY of Iowa—trying to come up with a bipartisan approach, and eventually the Republicans walked out of the room but for Senator SNOWE.

It is not as if we have not tried to engage them. But for reasons I cannot explain, they do not want to be part of this conversation about the future of health care in America. They come down to one or two issues or one or two theories, and then they take a walk.

Democrats want to protect consumers from health insurance companies and the abuses they have heaped on the American people. Unfortunately, whether it is Medicare Advantage or other health insurance reforms, the Republicans will not join us. They are on the side of the health insurance companies, not on the side of change to protect Americans from the abuses of health insurance companies.

We want to strengthen Medicare. We want to maintain the benefits, even expand them, to the point where, for example, we close the doughnut hole in the Medicare prescription program. That is a term of art that has come about on Capitol Hill that basically reflects the fact that if you are under Medicare Part D, having your prescriptions paid for, and you have a lot of

bills, you could reach a point during the course of the year where there is a gap, a percent where you have to put all the money in out of your own pocket, and then, after you spend up to another level, you get coverage again. They call it the doughnut hole. We would like to fill it. It is an uncertainty for seniors that needs to be taken care of.

We also would like to make sure seniors have preventive care, so whether they need a mammogram or a colonoscopy or some sort of procedure to find out if there is an illness at an early point, they can get it to be able to deal with it effectively. That ought to be part of it as well. But instead, what did we run into?

Senator JOHNNY ISAKSON is from Georgia. He is a conservative Republican and proud of it. He came into the HELP Committee, and here is what he said: We think we ought to provide, under our insurance plans, that patients can have a confidential meeting with their doctor to discuss one of the most delicate and difficult topics we can consider—end of life care—so the doctor would know: What is your wish, what do you want to have happen if you find yourself in a long-term illness and some important decisions have to be made about extraordinary care.

Senator ISAKSON of Georgia said: I think we ought to cover that under health insurance. We ought to at least give one appointment so the doctor and patient can discuss the possibilities and so the doctor knows what the patient feels will give peace of mind on both sides, should that terrible day ever come.

Do you know what happened to Senator ISAKSON's idea of that meeting? It turned into a Republican diatribe against death panels: Somebody is going to pull the plug on grandma. In fact, one of the Republican Congressmen took to the floor of the House of Representatives and actually said: This is a death panel. Sarah Palin, former Governor of Alaska, used that phrase too.

I can tell you Senator ISAKSON did not propose that. What he proposed is a sensible, commonsense approach. But it shows you the extremes in fear that are being spread by some who do not want to discuss health care in an honest and open way.

We want to make sure people are happy with the insurance they have. If they are, they can keep it. Republicans would put people's insurance at risk by allowing insurance companies to drop people's coverage or put artificial limits on what they will be paid when someone gets sick. We want to make sure insurance is affordable and available for people who have no coverage or if you lose your job or change your job or have a preexisting condition.

I am afraid the Republicans want to maintain the status quo. The status

quo is unsustainable. We cannot continue the health care system we have today. Let me give you one statistic which tells the story about the cost and, I guess, the danger when it comes to health care. In the last few years, the percentage of Americans filing for personal bankruptcy because of medical bills has doubled from 31 percent to 62 percent. That is almost 2 out of every 3 people filing for bankruptcy in America are filing for it because of medical bills.

I think an even more troubling statistic: 78 percent of those filing for bankruptcy because of medical bills have health insurance, health insurance that failed them, health insurance that was not there when they needed catastrophic protection, health insurance that was denied them because of a preexisting condition, health insurance that was not there at the moment when they needed it the most.

That is the reality. To ignore that and say, as some have said on the Republican side of the aisle: We have to go slow, we have to take this slowly and decide whether we need change. We need change. We have asked the Republicans to join us in this conversation about change. They have not done it.

Senator BENNETT from Utah is on the floor. He and Senator WYDEN are exploring an approach to health care which has a few sponsors on both sides of the aisle. It is the only effort I know of on his side to put up a constructive alternative. At least they have come forward with one. It is not one I think most Americans would immediately come to because it eliminates employer-based health insurance. It basically says we, as individuals, would be in a market for health insurance, trying to find the best policies and, under their plan, hope for the competition of that pool of people who would bring costs down.

But, unfortunately, when it comes to the Republican side of the aisle, that is the only offering. The Bennett-Wyden bill is the only offering. Unfortunately, as well, the Republicans have not engaged us and have not agreed to be part of the conversation that leads to a final bill.

Well, we have to deal with this in an honest and open way. We understand that doing absolutely nothing at all is unacceptable because every American, including those on Medicare, will be far worse off if we do nothing at all. Doing nothing at all for many Republicans is the answer. They have created these arguments.

Yesterday, there was an argument in the Finance Committee about government health care and the question of the public option. Should there be, in the choices available to Americans, one not-for-profit option that is trying to bring down costs? Well, I think there should be. Many of the Republicans do not. Some Democrats do not.

In the course of the debate yesterday, a question was asked of Senator GRASSLEY, who opposed the public option: Well, what do you think of Medicare? Isn't that a government-run health care program?

Yes, it is.

Would you eliminate Medicare?

He said: No. That has become part of the social fabric of America.

Why has it become part of it? Because it is reliable, it is affordable, and it changes lives for the better. Why wouldn't you want that option? If you do not want to take the public option under health insurance because you think it is socialism or communism or just plain wrong or you do not trust the government to run health insurance, you do not choose the option. But if you believe in keeping costs down in a program you can rely on that is administered by the government—a program such as, incidentally, the health insurance Members of Congress have—then you can make that choice. That, to me, is what we should be coming down to. But, unfortunately, that option is not open.

We want to hold down health care costs for Americans by attacking waste and fraud. Medicare Advantage, in my mind, is wasteful. Mr. President, 14 percent more the health insurance companies are charging for the same basic Medicare Program. Why in the world would we continue that subsidy to these profitable health insurance companies? Some want to. They argue that any change in Medicare or Medicare Advantage is going to cut basic Medicare benefits. That is just plain wrong.

This do-nothing approach we have heard from the other side of the aisle is going to mean costs are going to continue to skyrocket. As they do, we are going to find fewer and fewer Americans with coverage. We know what is happening with premiums across America. They are going up sky-high, and the wages of American workers are not, so workers are falling behind. Fewer companies are offering health insurance. Smaller businesses even have a more difficult time offering health insurance.

I put together a bill with Senator LINCOLN of Arkansas, Senator SNOWE, and Senator COLLINS of Maine that was supported by the National Federation of Independent Businesses and the realtors to give small businesses a chance to get into a pool to reduce their cost and their administrative overhead and to have health insurance available. I could not draw any more Republican support for that idea. Too much government, they said. Well, for a lot of small businesses that intervention in the marketplace could make a big difference.

I had a hearing back in my hometown of Springfield, IL, on Monday. It was not exactly a hearing. It was more

of a roundtable. I wanted it to be informal because I wanted to hear stories. I heard quite a bit.

I heard from Sandy Hill. Sandy is an interesting woman. She and her husband own an excavating company, a small business in central Illinois. They are proud of it. They work hard at it. She said: My husband is going to die on the job. He is the kind of guy who will never retire. He is a hard-working guy, proud of his business.

Sandy, unfortunately, has diabetes. As a result of that, they cannot afford health insurance. No health insurance for her or her husband, and Sandy is in a position in life where she needs it. Her doctor was there with us. Sandy talked about the fact—because she does not have health insurance, and can spend up to \$900 a month on insulin and other care for her diabetic condition—that sometimes she has had to make the decision to cut back on her medication. I looked over at her doctor, Dr. Albers, who was sitting next to me, and she winced when Sandy said that and thought that is the wrong thing to do. It is the wrong thing to do. But Sandy Hill has no choice. She does not have health insurance. She gets up and goes to work every single day, proud of the little business she and her husband have put together, and she cannot get health insurance.

In 2009, in the United States of America, a hard-working woman and her husband with no health insurance, with a medical condition that could be life-threatening if she does not receive basic care and protection. We have said to our Republican friends, and we have said to all the critics and detractors: Join us in solving this problem. Let us get costs under control. Let's start reducing the increase in the costs of health care. We have to do this. Let's also make sure health insurance companies treat people fairly, that they do not deny coverage to them when they need it the very most. Let's make sure as well that people like Sandy Hill who have no health insurance will have a choice, an option to turn to. That is only sensible. I think it should include a public option. She can decide whether she wants it. If she doesn't want it, she doesn't have to take it. She will have private health insurance companies and the public option—her choice to take one or the other.

Let's also start dealing with some fundamentals here. We need to focus more on prevention and wellness in America. Keeping people healthy and well is not only good for them and their families, it is good for the cost of health care in our country. I believe it is important that we focus more on that.

If you have a \$5,000 deductible—and a lot of people do because they have health insurance policies with expensive premiums, so they put a big deductible on it—let's assume you have a

\$5,000 deductible or copay. I just ran into a man with that. What does that do to you? Some people say: Well, it is an incentive not to overuse the system. That is true, but you have to watch out that it isn't a perverse incentive.

The man I met had been told by his doctor that he needed a colonoscopy. There were some worrisome signs that indicated he needed that procedure to find out if he, unfortunately, had polyps or colon cancer, and he needed to be treated right away. Because he had a \$5,000 copay, he asked: What does it cost?

They said: It is \$3,000.

He said: I can't afford it. I will try to get back to that later.

People with copays and deductibles that are very high turn down some very basic procedures, preventive procedures, that can catch something in an early stage and deal with it in an effective way. That is what we are trying to achieve here. We are trying to achieve this quickly so we can turn this around and move this forward and so we have real health care reform.

I agree with those who say the bill should be in writing and Members should have a chance to read it. That just makes sense, and it will be. But those who want to slow it down for weeks or months—maybe let's wait until next year; maybe it will take a few years—don't understand the pressing urgency of our dealing with this problem.

The President has committed himself to this like no other President since maybe President Clinton or President Lyndon Johnson. It has been years. Under the previous Republican President, there were no proposals when it came to health care reform—none. None that I can recall. The closest thing I can remember is the Medicare prescription drug plan which I mentioned earlier. An extension of the Children's Health Insurance Program, which we had to fight with the administration over, is one that I think has been good, to extend health care, with the help of the government, to a lot of kids who otherwise wouldn't be protected.

The Republican leader came to the floor today and talked about his concerns, and there were many.

He said it was going to raise taxes. Well, let's make it clear. When we talk about health care reform, first, President Obama has said he will not sign any health care reform bill that adds to the deficit. So, unlike the Medicare prescription drug program which added to the deficit dramatically, this approach cannot add to the deficit. We have to pay for it.

He said it would include tax hikes. Well, I don't know what is going to be included in the health care reform bill in terms of increases in revenue. If we are talking about taking the subsidy back from the health insurance companies under the Medicare Advantage

Program and the Republicans are objecting to that, they can, but I think most Americans would agree that the subsidy is something that shouldn't be sustained.

He argues that the bill is 1,000 pages long. It might be. We are talking about a change in our basic economy that affects \$1 of every \$6 spent. It, of course, is going to have a lot of sections to it to consider all of the possibilities.

He talks about the cost of \$1 trillion over 10 years. The Republican leader objects to that. This year, we will spend \$2.5 trillion on medical care and health care in America. Over the next 10 years, I am sure the total figure will be over \$35 trillion. So addressing it with a \$1 trillion program over 10 years is less than 3 percent of what we anticipate spending on health care if we do nothing. So \$1 trillion is a staggering figure until it is put into context.

He says it will impact a sixth of the economy. He is right.

He says it will impact every American. He is right about that. It is the biggest challenge we have faced. It is one that is going to be tough, politically difficult, but we have to do it. As the President said, if it were easy, some other President would have done it a long time ago, but we have to do it now.

I believe most people understand that the bottom line here is that failing to do this—do nothing, as some on the other side of the aisle would suggest—isn't going to solve this problem, it is going to make it much worse. It is going to reach a point where we are going to face even grimmer choices in the future. The American people will stand up and work together on a bipartisan basis for something that is truly good for the common good. There will be dissenters. There are people standing outside now with signs against the public option. That is part of the American way. But the fact is, if we do nothing, this situation will get dramatically worse.

I yield the floor.

THE PRESIDING OFFICER (Mr. BEGICH). The Senator from Ohio.

Mr. BROWN. Mr. President, I appreciate the words of Senator DURBIN, especially his story about Sandy Hill from Illinois and what he said about her situation.

I come to the floor often to share letters I have received from people all over my State who oftentimes were very happy with their health insurance and then found out their health insurance, once they got sick, wasn't so good. Let me share a couple of these letters, and then I have some other comments I wish to make.

Susan from Stark County, in the Canton area, writes:

The cost of having health insurance is coming to a point where I may have to drop it because of the cost. I have three years until I can qualify for Medicare, but in that,

how high will my premiums increase? Right now my insurance costs almost \$500 a month and as of this November will increase another \$60 a month. The insurance companies dictate to the doctors what they can charge and to the patients how long hospital stays can be. This is not fair to those of us who have to try to pay our own way.

That is exactly what we are addressing in this bill. Many people have insurance. Many people are generally satisfied with their insurance, but they are seeing several things happen: The costs continue to go up; small businesses continue to be more burdened with the expense of covering their employees; and in too many cases, people who had decent insurance get denied care, perhaps because of a cap or a lifetime cap where they get very sick, they take biologic drugs, they go to the hospital for a long hospital stay, and all of a sudden they have busted their cap. In other words, the fine print in their insurance policy says: We are not covering you after we spend X number of dollars. They have lost their insurance, and bankruptcy is too often around the corner.

Jeanne from Dayton writes:

Last November I was laid off from my job and lost my benefits at the same time. My husband has health insurance through his employer, but he might lose his job soon. We're both in our mid 50s and have more than 10 years to go before we can get on Medicare. We've been frugal all our lives. We've got enough money in savings to pay off our mortgage, if necessary. We could even live on the pensions we've accumulated starting today if we had to. But that's assuming we have no health problems in the next 10 years. Please don't let greed take away what we have worked so hard for.

The assistant majority leader, Senator DURBIN, just spoke about insurance subsidies and how this legislation is going to be good for insurance companies. It is going to get a good bit of money to the insurance industry so they can cover people and bring their rates down. That is why the public option Senator DURBIN spoke about is so important.

The public option will make sure the insurance companies play by the rules. We are going to have insurance reform in this bill. We are going to outlaw pre-existing conditions, the game of community rating. We are going to outlaw those insurance companies putting a cap on costs for any individual patient, either an annual cap or a lifetime cap. We are going to outlaw discrimination based on geography or gender or disability or age in this legislation. We are going to enforce these rules because we have all seen the insurance companies game the system even when the rules were thought to be strong and tight and ironclad. We know the insurance companies will still try to game the system. That is why the public option is so important.

The public option is an option. You can choose CIGNA or Aetna; you can choose, in my State, Medical Mutual, a

not-for-profit headquartered in Cleveland; or you can choose the public option. The public option will make sure CIGNA and Aetna and those other for-profit insurance companies play by the rules. That is why it is so important.

Randolph is from Summit County. He says:

I have operated a small business in Ohio for 25 years. We have provided all of our employees health insurance from day one. It does hurt, it's the only area we can count on going up every single year—and not three or five percent, but double digit increases nearly every year for the past 27 years. These increases stop us from what we could do: Add more employees. This country needs health insurance reform now.

Randolph is exactly right. Almost every small businessperson I know wants to cover his or her employees. Those small businesses are getting so oppressed by these health insurance costs that it stops—in many cases, it means they have had to scale back the benefits they provide their employees, force their employees to pick up more of the cost. It also means, as Randolph points out, he would like to hire more people, grow his business more, expand, but he can't do it because of health care costs. That is why this legislation is so important.

The public option is important to keep the insurance companies honest. The assistance we are going to provide for small businesses with tax credits will allow them to pool their resources, with the opportunity, if they choose, to go into the public option. All of that will help those smaller employers in Mansfield and Gallipolis, in Fremont and all over my State, will help those small employers, those small businesses prosper, be able to provide insurance for their employees, and allow them to grow and do what they want to do as businesspeople.

#### PEDIATRIC CANCER RESEARCH

Mr. BROWN. On August 6, Alexa Brown, an 11-year-old from Clyde, OH, died of brain cancer. Alexa was an active, happy, and beautiful little girl. Her courage in the face of such tragic circumstances was inspiring.

Unfortunately, Alexa's battle with cancer is not an isolated case. Cancer is the No. 1 cause of nonaccidental death in children. It is responsible for more deaths from ages 1 to 19 than asthma and cystic fibrosis and AIDS combined.

In northwest Ohio and the area around Clyde, 19 other children have been diagnosed with a form of invasive cancer in the last decade. Public health officials are trying to get to the bottom of the environmental origins of this cancer cluster, as it is called, but in too many cases we simply don't know enough about the disease to reach any definitive conclusions.

It is this lack of knowledge and it is heartbreaking stories such as that of

Alexa Brown that persuaded us in Congress to unanimously pass the Caroline Price Walker Conquer Childhood Cancer Act last year. That bill, named after former Ohio Representative Deborah Pryce's 9-year-old daughter who died of cancer, established a national patient registry for pediatric cancer patients at the Centers for Disease Control and Prevention as well as authorized additional funding for pediatric cancer research at the National Institutes of Health. After passing that bill, it may have been tempting to just claim victory, but today, 14 months later, there is still much to be done to fully realize the goals of that legislation.

The Senate version of the Labor, Health and Human Services appropriations bill does not yet include the direct funding authorized by the Caroline Pryce Walker Conquer Childhood Cancer Act. The House bill does. That is why today, on the last day of Childhood Cancer Awareness Month, Senator VOINOVICH and I sent a letter to appropriators urging that the final Labor-HHS package include \$10 million specifically—specifically—for pediatric cancer research.

Currently, the National Cancer Institute spends less than 4 percent of its budget on pediatric cancer. An extra \$10 million would boost that percentage and help our effort to get to the bottom of this deadly problem. It would give hope to those in Clyde, OH, and northwest Ohio and across my State and across this great country who have seen cancer's destruction firsthand.

I had a chance to meet with Alexa's family just a few days after their daughter passed away. You can imagine, it was a very emotional time for them and for their neighbors and for their friends at church and for their friends throughout Clyde and that part of the State. But even in their state of mourning, Alexa's mom and dad stressed the importance of making sure other families don't have to go through the same thing. I think our colleagues couldn't agree more.

Thank you, Mr. President. I yield the floor.

#### CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business is closed.

#### LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2010—CONFERENCE REPORT

The PRESIDING OFFICER. Under the previous order, the Senate will proceed to the consideration of the conference report to accompany H.R. 2918, which the clerk will report.

The assistant legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2918) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes, having met, have agreed that the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment, and the Senate agree to the same, signed by all the conferees on the part of both Houses.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the conference report.

(The conference report is printed in the House proceedings of the RECORD of Thursday, September 24, 2009.)

The PRESIDING OFFICER. The Senator from Nebraska is recognized.

Mr. NELSON of Nebraska. Mr. President, I ask unanimous consent that upon disposition of the conference report to accompany H.R. 2918, the Senate then proceed to the consideration of H. Con. Res. 191, a correcting resolution; that the concurrent resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. NELSON of Nebraska. Mr. President, I rise today to present the conference report on H.R. 2918, the Legislative Branch Appropriations Act of 2010.

I will start by thanking the ranking member of the subcommittee, Senator MURKOWSKI, for her help throughout the process of completing the bill. We worked very well together, and the result is a true bipartisan product.

I also thank Chairman INOUE and Vice-Chairman COCHRAN for their support and direction this year as well.

At the request of the full committee, a clean, 1-month continuing resolution has been attached to this conference report.

I believe the bill we have before us today is a good one. This bill will allow the legislative branch to continue to operate and move forward during the next year.

When Senator MURKOWSKI and I began our hearings this year, we both agreed we should lead by example in the legislative branch—being good stewards of the taxpayers' dollars. Fiscal year 2010 would be a year of "must haves" versus a year of "nice to haves." With one notable, important, and understandable exception, I think we have been successful.

The final conference report contains \$50 million for the renovation of the Cannon House Office Building. The conferees included this funding at the request of the House. As a matter of comity, the House and Senate defer to the other body on funding decisions related to their side of the Chamber. The \$50 million for the Cannon Building Historical Fund accounts for most of the new overall spending above the cost-of-living increases in our bill.

The conference report before us today totals \$4.65 billion, which is \$156 million, or 3.5 percent, over fiscal year 2009, \$386 million below the budget request.

The bill provides \$926 million for the operations of the Senate, which is \$31 million, or 3.4 percent, above fiscal year 2009, and \$83 million below the request. I am happy to say we were able to reduce the Senate funding by \$8 million from the Senate-passed bill. In addition, \$1.37 billion is included for the operations of the House in fiscal year 2010.

The bill also provides \$328 million for the Capitol Police, which is \$22 million, or 7 percent, above fiscal year 2009. This amount fully funds the current onboard strength of 1,799 officers and provides for an additional five civilian employees to assist with the implementation of the radio project. Congress made the decision earlier this year to move forward with this long-overdue project. So now it is critical that the Capitol Police has the personnel it needs to bring this project in successfully—on time and on budget. No excuses.

The Library of Congress is funded at \$643 million, an increase of \$36 million, or 6 percent, above current year, including full funding requested for the Library's information technology upgrades, which is a top priority of Dr. Billington.

The conference agreement includes \$602 million for the Architect of the Capitol. Setting aside the \$50 million for the renovation of the Cannon House Building, this mark represents a \$22 million, or 4 percent, overall increase for the Architect of the Capitol. The bill includes a very good balance of energy reduction, deferred facilities maintenance, and code compliance projects within the funding provided.

The Government Accountability Office is funded at \$557 million, an increase of \$26 million, or 5 percent, above fiscal year 2009. This funding supports additional staff to assist GAO in carrying out its vital role in the oversight of the Federal Government.

The Government Printing Office is funded at \$147 million, an increase of \$7 million, or 5 percent, above current year. This increase provides funding for several of GPO's high-priority information technology projects and much needed repairs to the elevator system of the GPO building.

The conferees included \$45 million for the Congressional Budget Office, which is an increase of \$1 million above fiscal year 2009. This will provide CBO with the support it needs to fulfill its mission serving Congress.

The Office of Compliance is funded at \$4.4 million, which is \$305,000, or 7 percent, over current year.

Finally, the conference report includes \$12 million for the Open World Leadership Fund. This represents a decrease of \$2 million below current year

and \$2.5 million below the Senate-passed fiscal year 2010 level.

Mr. President, in closing, I thank the staff members who have assisted us throughout this process. First, from Senator MURKOWSKI's staff, I thank Carrie Apostolou and Sarah Wilson for their hard work on this bill. From my staff, I thank Nancy Olkewicz, Kate Howard, and Teri Curtin for their assistance in producing this important legislation.

With that, I urge my colleagues to support this bill.

The PRESIDING OFFICER. The Senator in Hawaii is recognized.

Mr. INOUE. Mr. President, I rise to support the Legislative Branch conference report, which includes a continuing resolution allowing the government to maintain normal operations until October 31, 2009.

I thank Chairman NELSON and Ranking Member MURKOWSKI for their hard work on this bill. I believe the final product before us is fiscally responsible legislation that meets the essential needs of both the House and Senate. I applaud their efforts to urge its adoption by the Senate.

With regard to the continuing resolution, I note that today is September 30, the last day of the fiscal year. With our men and women in uniform fighting on two fronts, and with our economy at a critical stage in its recovery from the worst recession we have faced in several generations, it is inconceivable that we would allow for any disruption of the essential services provided by the Federal Government. We simply must pass this bill today and send it to the President for his signature.

The continuing resolution before us is clean and does not contain any controversial provisions. It increases funding for our veterans health care services in order to meet the needs of our wounded warriors returning from Iraq and Afghanistan.

The continuing resolution increases funding for the Census Bureau to allow that agency to continue to ramp up its necessary activities prior to the 2010 census.

Mr. President, I note that the continuing resolution prohibits any funding for ACORN, and it extends a number of necessary authorizations.

Finally, in order to cover a budget shortfall, the continuing resolution allows the Postal Service to reduce by \$4 billion a payment designed to prefund retiree health benefits.

Continuing the operations of this government should not be a partisan issue. I note to my colleagues that in both 2006 and 2007, the Congress attached a continuing resolution to an appropriations conference report.

In 2006, the Republican-led Congress passed the conference report and the attached continuing resolution by a vote of 100 to 0.

In 2007, the Democrat-led Senate passed the conference report and the continuing resolution by voice vote.

When I assumed the chair of the Appropriations Committee, my first priority was to work with my colleague and vice chair, Senator COCHRAN, to return the appropriations process to regular order. This is a tall order given that we did not receive the administration's budget until May.

Today, we have our second and third conferences scheduled with the House, and we expect to hold several more in the coming weeks. This short-term continuing resolution will give us time to consider a good number of appropriations bills under the regular order.

Mr. President, we have more work to do to pass all 12 bills. But I am proud of the committee's efforts thus far, and I look forward to reporting continued progress throughout the month of October.

With that, I urge my colleagues to vote in favor of the Legislative Branch conference report, which contains this short-term continuing resolution. I congratulate the chair and the ranking member.

I yield the floor.

The PRESIDING OFFICER. The Senator from Nebraska is recognized.

Mr. NELSON of Nebraska. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SESSIONS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. CASEY). Without objection, it is so ordered.

Mr. SESSIONS. Mr. President, I want to speak today once again concerning the really astounding, irresponsible, unjustified increases in spending we have seen in this Congress. I don't believe this Nation has ever seen anything like it in the non-defense area, and it is threatening this country's long-term financial health. So I am going to focus today on some of the appropriations bills considered in this Chamber as well as the next highway trust fund bailout, which is in the works.

I have some prepared charts, and my staff will bring those here in a minute, which will show the runup in appropriations spending we are seeing today, which is pretty much unprecedented in the history of this Congress.

Take for instance the agricultural appropriations over the past 8 years. They are dramatic. We passed that recently. Agricultural appropriations increases were 14.5 percent in this year's appropriations bill over last year's. That would double the agricultural budget in 5 years if we maintained those increases. That is a stunning number. The average increase in agriculture spending was 2.1 percent compounded over the 7-year period from

2003 to 2009. Yet we now jump up, in this time of unprecedented deficits and debt, to where we have a 14-percent increase. The 2.1-percent average we had from 2003 to 2009 was criticized by many as being excessive, but it was about the rate of inflation. As we know today, inflation is virtually nonexistent, and yet we end up with a 14-percent increase.

If you look at the Department of the Interior, those changes over the past 9 years are also dramatic. We just passed the Interior appropriations bill. Interior and EPA, the Environmental Protection Agency, have now been put together. Their increases were 16.6 percent in over the previous year in the 2010 Senate bill.

This chart just shows in graphic detail how agricultural spending has gone. I know my colleague from Nebraska believes in agriculture, and I do, too, but this is one of the few times I have not been able to support an agriculture bill. We don't have the money to increase spending 14 percent.

President Bush, they said you spent too much on agriculture. We heard that a lot, didn't we, I say to Senator NELSON. But it was pretty frugal over the years. Here we have, in 2009, a 15 percent increase, and in 2010 a 14.5 percent increase in spending. Our debt today is so much greater than what we had in those years, it makes us wonder how did we get here.

If you look at Interior, as I just mentioned, we see the same thing. The Environmental Protection Agency has not always been a part of this funding mechanism, but we worked hard to try to make sure we are comparing apples to apples, and you see less than 1 percent in 2002, 5.6, 1.6, a minus 1.3, minus 4.0, then 16 percent this year. I couldn't vote for that. I do not think our colleagues are listening to their constituents back home. They know something is going awry up here. They think we are detached from reality. Doesn't this chart suggest that they are correct?

I will just mention the Environmental Protection Agency. Their increase this year is 33 percent. That would double EPA's funding in 2 to 3 years.

Let me add, these funding levels do not count the largest appropriations bill in the history of America, which we passed in February—wait a minute. I hear my wife right now: JEFF, would you quit saying "we" passed, when you voted against it? The Senate passed \$800 billion. If you add the stimulus funding the Interior bill agencies received, that would add another \$11 billion to their spending and take it to over a 50-percent increase.

So Interior got a lot of money out of the stimulus bill. This chart is not including the stimulus spending; this is baseline spending. So next year, they will want an increase again and it will

be on a much higher baseline, a 16-percent higher baseline than the previous year.

I will get to this one next, the T-HUD appropriations, as we call it around here, Transportation, Housing and Urban Development.

Since the Transportation-HUD bill has only been around for 3 years in this configuration, together, this is what we have been able to graph out for those two bills. The average of all discretionary appropriations increases for all appropriations bills that we have had, from 1995 to 2009, 15 years, averaged 5.2 percent compounded. So when you see a 23-percent increase this year in the fiscal year 2010 bill, that is over four times the 15-year average of appropriations for discretionary spending in our cup. At a 23-percent rate, spending on T-HUD would double every 3 to 4 years.

Next, let's look at Commerce-Justice-Science. Although CJS has also only been around for the past three years, we were able to reconstruct the funding levels for all agencies going back to FY2003. What we discovered was surprising. The average spending increases from 2003 to 2009 for CJS was 4.4 percent. However, this year we have a 12.3-percent increase in the baseline funding for the CJS bill. At that rate, spending in that CJS—Commerce-Justice-State spending would double every 6 years, and that doesn't include the \$16.9 billion CJS accounts got from the stimulus legislation.

Finally, there is the State and Foreign Operations bill. The State and Foreign Operations has only been around together in this configuration for 3 years, and that is all we have been able to graph. However, we can once again compare it to the average of all appropriations increases for all the bills from 1995 to 2009, which I said was 5.2 percent.

So the 33-percent increase in the fiscal year 2010 State and Foreign Operations bill is over six times the 15-year average increase for discretionary spending. At a 33-percent rate, the spending would double every 2 to 3 years, at a time of unprecedented deficits.

This week, we are going to have the Legislative Branch appropriations bill, our budget. It increases spending at a 5.9-percent rate compared to fiscal year 2009. That is four times the rate of inflation excluding food and energy, which, according to the Bureau of Labor Statistics, is 1.4 percent for the last 12 months. So, excluding food and energy, we have inflation at the rate of 1.4 percent, and we are funding our own selves in the legislative branch at a 6-percent increase. If you include the cost of food and energy—and there is some good news here: inflation has gone down, actually. We are in a period of deflation. It has gone down 1.5 percent when you figure that over the en-

tire year, including food and energy prices, which have dropped considerably from the huge gasoline prices we remember not long ago. So if you add the stimulus and the supplemental funds from fiscal year 2009 to fiscal year 2010 instead, you come up with an 8.2-percent increase.

So what is wrong with spending 23.2 percent or 16 percent more on these bills than last year, or on the average? The simplest way to put it is, we don't have the money. We are going to have to borrow money to do this spending. We borrow the money. It is not free money. We don't have the power just to spend money. When we go into debt, we borrow the money, and people buy Treasury bills and notes, and we use that money to pay the debt, the shortfall between what we spend and what we take in in taxes. We are going to have to borrow money from a lot of people, but China is our biggest loaner of money. Other countries lend as well.

Shortly after President Obama's inauguration, he released a budget entitled "A New Era of Responsibility." Here are some quotes from his passage in that document:

Therefore, while our Budget will run deficits, we must begin the process of making the tough choices necessary to restore fiscal discipline, cut the deficit in half by the end of my first term in office, and put our Nation on sound fiscal footing.

That is a good statement. I just have to say that I am still looking to where those tough choices are going to be made. According to the Congressional Budget Office, our independent source of information, the President's budget doubles the debt in 5 years and triples it in 10. This is the Congressional Budget Office. This is a nonpartisan group, although our Democratic majority on the Budget Committee, of which I am a member, has the votes to select the Director. Since the history of the founding of this Nation, we ran up a total debt, national debt, of \$5.8 trillion. According to the Congressional Budget Office, the President's budget would double it in 5 years, by 2013, to \$11.8 trillion, and in 2019 it would be \$17.3 trillion, thus tripling the national debt in 10 years. I know people do not think that is true, but those are the numbers we have, and we are on track to get there. This does not include unprecedented increases in discretionary spending that we are seeing on the floor of the Senate. It also doesn't include health care. This number was scored before we talked about spending \$1 trillion or more on health care additions.

I have to mention interest on the debt because the numbers are so large that people have difficulty comprehending them. People tell me that all the time: A trillion dollars, I have difficulty understanding how large that is.

What about interest? We know what it takes when you pay your mortgage

interest or your credit card interest. You have to pay the underlying debt and then you pay the interest on top of that. Sometimes interest can put you in the poorhouse.

This year, 2009, the interest on our total national debt is \$170 billion. That is a lot of money. Alabama's State budget, including education, is about \$15 billion. We are about one-fiftieth of the Nation in size. Interest this year will be \$170 billion, and it will go up dramatically. CBO scores the annual payment of the United States to people we owe money to at the end of 10 years, as almost \$800 billion. If interest rates go up a little higher than they had projected, and many have projected interest rates will go up higher, particularly the Blue Chip Forecast, which is a highly respected group of economists who forecast various things, they forecast it would be \$865 billion because they forecast a higher interest rate. And if we have what some people fear will occur, which is a surge in interest rates, as we had in the late 1970s because of our irresponsible spending, it could hit \$1.29 trillion or \$1,290 billion in interest.

So we spend about \$40 billion a year on highways, we spend about \$65 billion in this Congress on aid to education, and we are going to see from \$170 billion to \$800 billion or more we have to pay in interest? There is no free lunch. You can't borrow your way out of debt. When you spend money you do not have, you borrow it and you have to pay interest on it.

We have low interest rates today. That seduced some of our masters of the universe to say: Let's run up a little debt right now. Running up a little debt is one thing, but the interest rates are going to go up, as CBO projects. They are pretty low today because of the slow economy.

I am very concerned about this. What I am concerned about is our spending in these appropriations bills indicates we are oblivious to this. This is reality. I am not making this up. This is reality, and the American people intuitively understand it and they are really worried about it. I think they should be. We are the ones who seem to be not connected to reality.

The President also stated these words in his budget submission documents:

Then there are the years that come along once in a generation, when we look at where the country has been and recognize that we need a break from the troubled past, that the problems we face demand that we begin charting a new path. This is one of those years.

It does seem apparent that we are having a break with our past. We are definitely seeing increases in spending, the likes of which we have never seen before in our basic baseline appropriations bills. Even the deficits I have mentioned assume not a recession in

the next 10 years but robust growth in the next few years and solid growth in the last 5 years. Basically, the projections on the deficit and the interest rate we are going to have to carry are greater.

And the deficits—let me share this with my colleagues. I get asked this at townhall meetings: Well, when do we pay back the debt? When do we pay it off? I am paying my mortgage. I pay principal and interest. When is the Federal Government going to pay back its debt? The answer is: We have no plan to do so. The only plan we have is to pay interest and increase the debt.

For example, this year the budget deficit has been estimated to be \$1.8 trillion, the largest ever. Last year it was \$450 billion. It is \$1.8 trillion this year. The CBO forecasts that the lowest deficit, annual deficit, we will have in the next 10 years is over \$600 billion.

How can you pay any debt down when the lowest deficit you are going to have is \$600 billion? The best year they are projecting, we increase the debt by \$600 billion. Indeed, what is even more troubling is in the outer years, years 8, 9, and 10, the deficit is growing. In the 10th year, they project that the deficit that will result from the President's spending policies would be over \$1 trillion.

So there is no plan to pay this back. It is only a plan to increase the total debt, which inevitably increases the interest burden that is going to fall on our children and grandchildren. We are reaching into the future to pour money into today to satisfy our current needs because some say we are in a crisis and we have to get out of this crisis; let's just spend money.

We are using that as an excuse to increase our legislative branch spending, our interior spending, our agriculture spending that, at baseline level, is higher than anything we have ever done in recent memory. Let's hope the scenarios I mentioned do not happen. I think it is possible. I have a lot of confidence in the American people that somehow, some way their voice is going to be heard. There are going to be some changes in Washington. If we do not do it ourselves, they are liable to send someone up here to replace us who will do it.

But it appears that some of our major creditors are taking note of the debt we are running up. Our creditors are looking at these numbers. They are not oblivious to what is going on. There is a special kind of Treasury Bond that we sell to get people to loan the government money called treasury inflation-protected securities or TIPS. Unlike regular bonds that would be at a certain interest rate and that could be devalued when inflation increases, TIPS adjust their value if inflation goes up. So if people with a lot of money looking at these numbers, are they betting that we will see inflation

go up or are they expecting inflation to go down? It is pretty clear that they expect inflation to go up because investor interest in the TIPS is soaring.

The Dow Jones Newswires reported September 13 that prices on TIPS have risen 8.7 percent this year; whereas, the prices of regular Treasury bonds have shrunk by 2.6 percent.

Smart Money magazine reported September 23 that investors poured \$8.5 billion into TIPS in the second quarter of this year alone, double the amount for the same period last year. The Wall Street Journal reported the same day that investors have poured \$17 billion into TIPS so far this year; whereas, they purchased only \$10 billion in TIPS all last year.

Meanwhile, the Chinese, who are some of our biggest creditors, with more than \$800 billion in Treasury bonds, have expressed concerns about inflation here and have shown a corresponding interest in buying TIPS. According to the Wall Street Journal, they discussed TIPS at high-level talks in Washington at the end of July.

The United Kingdom's Daily Telegraph, in an article entitled "China Alarmed by U.S. Money Printing," on September 6, even quoted a top Chinese Communist Party official lecturing the United States on spending and then quoting Benjamin Franklin to the Americans.

He said: "He who goes borrowing goes sorrowing." How ignominious is that, to be lectured on spending by Communists. Due to interest from both the Chinese and others, the spread in the interest rates between the 10-year TIPS and the regular 10-year Treasuries has grown from about zero—they both had about the same rate of interest at the beginning of this year—to nearly 2 percent.

That means one can get nearly a 2-percent better rate by buying regular Treasuries. But people still want TIPS. Why? Because they believe and are afraid that as the years go by, inflation is going to rise, and they will get more interest back by buying TIPS, even though it is 2 percent below the basic Treasury rate.

Meanwhile, the dollar is hovering at a 1-year low, partially because the Fed recently decided to have interest rates unchanged at basically zero percent, and decided to extend through March its timeframe for purchasing \$1.25 trillion in mortgage securities and \$200 billion in government agency debt.

The dollar has slid 6.2 percent this year on inflation fears, while gold has soared 15 percent. Gold goes up on inflation fears in the future.

Confidence in the dollar has sunk so low that the U.N. proposed replacing the dollar as the global reserve currency in its U.N. Conference on Trade and Development annual trade report, published September 7. China has also expressed interest in an alternative currency.

Not only that, because of all this borrowing, we are about to hit our \$12.1 trillion debt limit, which was last raised when? Not too many months ago, when we passed the \$800 billion stimulus package in February.

Our debt has increased by \$1.1 trillion just since President Obama was inaugurated. The Treasury Department has been holding record auctions of Treasury bills and notes to keep up with the deficit and the debt.

Another aspect of the continuing resolution that we will be considering this week is yet another bailout of the Postal Service. This is the third Postal bailout in 8 years. The Post Office was supposed to be completely self-funding by now. But they still refuse or are unable to pay for their outyear benefits and expenses.

According to the Congressional Research Service, they face about \$95 billion in total unfunded liabilities—\$95 billion—which is why they are supposed to make payments that are being suspended by the continuing resolution. They are scheduled to make \$5.1 billion in payments this year for the unfunded pension liabilities. But in this bill, we are letting them only pay \$1.1 billion.

There is nothing free here. OK? We will let them not pay the full amount. Those payments are to make their benefits actuarially sound. This \$4 billion in relief is in addition to the \$7.1 billion that was provided in 2003 and the \$1.5 billion that was provided in 2006.

CBO, our Congressional Budget Office, says this is costly because it shifts money from future accounts to current expenses. But if we keep doing this without structural reforms from the Postal Service, taxpayers will wind up on the hook for a good portion of those unfunded liabilities.

Why is the Post Office in such a financially poor position? In terms of efficiency, labor costs consume 80 percent of their revenue; whereas, UPS and FedEx spend 65 and 45 percent, respectively, on their labor costs.

The Postal Service is nearly insolvent despite not paying any taxes. They have to have some reform in the Postal Service. I am not going to go into detail now, but a recent Federal Times article pointed out some of the inefficiencies. We cannot continue this.

Let's turn to the highway trust fund. We are going to be asked to pass an extension of the trust fund spending. It struck me as perhaps coincidental that our highway trust fund keeps running out of money year after year after year. What is happening here? Why is it always running out of money? After all, the highway program is supposed to be funded by the gas tax and to be deficit neutral.

However, last year we were told we had to borrow \$8 billion from people who loan us money, including China and Saudi Arabia and others, to replenish the highway fund. This year, we

have already borrowed another \$7 billion to fix the shortfall.

Although the bill before us this week does not borrow additional money from the Treasury, it also does nothing to address the constant deficit the trust fund faces. I am told the fund has been facing and will face a deficit of about \$10 billion a year, which means this bill is just kicking the can down the road, and we are going to be asked for either another bailout or a tax hike in the future.

We cannot savage the highway budget. We have to maintain a reasonable spending level for our highway budget. But we have not been going about this responsibly. We are basically funding it by increasing our debt. That is no way to go.

Some make the point that people are driving less and they pay less gasoline taxes. There is some truth to that. But the most recent authorization bill, the Safe, Accountable, Flexible, Efficient Transportation Equity Act, contained a timebomb in it that created the crisis we are in today.

It appears to have been written with the objective of drawing down the highway trust fund rapidly to zero and perhaps beyond. The previous highway bill had some safety mechanisms built into it to prevent declines in our revenue from bankrupting the trust fund. But the SAFETEA-LU weakened both of them, one known as revenue aligned budget authority and one known as the Byrd test, to the point that they are basically irrelevant today.

The combination of constantly increasing spending and disabled safety mechanisms to contain spending means that a crisis was almost inevitable. As early as April of 2006, the Congressional Budget Office was predicting significant negative balances in the out-years of Transportation spending. But did we take any action to confront that looming shortfall?

No, no action was taken either in the authorizing committees or the appropriations committees. The predictable gap between authorized spending and predictable revenue, a prediction that the highway trust fund will soon go bankrupt, which is where the balances hit zero and the timebomb goes off. Despite predictions from CBO that this would happen, to this day, no action has been taken by either the authorizers or appropriators to rein in spending or create the kind of revenues necessary to sustain the program.

Instead we are supposed to keep borrowing, borrowing, debt, debt, debt. The excuses we keep hearing to justify these bailouts is that the highway trust fund has been raided at various times in the past. But that is not accurate.

It is inaccurate. According to the GAO, an independent agency, the general fund paid for \$39 billion in highway expenses from 1956 to 1996. Including

interest, these payments were worth \$164 billion. So it seems that at best, the highway trust fund isn't owed anything, and at worst, it perhaps actually owes money to the general fund. In fact, GAO determined in that report that as of 1998, if the highway trust fund had been forced to pay for all highway expenditures, it would have been in deficit \$152 billion. We are not raiding the highway fund. We have been putting in extra money. Where did we get it? By borrowing more money and increasing our debt.

Those transfers didn't stop in 1997 either. Before the current series of bailouts began, Congress already provided for \$31 billion in transfers over 10 years from the general fund to the highway trust fund as part of the 2004 American Jobs Creation Act.

As I mentioned before, we have before us this week a highway trust fund extension that does nothing to help with the constant deficit in the program except borrow more money to put into it. All it does is keep spending at levels we know we don't have the money to sustain. In fact, if we keep spending at the current levels, the highway trust fund will require \$87 billion in bailouts from 2010 to 2019. I remember a few weeks ago, in a stunning vote, Senator VITTER from Louisiana offered a fine amendment. We were told that the stimulus package that had to be passed so quickly in February to save jobs was going to rebuild our crumbling infrastructure and our highway programs, creating permanent improvements that would benefit the Nation for years to come.

Most people perhaps missed the fact that less than 4 percent of the \$800 billion that was appropriated in February went to highways. Hundreds of billions of dollars of the stimulus bill have still not been spent. Senator VITTER said: We said we were going to use this money for highways. We are having a shortfall in the trust fund. It is going to cause serious repercussions in the transportation industry. Let's take the money and fix it on a more permanent basis, 18 months, 2 years, and take the money from the stimulus bill that hasn't been spent.

I voted with Senator VITTER, but the amendment was voted down, the effect of which was to say that the Senate prefers to borrow the money necessary to fix the highway trust fund and increase our debt rather than using the money we basically told the American people we were setting aside for highways. That was a very irresponsible vote. It spoke volumes. Basically, with few exceptions, the Democratic majority made up their minds how they wanted to handle this shortfall which was increasing the debt. They refused to consider taking it from the already appropriated stimulus package.

Unfortunately, CBO scores are not the clearest when it comes to these

bailouts. I am not sure that is all CBO's fault or the Budget Committees'. One would think a bill that allows billions of dollars in additional deficit spending would score as much. But according to the CBO, highway spending is discretionary; therefore, what matters in terms of the deficit is what is appropriated not what is authorized. Of course, if we ask the appropriators, they will simply say they provide what is authorized. For fiscal 2010, the appropriators provided what they expected to be authorized by simply assuming that this extension of spending and eventual general fund transfer would happen. That is one of the reasons there was an incredible 23-percent increase in spending in the Senate-passed bill.

The committees are playing a shell game with taxpayer dollars. Somebody has to step up and start taking responsibility for the seriousness of the situation. If we look at how much transportation spending has increased over the last 10 years and where it is expected to go, the 2005 highway bill provided \$286 billion in spending over 5 years and allowed spending to increase 23 percent over that 5-year period. The 2007 spending it provided represented a 92-percent spending increase from 1997; 10 years, almost double. I offered an amendment in 2005 to reduce that spending and fund it properly. It failed 84 to 16.

The House Transportation Committee apparently wants the next major reauthorization to spend \$500 billion over the next 6 years. That is a per-year increase in spending of 46 percent.

One thing we are pretty unified on is that we need to adequately fund highways. I thought we had unanimous agreement that the stimulus bill would emphasize highways and bridges and roads and infrastructure, but it did not. But we still spent the money.

The reason we are not getting nearly as much jobs impact from this Federal stimulus package is too much of it is going to amorphous things that don't create positive benefits and jobs. Regardless, the number we show on this chart of the debt of the United States, projected to triple in 10 years, is unsustainable. Everybody says that, but when do we get serious? We are not getting serious in this year's budget. It is an unprecedented increase in spending.

The long-term budget the President submitted to us and what was essentially approved by this Congress shows it tripling in the next 10 years, based on what their projections are for spending. I am troubled by it. We have to keep talking about this. We need to listen to what the American people are telling us. If we do, we will be acting in a much more responsible way than we are today.

I yield the floor.

The PRESIDING OFFICER. The majority leader.

Mr. REID. Mr. President, I ask unanimous consent that the 12:30 recess be extended so that I may finish a statement.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. REID. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### HEALTH CARE REFORM

Mr. REID. Mr. President, on the Senate floor this morning, there has been some debate about one of the provisions in one of the proposals that will ultimately make up the health insurance reform bill, a bill that will finally make it more affordable to live a healthy life in America. I welcome such a debate. It is an important part of a democracy. It is how we do business in the Senate. I would like to take a little time to respond.

My Republican colleagues made two primary points this morning. The first is that they were upset that we are helping the hardest hit States in the country. It is hard to comprehend, but that is what they were saying. The second is, they were upset that we want to address an urgent national problem such as the health insurance crisis.

Let's talk about them one at a time. First, Republicans are upset that we are helping the hardest hit States. The specific section they mentioned would look at all States in the Union and see which are suffering the most in our troubled economy, which citizens are suffering the most from an unhealthy health care system, and make sure these States' Medicaid Programs get the support they need to make people's lives a little easier. The four States affected are Michigan, Oregon, Rhode Island, and the State where I was born, Nevada.

Were these four States selected at random? No. Were they just picked out of a hat in the Finance Committee? No. Were they chosen to intentionally exclude 46 other States? Of course not. These States are suffering more than most, and that is an understatement. Three of the four are the top three in unemployment, and as national legislators, we know our job is to help States in precisely that position.

First, Michigan. Time magazine this week: "The Tragedy of Detroit." Look at this picture. I was in Detroit a few months ago. I am not an expert on Detroit. I have been there a few times, but I was stunned by the buildings boarded up, the streets in distress. "How a Great City Fell." That is what

it says in Time magazine, a major feature article. Who can say that Michigan is not bleeding? Who can say its Medicaid Program doesn't need a hand? The cover of Time magazine shows a dilapidated city, dilapidated streets with debris covering the road and windows knocked out of abandoned buildings. It looks like a ghost town.

I am pulling for Detroit. I know I am going to upset everybody here, but I was glad they beat the Redskins. They have lost so many games in a row, they needed a lift. It is not going to hurt the Redskins to be on the losing side of playing the Detroit Lions. I am pulling for the Detroit Tigers. They are a game or two ahead, and they might make it to the playoffs. Detroit needs a little boost.

If we look at this cover—windows knocked out, debris covering the roads—it is like a ghost town. The cover reads: "The Tragedy of Detroit." The State of Michigan is in trouble. Even Sports Illustrated put Detroit on its cover this past week and wrote about how the city is trying to cope with its unparalleled plight. The cover stories in both these national magazines tell the distressing tale of the largest city in our most populous States, a State where unemployment is more than 15 percent. Do Senators want to come here and say Michigan doesn't need a little shot in the arm? That is higher than any State in the country. That is why we are supporting Michigan's Medicaid Program. That is what this legislation is all about in the Finance Committee that people complained about today.

Second, Oregon. Oregon's unemployment is more than 12 percent. In March the unemployment rate was 12.1 percent, and many economists said that was as bad as it could possibly get. Guess what. It got worse. Not only did the unemployment rate rise, but the rate of underemployed people in Oregon, those looking for full-time jobs who can only find part-time work, went up also. Together the unemployed and the underemployed in the great State of Oregon is almost 23 percent. Yet people are coming to the Senate floor saying Oregon doesn't deserve this little shot in the arm they get from Medicaid. Almost a quarter of the people in that State cannot find the work they want. That is why we are supporting Oregon's Medicaid Program.

Third, Rhode Island. Unemployment in that State is 12.8 percent. It has been hit very hard by job losses, foreclosures, and evictions. In fact, last month a record number of Rhode Island residents sought emergency shelter. At no month in the 219-year history of that State did more citizens seek emergency shelter than in August of this year. That is tragic, and that is why we are supporting Rhode Island's Medicaid Program. People should be embarrassed to come and complain about try-

ing to help Michigan and trying to help Rhode Island with their Medicaid Programs.

Let's talk about Nevada. We have talked about Michigan, we have talked about Oregon, and we have talked about Rhode Island. Let's talk about my State, I repeat, where I was born, a State that was on a financial uptick for more than two decades. Well, there is not a single State in the Nation now that has felt the full force of the foreclosure crisis like Nevada. We have led the Nation in foreclosures for 31 months in a row. Let people come and complain about trying to help Medicaid recipients in Nevada.

In the nationwide housing crisis that has been both a cause and an effect of the global economic crisis, Nevada has been hit the hardest. We lead. It is nothing we are proud of, but it is true. On top of that, our unemployment rate is more than 13 percent. The people of Nevada are hurting, and I make absolutely no apologies, none, for helping people in my State and our Nation who are hurting the most.

Let me repeat, Mr. President, I make absolutely no apologies for helping Michigan, Rhode Island, Oregon, and my State of Nevada. That is why we are supporting Nevada's Medicaid Program.

In fact, that is what our entire health care debate is all about: helping those who are hurting. That is what our jobs are all about—yours, Mr. President, and mine—looking out for our constituents who give us the incomparable honor of representing them and serving their interests.

I said this before, but it bears repeating: The price of living a healthy life in America is simply unaffordable with many people. Those with health insurance are at the whim of insurance companies that look out only for their bottom line and drop patients left and right, even when they need coverage the most.

Those without health insurance are forced to file foreclosure, go into bankruptcy, or simply succumb to curable diseases because of exorbitant costs and abusive policies. Those fortunate enough to have health insurance are already paying a hidden tax to cover those who do not. Surely, that is no way for the wealthiest and greatest Nation in the history of the world to treat its citizens. We should not do that. We have to do better.

I said I wanted to comment on two points my Republican colleagues made on the floor this morning. I have done one. The second is their objection to how this bill is moving through the Senate. They are complaining it is moving too fast. That is a subject for a Jay Leno comedy spot.

Since May 2008, the Senate Finance Committee has held 20 roundtables, summits, and hearings on their proposal for fixing our health care system.

They are complaining the process is going too slowly?

If I told you the Senate Finance Committee held more than 50 meetings on their proposal for fixing our health insurance system—including more than a dozen member meetings, hundreds of hours of negotiations with the bipartisan group of six members of that committee—we have watched that on national television over the last several months—well, you could be excused, I guess, for thinking the other side is complaining that this process is moving too slowly.

If I told you the Senate Finance Committee is adding to that number as we speak, since it is now in its second week of marking up their proposal for fixing our health insurance system, you might assume the complaints are that the process should be sped up.

I could go on, Mr. President. If I told you when the HELP Committee drafted its own proposal to fix our health care system, it held 14 bipartisan roundtables, 13 bipartisan committee hearings, and 20 bipartisan walk-throughs, you might think they are complaining that this process is going too slowly. Hard to comprehend.

If I told you that committee accepted more than 160 Republican amendments on the HELP bill, you might say the same.

If I told you we have known our health care system is headed for disaster since Harry Truman was President, you might think the complaint is that we are taking too much time.

But here is the surprise: Republicans think this process is going too fast, not that it is moving too slowly. We have talked about all these hearings. Republican Senators are on the record saying they will vote against health insurance reform, even though they admit they do not need to read the bill to draw that conclusion. Pretty good. But it is just another excuse.

They have all these diversions. They come up with them: death panels, frightening people who are old in America, which is absolutely untruthful. Not a scintilla of evidence that is true. Then they came up with one: All these Democrats want to do is give insurance to illegal immigrants. Absolutely false. And there are many other red herrings they have thrown up along the way. It is just more evidence that for some on the other side there will never be a good time for health care reform—never. It is just more proof they want to defend the status quo, refuse to take care of their suffering and struggling constituents, and ignore the will of the American people. Their accusations are false, their complaints are disingenuous, and their rhetoric is dangerous.

Under the Republicans' plan, insurance companies can deny you coverage for a preexisting condition, because you are getting old or you are a

woman. Under their plan, insurance companies can take away your coverage when you need it the most. They want the status quo. That is what that is.

Under our plan, if you like what you have, you can keep it, but if you do not, there will be affordable choices for you that cannot be taken away. We will protect Medicare, we will not raise taxes on the middle class, and we will not add a dime to the deficit.

Mr. President, debates are great. But the reason—my being a trial lawyer—you have a judge determining what happens in a trial is because the judge makes sure what takes place is honest from both parties. Here we do not have that kind of a judge. So people can come to the floor and make the most false accusations, and it is up to us to explain to the American people whether what they are saying is true. Just because someone comes to this floor and says something, it does not mean it is true. And the complaint of my friends on the other side of the aisle about Michigan and Rhode Island and Oregon and Nevada getting special consideration is false.

Mr. President, I ask the Chair to put the Senate in recess at this time.

#### RECESS

The PRESIDING OFFICER. Under the previous order, the Senate stands in recess until 2:15 p.m.

Thereupon, the Senate, at 12:38 p.m., recessed until 2:15 p.m. and reassembled when called to order by the Acting President Pro Tempore.

#### LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2010—CONFERENCE REPORT—Continued

The ACTING PRESIDENT pro tempore. The Senate will come to order.

The Senator from Nebraska is recognized.

Mr. NELSON of Nebraska. Mr. President, I note the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

The ACTING PRESIDENT pro tempore. The Senator from South Carolina.

Mr. DEMINT. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DEMINT. Mr. President, I rise today in support of the rule XXVIII point of order to be raised by Senator MCCAIN against the Legislative Branch appropriations bill.

I voted against this bill the first time it came through the Senate and now it is even worse. In fact, we violated one of our new ethics rules we talk so much

about in the Senate and in the House where these conference bills cannot contain a provision that was not part of either the House or Senate bill. We call that "air dropping." But we air-dropped some significant things into this bill, violating our own ethics rule.

First, we added a 1-month continuing resolution that funds our government since we haven't finished our work here in the Congress, but we also added a \$4 billion bailout for the Postal Service into this conference report bill, again, violating our own ethics rule. The air-dropped provisions are undemocratic. There was no debate or transparency. Like earmarks, it is another tactic politicians use to have an end run around our constitutional limits.

It is also wrong for Congress to fund itself while allowing all other government agencies to operate under a short-term continuing resolution. In 1995, President Clinton vetoed the legislative branch bill for this reason:

Congress should not take care of its own business before it takes care of the people's business.

If we are going to pass a continuing resolution, it should cover the entire government until we can have a transparent process that the American people can see. The only reason these tricks are pulled is that politicians don't want people to see what we are doing.

Even worse than the process that has been used for this legislation are the policies contained within it. Around the country, families and businesses are having to tighten their belts because of the recession. Many are out of work. At the same time, we are increasing our budgets dramatically here. This legislative branch bill itself has increased nearly 6 percent versus last year, despite the growing debt and the serious economic problems we are having as a country.

Just a couple of statistics from the bill: We have increased spending 128 percent for the House office buildings; a 155-percent increase for the Government Printing Office; a 6.2-percent increase for the Senate whip offices; a 4.3-percent increase for Senate leader offices; a 4.1-percent increase for Speaker PELOSI's office; a 4.3-percent increase in the Vice President's office; and don't forget a \$200,000 earmark for a museum in Nebraska.

If we were in prosperous times and had plenty of money, surpluses, then perhaps some of these increases would make sense, but not at a time when we see all Americans hurting and having to tighten their belts.

This is one of the smaller increases compared to the ones that have gone through in the last couple of weeks. We are spending our Nation into bankruptcy. Our debt is almost as large as our entire economy, and growing by \$1 trillion every year. Long-term deficits for Medicare and Social Security are

more than \$100 trillion. We have no idea how we are going to keep our promises to seniors. When will all this end?

The head of the World Bank, a former U.S. Trade Representative, is questioning whether the U.S. dollar will long remain the world's reserve currency because of our spending and because of our debt. A few weeks ago I noted that some officials in Zimbabwe were concerned about America, our spending and our debt, and what could happen to our currency. They have good reason to. A friend of mine who returned from Zimbabwe brought me one piece of their currency. This is a 100 trillion dollar bill from Zimbabwe. It is so worthless he gave it away as a souvenir. They are worried about our debt. We need to be worried about it too.

This bill also includes a \$4 billion bailout for the Postal Service, the third bailout they have gotten in 8 years. But the money is not contingent on any reforms within the Postal Service, so the underlying waste will continue and require another bailout in the next year or two. Why would we bail out the Postal Service without any requirement that they reform their policies, the policies that have led to this mess? There are some very obvious things we could do. We could save \$50 million by stopping paying employees an average of 45,000 hours of standby time. We could close unnecessary post offices. There is a long list of things we could do to reform the Post Office so that we don't continue to bail them out with taxpayer money, but there is nothing in this bill about doing that. It is only another bailout, another giveaway. So simply bailing them out will only prolong the problems and cost the taxpayers more money.

In sum, if we look at the legislative branch bill, it is bad policy, it has followed a bad process, and it continues this out-of-control spending and debt for our country. It does not deserve our vote.

I thank you, Mr. President, and I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Nebraska.

Mr. NELSON of Nebraska. Mr. President, I note the absence of a quorum.

Mr. COBURN. Mr. President.

The ACTING PRESIDENT pro tempore. Does the Senator from Nebraska withdraw his request?

Mr. NELSON of Nebraska. Without objection, yes.

The ACTING PRESIDENT pro tempore. The Senator from Oklahoma is recognized.

Mr. COBURN. Mr. President, I wish to spend a little bit of time today talking to my colleagues and the American people about where we are. I don't know of a better description of where we are than this sign. The President said and some in the House have said

that certain facts about health care reform are indisputable, but nobody will dispute this one: Forty-three cents out of every dollar we spend this year, we borrow against the future of our children; 43 cents out of every dollar the Federal Government spends. What does that come to per family? What that comes to is \$15,603 per family—every family in this country—we borrowed against this year.

The reason I came down to the floor—I have a lot of problems with both the CR and this bill, but I want to know where the leadership is in America today. We are in tough times, and if there ought to be one bill the Congress passes with no increase in spending, it ought to be the bill that pays for the things we do. The reason it ought to be that bill is because we ought to lead by example. What we are saying with this legislative branch bill is that, you know what, there is just not 5 percent to cut in our efficiency. Nothing could be further from the truth.

Every year I have been here, I have been allocated a certain amount of money for my office. In no year have I turned back less than 18 percent of that money, 460-some thousand bucks. We didn't spend it because we know how to run things efficiently and effectively.

That is a misnomer for the Federal Government, as led by the Senate, as exemplified by this bill.

So what have we done so far this year? Here is what we have done. Here is where the 2009 increases were, and here is what we are proposing this year. This doesn't take into account any of the money we spent in the stimulus or any of the money in the emergency appropriations we passed or that we wanted to increase the baseline.

Last year, we increased our own budget by 10.88 percent. Inflation was minus last year; there was a negative inflation. So we had an infinity, as far as recognizing the increase of our own budgets, because, in fact, the costs actually went down in America. CPI declined. This year, we are at a 1.4-percent CPI increase year over year, from September 30 to September 30.

Legislative branch is almost three times what inflation is; Homeland Security, four times inflation; Energy and Water—because they got such a large bump with the stimulus bill, we only increased it 1.41 percent. Every other bill, such as Agriculture, is 12.68 percent; but if you look at it, it is almost 22 percent. The THUD bill is 22.54 percent. Interior is 16.28 percent. Here is the inflation rate, 1.6 percent.

Where is the leadership? That is what the American people ought to ask. I don't fault the chairman. He is given a number and he is supposed to meet it. I fault our leadership. Things are never going to change until we model the behavior that will set the example to cause everything else to change. When

we don't have the self-discipline and the courage to make hard choices in the running of our own offices and our own facilities, how can we ever expect anybody else in the rest of the government to do that?

You heard Senator DEMINT talk about what kind of shape we are in. Our debt today is \$11.790 trillion. That is going to double in the next 5 years. It is going to triple in the next 10 years. Medicare is an unfunded liability. For Medicare alone, it is \$89 trillion. What are we doing? Why are we not—Democrats and Republicans alike—saying the problem is in our leadership? The problem is the example we set. We can't even hold our own expenses flat at a time when the rest of the country is making the most difficult choices. Every family and every business is in tough times, and we are flying through it because we don't have to lead by example. We don't want to make hard choices.

There is something lacking in America today. It is sorely lacking. The trouble we are in isn't partisan. It is not one party or the other. It is the combined leadership of this country that fails to recognize the depth and severity of the problems before us, and then it is compounded by not making the hard choices and leading by example to give us a result that will change that path. No other appropriations bills have passed Congress. There have been no conference reports passed for this year. The one that we are going to pass is the one for us. That doesn't fit with any sense of reality to the average family in this country.

Today, it was released that we have a 16-percent approval rating. That is way too high. That is way too high. Leadership is about sacrifice, giving up something so somebody else can gain. We have none of it in any of these appropriations bills we have passed. But they have not gone to the President because we don't have conference reports. Then we have the gall to bring in our budget at three times the inflation rate for us and pass it as the only one. Everybody else will be frozen, with minor exceptions, in the CR. Everybody else—the rest of the government—cannot plan. They don't know what they can do. But we are going to make sure we take care of us. That is exactly why we have a 16-percent approval rating.

I struggled a long time with whether I would seek my seat in the Senate again. Quite frankly, I came down to the fact that, other than three or four of us, nobody in the Senate is speaking about the real long-term problems. Nobody is thinking long term. What we are thinking about is short-term parochial instances such as the \$200,000 the chairman put in for his own State. It may be a great project, but now is not the time to do that. It sends a signal to the rest of America that I am going to take care of me and the heck with you.

It is the wrong message. Yet we are going to do it anyway. We are going to say: Oh, well, never mind. It is a good cause, \$200,000 doesn't matter.

When we are growing up, our parents try to teach us a lot of things. It becomes the small things that are important. This legislative branch bill is a small bill compared to all the others we are going to pass. But it is big on symbolism because this is never going to change until we change. The symbolic act of passing this bill, where we are increasing our own expenses three times the rate of inflation, when most people in this country are spending less money on everything they do, some by choice, some out of fear, and some out of absolute circumstances that they have no control over—yet we pass a bill for us that makes us look absolutely foolish in Americans' eyes. America gets it. We don't. This is an embarrassing time for us as a country. The reason is because there is a difference between what the American people expect and want out of Congress and what we are delivering. It is not about Republicans or Democrats. People are scared. What is the future going to be like? I can tell you. If, in fact, we don't reestablish frugality and common sense in how we fund our expenses and every other aspect of the Federal Government, what we will see is the diminishment of the greatest magnitude of freedom this country has ever seen. We are starting to see it. Where do you think we got the 43 percent we are borrowing? We got most of it from people outside this country. They now have an influence over our ability to remain free because they control the money strings.

This isn't just a rhetorical statement. We know—and I put it on the floor 10 times—nobody disputes that there is at least \$350 billion worth of waste, fraud, and duplication in the Federal Government. Not one time in any of the bills that have come through this Chamber have we addressed the significant causes of those problems or addressed fixing it to right them. When we make amendments, they are defeated but not on party-line votes; they get defeated by the appropriators. The greatest power in the Senate is not Senator HARRY REID, it is the Appropriations Committee.

Consequently, when we try to fix the problem, we have a united front that says parochialism and short-term thought is much more important than the long-term future of the country, and our political positions are more important than the health of this Nation. Consequently, tonight, even after points of order will be raised—and I plan on raising some myself—we will pass this. Everybody will say the show-er from COBURN is over and we can keep on doing what we have done.

America, don't let us get away with this. Don't let us lead by this poor ex-

ample. Don't let us not sacrifice in our own offices so we can create the kind of leadership that is necessary to right this ship. This is the worst display I have seen in my years of service in the Congress. It is not about the details. It is the very fact that we have the audacity to take care of us before we take care of the rest of America. We have the audacity to increase our own budgets, which are fat.

If I can turn back the large amount of money I turn back every year, and every office could do the same thing, we could cut significant moneys from this bill. But we don't have the courage, the spine or the backbone that every American family has today—the actual guts to make hard choices. So we ignore them because it is so easy to take the credit card and say charge it to the next generation.

Yesterday, I heard Senator SCHUMER go after several members on the Finance Committee over Medicare. He said: You can't be against this. You are for Medicare, aren't you? Sure, Medicare is great.

The only problem is, the unfunded liabilities with Medicare are going to cripple our economy starting in 2017. Alexander Tyler said all republics die, all republics fail. They fail at that moment in time when the vast majority of the citizens of the republic figure out they can vote themselves something from the Public Treasury.

Is it morally acceptable for us to continue to steal from our children? Is it morally acceptable to take opportunity away in this great land of freedom? Or will we sit back some day and tell our grandchildren about what it used to be like to be free in this country? All republics fail because all republics become deficit ridden.

It does not have to be that way for our country. Real leadership, real courage, real clarity of character says that now is the time, whether you are a Democrat or a Republican, to lead on the issues that will solve the problems in front of this country. This bill doesn't do it. As a matter of fact, this bill conditions more apathy and less confidence in the country and rightly so. We are not going to see that level of confidence come back to the Congress until we start paying attention to the long-term needs of this country and making those decisions in a way that doesn't have any consideration of our political position whatsoever, but every consideration about the truth, welfare, and long-term viability of our country. This bill doesn't do it.

The fact that this bill is used as a vehicle to fund the rest of the government, and we put us ahead of everybody else, to me, sends a very clear message to America: It is time to change who is here. It is time to send new people here. It is time to have people who are more interested in the country than their political careers or their party.

We example the worst of Washington politics and the worst of parochialism when we put us first and our desires first and our careers first, rather than the long-term viability of this country.

The CR contained in this bill violates the budget resolution—violates 311 of the Budget Act. It is all over the place. Even though we will raise points of order, we probably will not win. But when we don't win on that, America, you ought to ask why didn't we win. It will be because the Members of this body think more about their budgets than they do yours. They think more about their comfort than they do yours. They think more about their future than they do yours. It is very easy to solve this situation. What should happen is the legislative branch should be frozen like everybody else in the country, and we should pass bills coming out of conference committee as soon as we can, and we ought to work hard on doing that. Then we ought to pass a CR tonight that is free of this, that doesn't violate the Budget Act.

I want to make one more point talking about the \$4 billion and the postal provisions. There are a lot of great people who work for the U.S. Postal Service. There is no question about it. They are a victim of technology today more so than anything else. The fact is we use electronics rather than the mail, and the first-class mail volume and the volume for second and third-class items is going to go down. There is nothing the post office is going to be able to do to turn that revenue around. There is nothing. And that is not the average postal worker's fault. But the postal portion that came out of the Homeland Security Committee contained a very key component that has been ignored in this CR, and that was this: the negotiation of labor rates in this next round. Heretofore, they have never taken into consideration the financial health of the post office. Some of us find that kind of strange, but they never have. But there was an amendment that was agreed to in the committee that said: This time, when you arbitrate the language for the postal service employees, you have to consider the health of the post office, because that is where the revenue comes. Well, that has been conveniently left out of this CR. It passed out of committee. Yet we didn't put it here.

What does that mean for the post office? That means when we go to negotiate the labor agreements, the fact the post office is going to lose \$8 billion or \$10 billion next year—they will lose at least \$8 billion this year, maybe even \$12 billion or \$14 billion next year—there won't be any consideration given in evaluating the labor contracts. Any other business whose revenue is declining rapidly that ignores the revenue side and ignores expense increases is sure to fail.

As Senator DEMINT said, this is the third time in 5 years we have tried to put a patch on the U.S. Post Office, and this patch is only going to last for 1 year. It is not going to solve anything. We are going to ignore the hard choices that need to be made both by the postal employees and the post office in order to fix this so it is not a drain.

That is what I am talking about—the failure to lead. We duck the hard problems. We don't want to offend anybody. What we have to do is to start thinking long term. We have to start being about a vision of America that is financially healthy, and we have to swallow the hard, tough medicine of getting there.

We are setting an example with this bill that says we don't care; it doesn't matter. So America is disgusted. And that is what it is when 16 percent have confidence in us. I guarantee a large percentage don't—84 percent. A good portion of that is disgust with us. You know what. I am disgusted too. I know the individuals in this body. They are great people. But there has to be a change in the dynamics of the thought and the reasoning or we are going to suffer the consequences. Actually, we are not; our kids are. They are going to suffer the consequences.

I will end with this point. If you were born today—September 30, 2009—in this country, the first present you get for your birthday is an IOU for \$400,000. Because when you take all our unfunded liabilities and apply to it the living segment of Americans over the next 70 years, their portion of our indiscretion is \$400,000. It just takes simple math: Take 5 percent interest—and none of us can probably borrow any money at 5 percent interest—and that is \$20,000 a year for the first 20 years of their life they are going to have the pay the interest on. So what does that come to, 20 years times \$20,000? Now we are at \$800,000 before they are out of college.

How in the world will they ever own a home? How will they ever send their kids to college carrying that kind of load? There is one of two answers to it: We either enter into the real world and start making the hard decisions and fixing the programs that are broken and eliminating the waste, fraud, and abuse, or we devalue our currency and everybody's assets in this country are going to shrink by about another 30 percent in terms of their real value.

That is the answer.

But those are inconvenient truths. We don't want to talk about them. We don't want to talk about the consequences of our actions. A former President said: Freedom is a precious thing. It's not ours by inheritance alone. It is never guaranteed. It has to be fought for and defended by each and every succeeding generation.

How do you fight for freedom when you owe \$800,000 and you are not out of college yet? How do you do that? When

will we start to take the shackles off the next two generations? When will we start to eliminate the burden of our excesses on our children?

We are not far from a time when it is going to be too late to reverse this course. The international financial market is signaling that now. Wouldn't it be wise for us to lead with courage, to make tough choices, and truly secure the freedom of our children and grandchildren?

Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mr. COBURN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. COBURN. Mr. President, I ask unanimous consent that the time during the quorum call be equally divided between the majority and the minority.

The ACTING PRESIDENT pro tempore. Is there objection?

Without objection, it is so ordered.

Mr. COBURN. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Ms. MURKOWSKI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. SANDERS). Without objection, it is so ordered.

#### SOUTH PACIFIC EARTHQUAKE AND TSUNAMI

Ms. MURKOWSKI. Mr. President, before I turn to the Legislative Branch appropriations bill and the continuing resolution that is under discussion, I wish to take a couple of brief moments to speak about the very devastating earthquake and tsunami that hit American Samoa, also Samoa, Tonga, and the other islands that are in the region, and offer my thoughts and prayers to those who have lost loved ones in this disaster.

As we saw yesterday, an earthquake in the range of 7.9 to 8.3 in magnitude occurred about 120 miles from American Samoa. It was followed by three aftershocks, all of about 5.6 in magnitude. These are incredible earthquakes we are seeing. Even the aftershocks are enormously significant. When we think back to the earthquake that hit Alaska in 1964, it was about 7.9 on the Richter scale. We in Alaska remember that most vividly.

To appreciate what American Samoa and the islands in the region have been hit with—it is incredible. According to the media reports, these earthquakes caused four tsunami waves approximately 15 to 20 feet high. They struck

the island 25 minutes after the quake, reaching up to 1 mile inland. There are reports from residents on the island that the quake lasted 2 to 3 minutes. That is an eternity when the earth is rocking underneath you, and then to know that these tsunamis came in so quickly after those earthquakes. I understand that as of this morning there are 24 confirmed deaths in American Samoa and many more in Samoa, Tonga, and the other islands. This number is likely to rise as many individuals remain missing and unaccounted for. The President has declared American Samoa a major disaster area, and we have FEMA teams that are heading to the area now.

To those who have family members and loved ones in American Samoa, the White House and FEMA will be holding a teleconference this evening at 7 o'clock p.m. eastern time. Hopefully, we will have more information available at that time. I understand that few landlines are working and getting updates has been difficult. As far away as Alaska is from American Samoa, we have a surprisingly large Samoan and Tongan population in my State, so I know there are people at home in Alaska who are worried about their families and their loved ones. Hopefully, we will have more updates on that.

Again, my thoughts and my prayers go out to those who have lost loved ones and to those in American Samoa affected by this terrible event.

Mr. President, I want to speak this afternoon on the conference report that is accompanying H.R. 2918, the Legislative Branch appropriations bill, as well as the continuing resolution for fiscal year 2010.

Before I speak to the specifics of the legislative branch agreement, I would like to make clear my very strong objection that this continuing resolution that will be part of this was made part of the legislative branch conference report. This was done at the last minute. It was done at the direction of the House majority. It precludes amendments and careful consideration of all the issues.

The conferees were not offered an opportunity to concur in this process. This is what is known around here as air-dropping, where new material, new matter is inserted into a conference agreement that has not been considered by either body. We didn't take it up in the Senate. They didn't take it up in the House. What we have in front of us is a pretty onerous example. We have rules here in the Senate against air-dropping. I think we have good reason for those rules.

While it has been said that this is a clean CR, certainly there are items that are contained within this CR that represent important policy decisions and go beyond simply funding the Federal Government for another month. Provisions in this so-called clean CR

include one relating to the Postal Service. This is Postal Service reform. The authorizing committee has been working on this for some time. There is another example related to the extension of surface transportation reauthorization.

We had time a week ago to take a freestanding continuing resolution through the normal process in both the House and in the Senate. We would have been able to present that bill to the President before the end of today, before the end of our fiscal year. I am very disappointed that normal process was not followed.

As I understand it, the reason this occurred was the House majority's desire to prevent its minority from offering motions to recommit the bill.

So here we are, last day of the fiscal year, and we clearly have to continue the critical operation of the Federal Government. But I do want to make clear this was not the right process for us to follow.

I have enjoyed the opportunity I have had to work with my chairman on the Legislative Branch Appropriations Subcommittee. We worked hard to produce an appropriations bill that we believed was reasonable and fair and balanced. We greatly reduced the scope of the budget, and we finished our work in a timely manner. We had some very substantive committee hearings. It was a good process. I was pleased in that process.

So it seems more than a little bit troublesome that we, with a very small appropriations bill coming out of the Legislative Branch Subcommittee, working quite concertedly to make sure we did work the committee process in an appropriate manner, should be hung with the continuing resolution at the very end. It is more than just a bit ironic.

At this time I would like to speak to the Legislative Branch portion of this conference report. Again, I want to thank my chairman, Senator NELSON, for his work. I also want to recognize and thank the full committee chairman, Senator INOUE, and our ranking member, Senator COCHRAN, for the support they provided in getting the Legislative Branch conference put together.

Aside from the continuing resolution I just mentioned, I think it is fair to say our conference was without controversy. The final agreement meets the high priority needs of our legislative branch.

Now, Senator NELSON and I are both new to the Appropriations Committee, and we worked well together on this. We did our best to see that the legislative branch served as a model for others within the Federal Government. We worked to tighten our belt wherever possible. We funded only the highest priority initiatives.

In looking at the appropriations bill itself, funding for the legislative

branch totals \$4.65 billion, and while the agreement is \$44 million over the level the Senate passed, the increase is due to items that the House had included. We were able to make reductions below the Senate-passed level in certain areas, such as our Senate office budgets.

The bill is about 4 percent over fiscal year 2009. This is a big improvement, considering that when they came to us initially with the request for the legislative branch it was about a 15-percent increase. So we were able to scale it back.

The conference agreement enables us to meet the highest priorities that have been identified by the Architect of the Capitol, in looking at health and safety, building improvements, particularly in the Library building and the projects that reduce the deferred maintenance in our buildings.

We recognize if we do not address deferred maintenance, it does not go away; it continues and, unfortunately, that pricetag continues as well.

The bill continues the efforts of the Architect of the Capitol to improve energy efficiency with over \$14 million in funding designated for this purpose. Also, within the Library of Congress, we managed to include funding to begin to update the agency's information technology infrastructure.

For about a decade, there have been no increases to IT within the Library. Yet most of the users of the Library are virtual users. I had an opportunity, a couple of weeks ago, to meet with Dr. Billington, the Librarian of Congress. He was showing me some of the incredibly historical documents, old maps from the 1800s from Russia where they were mapping Alaska. Some documents we looked at, the only way I would ever have an opportunity to view them is if I were able to visit the Library of Congress.

Well, now, most of that, much of that incredible history is available through the Internet. So Alaskans, in a classroom thousands of miles away, can access the treasures we have within our Library of Congress.

The information technology infrastructure was clearly Dr. Billington's highest priority. I believe this investment will ensure that millions of people who access the Library through its Web site will be able to find what they are looking for. It is phenomenal.

Similarly, within GPO, the Government Printing Office, we funded the final increment for updating GPO's Web site to ensure that government publications can also be easily accessed and searched.

Also, the bill provides the final increment of funding to complete the merger of the Library of Congress Police into the Capitol Police. This is a project that was initiated years ago by Senator BENNETT when he was chairman of the subcommittee about a dec-

ade ago. It has been promoted by each of the successive chairs and ranking members to improve the security of the Capitol Complex. Today, the Library of Congress Police officially join with the Capitol Police in a ceremony that is taking place this afternoon at the Library.

So this is good news for them. Congratulations need to go out to the men and women of the Capitol Police and the Library Police who worked very hard to ensure that this initiative happened relatively seamlessly.

So there are good initiatives within Legislative Branch appropriations. I am pleased to have been able to work with Senator NELSON closely on these, and I am pleased with the product we have moved through our subcommittee.

Were it not for the add-on that we had just last week, I would be standing before you and saying this is almost a perfect product. We recognize we must deal with the ongoing funding of our Federal Government. It is the last day of the fiscal year, and a continuing resolution must advance.

I yield the floor, and I suggest the absence of a quorum and ask unanimous consent the time be divided equally between both sides.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### DEFENSE APPROPRIATIONS

Mrs. FEINSTEIN. Mr. President, I come to the floor essentially to oppose the McCain amendment to the Defense appropriations bill, which would stop production of the C-17 Globemaster III Airlifter.

The McCain amendment would cut funding approved by the Appropriations Committee to maintain an important national asset in the C-17 program.

Without the inclusion of this funding, the production line would begin to shut down this year, and the last plane would roll off the line in mid 2011, as opposed to mid 2012 if these additional 10 planes, which are in the Defense bill, are, in fact, funded.

I believe the funding is important, and the risk of losing the production line without filling the C-17 need is real. The concern is timing. If this amendment passes, suppliers will be notified within months that their contracts have been terminated. It will become virtually impossible to restart production.

By then it will be too late to take into account the impending Quadrennial Defense Review, the QDR, and a Mobility Capabilities Requirement Study which will assess whether, in fact, we truly have enough C-17s in the fleet. It is my view that failure to fund this aircraft would be a tremendous blow to the future readiness of the military.

Now, why do I say that? The C-17 has been essential to our combat operations in Iraq and Afghanistan, as well as humanitarian missions worldwide.

It is the most flexible and versatile transport in the U.S. military today and the only one capable of flying troops and cargo directly from air bases here to the front lines of Afghanistan and Iraq.

Even more important is what the C-17 carries on the way back from the front line. It is a vital component of aeromedical evacuations of our troops to Ramstein Air Force Base in Germany.

Finally, it should not be forgotten that the C-17 contributes to peacekeeping and humanitarian relief missions worldwide. It has become a welcome site to victims of the tsunamis in Asia and the victims of hurricanes along the gulf coast. But that alone is not enough to justify it. Simply put, as former Air Force Chief of Staff, GEN Mike Moseley, has said: "The C-17 is worth its weight in gold."

With so many capabilities and so many complimentary things said about it, it is no surprise the Air Force has been "flying the wings off the C-17."

To make this point, let me read from the House committee report for the 2010 Defense appropriations bill.

The C-17 is the workhorse of the theater, flying 50 percent of all sorties for the U.S. Transportation Command over the last 24 months. While the aircraft is designed to fly 1,000 hours per year over 30 years, over the last 10 years the C-17 fleet has averaged 1,250 hours per aircraft, with some aircraft flying in excess of 2,400 hours in a single year.

That is over 200 percent more. This heavy usage is reducing the expected service life of the aircraft.

So what does this mean? It means C-17s are being utilized much more than anticipated. It means the C-17 is carrying more of the workload than expected. It means C-17s flown today may not be available for as long as we thought they would.

This brings us to the second issue. If not the C-17, what are the other options available?

The C-17 is a complement to a decades-old military transport, the C-5. The oldest C-5As are an average of 39 years old and will require literally billions of dollars in engine and avionics upgrades to keep flying. We don't yet know the exact cost, but as with many modernization programs, it will likely only go up.

The GAO clearly stated last year that DOD would need to fully mod-

ernize seven C-5s to attain the equivalent capability achieved from acquiring one C-17 and the cost would be three times more. So we need to modernize seven C-5s at three times the cost of a new C-17 to get the equivalent capability of one C-17. This makes no sense to me.

The C-5A has been unreliable, with a readiness rate barely over 50 percent. The Air Force has been asking for years for authorization to retire some of the aircraft. As those aircraft are retired, the C-17 will be expected to cover the gap left behind.

So we have to ask: How are taxpayer dollars better spent? Are they better spent maintaining and upgrading a 40-year-old, unreliable aircraft at three times the cost, or are they better spent adding C-17s to an already overtaxed fleet? I believe the answer is clear.

Those in Congress who advocate for shutting down the line are doing so prematurely.

Later this year, a Mobility Capabilities Requirements Study will be released that will address the future airlift needs of the military. One thing we know this country lacks is strategic lift. By that I mean to rapidly move troops and equipment to wherever those troops and equipment are needed. The staging of a military operation takes time because we lack strategic lift.

The Department of Defense is also actively working on the next Quadrennial Defense Review which will take a comprehensive picture of what tools our forces will need in the coming years.

Previous studies that have analyzed our airlift needs did not take into account planned increases in the number of Army and Marine Corps personnel.

We have more troops that need to be moved, including 30,000 additional personnel authorized by the Senate during consideration of the Defense authorization bill in July. These studies also did not take into account new combat vehicle programs for the Army as well as the needs of the new Africa command.

All of this has to be figured into this mobility review. In fact, the GAO has expressed concern about the calculations used by the Defense Department's previous studies and recommended significant changes for the next mobility capabilities study.

The GAO also found that because the Department of Defense did not identify specific airlift requirements in its previous mobility capabilities study, it could not determine how the DOD concluded that the current number of C-5s and C-17s was adequate. That is the basis on which the Pentagon has weighed in saying we will do with what we have, in essence. The GAO is saying that no specific airlift requirements in the previous study were even considered on which one could base a recommendation such as "leave it as it is."

To me, this indicates we are not in a position to shut down the last strategic airlift production line in the country.

I understand this has been identified as a congressional jobs program. To a great extent, I disagree with that view. There are many of us who have followed the C-17 program for years. We know what a mistake it would be to end production of this aircraft prematurely.

The distinguished chairman of the Defense Appropriations Committee, Senator INOUE, agrees. Therefore, the committee has added these 10 planes, \$2.5 billion in the bill for these 10 additional C-17s.

In his introductory statement for this bill, he identified other times the Defense Department was wrong to determine a program termination, and he listed the F-117 stealth fighter, which was a great tool in fighting in the Gulf War and Bosnia; the V-22 Osprey, now a favorite of the Marine Corps; and Central Command, which the Department proposed eliminating.

It is clear the Department of Defense doesn't always get it right. Already we know we may be faced with a White House request to add another 40,000 troops that will need to be air lifted to Afghanistan. Whether that happens or not, I don't know. But I do know we have a remaining 8,000 to complement the 60,000 already there who need to get to Afghanistan before the end of the year.

Earlier this year, the administration fought hard against programs they felt were not necessary. This included aircraft such as the F-22 which, it was argued, was not being used in Iraq and Afghanistan. Instead they advocated for systems that support the current missions of the military. That is what the C-17 does.

The C-17 is being used at 125 percent of its anticipated flying hours in support of the wars in Iraq and Afghanistan. It is the only aircraft capable of flying many of the missions the Air Force is asked to fly. That is exactly the kind of system we need more of. It takes troops, supplies, equipment directly to the front lines where it can land on unpaved runways and on runways nearly half the length of those needed to land a C-5. That is a real asset because it means we get closer with the troops, the supplies, the equipment to where they need to go.

Finally, from a business perspective, keeping the line open preserves the option for several other countries to purchase C-17s of their own.

Other governments are actively pursuing contracts to buy C-17s. The opportunity to maintain good-paying U.S. jobs would be lost if the line is shut down. Ten planes, one plane a month, essentially keep the line open for approximately an additional year over when it would shut down otherwise.

When I think where our military investment should go, I agree it should go toward ensuring we have the capability to bring our troops and supplies to where they must fight and where they are needed, to bring our injured servicemembers to the medical care they require, and to maintain a program that sees heavy use in supporting the wars we are fighting today.

This is exactly the wrong time to remove these 10 C-17s which are already in the Defense appropriations bill. The future is uncertain. It is uncertain with respect to Afghanistan, with respect to Pakistan, with respect to Iran, with respect still to Iraq, with respect to a number of other places in the world.

Where we are short is strategic airlift. The most efficient, most effective airlifter we have is the C-17. I strongly support its inclusion in this bill, and I thank the chairman of the Appropriations Committee, the distinguished Senator from Hawaii, DANIEL INOUE.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. KAUFMAN. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KAUFMAN. I ask unanimous consent to speak as in morning business for up to 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRaising NICOLE NELSON-JEAN

Mr. KAUFMAN. Mr. President, I rise once again to recognize the service of one of America's great Federal employees.

In recent months, President Obama has spoken of his vision of a world free from the threat of nuclear weapons. While nuclear disarmament remains a long-term project, there are important steps already being taken right now toward that goal.

The public servant I will speak about today has already distinguished herself as a top-notch negotiator on nuclear proliferation issues for the Department of Energy.

When Nicole Nelson-Jean was just 28 years old, she led a delegation of Energy Department negotiators in an effort to secure Russian nuclear materials in Siberia. Based out of our Embassy in Tokyo, Nicole had to overcome the skepticism of her Russian counterparts, who were not accustomed to negotiating with someone her age. Remember, she was 28. But she quickly won their respect and developed a working relationship that enabled them to move forward on technical assistance and create a joint training and service center in the Russian Arctic for securing nuclear material.

After this achievement, Nicole was made director of the Department of Energy's Asia Office. She distinguished herself in that position for 2 years, also serving concurrently as energy attaché to our ambassador in Japan.

In 2006, Nicole was tapped to head the Global Threat Reduction Initiative for North and South America which runs projects in over 90 countries to remove radiological material from nuclear reactors and reconfigures them from processing weapons-grade highly enriched uranium to those processing the type used for peaceful purposes.

Following her success in that role, Nicole was appointed to serve as Director of the United States Mission to the International Organizations in Vienna, Austria. While there, she helped secure passage of the IAEA's Nuclear Security Resolution, which is now the central international statute used to prevent nuclear terrorism.

When asked about her work as a public servant, Nicole said: "Personally, I don't think that there's anything more important than the national security of our country," and that "service is in my blood."

Earlier this summer, Nicole returned to the United States to begin a 10-month program at the National Defense University as a counter-terrorism fellow.

She is just one of countless Federal employees who, even though they are highly educated and experienced, continue to immerse themselves academically in their career fields.

As I have stated before from this desk, our Federal employees combine great intellect and a passion for service. The result is a Federal workforce that excels.

Without Nicole and those like her, our government could not carry out the policies, such as nuclear arms control, that keep the American people safe and free.

I call on my fellow Senators to join me in thanking Nicole Nelson-Jean and all the outstanding men and women of the Department of Energy for their contribution to our Nation.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MCCAIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BURRIS). Without objection, it is so ordered.

Mr. MCCAIN. Mr. President, during the intervening time allowed that I have been allocated, I intend to speak on two issues. One is the point of order under rule XXVIII against the pending legislation, H.R. 2918, the Legislative Branch Appropriations Act for Fiscal Year 2010. The other issue I wish to

speak about is the amendment I have pending that calls for the \$2.5 billion that has been appropriated for the acquisition of unneeded and unwanted C-17 aircraft to be allocated to operations and maintenance which has been cut by some \$3 billion, which, obviously, is vitally important to the men and women who are serving in the military so they have the proper equipment and capabilities to defend our Nation in the two wars in which we are engaged and around the world.

First, I will raise a point of order—and I will formally raise it when the manager chooses for me to do so—so this legislation is not permitted to proceed to full consideration. Specifically, as is known, rule XXVIII is a rule that precludes conference reports from including policy provisions that were not related to either House or Senate versions of the legislation as sent to conference. This \$4.7 billion piece of legislation was bloated enough; however, conferees took this opportunity to airdrop into the bill's conference a "continuing resolution" to continue funding the operations of the government through October 31, having, obviously—certainly not according to the rules of the Senate—any relation to the appropriations bill. By including a CR or continuing resolution, we are precluded from offering amendments to modify it.

That is why we have the rule that you don't put these things in conference reports because it then inhibits and actually prohibits Members from trying to amend and perfect the legislation. So it is a direct assault on how we do business in the Senate, by adding a very mammoth piece of legislation to what is a very small piece of legislation designated to allow the legislative branch to receive the funding it needs.

It is particularly troublesome, since conferees are treating the resolution as a Christmas tree—reauthorizing and extending several programs; forgiving billions of dollars of the Postal Service's debt; increasing funding for the Census Bureau—and not simply just a stopgap measure to allow the government to continue operating at last year's levels. Specifically, the continuing resolution provides \$3.9 billion more than last year for the Census Bureau; \$3.85 billion more than last year for the Veterans Health Administration; it frees up funds for the Postal Service that is severely in the red by lowering the payment it must make into the trust fund intended for future retiree health benefits, which are obligations, to \$1.4 billion from \$5.4 billion last year. It extends the authorization for the highway program; intelligence program; stop-loss payments to U.S. troops; restrictions on funding to Guantanamo Bay; housing assistance programs; flood insurance programs; religious worker, physician, and investor VISA programs; use of e-verify and much more.

I wish to warn my colleagues: If we allow this kind of procedure to go forward in the Senate, it will deprive every single Member of the Senate of his and her right to amend legislation because, unless this point of order is upheld, we have only two choices: a "yea" vote or a "nay" vote, up or down. That flies in the face of the fundamentals upon which the Senate functions.

You may be in favor of all these programs. You may think we need, right away, \$3.9 billion more for the Census Bureau. You may think we need—and we probably do—more money for the Veterans Health Administration. Who is going to oppose more money for the Veterans Health Administration if it is brought up as a single bill? Certainly not this Member and not anybody I know. But what we are doing here, by putting the continuing resolution as part of the least controversial of all appropriations bills, is setting very dangerous precedence for this body. My colleagues should have no doubt about it.

There is a little book we give out all the time. We give it out all the time. We send it to schoolchildren all over America. It is called "How Our Laws Are Made." On page 43 it says:

The House conferees are strictly limited in their consideration of matters in disagreement between the two Houses. Consequently, they may not strike or amend any portion of the bill that was not amended by the other House. Furthermore, they may not insert new matter that is not germane to or that is beyond the scope of the differences between the two Houses.

Let me tell my colleagues what else we tell schoolchildren and young people all over America:

A report that contains any recommendations which extend beyond the scope of differences between the two Houses is subject to a point of order in its entirety unless that point of order is waived.

So why don't we—if I am defeated here—and I may be—why don't we change this book. Why don't we have a resolution from the Senator from Nebraska who put this in, along with his \$300,000 museum, to change this book so we don't mislead schoolchildren all over America in a pamphlet that says how our laws are made.

There is no reason why the majority can't bring the continuing resolution to the floor as a stand-alone piece of legislation. A Christmas tree of funding increases and authorizations deserves floor consideration and discussion, rather than a process by which the appropriators unilaterally decide how, when, and where what is deserving of getting a 30-day extension and which programs are able to expire. The American people deserve better.

Just this morning, *Politico*, a newspaper published here in Washington, wrote a story: Lawmakers jack up spending for themselves: \$500,000 for townhalls.

The article goes on to say:

Congress is on the verge of giving itself a bump in its annual budget—even as local governments, families, and businesses across the country are tightening their belts in the worst recession in decades.

The measure includes a hodgepodge of new funding for lawmakers: a \$500,000 pilot program for Senators to send out postcards about their town hall meetings—

Is there any Member of Congress in the Senate who needs to send out a postcard to tell our constituents that we are having a townhall meeting? Really: \$500,000.

—\$30,000 for receptions for foreign dignitaries and \$4 million for consultants.

There's \$15.8 million for salaries for the Senate Appropriations Committee—plus an extra \$950,000 for the committee's administrative expenses.

So here we are with people not—Americans can't have an office because they have lost their jobs, and conferees have included \$50 million to refurbish congressional offices. While millions of American families risk losing the roof over their head, appropriators have set aside millions to replace the roof of the Rayburn House Office Building. While millions of Americans have seen their income and household budgets decrease significantly this year, Congress has provided a 5.8 percent increase over last year to cover Congress's expenses and salaries. Millions of small businesses across America have been forced to shut down or severely cut expenses. Somehow, Congress sees fit to provide itself with a 5.8 percent increase. Incredible. Millions of Americans are seeing their hours cut or their salaries slashed. This conference report includes an 8.4 percent increase over fiscal year 2009 for salaries—for salaries.

According to the House committee report, this is to:

Allow for compensation improvements beyond inflation for the staff of Member offices, especially among younger staff where current salaries are often less competitive.

I have had no difficulty with people applying for work in my office. Maybe the managers of the bill have.

If this weren't enough, the conference report retains an earmark from the Senate bill of \$200,000 to support a photo exhibit at the Durham Museum in Nebraska. So people who are having trouble making mortgage payments and putting food on the table are probably a little bit surprised, although maybe they shouldn't be. National unemployment is at almost 10 percent, public debt is close to \$2 trillion, the deficit is projected to hit \$1.6 trillion this year, and we go on spending. We go on spending.

I ask my colleagues, in supporting this point of order, to block this bill from full Senate consideration and allow Congress to rethink its priorities.

So I raise a point of order that the legislation violates rule XXVIII.

Mr. NELSON of Nebraska. Mr. President, I move to waive all applicable

rule XXVIII points of order and I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There appears to be.

The yeas and nays are ordered.

The Senator from Arizona is recognized.

#### DEFENSE APPROPRIATIONS

Mr. MCCAIN. Mr. President, now I wish to make some final remarks about the amendment that cuts \$2.5 billion that the Defense Appropriations bill uses to fund 10 C-17 Globemaster aircraft, planes which the Secretary of Defense says the Pentagon doesn't need and that the President didn't ask for, and restores that money to the critical operations and maintenance accounts that support military training, readiness, flying and steaming hours and depot maintenance that is so crucial to our Armed Forces in wartime.

Let me make it clear to my colleagues what I am doing. We are taking the \$2.5 billion that has been appropriated for the purpose of procuring 10 additional C-17s and transferring that money back to the operations and maintenance account I described—training, readiness, flying, steaming hours, et cetera—to make up for the cuts—or at least mostly to make up for the cuts—that have been made in O&M funding.

I understand a budget point of order will be lodged against the amendment. Let me make it clear to my colleagues: We will have an up-or-down vote on this amendment. So if it fails, I will have two more amendments, separate amendments, one that cuts the C-17 and one that adds funding to operations and maintenance funding if this pending amendment of mine is challenged on a technical basis.

I agreed with Secretary Gates when he said the military has no more need to buy more C-17s. The fact is, the Air Force and the U.S. Transportation Command: "Have more than necessary [strategic airlift] capacity" for airlift over the next 10 years.

Mr. President, I received a letter from the Secretary of Defense. I ask unanimous consent that it be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

THE SECRETARY OF DEFENSE,  
Washington, DC.

Hon. JOHN MCCAIN,  
U.S. Senate,  
Washington, DC.

DEAR SENATOR MCCAIN: The President's defense budget request has requested no additional C-17s. This position is based on the Department's firm judgment that we have acquired sufficient number of C-17s to meet the nation's military needs. The C-17 airlifter remains a valuable military asset that will serve as the backbone of the nation's strategic airlift fleet for decades to come. However, continuing to purchase C-17s in numbers beyond what is required simply diverts limited resources from other more pressing military needs. More specifically,

the \$2.5 billion it will cost to purchase 10 additional C-17s plus the \$100 million per year it will cost to operate them will invariably result in a reduction in critical warfighting capability somewhere else in the defense program.

Sincerely,

ROBERT M. GATES.

Mr. MCCAIN. Mr. President, I will quote partially from the letter:

The President's defense budget request has requested no additional C-17s. This position is based on the Department's firm judgment that we have acquired a sufficient number of C-17s to meet the Nation's military needs.

Let me point out what is really important about this letter:

More specifically, the \$2.5 billion it will cost to purchase 10 additional C-17s, plus the \$100 million per year it will cost to operate them, will invariably result in a reduction in crucial warfighting capability somewhere else in the defense program.

So the Secretary of Defense, the Chairman of the Joint Chiefs of Staff, all of our military leaders, and the highly respected Secretary of Defense say not only that they don't want any more C-17s, but if we spend this \$2.5 billion and the \$100 million annually required to maintain them, there will be a reduction in critical warfighting capability somewhere else in the defense program.

We are in two wars. We have 68,000 young Americans in Afghanistan—and most likely more to come—and 120,000 in Iraq, and we are going to buy 10 more C-17s when they need their equipment maintained and they need to be replaced and they need to fly and they need to have the best capability in combat.

President Eisenhower warned us about the military industrial complex. It is not the military industrial complex anymore; it is the industrial complex. You cannot walk through the hallways without bumping into a lobbyist from Boeing. Of course, there are subcontractors all over America, absolutely. But this is really egregious because they have taken money from the operation and training capabilities and readiness capabilities—that is what operations and maintenance money is all about—and cut it below the request our military and the Secretary of Defense and the President think is vitally needed, and they added 10 additional aircraft that no one in the military—the Air Force included—believes is needed.

This is a young Presidency, and this will be a defining moment in the Presidency. If I am defeated by Boeing today, then it will be up to the President to decide whether to veto this bill. If we don't turn this down here, then we will be sending a signal to every lobbyist in this town—and there are thousands—that if you lobby hard enough and you have enough subcontractors, you can do anything.

This is a very important amendment at this particular time in our history, while we are fighting two wars and we

have a new administration. If we defeat this amendment, we will also be contradicting the opinion of perhaps one of the most highly regarded individuals in America, and, of course, that is our Secretary of Defense.

Mr. President, I have already asked for the yeas and nays on this amendment. I believe we can do a better job for the American people and the men and women in the military than what is being attempted by the Defense Appropriations Committee.

I yield the floor.

The PRESIDING OFFICER. The Senator from New Hampshire is recognized.

Mr. GREGG. Mr. President, I rise to associate myself with the comments of the Senator from Arizona on rule XXVIII and on the issue of planes. I also want to point out that we are violating the budget this body has with this bill.

I understand the situation in which the Senator from Nebraska finds himself. His bill is in the wrong place at the wrong time, and people threw a lot of baggage on it, and it was inappropriate that it was thrown on.

One of the most inappropriate things is a \$4 billion bill that is being sent to the taxpayers of America to bail out the Postal Service. This wasn't a surprise. This didn't come on as, oh, my gosh, we don't have \$4 billion to pay our pension funds. This occurs because of something that occurred in 2006, when we bailed out the post office the last time. Everybody knew it was coming. This train has been coming down the track, the track has been straight, and we have seen it for a long time. So suddenly this bailout, which the taxpayers will have to pay for, gets thrown on the Senator's bill. I regret that. It makes his bill out of whack relative to the budget.

This is the last day of the fiscal year. We have already spent all the money. In fact, we spent a little bit more too, but we spent all of the money in the budget. We are over outlays and all of the BA has been spent. Suddenly, out of the clear blue sky, on the last day of the budget, we are going to spend another \$4 billion.

We passed the budget, so let's stick with the budget. That is the idea. I think the American people are getting tired of us spending money we don't have, especially since it is theirs and their grandchildren's. It goes right on the debt, by the way. All I am asking this body to do is live by the budget we passed.

I intend to make a point of order under rule 311 of the Budget Act, which says you cannot exceed what you said you budgeted for. It is a simple Budget Act. We pass a budget, and if you go over it, there is a point of order that you should not waive. So we should not spend \$4 billion we don't have.

Again, this was not the doing of the Senator from Nebraska. He plays no

role in this other than being the unfortunate baggage car passing through Congress when somebody decided to stick this on his bill.

At this point, I will make a point of order that the pending conference report would cause the aggregate level of the budget authority and the outlays for fiscal year 2009 as set out in the most recently agreed to concurrent resolution on the budget, S. Con. Res. 13, to be exceeded. I raise a point of order under section 311(a)(2) of the Congressional Budget Act of 1974.

Mr. NELSON of Nebraska. Pursuant to section 904 of the Congressional Budget Act of 1974, I move to waive all applicable sections of that act, and I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. GREGG. Mr. President, I will simply note that there were two other Budget Act points of order against this item in the bill. I presume he is asking on behalf of leadership to waive them all.

It is really inappropriate that we should waive the whole Budget Act and spend \$4 billion we don't have on the last day of the fiscal year. So I hope Members will look at this. This can be corrected in other ways. We can find ways to offset this money. It can be done on another bill with the proper offsets. Therefore, I hope my colleagues will sustain what they passed, which was the budget for this year, on the last day of the budget enforcement for the year.

I yield the floor.

Mr. NELSON of Nebraska. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. INOUE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INOUE. Mr. President, I rise today to speak in support of the motion to waive the rule XXVIII point of order being made against the conference report for containing a continuing resolution provision allowing the government to maintain normal operations until October 31, 2009.

Today is the last day of the fiscal year. As I noted earlier, our men and women in uniform are fighting on two fronts. On the homefront, our economy is at a critical stage in its recovery.

Our Federal agencies provide essential services every day of the year to our men and women in uniform, to our veterans who have returned from war, to homeowners and workers struggling to recover from the downturn in our economy, and to businesses and maritime commerce reliant on weather

forecasts and data. These are just a few examples of a multitude of critical services we must maintain by passing this conference report with the continuing resolution provision included and having it sent to the President for his signature.

This point of order is made and raised against the conference report based on the fact that this continuing resolution was added to it without being included in either the House or Senate versions of the bill. While the vice chairman and I are not inclined to add provisions outside the scope of the conference, there are occasions when it is necessary. This is one of those times.

As chairman of the Appropriations Committee, I have worked diligently with my colleague and vice chair, Senator COCHRAN, to return the appropriations process to regular order.

When we finally received the administration's budget—and may I ask my colleagues to recall that it was in May of this year—we worked nonstop, holding budget hearings with the agencies, analyzing their budget proposals, and marking up and reporting out all 12 bills in 4 months. Eleven of them were reported out before the August recess. I might add that the Senate Appropriations Committee reported nine of these bills by a vote of 30 to 0—unanimous—and the other three by a vote of 29 to 1—one vote in opposition. The Senate is currently considering the Defense bill, the seventh appropriations measure to come to the floor.

We have made great progress in our efforts to return to regular order and pass individual bills, but we are not there yet. We need to pass this continuing resolution so that our agencies can continue to operate while we conclude our business. In fact, today we had our second and third conferences with the House, and I am happy to report that both conferences have concluded in harmony and a report will be forthcoming to the Senate floor. Several more are scheduled for the rest of the week. This short-term continuing resolution, which is clean and does not contain what I consider controversial matters, will give us time to consider a good number of appropriations bills under regular order.

For my colleagues who may be interested in specific details regarding the impact of a government shutdown, here are just a few examples:

For veterans who have served, all nonemergency health care, including elective surgeries, would be deferred. This means that those veterans whose medical needs are not life-threatening or an emergency would have to wait to see their doctors. The end result would be rationing health care, causing significant waiting times for appointments, which would, of course, spill over after the shutdown has ended.

A government shutdown would suspend much of the work Treasury staff

is doing to promote economic recovery and would impact transportation funding that also plays an important role in supporting the economic recovery and putting people back to work.

A government shutdown could derail the 2010 census, for example. Even a brief shutdown could jeopardize the accuracy and timeliness of the constitutionally mandated 2010 census, which everybody is depending upon for numbers. Specifically, the Census Bureau could be forced to abandon or delay the hiring of tens of thousands of temporary enumerators. Under a government shutdown, the census would be unable to continue setting up field operations needed to count our citizens.

A government shutdown would halt highway, transit, and motor carrier safety programs, which would disrupt State and local efforts to maintain and improve our Nation's transportation infrastructure, and would impact upon commuters and movers of goods.

A government shutdown would lay up NOAA's entire fleet of ships, including the hydrographic vessels, which would stop any current nautical charting operations for the purpose of navigation. Even navigation service conducted by the private sector under NOAA contracts would cease and any data processing would be put on hold.

Our Nation's physical oceanographic real-time system would not be maintained, eliminating live environmental information, such as tides and currents that coastal pilots rely on when safely guiding huge vessels in and out of our ports. Imagine what would have happened if this shutdown was in place at this moment. The knowledge that we have of the Samoan disaster would not be available to us, simply put.

Maritime commerce, which accounts for 90 percent of our Nation's imports and exports, would be dramatically slowed and the risk of an environmental disaster would be heightened.

Mr. President, I could continue on with other services being impacted by the shutdown, but I think you have got the gist of it.

Twice in the past 4 years—in 2006 and 2007—the Congress passed a similar type continuing resolution as a provision to a conference report. Yes, they had CRs in the conference report in 2006 and 2007. In 2006, the Republican-led Congress passed a continuing resolution provision by a vote of 100 to 0. In 2007, a Democratic-led Senate passed a conference report with a continuing resolution by a voice vote—unanimous. It is not a partisan issue and it should not be a partisan issue today.

With that, I urge my colleagues to vote to waive any point of order against the Legislative Branch conference report because of the continuing resolution.

Mr. President, I submit pursuant to Senate rules a report, and I ask unanimous consent that it be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### DISCLOSURE OF CONGRESSIONALLY DIRECTED SPENDING ITEMS

I certify that the information required by rule XLIV of the Standing Rules of the Senate related to congressionally directed spending items has been identified in the conference report which accompanies H.R. 2918 and that the required information has been available on a publicly accessible congressional website at least 48 hours before a vote on the pending bill.

Mr. INOUE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. INOUE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INOUE. Mr. President, on behalf of the leader, I ask unanimous consent that upon disposition of the conference report to accompany H.R. 2918, the Senate then stand in recess until 6:30 p.m. today; that upon reconvening at 6:30 p.m., the Senate resume consideration of H.R. 3326 and there be 2 minutes of debate prior to a vote in relation to the McCain amendment No. 2558, with the time equally divided and controlled in the usual form; with no amendment in order to the amendment prior to the vote; that upon the use of the 2 minutes, the Senate then proceed to vote in relation to the amendment.

The PRESIDING OFFICER. Is there objection?

The majority leader.

Mr. REID. Mr. President, I ask unanimous consent that the agreement be modified so that after the first vote, the following votes be 10 minutes in duration.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The question is on agreeing to the motion to waive any points of order under rule XXVIII. The yeas and nays were previously ordered.

The clerk will call the roll.

The bill clerk called the roll.

The yeas and nays resulted—yeas 61, nays 39, as follows:

[Rollcall Vote No. 300 Leg.]

#### YEAS—61

Akaka	Dodd	Lautenberg
Baucus	Dorgan	Leahy
Bayh	Durbin	Levin
Begich	Feinstein	Lieberman
Bennet	Franken	Lincoln
Bingaman	Gillibrand	McCaskill
Boxer	Hagan	Menendez
Brown	Harkin	Merkley

Cornyn	Johanns	Vitter
Crapo	Kyl	Wicker

The PRESIDING OFFICER. The yeas are 61, the nays are 39. Three-fifths of the Senators duly chosen and sworn having voted in the affirmative, the motion is agreed to.

Mr. DURBIN. Mr. President, I move to reconsider the vote.

Mr. NELSON of Nebraska. I move to lay that motion upon the table.

The motion to lay upon the table was agreed to.

The PRESIDING OFFICER (Mr. NELSON of Florida.) The Senator from New Hampshire.

Mr. GREGG. Mr. President, this is a very simple point of order. It simply says: A budget was passed. This is the last year of the budget. We have spent all the money under the budget. We should not add another \$4 billion to the budget that is going to go directly to the debt our children will have to bear.

So let's vote in favor of supporting the budget that we passed. Let's vote against adding \$4 billion of more debt to our children's backs. We can correct the problem this issue confronts without adding to the deficit and the debt, and we can correct it without doing violence to the budget which was passed by the majority.

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. NELSON of Nebraska. Mr. President, it is important that this motion pass just like the previous one. If we do not get this done, we are sitting with a continuing resolution that will not be in effect, and we will be in trouble moving forward.

So just as the other one, I ask my colleagues to vote aye on it as they have in the past.

The PRESIDING OFFICER. The Senator from Maine.

Ms. COLLINS. Mr. President, will the Senator from Nebraska yield the remaining time to me?

Mr. NELSON of Nebraska. I will yield.

Mr. GREGG. Mr. President, how much time remains?

The PRESIDING OFFICER. The Senator from Nebraska has 20 seconds remaining.

Mr. GREGG. How much time do I have remaining?

The PRESIDING OFFICER. The Senator from New Hampshire has 12 seconds remaining.

Ms. COLLINS. Mr. President, the Senator from New Hampshire is correct that this should not have been done this way and that the Postal Service needs fundamental reform. But the fact is, the Postal Service cannot afford to pay the \$5.4 billion that is due on October 1.

The CBO says this provision has no budget impact. So I urge a vote against the JUDD GREGG point of order.

Mr. GREGG. Mr. President, if it had no budget impact, the point of order would not lie. It actually does have a \$4 billion budget impact. That will be added to the debt. It can be corrected. We can still pass the continuing resolution by supporting this point of order.

I ask Senators to vote no on the motion to waive.

The PRESIDING OFFICER. The question is on agreeing to the motion.

The yeas and nays were previously ordered.

The clerk will call the roll.

The legislative clerk called the roll.

The yeas and nays resulted—yeas 61, nays 39, as follows:

[Rollcall Vote No. 301 Leg.]

## YEAS—61

Akaka	Franken	Murray
Baucus	Gillibrand	Nelson (NE)
Bayh	Hagan	Nelson (FL)
Begich	Harkin	Pryor
Bennet	Inouye	Reed
Bingaman	Johnson	Reid
Boxer	Kaufman	Rockefeller
Brown	Kerry	Sanders
Burris	Kirk	Schumer
Byrd	Klobuchar	Shaheen
Cantwell	Kohl	Specter
Cardin	Landrieu	Stabenow
Carper	Lautenberg	Tester
Casey	Leahy	Udall (CO)
Cochran	Levin	Udall (NM)
Collins	Lieberman	Warner
Conrad	Lincoln	Webb
Dodd	McCaskill	Whitehouse
Dorgan	Menendez	Wyden
Durbin	Merkley	
Feinstein	Mikulski	

## NAYS—39

Alexander	Ensign	Lugar
Barrasso	Enzi	McCain
Bennett	Feingold	McConnell
Bond	Graham	Murkowski
Brownback	Grassley	Risch
Bunning	Gregg	Roberts
Burr	Hatch	Sessions
Chambliss	Hutchison	Shelby
Coburn	Inhofe	Snowe
Corker	Isakson	Thune
Cornyn	Johanns	Vitter
Crapo	Kyl	Voinovich
DeMint	LeMieux	Wicker

The PRESIDING OFFICER. On this vote, the yeas are 61, the nays are 39. Three-fifths of the Senators duly chosen and sworn having voted in the affirmative, the motion is agreed to.

Mr. NELSON of Nebraska. Mr. President, I move to reconsider the vote.

Mr. INOUE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The question is agreeing to the conference report to accompany H.R. 2918.

Mr. NELSON of Nebraska. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The clerk will call the roll.

The assistant legislative clerk called the roll.

The result was announced—yeas 62, nays 38, as follows:

[Rollcall Vote No. 302 Leg.]

## YEAS—62

Akaka	Gillibrand	Nelson (NE)
Baucus	Hagan	Nelson (FL)
Bayh	Harkin	Pryor
Begich	Inouye	Reed

Dorgan	Merkley	Webb
Durbin	Mikulski	Whitehouse
Feinstein	Murkowski	Wyden
Franken	Murray	

## NAYS—38

Alexander	DeMint	LeMieux
Barrasso	Ensign	Lugar
Bennet	Enzi	McCain
Bennett	Feingold	McCaskill
Bond	Graham	McConnell
Brownback	Grassley	Risch
Bunning	Gregg	Roberts
Burr	Hatch	Sessions
Chambliss	Hutchison	Shelby
Coburn	Inhofe	Thune
Corker	Isakson	Vitter
Cornyn	Johanns	Wicker
Crapo	Kyl	

The conference report was agreed to.

Mrs. BOXER. Mr. President, I move to reconsider the vote.

Mr. COCHRAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. Mr. President, before we recess—I know there is an order—I ask unanimous consent that I have 1 minute and Senator INHOFE have up to 2 minutes to address the Senate on an issue unrelated to the conference report that was just adopted.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The Senator from California.

Mrs. BOXER. Mr. President, I wish to let colleagues know on both sides of the aisle that Senator INHOFE and I are working very closely together as chair and ranking member of the Environment and Public Works Committee to resolve an issue which, if we do not resolve, is going to result in job losses. Senator INHOFE will expand on that.

We have to repeal a recision that was put into the last highway bill, SAFETEA-LU. We know what we want to do. We know how we are going to fund it. It will be deficit neutral. It will keep people working. It will help our States. If we do not do it, we are going

to see layoffs, and nobody wants to see layoffs when we are in this difficult economic time.

So I am very pleased to be here to inform colleagues we are working very hard, and we have very few objections, if any. We will get back to colleagues later in the evening on this issue.

Mr. President, I yield the floor and will listen with great interest to my colleague from Oklahoma.

**THE PRESIDING OFFICER.** The Senator from Oklahoma.

Mr. INHOFE. Mr. President, first of all, let me thank the chair of the Environment and Public Works Committee—a position I held at one time, but I am the ranking member for the minority. This is a huge issue. This is one we cannot let go unattended. Tonight at midnight this thing expires. So we have to do it. Let me compliment Senator BOXER in being willing to go to some extremes that, quite frankly, I did not know she would be able to agree to.

What is at stake right now is about \$500 million of projects that will have to be canceled. If you cancel these projects—these contracts have already been let—we are talking about lawsuits. We are talking about around 17,000 jobs being lost unless we are able to fix this recession thing and to get it offset. Well, that is what is going to happen.

We are drafting an amendment right now. I know the hour is late. I know we are going to come back for a vote at 6:30. But I think this absolutely has to be done, and I think it will be done. I am looking right now for any of the Republicans who might be objecting to this so I can talk to them. Quite frankly, I do not think there will be objection on our side.

The highway money at risk would put people to work, unlike much of the so-called stimulus. So I think we have an opportunity now to do this, and it is only going to be done because of the cooperation between the chairman of this committee and myself as ranking member.

So let's do everything we can. I say to the Senator, I think you have come up with a solution. We have, together, come up with a solution. Let's make it happen.

Mrs. BOXER. Thank you very much, Mr. President.

#### MAKING TECHNICAL CORRECTIONS IN THE ENROLLMENT OF H.R. 2918

**THE PRESIDING OFFICER.** Under the previous order, the Senate will proceed to the consideration of H. Con. Res. 191, which the clerk will report by title.

The legislative clerk read as follows:

A concurrent resolution (H. Con. Res. 191) directing the Clerk of the House of Representatives to make technical corrections in the enrollment of H.R. 2918.

Thereupon, the Senate proceeded to consider the concurrent resolution.

Mr. INOUE. Mr. President, one of the must-pass items in the continuing resolution regards the U.S. Postal Service.

Under current law, each year the Postal Service is required to cover the health care costs of retirees and provide an actuarially determined rate for future costs of health care.

These funds are required to be placed into a trust fund to be invested.

Because of the recession as well as the increased reliance on the Internet for personal communications, the Postal Service is experiencing financial difficulties.

Working with members of the authorizing committees of both Houses, the Committee crafted a short-term solution for this problem which would allow the Postal Service to reduce the amount it would otherwise be required to invest this year.

The impact of the amendment is it allows the Postal Service to retain \$4 billion to pay for its ongoing cost of operations.

Let me be clear, this provision will not provide any additional taxpayer dollars to the Postal Service.

It doesn't mean that current health benefits of our postal workers would be shortchanged.

It does assume that when the recession ends and profitability returns to the Postal Service the funding they would need to invest in future health care costs would probably increase.

Some might want to decry this amendment because it is scored by the congressional budget amendment as a net loss to the Treasury.

It should be noted that the proposal will not require additional discretionary funds to be expended.

The provision will, on the other hand, do a great deal to preserve the financial solvency of the Postal Service.

This amendment should not be controversial.

It does not add costs to the taxpayer.

It was an item that was in keeping with the needs of the Postal Service; and, it was an item that has the support of the chairman of the authorizing subcommittee with jurisdiction over the matter.

This needs to be done today and I would urge my colleagues to vote to waive any points of order that might be raised in relation to this matter.

Mr. LEVIN. Mr. President, currently the Nation's unemployment rate is higher than it has been since 1983. In my home State of Michigan, the unemployment rate is 15.2 percent—5.5 percent higher than the Nation's unemployment rate of 9.7 percent. Translated into real people, this means that 14.9 million Americans are unemployed, of which, more than 735,000 are living in my home State.

Michigan provides a little more than 450,000 individuals with unemployment

benefits. As of September 18, more than 26,000 Michiganders have exhausted much needed unemployment benefits and by the end of this year, this number will rise to more than 100,000 folks. Since the beginning of this year, Michigan has been losing on average of 27,000 jobs per month. Our people need help.

It is critical that we provide assistance to individuals who are straining to make ends meet by ensuring that their much needed unemployment insurance benefits do not run out. We need to provide support to those individuals who are struggling to find jobs so that they do not lose their homes and are able to put food on the table.

We must extend unemployment insurance benefits and swiftly pass an unemployment insurance extension, so the President can sign this bill into law quickly.

Mr. FEINGOLD. Mr. President, I am disappointed that we are about to begin the 2010 fiscal year having enacted just one appropriations bill. I am even more disappointed that we passed a continuing resolution, airdropped into the Legislative Branch appropriations bill, that provides money to continue the wars in Iraq and Afghanistan. While I am pleased that the President has committed to withdrawing our troops from Iraq by the end of 2011, this redeployment schedule is too long and may undermine our ability to combat al-Qaida while straining our Armed Forces unnecessarily. In addition, while the President is right to focus on Afghanistan and Pakistan, I remain concerned that his strategy for those countries does not adequately address, and may even exacerbate, the threats to our national security we face in Pakistan.

We need to keep the Federal Government operating and make sure our brave troops get all the equipment and supplies they need, but we should not be providing funds to continue those wars without, at a minimum, engaging in a serious debate about their effects on our national security.

**THE PRESIDING OFFICER.** Under the previous order, the concurrent resolution is agreed to and the motion to reconsider is considered made and laid upon the table.

The concurrent resolution (H. Con. Res. 191) was agreed to.

#### RECESS

**THE PRESIDING OFFICER.** Under the previous order, the Senate stands in recess until the hour of 6:30 p.m.

Thereupon, the Senate, at 5:40 p.m., recessed until 6:30 p.m. and reassembled when called to order by the Presiding Officer (Mr. BEGICH).

DEPARTMENT OF DEFENSE  
APPROPRIATIONS ACT, 2010

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of H.R. 3326, which the clerk will report.

The legislative clerk read as follows:

A bill (H.R. 3326), making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes.

Pending:

McCain amendment No. 2558, to strike amounts available for procurement of C-17 aircraft in excess of the amount requested by the President in the budget for fiscal year 2010 and to make such amounts available instead for operation and maintenance in accordance with amounts requested by the President in that budget and for Operation and Maintenance, Army, for overseas contingency operations.

AMENDMENT NO. 2558

The PRESIDING OFFICER. There will now be 2 minutes of debate equally divided prior to a vote in relation to amendment No. 2558 offered by the Senator from Arizona, Mr. MCCAIN.

Mr. MCCAIN. Mr. President, I again quote from a letter from the Secretary of Defense:

The President's defense budget request has requested no additional C-17s. This position is based on the Department's firm judgment that we have acquired a sufficient number of C-17s to meet the Nation's military needs. . . . More specifically, the \$2.5 billion it will cost to purchase 10 additional C-17s plus the \$100 million per year it will cost to operate them will invariably result in a reduction in critical warfighting capabilities somewhere else in the defense program.

I understand there will be a budget point of order. I wish to tell my colleagues we will be voting up or down on this issue because if this is defeated, I will have another amendment simply to kill this unneeded, unnecessary porkbarreling exercise in the power of lobbyists in our Nation's Capital.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. DODD. Mr. President, I am prepared to go right to the heart of the underlying amendment rather than go through this point of order, but let me just point out that there are those who have supported a provision in the fiscal year 2010 Defense Authorization bill that would prohibit the Defense Department from retiring the 40-year-old C-5As. These are the people who are now promoting this amendment to kill the C-17. In effect, the proponents of the McCain amendment are tying the hands of the Air Force, by requiring the Pentagon to upkeep a fleet of C-5s—aircraft that are outdated, costly to operate, and are less capable than the C-17. The Air Force should be allowed to replace them with C-17s and not be forced to waste hundreds of millions of dollars to extend the life of the C-5.

It is less costly to build a C-17 than it is to repair a C-5. That is the reality.

If we are looking for cost savings and deficit reduction, then what the committee has advocated actually makes more sense fiscally to do. But instead, the McCain amendment in effect promotes a 40-year-old aircraft, getting older by the day, rather than an aircraft like the C-17 that has the capability of landing almost anywhere on the globe for that matter, highly versatile.

We have nearly 100,000 new troops who have been added to our armed services in 4 years. We need to have an airlift capacity that meets our larger force's needs. I urge the rejection of the McCain amendment.

Mrs. BOXER. Mr. President, I rise today to express my continued support for the C-17 cargo aircraft program and urge my colleagues to retain funding for 10 additional aircraft in the fiscal year 2010 Defense appropriations bill.

The C-17 is critical to our national security and our ability to efficiently carry out important missions around the world. Not only is this aircraft an indispensable asset in supporting military and humanitarian missions in countries like Iraq, Afghanistan and Sudan; it has a proven record of versatility and high performance, and it sustains jobs that are essential across 43 States—including my home State of California.

First, I would like to talk about the types of missions where we use the C-17. According to the Air Force's budget justification for 2010, the C-17 "is a major element of America's National Military Strategy and constitutes the most responsive means of meeting U.S. mobility requirements. . . . The C-17 will perform the airlift mission well into this century."

The C-17 is essential to our missions in Iraq and Afghanistan particularly because of its versatility. It is used to transport equipment, supplies and our service members. For example, the C-17 can land on a dirt runway to deliver needed supplies in remote regions of Afghanistan.

We also use the C-17 to evacuate our wounded men and women from Iraq to Germany, and then back to the United States for treatment. And in some instances, it has even been used to transport our service members across a combat zone, reducing the risks that they face when they travel on land by convoy.

And the uses don't stop there. The C-17 is used to deliver humanitarian supplies. In January of this year, a C-17 delivered 18,000 pounds of supplies to Nicaragua, one of the poorest nations in the Western Hemisphere.

The C-17 has also been used to bring relief to Americans, including during Hurricane Katrina. It can deliver a 100-bed, fully equipped hospital to nearly any area with an unimproved airstrip.

This is an amazing capability, and one we cannot afford to lose.

Second, the C-17 has a proven record of performance. Quite simply, it is the workhorse of our military. And we are using them at a much higher rate than the Air Force originally intended.

C-17s have flown over 1.3 million flight hours since 2002. Many are flown at 150-180 percent of their anticipated flight hours.

According to the Congressional Research Service, the C-17 was designed to fly 1,000 hours per year over 30 years, but the fleet has averaged 1,250 hours per aircraft over the last ten years. Some have even reached 2,400 flying hours in a single year.

And finally, the C-17 is the last strategic airlift production line in the Nation. Every day 30,000 employees from 43 states go to work in direct support of the C-17. In addition to those 30,000 direct jobs, over 100,000 workers depend on this production line. In my home State of California, 13,800 people work on the C-17. And 19,200 workers have an affiliation with this aircraft.

Too many American jobs depend on this vital program. Before we take any action to shut down the line, we must be absolutely certain that we have all of the aircraft we need.

We cannot take the chance that we "may" have enough aircraft, particularly without reviewing two studies that are due by the end of the year.

The Department of Defense Mobility Capabilities and Requirements Study and the congressionally mandated study being done by the Institute for Defense Analyses will determine if our airlift requirements are being met.

We expect these studies to be complete by the end of this year. Without the results of these studies, we cannot determine that our Nation's airlift capability has been met. It would be incredibly shortsighted to shut down this production line without that information.

I urge my colleagues to join me in maintaining funds for the C-17, and to defeat the McCain amendment.

The PRESIDING OFFICER. The Senator's time has expired. The Senator from Hawaii is recognized.

Mr. INOUE. Mr. President, I make a point of order that the pending amendment violates section 302(F) of the Congressional Budget Act of 1974.

Mr. MCCAIN. Mr. President, I move to waive the applicable section of the Budget Act with respect to my amendment and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There appears to be.

The question is on agreeing to the motion.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) and the Senator from Louisiana (Ms. LANDRIEU) are necessarily absent.

The yeas and nays resulted—yeas 34, nays 64, as follows:

[Rollcall Vote No. 303 Leg.]

## YEAS—34

Alexander	Franken	Nelson (FL)
Barrasso	Gregg	Sanders
Bennet	Kaufman	Sessions
Cardin	Klobuchar	Specter
Carper	Kohl	Thune
Coburn	Kyl	Udall (CO)
Conrad	LeMieux	Vitter
Corker	Levin	Voinovich
Dorgan	Lugar	Warner
Ensign	McCain	Webb
Enzi	McConnell	
Feingold	Merkley	

## NAYS—64

Akaka	Durbin	Mikulski
Baucus	Feinstein	Murkowski
Bayh	Gillibrand	Murray
Begich	Graham	Nelson (NE)
Bennett	Grassley	Pryor
Bingaman	Hagan	Reed
Bond	Harkin	Reid
Boxer	Hatch	Risch
Brown	Hutchison	Roberts
Brownback	Inhofe	Rockefeller
Bunning	Inouye	Schumer
Burr	Isakson	Shaheen
Burr	Johanns	Shelby
Cantwell	Johnson	Snowe
Casey	Kerry	Stabenow
Chambliss	Kirk	Tester
Cochran	Lautenberg	Udall (NM)
Collins	Leahy	Whitehouse
Cornyn	Lieberman	Wicker
Crapo	Lincoln	Wyden
DeMint	McCaskill	
Dodd	Menendez	

## NOT VOTING—2

Byrd	Landrieu
------	----------

The motion was rejected.

The PRESIDING OFFICER. On this vote, the yeas are 34, the nays are 64. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected, the point of order is sustained, and the amendment falls.

Mrs. MURRAY. Mr. President, I move to reconsider the vote.

Mr. COCHRAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## SIGNING AUTHORIZATION

Mrs. MURRAY. Mr. President, I ask unanimous consent that the majority leader be authorized to sign any duly enrolled bills and joint resolutions for the remainder of today, Wednesday, September 30.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. MURRAY. I thank the Chair.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. MCCAIN. Mr. President, I wish to ask the managers this. I have three amendments I wish to have called up and placed in order. One is amendment No. 2580, one is amendment No. 2581, and the third is amendment No. 2575.

The first is to strike the amount for the C-17 aircraft, which is not subject to a point of order, I am told. The second is to add \$2.5 billion for operations and maintenance, which is also not subject to a point of order. The third one is to have testimony before Congress by General McChrystal and General Petraeus before the Congress of the United States.

I would be glad to agree to a brief debate on all three of those amendments, and I will be glad to enter into a time agreement or whatever their desires are on all three. On the first two, the issue has been debated pretty well. I would only need a few minutes. On the third, I think it is pretty straightforward, calling for the testimony of General McChrystal and General Petraeus before the Congress of the United States.

I call up those amendments and ask for their consideration in sequence.

The PRESIDING OFFICER. Is there an objection to considering the amendments en bloc?

Mr. MCCAIN. Not en bloc, in sequence.

The PRESIDING OFFICER. Is there objection to the amendments being brought up in sequence? Will the Senator specify the sequence?

Mr. MCCAIN. I ask unanimous consent that amendments Nos. 2580, 2581 and 2575—I call up those amendments. I think that is my right.

The PRESIDING OFFICER. Is there objection?

Mr. DURBIN. Reserving the right to object.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DURBIN. Mr. President, I inquire of the Senator from Arizona, who said the first two were in order because they strike and replace money, is the Senator saying the same about the third amendment? Is it in order on an appropriations bill?

Mr. MCCAIN. I believe it is in order. I will be glad to have a vote on whether it is a violation of any of the Senate rules.

Mr. DURBIN. I will not object to the first two. On the third, I will object until we have a chance to look at it more closely.

Mr. MCCAIN. I thank the Senator.

Parliamentary inquiry: Do I have the right to call up an amendment that is filed?

The PRESIDING OFFICER. Yes, one amendment at a time.

## AMENDMENT NO. 2575

Mr. MCCAIN. Mr. President, I call up amendment 2575 and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Arizona [Mr. MCCAIN] proposes an amendment numbered 2575.

Mr. MCCAIN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To provide for testimony before Congress on the additional forces and resources required to meet United States objectives with respect to Afghanistan and Pakistan)

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. (a) TESTIMONY BEFORE CONGRESS ON MEETING UNITED STATES OBJECTIVES ON AFGHANISTAN AND PAKISTAN.—The officials specified subsection (b) shall each be made available, by not later than November 15, 2009, to testify in open and closed sessions before the relevant committees of Congress regarding recommendations for additional forces and resources required to achieve the objectives of United States policy with respect to Afghanistan and Pakistan stated pursuant to section 1117(a) of the Supplemental Appropriations Act, 2009 (Public Law 111-32; 123 Stat. 1907).

(b) OFFICIALS.—The officials specified in this subsection are the following:

(1) The Commander of the United States Central Command.

(2) The Commander of the United States European Command and Supreme Allied Command, Europe.

(3) The Commander of United States Forces-Afghanistan.

(4) The United States Ambassador to Afghanistan.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. MCCAIN. I call up amendment No. 2580 and ask for its immediate consideration.

The PRESIDING OFFICER. Is there objection to setting aside the pending amendment? The Senator from Illinois.

Mr. DURBIN. Reserving the right to object, it is my understanding—

Mr. MCCAIN. I am not seeking unanimous consent.

The PRESIDING OFFICER. The Senator from Illinois has the floor.

Mr. DURBIN. Sorry. I thought the Senator made a unanimous consent request.

Mr. MCCAIN. I just called up the second amendment.

The PRESIDING OFFICER. The Senate requires unanimous consent to consider an additional amendment.

Mr. MCCAIN. I see.

Mr. DURBIN. I say to the Senator from Arizona, our mutual friend, Senator LEVIN, asked to be on the floor when the first amendment was being considered. I have to say, on his behalf, that I will object to moving to another amendment until he has a chance to come to the floor and debate the Senator's first amendment.

The PRESIDING OFFICER. Objection is heard.

Mr. DURBIN. I object.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. MCCAIN. I thank the Senator. We will certainly accede to his request. I would like to tell my colleagues that I do not intend to conclude debate on this legislation until such time as we have straight up-or-down votes on the two amendments about which I talked. One is striking the funding for the C-17, \$2.5 billion and adding \$2.5 billion for operations and maintenance. I will be glad to discuss it with the managers of the bill how that sequence will take place, how much debate. I do not intend to hold up the bill in any way. I just wish to tell my colleagues I want consideration and recorded votes on both of those amendments.

What we have done tonight by not waiving the budget, the rule, is an outrage and is going to damage very badly the men and women who are serving this country because we are not giving them the equipment they need to operate in harm's way—120,000 of them in Iraq, 68,000 of them in Afghanistan. That is the opinion of the Chairman of the Joint Chiefs of Staff, General Petraeus, General McChrystal, and the Secretary of Defense. It is a remarkable moment—a remarkable moment—in the history of the Senate, although I have seen it happen before. Congratulations to the lobbyists from Boeing. I yield the floor.

The PRESIDING OFFICER. The Senator from Nebraska.

AMENDMENT NO. 2555, AS MODIFIED

Mr. JOHANNES. Mr. President, I ask unanimous consent that the pending amendment be set aside, and I ask that amendment No. 2555 be called up. With that, I am sending a modification to the desk.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.

Mr. JOHANNES. Before we go to the reading, if I could send a modification to the desk.

The PRESIDING OFFICER. The clerk will report the amendment as modified.

The legislative clerk read as follows:

The Senator from Nebraska [Mr. JOHANNES] proposes an amendment numbered 2555, as modified.

Mr. JOHANNES. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To ensure the availability of not less than \$30,000,000 for High Priority National Guard Counterdrug Programs)

At the appropriate place, insert the following:

SEC. \_\_\_\_ (a) HIGH PRIORITY NATIONAL GUARD COUNTERDRUG PROGRAMS.—Of the amount appropriated or otherwise made available by title VI under the heading "DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE", up to \$30,000,000 shall be available for the purpose of High Priority National Guard Counterdrug Programs.

(b) SUPPLEMENT NOT SUPPLANT.—The amount made available by subsection (a) for the purpose specified in that subsection is in addition to any other amounts made available by this Act for that purpose.

Mr. JOHANNES. Mr. President, I rise briefly this evening to speak about this amendment. The amendment would help maintain, in fiscal year 2010, the current level of funding for the National Guard's counterdrug efforts throughout the United States. It is important legislation.

As a Governor, as a mayor, I can tell you what I think everybody knows. One of the toughest problems we face in this Nation is fighting drug abuse and addiction and putting the tools in place to deal with that.

We all know firsthand that drug addiction rips families apart and tears communities down. It is accompanied by an endless parade of violence.

Reducing drug abuse and crime was a top priority of mine as mayor and Governor. In part because of steps we took, we were able to bring crime numbers down. I am proud of that.

I know drugs are not a unique challenge to Nebraska. It is a national challenge. Meth distributors commonly commit violent crimes as they traffic in methamphetamine. Meth users often commit property crimes, burglary, and identity theft. This drug is an enormous burden on public health departments and treatment centers in our region. Meth-related violence and child abuse have also strained local foster care systems, not only in our State but in other States. Because of its highly addictive nature, it takes longer treatment programs and it has a very high recidivism rate. Treatment, needless to say, is enormously difficult.

In the face of this problem, we need to keep up our pressure on drug trafficking groups and work on providing more consistent funding to Federal, State, and local drug task forces. The National Guard's Counterdrug Support Program has been supporting law enforcement and community-based drug reduction coalitions now for 20 years. However, this program often faces considerable uncertainty over its funding, and that hampers operations. Consistent funding would allow police to keep many of the same officers in the drug task force. This would improve communication between multiple different law enforcement agencies, and it would increase their effectiveness.

Rural States are especially hurt by cuts and uncertainty in their counterdrug budgets, since they often have a great deal of territory to cover with very small departments.

To get to the crux of this amendment, my amendment would help address these problems by helping restore counterdrug funding back to its level last year. We are just asking for a level budget. Last year, Congress added \$22.5 million to the President's level of funding. The year before it added \$20 million. While the Defense authorization this year authorized an additional \$30 million in counterdrug support, it was not included in the appropriations bill.

This money goes across our country, all 50 States, and some of our territories. Our counterdrug operations depend on the funds.

If the current shortfall continues, the National Guard would not be able to effectively support law enforcement in their fight against drugs. Our law enforcement and National Guard personnel must be given the tools they need to carry on this battle.

Tonight, in a very large appropriations bill, I ask what I believe is a very necessary amount of money to help

fight this war on drugs in your State, Mr. President, in mine, and across this country. I urge my colleagues to support the amendment. My hope is there will be a very bipartisan, strong statement that we stand behind this very important piece of this budget.

For the record, if it is acceptable—and I don't know if there is an agreement on this or not—but I want to indicate for the record that I will be more than happy to move this amendment with a voice vote.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, I congratulate the Senator for bringing to the attention of the Senate this suggested change. We have no problem with having this amendment adopted on a voice vote, if that suits the manager on the other side.

Mr. INOUE. No objection.

The PRESIDING OFFICER. Is there further debate? If not, the question is on agreeing to amendment No. 2555, as modified.

The amendment (No. 2555), as modified, was agreed to.

Mr. COCHRAN. I move to reconsider the vote.

Mr. INOUE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. Mr. President, I wonder if the managers would allow me to make a unanimous consent request on a totally other issue, the issue dealing with the highway trust fund, at this time. I will take about 2 or 3 minutes; is that all right?

Mr. COCHRAN. I have no objection to the Senator discussing her suggestion.

UNANIMOUS CONSENT REQUEST—H.R. 3617

Mrs. BOXER. Mr. President, we are in a very bad situation with the highway trust fund. We are working very hard on both sides of the aisle to resolve it. Senator INHOFE and I are absolutely in agreement on what we should do. But yet still there is objection from the other side of the aisle, our Republican friends. I wish to explain where we are, and then I am going to make a unanimous consent request.

In the SAFETEA-LU program, which was the last highway bill, there was an \$8 billion rescission that was made. The promise at that time years ago was that we would fix it in the days, months, and years ahead. It was not fixed, and if we don't repeal the rescission tonight, what will happen immediately is that there will have to be layoffs, there will have to be cancellation of contracts, and the order will go out from here to our States. Mr. President, 17,000 jobs are on the line. We have to repeal this rescission. It translates into about \$300 million.

I have been working with Senator INHOFE, and we reached agreement and,

frankly, the leaders, I believe, reached agreement that what we ought to do is repeal this rescission and, as a paid-for, cut the TARP money because we know that a lot of those funds have been paid back, cut that program by the equivalent of \$300 million. We would repeal the rescission, everybody keeps working, the contracts are still going, and we pay for this repeal by cutting \$300 million from TARP, the Toxic Asset Relief Program, not very popular in the country, I might add.

I have to say I asked the administration for some other ideas and they had none. I believe in pay as you go. So I said to Senator INHOFE that I was with him on this. He and I are in agreement.

At this time, I am going to make this formal unanimous consent request to repeal this rescission and pay for it by cutting TARP.

I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 3617, received from the House and at the desk; that the Boxer substitute amendment at the desk be considered; further, that the Boxer-Inhofe second-degree amendment with an offset be considered and agreed to, the substitute amendment, as amended, be agreed to, the bill, as amended, be read a third time, passed, and the motions to reconsider be laid upon the table, and that any statements relating to the bill be printed in the RECORD, without further intervening action or debate.

The PRESIDING OFFICER. Is there objection?

The Senator from Nebraska.

Mr. JOHANNES. Mr. President, I rise to object. My understanding is there is an objection on our side of the aisle relative to this approach. Thus, I rise this evening to object.

The PRESIDING OFFICER. Objection is heard.

Mrs. BOXER. Mr. President, let me say how, frankly, shocked I am at this objection. We have the chairman of the EPW Committee, the ranking member of the EPW Committee—this is an amendment that was brought to us by Senator KIT BOND of the other side of the aisle. I do not understand how the Republicans can take this position when we can see these contracts abrogated as a result of our lack of action.

I yield to the Senator from Illinois.

Mr. DURBIN. Mr. President, I ask if the Senator from California will yield for a question. If the objection of the Senator from Nebraska holds and if the Republican side of the aisle does not change its position, it is my understanding that there will be a rescission of some \$8 billion, which means cutting the highway funds going to Nebraska, the highway funds coming to Illinois, and the highway funds coming to California; is that what the outcome will be because of the objection from the other side?

Mrs. BOXER. I think, with due respect to the Senator from Nebraska,

that he is saying that several of his colleagues will not allow this to go through. I don't want to blame him for this. He is the messenger.

But the bottom line is, the \$8 billion in authorizing numbers translates to \$300 million in contracting authority. So as of tomorrow morning, unless this is reversed, we are going to see cuts to the highway program of \$300 million. And it has to be made from existing contracts, so people in your State, in my State, in Kentucky, in the State of the Senator from Nebraska—all of our States are going to suffer. There will be 17,000 people thrown out of work because the Republicans cannot agree with the chairman of the EPW, the ranking member, and both leaders.

Mr. DURBIN. If the Senator from California would further yield, so what the Republican side is objecting to is that we would take money out of the toxic asset relief program—money that was sent to the banks, if you will recall, to help them out of their troubles—and put it into the highway trust fund to save or create 17,000 jobs across America, and if we don't, we stand to lose those jobs—the Republican side is objecting to that?

Mrs. BOXER. The Republican side has objected to an agreement reached by myself and Senator INHOFE and I believe the two leaders that would say we are going to replenish the highway trust fund, we are going to repeal the rescission that was done and as a result the States will be shorted \$300 million, and it is my understanding that starting tomorrow morning a lot of these contracts will be canceled or delayed unless we fix this. We could fix it at a later date, but every day that goes by, it makes it more difficult because we are operating under a midnight deadline tonight.

Mr. DURBIN. If the Senator would yield for one last question, just so that I understand, the result of the Republican objection is that we are going to protect the TARP funds, the toxic asset relief program funds that were used to bail out banks, at the expense of jobs for people across America at a time of high unemployment? Is that the result of that objection?

Mrs. BOXER. My friend is right. But I want to give credit to Senator INHOFE. He is with us. There are many Members on his side of the aisle, however, who are letting this happen. But my friend has it exactly right. The Republicans who are objecting to this are protecting the toxic asset relief program and they are jeopardizing 17,000 jobs across America.

I am as stunned as you are, and I guess I am going to try one more time. If I hear another objection, we will leave it for another day. I will try it one more time. Maybe I have convinced my friend. Maybe my friend needs to leave the floor.

Mr. President, I ask unanimous consent that the Senate proceed to the

consideration of H.R. 3617, received from the House and at the desk, and that the Boxer substitute amendment at the desk be considered; further, that the Boxer-Inhofe second-degree amendment with an offset be considered and agreed to, the substitute amendment, as amended, be agreed to, the bill, as amended, be read a third time, passed, and the motion to reconsider be laid upon the table; that any statements relating to the measure appear in the appropriate place in the RECORD as if read, without further intervening action or debate.

The PRESIDING OFFICER. Is there objection?

The Senator from Nebraska.

Mr. JOHANNES. Let me, if I might, through the Chair, inquire of the Senator from California if the Senator would renew her request with one change: to include a different second-degree amendment from Senator VITTER which would provide an offset from non-defense and non-veteran stimulus funds.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. Well, that is easy. If you believe we have a recession, if you believe the unemployment rate is too high, why in God's green Earth would anyone recommend cutting the economic recovery fund, the fund that is providing stimulus and that is putting people to work? I absolutely would not agree to that. That particular fund is giving money back to taxpayers in tax breaks. It is fixing highways and bridges and all the other. Why on Earth would we cut that when we can cut the toxic asset relief program—the TARP money—that went to the wealthiest banks? Why on Earth would we take away jobs from working people and allow the bankers to keep their little fund up there?

No way. We will object to that approach.

Mr. JOHANNES. Mr. President, then I do raise an objection. And here is the point, in fairness to the process here. There are many who believe that the TARP money, which was originally designed to buy toxic assets, has drifted so far away from its original purpose that we haven't kept faith with the taxpayer who paid the bill for all this. On the other hand, the stimulus—which, incidentally, I did not support—had money in it to do highways and that sort of thing, and that is where the objection is coming from.

So I do stand to object, and I continue the objection.

Mr. DURBIN. Would the Senator yield for a question?

The PRESIDING OFFICER. Objection is heard.

The Senator from Illinois.

Mr. DURBIN. Whether the Senator voted for the stimulus bill or not—and I know he did not—the stimulus bill provided tax breaks for working families, provided money for his State and

mine for infrastructure projects that will build highways and bridges and create jobs, and it is halfway through. They haven't really finished all the spending on that.

In the midst of this recession, you are suggesting that the way to save the 17,000 highway jobs is to cut the jobs that are being created by the stimulus package? Wouldn't it be better to take the money away from these banks that have received billions of dollars, that have been bailed out over and over, than to take it at the expense of working people in Nebraska and Illinois?

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. JOHANNES. I thank the Senator from Illinois for that question, but here is what I would say. You can restart the debate on the whole stimulus plan, and I can point to you the promises that were made of all the jobs that were going to be created, and I can point to you the evidence that in fact that has not occurred. But the argument tonight was, look, if we can just get our hands on some TARP money, then we can do all these things. And we are saying, well, look, if the promise of the stimulus was to create jobs, let's use the stimulus. Why not use that fund?

But fundamentally here is the problem. People came to the American people and said: Look, our credit is melting down, our financial system is in serious shape, and the solution to that problem is to buy toxic assets. And low and behold we bought car companies, we bailed out insurance companies, and it just goes on and on. And that is why the objection is coming from over here because this isn't anything near what TARP was intended to do.

I thank the Chair.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DURBIN. I will be brief, but the Senator from Nebraska just made the argument against TARP. That is where we want to take the money from to protect these jobs. The Senator said the TARP money was misspent, and we are saying we agree with the premise; that this is a better place to take money rather than to take it away from tax cuts to working families in the stimulus or the infrastructure projects that generate jobs.

I don't know that the Senator from Nebraska wanted to assume this role this evening. Occasionally, many of us are cast in these roles where we are objecting on behalf of other people who are not here. But I think when he reflects on this debate tonight, he will understand why Senator BOXER's approach to this is the most reasonable one. We are trying to protect 17,000 jobs across America. We are going to take the money out of the TARP funds from banks, and I think it is money well spent to create jobs across the United States. But to take it away

from the stimulus program is to take away money that is going right now, today, into Nebraska for tax relief for your working families and into Illinois for the same.

I am sure most Republicans would agree that tax relief is a good thing. I myself think it is a good thing for working families. So I think what Senator BOXER has suggested is a much more responsible approach.

Mrs. BOXER. Mr. President, will the Senator yield?

Mr. DURBIN. I will yield.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. I think sometimes these debates go off on tangents and they are hard to follow. They get caught up in a lot of rhetoric. But I think this one tonight says it all to me. We have to ask ourselves a question: Whose side are we on? Whose side are we on? Tonight, we know what side the Republicans are on.

We are ready to save 17,000 jobs and to do it by paying for it out of the money that was given to the biggest banks in this Nation—the banks that got away scot-free while Americans suffered, whether they were shareholders or workers, taxpayers all. We want to take that money from the big banks; they want to take it from the working people, the working families of America, the ones who are out there getting their hands dirty and building the roads and the bridges. That says more about the differences here than many of the other things we do, and I am stunned.

I particularly want to again thank Senator INHOFE for stepping up. He tried his best. He spoke to all his Republican friends, and he couldn't get this. But you know what, we are not going to give up. We will have this battle on the floor. We will. We will get time for this, and we will get agreement on offering these two offsets. You just had a taste of what the debate will be, and it will be a tough debate, and I look forward to it. But I am very stunned that tonight we couldn't cross the aisle that divides us tonight. We should have. We should have done that for all the States—the red States and the blue States, all the States, the United States—because all are going to lose these jobs. We can say we stood here at 7:30 on this night and we had a program that would easily stop those layoffs, easily stop them, but our colleagues on the other side wanted to protect the big banks. I will take that argument back to my home State, but I am not happy we couldn't resolve this.

Mr. DURBIN. I thank the Senator from California for yielding for a question, and I agree.

I yield the floor.

Mr. LEVIN. Mr. President, I am pleased the Senate is debating a short-term extension of the surface transpor-

tation bill SAFETEA-LU. With the fiscal year ending at midnight tonight this is an urgent matter. We cannot afford to let Federal highway programs authorizations expire. It would be a disaster if transportation projects across the nation were halted because we failed to extend their authority. Congress needs to rewrite the surface transportation bill, but that will take some time. This short-term extension allows the program authority to continue until a longer reauthorization bill can be passed.

Importantly, the Senate bill includes language to repeal the 2009 rescission contained in the SAFETEA-LU bill that required that on September 30, 2009—today—\$8.7 billion of apportioned contract authority provided to states for investment in infrastructure be rescinded. This rescission could require states to de-obligate projects in order to free up the rescinded contract authority if they don't have contract authority balances. This is critical to Michigan and all the other States across the Nation that cannot afford to have Federal infrastructure funding cut at a time of severe budget constraints. The rescission repeal language would ensure that Michigan and other States do not lose these needed Federal transportation funds. Michigan's share of the rescission is estimated to exceed \$260 million or roughly 25 percent of its fiscal year 2009 apportionments.

Congress has been strong in its support for transportation infrastructure funding as a way to create jobs and jump start an economic recovery during the severe economic downturn. For instance, Congress provided \$27 billion for highway projects in the American Recovery and Reinvestment Act. Congress also recently provided an additional \$7 billion to the highway trust fund in order to keep it solvent on top of the \$8 billion that it added to the trust fund last year. It would make no sense to undermine the recovery efforts and jeopardize the health of our surface transportation system by allowing an \$8.7 billion cut in highway funding to go through tonight.

Time is of the essence in restoring these needed transportation funds to every State in the Nation. I hope this important legislation will be adopted immediately by the Senate and the House of Representatives.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. BURRIS. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

2016 OLYMPICS

Mr. BURRIS. Mr. President, more than 100 years ago, four American cities competed to host the world's Columbian Exposition. Elected leaders and proud citizens traveled here to

Washington to make the case for their hometowns. After much debate, Congress decided that the exposition would take place in the center of the American heartland—Chicago, IL.

The Chicago delegation had made the strongest case and shown the most pride and conviction in their city. They bragged that their hometown on the beautiful banks of Lake Michigan was the perfect site for the Columbia Exposition and that no other city could compare. Folks from Chicago argued so long and so hard that a reporter referred to their hometown as “that Windy City,” and the nickname, of course, has stuck throughout the years.

The Columbian Exposition of 1893 was a resounding success. Almost one-fourth of the entire U.S. population came to Chicago, and the city overflowed with happy visitors from across the country and all over the world.

Today, Chicago remains an economic and cultural center of America. The city that hosted the Columbian Exposition has boomed into a world-class metropolis. And once again the proud citizens of the Windy City have stepped forward to make the case for our hometown.

In 2016, 10,000 athletes from more than 200 countries will come together to celebrate the human spirit. Tourists, visitors, and millions of dollars will flow into a single place as a part of the greatest spectacle on Earth.

The whole world will be watching the city that hosts the Olympic Games, and in 2016 that city should be Chicago, IL. From Lake Shore Drive to the West Side, it is a diverse and inclusive city that represents the very best of what it means to be American. It has always been a global leader in culture, art, architecture, commerce, sports, and even cuisine.

I know Chicago will shine on the world stage in 2016, just as it did more than a century ago. The Olympic and Paralympic Games are a powerful force for global unity. It is time to bring the games back to the United States.

President Obama understands what the Olympics will mean to our Nation and for Chicago. New construction and infrastructure improvement will revitalize the Midwest; tourist dollars from all over the world will begin flowing to American businesses once again; jobs will be created, revenue will increase, our local economy will be jolted back to prosperity as we prepare to host the games.

It doesn't stop there. This impact will also be felt at the national level. Foreign visitors who travel to the Olympics in Chicago will also stop in Los Angeles, New York, Baltimore, Miami, Seattle, New Orleans, and a dozen other cities during their stay in the United States. The international spotlight will be focused on America and it will bring prosperity and good

will. That is why I support President Obama's decision to travel to Copenhagen in support of our Olympic bid.

Some have criticized this trip. Some say it is an unnecessary distraction from the challenges we face. But I believe it is just the opposite. It shows that the President is more focused than ever on bringing economic prosperity and international prestige back to the United States.

A few days ago I was meeting with the mayor of Chicago and I told Mayor Daley that I thought the President and the First Lady would go to Copenhagen. There was some consternation as to whether he was going to appear, but because of the importance of the Olympics to Chicago and the Nation, I knew the President's decision was going to be made that would allow him to make an appearance in Copenhagen. I know they are proud Chicagoans, and I am pleased they have decided on strong support for their hometown. The trip will be a short one, but it could make a world of difference for Chicago and for America, because this is not just about Chicago or Illinois, it is about bringing the Olympic Games back to the United States of America. The Olympics will be a boon to our economy and they will strengthen our friendship with other nations.

By appearing before the International Olympic Committee in person, President Obama can make the case that America is ready to lead once again, ready to light the torch of cooperation and prosperity for all of the citizens of the world. He can show the committee that Chicago is by far the best choice among the four remaining finalist cities. For the athletes, world-class training facility and event locations would be very close together, allowing for convenience and ease. For visitors, outstanding public transportation and modern infrastructure would make all events easy to attend. For residents of the city and people all across the United States, Chicago would shine on the world stage and dollars would pour in from across the globe to make it clear it is alive and well in my hometown.

The Chicago 2016 Committee recognizes the importance of the games in renewing old friendships around the world as well as establishing new ones. Its ideals and the value of “friendship through sport” is at the heart of the city's Olympic bid.

Let us support President Obama as he travels to Denmark in hopes of bringing the Olympics and Paralympic Games back to the United States. They are a powerful, inspiring force for unity in a world divided. Let us come together once again to welcome the people of every continent to our shores. Just as the people of Chicago did more than 100 years ago, let us celebrate our Nation by sharing one of the greatest cities with all of the world, by sharing

its greatest city with the rest of the world, that great city on the lake—Chicago.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. WARNER). Without objection, it is so ordered.

#### CLOTURE MOTION

Mr. REID. Mr. President, I have a cloture motion at the desk with respect to the substitute amendment.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The assistant legislative clerk read as follows:

#### CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on the committee-reported substitute amendment to H.R. 3326, the Department of Defense Appropriations Act for Fiscal Year 2010.

Daniel K. Inouye, Harry Reid, Sheldon Whitehouse, Patty Murray, Jon Tester, Jack Reed, Ben Nelson, Richard Durbin, Mark Begich, Bill Nelson, John F. Kerry, Edward E. Kaufman, Charles E. Schumer, Frank R. Lautenberg, Carl Levin, Byron L. Dorgan, Daniel K. Akaka.

#### CLOTURE MOTION

Mr. REID. Mr. President, I have a cloture motion on the bill at the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The assistant legislative clerk read as follows:

#### CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on H.R. 3326, the Department of Defense Appropriations Act for Fiscal Year 2010.

Daniel K. Inouye, Harry Reid, Sheldon Whitehouse, Patty Murray, Jon Tester, Jack Reed, Ben Nelson, Richard Durbin, Mark Begich, Bill Nelson, John F. Kerry, Edward E. Kaufman, Charles E. Schumer, Frank R. Lautenberg, Carl Levin, Byron L. Dorgan, Daniel K. Akaka.

Mr. REID. Mr. President, I now ask unanimous consent that the mandatory quorum required under rule XXII be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### MORNING BUSINESS

Mr. BEGICH. Mr. President, I ask unanimous consent that the Senate proceed to a period of morning business, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### TRIBUTE TO AMY MEYER

Mr. DURBIN. Mr. President, I rise today to congratulate a distinguished Illinois resident, Amy Meyer. Ms. Meyer is this year's recipient of the Service to America National Security and International Affairs Medal. This award honors Federal employees who have made significant contributions to our Nation through their actions in the field of national security.

Since 2006, Ms. Meyer has served as the Director of the U.S. Agency for International Development's Office of Economic Growth in Pakistan. In this, her first Foreign Service assignment, Ms. Meyer has overseen an expansion of Pakistan's Office of Economic Growth from a small, two-person operation with a \$7 million budget into a \$200 million initiative.

Ms. Meyer has dedicated herself to leading the U.S. effort to foster economic growth in the country. Through her collaborative approach and the development of a wide range of programs, Ms. Meyer is bringing change to a country facing many problems, including a crippling energy crisis and the growing influence of the Taliban.

Of the many programs Ms. Meyer has developed, several focus on assisting the women of Pakistan. Among them is the Empower Pakistan: Agriculture Program. Through this program 1 million women will join dairy cooperatives where they will collect and store milk to be sold later at markets. Women who participate in this program will be able to earn income from these sales. Ms. Meyer also conducts focus groups for women in her own home and leads a yoga program which airs on Pakistani television.

As the 2009 Service to America National Security and International Affairs Medalist, Amy Meyer is honored for her commitment to working with the people of Pakistan to bring about economic growth and stability. I commend Ms. Meyer on her work in the Office of Economic Growth and congratulate her on receiving the National Security and International Affairs Medal.

#### FISCAL PRUDENCE

Mr. INOUE. Mr. President, I listened to the comments of the Senator from Alabama with interest.

I want to inform my colleagues that despite the rhetoric we have heard it is important to remember that the funds that we have recommended in the fiscal year 2010 appropriations bills are in accordance with the level provided to the committee in the budget resolution.

Second, each one of the bills that he mentioned was approved by the committee by unanimous, or near unanimous, votes.

Third, each of the bills considered by the Senate so far this year have been approved at the funding level that the Senator has noted.

In addition, in most cases—in the Transportation and Interior bills for example—the level of funding approved by the committee is lower than the amount requested by the administration.

We are all concerned about deficits and overspending, but the root cause of this problem is not in discretionary domestic spending.

The cause was the failed policies of the previous administration that ran up trillions in our national debt.

To remind my colleagues when President Bush was elected the country had a budget surplus. After 8 long years, the country inherited an unprecedented national debt.

What is even worse, the Obama administration and the Nation also inherited a fiscal crisis unseen since Herbert Hoover.

While I understand and share the concern of many of my colleagues over our Nation's debt, they have set their sights on the wrong target. The increases in discretionary spending will reverse the neglect which occurred in the previous administration and will help put people back to work.

The Appropriations Committee will continue to work in a bipartisan fashion to recommend bills which are fiscally prudent and within the amounts recommended by this Senate.

#### MEMBERSHIP AND JURISDICTION OF COMMITTEE ON FOREIGN RELATIONS

Mr. KERRY. Mr. President, I ask unanimous consent that the membership and jurisdiction of the Committee on Foreign Relations, be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### JURISDICTION OF THE COMMITTEE ON FOREIGN RELATIONS UNITED STATES SENATE

(Excerpted from Rules of the Committee)

##### RULE 1—JURISDICTION

(a) *Substantive.*—In accordance with Senate Rule XXV.1(j)(1), the jurisdiction of the Committee shall extend to all proposed legislation, messages, petitions, memorials, and other matters relating to the following subjects:

1. Acquisition of land and buildings for embassies and legations in foreign countries.
2. Boundaries of the United States.
3. Diplomatic service.
4. Foreign economic, military, technical, and humanitarian assistance.
5. Foreign loans.
6. International activities of the American National Red Cross and the International Committee of the Red Cross.
7. International aspects of nuclear energy, including nuclear transfer policy.
8. International conferences and congresses.

9. International law as it relates to foreign policy.

10. International Monetary Fund and other international organizations established primarily for international monetary purposes (except that, at the request of the Committee on Banking, Housing, and Urban Affairs, any proposed legislation relating to such subjects reported by the Committee on Foreign Relations shall be referred to the Committee on Banking, Housing, and Urban Affairs).

11. Intervention abroad and declarations of war.

12. Measures to foster commercial intercourse with foreign nations and to safeguard American business interests abroad.

13. National security and international aspects of trusteeships of the United States.

14. Ocean and international environmental and scientific affairs as they relate to foreign policy.

15. Protection of United States citizens abroad and expatriation.

16. Relations of the United States with foreign nations generally.

17. Treaties and executive agreements, except reciprocal trade agreements.

18. United Nations and its affiliated organizations.

19. World Bank group, the regional development banks, and other international organizations established primarily for development assistance purposes.

The Committee is also mandated by Senate Rule XXV.1(j)(2) to study and review, on a comprehensive basis, matters relating to the national security policy, foreign policy, and international economic policy as it relates to foreign policy of the United States, and matters relating to food, hunger, and nutrition in foreign countries, and report thereon from time to time.

(b) *Oversight.*—The Committee also has a responsibility under Senate Rule XXVI.8, which provides that "... each standing Committee ... shall review and study, on a continuing basis, the application, administration, and execution of those laws or parts of laws, the subject matter of which is within the jurisdiction of the Committee."

(c) *"Advice and Consent" Clauses.*—The Committee has a special responsibility to assist the Senate in its constitutional function of providing "advice and consent" to all treaties entered into by the United States and all nominations to the principal executive branch positions in the field of foreign policy and diplomacy.

#### COMMITTEE ON FOREIGN RELATIONS MEMBERSHIP AND JURISDICTION OF SUBCOMMITTEES

(July 21, 2009)

(The chairman and ranking member of the full committee are ex officio members of each subcommittee on which they do not serve as members.)

(Subcommittees are listed in the order of chairmen's seniority within the full committee.)

#### SUBCOMMITTEE ON WESTERN HEMISPHERE, PEACE CORPS, AND GLOBAL NARCOTICS AFFAIRS

CHRISTOPHER J. DODD, *Chairman*; ROBERT MENENDEZ; BENJAMIN L. CARDIN; JIM WEBB; KIRSTEN E. GILLIBRAND; JOHN BARRASSO, *Ranking Member*; JOHNNY ISAKSON; JAMES E. RISCH; and JAMES M. INHOFE.

##### *Jurisdiction:*

This subcommittee deals with U.S. relations with the nations of the Western Hemisphere, including Canada and the nations of

the Caribbean. The subcommittee also deals with boundary matters, and U.S. policy with regard to the Organization of American States. This subcommittee's responsibilities include all matters within the geographic region relating to (1) terrorism and non-proliferation; (2) U.S. foreign assistance programs; and (3) the promotion of U.S. trade and exports.

This subcommittee also exercises general oversight over (1) all of the activities and programs of the Peace Corps; and (2) all U.S. foreign policy, programs and international cooperative efforts to combat the flow of illegal drugs or substances.

#### **SUBCOMMITTEE ON AFRICAN AFFAIRS**

RUSSELL D. FEINGOLD, *Chairman*; BENJAMIN L. CARDIN; JIM WEBB; EDWARD E. KAUFMAN; JEANNE SHAHEEN; JOHNNY ISAKSON, *Ranking Member*; JIM DEMINT; BOB CORKER; and JAMES M. INHOFE.

##### *Jurisdiction:*

The subcommittee has geographic responsibilities corresponding to those of the Bureau of African Affairs in the Department of State. It considers all matters concerning U.S. relations with countries in Africa, with the exception of countries bordering on the Mediterranean Sea from Egypt to Morocco, which are under the jurisdiction of the Subcommittee on Near Eastern and South and Central Asian Affairs.

This subcommittee's responsibilities include all matters within the geographic region relating to: (1) terrorism and non-proliferation; (2) crime and illicit narcotics; (3) U.S. foreign assistance programs; and (4) the promotion of U.S. trade and exports.

#### **SUBCOMMITTEE ON INTERNATIONAL OPERATIONS AND ORGANIZATIONS, HUMAN RIGHTS, DEMOCRACY, AND GLOBAL WOMEN'S ISSUES**

BARBARA BOXER, *Chairman*; RUSSELL D. FEINGOLD; ROBERT MENENDEZ; EDWARD E. KAUFMAN; JEANNE SHAHEEN; KIRSTEN E. GILLIBRAND; ROGER F. WICKER, *Ranking Member*; JIM DEMINT; JOHN BARRASSO; and JAMES M. INHOFE.

##### *Jurisdiction:*

The subcommittee's responsibilities include all matters involving international operations and organizations, human rights, democracy, and global women's issues. This jurisdiction includes the general oversight responsibility for the Department of State, the Broadcasting Board of Governors, the Foreign Service, and public diplomacy. It also includes oversight responsibility for United States participation in the United Nations, its affiliated organizations, and other international organizations not under the jurisdiction of other subcommittees. Finally, it includes general oversight responsibility for U.S. policy in promoting democracy and human rights abroad.

#### **SUBCOMMITTEE ON INTERNATIONAL DEVELOPMENT AND FOREIGN ASSISTANCE, ECONOMIC AFFAIRS, AND INTERNATIONAL ENVIRONMENTAL PROTECTION**

ROBERT MENENDEZ, *Chairman*; BARBARA BOXER; BENJAMIN L. CARDIN; ROBERT P. CASEY, JR.; JEANNE SHAHEEN; KIRSTEN E. GILLIBRAND; BOB CORKER, *Ranking Member*; ROGER F. WICKER; JIM DEMINT; and JAMES E. RISCH.

##### *Jurisdiction:*

The subcommittee's responsibilities include general oversight responsibility for U.S. development policy and foreign assistance programs. It includes U.S. bilateral hu-

manitarian, development, economic, trade and security assistance programs carried out by the U.S. Agency for International Development, the Millennium Challenge Corporation, and other U.S. agencies, and U.S. voluntary contributions to international organizations providing assistance to foreign nations.

It also includes matters related to: (1) international monetary policy, including U.S. participation in international financial institutions; (2) U.S. foreign economic policy, including export enhancement and trade promotion; and (3) international investment, protection of intellectual property, and technological transfer.

Finally, the subcommittee is responsible for matters relating to international energy security and international environmental protection, including the oceans and space.

#### **SUBCOMMITTEE ON NEAR EASTERN AND SOUTH AND CENTRAL ASIAN AFFAIRS**

ROBERT P. CASEY, JR., *Chairman*; CHRISTOPHER J. DODD; RUSSELL D. FEINGOLD; BARBARA BOXER; BENJAMIN L. CARDIN; EDWARD E. KAUFMAN; JAMES E. RISCH, *Ranking Member*; BOB CORKER; JOHN BARRASSO; and JOHNNY ISAKSON.

##### *Jurisdiction:*

This subcommittee deals with all matters concerning U.S. relations with the countries of the Middle East and Arab North Africa. This subcommittee's geographic responsibilities also encompass U.S. relations with the countries of South and Central Asia, corresponding to the jurisdiction of the Bureau of South and Central Asian Affairs in the Department of State.

This subcommittee's responsibilities include all matters within the geographic region relating to: (1) terrorism and non-proliferation; (2) crime and illicit narcotics; (3) U.S. foreign assistance programs; and (4) the promotion of U.S. trade and exports.

#### **SUBCOMMITTEE ON EAST ASIAN AND PACIFIC AFFAIRS**

JIM WEBB, *Chairman*; CHRISTOPHER J. DODD; RUSSELL D. FEINGOLD; BARBARA BOXER; ROBERT P. CASEY, JR.; KIRSTEN E. GILLIBRAND; JAMES M. INHOFE, *Ranking Member*; JOHNNY ISAKSON; JOHN BARRASSO; and ROGER F. WICKER.

##### *Jurisdiction:*

The subcommittee has geographic responsibilities corresponding to those of the Bureau of East Asian and Pacific Affairs in the Department of State and considers all matters concerning U.S. relations with the countries of that region. It also considers matters related to regional organizations such as the Association of South East Asian Nations and the Asia-Pacific Economic Cooperation.

This subcommittee's responsibilities include all matters within the geographic region relating to: (1) terrorism and non-proliferation; (2) crime and illicit narcotics; (3) U.S. foreign assistance programs; and (4) the promotion of U.S. trade and exports.

#### **SUBCOMMITTEE ON EUROPEAN AFFAIRS**

JEANNE SHAHEEN, *Chairman*; CHRISTOPHER J. DODD; ROBERT MENENDEZ; ROBERT P. CASEY, JR.; JIM WEBB; EDWARD E. KAUFMAN; JIM DEMINT, *Ranking Member*; JAMES E. RISCH; BOB CORKER; and ROGER F. WICKER.

##### *Jurisdiction:*

The subcommittee deals with all matters concerning U.S. relations with the countries on the continent of Europe (except the states of Central Asia that are within the jurisdiction of the Subcommittee on Near Eastern

and South Asian Affairs), and with the North Atlantic Treaty Organization, the European Union and the Organization for Security and Cooperation in Europe. Matters relating to Greenland and the northern polar region are also the responsibility of this subcommittee.

This subcommittee's responsibilities include all matters within the geographic region relating to: (1) terrorism and non-proliferation; (2) crime and illicit narcotics; (3) U.S. foreign assistance programs; and (4) the promotion of U.S. trade and exports.

#### **SAME-SEX MARRIAGE RECOGNITION IN VERMONT**

Mr. LEAHY. Mr. President, the U.S. Constitution, the document by which we define ourselves as a nation, emphasizes freedom and equality. Its words have inspired generations of Americans to create a society that sustains those values: one that preserves our freedom and reminds its citizens that we are all created equally. Among those who are leading the fight to protect this constitutional guarantee of equality are the people of Vermont, who I have been proud to represent for the past 34 years.

Vermonters have consistently led the charge to perfect our Union and to support the fight for equality and social justice. Vermont was the first State in our Union to outlaw slavery, and was also the first to adopt voting rights, regardless of property ownership. Vermont demonstrated its commitment to social justice years ago with the passage of inclusive hate crimes and employment nondiscrimination legislation. I hope our Federal Government will follow Vermont's lead with regard to these essential protections.

Vermonters have led the Nation by protecting families and by ensuring that children are in stable, loving environments. This is because Vermonters believe that parents should be allowed to strengthen their commitments to one another. In 2000, Vermont took a crucial step when it became the first State in the Nation to allow civil unions for same-sex couples. Recently, Vermont took another step to help sustain the relationships that fulfill our lives by becoming the first state to adopt same-sex marriage through the legislative process without a court mandate to do so.

I commend the Vermont State Legislature for its actions, and for setting aside partisan differences to serve the people of Vermont and to serve as an example for the Nation. Throughout the tumultuous debate on this issue, both chambers considered each side's viewpoint, and all points of view were heard. This was a real testament to our democratic process. Yet despite that debate, the Governor vetoed the legislation that was approved by the legislature.

The Vermont State Legislature has the distinction of being a part-time body. They work within the very communities they represent on a daily

basis. During the debate, these legislators listened to their neighbors, their friends, and their constituents. During this process, they realized that marriage equality was something the people of Vermont wanted. Some members of the State legislature ultimately decided to put aside their personal views. They did not want to have such an important issue decided by a single vote. They did not believe that one person should be able to prevent what Vermonters were seeking—equality for all its citizens. In the end, several of the legislators who originally voted against the bill cast their vote to override the Governor's veto. I believe that the actions of those legislators and the entire Vermont Legislature deserve our admiration.

As a Vermonter who has been married for 47 years, I am a great fan of the institution of marriage. I believe it is important to encourage and to sanction committed relationships, and to provide for stable, supportive families. When Vermont passed legislation on same-sex marriage, it reaffirmed my fundamental belief we should not create second-class families who do not enjoy the protections other families have. Unfortunately this is still not the case in our Federal Government. With laws like the Defense of Marriage Act in effect, Vermont same-sex marriages are still treated differently. I believe it is time to repeal it, so that all Vermonters can be treated equally under the law.

Vermont's State motto is depicted clearly on our State flag: "Freedom and Unity." Today, same-sex couples in Vermont are now able to enjoy the same freedoms that opposite sex couples in Vermont enjoy. Same-sex couples now have the freedom to create and to preserve family unity, and to bring happiness and stability to their children and loved ones. I am proud to represent the people of Vermont and I commend them for having reached yet another milestone in the march toward equality.

#### RECOGNIZING THE CAPITOL HILL SCREENING OF "THE WAY WE GET BY"

Ms. SNOWE. Mr. President, today I commemorate the Capitol Hill screening of "The Way We Get By", a deeply moving and powerful documentary film about the iconic Troop Greeters of Bangor in my home State of Maine. On this wonderful occasion, I join with my colleagues in the Maine Delegation—Senator COLLINS, and Representatives MICHAUD and PINGREE—in expressing my tremendous gratitude not only to the USO—the indispensable "home-away-from-home" for our more than 2.5 million men and women exceptional enough to wear our Nation's uniform, so admirably led by USO president and CEO Sloan Gibson—but also to Oper-

ation Homefront as well as HandsOn Network—cofounded by Michelle Nunn—who is forging her own path within the longstanding, Nunn family history of commitment to service as CEO of Points of Light Institute.

A part of President Obama's United We Serve initiative, all three of these stellar organizations are presenting this magnificent film in the U.S. Capitol at the wonderful Capitol Visitor Center, and we couldn't be more grateful to them—as well as to the Professional Services Council and the Corporation for Public Broadcasting—and others too numerous to mention for helping bring this documentary to fruition. And I would like to especially thank Simon Kilmurry, executive director of American Documentary, and Aron Gaudet, the film's director, for their stalwart leadership and dedication on this exemplary project.

And it couldn't be more fitting to have Dr. Jill Biden, the wife of Vice President BIDEN, introduce this well-deserved tribute to the Bangor Troop Greeters at today's screening—especially as Beau, the Vice President's son and Delaware's attorney general, has just returned from his deployment in Iraq as a member of the Delaware Army National Guard's 261st Signal Brigade. We commend Beau and all of those returning in his brigade, and we cannot thank them enough for their courageous service and heroic sacrifice to our Nation.

And of course, expressing our admiration and thankfulness to those who have placed themselves in harm's way on our behalf is the driving impetus behind this superb endeavor to capture on film the incredible generosity of spirit and good will unflaggingly exemplified by the Bangor Troop Greeters. For these extraordinary individuals, three of whom are showcased in the movie and attended today's screening, meeting our service men and women at the Bangor International Airport is an undeniable labor of love and a heartfelt expression of their devotion to our country and all who defend her.

In chronicling the selfless, patriotic and frankly larger-than-life actions of three amazing Mainers—Bill Knight, Joan Gaudet, and Jerry Mundy, director and Old Town native, Aron Gaudet—in tandem with Gita Pullapilly, the film's producer and interviewer, deftly brings to this undertaking the venerable tradition of extending handshakes and hugs to our brave soldiers, dating back to the first gulf war and Operation Desert Storm. And to document the humanity underpinning this monumental outpouring of support for our troops—which occurs 24 hours a day, 365 days a year, rain or shine—is a marvelous achievement and one which instills enormous pride in us all.

On a personal note, I can't tell you how many of our soldiers I have en-

countered who have expressed their immense appreciation to the world-renowned Bangor Troop Greeters. In fact, I well recall one soldier coming up to me specifically to convey just how remarkable the troop greeters were and that fellow soldiers shared the same sentiment. We echo that very sensibility today.

Congratulations to all who have been involved in the continuing success of this highly-acclaimed film documenting a phenomenal story of giving back to those who have given us all so much—our service men and women!

#### TRIBUTE TO FRANK D. STELLA

Mr. LEVIN. Mr. President, today I pay tribute to a pillar of my community, Detroit businessman and philanthropist Frank D. Stella.

Born in Pennsylvania, the son of Italian immigrants, he founded the F.D. Stella Products Company in Detroit in 1946, shortly after he returned from military service during World War II. Frank has built the company into a nationwide network of food-service suppliers, forming the backbone of his business and civic involvement in Michigan. And that involvement is extensive. From business to health care to the arts to charity work, there is little that happens in Detroit that doesn't involve Frank Stella in some way. Frank has long been active in the city's most important business groups, including the Detroit Regional Chamber of Commerce and Detroit Economic Club. A patron of the arts, he has served on governing boards for the Detroit Symphony Orchestra, Michigan Opera Theatre, and Detroit Discovery Museum. He has demonstrated a long-time commitment to health care, serving on the boards of the Detroit Medical Center, Mount Carmel Mercy Hospital, Sacred Heart Rehabilitation Center, and Grace Hospital of Detroit. Education has been another focus: He has served on the boards of the University of Detroit-Mercy, his alma mater, as well as the Wayne County Community College Foundation.

The breadth and depth of his accomplishments and involvement has drawn the notice of many. Organizations as diverse as the Detroit Urban League, the Rehabilitation Institute of Michigan, and the American Institute of Architects have honored him for his contributions. In 1995, he received an Ellis Island Medal of Honor, an award recognizing the importance of the immigrant experience in American life. The Italian Government has bestowed numerous awards upon him, as have four U.S. Presidents. His support of his Roman Catholic faith has earned the thanks of popes.

On Oct. 30, many of Frank's friends will gather to honor his 90th birthday. Fittingly, the celebration will serve as a fundraiser for four more of Frank's

causes: the National Italian American Foundation Scholarship Fund, Orders of the Sons of Italy in America, Italian Language Inter-Cultural Alliance, and Boys' Town of Italy. I thank him for his years of service to our city and State and wish him continued health and success in his many community endeavors.

#### ADDITIONAL STATEMENTS

##### RECOGNIZING THE PARKS AND PEOPLE FOUNDATION

• Mr. CARDIN. Mr. President, today I congratulate the Parks and People Foundation of Baltimore, which is celebrating its 25th anniversary. Community activist Sally Michel founded Parks and People in 1984. Since then, Parks and People has grown from Sally's kitchen counter to a planned, eco-friendly, LEED Platinum-certified headquarters.

Today, Parks and People Foundation, under the leadership of Jackie Carrerra and the creative energy and advocacy of Sally Michel, is working hard to make Baltimore green, to educate and enable our communities to get involved in that effort, and to make sure that our children grow up knowing about the importance of the environment and their role in protecting it, whether as a landscaper, arborist, scientist, a business owner, or homeowner.

Parks and People also has become a leader in enriching the lives of Baltimore-area children. Its Kids Grow program provides afterschool environmental curriculum and instruction. SuperKids Camp has become a national model for summer learning, providing rising 2nd and 3rd graders in the public schools an opportunity to sharpen reading and math skills as well as experience the cultural and academic resources in the Baltimore area. Sports Leagues provide coaches, equipment, transportation, and referees for volleyball, lacrosse, soccer, and baseball teams in public middle schools without athletic programs. Participants are required to have good school attendance and grades.

In the 1980s, when support for Baltimore's parks was waning due to budget cuts and lack of leadership, the Parks and People Foundation took up the challenge and worked to establish and financially support groups interested in maintaining and creating parks throughout the city. Partnership for Parks provides grants for projects ranging from garden bed improvement and planting to new fences and benches. Watershed 263 is an ambitious experiment to improve the quality of surface water runoff on 930 acres in 13 urban communities. Parks and People works with residents to reduce litter, clean streets, increase recycling, cre-

ate community gardens, install storm water management facilities and clean and green vacant lots and plant trees. Improvement here will lead to a cleaner, healthier Chesapeake Bay and serve as a model for other urban watershed areas.

I know the entire Senate will join me in congratulating the Parks and People Foundation on celebrating its 25th anniversary and in thanking the foundation for its work to improve the quality of life in Baltimore for future generations.●

##### TRIBUTE TO VIRGINIA SCOTTY GOUGH

• Ms. MIKULSKI. Mr. President, today I honor a group of women who have made a lasting contribution to American history. They are the Women Airforce Service Pilots, or WASP.

Who are the WASP?

They were the first women trained in American military aircraft. They were trailblazers and true patriots. They are women like Virginia Scotty Gough. They came from all walks of life. They were students, secretaries, nurses, daughters, wives. One was a nun. They shared the same goal: to contribute to the American war effort.

Between 1942 and 1944, the 1,102 WASP trained in Texas, then went on to fly noncombat military missions so that all their male counterparts could be deployed to combat. These women piloted every kind of military aircraft, and logged 60 million miles flying missions across the United States. Thirty-eight of them died in the line of duty.

These intrepid women served their country with courage and valor. But for too long, their country did not serve them. They were never awarded full military status and were ineligible for officer status. They faced strong cultural and gender bias and received unequal pay. Following the war, they were told to pay their own way home. It was not until 1977—more than 30 years later—that the WASP were granted veterans' status.

Thirteen of these brave women hail from Maryland. Four are still alive today: Virginia Scotty Gough, Florence Marston, Elaine Harmon, and Nancy Magruder. I am proud to honor them today.

Virginia Bradley Gough, known as Scotty, grew up in California. She learned to fly at age 16 and has avidly pursued that dream for many years. In 1943, when she learned about the WASP program, she was eager to join. But her young age prevented her from immediately enrolling in the training. As is so indicative of the WASP, she didn't waste the year. Instead, she earned money to continue flying by making parachute jumps to attract people to the airport.

After completing her WASP training as part of the class of 44-7, Scotty was

stationed in the engineering department at Williams Army Air Base in Chandler, AZ. There she served as an engineering test pilot, testing aircraft after major engine overhauls and other major repairs. She served as a check pilot to the aircraft, ensuring repairs and fixes were safe before an aircraft was released to combat. It was dangerous work, requiring a devoted and precise pilot.

After the WASP were unceremoniously disbanded in December 1944, Scotty Gough returned to Los Angeles and flew Luscombe aircraft from the factory to west coast distributors, making the most of her well-honed piloting skills.

Many years later, Scotty Gough and another WASP established the WASP exhibit at Dover Air Force Base in Delaware. I am proud that Virginia "Scotty" Gough now calls Maryland home.

Like the other WASP, Scotty Gough was a trailblazer and true patriot. She paved the way for the armed services to lift the ban on women attending military flight training in the 1970s, and eventually led to women being fully integrated as pilots in the U.S. military. We owe her our "thank you"—not in words, but in deeds. Her story should have never been a forgotten chapter in American history. It will no longer be.

I was proud to fight for legislation to award the WASP the most distinguished honor Congress can give: the Congressional Gold Medal. I am proud the bill passed quickly and has now been signed into law. The process of designing, casting, and presenting these medals has begun. I look forward to the day, very soon, when I can present Scotty Gough and all the other WASP this medal they have earned and so long deserved.●

##### TRIBUTE TO ELAINE HARMON

• Ms. MIKULSKI. Mr. President, today I honor a group of women who have made a lasting contribution to American history. They are the Women Airforce Service Pilots, or WASP.

Who are the WASP?

They were the first women trained in American military aircraft. They were trailblazers and true patriots. They are women like Elaine Harmon, from Baltimore. They came from all walks of life. They were students, secretaries, nurses, daughters, wives. One was a nun. They shared the same goal: to contribute to the American war effort.

Between 1942 and 1944, the 1,102 WASP trained in Texas, then went on to fly noncombat military missions so that all their male counterparts could be deployed to combat. These women piloted every kind of military aircraft, and logged 60 million miles flying missions across the United States. Thirty-eight of them died in the line of duty.

These intrepid women served their country with courage and valor. But for too long, their country did not serve them. They were never awarded full military status and were ineligible for officer status. They faced strong cultural and gender bias and received unequal pay. Following the war, they were told to pay their own way home. It was not until 1977—more than 30 years later—that the WASP were granted veterans' status.

Thirteen of these brave women hail from Maryland. Four are still alive today: Elaine Harmon, Nancy Magruder, Florence Marston, and V. Scotty Gough. I am proud to honor them today.

Born in Baltimore, Elaine Harmon began flying at College Park Airport while attending University of Maryland. An ad in the local college newspaper for the Civilian Pilot Training Program piqued her interest. The program required a parent's consent. Knowing her mother would never agree to it, she sent the form to her father instead. He signed it and mailed it back to her with the \$40 tuition fee. The family never spoke of it again.

After Pearl Harbor, Elaine and her husband supported the war efforts in ways they could. Her husband desperately wanted to join the Army Air Force, but wasn't able to due to a constriction in his aorta. He learned to repair aircraft instruments and moved to Biak Island, West Papua, to locally repair the instruments, thus saving several weeks in repair for transit.

Nearly 5 years after learning to fly, Elaine's husband suggested she join the WASP. She earned her wings as a WASP in the class of 44-9. After completing her WASP training, Elaine was stationed at Nellis Air Force Base, near Las Vegas, NV. There she flew BT-13s and B-17s. BT-13s were used to allow pilots to practice instrument flying. Elaine would pilot the aircraft, freeing her male counterparts to practice their instrument flying.

It was a daunting task. The technology was different then. The men had to sit in the backseat, under a dark hood which obscured their view of everything but the instruments in front of them. They could only do it because they had a great pilot in the front ensuring their safety.

After the WASP were disbanded in December 1944, Elaine made her way back to Baltimore. She didn't stay long. Her mother was embarrassed, ashamed that Elaine would participate in what was seen at the time as an unlady-like endeavor. So Elaine scraped together what skimpy savings she had and bought a one-way ticket to California. With her husband still overseas and with less than \$30 in her pocket, she eventually found a job as an air traffic controller in Oakland.

Thirty years passed before Elaine Harmon was offered veterans' status.

Thirty years before her service to the nation was recognized. But like the other WASP, Elaine Harmon believed in the cause she served. She knew the obstacles, but chose her own way. In the end, she paved the way for the armed services to lift the ban on women attending military flight training in the 1970s, and eventually led to women being fully integrated as pilots in the U.S. military. Today women can fly every type of aircraft and mission, from fighter jets in combat to the shuttle in space flight. Women like Elaine Harmon made this possible.

The WASP were trailblazers and true patriots. We owe them our "thank you"—not in words, but in deeds. For their courage, service and dedication to our nation, the WASP have earned the most distinguished honor Congress can give: the Congressional Gold Medal.

Now the bill to give WASP Congress' top award has been passed and signed into law. The process of designing, casting, and presenting these medals had begun. I look forward to the day, very soon, when I can present Elaine Harmon and all the other WASP this medal they have earned and so long deserved.●

#### TRIBUTE TO NANCY MAGRUDER

● Ms. MIKULSKI. Mr. President, today I honor a group of women who have made a lasting contribution to American history. They are the Women Airforce Service Pilots, or WASP.

Who are the WASP?

They were the first women trained in American military aircraft. They were trailblazers and true patriots. They are women like Nancy Magruder. They came from all walks of life. They were students, secretaries, nurses, daughters, wives. One was a nun. They shared the same goal: to contribute to the American war effort.

Between 1942 and 1944, the 1,102 WASP trained in Texas, then went on to fly noncombat military missions so that all their male counterparts could be deployed to combat. These women piloted every kind of military aircraft, and logged 60 million miles flying missions across the United States. Thirty-eight of them died in the line of duty.

These intrepid women served their country with courage and valor. But for too long, their country did not serve them. They were never awarded full military status and were ineligible for officer status. They faced strong cultural and gender bias and received unequal pay. Following the war, they were told to pay their own way home. It was not until 1977—more than 30 years later—that the WASP were granted veterans' status.

Thirteen of these brave women hail from Maryland. Four are still alive today: Nancy Magruder, Florence Marston, Elaine Harmon, and V. Scotty Gough. I am proud to honor them today.

Iola "Nancy" Clay Magruder earned her wings as part of class 44-7. After graduation, she was stationed at Enid Army Air Base in Oklahoma. Her mission was to train aviation cadets to become pilots and commissioned officers, an honor that would not be extended to the WASP during WWII. While at Enid Army Air Base, Nancy flew utility missions, or testing missions, to ensure the aircraft were safe for the cadets. She also flew ferrying missions of the BT-13s and BT-15s. In all, Nancy would fly five different aircraft variants: the BT-13; BT-15; PT-17; and the B-18 "Bolo," the most numerous long range bomber of WWII.

Like the other WASP, Nancy was unceremoniously disbanded in December 1944. The promise that she would be militarized and become part of the Army was not kept. Still, Nancy wanted to serve. She would join the U.S. Air Force Reserve and earned the rank of second lieutenant.

Nancy's story is a story of dedication to this country. She risked her life in service to our nation so that the rest of us may live in freedom. She did so without the promise of recognition or pay. And she paved the way for the armed services to lift the ban on women attending military flight training in the 1970s, and eventually led to women being fully integrated as pilots in the U.S. military. We owe her our "thank you"—not in words, but in deeds.

For too long, the WASP story of service and sacrifice has been left untold. I'm proud to have fought to right this wrong by sponsoring legislation to award Nancy Magruder and her fellow WASP the most distinguished honor Congress can give: the Congressional Gold Medal.

Now the bill has been passed and signed into law. The process of designing, casting, and presenting these medals has begun. And I look forward to the day, very soon, when I can present Nancy Magruder and all the other WASP this medal they have earned and so long deserved.●

#### TRIBUTE TO FLORENCE MARSTON

● Ms. MIKULSKI. Mr. President, today I honor a group of women who have made a lasting contribution to American history. They are the Women Airforce Service Pilots, or WASP.

Who are the WASP?

They were the first women trained in American military aircraft. They were trailblazers and true patriots. They are women like Florence Marston. They came from all walks of life. They were students, secretaries, nurses, daughters, wives. One was a nun. They shared the same goal: to contribute to the American war effort.

Between 1942 and 1944, the 1,102 WASP trained in Texas, then went on to fly noncombat military missions so

that all their male counterparts could be deployed to combat. These women piloted every kind of military aircraft, and logged 60 million miles flying missions across the United States. Thirty-eight of them died in the line of duty.

These intrepid women served their country with courage and valor. But for too long, their country did not serve them. They were never awarded full military status and were ineligible for officer status. They faced strong cultural and gender bias and received unequal pay. Following the war, they were told to pay their own way home. It was not until 1977—more than 30 years later—that the WASP were granted veterans' status.

Thirteen of these brave women hail from Maryland. Four are still alive today: Florence Marston, Elaine Harmon, Nancy Magruder, and V. Scotty Gough. I am proud to honor them today.

Florence Niemiec Marston, born in Buffalo, NY, volunteered to enter WASP training at an early age. She paid her own way to get to the training site in Texas, and earned her wings as part of the class of 43-6. After graduation, her talents and bravery were needed in several duty locations: South Plains Army Air Base, Dodge City Army Air Base, and Pueblo Army Air Base.

At South Plains, Florence flew B-25s and C-60s, and trained to tow CG-4 gliders mostly at low altitude and at night. It was a risky and arduous mission. Later, Florence was selected to transfer to Dodge City Army Air Base and fly the B-26.

The B-26 was a difficult aircraft to fly. It was called the "widowmaker," for it was notorious for its number of early accidents. Only about 100 WASP would learn to fly this aircraft. Florence Marston was one of them.

While stationed at Dodge City, Florence Marston flew B-26s on tow-target missions. This intense mission meant towing a target behind the aircraft, a target that training aerial gunners would practice shooting using live ammunition. It was one of the most dangerous missions the WASP would be asked to perform. Florence mastered it with courage, skill and dedication.

Later, after being transferred to Pueblo Army Air Base, Florence would pilot B-24s, B-25s, UC-78s, and L-5s, primarily in administrative piloting duties. In all, Florence Marston piloted ten different aircraft types as a WASP.

Like the other WASP, Florence Marston was a trailblazer and true patriot. She paved the way for the armed services to lift the ban on women attending military flight training in the 1970s, and eventually led to women being fully integrated as pilots in the U.S. military. We owe her our "thank you"—not in words, but in deeds. Her story should have never been a forgotten chapter in American history. It will no longer be.

I was proud to fight for legislation to award the WASP the most distinguished honor Congress can give: the Congressional Gold Medal. Now the bill has been passed and signed into law. The process of designing, casting, and presenting these medals has begun. And I look forward to the day, very soon, when I can present Florence Marston and all the other WASP this medal they have earned and so long deserved.●

#### MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Neiman, one of his secretaries.

#### EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

#### MESSAGES FROM THE HOUSE

At 11:53 a.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 685. An act to require the Secretary of the Interior to conduct a special resource study regarding the proposed United States Civil Rights Trail, and for other purposes.

H.R. 905. An act to expand the boundaries of the Thunder Bay National Marine Sanctuary and Underwater Preserve, and for other purposes.

H.R. 2950. An act to direct the Secretary of the Interior to allow for prepayment of repayment contracts between the United States and the Uintah Water Conservancy District.

H.R. 3123. An act to direct the Secretary of the Interior, acting through the Bureau of Reclamation, to remedy problems caused by a collapsed drainage tunnel in Leadville, Colorado, and for other purposes.

The message also announced that the House has agreed to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 186. Concurrent resolution supporting the goals and ideals of Sickle Cell Disease Awareness Month.

At 3:57 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House disagrees to the amendment of the Senate to the bill (H.R. 2997) making appropriation for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and

for other purposes, and agrees to the conference asked by the Senate on disagreeing votes of the two Houses thereon, and appoints the following Members as managers of the conference on the part of the House: Ms. DELAUNO, Mr. FARR, Mr. BOYD, Mr. BISHOP of Georgia, Mr. DAVIS of Tennessee, Ms. KAPTUR, Mr. HINCHEY, Mr. JACKSON of Illinois, Mr. OBEY, Mr. KINGSTON, Mr. LATHAM, Mrs. EMERSON, Mr. ALEXANDER, and Mr. LEWIS of California.

#### ENROLLED BILLS SIGNED

The President pro tempore (Mr. BYRD) reported that he had signed the following enrolled bills, previously signed by the Speaker of the House:

H.R. 3607. An act to amend the Internal Revenue Code of 1986 to extend the funding and expenditure authority of the Airport and Airway Trust Fund, to amend title 49, United States Code, to extend authorizations for the airport improvement program, and for other purposes.

H.R. 3614. An act to provide for an additional temporary extension of programs under the Small Business Act and the Small Business Investment Act of 1958, and for other purposes.

#### ENROLLED BILLS SIGNED

At 6:31 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the Speaker has signed the following enrolled bills:

H.R. 2131. An act to amend the Foreign Affairs Reform and Restructuring Act of 1998 to reauthorize the United States Advisory Commission on Public Diplomacy.

H.R. 3593. An act to amend the United States International Broadcasting Act of 1994 to extend by one year the operation of Radio Free Asia, and for other purposes.

#### ENROLLED BILL SIGNED

At 6:42 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the Speaker has signed the following enrolled bill:

H.R. 2918. An act making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes.

The enrolled bills were subsequently signed by the Majority Leader.

#### MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 685. An act to require the Secretary of the Interior to conduct a special resource study regarding the proposed United States Civil Rights Trail, and for other purposes; to the Committee on Energy and Natural Resources.

H.R. 2950. An act to direct the Secretary of the Interior to allow for prepayment of repayment contracts between the United States and the Uintah Water Conservancy District; to the Committee on Energy and Natural Resources.

### MEASURES PLACED ON THE CALENDAR

The following bill was read the first and second times by unanimous consent, and placed on the calendar:

H.R. 905. An act to expand the boundaries of the Thunder Bay National Marine Sanctuary and Underwater Preserve, and for other purposes.

### REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. DORGAN, from the Committee on Indian Affairs, with amendments:

H.R. 1129. A bill to authorize the Secretary of the Interior to provide an annual grant to facilitate an iron working training program for Native Americans (Rept. No. 111-84).

### EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of nominations were submitted:

By Mr. HARKIN for the Committee on Health, Education, Labor, and Pensions.

\*George H. Cohen, of Virginia, to be Federal Mediation and Conciliation Director.

\*Alexa E. Posny, of Kansas, to be Assistant Secretary for Special Education and Rehabilitative Services, Department of Education.

\*Brenda Dann-Messier, of Rhode Island, to be Assistant Secretary for Vocational and Adult Education, Department of Education.

\*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

### INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. ENSIGN (for himself, Mr. KYL, Mr. CRAPO, Mr. INHOFE, Mr. MCCAIN, Ms. MURKOWSKI, and Mr. RISCH):

S. 1727. A bill to amend title 28, United States Code, to provide for the appointment of additional Federal circuit judges, to divide the Ninth Judicial Circuit of the United States to 2 circuits, and for other purposes; to the Committee on the Judiciary.

By Mrs. MCCASKILL (for herself and Mr. MERKLEY):

S. 1728. A bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyer credit in the case of members of the Armed Forces and certain other Federal purposes, and for other purposes; to the Committee on Finance.

By Mr. SCHUMER:

S. 1729. A bill to establish driver education curriculum for teenage drivers and to provide grants to States and tribal governments to carry out driver education training for licensed teenage drivers; to the Committee on Commerce, Science, and Transportation.

By Mr. FRANKEN (for himself, Mr. ROCKEFELLER, Mr. WHITEHOUSE, and Mr. SANDERS):

S. 1730. A bill to provide for minimum loss ratios for health insurance coverage; to the Committee on Health, Education, Labor, and Pensions.

By Mr. REED (for himself, Mr. DURBIN, Mr. WHITEHOUSE, and Mr. MERKLEY):

S. 1731. A bill to require certain mortgagees to make loan modifications, to establish a grant program for State and local government mediation programs, to create databases on foreclosures, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. INOUE (for himself and Mr. AKAKA):

S. 1732. A bill to amend the Public Health Service Act to provide for health data regarding Native Hawaiians and other Pacific Islanders; to the Committee on Indian Affairs.

By Mr. KERRY (for himself and Mrs. BOXER):

S. 1733. A bill to create clean energy jobs, promote energy independence, reduce global warming pollution, and transition to a clean energy economy; to the Committee on Environment and Public Works.

By Mr. KYL (for himself and Mr. CORNYN):

S. 1734. A bill to reduce the cost of health care and ensure patient access to doctors by ending excessive malpractice verdicts through common-sense lawsuit reform; to the Committee on the Judiciary.

### SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Ms. LANDRIEU (for herself and Mr. VITTER):

S. Res. 294. A resolution commending the Louisiana State University Tigers men's baseball team for winning the 2009 National Collegiate Athletic Association College World Series; to the Committee on the Judiciary.

By Mr. BAYH (for himself, Mr. LUGAR, Mr. DURBIN, Mr. INOUE, Mr. SCHUMER, Mr. SANDERS, Mr. RISCH, and Mr. FEINGOLD):

S. Res. 295. A resolution designating October 13, 2009, as "National Metastatic Breast Cancer Awareness Day"; to the Committee on the Judiciary.

By Mrs. LINCOLN (for herself, Mr. CRAPO, and Mr. KOHL):

S. Res. 296. A resolution designating October 2009 as "National Work and Family Month"; to the Committee on the Judiciary.1A

### ADDITIONAL COSPONSORS

S. 213

At the request of Mrs. BOXER, the name of the Senator from New Hampshire (Mrs. SHAHEEN) was added as a cosponsor of S. 213, a bill to amend title 49, United States Code, to ensure air passengers have access to necessary services while on a grounded air carrier, and for other purposes.

S. 346

At the request of Mr. WICKER, the name of the Senator from North Carolina (Mr. BURR) was added as a cosponsor of S. 346, a bill to implement equal

protection under the 14th article of amendment to the Constitution for the right to life of each born and preborn human person.

S. 435

At the request of Mr. CASEY, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 435, a bill to provide for evidence-based and promising practices related to juvenile delinquency and criminal street gang activity prevention and intervention to help build individual, family, and community strength and resiliency to ensure that youth lead productive, safe, healthy, gang-free, and law-abiding lives.

S. 664

At the request of Ms. COLLINS, the name of the Senator from Missouri (Mr. BOND) was added as a cosponsor of S. 664, a bill to create a systemic risk monitor for the financial system of the United States, to oversee financial regulatory activities of the Federal Government, and for other purposes.

S. 694

At the request of Mr. DODD, the name of the Senator from Arkansas (Mr. PRYOR) was added as a cosponsor of S. 694, a bill to provide assistance to Best Buddies to support the expansion and development of mentoring programs, and for other purposes.

S. 729

At the request of Mr. DURBIN, the name of the Senator from Maryland (Mr. CARDIN) was added as a cosponsor of S. 729, a bill to amend the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 to permit States to determine State residency for higher education purposes and to authorize the cancellation of removal and adjustment of status of certain alien students who are long-term United States residents and who entered the United States as children, and for other purposes.

S. 812

At the request of Mr. BAUCUS, the name of the Senator from Idaho (Mr. CRAPO) was added as a cosponsor of S. 812, a bill to amend the Internal Revenue Code of 1986 to make permanent the special rule for contributions of qualified conservation contributions.

S. 987

At the request of Mr. DURBIN, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 987, a bill to protect girls in developing countries through the prevention of child marriage, and for other purposes.

S. 990

At the request of Ms. STABENOW, the name of the Senator from New Jersey (Mr. LAUTENBERG) was added as a cosponsor of S. 990, a bill to amend the Richard B. Russell National School Lunch Act to expand access to healthy afterschool meals for school children in working families.

S. 1055

At the request of Mrs. BOXER, the name of the Senator from Mississippi (Mr. COCHRAN) was added as a cosponsor of S. 1055, a bill to grant the congressional gold medal, collectively, to the 100th Infantry Battalion and the 442nd Regimental Combat Team, United States Army, in recognition of their dedicated service during World War II.

S. 1171

At the request of Mr. PRYOR, the name of the Senator from Mississippi (Mr. COCHRAN) was added as a cosponsor of S. 1171, a bill to amend title XVIII of the Social Security Act to restore State authority to waive the 35-mile rule for designating critical access hospitals under the Medicare Program.

S. 1197

At the request of Mr. VOINOVICH, the name of the Senator from New York (Mr. SCHUMER) was added as a cosponsor of S. 1197, a bill to establish a grant program for automated external defibrillators in elementary and secondary schools.

S. 1304

At the request of Mr. GRASSLEY, the name of the Senator from Minnesota (Mr. FRANKEN) was added as a cosponsor of S. 1304, a bill to restore the economic rights of automobile dealers, and for other purposes.

S. 1382

At the request of Mr. DODD, the name of the Senator from Delaware (Mr. KAUFMAN) was added as a cosponsor of S. 1382, a bill to improve and expand the Peace Corps for the 21st century, and for other purposes.

S. 1472

At the request of Mr. DURBIN, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 1472, a bill to establish a section within the Criminal Division of the Department of Justice to enforce human rights laws, to make technical and conforming amendments to criminal and immigration laws pertaining to human rights violations, and for other purposes.

S. 1523

At the request of Mr. BURR, the name of the Senator from Maine (Ms. SNOWE) was added as a cosponsor of S. 1523, a bill to amend the Public Health Service Act to establish a grant program to provide supportive services in permanent supportive housing for chronically homeless individuals and families, and for other purposes.

S. 1524

At the request of Mr. KERRY, the names of the Senator from Delaware (Mr. KAUFMAN) and the Senator from New York (Mrs. GILLIBRAND) were added as cosponsors of S. 1524, a bill to strengthen the capacity, transparency, and accountability of United States foreign assistance programs to effectively adapt and respond to new challenges of the 21st century, and for other purposes.

S. 1628

At the request of Mr. UDALL of Colorado, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 1628, a bill to amend title VII of the Public Health Service Act to increase the number of physicians who practice in underserved rural communities.

S. 1632

At the request of Mrs. BOXER, the name of the Senator from Connecticut (Mr. DODD) was added as a cosponsor of S. 1632, a bill to require full and complete public disclosure of the terms of home mortgages held by Members of Congress.

S. 1640

At the request of Mr. WYDEN, the name of the Senator from Ohio (Mr. BROWN) was added as a cosponsor of S. 1640, a bill to amend title XVIII of the Social Security Act to provide coverage of intensive lifestyle treatment.

S. 1647

At the request of Mr. REED, the name of the Senator from West Virginia (Mr. BYRD) was added as a cosponsor of S. 1647, a bill to provide for additional emergency unemployment compensation, and for other purposes.

S. 1675

At the request of Mr. AKAKA, the name of the Senator from Wisconsin (Mr. FEINGOLD) was added as a cosponsor of S. 1675, a bill to implement title V of the Nuclear Non-Proliferation Act of 1978 and to promote economical and environmentally sustainable means of meeting the energy demands of developing countries, and for other purposes.

S. 1678

At the request of Mr. CARDIN, the names of the Senator from New York (Mr. SCHUMER) and the Senator from Ohio (Mr. BROWN) were added as cosponsors of S. 1678, a bill to amend the Internal Revenue Code of 1986 to extend the first-time homebuyer tax credit, and for other purposes.

S. 1683

At the request of Mr. BENNETT, the name of the Senator from Colorado (Mr. UDALL) was added as a cosponsor of S. 1683, a bill to apply recaptured taxpayer investments toward reducing the national debt.

S. 1688

At the request of Mr. BENNETT, the name of the Senator from Oklahoma (Mr. COBURN) was added as a cosponsor of S. 1688, a bill to prevent congressional reapportionment distortions by requiring that, in the questionnaires used in the taking of any decennial census of population, a checkbox or other similar option be included for respondents to indicate citizenship status or lawful presence in the United States.

S. 1699

At the request of Mr. REED, the name of the Senator from West Virginia (Mr. BYRD) was added as a cosponsor of S. 1699, a bill to amend the Supplemental Appropriations Act, 2008 to provide for the temporary availability of certain additional emergency unemployment compensation, and for other purposes.

AMENDMENT NO. 2259

At the request of Mr. SANDERS, the names of the Senator from Illinois (Mr. DURBIN) and the Senator from Ohio (Mr. BROWN) were added as cosponsors of amendment No. 2259 proposed to H.R. 2997, a bill making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2555

At the request of Mr. JOHANNES, the name of the Senator from Texas (Mr. CORNYN) was added as a cosponsor of amendment No. 2555 proposed to H.R. 3326, a bill making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2567

At the request of Mr. BARRASSO, the name of the Senator from Louisiana (Mr. VITTER) was added as a cosponsor of amendment No. 2567 intended to be proposed to H.R. 3326, a bill making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2574

At the request of Mr. FEINGOLD, his name was added as a cosponsor of amendment No. 2574 intended to be proposed to H.R. 3326, a bill making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes.

#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. FRANKEN (for himself, Mr. ROCKEFELLER, Mr. WHITEHOUSE, and Mr. SANDERS):

S. 1730. A bill to provide for minimum loss ratios for health insurance coverage; to the Committee on Health, Education, Labor, and Pensions.

Mr. FRANKEN. Mr. President, I am pleased today to introduce the Fairness in Health Insurance Act. This bill will hold health insurance companies accountable by requiring that at least 90 percent of your premium dollars go toward health services, not profits or administrative waste. As we move forward in health reform, it is essential that health insurance companies know that their top priority must be serving beneficiaries, not taking care of shareholders or CEOs.

This bill is inspired by the unique culture of health care in Minnesota, which includes the Mayo Clinic, cooperative models like HealthPartners,

and visionary public health leadership from State legislators. Health care in our State is also distinguished by the fact that 90 percent of Minnesotans are served by a nonprofit health plan. These plans outperform their national peers and are able to put 91 cents of every premium dollar toward actual health care services.

In other plans throughout the nation, though, you may find less than 60 percent of your premium is put toward health care; the rest is for overhead, marketing and profits. By taking the profits out of the health insurance industry, Minnesota health plans do a better job helping our residents to live healthier, longer lives. The Fairness in Health Insurance Act will help us hold all health plans to the same standards we've set in Minnesota by requiring that 90 percent of premium dollars actually pay for health services.

But while millions of Americans struggle to pay for health care, insurance executives continue to make obscene salaries. Last year, three top health insurance executives saw boosts in their total compensation—some of them making almost \$10 million. I believe in fair competition but I do not support companies making obscene profits off of health care. The Fairness in Health Insurance Act will force insurance companies to prioritize health services for beneficiaries over bonus packages for CEOs.

In fact, the current reality is that most of us don't know where our health insurance premiums go. It's challenging enough to understand a billing statement from your health insurance company, much less track where your money is being spent. The Fairness in Health Insurance Act also requires transparent reporting of how health insurance companies are spending your money. This transparency is especially important as we move to cover all Americans in health reform. Clear reporting will help us hold insurance companies accountable for every dollar we invest in health insurance.

Now, although Minnesota outperforms most states in health care, I know we can continue to do better as well. When I talk with Minnesotans, I hear again and again that people are living in fear about health care. They are afraid of losing their health insurance, or worried about getting sick and going bankrupt. The reality is that 50 percent of bankruptcies today are caused by health costs and 80 percent of these Americans actually have health insurance.

Passing national health reform this year is my top priority because I have listened to Minnesotans across the State. They have told me, loud and clear, that the current health insurance system is not working for them. The Fairness in Health Insurance Act of 2009 is an important part of my health reform strategy that also in-

cludes cost containment, simplifying paperwork, focusing on prevention, pushing for a public option and making sure that all Americans have access to affordable, secure health insurance.

I urge my colleagues to work with me to ensure that these commonsense strategies are included in our health reform bill when it comes to the floor. Taken together, these elements will bring our country into a new era in which high-quality—and affordable—health care is a reality for all Americans.

Mr. President, I ask for unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1730

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Fairness in Health Insurance Act".

#### SEC. 2. REQUIREMENT OF MINIMUM LOSS RATIO OF 90 PERCENT FOR HEALTH INSURANCE COVERAGE.

(a) IN GENERAL.—A health insurance issuer shall not offer health insurance coverage unless the issuer demonstrates that such coverage has a medical loss ratio of at least 90 percent.

(b) MEDICAL LOSS RATIO.—

(1) IN GENERAL.—In this section, the term "medical loss ratio" has the meaning given such term by the Secretary of Health and Human Services. The Secretary shall establish a uniform definition of medical loss ratio and methodology for determining how to calculate the medical loss ratio. Such methodology shall take into account the circumstances of different plans and activities related to health services such as chronic disease management and quality assurance.

(2) REPORT.—Not later than December 31, 2010, the Secretary of Health and Human Services shall publish a report that describes the definition developed under paragraph (1) and the elements with respect to such definition.

(c) TRANSPARENCY.—

(1) SUBMISSION OF DATA.—Beginning in plan year 2011, a health insurance issuer shall provide the Secretary of Health and Human Services with data to enable the Secretary to determine whether the issuer is in compliance with subsection (a) with respect to health insurance coverage offered by such issuer.

(2) DEVELOPMENT OF ELEMENTS AND DEFINITIONS.—Not later than December 31, 2010, the Secretary of Health and Human Services shall develop, publish in a report, and implement the standardized data elements and definitions to be used by health insurance issuers in the reporting of data necessary for the calculation of the medical loss ratio under paragraph (1).

(d) REBATES.—Each health insurance issuer that offers health insurance coverage shall provide that for any plan year in which the coverage has a medical loss ratio below 90 percent, the issuer shall provide, in a manner specified by the Secretary, for rebates to enrollees of payments sufficient with respect to such loss ratio.

(e) ENFORCEMENT.—The Secretary shall promulgate regulations for enforcing the

provisions of this section and may provide for appropriate penalties.

(f) DEFINITION.—In this section, the terms "health insurance coverage" and "health insurance issuer" shall have the meanings given such terms in section 2791 of the Public Health Service Act (42 U.S.C. 300gg-91).

By Mr. REED (for himself, Mr. DURBIN, Mr. WHITEHOUSE, and Mr. MERKLEY):

S. 1731. A bill to require certain mortgagees to make loan modifications, to establish a grant program for State and local government mediation programs, to create databases on foreclosures, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Mr. REED. Mr. President, today I introduce the Preserving Homes and Communities Act of 2009. I thank Senators DURBIN, WHITEHOUSE, and MERKLEY for joining me as original cosponsors of this bill. In the last year the Federal Government has taken decisive action and devoted substantial financial resources to shoring up financial markets, averting a potential national and global financial meltdown. However, the current foreclosure crisis continues to pose a threat to the wellbeing of individual families, local communities, and the broader economy. We must take similarly aggressive actions to stabilize the housing markets.

Despite efforts to forestall the current crisis, the number of foreclosures is alarming. A reported 1.5 million properties were in the foreclosure process during the first 6 months of 2009, on pace to surpass last year's foreclosure filings by more than a third. Meanwhile, economist Mark Zandi suggests that the number of mortgages in default could rise to 4 million this year.

The situation in my own State of Rhode Island is particularly dire. Moody's Economy.com reports that 22 percent of Rhode Island mortgages are underwater, and the State has the highest rate of foreclosure starts in New England. More than one in eight mortgages are at least one payment past due, suggesting that the situation may be getting worse. Indeed, as foreclosures dipped nationally in August, they continued to rise in Rhode Island.

These numbers are more than statistics. They represent children uprooted from schools, life savings evaporated, and families faced with the daunting prospect of starting over. For communities, these numbers can translate into cycles of blight, disinvestment, and crime that weaken neighborhoods and damage the property values of the families struggling to retain their homes.

This did not happen overnight. As we all know, during the past several years, housing prices in cities and States around the country far outpaced any increase in wages. Some families stretched themselves financially to become homeowners, but many others

were steered towards alternative or exotic mortgage loan products to purchase their homes. However, as home prices have declined, many people who took out these and other exotic loans are now finding they owe more than the value of their property and that they cannot sustain the sharp monthly payment increases their alternative mortgages require.

However, as unemployment has risen, so has the number of foreclosures among homeowners with more traditional mortgages. According to the Mortgage Bankers Association, more than a third of the overall increase in the start of foreclosures in the second quarter was attributable to prime, fixed rate loans. More and more households are finding that even with a fixed rate mortgage that they could afford in normal times, they are just one pink slip away from losing their biggest investment.

I am introducing the Preserving Homes and Communities Act to address this crisis. First, it establishes a new mortgage payment assistance program to help homeowners who, with temporary financial assistance, would be able to hold onto their homes. Specifically, it authorizes \$6.375 billion in formula funding to enable states to offer grants or subsidized loan funds to qualified families who have suffered significant decreases in income. My bill outlines requirements to ensure that states will carefully steward Federal dollars by evaluating applicants' prospects for future employment, targeting middle class homeowners, prohibiting payments that reward predatory lenders, and capping maximum loan or grant amounts. Yet the criteria are flexible enough that states can design programs that will most effectively meet local needs.

My bill also takes aim at the slow progress that servicers and lenders have made in implementing the administration's foreclosure prevention programs. A September report on the Home Affordable Modification Program indicated that just 12 percent of eligible homeowners with delinquent mortgages had been granted trial modifications. Too many homeowners are waiting too long—weeks, months, or longer—to get answers to their loan modification applications. In the meantime, they are still subject to costly foreclosure proceedings that can make it more difficult for them to eventually qualify for assistance.

The Preserving Homes and Communities Act creates an incentive for lenders to more quickly evaluate whether homeowners qualify for modifications by requiring that homeowners be evaluated for a loan modification that conforms with the Administration's programs before a bank can initiate foreclosure. It also states that homeowners who qualify must be offered a modification. My bill prevents

costly fees from piling up while qualified homeowners wait to be granted more affordable mortgages, and no longer will homeowners be left out in the cold if their particular loan servicer chooses not to participate in the government program. And if lenders fail to follow the rules, this bill will allow homeowners to use servicers' noncompliance as a defense to foreclosure. The bill also places prudent limits on the fees that homeowners can be charged—particularly foreclosure-related fees.

My legislation provides \$80 million as an incentive for more States and local governments to create strong mediation programs, an additional tool to help homeowners facing foreclosure. Mediation programs allow homeowners and servicers to meet, face to face, to try to find an alternative to foreclosure. These programs have shown promise in several state and local settings for helping homeowners avoid foreclosure, and this legislation will provide matching funds to help establish new mediation initiatives. This bill also sets aside \$5 million for the creation of a Federal database on defaults and foreclosures to improve oversight of public and private efforts to sustain homeownership.

Finally, we know that these tough economic times are impacting renters as well. Competition for already-scarce affordable housing has increased. With the poverty rate at its highest level in 11 years, more individuals and families with limited incomes are at risk of homelessness. For this reason, the Preserving Homes and Communities Act uses proceeds from the warrant provisions I crafted for the financial rescue package to capitalize the National Housing Trust Fund. These warrant provisions are allowing taxpayers to benefit from the upside of our investments in faltering financial institutions. My view is that some of these returns from providing a firmer foundation for our financial institutions would be put to good use by providing a firmer foundation for affordable housing in our country. The National Housing Trust Fund, which I worked to establish in the Housing and Economic Recovery Act, will enable the building, preservation, and rehabilitation of affordable housing.

I am introducing the Preserving Homes and Communities Act because when homes get foreclosed on, it does not just affect individual borrowers and lenders. Whole neighborhoods pay the price. Housing industry experts estimate that for every foreclosure within an eighth of a mile of a house, two and a half city blocks in every direction, the property value of surrounding homes drops by about 1 percent.

I believe that the Federal Government has a role to play in ensuring that millions of Americans, including neighbors who avoided risky loans and

have sacrificed and saved to pay their bills on time, are protected from further declines in property values and the blight of abandoned homes.

This legislation is targeted relief that will help more families keep their homes and protect communities from even greater losses. The Preserving Homes and Communities Act will set us on the path to stabilizing the housing sector as a foundation of lasting economic recovery. I hope my colleagues will join me and Senators DURBIN, WHITEHOUSE, and MERKLEY in supporting this bill and other foreclosure prevention efforts.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1731

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Preserving Homes and Communities Act of 2009".

#### SEC. 2. LOAN MODIFICATION REQUIREMENTS.

(a) DEFINITIONS.—In this section—

(1) the term "covered mortgagee" means—

(A) a mortgagee under a federally related mortgage loan; and

(B) the agent of a mortgagee under a federally related mortgage loan;

(2) the term "covered mortgagor" means an individual who is a mortgagor under a federally related mortgage loan—

(A) made by a covered mortgagee;

(B) secured by the principal residence of the mortgagor; and

(C) on which the mortgagor cannot make payments due to financial hardship, as determined by the Secretary;

(3) the term "federally related mortgage loan" has the same meaning as in section 3 of the Real Estate Settlement Procedures Act of 1974 (12 U.S.C. 2602);

(4) the term "home loan modification protocol" means a home loan modification protocol that is developed under a home loan modification program put into effect by the Secretary of the Treasury or the Secretary;

(5) the term "qualified loan modification" means a modification to the terms of a mortgage agreement between a covered mortgagee and a covered mortgagor that is made pursuant to a determination by the covered mortgagee using a home loan modification protocol that a modification would produce a greater net present value than foreclosure to—

(A) the covered mortgagee; or

(B) in the aggregate, all persons that hold an interest in the mortgage agreement; and

(6) the term "Secretary" means the Secretary of Housing and Urban Development.

(b) LOAN MODIFICATION REQUIRED.—

(1) IN GENERAL.—A covered mortgagee may not initiate or continue a foreclosure proceeding against a covered mortgagor that is otherwise authorized under State law unless—

(A) the covered mortgagee has determined whether the covered mortgagor is eligible for a qualified loan modification;

(B) in the case of a covered mortgagor who the covered mortgagee determines is eligible for a qualified loan modification, the covered mortgagee has offered a qualified loan modification to the covered mortgagor; and

(C) in the case of a covered mortgagor who the covered mortgagee determines is not eligible for a qualified loan modification, the covered mortgagee has made available to the covered mortgagor the note, deed of trust, or any other document necessary to establish the right of the mortgagee to foreclose on the mortgage.

(2) NO WAIVER OF RIGHTS.—A covered mortgagee may not require a covered mortgagor to waive any right of the covered mortgagor as a condition of making a qualified loan modification.

(3) SALE OF REAL PROPERTY SECURING MORTGAGE.—

(A) SALE.—A covered mortgagee may not sell the real property securing the mortgage of a covered mortgagor unless the covered mortgagee submits to the appropriate State entity in the State in which the real property is located, a certification that the covered mortgagee has made a determination under paragraph (1)(A).

(B) ACTION BY PURCHASER.—A person that purchases from a covered mortgagee the real property securing the mortgage of a covered mortgagor may not recover possession of the real property unless the covered mortgagee submits to the appropriate State entity in the State in which the real property is located, a certification that the covered mortgagee has made a determination under paragraph (1)(A).

(C) CERTIFICATION STANDARDS.—The Secretary shall establish minimum standards for the certification required under this paragraph.

(4) DEFENSE TO FORECLOSURE.—Failure to comply with this subsection shall be a defense to foreclosure.

(5) RULE OF CONSTRUCTION.—Nothing in this subsection may be construed to prevent a covered mortgagee from offering or making a loan modification with a lower payment, lower interest rate, or principal reduction beyond that required by a modification made using a home loan modification protocol with respect to a covered mortgagor.

(C) FEES PROHIBITED.—

(1) LOAN MODIFICATION FEES PROHIBITED.—A covered mortgagee may not charge a fee to a covered mortgagor for carrying out the requirements under subsection (b).

(2) FORECLOSURE-RELATED FEES.—

(A) IN GENERAL.—Except as provided in subparagraph (B), a mortgagee may not charge a foreclosure-related fee to a mortgagor before—

(i) the mortgagee has made a determination under subsection (b)(1); and

(ii) the mortgage has entered the foreclosure process.

(B) DELINQUENCY FEES.—A mortgagee may charge a delinquency fee for late payment by the mortgagor.

(3) FEES NOT IN CONTRACT.—A mortgagee may charge to a mortgagor only such fees as have been specified in advance by the mortgage agreement.

(4) FEES FOR EXPENSES INCURRED.—A mortgagee may charge a fee to a mortgagor only for services actually performed by the mortgagee or a third party in relation to the mortgage agreement. For purposes of this paragraph, the term “third party” does not include an affiliate or subsidiary of the mortgagee.

(5) PENALTY.—The Secretary shall collect from any mortgagee that charges a fee in violation of this subsection an amount equal to \$6,000 for each such fee.

(d) REGULATIONS.—Not later than 3 months after the date of enactment of this Act, the Secretary shall issue by notice any require-

ments to carry out this section. The Secretary shall subsequently issue, after notice and comment, final regulations to carry out this section.

### SEC. 3. GRANTS TO STATES TO ASSIST HOMEOWNERS IN DEFAULT.

Section 106 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701x) is amended by adding at the end the following:

“(g) GRANTS TO STATES TO ASSIST HOMEOWNERS IN DEFAULT.—

“(1) DEFINITIONS.—In this subsection—

“(A) the term ‘eligible agency’ means a State housing finance agency or an agency designated by the State as an eligible agency;

“(B) the term ‘eligible homeowner’ means a mortgagor who—

“(i) is a permanent resident of the State in which the principal residence of the mortgagor is located;

“(ii) agrees to seek counseling from a counseling agency approved by the Secretary if the eligible homeowner receives a loan or grant made using funds under this subsection;

“(iii) is suffering from financial hardship which is unexpected or due to circumstances beyond the control of the mortgagor;

“(iv) is unable to correct any delinquency on any amounts past due on the home loan of such mortgagor within a reasonable time without financial assistance;

“(v) has requested a loan modification from the mortgagee;

“(vi) is unable to make full payment on any home loan payment due for all liens within the 30-day period following the date of the application by the mortgagor for a loan or grant using funds under this subsection;

“(vii) the eligible agency determines has a reasonable probability of resuming full payments due for all liens on the mortgage of such mortgagor not later than 15 months after the date on which the mortgagor receives a loan or grant using funds under this subsection; and

“(viii) has not previously received a loan or grant using funds under this subsection; and

“(C) the term ‘mortgagor’ means a mortgagor under a mortgage—

“(i) secured by a 1- to 4-family owner-occupied residence (including a 1-family unit in a condominium project and a membership interest and occupancy agreement in a cooperative housing project) that is used as the principal residence of the mortgagor;

“(ii) with an interest rate that does not exceed the prime rate of interest at the time of loan origination, as such prime rate is determined by not less than 75 percent of the 30 largest depository institutions in the United States; and

“(iii) for an amount that does not exceed the conforming loan limit for conventional mortgages, as determined under section 302(b)(2) of the Federal National Mortgage Association Charter Act (12 U.S.C. 1717(b)(2)).

“(2) GRANT PROGRAM ESTABLISHED.—The Secretary shall award grants to eligible agencies, to enable eligible agencies to provide—

“(A) 1-time emergency grants or subsidized loans to eligible homeowners to assist such eligible homeowners in satisfying any amounts past due on their home loans;

“(B) grants or subsidized loans to eligible homeowners for a specified number of future mortgage payments by the eligible homeowners; and

“(C) stipends of not more than \$1,500 to assist with relocation expenses for homeowners not eligible for the program.

“(3) ADDITIONAL SERVICES PROVIDED BY ELIGIBLE AGENCY.—An eligible agency that receives a grant under this subsection shall provide—

“(A) a readily accessible source for information on, and referral to, public services available to assist a homeowner who is in default on their home loan;

“(B) a homeowner with referrals to counseling agencies approved by the Department of Housing and Urban Development that may be able to assist that homeowner, if that homeowner is in default on their home loan;

“(C) information to homeowners on available community resources relating to homeownership, including—

“(i) public assistance or benefits programs;

“(ii) mortgage assistance programs, including programs that help homeowners prepare documents for loan modification applications;

“(iii) home repair assistance programs;

“(iv) legal assistance programs;

“(v) utility assistance programs;

“(vi) food assistance programs; and

“(vii) other Federal, State, or local government funded social services; and

“(D) staff who—

“(i) are able to conduct a brief assessment of the situation of a homeowner; and

“(ii) based on such assessment, make appropriate referrals to, and provide application information regarding, programs that can provide assistance to such homeowner.

“(4) FORMULA.—Not later than 3 months after the date of enactment of the Preserving Homes and Communities Act of 2009, the Secretary shall develop a formula for the award of funds under this subsection that includes the following factors:

“(A) The population of the State, as determined by the Bureau of the Census in most recent estimate of the resident population of the State.

“(B) The rate of mortgages in the State that are delinquent more than 90 days.

“(C) The ratio of foreclosures to owner-occupied households in the State.

“(D) The change, if any, in the rate of unemployment in the State between 2007 and 2008.

“(5) PROGRAM REQUIREMENTS.—

“(A) SELECTION CRITERIA.—

“(i) IN GENERAL.—Each eligible entity that receives a grant under this subsection shall develop selection criteria for eligible homeowners seeking a grant or subsidized loan under this subsection.

“(ii) INCOME REPORTING.—A mortgagor that receives a grant or subsidized loan under this subsection shall be required, in accordance with criteria prescribed by the eligible agency, to report any increase in income.

“(B) LOAN REQUIREMENTS.—

“(i) INTEREST RATE.—Any loan made using a grant under this subsection shall carry a simple annual percentage rate of interest which shall not exceed the prime rate of interest, as such prime rate is determined from time to time by not less than 75 percent of the 30 largest depository institutions in the United States.

“(ii) COMPOUND INTEREST PROHIBITED.—Interest on the outstanding principal balance of any loan under this subsection shall not compound.

“(iii) BALANCE DUE.—

“(I) IN GENERAL.—The principal of any loan made under this paragraph, including any interest accrued on such principal, shall not be due and payable unless the real property securing such loan is sold or transferred.

“(II) DEPOSIT OF BALANCE DUE.—If an event described in subclause (I) occurs, the principal of any loan made under this subsection,

including any interest accrued on such principal, shall immediately become due and payable to the eligible agency from which the loan originated.

“(iv) PREPAYMENT.—Any eligible homeowner who receives a loan using a grant made under this subsection may repay the loan in full, without penalty, by lump sum or by installment payments, at any time prior to the loan becoming due and payable.

“(v) MAXIMUM AMOUNT.—The amount of any loan to any 1 eligible homeowner under this subsection may not exceed 20 percent of the original mortgage amount borrowed by the eligible homeowner.

“(vi) SUBORDINATION.—Any loan made using a grant under this subsection will be subordinated to any refinancing of the first mortgage, any preexisting subordinate financing, any purchase money mortgage, or subordinated for any other reason, as determined by the eligible agency.

“(6) SEPARATE ACCOUNT.—

“(A) SEPARATE ACCOUNT.—An eligible agency that receives a grant under this subsection shall establish a separate account in which to hold amounts received under this subsection.

“(B) REPAYMENT OF LOANS.—Any amounts repaid on a subsidized loan made under this subsection shall be deposited in the account established under subparagraph (A).

“(C) OTHER FUNDING.—Amounts donated or otherwise directed to be used for purposes of this subsection may be deposited in the account established under subparagraph (A) to help capitalize such account.

“(7) USE OF GRANT FUNDS.—

“(A) IN GENERAL.—Subject to subparagraph (B), any amounts made available for purposes of this subsection may be used only for the purposes described in paragraph (2).

“(B) EXCEPTION FOR ADMINISTRATIVE COSTS.—An eligible agency may use not more than 5 percent of any funds received under this subsection for administrative costs relating to activities carried out under paragraph (2).

“(8) EXISTING LOAN FUNDS.—Any eligible agency with a previously existing fund established to make loans to assist homeowners in satisfying any amounts past due on their home loan or for future payments may use funds appropriated for purposes of this subsection for that existing loan fund, even if the eligibility, application, program, or use requirements for that loan program differ from the eligibility, application, program, and use requirements of this subsection, unless such use is expressly determined by the Secretary to be inappropriate.

“(9) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section—

“(A) \$6,375,000,000 for fiscal year 2010; and

“(B) such sums as may be necessary for each of fiscal years 2011 through 2013.”.

#### SEC. 4. MEDIATION INITIATIVES.

(a) DEFINITIONS.—In this section—

(1) the term “mortgagee” includes the agent of a mortgagee; and

(2) the term “Secretary” means the Secretary of Housing and Urban Development.

(b) GRANT PROGRAM ESTABLISHED.—The Secretary shall establish a grant program to make competitive grants to State and local governments to establish mediation programs that assist mortgagors facing foreclosure.

(c) MEDIATION PROGRAMS.—A mediation program established using a grant under this section shall—

(1) require participation in the program by—

(A) any mortgagee that initiates a foreclosure proceeding; and

(B) any mortgagor who is subject to a foreclosure proceeding;

(2) require any mortgagee or mortgagor required to participate in the program to make a good faith effort to resolve issues relating to foreclosure proceedings through mediation;

(3) if mediation is not made available to the mortgagor before a foreclosure proceeding is initiated, allow the mortgagor to request mediation at any time before a foreclosure sale;

(4) provide for—

(A) supervision by a State court (or a State court in conjunction with an agency or department of a State or local government) of the mediation program;

(B) selection and training of neutral, third-party mediators by a State court (or an agency or department of the State or local government);

(C) penalties to be imposed by a State court, or an agency or department of a State or local government, if a mortgagee fails to comply with an order to participate in mediation; and

(D) consideration by a State court (or an agency or department of a State or local government) of recommendations by a mediator relating to penalties for failure to fulfill the requirements of the mediation program;

(5) require that each mortgagee that participates in the mediation program make available to the mortgagor, before and during participation in the mediation program, documentation of—

(A) a loan modification calculation or net present value calculation made by the mortgagee in relation to the mortgage using a home loan modification protocol—

(i) developed under a home loan modification program put into effect by the Secretary of the Treasury or the Secretary; or

(ii) approved by the Secretary;

(B) the loan origination, including any note, deed of trust, or other document necessary to establish the right of the mortgagee to foreclose on the mortgage;

(C) any pooling and servicing agreement that the mortgagee believes prohibits a loan modification;

(D) the payment history of the mortgagor and a detailed accounting of any costs or fees associated with the account of the mortgagor; and

(E) the specific alternatives to foreclosure considered by the mortgagee, including loan modifications, workout agreements, and short sales;

(6) prohibit a mortgagee from shifting the costs of participation in the mediation program, including the attorney's fees of the mortgagee, to a mortgagor;

(7) provide that—

(A) any holder of a junior lien against the property that secures a mortgage that is the subject of a mediation—

(i) be notified of the mediation; and

(ii) be permitted to participate in the mediation; and

(B) any proceeding initiated by a holder of a junior lien against the property that secures a mortgage that is the subject of a mediation be stayed pending the mediation;

(8) provide information to mortgagors about housing counselors approved by the Secretary; and

(9) be free of charge to the mortgagor and mortgagee.

(d) RECORD KEEPING.—A State or local government that receives a grant under this section shall keep a record of the outcome of

each mediation carried out under the mediation program, including the nature of any loan modification made as a result of participation in the mediation program.

(e) TARGETING.—A State that receives a grant under this section may establish—

(1) a State-wide mediation program; or

(2) a mediation program in a specific locality that the State determines has a high need for such program due to—

(A) the number of foreclosures in the locality; or

(B) other characteristics of the locality that contribute to the number of foreclosures in the locality.

(f) FEDERAL SHARE.—The Federal share of the cost of a mediation program established using a grant under this section may not exceed 50 percent.

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section—

(1) \$80,000,000 for fiscal year 2010; and

(2) such sums as may be necessary for each of fiscal years 2011 through 2013.

#### SEC. 5. OVERSIGHT OF PUBLIC AND PRIVATE EFFORTS TO REDUCE MORTGAGE DEFAULTS AND FORECLOSURES.

(a) DEFINITIONS.—In this section—

(1) the term “heads of appropriate agencies” means the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the National Credit Union Administration, the Director of the Office of Thrift Supervision, and a representative of State banking regulators selected by the Secretary of Housing and Urban Development;

(2) the term “mortgagee” means—

(A) an original lender under a mortgage;

(B) any servicers, affiliates, agents, subsidiaries, successors, or assignees of an original lender; and

(C) any subsequent purchaser, trustee, or transferee of any mortgage or credit instrument issued by an original lender;

(3) the term “Secretary” means the Secretary of Housing and Urban Development; and

(4) the term “servicer” means any person who collects on a home loan, whether such person is the owner, the holder, the assignee, the nominee for the loan, or the beneficiary of a trust, or any person acting on behalf of such person.

(b) MONITORING OF HOME LOANS.—

(1) IN GENERAL.—The Secretary, in consultation with the heads of appropriate agencies, shall develop and implement a plan to monitor—

(A) conditions and trends in homeownership and the mortgage industry, in order to predict trends in foreclosures to better understand other critical aspects of the mortgage market; and

(B) the effectiveness of public efforts to reduce mortgage defaults and foreclosures.

(2) REPORT TO CONGRESS.—Not later than 1 year after the development of the plan under paragraph (1), and each year thereafter, the Secretary shall submit a report to Congress that—

(A) summarizes and describes the findings of the monitoring required under paragraph (1); and

(B) includes recommendations or proposals for legislative or administrative action necessary—

(i) to increase the authority of the Secretary to levy penalties against any mortgagee, or other person or entity, who fails to comply with the requirements described in this section;

(ii) to improve coordination between public and private initiatives to reduce the overall rate of mortgage defaults and foreclosures; and

(iii) to improve coordination between initiatives undertaken by Federal, State, and local governments.

(c) NATIONAL DATABASE ON DEFAULTS AND FORECLOSURES.—

(1) IN GENERAL.—The Secretary, in consultation with the heads of appropriate agencies, shall develop recommendations for a national database on mortgage defaults and foreclosures that—

(A) provides information to Federal regulatory agencies on—

(i) mortgagees that generate home loans that go into default or foreclosure at a rate significantly higher than the national average for such mortgagees;

(ii) the factors associated with such higher rates; and

(iii) other factors and indicators that the Secretary determines are critical to monitoring the mortgage markets; and

(B) provides information to Federal, State, and local governments on loans, defaults, foreclosure initiations, foreclosure completions, and sheriff sales that—

(i) is not otherwise readily available;

(ii) would allow for a better understanding of local, regional, and national trends in delinquencies, defaults, and foreclosures; and

(iii) helps improve public policies that reduce defaults and foreclosures.

(2) CONSIDERATIONS.—In developing the recommendations under paragraph (1), the Secretary shall take into consideration privacy concerns and legal issues relating to such concerns, including the advisability of establishing rules relating to access to information obtained under subsection (d).

(3) REPORT TO CONGRESS ON NATIONAL DATABASE.—Not later than 12 months after the date of enactment of this Act, the Secretary shall submit a report to Congress that contains—

(A) the recommendations developed under paragraph (1); and

(B) an estimate of the cost of maintaining the database described in paragraph (1).

(d) PROVISION OF DATA.—

(1) DATA REPORT REQUIRED.—Not later than 18 months after the date of enactment of this Act, the Secretary, in consultation with the heads of appropriate agencies, shall issue final rules that require each mortgagee or servicer that originates or services not fewer than 100 loans in a calendar year (or any other person that the Secretary determines can effectively provide the data described in paragraph (2)) to submit a report to the Secretary not less frequently than once each quarter that contains data the Secretary determines are necessary to carry out this section.

(2) CONTENTS OF REPORT.—Each report submitted under paragraph (1) shall contain data that—

(A) for each loan, use the identification requirements that are established under the Home Mortgage Disclosure Act (12 U.S.C. 2801 et seq.) for data reporting, including—

(i) the year of origination;

(ii) the agency code of the originator;

(iii) the respondent identification number of the originator; and

(iv) the identifying number for the loan;

(B) describe the characteristics of each home loan originated in the preceding 12 months by the mortgagee or servicer (or, in the case of the first report required to be submitted under this subsection, all active loans originated by the mortgagee or servicer), including—

(i) the loan-to-value ratio at the time of origination for each mortgage on the property;

(ii) the type of mortgage, such as a fixed-rate or adjustable-rate mortgage; and

(iii) any other loan or loan underwriting characteristics determined by the Secretary to be necessary in order to meet the requirements of paragraph (1) and that are not already available to the Secretary through a national mortgage database;

(C) include the performance outcome of each home loan originated in the preceding 12 months by the mortgagee or servicer (or, in the case of the first report required to be submitted under this subsection, all active loans originated by the mortgagee or servicer), including—

(i) whether such home loan was in delinquency at any point in such 12-month period; and

(ii) whether any foreclosure proceeding was initiated on such home loan during such 12-month period;

(D) are sufficient to establish for each home loan that at any point during the preceding 12 months had become 60 or more days delinquent with respect to a payment on any amount due under the home loan, or for which a foreclosure proceeding was initiated, the interest rate on such home loan at the time of such delinquency or foreclosure;

(E) include information relating to foreclosures, including—

(i) the date of all foreclosures initiated by the mortgagee or servicer; and

(ii) the combined loan-to-value ratio of all mortgages on a home at the time foreclosure proceedings were initiated;

(F) for a home loan that is in foreclosure, include information on all actions, including loan modifications, taken to resolve the problem that led to the initiation of foreclosure proceedings and all actions undertaken prior to initiation of a foreclosure proceeding to resolve a delinquency or default;

(G) identify each home loan for which a foreclosure proceeding was completed in the preceding 12 months, including—

(i) foreclosure proceedings initiated in such 12-month period; and

(ii) the date of the foreclosure completion; and

(H) include any other information that the Secretary determines is necessary to carry out this section.

(3) COMPLIANCE PLAN AND REPORT.—The Secretary, in consultation with the heads of appropriate agencies, shall—

(A) develop a plan to monitor the compliance with the requirements established in this subsection by mortgagees and servicers; and

(B) submit to Congress a report on such plan.

(e) CONSOLIDATED DATABASE.—The Federal Financial Institutions Examination Council shall create a consolidated database that establishes a connection between the data provided under the Home Mortgage Disclosure Act (12 U.S.C. 2801 et seq.) and the data provided under this subsection.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section—

(1) \$5,000,000 for fiscal year 2010; and

(2) such sums as may be necessary for each of fiscal years 2011 through 2013.

#### SEC. 6. HOUSING TRUST FUND.

From funds received by the Secretary of the Treasury from the sale of warrants under title I of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5211 et seq.), the Secretary of the Treasury shall transfer and

credit \$1,000,000,000 to the Housing Trust Fund established under section 1338 of the Federal Housing Enterprises Financial Safety and Soundness Act of 1992 (12 U.S.C. 4568) for use in accordance with such section.

#### SUBMITTED RESOLUTIONS

#### SENATE RESOLUTION 294—COMMENDING THE LOUISIANA STATE UNIVERSITY TIGERS MEN'S BASEBALL TEAM FOR WINNING THE 2009 NATIONAL COLLEGIATE ATHLETIC ASSOCIATION COLLEGE WORLD SERIES

Ms. LANDRIEU (for herself and Mr. VITTER) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 294

Whereas, on June 24, 2009, the Louisiana State University Tigers men's baseball team won the 2009 National Collegiate Athletic Association College World Series with an 11-4 victory over the University of Texas at Johnny Rosenblatt Stadium in Omaha, Nebraska;

Whereas the Louisiana State University Tigers men's baseball team has won 6 national titles in 1991, 1993, 1996, 1997, 2000, and 2009;

Whereas the Louisiana State University Tigers men's baseball team ranks second in all-time College World Series titles;

Whereas, on May 24, 2009, the Louisiana State University Tigers men's baseball team won the 2009 Southeastern Conference Championship with a 6-2 victory over Vanderbilt University at Regions Park in Hoover, Alabama;

Whereas the Louisiana State University Tigers men's baseball team won 56 games during the 2009 season, the most wins by a national champion since 2005;

Whereas head coach Paul Maineri has won his first national title as a head coach in his third season at Louisiana State University;

Whereas outfielder Jared Mitchell was named Most Valuable Player of the 2009 College World Series;

Whereas second baseman D.J. LaMahieu, outfielder Jared Mitchell, outfielder Ryan Schimph, and pitcher Anthony Ranaudo were named to the College World Series All-Tournament Team;

Whereas pitcher Louis Coleman finished his senior year with 14 wins and was selected as a 2009 First Team All-American; and

Whereas by winning the sixth national championship in the history of the University, the Louisiana State University men's baseball team is once again the top-ranked men's college baseball team: Now, therefore, be it

*Resolved*, That the Senate—

(1) commends the Louisiana State University Tigers men's baseball team for winning the 2009 National Collegiate Athletic Association College World Series and being crowned national champions;

(2) recognizes the achievements of all players, coaches, and support staff who were instrumental in helping the Louisiana State University men's baseball team during the 2009 season;

(3) congratulates the citizens of Louisiana, the Louisiana State University community, and fans of Tigers baseball; and

(4) requests the Secretary of the Senate to transmit a copy of this resolution to Louisiana State University.

SENATE RESOLUTION 295—DESIGNATING OCTOBER 13, 2009, AS “NATIONAL METASTATIC BREAST CANCER AWARENESS DAY”

Mr. BAYH (for himself, Mr. LUGAR, Mr. DURBIN, Mr. INOUE, Mr. SCHUMER, Mr. SANDERS, Mr. RISCH, and Mr. FEINGOLD) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 295

Whereas metastatic breast cancer refers to stage IV breast cancer, when cancer cells travel from the breast, either through the bloodstream or the lymphatic system, to other parts of the body, including the bones, liver, lungs, or brain, and continue to grow in the new location;

Whereas in 2009, an estimated 192,370 women and 1,910 men in the United States will be diagnosed with invasive breast cancer, and 62,280 women will be diagnosed with in situ breast cancer;

Whereas nearly 30 percent of women diagnosed with early stage breast cancer will develop stage IV advanced or metastatic breast cancer;

Whereas in developing countries, the majority of women with breast cancer are diagnosed with advanced stage or metastatic disease;

Whereas the statistic that 155,000 women and men are presently living with metastatic breast cancer in the United States underscores the immediate need for increased public awareness;

Whereas there currently is no cure for metastatic breast cancer, and metastatic breast cancer frequently involves trying one treatment after another with the goal of extending the best quality of life as possible;

Whereas scientists and researchers are conducting important research projects to achieve breakthroughs in metastatic breast cancer research;

Whereas metastatic breast cancer is rarely discussed during National Breast Cancer Awareness Month, observed in October 2009, but those living with the disease should never feel isolated or ignored;

Whereas metastatic Breast Cancer Awareness Day emphasizes the urgent need for new, targeted breast cancer treatments that will provide a high quality of life and long life expectancy for patients by making stage IV cancer a chronic, but not fatal, disease; and

Whereas the Senate is an institution that can raise awareness in the general public and the medical community of breast cancer: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates October 13, 2009, as “National Metastatic Breast Cancer Awareness Day”;

(2) encourages all people of the United States to become more informed and aware of metastatic breast cancer; and

(3) respectfully requests the Secretary of the Senate to transmit a copy of this resolution to the Metastatic Breast Cancer Network.

SENATE RESOLUTION 296—DESIGNATING OCTOBER 2009 AS “NATIONAL WORK AND FAMILY MONTH”

Mrs. LINCOLN (for herself, Mr. CRAPO, and Mr. KOHL) submitted the

following resolution; which was referred to the Committee on the Judiciary:

S. RES. 296

Whereas, according to a report by WorldatWork, a nonprofit professional association with expertise in attracting, motivating, and retaining employees, the quality of workers' jobs and the supportiveness of their workplaces are key predictors of workers' job productivity, job satisfaction, and commitment to employers and of employers' ability to retain workers;

Whereas, according to the 2008 National Study of Employers by the Families and Work Institute, employees in more flexible and supportive workplaces are more effective employees, are more highly engaged and less likely to look for a new job in the next year, and enjoy better overall health, better mental health, and lower levels of stress than employees in workplaces that provide less flexibility and support;

Whereas, according to a 2004 report of the Families and Work Institute entitled “Overwork in America”, employees who are able to effectively balance family and work responsibilities are less likely to report making mistakes or feel resentment toward employers and coworkers;

Whereas, according to the “Best Places to Work in the Federal Government” rankings released by the Partnership for Public Service and American University's Institute for the Study of Public Policy Implementation, work-life balance and a family-friendly culture are among the key drivers of engagement and satisfaction for employees in the Federal workforce;

Whereas, according to a 2009 survey of college students by the Partnership for Public Service and Universum USA entitled “Great Expectations! What Students Want in an Employer and How Federal Agencies Can Deliver It”, attaining a healthy work-life balance was an important career goal of 66 percent of the students surveyed;

Whereas a 2008 study by the Partnership for Public Service entitled “A Golden Opportunity: Recruiting Baby Boomers into Government” revealed that workers between the ages of 50 and 65 are a strong source of experienced talent for the Federal workforce and that nearly 50 percent of workers in that age group find flexible work schedules “extremely appealing”;

Whereas finding a good work-life balance is important to workers in multiple generations;

Whereas employees who are able to effectively balance family and work responsibilities tend to feel healthier and more successful in their relationships with their spouses, children, and friends;

Whereas 85 percent of wage and salaried workers in the United States have immediate, day-to-day family responsibilities outside of their jobs;

Whereas, in 2000, research by the Radcliffe Public Policy Center revealed that men in their 20s and 30s and women in their 20s, 30s, and 40s identified a work schedule that allows them to spend time with their families as the most important job characteristic for them;

Whereas, according to the 2006 American Community Survey by the United States Census Bureau, 47 percent of wage and salaried workers in the United States are parents with children under the age of 18 who live with them at least half-time;

Whereas job flexibility often allows parents to be more involved in their children's lives and research demonstrates that paren-

tal involvement is associated with children's higher achievement in language and mathematics, improved behavior, greater academic persistence, and lower dropout rates;

Whereas the 2000 Urban Working Families study demonstrated that a lack of job flexibility for working parents negatively affects children's health in ways that range from children being unable to make needed doctors' appointments to children receiving inadequate early care, leading to more severe and prolonged illness;

Whereas, from 2001 to the beginning of 2008, 1,700,000 active duty troops served in Iraq and 600,000 members of the National Guard and Reserve (133,000 on more than one tour) were called up to serve in Iraq;

Whereas, because so many of those troops and National Guard and Reserve members have families, there needs to be a focus on policies and programs that can help military families adjust to the realities that come with having a family member in the military;

Whereas research by the Sloan Center for Aging and Work reveals that the majority of workers aged 53 and older attribute their success as an employee by a great or moderate extent to having access to flexibility in their jobs and that the majority of those workers also report that, to a great extent, flexibility options contribute to an overall higher quality of life;

Whereas studies show that 1/3 of children and adolescents in the United States are obese or overweight, and healthy lifestyle habits, including healthy eating and physical activity, can lower the risk of becoming obese and developing related diseases;

Whereas studies report that family rituals, such as sitting down to dinner together and sharing activities on weekends and holidays, positively influence children's health and development and that children who eat dinner with their families every day consume nearly a full serving more of fruits and vegetables per day than those who never eat dinner with their families or do so only occasionally;

Whereas unpaid family caregivers will likely continue to be the largest source of long-term care services in the United States for the elderly;

Whereas the Department of Health and Human Services anticipates that by 2050 the number of such caregivers will reach 37,000,000, an increase of 85 percent from 2000, as baby boomers reach retirement age in record numbers; and

Whereas the month of October is an appropriate month to designate as “National Work and Family Month”: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates October 2009 as “National Work and Family Month”;

(2) recognizes the importance of work schedules that allow employees to spend time with their families to job productivity and to healthy families;

(3) urges public officials, employers, employees, and the general public to work together to achieve more balance between work and family; and

(4) calls upon the people of the United States to observe National Work and Family Month with appropriate ceremonies and activities.

AMENDMENTS SUBMITTED AND PROPOSED

SA 2576. Mr. DORGAN submitted an amendment intended to be proposed by him

to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table.

SA 2577. Mr. CORKER submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2578. Mr. KAUFMAN (for himself, Mr. LUGAR, Mr. BAYH, and Mr. REED) submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2579. Mr. CORNYN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2580. Mr. MCCAIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2581. Mr. MCCAIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2582. Mr. MENENDEZ submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2583. Mr. MCCAIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2584. Mr. MCCAIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2585. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2586. Mr. CARDIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

SA 2587. Mr. KERRY (for himself and Mr. KIRK) submitted an amendment intended to be proposed by him to the bill H.R. 3326, supra; which was ordered to lie on the table.

#### TEXT OF AMENDMENTS

**SA 2576.** Mr. DORGAN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. (a) PROHIBITION ON USE OF FUNDS FOR CERTAIN CONTRACTS NOT INCLUDING HIRING PREFERENCES.—Subject to subsection (a), amounts appropriated or otherwise made available by this Act may not be obligated or expended on a contract for work within Iraq or Afghanistan unless such contract includes a preference on hiring for work under the contract in Iraq or Afghanistan, as applicable, for qualified citizens of the United States and qualified citizens of Iraq or Afghanistan, as applicable.

(b) WAIVER.—The Secretary of Defense may waive the application of the prohibition in subsection (a) to a contract if the Secretary determines that the waiver is in the national security interests of the United States.

**SA 2577.** Mr. CORKER submitted an amendment intended to be proposed by

him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. None of the amounts appropriated or otherwise made available by this Act for procurement of C-17 aircraft may be obligated or expended as follows:

(1) Until the congressionally-mandated study conducted by the Institute of Defense Analyses and the Mobility Capabilities and Requirements Study 2016 (MCRS-16) have each been submitted to Congress.

(2) Unless the Secretary of Defense determines that the findings of the studies referred to in paragraph (1) support the procurement of additional C-17 aircraft to meet national defense requirements.

**SA 2578.** Mr. KAUFMAN (for himself, Mr. LUGAR, Mr. BAYH, and Mr. REED) submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. The Secretary of Defense shall, in consultation with the Secretary of State and the Administrator of the United States Agency for International Development, continue to support requirements for monthly integrated civilian-military training for civilians deploying to Afghanistan at Camp Atterbury, Indiana, including through the allocation of military and civilian personnel, trainers, and other resources for that purpose.

**SA 2579.** Mr. CORNYN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. Of the amount appropriated or otherwise made available by title IV under the heading "RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, ARMY", \$1,000,000 may be available for the development of Next Generation Flame-Resistant Fabric Technology.

**SA 2580.** Mr. MCCAIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. The amount appropriated by title III under the heading "AIRCRAFT PROCUREMENT, AIR FORCE" is hereby reduced by \$2,500,000,000, the amount equal to the amount by which the amount available under that heading for the procurement of C-

17 aircraft exceeds the amount requested by the President in the budget for the Department of Defense for fiscal year 2010 for the procurement of such aircraft.

**SA 2581.** Mr. MCCAIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. (a) ADDITIONAL AMOUNT FOR OPERATION AND MAINTENANCE GENERALLY.—The amount appropriated by title II for Operation and Maintenance is hereby increased by \$2,438,403,000, in accordance with amounts requested by the President in the budget for the Department of Defense for fiscal year 2010.

(b) AVAILABILITY FOR OPERATION AND MAINTENANCE, ARMY, FOR OVERSEAS CONTINGENCY OPERATIONS.—The amount appropriated by title IX under the heading "OPERATION AND MAINTENANCE, ARMY", is hereby increased by \$61,597,000.

(c) SOURCE OF INCREASES.—Amounts for the increases made by subsections (a) and (b) shall be derived from a reduction in amounts previously appropriated by this Act for the procurement of C-17 aircraft that was achieved by the adoption of Senate Amendment No. 2580.

**SA 2582.** Mr. MENENDEZ submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. (a) ADDITIONAL AMOUNT FOR OVARIAN CANCER RESEARCH PROGRAM.—

(1) ADDITIONAL AMOUNT.—The amount appropriated or otherwise made available by this Act for the peer-reviewed Ovarian Cancer Research Program of the Department of Defense is hereby increased by \$10,000,000.

(2) SUPPLEMENT NOT SUPPLANT.—The amount available under paragraph (1) for the program referred to in that paragraph is in addition to any other amounts available in this Act for that program.

(b) OFFSET.—The amount appropriated by title IV for Research, Development, Test, and Evaluation is hereby reduced by \$10,000,000.

**SA 2583.** Mr. MCCAIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. (a) MARIAH HYPERSONIC WIND TUNNEL DEVELOPMENT PROGRAM.—The amount appropriated by title IV under the heading "RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, ARMY" is hereby reduced by \$9,500,000, with the amount of the reduction to be allocated to amounts available for

the MARIAH Hypersonic Wind Tunnel Development Program.

**SA 2584.** Mr. MCCAIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. (a) ADDITIONAL AMOUNT FOR OPERATION AND MAINTENANCE GENERALLY.—The amount appropriated by title II for Operation and Maintenance is hereby increased by \$2,438,403,000, in accordance with amounts requested by the President in the budget for the Department of Defense for fiscal year 2010.

(b) AVAILABILITY FOR OPERATION AND MAINTENANCE, ARMY, FOR OVERSEAS CONTINGENCY OPERATIONS.—The amount appropriated by title IX under the heading "OPERATION AND MAINTENANCE, ARMY", is hereby increased by \$61,597,000.

**SA 2585.** Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 239, beginning on line 22, strike "\$294,000,000" and all that follows through "\$236,000,000" and insert "\$194,000,000, the total amount appropriated in title III of this Act is hereby reduced by \$322,000,000, the total amount appropriated in title IV of this Act is hereby reduced by \$336,000,000".

**SA 2586.** Mr. CARDIN submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. Of the amount appropriated or otherwise made available by title IV under the heading "RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE", up to \$3,500,000 may be available for Integrated Chemical and Biological Detection System Technology.

**SA 2587.** Mr. KERRY (for himself and Mr. KIRK) submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. Of the amount appropriated or otherwise made available by title II under the heading "OPERATION AND MAINTENANCE, NAVY", up to \$1,600,000 may be available for the Combined Mishap Reduction System/ Joint Safety Climate Assessment Survey.

## AUTHORITY FOR COMMITTEES TO MEET

### COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

Mr. NELSON of Nebraska. Mr. President, I ask unanimous consent that the Committee on Agriculture, Nutrition, and Forestry be authorized to meet during the session of the Senate on September 30, 2009, at 9:45 a.m. in room 328A of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

### COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. NELSON of Nebraska. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on September 30, 2009, at 2:30 p.m., to conduct a hearing entitled "International Cooperation to Modernize Financial Regulation."

The PRESIDING OFFICER. Without objection, it is so ordered.

### COMMITTEE ON FINANCE

Mr. NELSON of Nebraska. Mr. President, I ask unanimous consent that the Committee on Finance be authorized to meet during the session of the Senate on September 30, 2009, at 10 a.m., in room 216 of the Hart Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

### COMMITTEE ON FOREIGN RELATIONS

Mr. NELSON of Nebraska. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on September 30, 2009, at 10:15 a.m., to hold a hearing entitled "Exploring U.S. Policy Options towards Zimbabwe's Transition."

The PRESIDING OFFICER. Without objection, it is so ordered.

### COMMITTEE ON HEALTH, EDUCATION, LABOR, AND PENSIONS

Mr. NELSON of Nebraska. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be authorized to meet during the session of the Senate on September 30, 2009, at 10 a.m. in SD-430.

The PRESIDING OFFICER. Without objection, it is so ordered.

### COMMITTEE ON HOMELAND SECURITY AND GOVERNMENTAL AFFAIRS

Mr. NELSON of Nebraska. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs be authorized to meet during the session of the Senate on September 30, 2009, at 10 a.m. to conduct a hearing entitled "Eight Years After 9/11: Confronting the Terrorist Threat to the Homeland."

The PRESIDING OFFICER. Without objection, it is so ordered.

### COMMITTEE ON THE JUDICIARY

Mr. NELSON of Nebraska. Mr. President, I ask unanimous consent that the

Committee on the Judiciary be authorized to meet during the session of the Senate, on September 30, 2009, at 10 a.m., in room SD-226 of the Dirksen Senate Office Building, to conduct a hearing entitled "Advancing Freedom of Information in the New Era of Responsibility."

The PRESIDING OFFICER. Without objection, it is so ordered.

### COMMITTEE ON FOREIGN RELATIONS

Mr. NELSON of Nebraska. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on September 30, 2009, at 2:30 p.m., to hold a hearing entitled "U.S. Policy toward Burma: Its Impact and Effectiveness."

The PRESIDING OFFICER. Without objection, it is so ordered.

### COMMITTEE ON VETERANS' AFFAIRS

Mr. NELSON of Nebraska. Mr. President, I ask unanimous consent that the Committee on Veterans' Affairs be authorized to meet during the session of the Senate on September 30, 2009. The Committee will meet in room 412 of the Russell Senate Office Building beginning at 9:30 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

### SUBCOMMITTEE ON ADMINISTRATIVE OVERSIGHT AND THE COURTS

Mr. NELSON of Nebraska. Mr. President, I ask unanimous consent that the Committee on the Judiciary, Subcommittee on Administrative Oversight and the Courts, be authorized to meet during the session of the Senate, on September 30, 2009, at 2:30 p.m., in room SD-226 of the Dirksen Senate Office Building, to conduct a hearing entitled "Responding to the Growing Need for Federal Judgeships: The Federal Judgeship Act of 2009."

The PRESIDING OFFICER. Without objection, it is so ordered.

### SUBCOMMITTEE ON FEDERAL FINANCIAL MANAGEMENT, GOVERNMENT INFORMATION, FEDERAL SERVICES, AND INTERNATIONAL SECURITY

Mr. NELSON of Nebraska. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs' Subcommittee on Federal Financial Management, Government Information, Federal Services, and International Security be authorized to meet during the session of the Senate on September 30, 2009, at 3 p.m. to conduct a hearing entitled, "A Prescription for Waste: Controlled Substance Abuse in Medicaid."

The PRESIDING OFFICER. Without objection, it is so ordered.

### SPECIAL COMMITTEE ON AGING

Mr. NELSON of Nebraska. Mr. President, I ask unanimous consent that the Special Committee on Aging be authorized to meet during the session of the Senate on September 30, 2009, from 11 a.m.-12:30 p.m. in room SD-106 of the Dirksen Senate Office building.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### SICKLE CELL DISEASE AWARENESS MONTH

Mr. BEGICH. I ask unanimous consent that the Senate proceed to the immediate consideration of H. Con. Res. 186, which was received from the House.

The PRESIDING OFFICER. The clerk will report the concurrent resolution by title.

The assistant legislative clerk read as follows:

A concurrent resolution (H. Con. Res. 186) supporting the goals and ideals of Sickle Cell Disease Awareness Month.

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mr. BEGICH. I ask unanimous consent that the concurrent resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The concurrent resolution (H. Con. Res. 186) was agreed to.

The preamble was agreed to.

#### ORDERS FOR THURSDAY, OCTOBER 1, 2009

Mr. BEGICH. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 9:30 a.m. tomorrow, Thursday, October 1; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate then proceed to a period of morning business for 90 minutes, with Senators permitted to speak therein for up to 10 minutes each, with the time equally divided and controlled between the two leaders or their designees, with the majority controlling the first half and the Republicans controlling the final half; that following morning business, the Senate resume consideration of H.R. 3326, Defense appropriations.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

Mr. BEGICH. If there is no further business to come before the Senate, I ask unanimous consent that it stand adjourned under the previous order.

There being no objection, the Senate, at 8:02 p.m., adjourned until Thursday, October 1, 2009, at 9:30 a.m.

#### NOMINATIONS

Executive nominations received by the Senate:

#### THE JUDICIARY

LOUIS B. BUTLER, JR., OF WISCONSIN, TO BE UNITED STATES DISTRICT JUDGE FOR THE WESTERN DISTRICT OF WISCONSIN, VICE JOHN C. SHABAZ, RETIRED.

THE SENIOR FOREIGN SERVICE, CLASS OF MINISTER-  
COUNSELOR, TO BE AMBASSADOR EXTRAORDINARY AND  
PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA  
TO UKRAINE.

## HOUSE OF REPRESENTATIVES—Wednesday, September 30, 2009

The House met at 10 a.m. and was called to order by the Speaker.

### PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Lord God, as a Nation who believes in Your Divine providence, we have seen Your right hand guide us in the past. Time and time again our Union has been tested by economic threat, civil demonstration, war, natural disaster, misdeeds and negligence of the past, as well as foreign attacks.

During these days, we place our trust in You again. Humbled by the complexity and varied issues that face this Nation, we beg for Your wisdom to guide us, prudence to make good judgments, patience to deal with one another, perseverance toward the goal of justice, and compassion for those most in need.

By these virtues, Lord, manifest Your presence in our midst. This we ask now and forever.

Amen.

### THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

### PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from Kentucky (Mr. GUTHRIE) come forward and lead the House in the Pledge of Allegiance.

Mr. GUTHRIE led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

### EMPLOYER-OWNED LIFE INSURANCE LIMITATION ACT

(Mr. GUTIERREZ asked and was given permission to address the House for 1 minute.)

Mr. GUTIERREZ. Today I told my staff, I have good news and bad news.

The bad news is that I had to cancel their health insurance policy. It was just too expensive. But here's the good news. I'm taking out a huge life insurance policy on all of my employees. So if you get sick and die, I told them, Don't worry. I've got you covered.

Now, I didn't tell them that I made the insurance policies payable to me—LUIS GUTIERREZ. I didn't tell them that I'll use the benefits for myself and I'm just going to line my pockets.

Sound ridiculous? Sound wrong? Sound unfair? You're right. It is.

So today I'm introducing the Employer-Owned Life Insurance Limitation Act. All across America, companies take out life insurance policies on their employees. They spend \$8 billion a year on these premiums, but the benefits go to the employers—big companies like Winn-Dixie, Wal-Mart, Dow Chemical, Procter & Gamble, and even Disney—and the employees don't even know about it.

In a Nation where millions of full-time workers have no health insurance, corporate America is finding a way to line their pockets with life insurance, profiting from their deaths. Maybe if we prevent companies from betting on the death of their employees, they will invest in the health of their employees.

### H1N1 VIRUS

(Mr. GUTHRIE asked and was given permission to address the House for 1 minute.)

Mr. GUTHRIE. As cold and flu season is quickly approaching, media reports in my district and around the country are reporting on the exposure to the H1N1 virus.

I recently met with the Kentucky Pork Producers, who raise concerns that the media and individuals referring to the H1N1 flu virus as the "swine flu" is having a negative effect on them.

Because it is referred to as the "swine flu," individuals may think that the H1N1 virus can be caught from eating or handling pork. However, Homeland Security Secretary Janet Napolitano and Agriculture Secretary Tom Vilsack have repeated on various occasions that this is not a food-borne illness, but a respiratory virus.

Secretary Vilsack said recently that the virus should not be called "swine flu" because there is no indication that any swine from the United States has been infected, nor is there any significant risk of transmission by eating pork.

Pork and pork products are safe, and H1N1 virus cannot be acquired from eating pork. There are a lot of hard-working families in my district and across the country whose livelihoods are harmed by this misconception.

### VICTIMS OF THE TSUNAMI

(Ms. BORDALLO asked and was given permission to address the House for 1 minute.)

Ms. BORDALLO. Mr. Speaker, I rise today to remember those who have lost their lives as result of the recent tsunami in American Samoa and the region and to also offer my condolences on behalf of the people of Guam. I ask that this Congress support our colleague, Congressman FALEOMAVAEGA, to ensure that all of the appropriate assets from the Federal Government are brought to bear to help the Samoan people recover from this disaster.

I also rise today to remember the 246 Filipino citizens who have lost their lives as a result of flooding caused by Tropical Storm Ketsana. This destructive storm rampaged through the northern Philippines, leaving tens of thousands of people displaced.

Many of my constituents have family members who were affected by this storm. I commend the Filipino community of Guam, who were the first to mobilize our larger Guam community to quickly come together to collect relief items and provide monetary contributions to those affected by this natural disaster.

I commend the efforts of those who are helping to meet the needs of the people of American Samoa, Samoa, Tonga, and the Philippines as they work toward a full recovery from these disasters.

### RURAL HEALTH CARE COVERAGE

(Mr. TIAHRT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TIAHRT. Mr. Speaker, in the current health care debate we are overlooking access to health care in rural America. For families living in rural towns all across Kansas and America, access to quality health care is often the primary concern. In fact, right now, less than 10 percent of our physicians serve 25 percent of our population.

In order to improve access to quality medical care, we need to start with three basic reforms. First, we should

reimburse providers for the full cost of care so rural medical professionals can do their job of curing and healing. Second, we should repay enormous debt incurred through medical school so more young people enter general practice and practice care in smaller towns. Finally, the Federal Government should stop picking winners and losers with its coverage decisions in urban versus rural health care, because in every case, rural health care gets short-changed.

We should focus on reforms needed to solve the health care crisis in rural Kansas and in rural America, and, in doing so, we will improve health care delivery to the rest of the Nation. Without addressing these exploding costs or recognition that we need to focus on training new practitioners, the access problems plaguing rural America will only get worse.

#### THE WAY WE GET BY

(Mr. MICHAUD asked and was given permission to address the House for 1 minute.)

Mr. MICHAUD. I rise today to recognize a very important film called "The Way We Get By." It features dedicated and patriotic Mainers who make sure no soldier passes through Bangor, Maine, without receiving a handshake and a heartfelt thank you.

As part of the President's United We Serve initiative, the USO, Operation Homefront, and HandsOn Network are presenting the film at the Capitol Visitor Center tonight as part of their combined efforts to rally support for volunteer activities for our military families.

Dr. Jill Biden will introduce the film, and Maine filmmakers Aron Gaudet and Gita Pullapilly, along with several of the troop greeters, will discuss the film after the screening. "The Way We Get By" has been inspiring audiences across the country and will air on PBS on Veterans Day.

We Mainers are proud of our troop greeters and their profound contribution to our many soldiers.

□ 1015

#### IRAN IS GOING NUCLEAR

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, Iran's rogue regime is getting closer and closer to going nuclear. And if we want to get their attention, we have to do something real: sanction Iran's gasoline imports. That's where Ahmadinejad is vulnerable. The tiny tyrant doesn't have enough oil refineries, and Iran imports 40 percent of its gasoline. We must make it pretty painful to be Iran's gasoline supplier. If we're waiting on the United Nations,

that's not going to happen. Russia and Iran are just too cozy, and Russia will probably veto any sanctions. Also, Ahmadinejad's twin terrorist tyrant Moammar Qaddafi and the Libyans have a temporary seat on the Security Council. Libya will never vote to sanction their terrorist buddies. U.N. sanctions are a hapless illusion.

While the world talks, Iran test-fires missiles that could hit Israel, and they soon will have missiles that could hit Europe and the United States. Iran is the number one supplier of terrorism worldwide. A nuclear Iran is not an option. Peace-loving nations should sanction Iran's gasoline imports and encourage the Iranian people to change their reckless regime.

And that's just the way it is.

#### MARIANAS CULTURAL HERITAGE MONTH

(Mr. SABLAN asked and was given permission to address the House for 1 minute.)

Mr. SABLAN. Mr. Speaker, remaining mindful of the heritage and tradition inherited from past generations is important to my people. Equally important is that we pass on these traditions to the generations that come after. For that reason, I rise today in recognition of Marianas Cultural Heritage Month from September 16 to October 12, 2009.

During this period, the people of the Northern Mariana Islands are actively demonstrating such local traditions as respect for our elders, indigenous methods for healing, the preparation of local foods, the wearing of traditional attire, the practice of sharing goods among neighbors and, of course, the remarkable navigational skills of our people, epitomized by Chief Aghurubw.

By demonstrating these traditions, we impart our knowledge of the legends and lore of our forefathers to future generations so they, in turn, will be able to transmit the unique culture and heritage of the people of the Northern Mariana Islands. I encourage my colleagues to learn about us and to appreciate the differences that make us unique and the commonalities that bind us.

#### MORE TROOPS ARE NEEDED IN AFGHANISTAN

(Mr. SAM JOHNSON of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SAM JOHNSON of Texas. As a former prisoner of war in Vietnam, I learned a lot about how not to fight a war. Specifically, you cannot run a war from the White House and win. General McChrystal declared that more troops are needed in Afghanistan. Meanwhile, this administration has backpedaled on its pledge to the region and now is

dragging its heels on the general's request. What must our young men and women in uniform think? How must their loved ones back home feel? The administration's waiting game torpedoes troop morale and begs mission failure.

Congress needs to hear directly from General McChrystal to ensure political motivations in Washington don't override the needs of our commanders and our troops. For America, ignoring the top general's request for more troops is not the way to run and win a war.

#### HEALTH CARE INNOVATION

(Ms. SCHWARTZ asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. SCHWARTZ. Finding a uniquely American solution to our Nation's health care challenges means expanding health access to health coverage, containing costs, improving quality, and achieving better health outcomes. To reach these goals, we have to be open to new ways to bridge the current system's fragmentation, encourage coordination, and promote collaboration.

As part of health care reform, we are demanding greater quality and value. We should challenge our health care providers and civic leaders around the country to implement delivery system innovations that work for their communities. We should push them to work together and take responsibility for the health of people in their area across a full spectrum of health services. They can best determine how to integrate their community's health care system to make it patient-centered, efficient and result in better care and improved health status.

We must establish clear expectations and accountability, offer financing flexibility and incentives to collaborate to meet patient and community needs, then monitor the results. I have introduced the Health Care Innovation Zone Program Act to spark these initiatives. Done right as part of health care reform, we will all benefit in saved lives and saved money.

#### IS AMERICA UNSINKABLE?

(Mr. WOLF asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WOLF. Mr. Speaker, recent numbers from the White House Office of Management and Budget, featured in the ad behind me, predict a Federal deficit of \$9 trillion over the next decade. Do we really think America is unsinkable? I urge you to visit defeatthedebt.com and learn more about exactly how serious the mounting debt and deficits are to every American. A television ad being run by the same group features an elementary

school class citing the Pledge of Allegiance to America's debt and the Chinese Government that lends us money.

When will we wake up to how serious this problem is and take it seriously enough to deal with it? This Congress and this administration are failing the American people. We need to come together and sponsor the bipartisan Cooper-Wolf SAFE Commission bill.

#### THE TSUNAMI THAT HIT AMERICAN SAMOA

(Mrs. CHRISTENSEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. CHRISTENSEN. Mr. Speaker, less than 2 months ago, Chairman NICK RAHALL and many of us on the House Committee on Natural Resources were with the wonderful people of the village of Leone, which is the home and family village of our colleague, ENI FALEOMAVAEGA, who represents American Samoa in this body. Despite the severe economic challenges they face, they lavished us with gifts, song, food, and lots of love.

Today, villages all over American Samoa and other parts of the region are devastated not only by the damage from the tsunami but, most tragically, by the loss of loved ones. Among them, I am sure, are some who sang and danced and welcomed us so warmly. We thank the President for immediately declaring a disaster. I also pledge that my community will do what we can to help them recover. Many of their fellow Americans will do the same.

Nearby Independent Samoa, which I also visited at another time, was also affected and needs our help as well. Our hearts and prayers go out to the people of American Samoa, Samoa and the region. If anything good can come out of this terrible tragedy, very importantly right now, perhaps it will remind everyone that the people of American Samoa and the other territories are Americans and deserve equitable treatment in health care reform.

#### IRAN IS A NUCLEAR THREAT

(Mr. FLEMING asked and was given permission to address the House for 1 minute.)

Mr. FLEMING. Mr. Speaker, in the last few days, Iran has proven its threatening nature by conducting three rounds of missile tests, reminding us of the growing nuclear threat of Iran. Iran continues to show contempt towards the U.S. and the rest of the world through its nuclear development and the support of worldwide terrorism. Furthermore, it poses an existential threat to Israel, one of our most important allies.

Iran does not need to develop further nuclear fuel for energy, as it is a net exporter of oil even now. Rather than

prepare for and deter this threat, the President has chosen to appease Moscow and Tehran by disabling a missile defense initiative with no concessions in return.

This reckless decision comes on the heels of the administration's double-digit cuts to missile defense funding and F-22 development. A Commander in Chief's first priority should always be national security, yet this decision is appeasement of current and potential enemies.

#### HEROES TO HOMETOWNS GOLF CLASSIC

(Mr. LOEBSACK asked and was given permission to address the House for 1 minute.)

Mr. LOEBSACK. Tomorrow the American Legion will host the second annual Heroes to Hometowns Golf Classic at Andrews Air Force Base. This event will benefit the American Legion Legacy Scholarship Fund, which was established to provide educational support to children who have lost a loved one in Iraq and Afghanistan. This year's golf classic will bring together 80 wounded warriors and veteran business owners in what I'm sure will be a resoundingly successful event.

As a member of the Armed Services Committee, I have seen the positive impact that events like this have on our wounded warriors. As a former college professor, I also know the impact that a college education makes in the lives of our children. This golf classic is just one more example of the incredible work that the American Legion does on behalf of our veterans and military families, and I wish all the participants a good day on the courses.

#### WATER ON THE MOON

(Mr. OLSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. OLSON. Mr. Speaker, this past spring on one of my visits to the Johnson Space Center, I visited the facility where they house the lunar samples that we collected during the Apollo missions to the Moon. At that time, we had every reason to believe that the Moon was as dry as west Texas. But it turns out that is not the case. Three different spacecraft have confirmed unambiguous evidence that there is, in fact, water on the Moon. These are not pools or rivers or oceans like we know, but there are water molecules present.

Two robot probes in the nineties, Clementine and Lunar Prospector, suggested that water ice is present in the cold, dark areas of the poles. Now we find that water is much more pervasive. Water is essential for our astronauts when Americans return to the Moon, just like it was for our Founding forebearers Lewis and Clark when they

immigrated west through the United States. Too many Americans closed the book on the Moon with our final Apollo mission in 1972. This finding tells us what we did know and, more importantly, what we don't know. There are still some things we don't know.

Our Nation needs to understand that it was the Apollo program that ended in 1972, not lunar exploration. This discovery proves that, in this regard, we have only just begun.

#### THE PEOPLE WILL LIKE HEALTH CARE REFORM

(Mr. YARMUTH asked and was given permission to address the House for 1 minute.)

Mr. YARMUTH. Mr. Speaker, I rise today to thank one of our Republican colleagues. You see, I've been wondering how on the one hand the Republicans could try to scare our senior citizens with some nonexistent threat to their government program, Medicare, and on the other hand try to scare the rest of the American people about the threat of another government program, the public insurance option.

Well, yesterday Senator JOHN ENSIGN answered that question for me. Before the Senate Finance Committee, he said that he's opposing the public option because—get this—"People will like it." I kid you not. I wonder if, in fact, what he would rather do is give the American people a health care system they don't like. I know that many of our Republican colleagues would consider it a tragedy if we did something in this Congress that would actually restore confidence in government in the American people, but the real tragedy will be if we don't give the American people the health care system they want and deserve.

#### THE PRESIDENT'S ADMIRERS

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Mr. Speaker, here is what some of the world's most notorious thugs, dictators and human rights violators have said about President Obama: Moammar Qaddafi, the president of Libya, who gave a hero's welcome to the terrorists who blew up the Pan American airliner, killing over 100 Americans: "We are content and happy if Obama can stay forever as the President."

Fidel Castro: "Everything he (President Obama) affirms is in contradiction with what the United States has done for 150 years."

Hugo Chavez, the dictator and human rights abuser of Venezuela: "Comrade Obama! Fidel, careful or we are going to end up to his right."

Let's hope the President is not known by his admirers. Rather, let's

hope that he will stand up to his admirers. Frankly, the world would be a safer place if he did.

#### HONORING 75TH ANNIVERSARY OF THE MOUNTAINSIDE PUBLIC LIBRARY

(Mr. LANCE asked and was given permission to address the House for 1 minute.)

Mr. LANCE. Mr. Speaker: Remembering the past; Part of the future. This is a theme to be celebrated on October 4 when the borough of Mountainside in my congressional district will commemorate the 75th anniversary of its public library. Since its founding in 1934 in the basement of the municipal building, the Mountainside Public Library has grown into a 10,000-square-foot facility. It provides informational, cultural, educational and recreational services to people of all ages in Mountainside and surrounding communities. Whether encouraging literacy and learning through numerous children's story and craft programs, assisting area senior citizens, or providing residents with a critical link to the digital world, the Mountainside library is providing outstanding community services to its residents. While much has changed at the Mountainside library during its 75 years, what has remained the same is the dedicated community that has generously donated time and resources to enhance the library's resources.

Mr. Speaker, I ask the House of Representatives to join me in congratulating the Mountainside Public Library for 75 years of rich and wonderful contributions to the entire community. This library is truly an important part of Mountainside's past, present, and future.

□ 1030

#### SUPPORT H.R. 3200, COMPREHENSIVE HEALTH CARE REFORM

(Mrs. CAPPS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. CAPPS. Mr. Speaker, even today we have come further than we ever have before on the path to achieving comprehensive health insurance reform. Now is not the time to take a step back. Now is the time to keep the momentum going.

The American people want access to affordable health insurance when the small business they work for can't provide it for them. The American people want to know they won't lose their health insurance if their company has to make another round of layoffs. The American people want more doctors and nurses in their communities so they know health care is always available.

Mr. Speaker, H.R. 3200 accomplishes all these goals and more. I urge my colleagues to step up and seize this moment. Support this legislation to bring affordable and quality care to all Americans. Join me in strong support of H.R. 3200.

#### HONORING BRIAN GRIMM, OKLAHOMA'S TEACHER OF THE YEAR, 2009

(Mr. SULLIVAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SULLIVAN. Mr. Speaker, I rise today to honor an extraordinary individual from my district, Mr. Brian Grimm.

On Thursday, September 17, Brian Grimm was named Oklahoma's Teacher of the Year. After 13 years in education and with 6 years teaching at Will Rogers High School in my hometown of Tulsa, he was selected for this highly respected, much-deserved honor by a collection of education, business, and civic leaders.

Following his graduation from Sapulpa High School in a suburb of Tulsa, he went on to the University of Science and Arts of Oklahoma to pursue his lifelong dream of becoming a teacher. Brian currently teaches English and advanced placement English while pursuing his master's degree from the University of Oklahoma.

Mr. Grimm is the first teacher from Tulsa Public Schools to win this honor in over 45 years and is a true hero for the work he does for Tulsa's youth. The role teachers play in preparing our children for a successful future cannot be understated, and thanks to the highly dedicated educators like Brian Grimm, that future has never looked brighter.

I'm proud to honor him today and congratulate him on his achievement.

#### TEACHER EQUITY: EFFECTIVE TEACHERS FOR ALL CHILDREN

(Ms. HIRONO asked and was given permission to address the House for 1 minute.)

Ms. HIRONO. Mr. Speaker, the Education and Labor Committee is holding a hearing later this morning on teacher equity and ensuring that all children have access to effective teachers.

The most important resource in every classroom is a caring, qualified, and competent teacher; yet highly effective teachers tend to be more concentrated in affluent communities. Children of the highest poverty and highest minority schools across the country are often taught by less experienced, less qualified teachers. These children are being shortchanged. Closing this "teacher quality gap" is a critical step in closing the achievement gap for these students.

We can do more here in Congress to support the important work teachers do and to help teachers access the professional development and support they need. We can do more to ensure that effective teachers are placed, and encouraged to stay, in the classrooms where they are most needed. By building on the work of this Congress, for example, we required States to provide assurance that they will take steps to address disparities in teacher equity as a condition of receiving Recovery Act funds.

#### ACORN

(Mr. BROWN of South Carolina asked and was given permission to address the House for 1 minute.)

Mr. BROWN of South Carolina. Mr. Speaker, I applaud my colleagues in the House and Senate for recently voting to block ACORN from receiving any additional Federal funding. It is clear that ACORN is unable to use Federal money properly, and as our constituents face financial hardships of their own, the last place hard-earned taxpayers' dollars should be allocated is to an organization known for its blatant abuse of these funds.

Thanks to action by Republicans and Democrats alike, this House has passed legislation preventing this questionable organization from receiving another cent of America's taxpayers' money.

But our efforts must not stop here. There is a complex web of nonprofits that directly fund ACORN and its affiliates.

The American public has a right to know how ACORN is funded. After all, for years we have been the ones footing the bill.

#### GUANTANAMO BAY: STILL AN IMPORTANT ISSUE

(Mr. MORAN of Virginia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MORAN of Virginia. Mr. Speaker, when President Obama and Senator McCain pledged to close our legal black hole known as Guantanamo Bay, they reaffirmed to the world that the United States is a Nation governed by the rule of law and defined by our embrace of universal human rights. Yet efforts to close this antithesis of the American justice system have stalled due to the administration's poor handling of the issue, not-in-my-backyard politics, and the difficulty in finding suitable locations for the 223 detainees remaining at Guantanamo. But the broader facts have not changed.

It's in our national security interest to shut down Guantanamo, to close this ugly chapter in American foreign policy once and for all. By continuing to imprison people without charge, we

violate the most basic principle of American justice known as habeas corpus, we undermine our international reputation, and we fuel terrorist recruitment and anti-American sentiment.

I hope our administration has learned from their early mistakes and will begin consulting with Congress on this issue. Keeping the legislative body in the dark on pertinent information related to the detainees and efforts to relocate them is a recipe for policy failure and risks the larger goal of keeping President Obama's promise to close this black hole of American injustice.

#### PRESIDENT OBAMA'S SPEECH TO WALL STREET AND THE G-20 SUMMIT

(Mr. FORTENBERRY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FORTENBERRY. Mr. Speaker, in his recent speech before Wall Street, President Obama was right to demand more responsibility from the American financial industrial complex. One year and \$16 trillion of taxpayer liability at risk later, the American people are still shouldering the burden of the reckless behavior of the companies deemed "too big to fail."

I am troubled, however, Mr. Speaker, by the presupposition espoused by international leaders during last week's G-20 summit that greater global consolidation of our financial systems is in our national or in the international community's best interest. Mr. Speaker, it is the global scale of the crisis of credit and confidence that should give us pause to consider that our profound economic connectedness might actually intensify our problems.

Local businesses and local financiers best know the needs of their communities and, in their very essence, are more transparent and accountable. Rather than risk becoming more intertwined in an internationalist financial industrial model, we should focus instead on encouraging the formation of strong local economies, which are the proper models for us to build economic strength in America as well as for the world's developing nations. This should be Wall Street's and the President's guiding principle. They owe it to the American people.

#### THE RECESSION AND TAKING NEVADA AND THE NATION IN A NEW, MORE PROSPEROUS DIRECTION

(Ms. TITUS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. TITUS. Mr. Speaker, Nevada's families have been hard hit during this

recession. Since coming to Congress, I've made it a priority to address our economic slump, help create jobs, and put families in their homes for keeps.

In the past week alone, the House has taken important steps to help Nevadans during this challenging time. With the Silver State facing record unemployment, we passed legislation to extend unemployment benefits. For some, this can mean the difference between making that mortgage payment and losing their home.

We have also passed legislation that I was proud to introduce to protect seniors from higher Medicare premiums. With the recession taking a toll on retirement savings, many seniors cannot afford to pay higher Medicare costs that eat away at their Social Security benefits. My bill will protect seniors at a time when they are counting on every dollar to get by.

We didn't get into this recession overnight, and it will take some time to climb out, but I will continue working with my colleagues on both sides of the aisle to take Nevada and this country in a new and more prosperous direction.

#### THE TIME FOR COMPREHENSIVE HEALTH CARE REFORM IS NOW

(Mr. BRALEY of Iowa asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BRALEY of Iowa. Mr. Speaker, the time for comprehensive health care reform is now. This picture says it all from the American Heart Association and the American Stroke Association. It shows a young boy in a doctor's waiting room. It says he's not a Democrat or a Republican; he's a patient.

We need to talk about the human face of health care reform like my nephew's son, Tucker Wright, who was 18 months when he was diagnosed with liver cancer. Both of his parents work. They have health insurance. But the enormous cost of the lifetime of health care that Tucker faces is not even close to being covered by his parents' insurance policy. When we have lifetime caps on medical policies and we have an inability to have portability from one job to another, we are not addressing the medical needs of America.

This Monday I met with a young woman, whose name is Hanna Rodriguez, who has a cleft palate, a birth defect. She's ready for the final surgery to repair that birth defect, but it's not covered by insurance, unlike other birth defects such as cystic fibrosis, because it's considered cosmetic surgery.

We are not doing the job for the American people when we have these obstacles, and that's why we need health care reform now.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. PASTOR of Arizona). Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken later.

#### MESSAGE FROM THE SENATE

A message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has agreed to the following resolution:

S. RES. 293

In the Senate of the United States, September 29, 2009.

Whereas, Henry Bellmon served as a United States Marine from 1942-1946, where he served as a platoon tank commander in the Pacific theater, and was awarded the Legion of Merit for his service in Saipan and the Silver Star for bravery in action on Iwo Jima;

Whereas, Henry Bellmon served as a Major in the Marine Corps Reserve until 1954;

Whereas, Henry Bellmon served two non-consecutive terms as governor of the State of Oklahoma from 1963-1967, when he was elected as the state's first Republican governor, and from 1987-1991; and

Whereas, Henry Bellmon served the people of Oklahoma with distinction for 12 years in the United States Senate from 1969-1981;

*Resolved*, That the Senate has heard with profound sorrow and deep regret the announcement of the death of the Honorable Henry Bellmon, former member of the United States Senate,

*Resolved*, That the Secretary of the Senate communicate these resolutions to the House of Representatives and transmit an enrolled copy thereof to the family of the deceased.

*Resolved*, That when the Senate adjourns today, it stand adjourned as a further mark of respect to the memory of the Honorable Henry Bellmon.

The message also announced that the Senate has passed without amendment in which the concurrence of the House is requested, bills of the House of the following titles:

H.R. 2131. An act to amend the Foreign Affairs Reform and Restructuring Act of 1998 to reauthorize the United States Advisory Commission on Public Diplomacy.

H.R. 3593. An act to amend the United States International Broadcasting Act of 1994 to extend by one year the operation of Radio Free Asia, and for other purposes.

The message also announced that Mr. KIRK and Mr. LEMIEUX be added as conferees, on the part of the Senate, to replace the late Senator Kennedy and recently retired Senator Martinez, on the bill (H.R. 2647) "An Act to authorize appropriations for fiscal year 2010 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, to provide special pays and allowances to certain members of the Armed

Forces, expand concurrent receipt of military retirement and VA disability benefits to disabled military retirees, and for other purposes.”

# COMMENDING HOMELAND SECURITY DEPARTMENT EMPLOYEES AND ANTI-TERRORISM PARTNERS

Ms. CLARKE. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 731) expressing the sense of the House of Representatives that the employees of the Department of Homeland Security, their partners at all levels of government, and the millions of emergency response providers and law enforcement agents nationwide should be commended for their dedicated service on the Nation's front lines in the war against acts of terrorism.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

## H. RES. 731

Whereas it has been 8 years since the horrific terrorist attacks against the United States and its people on September 11, 2001;

Whereas terrorists around the world continue to plot and plan attacks against the United States and its interests and foreign allies;

Whereas, as evidenced by a suicide bomb attack in Jerusalem that killed 22 people and wounded 140 on March 27, 2002, a car bomb that exploded outside a Marriott Hotel in Jakarta, Indonesia, on August 5, 2003, killing 10 people and wounding 150, 10 bombs that exploded on 4 commuter trains in Madrid on March 11, 2004, killing 191 people, a major anti-terrorist operation by British Police disrupts an alleged bomb plot targeting multiple airplanes bound for the United States flying through Heathrow Airport, near London on August 10, 2006, and the shooting and bombing attacks in Mumbai, India, on November 26, 2008, the thwarted terrorist attacks targeting the Brooklyn Bridge in March 2003, Herald Square in New York City in 2004, the PATH Tunnel trains in New York and New Jersey in 2006, the U.S. Army Base at Fort Dix, New Jersey in May 2007, JFK International Airport in June 2007, and the Air National Guard base in Newburgh, New York and synagogues in Riverdale and the Bronx, New York in 2009, citizens across the country and in the world should remain vigilant, prepared, and informed;

Whereas during the month of September, the Nation observes National Preparedness Month which is sponsored by the Department of Homeland Security, and encourages all citizens to prepare themselves and their families for possible emergencies by getting an emergency supply kit that will last 72 hours, making a family emergency plan, being informed, and getting involved in the community in organizations such as Citizen Corps, which actively involves citizens in making our communities and our Nation safer, stronger, and better prepared;

Whereas acts of terrorism can exact a tragic human toll, resulting in significant numbers of casualties and disrupting hundreds of thousands of lives, causing serious damage to our Nation's critical infrastructure, and inflicting billions of dollars of costs on both our public and private sectors;

Whereas in response to the attacks of September 11, 2001, and the continuing grave threat of terrorism, Congress established the Department of Homeland Security in March 2003, bringing together 22 disparate Federal entities, enhancing their capabilities with major new divisions emphasizing terrorism-related information analysis, infrastructure protection, and science and technology, and focusing their employees on the critical mission of defending our Nation against acts of terrorism;

Whereas since its creation, the employees of the Department of Homeland Security have endeavored to carry out this mission with commendable dedication, working with other Federal intelligence and law enforcement agencies and partners at all levels of Government to help secure our Nation's borders, airports, seaports, critical infrastructure, and communities against terrorist attacks;

Whereas our Nation's firefighters, law enforcement officers, emergency medical personnel, and other first responders selflessly and repeatedly risk their lives to fulfill their new mission of helping to prevent, protect against, and prepare to respond to acts of terrorism, major disasters, and other emergencies;

Whereas State, local, territorial, and tribal government officials, the private sector, and ordinary citizens across the country have been working in cooperation with the Department of Homeland Security and other Federal Government agencies to enhance our ability to prevent, deter, protect against, and prepare to respond to acts of terrorism;

Whereas all people of the United States can assist in promoting our Nation's overall terrorism and emergency preparedness by remaining vigilant and alert, reporting suspicious activity to proper authorities, and preparing themselves and their families for potential terrorist attacks; and

Whereas all people of the United States should take the opportunity during National Preparedness Month in September 2009 to take steps at home, work, and school to enhance their ability to assist in preventing, protecting against, and preparing to respond to acts of terrorism: Now, therefore, be it

*Resolved*, That the House of Representatives—

(1) commends the public servants of the Department of Homeland Security and other Federal agencies for their outstanding contributions to our Nation's homeland security;

(2) salutes the dedication of State, local, territorial, and tribal government officials, the private sector, and citizens across the country for their efforts to enhance the Nation's ability to prevent, deter, protect against, and prepare to respond to potential acts of terrorism;

(3) expresses the Nation's appreciation for the sacrifices and commitment of our law enforcement and emergency response personnel in preventing and preparing to respond to acts of terrorism;

(4) supports the goals and ideals of National Preparedness Month as they relate to the threat of terrorism; and

(5) urges the Federal Government, States, localities, schools, nonprofit organizations, businesses, other entities, and the people of the United States to observe National Preparedness Month with appropriate events and activities that promote citizen and community preparedness to respond to acts of terrorism.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from

New York (Ms. CLARKE) and the gentleman from Florida (Mr. BILIRAKIS) each will control 20 minutes.

The Chair recognizes the gentlewoman from New York.

## GENERAL LEAVE

Ms. CLARKE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and insert extraneous material on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from New York?

There was no objection.

Ms. CLARKE. Mr. Speaker, I rise in support of House Resolution 731, and I yield myself such time as I may consume.

I am proud that my resolution, House Resolution 731, is being considered by the full House on this, the last day of National Preparedness Month, 2009.

I thank Homeland Security Chairman Mr. BENNIE THOMPSON of Mississippi, along with Ranking Member PETER KING of New York, for cosponsoring House Resolution 731 and for their great help in moving this resolution through committee and to the House floor for consideration. I also want to thank the other cosponsors of this resolution too numerous to name at this time.

Our committee has come together in a bipartisan manner to show support for this important resolution. After all, emergency preparedness is not a partisan issue.

House Resolution 731 supports the goals and ideals of National Preparedness Month, a nationwide, coordinated effort held each September to encourage Americans to take simple steps in their homes, businesses, and schools to prepare for emergencies of all kinds.

This month marked the 6th year that the Department of Homeland Security has observed September as National Emergency Preparedness Month. In promoting the month, DHS partnered with over 2,400 organizations, including the American Red Cross and the Ad Council, to launch a series of Web, radio, television, and outdoor public service announcements. The PSAs highlight simple steps everyone can take to prepare for disasters. The campaign also utilizes new media resources such as Twitter and Facebook to reach up to over 80 percent of Americans.

One of the most important lessons from the tragic attacks on September 11, 2001, and Hurricane Katrina is that we all must be vigilant about preparing for an emergency. Recent wildfires, floods, tropical storms, and tornadoes have given us the opportunity to observe whether those lessons have since been corrected.

The dedicated employees of the Department of Homeland Security, under the new leadership of Secretary Janet Napolitano, and other Federal agencies

successfully coordinated with State and local officials, first responders, and the private sector to assist with the pre-positioning of lifesaving equipment, evacuation efforts, and search and rescue operations.

□ 1045

Similarly, we saw Americans donating their time and resources to assist communities in need.

House Resolution 731 also applauds the public servants at the Department of Homeland Security for their outstanding dedication to securing our Nation.

We know that terrorists across the world continue to target precious lives and critical infrastructure, as evidenced by various suicide bombings in recent years. Attacks in Mumbai, India, last year hit close to home for my constituents, with the loss of Rabbi Gavriel Holtzberg and his wife, Rivka, two pillars of the Crown Heights, Brooklyn, community and the Chabad-Lubavitch Hasidic movement of Orthodox Judaism.

Yet, while we are fortunate that DHS, their Federal intelligence partners, and law enforcement agents have successfully thwarted further attacks on American soil since 9/11, a flurry of recent arrests in New York City, Colorado, and Dallas relating to alleged terrorist plots reminds us that America is still vulnerable.

I must commend the New York City Police Department, especially Commissioner Ray Kelly; deputy commissioner for counterterrorism, Dr. Richard Falkenrath; and Captain Michael Riggio, for their unyielding commitment to protecting my constituents and all the residents of New York City.

Just this Saturday, President Obama praised New York's finest for their outstanding work in securing our city during the U.N. General Assembly session and their exceptional teamwork in their coordination efforts with other police departments and with Federal partners in an ongoing investigation of an alleged terrorist plot.

Mr. Speaker, I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I yield myself as much time as I may consume.

I rise in support of House Resolution 731, sponsored by my committee colleague YVETTE CLARKE, my good friend, and of which I am an original cosponsor.

September is National Preparedness Month, and I think it is fitting that we are honoring the men and women at all levels of government who work every day to ensure our safety and security.

We recently commemorated the eighth anniversary of the September 11 terrorist attacks. It is not a coincidence that there has not been an attack on the United States in the 8 years since September 11. It is through

the efforts of the brave men and women at the Department of Homeland Security and their partners at all levels of government. We are thankful for the work of law enforcement and emergency response providers nationwide.

The recently foiled terrorist plots in New York, Dallas, and Illinois served to remind us that terrorists are still intent on attacking our country. We must remain vigilant and support our law enforcement and emergency response providers in their efforts. These hardworking men and women often work behind the scenes and do not receive the recognition they deserve for all of their efforts to prevent, prepare for, and protect against terrorist attacks, natural disasters and other emergencies.

Our constituents have a role to play as well. On the Federal level, the Department of Homeland Security's Ready Campaign works to increase awareness and preparedness for terrorist attacks, natural disasters, and other emergencies. The Ready Campaign encourages individuals and families to have a preparedness kit and a plan and to be informed of possible threats to their area.

In Florida, our Division of Emergency Management also encourages citizen and community preparedness. Through its Web site, [floridadisaster.org](http://floridadisaster.org), individuals and families can use a tool to develop a disaster plan that includes information on the necessary food and water to have on hand, evacuation points and other important checklists. This is an important resource and one that I urge my constituents to take advantage of to prepare their families.

Everyone has a role to play in the safety and security of our Nation. I want to thank subcommittee Chairwoman YVETTE CLARKE for introducing this legislation to honor the individuals working to secure our Nation and highlighting National Preparedness Month and the need for citizen preparedness.

Mr. Speaker, I urge all Members to join me in supporting this resolution.

I reserve the balance of my time.

Ms. CLARKE. Mr. Speaker, I have no more speakers. If the gentleman from Florida has no more speakers, then I'm prepared to close after the gentleman closes.

Mr. BILIRAKIS. I'm prepared to close. I have no other speakers.

Mr. Speaker, I believe that it is important to recognize the hard work that Federal Homeland Security employees, emergency response providers and all law enforcement personnel are doing to prevent, prepare for and respond to terrorism, natural disasters and other emergencies. This resolution is a small token of our appreciation for their efforts to keep us safe and secure.

I urge all of our colleagues to support this resolution, and I yield back the balance of my time.

Ms. CLARKE. Mr. Speaker, I yield myself such time as I may consume.

In closing, on this last day of National Preparedness Month 2009, I urge my colleagues to support H. Res. 731 and to also encourage their constituents to visit [www.ready.gov](http://www.ready.gov) where they can learn how to be vigilant, alert and prepared for an emergency.

Mr. CAO. Mr. Speaker, I rise today in support of H. Res. 731 to observe National Preparedness Month.

As a representative of a district that is prone to disasters and an original cosponsor of H. Res. 731, I speak on behalf of citizens who realize the significance of personal preparedness.

The second district of Louisiana contains one of the world's largest ports. Thus, security and protection from external threats is important to us.

It is imperative that all citizens are encouraged to prepare themselves and their families for possible emergencies by attaining supply kits, making a family emergency plan, and getting involved in the community in organizations such as Citizen Corps.

Through H. Res. 731, we honor the public servants, government officials, and private citizens who work hard to keep our families secure from disasters and prepared for response to potential acts of terrorism.

We express our appreciation for the commitment of law enforcement and emergency response personnel in supporting the goals and ideals of National Preparedness Month.

I urge my colleagues to vote in support of H. Res. 731.

Ms. RICHARDSON. Mr. Speaker, I rise in support of H. Res. 731, the "National Preparedness Month Resolution." September is National Preparedness Month and this resolution honors the public servants of the Department of Homeland Security and Emergency Response Personnel for their commitment to securing our Nation.

Mr. Speaker, I would like to thank my dear friend and colleague, Congresswoman YVETTE CLARKE, for calling on Members and the rest of the country to join her in commending and recognizing the men and women who dedicate their lives to preventing and preparing for any future terrorist attack.

The Department of Homeland Security was born out of the tragedy of September 11 and through the hard work and commitment of the employees of the Department of Homeland Security, our Nation has remained safe and secure from terrorist threats for the past 8 years. I want to take this opportunity to thank the Department of Homeland Security and other emergency response personnel for committing themselves to this noble and necessary cause.

Mr. Speaker, I would also like to recognize the employees of the Department of Homeland Security that work tirelessly in my district, the 37th Congressional District of California. These men and women can be seen hard at work in various local branches of the Coast Guard, Immigration Services, Law Enforcement, Army, and Navy. I appreciate the sacrifices and commitment of those men and women who work every day to secure the community of Long Beach, California.

As we celebrate National Preparedness Month, I urge all Members to take a moment to honor the men and women that dedicate their lives to emergency preparedness and protecting this country from another terrorist attack.

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise in support of House Resolution 731 and thank my colleague, Ms. CLARKE, for introducing it. This resolution applauds the public servants at the Department of Homeland Security, DHS, for their outstanding dedication to securing our Nation.

More importantly, House Resolution 731 encourages citizens to prepare themselves and their families to respond to any emergency—whether it is an act of terror, natural disaster, or other crisis.

Today marks the end of National Preparedness Month, NPM, which DHS has successfully promoted for the last 6 years. NPM is sponsored by the Ready Campaign and Citizen Corps program, and is designed to encourage Americans to take simple steps to prepare for emergencies in their homes, businesses, and communities. DHS has partnered with 2,400 coalition members across the country to promote the message that preparedness is a shared responsibility and that we all must do our part to be ready when disaster strikes.

As a former volunteer firefighter, I know that lives are saved when the public takes steps to prepare for the worst. And as the chairman of the Homeland Security Committee, I want the people of this Nation to take the necessary steps to prepare themselves in the event of an emergency. To be prepared, all individuals should visit [www.ready.gov](http://www.ready.gov) and take three simple steps. These steps are:

1. Get a Kit. All households should build a disaster supply kit that includes enough supplies for each family member for three days. The kit should include basic items such as water, food, medicine, batteries, flashlights, hygiene materials, and blankets.

2. Make a Plan. Every family should develop and communicate with each other their evacuation or sheltering plan. The plan should correspond to the school, work and community of every member of the family. All families are encouraged to practice this plan to ensure familiarity with evacuation or meeting routes, have cell phones charged and keep a charger in the car.

3. Be informed. We all need to know about the type of disasters or emergencies that may occur where we live, work and play. Every citizen should also learn about what to do in the event of a biological, chemical, explosive, nuclear or radiological attack.

In addition to getting a kit, making a plan, and being informed, citizens can also get involved in helping their neighbors prepare. To learn how you can contribute to the Citizen Corps program, which brings together communities in emergency preparedness, planning, mitigation, response and recovery efforts, visit the [www.citizencorps.gov](http://www.citizencorps.gov) website.

Mr. Speaker, an August 2009 survey commissioned by FEMA's Citizen Corps program shows we have a long way to go as a nation in preparing our communities for a disaster. According to the survey, just 56 percent of respondents reported having disaster supply kits in their home. Only 50 percent were familiar

with emergency alert and warning systems, and just 38 percent were familiar with local sources of public safety information.

We must close these gaps. National Preparedness Month is one such step toward doing just that. It is an important national public awareness campaign that promotes citizen and community preparedness.

Mr. Speaker, for these reasons, I support H. Res. 731 and urge adoption of this resolution.

Mrs. MILLER of Michigan. Mr. Speaker, I rise today in strong support of H. Res. 731. The Department of Homeland Security has worked diligently to keep us safe since the devastating attacks on 9/11.

And thankfully we've not had a successful attack since then—it's not because of luck, but due to the hard work of the men and women who work every day to secure the Homeland.

The over 200,000 employees of 22 agencies that make up the Department deserve our utmost gratitude for their steadfast resolve and commitment to prevent acts of terror against our citizens.

They have worked to increase cooperation between our intelligence and defense communities.

They have strengthened our preparedness and created partnerships among Federal agencies and local and state first responders.

These employees patrol our land and sea borders, secure our airports and Ports of Entry and safeguard critical infrastructure.

Theirs is truly a 24/7 job whose successes are rarely known or acknowledged.

As the recent arrest of Najibullah Zazi, the Afghan accused of plotting to plant bombs in New York shows, we still face many challenges to stop the threat of terrorism on our shores and in our cities and towns.

Border security must be enhanced; we must remain vigilant if we are to continue to disrupt plots and attacks on our nation. Complacency isn't an option because as we have seen over and over again, the intent to commit acts of terrorism remains strong.

Defending the homeland will take more than just a Federal effort—our fire fighters, law enforcement officers, emergency medical personnel, and other first responders selflessly and repeatedly risk their lives to fulfill their mission of helping to prevent, and prepare to respond to, acts of terrorism, major disasters, and other emergencies.

All Americans should take the opportunity during National Preparedness Month this September to take steps at home, work, and school to enhance their ability to assist in preventing, protecting against, and preparing to respond to acts of terrorism.

I commend the work of our first responders and the Department of Homeland Security. I offer my full cooperation in meeting our shared goals of keeping America safe and secure.

I urge my colleagues to support this resolution.

Mr. KING of New York. Mr. Speaker, I would like to express my support for the resolution introduced by my colleague from New York, Congresswoman CLARKE. House Resolution 731, of which I am a cosponsor, recognizing the month of September as National Preparedness Month, also commends the employees of the Department of Homeland Security; other federal agencies; state, local, and

tribal government officials; emergency response personnel; and law enforcement officers who defend our nation against acts of terrorism.

New York's 3rd Congressional District is home to many of the Department of Homeland Security's employees, including those who work at JFK and LaGuardia airports and in the Coast Guard. We are all grateful for the important work they carry out, in partnership with local law enforcement officers and other first responders, to protect our communities, particularly in light of several recently foiled terrorist plots.

Earlier this month, we commemorated the eighth anniversary of the terrorist attacks of September 11, 2001. In these times, we cannot afford to be complacent, or to forget what it means to prepare ourselves, our families, and our communities to respond to the threat of terrorism. All Americans can help promote emergency preparedness by taking steps such as assembling emergency supply kits, creating family emergency plans, and staying informed about possible emergencies in their area.

We have come a long way since September 11th, but there is still much more to do to keep America safe. House Resolution 731 helps remind all Americans of the steps they can take to be prepared, and honors those on the front lines who tirelessly work to keep our communities safe.

Mr. CARSON of Indiana. Mr. Speaker, over the last two days, we have considered and voted to pass legislation honoring all Department of Homeland Security employees for their service to the United States over the course of the War on Terror.

As a former Homeland Security official, I have seen first hand the sacrifices that each of these employees makes in the service of our country. These dedicated men and women spend years developing specialized skills and becoming experts on the most effective methods to prevent violence. They devote long hours away from their families, in potentially life threatening situations. And they do all of this to keep us safe from threats around the world.

These federal employees rarely make the news, but their success in the War on Terror is undeniable. Their unyielding efforts have saved lives and prevented billions in property damage. We may never hear of their successes, but they deserve our thanks just the same.

So, Mr. Speaker, I rise today to honor these men and women across our country, whose ongoing fight to protect us from terrorism has allowed all of us to enjoy the freedoms that make the United States great.

Ms. CLARKE. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from New York (Ms. CLARKE) that the House suspend the rules and agree to the resolution, H. Res. 731.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. CLARKE. Mr. Speaker, I object to the vote on the ground that a

quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

#### CONGRATULATING WOMEN'S COLLEGE WORLD SERIES CHAMPION WASHINGTON HUSKIES

Ms. CHU. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 517) congratulating the University of Washington women's softball team for winning the 2009 Women's College World Series.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

##### H. RES. 517

Whereas, on June 2, 2009, for the first time in school history, the Women Huskies won the NCAA National Softball Championship game with a 3-2 victory over the University of Florida;

Whereas University of Washington pitcher Danielle Lawrie was named the Women's College World Series MVP and the USA Softball National Collegiate Player of the Year;

Whereas the Huskies finished the 2009 season with an impressive record of 51-12;

Whereas the members of the 2009 University of Washington softball team are excellent representatives of a university that is one of the premier academic institutions in Washington State, producing many outstanding student-athletes and other leaders; and

Whereas the members of the women's softball have brought great honor to themselves, their families, the University of Washington, and the State of Washington: Now, therefore, be it

*Resolved*, That the House of Representatives—

(1) congratulates the University of Washington for winning the 2009 Women's College World Series;

(2) recognizes the achievements of the players, coaches, students, and staff whose hard work and dedication helped the University of Washington win the championship; and

(3) respectfully requests the Clerk of the House to transmit an enrolled copy of this resolution to President of the University of Washington, Mark A. Emmert; the Director of Athletics of the University of Washington, Scott Woodward, and the Coach of the University of Washington softball team, Heather Tarr.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from California (Ms. CHU) and the gentleman from Tennessee (Mr. ROE) each will control 20 minutes.

The Chair recognizes the gentlewoman from California.

##### GENERAL LEAVE

Ms. CHU. Mr. Speaker, I request 5 legislative days during which Members may revise and extend and insert extraneous material on H.R. 517 into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from California?

There was no objection.

Ms. CHU. I yield myself as much time as I may consume.

I rise today to congratulate the University of Washington softball team for their victory in the 2009 NCAA Division I tournament. On June 2, softball fans were treated to an exceptional game as the Washington Huskies defeated the Florida Gators and clinched their first national title. The close 3-2 win capped off a phenomenal season that saw the Huskies go 51-12.

I want to extend my congratulations to head coach Heather Tarr and assistant coaches Gina Carbonatto and Lance Glascoe. Coach Tarr played softball for the Huskies in 1988 when they placed second in the Women's College World Series. She returned to her alma mater in 2003 and delivered Washington their first women's softball national title.

Congratulations are also in order for pitcher Danielle Lawrie. Lawrie, a junior from Langley, British Columbia, led the Nation in strikeouts and wins. She was named the 2009 USA Softball National Player of the Year. In addition, Lawrie was one of five finalists for the prestigious Honda-Broderick Cup, which honors the top female athlete in collegiate athletics.

The Huskies showed incredible effort and ability during their run to the championship. Niki Williams set a Women's College World Series record with 10 RBIs and an unbelievable seven of them were in one game against the University of Georgia. During the College World Series, the Washington Huskies batted .304 and scored 32 runs over six games. This followed a two-game sweep of Georgia Tech in Atlanta and a dramatic 15-inning win over the University of Massachusetts to clinch a spot in the super-regionals.

The extraordinary achievement of this year is a tribute to the skill and dedication of the many players, coaches, students, alumni, families and fans that have helped to make the University of Washington a premier softball program. I know the fans of the University of Washington will revel in these accomplishments as they look forward to the 2010 series.

Mr. Speaker, once again, I congratulate the University of Washington softball team for their success and thank Representative McDERMOTT for bringing this resolution forward.

I reserve the balance of my time.

Mr. ROE of Tennessee. Mr. Speaker, I yield myself as much time as I might consume.

Mr. Speaker, I rise today in support of House Resolution 517, congratulating the University of Washington women's softball team for winning the 2009 Women's College World Series.

The University of Washington is a public research university founded in

1861. It is one of the oldest State-supported institutions of higher education on the west coast. UW is located in Seattle, Washington, and the university has two additional branch campuses in Tacoma and Bothell, Washington. The university offers over 250 degrees within 150 departments, programs across 18 colleges and schools and employs over 4,100 full-time equivalent faculty members. UW operates and manages two major medical centers, UW Medical Center and Harborview Medical Center.

The university receives more Federal research funding than any other public university in the country, and the second most Federal research funding of all the universities in the country.

The University of Washington's long history of excellence is reflected in its academic and athletic rankings and accomplishments. The university is considered a "public ivy," and the U.S. News and World Report ranked UW 41st out of 130 tier 1 national universities. The university has 20 graduate programs ranked in the top 20 by U.S. News and World Report. And in 2008, the school placed 16th in the world's top universities, according to the Academic Ranking of World Universities.

University of Washington's excellence and success extend to their athletics, as well as their academics. UW is a NCAA Division I-A school, and recent national championships include the softball team, the men's rowing team, NCAA Division I women's cross-country team, and the women's volleyball team.

This year, led by National Player of the Year Danielle Lawrie, a member of the 2008 Canadian Olympic team, Washington's women's softball team advanced to the NCAA finals for the third time in school history. The number three Huskies rallied from two runs down in the top of the first inning to sweep top-ranked Florida in the best-of-three NCAA championship series. Washington ended the championship with a 3-2 victory against the University of Florida.

I'm honored today to congratulate and recognize the University of Washington's women's softball team for their victory as national champions in the 2009 Women's College World Series.

I ask my colleagues to support this resolution, and I reserve the balance of my time.

Ms. CHU. Mr. Speaker, I am pleased to recognize the gentleman from Washington, the sponsor of this legislation, Mr. McDERMOTT, for 3 minutes.

Mr. McDERMOTT. Mr. Speaker, I rise today to honor the University of Washington women's softball team for their winning of the 2009 Women's College World Series.

I appreciate my colleague's kind words about our wonderful university, and it sounds like he might have wished to go there maybe.

The road leading to the first NCAA National Softball Championship in the

University of Washington was very difficult and at times seemingly out of reach. At least that's what the pundits thought. But they didn't know these outstanding softball players and the extraordinary role models that they are. The Husky team never stopped striving to be the best, and no obstacle was too difficult to overcome, including sweeping the best-of-three championship series from top-seeded and top-ranked University of Florida.

The Huskies deserve to be recognized as a team and as individuals, so let me tell you their names: Alicia Blake, Ashley Charters, Jenna Clifton, Amanda Fleischman, Lauren Geer, Felicia Harris, Marnie Koziol, Danielle Lawrie, Alyson McWherter, Kimi Pohlman, Jennifer Salling, Taylor Smith, Bailey Stenson, Dani Stuart, Morgan Stuart, Ashley Tuiaosopo, Jessica Ventoza, Ashlyn Watson and Niki Williams.

□ 1100

Baseball is a team sport. There are many outstanding players one could talk about, but it's won as team. And they were led by Coach Heather Tarr and Assistant Coaches Gina Carbonatto and Lance Glasoe, and they had a volunteer assistant by the name of J.T. D'Amico and a student assistant by the name of Dru Hester.

Winning a national title is an achievement every college athlete and coach dreams about; yet sports is not just about athletic success, as important as that is. It's about dedication and hard work and teamwork, and it's about life, pursuing a dream and overcoming every obstacle to realize a dream. These young women had the chance to chase their dream, but that's because of the sacrifice of others.

None of the athletes on the UW softball team were born when Patsy Mink stood in the well of this House and wrote and worked to pass Title IX in 1972, but they all enjoy the benefits of Patsy's vision. As a result of Title IX, women and girls have had greater opportunities to participate in sports. Title IX has enabled more women to receive athletic scholarships and greater opportunity for higher education. Many female athletes credit Title IX for giving them an opportunity to attend college through athletic scholarships and to participate in sports. In addition, because of Title IX, the salaries of coaches of women's teams have increased.

The SPEAKER pro tempore. The time of the gentleman has expired.

Ms. CHU. I yield the gentleman another 1 minute.

Mr. McDERMOTT. I congratulate the University of Washington women's softball team, but I also rise to honor every female athlete. Every time you compete, you remind us that all the sacrifice is worth it to make history and change history for generations to come.

Congratulations to the women of the University of Washington softball team.

Mr. ROE of Tennessee. A job well done, the University of Washington women's softball team, and I yield back the balance of my time.

Ms. CHU. Mr. Speaker, I yield back the remainder of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from California (Ms. CHU) that the House suspend the rules and agree to the resolution, H. Res. 517.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. CHU. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

#### SUPPORTING THE NATIONAL LEARN AND SERVE CHALLENGE

Ms. CHU. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 769) recognizing the benefits of service-learning as a teaching strategy to effectively engage youth in the community and classroom, and expressing support for the goals of the National Learn and Serve Challenge.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

#### H. RES. 769

Whereas service-learning is a teaching method that enhances academic learning by integrating classroom content with relevant activities aimed at addressing identified community or school needs;

Whereas service-learning has been used both in school and community-based settings as a teaching strategy to enhance learning by building on youth experiences, granting youth a voice in learning, and making instructional goals and objectives more relevant to youth;

Whereas service-learning has been identified as an effective tool in addressing the Nation's dropout epidemic by making education more hands-on and relevant, and has been especially effective in addressing the epidemic with respect to disadvantaged youth;

Whereas service-learning is proven to provide the greatest benefits to disadvantaged and at-risk youth by building self-confidence, which often translates into overall academic and personal success;

Whereas service-learning provides not only meaningful experiences, but a greater quantity and quality of interactions between youth and potential mentors in the community;

Whereas service-learning simultaneously empowers youth as actively engaged learners, citizens, and contributors to the community;

Whereas youth engaged in service-learning provide critical service to the community by

addressing a variety of needs in towns, cities, and States, including needs such as tutoring young children, elderly care, community nutrition, disaster relief, environmental stewardship, financial education, public safety, and a host of other needs;

Whereas far reaching and diverse research base shows that service-learning enhances the academic, career, cognitive, and civic development of kindergarten through 12th-grade students, and of higher education students;

Whereas service-learning strengthens and increases the number of partnerships among institutions of higher education, local schools, and communities, which strengthens communities and improves academic learning;

Whereas service-learning programs unleash a multitude of skilled and enthusiastic college students to serve in the communities surrounding their colleges;

Whereas service-learning programs engage students in actively addressing and solving pressing community issues and are strengthening the ability of nonprofit organizations to meet community needs;

Whereas Learn and Serve America, a program established under subtitle B of title I of the National and Community Service Act of 1990 (42 U.S.C. 12521 et seq.), is the only federally funded program dedicated to service-learning and engages over 1,100,000 youth in service-learning annually;

Whereas Learn and Serve America is a highly cost-effective program, averaging approximately \$25 per participant and leveraging \$1 for every Federal dollar invested; and

Whereas the National Learn and Serve Challenge is an annual event that is taking place this year from October 5 through October 11, 2009, that spotlights the value of service-learning to young people as well as schools, college campuses, and communities, encourages others to launch service-learning activities, and increases recognition of Learn and Serve America: Now, therefore, be it:

*Resolved*, That the House of Representatives—

(1) recognizes the benefits of service-learning in—

(A) enriching and enhancing academic outcomes for youth;

(B) engaging youth in positive experiences in the community; and

(C) encouraging youth to make more constructive choices with regards to their lives;

(2) encourages schools, school districts, college campuses, community-based organizations, nonprofits, and faith-based organizations to work towards providing youth with more service-learning opportunities; and

(3) expresses support for the goals of the National Learn and Serve Challenge.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from California (Ms. CHU) and the gentleman from Tennessee (Mr. ROE) each will control 20 minutes.

The Chair recognizes the gentlewoman from California.

#### GENERAL LEAVE

Ms. CHU. Mr. Speaker, I request 5 legislative days during which Members may revise and extend and insert extraneous material on H. Res. 769 into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from California?

There was no objection.

Ms. CHU. I yield myself as much time as I may consume.

Mr. Speaker, I rise today to recognize the benefits of service-learning as a teaching strategy to effectively engage youth in the community and classroom, and to support the goals of the National Learn and Serve Challenge. I want to thank my colleagues from the National Service Caucus, Mr. PLATTS, Ms. MATSUI, Mr. EHLERS, Mr. PRICE, and Mr. KENNEDY, for introducing this important resolution.

Service-learning is an educational model that can be used from kindergarten to the university level across all subjects and disciplines. By integrating learning in the classroom with real world challenges in the community, service-learning can make school assignments come alive for typically disconnected students. By affording students the opportunity to apply their lessons to solving real problems in their surrounding communities, we are not only engaging our students, but we are also helping to improve our local neighborhoods.

Research has shown long-term positive impacts associated with service-learning, including increased academic achievement, enhanced school engagement, positive civic attitudes, and improved social and personal skills. Students who complete a service project that has a direct tie to their curriculum are able to develop better problem-solving skills and have a better understanding of cognitive complexities. Studies have also shown a connection between service-learning and higher grades and test scores.

Service-learning is also a successful strategy for keeping students engaged in school and makes students less likely to drop out. More than just community service, service-learning applies classroom skills by asking students to investigate a challenge in their community, plan solutions, take action through service, and then reflect on the experience and the results. Students who are engaged in this process become more involved in their studies and in their neighborhoods. In fact, studies have shown that service-learners have better school attendance and more acceptable school behaviors than their peers.

Service-learning also promotes positive civic attitudes and fosters involvement in our democracy. Research suggests that students involved in service-learning opportunities build self-confidence, leadership skills, and increase their tolerance of others. Further studies have also shown that high school students that participated in service-learning are more likely to vote 15 years after their experience than those that did not participate.

Finally, students who are exposed to service-learning build important social and personal skills. Service-learning

serves as an on-ramp to civic engagement for a lifetime. Students who are involved with service develop strong ethics and a sense of social responsibility. Participation in those programs has also been shown to reduce negative behaviors such as those that lead to arrest or pregnancy.

In order to call attention to the many benefits of service-learning, the National Learn and Serve Challenge will take place October 5–11. This week-long nationwide celebration of service will raise awareness of service-learning and foster collaborative partnerships between local schools, institutions of higher education, and their surrounding communities. The organization has set an ambitious goal of having 5 million college students and 50 percent of K–12 schools engaged in meaningful service by 2010.

Mr. Speaker, once again, I express my support for the National Learn and Serve Challenge, and I encourage more schools to take advantage of the many benefits service-learning can have on our students and our communities. I urge my colleagues to pass this resolution.

I reserve the balance of my time.

Mr. ROE of Tennessee. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, I rise in support of House Resolution 769, a resolution recognizing the benefits of service-learning as a strategy to effectively engage youth in the classroom and community and expressing support for the goals of the Learn and Serve Challenge.

The National Learn and Serve Challenge is an annual event that takes place from October 5 to 11 and highlights the importance of engaging young people in community service. Through service-learning, students conduct community service projects which teachers then use to teach academic lessons in the classroom.

The challenge encourages young people to participate in special events and community outreach projects. It also encourages young people to develop and launch their own service-learning activities. These projects also help students see the real-life relevance of what they are learning in the classroom and apply their new knowledge in a practical manner.

I recognize the value of engaging youth in service in the community, and I honor the goals of the National Learn and Serve Challenge. I urge my colleagues to support this resolution, and also, Mr. Speaker, I think that young people learn to give back to their community and leave their community a little bit better than they found it through this project.

I yield the balance of my time.

Ms. CHU. Mr. Speaker, I yield back the remainder of my time.

The SPEAKER pro tempore. The question is on the motion offered by

the gentlewoman from California (Ms. CHU) that the House suspend the rules and agree to the resolution, H. Res. 769.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

#### RECOGNIZING THE 100TH ANNIVERSARY OF THE STATE NEWS AT MICHIGAN STATE UNIVERSITY

Ms. CHU. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 487) recognizing the 100th anniversary of the State News at Michigan State University.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

#### H. RES. 487

Whereas, on March 10, 1909, the first edition of the Holcad was printed at Michigan Agricultural College;

Whereas the Holcad was founded to defend the student body of Michigan Agricultural College against criticism;

Whereas the Holcad eventually changed its name to the State News, and Michigan Agricultural College became Michigan State University;

Whereas in 1971, the State News became a 501(c)3 organization, independent from Michigan State University;

Whereas the State News employs hundreds of students and trains them in reporting, photography, design, web programming, and advertising;

Whereas for 100 years, the State News has connected students to each other and other members of the East Lansing community;

Whereas the State News provides an avenue for students and members of the East Lansing community to voice their opinions and report news; and

Whereas the State News has upheld a commitment to journalism and has created a more informed and unified citizen body: Now, therefore, be it

*Resolved*, That the House of Representatives recognizes the 100th anniversary of the State News.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from California (Ms. CHU) and the gentleman from Tennessee (Mr. ROE) each will control 20 minutes.

The Chair recognizes the gentlewoman from California.

#### GENERAL LEAVE

Ms. CHU. Mr. Speaker, I request 5 legislative days during which Members may revise and extend and insert extraneous material on H. Res. 487 into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from California?

There was no objection.

Ms. CHU. I yield myself as much time as I may consume.

Mr. Speaker, I rise today in support of H. Res. 487, which recognizes the 100th anniversary of the campus newspaper at Michigan State University, The State News.

The State News started in 1909 with the creation of the college's first newspaper, the Holcad News, named after an ancient Greek ship. In 1925, the Holcad changed its name to The State News, educating students, faculty, and alumni about local and national news.

Originally, The State News was created to defend Michigan State University students from the harsh criticism they were receiving from the local newspapers. Although it began with weekly editions, State News eventually progressed into a daily newspaper. With a circulation of 28,500 to approximately 280 locations on and off campus, The State News is now one of the Nation's largest student daily newspapers.

Today, continuing a tradition of serving the Michigan State University community, The State News collects distinguished honors, including several designations as the best college newspaper in the country, and sends their student employees to top national news organizations, such as The New York Times, the Associated Press and The Washington Post.

The accolades received by The State News are also a reflection of MSU's academic accomplishments. Michigan State University possesses a pre-eminent educational record. Today, MSU enrolls over 46,000 students and offers a wide range of courses. With over 100 undergraduate majors, 17 different colleges, and 29 online degree programs, MSU boasts a strong academic profile. In fact, MSU has produced more Rhodes Scholars than any other Big Ten school over the past 25 years. Both The State News and the MSU community have brought national acclaim to East Lansing, Michigan.

Mr. Speaker, I want to thank Mr. ROGERS for bringing this resolution forward. I urge my colleagues to support this measure.

I reserve the balance of my time.

Mr. ROE of Tennessee. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, I rise in support of House Resolution 487, a resolution to recognize the 100th anniversary of The State News, the campus newspaper at Michigan State University.

The State News was actually founded as the Holcad in 1909 when Michigan State University was still Michigan Agricultural College. It became the Michigan State News in 1925 when the college was renamed Michigan State University. In 1971, the paper separated from the university to become an independent, nonprofit organization.

Since that time, the paper has received many awards. It has won the Associated Collegiate Press Pacemaker award, an award that is considered the Pulitzer Prize of college journalism, 16 times. It has been ranked as one of the Nation's best daily college newspapers

by the Society of Professional Journalists and the Associated College Press. And it was ranked number 11 on a list of the best college newspapers in the country by the Princeton Review in 2008.

The paper has a number of noted alumni, including Pulitzer Prize winning journalist Jim Mitzfeld and Jerry ter Horst, President Gerald Ford's press secretary.

I would like to commend The State News on the occasion of its 100th anniversary and congratulate all of the students and former students that have dedicated their time to making this paper great.

I urge my colleagues to support this resolution.

I yield back the balance of my time.

Ms. CHU. Mr. Speaker, I yield back the remainder of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from California (Ms. CHU) that the House suspend the rules and agree to the resolution, H. Res. 487.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. CHU. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

□ 1115

#### SUPPORTING NATIONAL CAMPUS SAFETY AWARENESS MONTH

Ms. CHU. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 90) supporting the goals and ideals of National Campus Safety Awareness Month.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

#### H. RES. 90

Whereas college and university campuses are not immune from the crime problems that face the rest of society in the United States;

Whereas a total of 37 homicides, 8,112 forcible-sex offenses, 8,923 aggravated assaults, and 3,071 cases of arson were reported on college and university campuses from 2004 to 2006, in accordance with the reporting requirements under the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (20 U.S.C. 1092(f); Public Law 89-329);

Whereas criminal experts estimate that between 1/3 and 1/4 of female students become the victim of a completed or attempted rape, usually by someone they know, during their college careers, but fewer than 5 percent report the assault to law enforcement;

Whereas each year, 13 percent of female students enrolled in an undergraduate program at a college or university will be victims of stalking;

Whereas 1,700 college and university students between the ages of 18 and 24 die each year from unintentional alcohol-related injuries, including motor vehicle accidents;

Whereas Security On Campus, Inc. (hereinafter referred to as "SOC"), a national nonprofit group dedicated to promoting safety and security on college and university campuses, has designated September as National Campus Safety Awareness Month;

Whereas each September since 2005, SOC has partnered with colleges and universities across the United States to offer National Campus Safety Awareness Month educational programming on sexual assault, alcohol and other drug abuse, hazing, stalking, and other critical campus safety issues; and

Whereas National Campus Safety Awareness Month provides an opportunity for entire campus communities to become engaged in efforts to improve campus safety: Now, therefore, be it

Resolved, That the House of Representatives—

(1) supports the goals and ideals of National Campus Safety Awareness Month; and  
(2) encourages colleges and universities throughout the United States to provide campus safety and other crime awareness and prevention programs to all students throughout the year.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from California (Ms. CHU) and the gentleman from Tennessee (Mr. ROE) each will control 20 minutes.

The Chair recognizes the gentlewoman from California.

#### GENERAL LEAVE

Ms. CHU. Mr. Speaker, I request 5 legislative days during which Members may revise and extend and insert extraneous material on House Resolution 90 into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from California?

There was no objection.

Ms. CHU. I yield myself as much time as I may consume. Mr. Speaker, I rise today in support of House Resolution 90, which recognizes the importance of safety on college campuses and promotes the idea of National Campus Safety.

As a community college professor for 20 years and the author of a California bill, the Campus Sexual Assault Safety Act, I understand firsthand how vital campus safety is to enhancing the learning experiences of its students, but more importantly, how raising awareness can serve to prevent campus violence.

We have witnessed this in several tragic cases, for instance, in the case of the death of Jeanne Clery in the late 1980s, who was a freshman at Lehigh University. On April 5, 1986, Jeanne was beaten, raped and murdered in her dormitory room. Jeanne's case brought college campus safety to the forefront when it exposed flaws in the reporting of crime information related to violence on colleges campuses.

At that time, both violent and non-violent incidents were reported to campus authorities, but administrators had

no legal obligation to disclose violent college crimes to the public. In the aftermath of Jeanne's murder, her parents, Connie and Howard Clery, founded Security on Campus, Inc., to end violence on all college campuses.

It is a nonprofit, grass-roots organization dedicated to making campuses safe. Partnering with over 150 colleges from 42 States, Security on Campus, Inc., offers educational programs on sexual assault, alcohol and drugs. Over the past few years, we have seen how important it is to pay attention to our students' safety on campus. It is unfortunate that it takes tragic events like those occurring at Virginia Tech and Northern Illinois for us to remember that crimes take place on college campuses all over the country.

More recently, Annie Le, a Yale University graduate student was allegedly murdered and found dead on campus the day she planned to marry her college sweetheart. The reauthorization of the Higher Education Act last year took new action to improve campus safety. It required each educational institution to clearly articulate a method to disseminate emergency notifications to the entire campus body in the case of an emergency. The law also includes measures to ensure that campus preparedness employees coordinate with local law enforcement and emergency management authorities to improve responses to campus emergencies.

Campus safety is relevant, important and necessary. Anyone can become a victim of a campus crime, and it is imperative that students are taught how to avoid dangerous situations. Congress must continue to encourage institutions to update their campus security plans and ensure systems are in place to deal with all types of emergencies. As we commemorate National Campus Safety Awareness Month in September, let us focus our efforts on educating our students about campus safety. Students need to be reminded every year about practical precautions to increase their safety.

Mr. Speaker, once again, I express my support for National Campus Safety Awareness Month and thank Representative SESTAK for bringing this resolution forward. I urge my colleagues to support this resolution.

I reserve the balance of my time.

Mr. ROE of Tennessee. Mr. Speaker, I yield myself as much time as I may consume.

I rise in support of House Resolution 90, a resolution supporting the goals and ideals of National Campus Safety Month. I would like to thank my colleague, Representative SESTAK, for introducing this important resolution recognizing the importance of safety on college campuses and the efforts of outside organizations to dedicate September to promoting greater public awareness of campus safety issues.

Unfortunately, over the past few years, we have seen how important it is to pay attention to our students' safety on campus. Sadly, college campuses are faced with the same crimes that plague many of our country's cities. Whether it be situations involving one individual, like the tragic murder of Annie Le at Yale University, or situations that involve the whole campus, like what occurred several years ago at Virginia Tech, colleges should continue to take steps to make sure the campus community is aware of activities on campus. A more informed population is often a safer population.

To that end, Congress took several steps in the Higher Education Opportunity Act last year to encourage institutions to update their campus security plans and ensure that they have steps in place to deal with all different types of emergencies.

Mr. Speaker, this resolution is especially timely this week as millions of students have left their homes and begun their fall semesters at colleges around the country. And I am pleased to support this resolution and urge my colleagues to do the same. And just as a sidebar—this didn't occur on a college campus—but one of the most distressing things that I have seen in my recent memory was the death of this young honor student in Chicago. And I think this just goes to safety on all campuses. I pray for that family and for that city with this terrible tragedy.

I reserve the balance of my time.

Ms. CHU. Mr. Speaker, I am pleased to recognize the gentleman from Pennsylvania, the sponsor of this resolution, Mr. SESTAK, for 4 minutes.

Mr. SESTAK. Mr. Speaker, this month students will return to their colleges and universities with the anticipation that surrounds a new academic year. And yet we are reminded that these young people will not be immune from unique challenges that face all of us in every community throughout this Nation. The tragic shootings of two students last October at the University of Central Arkansas, the shootings at Virginia Tech which ended in the death of 32 people, and the shootings at Northern Illinois University, where 24 people were shot and six died, emphasize the importance of the issue of campus safety.

The Department of Education has found that between 2005 and 2007 there were not only 10,000 forcible sex offenses, 16,000 aggravated assaults, and 3,000 cases of arson, but also 117 homicides on the campuses of colleges and universities throughout this country. Between one-fifth and one-fourth of female students will become the victims of a completed or an attempted rape, usually by someone they know during their undergraduate careers, and yet less than 5 percent of the cases are ever reported.

Additionally, the National Advisory Council on Alcohol Abuse and Alco-

holism has found that each year there are over 1,700 college students between the ages of 18 and 24 who will die from unintentional alcohol-related injuries, including motor vehicle accidents. As we reflect on the significance of this data, we come to understand why this resolution is so important. Originally introduced by a colleague on the other side of this aisle in 2005, this resolution builds on the work of a nonprofit organization, Security on Campus, which is located in King of Prussia, Pennsylvania, in my district.

The organization was founded by the parents of a 19-year-old college freshman, Jeanne Clery, who was raped and killed in her college dorm in 1986. In 2008, thanks to the work of this organization, 350 colleges came together from 42 States and the city of Washington, D.C. to participate in programs on campus safety. Although this resolution is far from the final step to guarantee security on the campuses of our Nation's colleges and universities, it is an important step, along with establishing a National Center for Campus Public Safety towards addressing an issue that we all care about, the security of our children.

I urge all my colleagues to show their concern for the safety of the more than 15 million students throughout the country who are the true motivation behind this great resolution. And I appreciate all of the support and the ideas from the other side. I encourage my colleagues, throughout this great House, to support this resolution.

Mr. ROE of Tennessee. I yield back the balance of my time. I thank my colleagues on the other side of the aisle for this resolution.

Ms. CHU. Mr. Speaker, I am pleased to recognize the gentleman from Virginia (Mr. SCOTT) for 3 minutes.

Mr. SCOTT of Virginia. Mr. Speaker, I thank the gentlelady from California (Ms. CHU) and the gentleman from Pennsylvania (Mr. SESTAK) for their leadership on the issue of campus safety.

I rise in support of H. Res. 90, a resolution supporting the goals and ideals of the National Campus Safety Awareness Month. This resolution helps bring awareness to the issue of campus safety. Each year, college campuses across the Nation see a number of criminal offenses, including homicide, forcible sex offenses, aggravated assaults and arson occurring on their campuses. A recent example is the unfortunate murder that occurred at Yale University just a few weeks ago.

Additionally, over the past few years we have seen numerous tragedies occur at colleges and universities, including the disastrous events that occurred at Virginia Tech and Northern Illinois University. National Campus Safety Awareness Month provides an opportunity for campuses to evaluate their campus safety practices and engage in efforts to improve campus safety.

In addition to Campus Safety Awareness Month, one way in which we can improve campus safety would be to provide a one-stop shop for universities to obtain safety information. This is why I introduced the Center to Advance, Monitor and Preserve University Security, or the CAMPUS, Safety Act of 2009.

The purpose of this legislation is to enable our institutions of higher education to easily obtain the best information available on how to keep our campuses safe and how to respond in the event of a campus emergency. The CAMPUS Safety Act creates a National Center for Campus Public Safety, which will be administered through the Department of Justice. The center is designed to train campus public safety agencies in state-of-the-art practices to ensure campus safety, encourage research to strengthen college campus safety and security, and serve as a clearinghouse for the dissemination of relevant campus public safety information.

This bill passed the House of Representatives in February. It also passed last year, but it still awaits action from the Senate. Once the National Center for Campus Public Safety is established it, along with events like the National Campus Awareness Month, will be able to greatly assist schools in assessing their campus safety initiatives.

I commend the gentleman from Pennsylvania (Mr. SESTAK) for introducing this resolution to bring awareness to this issue and urge my colleagues to support this important resolution.

Ms. CHU. Mr. Speaker, I yield back the remainder of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from California (Ms. CHU) that the House suspend the rules and agree to the resolution, H. Res. 90.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

#### ACCEPTANCE OF STATUE OF HELEN KELLER PRESENTED BY THE PEOPLE OF ALABAMA

Mr. BRADY of Pennsylvania. Mr. Speaker, I move to suspend the rules and concur in the concurrent resolution (S. Con. Res. 41) providing for the acceptance of a statue of Helen Keller, presented by the people of Alabama, as amended.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution as amended, is as follows:

S. CON. RES. 41

*Resolved by the Senate (the House of Representatives concurring),*

#### SECTION 1. ACCEPTANCE OF STATUE OF HELEN KELLER FROM THE PEOPLE OF ALABAMA FOR PLACEMENT IN UNITED STATES CAPITOL.

(a) IN GENERAL.—The statue of Helen Keller furnished by the people of Alabama for placement in the United States Capitol in accordance with section 1814 of the Revised Statutes of the United States (2 U.S.C. 2131), is accepted in the name of the United States, and the thanks of the Congress are tendered to the people of Alabama for providing this commemoration of one of Alabama's most eminent persons.

(b) PRESENTATION CEREMONY.—The State of Alabama is authorized to use the rotunda of the Capitol on October 7, 2009, for a presentation ceremony for the statue accepted under this section. The Architect of the Capitol and the Capitol Police Board shall take such action as may be necessary with respect to physical preparations and security for the ceremony.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania (Mr. BRADY) and the gentleman from California (Mr. DANIEL E. LUNGREN) each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania.

#### GENERAL LEAVE

Mr. BRADY of Pennsylvania. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks on this legislation.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. BRADY of Pennsylvania. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, this resolution provides for the use of the Capitol rotunda on October 7, 2009, for a presentation and unveiling ceremony of the statue of Helen Keller. Since her story has been widely told, Helen Keller has been a lasting symbol of perseverance and bravery worldwide. Struck blind and deaf when she was a little over a year old, Helen Keller went on to lead a remarkable life.

□ 1130

She was the first blind person to receive a bachelor's degree. At the age of 22, she published her autobiography, "The Story of My Life" and went on to write 10 more books. She was an outspoken activist and proponent of women's rights as well as an advocate for people with disabilities.

Helen Keller is a superb addition to the already impressive National Statuary Hall collection. I am proud to support this resolution.

I reserve the balance of my time.

Mr. DANIEL E. LUNGREN of California. Mr. Speaker, I yield myself such time as I may consume.

I am pleased to support this resolution, Mr. Speaker, to accept the statue of Helen Keller presented by the people of the great State of Alabama. I come here today not to honor a mere statue of marble or stone, but to honor a

woman of extraordinary courage, compassion and determination.

Helen Keller was born June 27, 1880, in Tuscumbia, Alabama. During only the 19th month of her young life, Helen lost not only her sight but also her hearing during an apparent bout of meningitis.

As many of us have seen in the award-winning play and the movie "The Miracle Worker," at age 7, with the help of her gifted teacher, Anne Sullivan, Helen ascertained the ability to communicate. During her young life, she worked strenuously and tirelessly to overcome her sensory impediments and help others do the same.

She attended the Perkins School for the Blind for 4 years; the Cambridge School for Young Ladies for 1; and Radcliffe College, a sister school to Harvard University, for 4 years. There she earned a bachelor of arts degree and graduated cum laude as our Nation's first deaf and blind college graduate.

Helen Keller worked tirelessly on behalf of her fellow men and women in this country and around the world: the blind, the deaf, the disabled, those seeking the right to vote, workers, and many others. A prolific author, one of her autobiographies, "The Story of My Life," has been translated into over 50 languages.

She provided vital support to organizations such as the American Foundation for the Blind, and was justly given honorary degrees from Temple University, the University of Glasgow, the University of Delhi, the University of Berlin, and the University of Johannesburg. In 1964, President Lyndon Johnson awarded her the highest possible civilian award, the Presidential Medal of Freedom. She was also honored with Brazil's Order of the Southern Cross, the Philippines' Golden Heart, and Japan's Sacred Treasure. In 1991, she was named by LIFE magazine as one of the 100 most important Americans of the 20th century.

Helen Keller will be the first person with disabilities enshrined here in our Nation's Capitol. This honor is long overdue. She was and is an inspiration to all of us regardless of our age, status, ethnicity, or background. To marvel at the dignity and beauty inherent in all human beings, to use the gifts and attributes that each of us possess to their full potential, to help our fellow citizens and human beings meet and overcome whatever fears, challenges and adversity they may face, these are the legacies of Helen Keller that will be so richly preserved by this statue in her honor.

During this time of important challenges in our country and at all times in which human beings embark and journey on the road of life, Helen Keller reminds us that "Although the world is full of suffering, it is full also of the overcoming of it" and "No pessimist ever discovered the secret of the

stars or sailed an uncharted land, or opened a new doorway for the human spirit."

Mr. Speaker, I reserve the balance of my time.

Mr. BRADY of Pennsylvania. Mr. Speaker, I would like to yield 2 minutes to the gentleman from Alabama (Mr. GRIFFITH).

Mr. GRIFFITH. Mr. Speaker, I, too, rise in honor of the life and the experiences of Helen Keller.

Born in my district in Tusculumbia, the Helen Keller birthplace is a national shrine visited by thousands of Americans every year. She was a remarkable woman, had great courage, and, with the help of Anne Sullivan, learned to overcome both deafness and blindness. She said about her disability that the loss of sight separated her from objects but the loss of hearing separated her from people. She overcame these with great courage and determination, and her teacher and her constant companion, Anne Sullivan, were heroes for all of America and continue to be heroes today.

Always a constant role model for people with disabilities in America and around the globe, Mrs. Keller was a friend of many of our world leaders, recognized, as has been said, as one of the greats of the 20th century.

Soon we will celebrate her life and her experiences by unveiling a statue, and we believe that she will be permanently enshrined in the history of the life of America. Her great courage and great determination are qualities that we certainly admire and can use to this day.

I appreciate so much Governor Riley of Alabama and the entire State of Alabama in their dedication and their perseverance in getting the statue here and all the work that has gone into it. Our Alabama delegation here in the Congress as well as our Senators have taken part, and we appreciate that so much.

Mr. DANIEL E. LUNGREN of California. Mr. Speaker, I now yield to the distinguished gentleman from Alabama, Congressman BACHUS, such time as he may consume.

Mr. BACHUS. The story of Helen Keller has inspired generations of Americans. It is especially meaningful for those of us from Alabama because Helen Keller is one of our own. Her statue will vividly remind us of a young girl from the rural south and how she overcame tremendous challenges to become a symbol of hope and determination for people throughout the world.

As my colleague, Mr. LUNGREN, described, Helen was not even 2 years old when illness left her unable to see or hear. That would be difficult enough for a child and for a father and mother to deal with today with all our advantages. Imagine how devastating it must have been for a family in the Deep South during the 1880s.

Some might have mistakenly assumed that Helen or a child who is blind and deaf may not aspire to do anything more than be cared for with compassion. But such is certainly not the normal mindset of children with physical limitations as many of us know. They have the same aspirations and hopes and dreams as their fellow children.

It certainly was not the case for Helen. Helen's parents also refused to accept limits on their child or on her life, just as Helen. When she grew older, they refused to be limited by her disabilities. They had a deep and strong faith that their daughter could be educated and live a full and rich life. And while Helen could not yet express that she had the same determination, ultimately this would bring them in contact with Anne Sullivan and lead to the scene which is depicted by the new statue: that miraculous moment when Helen Keller, with water running over her hands, finally understood what a word meant and that word was "water." Very few statues can tell such a moving story. This one does.

But, of course, it is only the beginning of the story of Helen Keller and what she chose to use her life for, and that was to help others. As an educator, as an advocate, as a humanitarian, she showed there is no obstacle that cannot be overcome. Her life reminds us to cherish every member of our society because each person has unique gifts and blessings from God.

The statue will be very popular, especially with children. It conveys the important message that whatever life's challenges, nothing should ever hold us back. We live in a country where you can overcome any obstacle and achieve your dreams if you work hard and possess the desire to succeed.

There were many people involved with this project that the Alabama delegation wishes to acknowledge. My colleague, PARKER GRIFFITH, has mentioned Governor Bob Riley and his wife Patsy. They were two of the guiding forces behind the statue that is such a great gift from the people of Alabama to the people of our Nation. Governor, I hope you and the First Lady look upon this as one of your proudest legacies.

Dr. Joe Busta from the University of South Alabama, who was co-chair of the Helen Keller Campaign, and his co-chair Elmer Harris, former CEO of Alabama Power.

Dr. Bob Morris and his team at the Helen Keller Foundation. Dr. Morris devotes weeks of each year to restoring sight of children who have lost their sight and is actually a miracle worker today giving the gift of sight.

Dr. Terry Graham, president of the Alabama Institute for the Deaf and Blind, and Lynne Hanner from the Institute.

Among the members who served on the Helen Keller Campaign and the

Artist Selection Committee, the Alabama delegation is honored to have three members of the Keller family: great nephew Bill Johnson, great nephew Warren Johnson, and great grand niece Keller Johnson Thompson.

And, of course, finally we recognize the outstanding work of the artist, Edward Hlavka.

We all look forward to the formal unveiling of the Helen Keller statue next Wednesday. It will be a powerful moment for those of us from the State of Alabama at our beautiful Capitol.

Let me thank Senator SESSIONS and Senator SHELBY for their support of this resolution.

Mr. BRADY of Pennsylvania. Mr. Speaker, I reserve the balance of my time.

Mr. DANIEL E. LUNGREN of California. Mr. Speaker, I have no other speakers who are here, so let me just say that I rise in support of this resolution.

Helen Keller is not only a tremendous symbol of the State of Alabama and the United States, but it's not just her history that we reflect on today, it is her inspiration for those of us who are alive today.

There are some in our society—I remember Professor Peter Singer—who have suggested that some infants are not worthy of our support as human beings because they are less than the rest of us. I've often wondered if it is our failure to be able to unlock that vault in which some children find themselves where they're unable to communicate to us. And if we reflect back on Helen Keller's life, Helen Keller had that greatness within her at all times. It was the inability of the outside world to be able to communicate with her as much as it was her inability to communicate with the outside world. That should be a lesson for all of us that no child is unworthy in our society and that sometimes when we do not understand their worth, it may be our loss rather than theirs.

Think what would have happened if that great teacher of Helen Keller hadn't taken the time to be able to unlock that vault and be able to begin to communicate with that young girl. Not only how differently would Helen Keller's life had turned out, but how differently the plight of the disabled in this country and around the world would have been.

So let us not just think of Helen Keller as a historic figure for which we give her homage today and for which we will honor her with this statue, but let's think of her as a living memorial of the challenge to all of us to reach beyond that which is easy to find out the greatness that lies within every individual.

So I thank you, Mr. Speaker. I thank Chairman BRADY and the delegation of Alabama for taking up this resolution. I urge my colleagues to join me in support.

I yield back the balance of my time.

Mr. BRADY of Pennsylvania. I also thank the gentleman for his cooperation in everything we do in our committee. I do think that Helen Keller will be a great addition to Statuary Hall.

Some wise old lady told me years ago that when someone gives you lemons, you turn them into lemonade, and that's exactly what that lady did. That statue in Statuary Hall will be an inspiration to all of us.

With that, I support the resolution.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania (Mr. BRADY) that the House suspend the rules and concur in the concurrent resolution, S. Con. Res. 41, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the concurrent resolution, as amended, was concurred in.

A motion to reconsider was laid on the table.

□ 1145

#### SUPPORTING TAY-SACHS AWARENESS MONTH

Mr. PALLONE. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 692) supporting the goals and ideals of Tay-Sachs Awareness Month, as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

#### H. RES. 692

Whereas Tay-Sachs disease is a rare, genetic disorder that causes destruction of nerve cells in the brain and spinal cord due to the poor functioning of an enzyme called hexosaminidase A;

Whereas there is no proven treatment or cure for Tay-Sachs disease, which is usually fatal in children;

Whereas the disorder was named after Warren Tay, an ophthalmologist from the United Kingdom, and Bernard Sachs, a neurologist from the United States, both of whom contributed to the discovery of the disease in 1881 and 1887, respectively;

Whereas Tay-Sachs disease often affects families with no prior history of the disease;

Whereas approximately 1 in 27 Ashkenazi Jews, 1 in 30 Louisianan Cajuns, 1 in 30 French Canadians, 1 in 50 Irish Americans, and 1 in every 250 people are carriers of Tay-Sachs disease;

Whereas approximately 1,500,000 Americans are carriers of Tay-Sachs disease;

Whereas these unaffected carriers of the disease possess the recessive gene that can trigger the disease in future generations;

Whereas if both parents of a child are carriers of Tay-Sachs disease, there is a 1 in 4 chance that the child will develop Tay-Sachs disease;

Whereas a simple and inexpensive blood test can determine if an individual is a carrier of Tay-Sachs disease, and screening for this disease should be available when clinically indicated; and

Whereas heightened awareness and public-private partnerships to find a treatment are effective ways to combat this horrific disease: Now, therefore, be it

*Resolved*, That the House of Representatives supports the goals and ideals of Tay-Sachs Awareness Month and supports a public-private partnership for education and research efforts with respect to Tay-Sachs disease.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. PALLONE) and the gentleman from Nebraska (Mr. TERRY) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.

#### GENERAL LEAVE

Mr. PALLONE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. PALLONE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of House Resolution 692, supporting the goals and ideals of Tay-Sachs Awareness Month. Tay-Sachs disease is a very rare genetic disorder that leads to the destruction of nerve cells in the brain and spinal cord. The disease is prevalent in Ashkenazi Jews, French Canadians, Louisianan Cajuns, and Irish Americans. One in 250 Americans are carriers of the disease. If both parents are carriers, there's a one in four chance that a child born will suffer from Tay-Sachs.

This is a terrible and unforgiving disease that strikes so early in life the victims don't have much of a chance. As young as 6 months old, children start presenting symptoms. They stop developing and start losing motor and mental skills, ultimately leading to paralysis and death. There's no treatment that can stop the progression of this disease. There's no cure. Because of this, Tay-Sachs is always fatal. Most children do not survive past the age of 4.

Prevention is the only remedy, and that can be accomplished through education and information. A simple blood test can indicate if a person is a carrier. With this knowledge, parents can be better prepared and aware of the chances that they have a child with this terrible disease.

The resolution before us today supports heightened awareness about and increased research on this disease. I'd like to thank my colleague, Representative ARCURI, for his work in raising this important issue. I urge my colleagues to pass this resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. TERRY. Mr. Speaker, I yield myself such time as I may consume.

I rise today in support of House Resolution 692, recognizing September as Tay-Sachs Awareness Month. Tay-Sachs disease affects the lives of almost 1.5 million Americans who are carriers of the disease.

Infants are the most vulnerable to this disease. They appear to develop normally for the first few months of life, but then, as nerve cells become distended with fatty material, a relentless deterioration of mental and physical abilities occurs. These helpless children then become blind, deaf, and unable to swallow. Muscles begin to atrophy. Paralysis sets in. Even with the best of care, children with Tay-Sachs disease usually die by the age of 4 from recurring infections.

A much rarer form of the disorder occurs in patients in their twenties and early thirties and is characterized by an unsteady gait and progressive neurological deterioration.

Unfortunately, the incidence of Tay-Sachs is particularly high among people of Eastern European and Ashkenazi Jewish descent. Patients and carriers of Tay-Sachs disease can be identified by a simple blood test. Parents of high-risk populations are encouraged to have their children screened for this gene.

Presently, there is no treatment for Tay-Sachs disease, but I would like to recognize the National Institute of Neurological Disorders and Strokes for their efforts to reduce the burden of this neurological disease. NINDS is part of the National Institutes of Health and conducts research on Tay-Sachs disease in laboratories at the NIH and also supports additional research through grants to major medical institutions across the country.

I encourage all of my colleagues to vote in favor of this resolution, Mr. Speaker, and reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I yield 4 minutes to the sponsor of this legislation, the gentleman from New York (Mr. ARCURI).

Mr. ARCURI. I thank the gentleman from New Jersey for recognizing me.

Mr. Speaker, I rise today in strong support of House Resolution 692, which recognizes this September 2009 as Tay-Sachs Disease Awareness Month. I'm proud to cosponsor this resolution, and I commend my friend from Ohio, Senator SHERROD BROWN, for spearheading a companion resolution in the Senate.

Tay-Sachs disease is a progressive neurological disorder for which there is no known treatment or cure. The most common form affects infants who appear healthy at birth and seem to develop normally at first, but at around 6 months the symptoms of the disease begin to appear. The baby gradually begins to regress, losing the ability to crawl, turn over, sit, or reach out. Eventually, as paralysis sets in, the child becomes blind, deaf, and unable

to swallow. Tragically, few infants born with Tay-Sachs live past the age of 5.

This terrible disease appears most often in families with no prior history because the Tay-Sachs gene can be carried through many generations without being expressed. However, when two carriers of the gene become parents, there is a one-in-four chance that any child they will have will be born with the disease.

While about 1.5 million Americans are carriers of the Tay-Sachs gene, certain populations are much more at risk. About 1 in every 30 American Jews and 1 in 50 Irish Americans is a carrier. French Canadians, Louisiana Cajuns, and Pennsylvania Dutch are also high-risk populations.

It is easy to reduce this terrible disease like Tay-Sachs to statistics, but there is a human story behind statistics that we must not overlook. My wife's son, Joey Deon, was born a happy, healthy baby. There was no warning he would be afflicted by this terrible disease, but at the age of 1, he began to show symptoms.

His mother, like many parents of children with Tay-Sachs, was the first to notice that something was wrong. She sat through many tests and the awful day they were told that Joey had Tay-Sachs. She was forced to watch a once active healthy, happy baby slowly lose sight, hearing, and muscle control.

Joey passed away in his sleep 1 month before his fifth birthday. We were thankful he died peacefully in his sleep shortly after his mother held him and fed him for the last time. Not all deaths from Tay-Sachs are peaceful. Some can be quite long and agonizing.

Mr. Speaker, a simple blood test can identify carriers of Tay-Sachs genes before they have children, but very few people, including those in high-risk populations, are aware of the availability of this test. This critical and relatively inexpensive test can identify carrier couples before the tragedy occurs. It is a test that my own health insurance, incredibly, did not cover, and I had to pay for myself. But it's a test that primary care physicians should be aware of and discuss with high-risk populations.

Raising awareness of this terrible disease is important, but it is critical that we also put words into actions. Millions of Americans suffering from rare diseases like Tay-Sachs, and more common diseases like cancer, stand to benefit from an expanded Federal commitment to stem cell research. We must also continue to increase funding for the National Institutes of Health. Federal support for cutting-edge biomedical research will make treatments and cures for diseases like Tay-Sachs a reality.

Mr. Speaker, I urge my colleagues today to support House Resolution 692 and Tay-Sachs Disease Awareness Month.

Mr. KLEIN of Florida. Mr. Speaker, I rise today in strong support of H. Res. 692, supporting the goals and ideals of Tay-Sachs Awareness Month, and I thank my good friend from New York, Mr. ARCURI, for introducing this important resolution, as well as all of my colleagues who, like me, have added their name as a cosponsor.

Tay-Sachs disease is a rare, genetic disorder that lacks a proven treatment or cure. It attacks the nerve cells in the brain and spinal cord of children with fatal results. The deterioration starts at 6 months of age and usually ends with death by age four.

Everyone in this distinguished chamber would agree that this fate should never fall on a child or the parents. Yet this genetic disease disproportionately impacts specific ethnic groups. Approximately 1 in 27 Ashkenazi Jews, 1 in 30 Louisianan Cajuns, 1 in 30 French Canadians, and 1 in 50 Irish Americans are carriers of this gene. If the parents of a child are both carriers of Tay-Sachs disease, then the child has a 1 in 4 chance of developing the disease.

My wife, Dori, and her family were personally affected by this terrible disease. Both parents were carriers, and as a result, my wife's sister developed Tay-Sachs as a baby. It was a terrible tragedy to see a life so young taken from them, and it's a reminder to me that our work here in the United States Congress must include a long-term commitment to curing diseases like Tay-Sachs, so every child can have an opportunity to grow up and live the American Dream.

H. Res. 692 will help in this crusade by bringing important attention to Tay-Sachs disease and supporting the goals and ideals of Tay-Sachs Awareness Month. I thank the lead sponsor, Mr. ARCURI, again for introducing this important resolution and urge its passage.

Mr. TERRY. Mr. Speaker, we have no further speakers, and so I'm prepared to yield back the balance of our time.

Mr. PALLONE. Mr. Speaker, I, too, have no additional speakers, so I would yield back the balance of my time and ask for passage.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New Jersey (Mr. PALLONE) that the House suspend the rules and agree to the resolution, H. Res. 692, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. PALLONE. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

#### HONORING HILLERICH & BRADSBY CO. ON 125TH ANNIVERSARY OF LOUISVILLE SLUGGER

Mr. PALLONE. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 314) honoring and

saluting Hillerich & Bradsby Co. on the 125th anniversary of the Louisville Slugger.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

#### H. RES. 314

Whereas John Andrew "Bud" Hillerich made the first Louisville Slugger, originally known as the "Falls City Slugger", for Pete "The Old Gladiator" Browning of the Louisville Eclipse in Louisville, Kentucky, in 1884; Whereas Hillerich & Bradsby Co. is a fifth-generation, family-owned company celebrating its 125th anniversary;

Whereas today the Louisville Slugger is the Official Bat of Major League Baseball, having had more than 8,500 professional baseball players under contract, beginning in 1905 with Honus Wagner, and including Hall of Fame members such as Ty Cobb, Babe Ruth, Lou Gehrig, Joe DiMaggio, Stan Musial, Mickey Mantle, Jackie Robinson, Roberto Clemente, Hank Aaron, and Louisville's own Pee Wee Reese;

Whereas Hillerich & Bradsby Co. has made over 100,000,000 Louisville Slugger bats in 125 years and currently makes approximately 1,800,000 bats, including souvenir bats, yearly;

Whereas 80 percent of National Baseball Hall of Fame hitters were under contract with Louisville Slugger;

Whereas 60 percent of today's Major League Baseball players use Louisville Slugger bats;

Whereas since 1884, Hillerich & Bradsby Co. has expanded production to include aluminum bats, the PowerBilt golf club, baseball and softball gloves and mitts, hockey sticks, and a variety of anatomical and ergonomic gloves;

Whereas in 1996, Hillerich & Bradsby Co. opened the Louisville Slugger Museum and Factory, the first museum devoted to hitters, including executive offices, wood bat plant, and a world class museum, in downtown Louisville, just 10 blocks away from where Bud Hillerich made the first Louisville Slugger in 1884; and

Whereas the Louisville Slugger name is synonymous with baseball, evoking excitement and nostalgia among ball players of all ages and skill levels: Now, therefore, be it

*Resolved*, That the House of Representatives—

(1) congratulates and salutes Hillerich & Bradsby Co. on the 125th anniversary of the Louisville Slugger; and

(2) directs the Clerk of the House of Representatives to make available enrolled copies of this resolution to Hillerich & Bradsby Co. for appropriate display.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. PALLONE) and the gentleman from Nebraska (Mr. TERRY) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.

#### GENERAL LEAVE

Mr. PALLONE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. PALLONE. Mr. Speaker, I yield myself such time as I may consume.

I rise today in support of House Resolution 314, honoring and saluting Hillerich & Bradsby Co. on the 125th anniversary of the Louisville Slugger. Louisville Slugger, as the company is more commonly known, is widely considered an American icon, with a long and treasured record throughout baseball history. But Hillerich & Bradsby Co. began as a little-known small business, just like many small businesses in America today. Only after many years of dedication and refined work did the Louisville Slugger become the cherished bat of countless Americans.

Since its inception, Hillerich & Bradsby has produced approximately 100 million Louisville Sluggers, and currently makes roughly 1.8 million bats a year. Today, the Louisville Slugger is the official bat of Major League Baseball and is used by 60 percent of today's Major League Baseball players. It has also been used by 80 percent of all National Baseball Hall of Fame hitters such as Babe Ruth, Mickey Mantle, Jackie Robinson, Roberto Clemente, and Hank Aaron. It's virtually impossible to witness a ball game and not see a Louisville Slugger bat in use.

I'm pleased to join my colleagues today in congratulating Hillerich & Bradsby Co. on the 125th anniversary of the Louisville Slugger.

I reserve the balance of my time.

Mr. TERRY. I yield myself such time as I may consume.

I rise today in saluting Hillerich & Bradsby Co. on the 125th anniversary of the Louisville Slugger. It has been 125 years since Bud Hillerich crafted the very first Louisville Slugger for Pete Browning of the Louisville Eclipse. Since that time, the Louisville Slugger has sold more than 100 million bats, making it without question the most popular bat brand in baseball history.

The Louisville Slugger continues to dominate the game in both wood and aluminum bat categories, with 60 percent of all Major League players currently using the Louisville Slugger. Because the average Major League Baseball player goes through more than 100 bats in a season, each year more than 1 million bats are made at its factory in Louisville. At the factory's peak production, they are able to produce 1,500 bats to a specific player's request per day.

The factory in downtown Louisville is much more than just your average factory and carries with it an air of tradition and nostalgia from Hall of Fame players like Ty Cobb, Babe Ruth, Lou Gehrig, and even today's pros like Kevin Youkilis and Derek Jeter.

In 1996, the Louisville Slugger Museum and Factory was opened to the public, and it's hard to miss the museum's 120-foot-tall Louisville Slugger

that leans onto the brick building. Once inside of the museum, tourists are able to witness the entire process of creating a wooden bat from northern white ash or maple, test different model bats in a batting cage, and read about the history of players from the past.

□ 1200

In recent years, Louisville Slugger has gone far beyond bats, providing performance technology in the form of fielding and batting gloves, helmets, catchers' gear, equipment bags, training aids and accessories. In addition to its on-field performance products, Louisville Slugger offers personalized, miniature, commemorative and collectible bats. Perhaps we'll see one here soon. I would like to commend the Hillerich & Bradsby Company on their 125th anniversary of the Louisville Slugger and applaud the great success they've had with on-field performance products.

I would also like to recognize Congressman YARMUTH of Kentucky for his work on this resolution and hope that many more vacationers will enjoy the museum and factory tour experience. I stand in support of this legislation and hope that my colleagues will join me.

Mr. Speaker, I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I yield 4 minutes to the sponsor of the legislation, the gentleman from Kentucky (Mr. YARMUTH).

Mr. YARMUTH. I thank the gentleman from New Jersey, and I also thank the gentleman from Nebraska for his kind remarks.

Mr. Speaker, I rise today in celebration of a genuine American icon, a piece of history that was instrumental in the development of the great American pastime, a tool that helped make ballplayers into folk heroes, and a treasure that gave every kid with a dream the chance to hold a piece of the big leagues in their very hands.

Today we consider H. Res. 314, a resolution to commemorate the 125th anniversary of the Louisville Slugger, the official bat of Major League Baseball, manufactured by Hillerich & Bradsby in their beautiful factory in downtown Louisville, Kentucky. The Louisville Slugger is synonymous with the crack of the bat on a summer afternoon, and it is forever linked to the greatest who ever played the game of baseball. Eighty percent of the inductees in the Baseball Hall of Fame swung a Louisville Slugger, 60 percent of all Major Leaguers do the same today.

On the label of every Louisville Slugger is the number 125 because the wood from white ash trees grown in Pennsylvania and New York, wood known for its strength and resiliency, is graded at 125. Now that number takes on additional significance, marking 125 years since the first Louisville Slugger was produced.

The story goes that back in 1884, Pete Browning, the star player on the Louisville Eclipse baseball club, broke his bat in the middle of a hitting slump. Then 17-year-old Bud Hillerich invited Browning back to his father's woodworking shop with a promise of a new hand-crafted bat. Hillerich's creation suited Browning perfectly, and Browning had three hits the very next game, bragging about his fortune to his teammates who soon swarmed Hillerich's woodworking shop to get a bat of their own. After a little persuading, Bud Hillerich convinced his father to focus on bat-making full time, and the company made the change from producing stair rails and butter churns to Louisville Sluggers.

Thousands of ballplayers of every age have since swung the Louisville Slugger at every level of the game, including many of the all-time greats: Ty Cobb, Babe Ruth, Joe DiMaggio, Mickey Mantle, Jackie Robinson, Roberto Clemente, Hank Aaron and Louisville's own, Pee Wee Reese.

Each player specified the measurements for the bat they wanted, and Louisville Slugger developed a unique model that was their own. Ted Williams, one of the greatest hitters of all time, personally traveled to the factory in Louisville throughout his career to pick out his bats. Not by coincidence, he broke the coveted .400 batting average barrier in three seasons and had a career average of .344. Ted acknowledged that he had a little help, famously saying, "I would have been a .290 hitter without Louisville Slugger."

This resolution is a commemoration of the legacy of the Louisville Slugger but also the success of Hillerich & Bradsby, a company that remains committed to Louisville after 125 years. That commitment translates into a lasting impact on our region, with the jobs the company creates at its factory and museum and the economic benefit that comes from thousands of visitors who travel to Louisville every year to see the place where the Slugger is made. Louisvillians take great pride in the fact that the slugger is created in our own backyard, and all of us should take great pride in a company that was built 125 years ago on the American spirit of entrepreneurship and is, itself, now one of our great American icons.

I am honored to celebrate the legacy of the Louisville Slugger and the Hillerich & Bradsby Company, and I urge my colleagues to join me in supporting this resolution.

Mr. TERRY. I think for the TV viewers, it's important to note that Mr. YARMUTH isn't that short. It's that the bat is that big.

Mr. Speaker, we have no further speakers, and I yield back the balance of my time.

Mr. PALLONE. Having no additional speakers, Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. CUELLAR). The question is on the motion offered by the gentleman from New Jersey (Mr. PALLONE) that the House suspend the rules and agree to the resolution, H. Res. 314.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

#### DELAYING MEDICARE ACCREDITATION REQUIREMENT DATE

Mr. PALLONE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3663) to amend title XVIII of the Social Security Act to delay the date on which the accreditation requirement under the Medicare Program applies to suppliers of durable medical equipment that are pharmacies.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3663

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. EXTENSION OF MEDICARE DME ACCREDITATION DEADLINE FOR CERTAIN PHARMACIES.

(a) IN GENERAL.—Section 1834(a)(20)(F)(i) of the Social Security Act (42 U.S.C. 1395m(a)(20)(F)(i)) is amended by inserting before the semicolon the following: “, except that the Secretary shall not require under this clause pharmacies to obtain such accreditation before January 1, 2010”.

(b) CONSTRUCTION.—Nothing in subsection (a) shall be construed as affecting the application of an accreditation requirement for pharmacies to qualify for bidding in a competitive acquisition area under section 1847 of the Social Security Act (42 U.S.C. 1395w-3).

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. PALLONE) and the gentleman from Nebraska (Mr. TERRY) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.

#### GENERAL LEAVE

Mr. PALLONE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. PALLONE. Mr. Speaker, I yield myself such time as I may consume.

Presently under Medicare, pharmacies supply Medicare beneficiaries with durable medical equipment, or DME, such as canes, crutches and diabetes testing strips. Pharmacists not only provide access to these items but also provide critical services, such as counseling on patient compliance and adherence, which often results in improved health outcomes.

In spite of the important and positive role that many pharmacists play in the Medicare DME program, in the past there has been a lot of fraud and abuse that has occurred in the world of DME supply. Accordingly, Congress stepped in and imposed new requirements on DME suppliers that would help rout out fraud, waste and abuse. One of the requirements is to require suppliers of durable medical equipment to obtain quality accreditation by October 1, 2009, or this Thursday, tomorrow.

Requiring DME suppliers to be accredited would help ensure that the integrity of the Medicare program is protected and makes sure that beneficiaries have access to quality services and supplies. Unfortunately, as pharmacists have tried to comply with this new requirement, those charged with providing accreditation have been unable to keep up with the demand.

Accordingly, a backlog of applications now exists, and there is little hope of having them completed by this week's deadline. If we do nothing, Mr. Speaker, countless pharmacies across the country will be left in limbo, possibly causing problems for beneficiaries seeking to access the DME supplies that they need. Congress should do everything it can to avoid this kind of disruption. The health reform bill provides some relief in this area, but its details are still being worked out.

That's why I urge my colleagues on both sides of the aisle to support this commonsense measure which will temporarily delay the accreditation requirement from taking effect. Congress can fine-tune the health care reform legislation to address any remaining problems after January 1, which is the new deadline.

I want to thank my colleague on the Energy and Commerce Committee, Mr. SPACE of Ohio, for spearheading this effort, as well as Representatives JO ANN EMERSON, MARION BERRY and JERRY MORAN.

I reserve the balance of my time.

Mr. TERRY. Mr. Speaker, I yield myself as much time as I may consume.

I rise in support of H.R. 3663, a bill to delay the date for accreditation of durable medical equipment suppliers for 90 days. I want to thank my colleague from Ohio (Mr. SPACE) for bringing this legislation to the floor today and to correct a provision in the Medicare Improvements for Patients and Providers Act of 2008. That law, which was approved by the House last year, required suppliers of durable medical equipment, DME, to get accreditation before applying to the Centers for Medicare & Medicaid Services to meet the quality standards before being awarded a contract under the Medicare DMEPOS competitive bidding program. The law carved out an exemption for certain physicians and other treating practitioners and also gave the Secretary of HHS the authority to exempt others.

By regulation, CMS determined that pharmacists would fall under this exemption and not be required to obtain accreditation in order to sell durable medical equipment to consumers. Brick and mortar pharmacies, however, would be subject to CMS accreditation under the CMS rules.

The bill would fix this problem and extend the period of time for CMS to complete the accreditation process for those pharmacies that have filed their paperwork. The bill also includes language clarifying that the 90-day extension would not apply to those suppliers wishing to participate in competitive bidding for certain durable medical equipment.

The issue that is facing us here today is that only about 43 percent of the pharmacies have actually had their inspection and review, leaving 50 percent of them out there dangling because of the backlog from the inspections. So hopefully within the next 90 days from this extension, we'll be able to get caught up, and all of them will be able to continue to sell durable medical goods to the patients who require such goods.

Therefore, I encourage all of my colleagues to vote “yes” for this. Again, I want to thank Mr. SPACE, Chairman WAXMAN, Ranking Member BARTON, and Mr. PALLONE for acting so quickly on this when Mr. SPACE and I brought it up last week for attention.

With that, I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I yield 4 minutes to the gentleman from Ohio (Mr. SPACE), who is the sponsor of this legislation.

Mr. SPACE. Mr. Speaker, I rise in support of H.R. 3663, legislation that I introduced with my friend, Mr. TERRY from Nebraska, which will delay implementation of accreditation requirements imposed on America's pharmacies who offer service to Medicare beneficiaries. I think that my colleague from Nebraska as well as my colleague, Chairman PALLONE from New Jersey, have done an ample job explaining the predicament that we find ourselves in with regards to the accreditation and surety bond requirements that will be imposed effective tomorrow.

Certainly, I would like to extend my gratitude to Chairman WAXMAN, Ranking Member BARTON, of course Chairman PALLONE, and others as well for their assistance in providing us with a prompt forum for consideration.

What I would like to do is spend just a moment explaining what the implications of failure to act may be on the millions of Medicare beneficiaries across the country. Ohio's 18th Congressional District is an entirely rural part of the country. Some of our counties, Morgan County, Ohio, for example, is served by one pharmacist, one pharmacy in the entire county. If that

pharmacy, as an example, were to lose its ability to provide things like diabetic test strips to its patients, those patients would be required to drive up to an hour just to get to a pharmacy where they sell those.

The net effect of that would be that people will not be able to buy diabetic test strips, people that need them desperately. One of the issues that has been lost in the ongoing debate regarding health care reform in this country has been the challenges that rural America faces in accessing adequate health care.

As is the case with so many other issues, whether it be access to technology, access to education, access to infrastructure, we in rural America suffer from a lack of access to health care. We cannot afford to suffer any further, and this legislation will help overcome one of those challenges.

So I urge my colleagues on both sides of the aisle for prompt passage today. I think it's also worth noting that this issue is addressed in H.R. 3200; but because of this House's intent to thoroughly deliberate that legislation, we've not been able to see passage to this point. I look forward to working with my colleague from Nebraska and my colleagues on both sides of the aisle in resolving this issue promptly.

Mr. TERRY. I thank the gentleman from Ohio for his kind comments. I appreciate it very much, and I enjoyed working with him.

At this time I yield 4 minutes to the gentleman from Kansas (Mr. MORAN), one of the co-chairs of the House Pharmacy Caucus.

Mr. MORAN of Kansas. Mr. Speaker, I thank the gentleman from Nebraska and the gentleman from Ohio for this legislation. I am a supporter of H.R. 3663. In Kansas and across America, the relationship between pharmacists and patients is a vital part of the way we deliver health care. Patients depend upon pharmacists for information counseling to ensure that they receive quality products and medical services.

□ 1215

My mom and dad are 92 and 93 and still live in my hometown of Plainville, Kansas, a town of about 1,900 people. My dad can be stubborn about going to the doctor because the doc may tell him he's not 100 percent healthy. But my dad has morning coffee with Keith Unrein, our local pharmacist, and Keith keeps a watchful eye on my dad's health. Access to pharmacies and other health care services determines whether Plainville and other Kansas towns survive and flourish, and we must protect and foster these health facilities.

The Centers for Medicare and Medicaid Services has required pharmacies that provide diabetes testing supplies and other medical equipment to obtain accreditation by October 1, 2009, in order to dispense these important sup-

plies to Medicare patients. H.R. 3663, as we have heard, will extend this accreditation deadline to January 1 and give Congress the time it needs to better address this issue.

Many Kansans live in areas with too few doctors and nurses to meet their primary care needs. At the same time, the average age of Kansans is getting older. Often pharmacists are Kansans' most direct link for health information and counseling and the only place for miles that we can obtain much-needed medical equipment to keep us healthy.

However, according to CMS's own estimate, 25,000 medical equipment suppliers will exit the Medicare program due to this new accreditation requirement. We should be encouraging our pharmacies and other medical professionals to provide care to their communities, not burden them with cost-prohibitive regulatory requirements that do not increase patient safety or expand access for these patients.

In conclusion, Mr. Speaker, I urge passage of this bill to protect Medicare beneficiaries' access to their necessary medications and supplies from their trusted pharmacist.

Mr. TERRY. Mr. Speaker, I yield the balance of my time to the gentleman from California (Mr. HERGER), member of the Ways and Means Committee, and I ask unanimous consent that he be allowed to control that time.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Nebraska?

There was no objection.

Mr. HERGER. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of H.R. 3663, which very simply delays the quality accreditation requirements for pharmacies until no sooner than January 1, 2010. Without this legislation, accreditation requirements would go into effect tomorrow and many pharmacies would not be able to supply our Medicare beneficiaries with needed, durable medical equipment such as diabetes testing strips or canes.

I've heard from a number of independent pharmacies in my rural northern California district who have expressed serious concerns about the cost of complying with this new regulation. In many cases, these pharmacies are the only source of basic medical supplies for miles around and they are already strapped for cash because of reimbursement charges at the Federal and State level. Along with many of my colleagues on both sides of the aisle, I have taken the position that State-regulated pharmacies should be completely exempted from the accreditation requirement. At a minimum, I believe all Members can support a short delay in the deadline.

Certain eligible professionals, such as physicians, are exempt from the requirement for DME suppliers to be accredited as compliant with quality

standards. Although pharmacists themselves would be exempt for purposes of DME, it's the physical pharmacy that has the Medicare provider number, and the Centers for Medicare and Medicaid Services, CMS, did not exempt pharmacies from the accreditation requirement.

Mr. Speaker, we must make it a priority to reduce waste, fraud, and abuse in Medicare, and we need strong quality standards for DME suppliers. There are simply too many cases of fly-by-night suppliers who have defrauded the Medicare program and the taxpayers by submitting millions of dollars in fake claims for power wheelchairs and other high-end DME.

However, most pharmacies do very little DME business, mostly involving small items like diabetes testing supplies. In addition, pharmacies are regulated at the State level, so those that engage in questionable activities can be identified and prosecuted. I'm confident that the quality accreditation program, with a reasonable exemption for pharmacies, will greatly reduce the \$1 billion Medicare spent in 2007 in improper payments for medical equipment and supplies, and I will continue to support the program.

Mr. Speaker, I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. HERGER. Mr. Speaker, I yield such time as he may consume to the gentleman from Georgia, Dr. PRICE.

Mr. PRICE of Georgia. I thank my friend from California for leading on the issue of health care and for yielding me time.

Mr. Speaker, as a physician, I have passionately worked, since the moment I began in public service and even before then, for positive solutions in the area of health care, solutions that allow patients to have the highest quality of care. And in debate here on the floor of the House especially in the area of health care, Americans are anxious for open and honest deliberation and discussion, which is why what occurred on the floor last night was so very, very troubling.

Mr. Speaker, as you may know, Representative GRAYSON from Florida came to the floor for a speech and said that the Republican plan for health care is for Americans to, and I quote, "die quickly." In fact, he concluded his remarks by saying, "Remember, the Republican plan: Don't get sick. And if you do get sick, die quickly."

Mr. Speaker, it's that type of presentation that debases and denigrates our proceedings here in the House and it does a disservice to all Americans.

I have a privileged resolution that I'm not going to introduce today, but it's a resolution that parallels the previous resolution that was handled here in the House, that calls on the House to

recognize that that kind of behavior is disapproved of by the House of Representatives. But in an effort to try to give the Representative from Florida, Mr. GRAYSON, an opportunity to recognize that his comments were, in fact, a breach of decorum, we respectfully request that he apologize to our leader. And I call on all Democrat Members of the House and all Democrat leaders to demand that he apologize, just as one of our Members did earlier.

Mr. Speaker, the American people want open and honest discussion, yes, but they want respectful discussion. We call on Mr. GRAYSON to apologize. Mr. Speaker, it's the right thing to do.

Mr. PALLONE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. HERGER. Mr. Speaker, this is a good, commonsense bill with broad support from both Democrats and Republicans. This is an example of the way that health care policy should be handled in this Congress. I urge an "aye" vote.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. PALLONE. Mr. Speaker, in closing, I just want to mention that my colleague Mr. STARK, from the Ways and Means Committee, wanted to speak in favor of this bill but was unable to be here. I also neglected to thank Mr. TERRY, who was the lead Republican sponsor of the legislation.

I urge passage of the bill.

Mr. POMEROY. Mr. Speaker, I rise in support of H.R. 3663, bipartisan legislation that I introduced with Congressmen ZACH SPACE (D-OH) and LEE TERRY (R-NE) which will delay implementation of flawed accreditation requirements imposed on America's pharmacies who offer service to Medicare beneficiaries.

Starting tomorrow pharmacies will be required to meet new accreditation requirements in order to participate in Medicare's Durable Medical Equipment Prosthetics, Orthotics and Supplies (DMEPOS) program. This program ensures that seniors covered under Medicare have access to critical medical supplies and Part B medications.

I have heard first hand from pharmacists across my state of North Dakota about the negative impact saddling these new costly and burdensome accreditation requirements will have on seniors' access to supplies and medications that pharmacists provide, especially diabetes testing strips. These local pharmacists have been faced with the tough choice of spending thousands of dollars they do not have to fulfill these accreditation requirements or leave seniors with no affordable access to the critical supplies and medications they need.

Both the House and Senate have included in their health care reform proposals important changes to these flawed regulations that will protect seniors' access to their medications and supplies. However, we have not yet been able to complete consideration of this legislation before the October 1st effective date.

By enacting H.R. 3663, which provides a three month extension of the DMEPOS accreditation requirement date for pharmacies, we will be providing Congress the additional time it needs to reform these important rules. Doing so will enable seniors to continue receiving valuable health care products at community pharmacies without disruption.

H.R. 3663 is important legislation that will protect America's Medicare beneficiaries. Leadership did the right thing bringing this important legislation to the House floor and I urge my colleagues to support it.

Mr. PALLONE. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New Jersey (Mr. PALLONE) that the House suspend the rules and pass the bill, H.R. 3663.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

#### FOREIGN EVIDENCE REQUEST EFFICIENCY ACT OF 2009

Mr. SCHIFF. Mr. Speaker, I move to suspend the rules and pass the bill (S. 1289) to improve title 18 of the United States Code.

The Clerk read the title of the bill.

The text of the bill is as follows:

S. 1289

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Foreign Evidence Request Efficiency Act of 2009".

#### SEC. 2. IMPROVEMENTS TO TITLE 18.

Title 18 of the United States Code is amended—

(1) in section 2703—

(A) in subsection (a), by striking "by a court with jurisdiction over the offense under investigation or an equivalent State warrant" and inserting "(or, in the case of a State court, issued using State warrant procedures) by a court of competent jurisdiction";

(B) in subsection (b)(1)(A), by striking "by a court with jurisdiction over the offense under investigation or an equivalent State warrant" and inserting "(or, in the case of a State court, issued using State warrant procedures) by a court of competent jurisdiction"; and

(C) in subsection (c)(1)(A), by striking "by a court with jurisdiction over the offense under investigation or an equivalent State warrant" and inserting "(or, in the case of a State court, issued using State warrant procedures) by a court of competent jurisdiction";

(2) in section 2711(3), by striking "has the meaning assigned by section 3127, and includes any Federal court within that definition, without geographic limitation; and" and inserting the following: "includes—

"(A) any district court of the United States (including a magistrate judge of such a court) or any United States court of appeals that—

"(i) has jurisdiction over the offense being investigated;

"(ii) is in or for a district in which the provider of a wire or electronic communication service is located or in which the wire or electronic communications, records, or other information are stored; or

"(iii) is acting on a request for foreign assistance pursuant to section 3512 of this title; or

"(B) a court of general criminal jurisdiction of a State authorized by the law of that State to issue search warrants; and";

(3) in section 3127(2)(A), by striking "having jurisdiction over the offense being investigated;" and inserting the following: "that—

"(i) has jurisdiction over the offense being investigated;

"(ii) is in or for a district in which the provider of a wire or electronic communication service is located;

"(iii) is in or for a district in which a landlord, custodian, or other person subject to subsections (a) or (b) of section 3124 of this title is located; or

"(iv) is acting on a request for foreign assistance pursuant to section 3512 of this title;";

(4) in chapter 223, by adding at the end the following:

#### "§ 3512. Foreign requests for assistance in criminal investigations and prosecutions

"(a) EXECUTION OF REQUEST FOR ASSISTANCE.—

"(1) IN GENERAL.—Upon application, duly authorized by an appropriate official of the Department of Justice, of an attorney for the Government, a Federal judge may issue such orders as may be necessary to execute a request from a foreign authority for assistance in the investigation or prosecution of criminal offenses, or in proceedings related to the prosecution of criminal offenses, including proceedings regarding forfeiture, sentencing, and restitution.

"(2) SCOPE OF ORDERS.—Any order issued by a Federal judge pursuant to paragraph (1) may include the issuance of—

"(A) a search warrant, as provided under Rule 41 of the Federal Rules of Criminal Procedure;

"(B) a warrant or order for contents of stored wire or electronic communications or for records related thereto, as provided under section 2703 of this title;

"(C) an order for a pen register or trap and trace device as provided under section 3123 of this title; or

"(D) an order requiring the appearance of a person for the purpose of providing testimony or a statement, or requiring the production of documents or other things, or both.

"(b) APPOINTMENT OF PERSONS TO TAKE TESTIMONY OR STATEMENTS.—

"(1) IN GENERAL.—In response to an application for execution of a request from a foreign authority as described under subsection (a), a Federal judge may also issue an order appointing a person to direct the taking of testimony or statements or of the production of documents or other things, or both.

"(2) AUTHORITY OF APPOINTED PERSON.—Any person appointed under an order issued pursuant to paragraph (1) may—

"(A) issue orders requiring the appearance of a person, or the production of documents or other things, or both;

"(B) administer any necessary oath; and

"(C) take testimony or statements and receive documents or other things.

"(c) FILING OF REQUESTS.—Except as provided under subsection (d), an application for execution of a request from a foreign authority under this section may be filed—

“(1) in the district in which a person who may be required to appear resides or is located or in which the documents or things to be produced are located;

“(2) in cases in which the request seeks the appearance of persons or production of documents or things that may be located in multiple districts, in any one of the districts in which such a person, documents, or things may be located; or

“(3) in any case, the district in which a related Federal criminal investigation or prosecution is being conducted, or in the District of Columbia.

“(d) SEARCH WARRANT LIMITATION.—An application for execution of a request for a search warrant from a foreign authority under this section, other than an application for a warrant issued as provided under section 2703 of this title, shall be filed in the district in which the place or person to be searched is located.

“(e) SEARCH WARRANT STANDARD.—A Federal judge may issue a search warrant under this section only if the foreign offense for which the evidence is sought involves conduct that, if committed in the United States, would be considered an offense punishable by imprisonment for more than one year under Federal or State law.

“(f) SERVICE OF ORDER OR WARRANT.—Except as provided under subsection (d), an order or warrant issued pursuant to this section may be served or executed in any place in the United States.

“(g) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to preclude any foreign authority or an interested person from obtaining assistance in a criminal investigation or prosecution pursuant to section 1782 of title 28, United States Code.

“(h) DEFINITIONS.—As used in this section, the following definitions shall apply:

“(1) FEDERAL JUDGE.—The terms ‘Federal judge’ and ‘attorney for the Government’ have the meaning given such terms for the purposes of the Federal Rules of Criminal Procedure.

“(2) FOREIGN AUTHORITY.—The term ‘foreign authority’ means a foreign judicial authority, a foreign authority responsible for the investigation or prosecution of criminal offenses or for proceedings related to the prosecution of criminal offenses, or an authority designated as a competent authority or central authority for the purpose of making requests for assistance pursuant to an agreement or treaty with the United States regarding assistance in criminal matters.”; and

(5) in the table of sections for chapter 223, by adding at the end the following:

“3512. Foreign requests for assistance in criminal investigations and prosecutions.”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. SCHIFF) and the gentleman from Texas (Mr. POE) each will control 20 minutes.

The Chair recognizes the gentleman from California.

#### GENERAL LEAVE

Mr. SCHIFF. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. SCHIFF. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I introduced the Foreign Evidence Request Efficiency Act in July with my colleague Representative DAN LUNGREN from California.

The bill before us today, S. 1289, is an identical companion bill introduced by Senators WHITEHOUSE, SESSIONS, and LEAHY, and passed by the Senate on July 10, 2010. I would like to commend Senator WHITEHOUSE for his leadership on this issue and thank him for the opportunity to work with him, given our shared experience as former Federal prosecutors, to address this matter.

Mr. Speaker, as we know, crime knows no borders. A fraud committed in France may involve banks and financial records located here in the United States. Modern technology links the countries of the world more and more, and the need for international cooperation in fighting crime increases.

The U.S. routinely assists foreign law enforcement agencies in the investigations in the same way that foreign law enforcement entities assist the United States with its investigations. When a foreign law enforcement agency makes a request for evidence in the United States, such as financial records or Internet records or other evidence, U.S. attorneys review the requests and, upon approval, seek warrants for the evidence. When the evidence is collected, it is then transmitted to foreign authorities.

The current process, though, is very cumbersome. Under existing law, international requests for evidence are processed under civil practice rules that require prosecutors to file in every district in which evidence or a witness may be found. For example, evidence sought for one criminal matter may involve financial records housed in banks in several different Federal judicial districts, in several different States, Internet records in more than one district, and other evidence spread over many districts and States. So, under current law, over a dozen different U.S. attorneys' offices could have to work on an evidence request for a single case. Several district courts would also have to be involved. This process is inefficient, it's burdensome, and makes little sense for Federal prosecutors across the country or for the interests of justice.

The Foreign Evidence Request Efficiency Act would rectify this situation by allowing foreign evidence requests to be handled centrally, ideally by one or two U.S. attorney offices. Specifically under the proposal, a legitimate request for assistance can be filed in the District of Columbia, in any of the districts in which any of the several records or witnesses are located, or in any district in which there is a related Federal criminal case already being

conducted. Courts will continue to act as gatekeepers to make sure that requests for foreign evidence meet the same standards as those required in domestic cases.

But by streamlining the evidence collection process, the U.S. will be able to more quickly respond to foreign evidence requests. These efforts will assist us with our investigations as foreign authorities will be urged to respond in kind to our evidence requests in a speedy manner.

In addition, the current authority to respond to foreign evidence requests is found in a patchwork of treaties, the inherent power of the courts, and analogous domestic statutes. This legislation would provide clear statutory authority in one place.

The legislation before us is strongly supported by the Department of Justice. The Department believes the changes in this bill will facilitate the ability of the United States to assist in foreign investigations, prosecutions, and related proceedings involving organized crime, trafficking in child pornography, intellectual property violations, identity theft, and all other serious crimes.

Mr. Speaker, the important changes in this bill will greatly improve our crime-fighting abilities and that of our allies. I urge my colleagues to support this important legislation.

Mr. Speaker, I reserve the balance of my time.

□ 1230

Mr. POE of Texas. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of S. 1289, the Foreign Evidence Request Efficiency Act of 2009. I would like to commend Congressman SCHIFF and Congressman LUNGREN for sponsoring the companion bill in the House, H.R. 3133.

S. 1289 improves the ability of the United States to assist foreign governments with criminal investigations. Drug trafficking, organized crime and international child pornography rings utilize a complex web of bank accounts, Internet sites and other techniques to hide their illegal, criminal acts.

These foreign conspiracies often use financial institutions and Internet providers across the globe, including in the United States. Foreign governments enlist the assistance of Federal prosecutors to gather evidence from U.S. companies. These foreign governments routinely do the same for us in their countries.

Unfortunately, this process is not as easy as it may seem. Under current American law, foreign evidence requests must be processed in the district where the evidence resides. So an international fraud scheme that funneled money through a dozen banks across the United States would require assistance from a dozen U.S. Attorney's Offices and Federal courts. This imposes

an unnecessary and costly burden on our criminal justice system.

The Foreign Evidence Request Efficiency Act simplifies this process by allowing foreign evidence requests to be streamlined through one single U.S. Attorney's office or perhaps a few offices if necessary. The act amends the Federal criminal code to allow evidence requests to be processed through a court with jurisdiction over the evidence, including where a bank or a communication provider is located. Under current law, only courts with jurisdiction over the offense may grant an order for disclosure of records.

S. 1289 does not change the types of evidence that may be requested by foreign governments nor weaken the procedures for obtaining the evidence. The act reduces paperwork, red tape and bureaucracy for obtaining the evidence. The bill also allows prosecutors to process foreign evidence requests more quickly. Delays in evidence collection can mean the difference between shutting down a criminal enterprise or watching it fade into the shadows.

I urge my colleagues to support this legislation.

I reserve the balance of my time.

Mr. SCHIFF. Mr. Speaker, may I inquire of my colleague from Texas how many speakers he has remaining.

Mr. POE of Texas. We have one, Mr. LUNGREN, if he gets here, but other than that, he is the only other speaker.

Mr. SCHIFF. Mr. Speaker, I will reserve the balance of my time.

Mr. POE of Texas. Well, Mr. Speaker, I yield back the balance of my time.

Mr. SCHIFF. Mr. Speaker, I would be happy to engage in a colloquy with my colleague if it would help Mr. LUNGREN. I appreciate his support on this legislation, and I have enjoyed the opportunity to work with Mr. LUNGREN on this. Of course, I want to particularly acknowledge my colleague in the Senate, SHELDON WHITEHOUSE, for his leadership as well as Senators SESSIONS and LEAHY. I'm hoping that this will take some of the burden off the U.S. Attorney's offices around this country and speed our ability to handle these foreign requests, and thereby I hope we will see reciprocity in our requests of these other countries that they act expeditiously.

I would be happy to yield to my colleague.

Mr. POE of Texas. I thank the gentleman for yielding. As a former judge, sometimes the bureaucracy gets in the way of justice because of the fact that there are so many entities involved. Streamlining the process in this legislation will allow foreign governments to help us on international organized crime rings, yet protect the dignity of the Constitution as well.

I do not expect that Mr. LUNGREN will be here, so I would yield back to the gentleman.

Mr. SCHIFF. I thank the gentleman for yielding, and I know if Mr. LUNGREN were here, he would make some unnecessarily gracious remarks in my direction. They are reciprocated. Once again, I thank him for his work.

Mr. DANIEL E. LUNGREN of California. Mr. Speaker, today we live in a interconnected world where United States law enforcement agencies routinely help foreign law enforcement as they pursue criminal conduct outside their borders within the United States. I might add that U.S. law enforcement has an identical need for cooperation from their foreign counterparts. This cooperation is essential as we work together to build cases against international organized crime organizations, drug cartels, purveyors of child pornography on the Internet, and other criminal threats from outside our borders.

On a regular basis the United States receives requests for assistance in gathering evidence within our borders. For example, when French authorities collect relevant domestic evidence they may discover the likelihood of critical evidence within the United States. In such a case they would submit a request to us for financial records, Internet records, and various other kinds of evidence which they have determined to be relevant to making their case. U.S. Attorneys review the requests and then seek warrants for the evidence as appropriate. When the evidence is collected, the United States transmits it to French authorities, leading to prosecution in French courts.

Unfortunately, what should be a simple process is compounded by bureaucratic rules with unintended consequences. This is because under the existing rules, any foreign evidence request must be split up and sent to each district where the evidence exists. So take the French example I just gave, and imagine that the financial records sought are in banks in six different federal judicial districts, that the Internet records are in another five federal judicial districts, and that other documentary evidence is spread over another five districts. Under existing law, sixteen different U.S. Attorneys' Offices would have to work on the evidence request.

The Foreign Evidence Request Efficiency Act would address this problem by allowing such foreign evidence requests to be handled centrally, by a single or more limited number of U.S. Attorneys' offices as appropriate. Rather than sixteen U.S. Attorneys' offices being involved the entire operation would be coordinated by one United States Attorney's office.

S. 1289 would not alter the type of evidence which may be sought and would therefore have no adverse impact on civil liberties. This legislation would merely eliminate an entirely unnecessary paperwork burden currently imposed on United States Attorneys.

Finally, I would suggest that our ability to better assist foreign law enforcement agencies will serve the interests of reciprocity when we ask for their assistance. We need to establish standards of evidence collection here in the United States as an example of what we ourselves expect in our own requests for cooperation of foreign agencies in our criminal investigations which involve foreign jurisdictions.

I ask for your support of this important bipartisan legislation.

Mr. SCHIFF. Mr. Speaker, I urge passage of the bill and yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. SCHIFF) that the House suspend the rules and pass the bill, S. 1289.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

#### MANAGING ARSON THROUGH CRIMINAL HISTORY (MATCH) ACT OF 2009

Mr. SCHIFF. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1727) to establish a national criminal arsonist and criminal bomber registry program and establish guidelines and incentives for States, territories and tribes to participate in such program, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1727

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Managing Arson Through Criminal History (MATCH) Act of 2009".

#### SEC. 2. CRIMINAL ARSONIST AND CRIMINAL BOMBER REGISTRATION AND NOTIFICATION PROGRAM.

(a) NATIONAL CRIMINAL ARSONIST AND CRIMINAL BOMBER REGISTRY AND INTERNET SITE.—

(1) NATIONAL CRIMINAL ARSONIST AND CRIMINAL BOMBER REGISTRY.—

(A) IN GENERAL.—The Attorney General shall maintain a national database at the Bureau of Alcohol, Tobacco, Firearms and Explosives for each criminal arsonist or criminal bomber. The database shall be known as the National Criminal Arsonist and Criminal Bomber Registry and shall be referred to in this section as the "National Registry". Such registry shall be used for law enforcement purposes only and information maintained in such registry may only be disclosed in connection with such purposes.

(B) ELECTRONIC FORWARDING.—The Attorney General shall ensure (through the national registry or otherwise) that updated information about a criminal arsonist or criminal bomber is immediately available to all relevant jurisdictions.

(C) NOTIFICATION TO JURISDICTIONS.—The Attorney General shall provide notification to a jurisdiction in which the offender resides or will reside, is an employee, or is a student. Immediately after the Attorney General receives information (or updated information) under this section from a jurisdiction for inclusion in the National Registry, with respect to a criminal arsonist or criminal bomber, the Attorney General shall ensure that such information (or updated information), other than any information exempted from disclosure by the Attorney General, is provided to each jurisdiction in

which the offender resides or will reside, is an employee, or is a student.

(2) NATIONAL ARSONIST AND BOMBER INTERNET SITE.—

(A) IN GENERAL.—The Attorney General shall establish and maintain a national arsonist and bomber Internet site. The Internet site shall include relevant information for each criminal arsonist or criminal bomber. The Internet site shall allow law enforcement officers and fire safety officers to obtain relevant information for each criminal arsonist or criminal bomber by a single query for any given zip code or geographical radius set by the user in a form and with such limitations as may be established by the Attorney General and shall have such other field search capabilities as the Attorney General may provide.

(B) USE FOR LAW ENFORCEMENT PURPOSES ONLY.—The Internet site established under subparagraph (1) shall include a warning that information on the site is to be used for law enforcement purposes only and may only be disclosed in connection with such purposes. The warning shall note that any action in violation of the previous sentence may result in a civil or criminal penalty.

(C) EXEMPTIONS FROM DISCLOSURE.—The Attorney General may exempt from disclosure on the Internet site established under this paragraph such information as the Attorney General deems appropriate.

(3) PROHIBITION ON ACCESS BY THE PUBLIC.—Information about a criminal arsonist or criminal bomber shall not be made available under paragraph (1) or (2) to the public.

(4) CORRECTION OF ERRORS.—The Attorney General shall establish guidelines for a process to seek correction of information included in the national database under paragraph (1) or the Internet site under paragraph (2) in the case that an individual contends such information is erroneous. Such guidelines shall provide for an adequate period for the individual to seek such correction of information.

(5) AUTHORIZATION OF APPROPRIATIONS.—In addition to any amounts otherwise authorized to be appropriated, there are authorized to be appropriated to the Attorney General, to carry out this subsection, such sums as may be necessary for each of the fiscal years 2010 through 2014.

(b) REGISTRY REQUIREMENTS FOR JURISDICTIONS.—

(1) JURISDICTION TO PARTICIPATE IN NATIONAL REGISTRY.—Each jurisdiction shall participate in the National Registry by providing information, with respect to criminal arsonists and criminal bombers, to the National Registry in accordance with this section. Such information, with respect to a criminal arsonist or criminal bomber, shall be provided by a jurisdiction—

(A) to the Attorney General for inclusion in the National Registry immediately after the criminal arsonist or criminal bomber provides information (or provides updated information), other than information exempted from disclosure by the Attorney General, to the jurisdiction under this section; and

(B) in an electronic format as specified by the Attorney General.

(2) GUIDELINES AND REGULATIONS.—The Attorney General shall issue guidelines and regulations to interpret and implement this section.

(c) REGISTRY REQUIREMENTS FOR CRIMINAL ARSONISTS AND BOMBERS.—

(1) IN GENERAL.—A criminal arsonist or criminal bomber shall provide information described in subsection (d)(1) to (and shall

keep such information current with) each jurisdiction where the criminal arsonist or criminal bomber resides, where the criminal arsonist or criminal bomber is an employee, and where the criminal arsonist or criminal bomber is a student. For the initial provision of information only, a criminal arsonist or criminal bomber shall also provide such information to the jurisdiction in which the arsonist or bomber was convicted if such jurisdiction is different from the jurisdiction of residence.

(2) INITIAL REGISTRATION.—The criminal arsonist or criminal bomber shall initially provide information described in subsection (d)(1)—

(A) before completing a sentence of imprisonment with respect to the offense giving rise to the registration requirement; or

(B) not later than 5 business days after being sentenced for that offense, if the criminal arsonist or criminal bomber is not sentenced to a term of imprisonment.

(3) KEEPING THE REGISTRATION CURRENT.—A criminal arsonist or criminal bomber shall, not later than 10 business days after each change of name, residence, employment, or student status, appear in person in at least one jurisdiction involved pursuant to paragraph (1) and inform that jurisdiction of all changes in the information required for that criminal arsonist or criminal bomber for purposes of inclusion in the National Registry. That jurisdiction shall immediately provide the revised information to the National Registry.

(4) APPLICATION OF REGISTRATION REQUIREMENTS.—

(A) OFFENDER REGISTRATION REQUIREMENTS APPLICABLE ONLY PROSPECTIVELY AND WITH NOTIFICATION.—A criminal arsonist or criminal bomber is required to provide information to a jurisdiction, and to keep such information current, under this section for inclusion in the National Registry only to the extent—

(i) that such criminal arsonist or criminal bomber—

(I) was convicted of a criminal offense involving arson or bombing on or after the date of the enactment of this Act; and

(II) was notified of such requirements in accordance with subsection (g); and

(ii) the jurisdiction involved participates in the National Registry.

(B) JURISDICTION OF CONVICTION REQUIRED TO SUBMIT INFORMATION ON OFFENDERS CONVICTED BEFORE DATE OF ENACTMENT AND ON THOSE NOT NOTIFIED.—

(i) GUIDELINES.—The Attorney General shall establish guidelines, in accordance with the provisions of this subparagraph, under which each jurisdiction is required to provide to the National Registry information described in subsection (d)(2) with respect to—

(I) each criminal arsonist or criminal bomber who was convicted in such jurisdiction of a criminal offense involving arson or bombing during the 10-year period ending on the date of the enactment of this Act; and

(II) each criminal arsonist or criminal bomber who was convicted on or after the date of the enactment of the Act in such jurisdiction of such an offense and who has not been notified, in accordance with subsection (g), of the requirements to provide information, and to keep such information current, under this section.

(ii) NOTICE REQUIRED.—Under the guidelines established under clause (i), a jurisdiction shall be required to provide notice to each criminal arsonist or criminal bomber included in the National Registry pursuant to this subparagraph of such inclusion.

(5) ACTIONS TO BE TAKEN WHEN CRIMINAL ARSONIST OR CRIMINAL BOMBER FAILS TO COMPLY.—An appropriate official of each jurisdiction shall notify the Attorney General and appropriate law enforcement agencies of any failure by a criminal arsonist or criminal bomber to provide information, and keep such information current, under this section. The Attorney General shall revise the National Registry to reflect the nature of such failure. The appropriate official, the Attorney General, and each law enforcement agency involved shall take any appropriate action to ensure compliance.

(6) AUTHORITY TO EXEMPT CERTAIN PERSONS FROM REGISTRY REQUIREMENTS.—A jurisdiction shall have the authority to exempt a criminal arsonist or criminal bomber who has been convicted of the offense of arson or bombing in violation of the laws of the jurisdiction in which the offense was committed or the United States for the first time from the requirements to provide information, and keep such information current, under this section in exchange for the person's substantial assistance in the investigation or prosecution of another person who has committed an offense. The Attorney General shall ensure that any regulations promulgated under this section include guidelines that reflect the general appropriateness of exempting the person from the requirements of providing information, and keeping such information current, under this section.

(d) INFORMATION REQUIRED FOR INCLUSION IN NATIONAL REGISTRY.—

(1) PROSPECTIVE CONVICTIONS WITH NOTIFICATION.—

(A) PROVIDED BY ARSONIST OR BOMBER.—A criminal arsonist or criminal bomber convicted of a criminal offense involving arson or bombing on or after the date of the enactment of this Act shall provide the following information to the appropriate official of the jurisdiction involved for inclusion in the National Registry:

(i) The name of the person (including any alias used by the person).

(ii) The Social Security number of the person.

(iii) The address of each residence at which the person resides or will reside.

(iv) The name and address of any place where the person is an employee or will be an employee.

(v) The name and address of any place where the person is a student or will be a student.

(vi) The license plate number and a description of any vehicle owned or operated by the person.

(vii) Any other information required by the Attorney General.

(B) PROVIDED BY THE JURISDICTION.—The jurisdiction to which a criminal arsonist or criminal bomber described in subparagraph (A) provides information shall ensure that the following information, with respect to such arsonist or bomber, is provided to the National Registry:

(i) The information described in subparagraph (A), as provided by the arsonist or bomber.

(ii) A physical description of the person.

(iii) The text of the provision of law defining the criminal offense for which the person is required to be registered under this section.

(iv) A current photograph of the person.

(v) A set of fingerprints and palm prints of the person.

(vi) A photocopy of a valid driver's license or identification card issued to the person by a jurisdiction.

(vii) Any other information required by the Attorney General.

(2) PROVIDED BY JURISDICTION OF CONVICTIONS IN CASE OF CONVICTIONS BEFORE DATE OF ENACTMENT AND FAILURES TO NOTIFY.—Each jurisdiction in which a criminal arsonist or criminal bomber described in subclause (I) or (II) of subsection (c)(4)(B)(i) was convicted shall ensure that the following information is provided to the National Registry:

(A) The name of the criminal arsonist or criminal bomber (including any alias used by the person).

(B) The Social Security number of the person.

(C) The most recent known address of the residence at which the person has resided.

(D) A physical description of the person.

(E) The text of the provision of law defining the criminal offense for which the person is convicted.

(F) A set of fingerprints and palm prints of the person, if available to the jurisdiction.

(G) A photocopy of a valid driver's license or identification card issued to the person by a jurisdiction, if available.

(H) Any other information required by the Attorney General.

(e) DURATION OF REGISTRATION REQUIREMENT; EXPUNGING REGISTRIES OF INFORMATION FOR CERTAIN JUVENILE CRIMINALS.—

(1) DURATION OF REGISTRATION REQUIREMENT.—A criminal arsonist or criminal bomber shall keep the registration information provided under subsection (d)(1)(A) current for the full registration period (excluding any time the person is in custody). For purposes of this subsection, the full registration period—

(A) shall commence on the later of the date on which the person is convicted of an offense of arson or bombing in violation of the laws of the jurisdiction in which the offense was committed or the United States, the date on which the person is released from prison for such conviction, or the date on which the person is placed on parole, supervised release, or probation for such conviction; and

(B) shall be—

(i) five years for a person who has been convicted of such an offense for the first time;

(ii) ten years for a person who has been convicted of such an offense for the second time; and

(iii) for the life of the person for a person who has been convicted of such an offense more than twice.

(2) EXPUNGING REGISTRIES OF INFORMATION FOR CERTAIN JUVENILE CRIMINALS.—

(A) IN GENERAL.—In the case of a criminal arsonist or criminal bomber described in subparagraph (B), the Attorney General shall expunge the National Registry of information related to such criminal arsonist or criminal bomber as of the date that is 5 years after the last day of the applicable full registration period under paragraph (1).

(B) CRIMINAL ARSONIST OR CRIMINAL BOMBER DESCRIBED.—For purposes of subparagraph (A), a criminal arsonist or criminal bomber described in this subparagraph is a criminal arsonist or criminal bomber who—

(i) was a juvenile tried as an adult for the offense giving rise to the duty to register under this section; and

(ii) was not convicted of any other criminal felony during the period beginning on the first day of the applicable full registration period under paragraph (1) and ending on the last day of the 5-year period described in subparagraph (A).

(C) APPLICATION TO OTHER DATABASES.—The Attorney General shall establish a process to

ensure that each entity that receives information under subsection (1) with respect to a criminal arsonist or criminal bomber described in subparagraph (B) shall expunge the applicable database of such information as of the date that is 5 years after the last day of the applicable full registration period under paragraph (1).

(f) ANNUAL VERIFICATION.—Not less than once in each calendar year during the full registration period, a criminal arsonist or criminal bomber required to provide information to a jurisdiction under this section shall—

(1) appear in person at not less than one such jurisdiction;

(2) allow such jurisdiction to take a current photograph of the person; and

(3) while present at such jurisdiction, verify the information contained in the National Registry for such person.

(g) DUTY TO NOTIFY CRIMINAL ARSONISTS AND CRIMINAL BOMBERS OF REGISTRATION REQUIREMENTS AND TO REGISTER.—

(1) IN GENERAL.—An appropriate official shall, shortly before release of a criminal arsonist or criminal bomber from custody, or, if the person is not in custody, immediately after the sentencing of the person for the offense giving rise to the duty to register under this section—

(A) inform the person of the duties of the person under this section and explain those duties in a manner that the person can understand in light of the person's native language, mental capability, and age;

(B) ensure that the person understands the registration requirement, and if so, require the person to read and sign a form stating that the duty to register has been explained and that the person understands the registration requirement;

(C) if the person is unable to understand the registration requirements, the official shall sign a form stating that the person is unable to understand the registration requirements; and

(D) ensure that the person is registered.

(2) NOTIFICATION OF CRIMINAL ARSONISTS AND CRIMINAL BOMBERS WHO CANNOT COMPLY WITH PARAGRAPH (1).—The Attorney General shall prescribe rules to ensure the notification and registration of criminal arsonists and criminal bombers in accordance with paragraph (1) who cannot be notified and registered at the time set forth in paragraph (1).

(h) DEVELOPMENT AND AVAILABILITY OF REGISTRY MANAGEMENT AND WEBSITE SOFTWARE.—

(1) DUTY TO DEVELOP AND SUPPORT.—The Attorney General shall develop and support software to enable jurisdictions to participate in the National Registry and the national Internet site established under subsection (a)(2).

(2) CRITERIA.—The software described in paragraph (1) should facilitate—

(A) immediate exchange of information among jurisdictions through the national Internet site established under subsection (a)(2);

(B) access over the Internet by authorized persons to appropriate information, including the number of registered criminal arsonists or criminal bombers in each jurisdiction on a current basis; and

(C) full compliance with the requirements of this section.

(3) DEADLINE.—The Attorney General shall make the first complete edition of this software available to jurisdictions not later than two years after the date of the enactment of this Act.

(i) PERIOD FOR IMPLEMENTATION BY JURISDICTIONS.—

(1) DEADLINE.—To be in compliance with this section, a jurisdiction shall participate in the National Registry in accordance with this section before the later of—

(A) three years after the date of the enactment of this Act; or

(B) one year after the date on which the software described in subsection (h) is made available to such jurisdiction.

(2) EXTENSIONS.—The Attorney General may authorize not more than two one-year extensions of the deadline under paragraph (1).

(3) FAILURE OF JURISDICTION TO COMPLY.—For any fiscal year after the expiration of the deadline specified in paragraph (1) (and any extension under paragraph (2)), a jurisdiction that fails, as determined by the Attorney General, to substantially implement this section shall, at the discretion of the Attorney General, be subject to not more than a 10 percent reduction of the funds that would otherwise be allocated for that fiscal year to the jurisdiction under subpart 1 of part E of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3750 et seq.), whether characterized as the Edward Byrne Memorial State and Local Law Enforcement Assistance Programs, the Local Government Law Enforcement Block Grants Program, the Edward Byrne Memorial Justice Assistance Grant Program, or otherwise.

(j) ELECTION BY INDIAN TRIBES.—

(1) ELECTION.—

(A) IN GENERAL.—A federally recognized Indian tribe may, by resolution or other enactment of the tribal council or comparable governmental body, elect to carry out this section as a jurisdiction subject to its provisions.

(B) IMPLEMENTATION.—If a tribe does not, within one year of the enactment of this Act, make an election to take on these duties, it shall, by resolution or other enactment of the tribal council or comparable governmental body, enter into a cooperative agreement to arrange for a jurisdiction to carry out any function of the tribe under this section until such time as the tribe elects to carry out this section.

(2) COOPERATION BETWEEN TRIBAL AUTHORITIES AND OTHER JURISDICTIONS.—

(A) NONDUPLICATION.—A tribe subject to this section is not required to duplicate functions under this section which are fully carried out by another jurisdiction or jurisdictions within which the territory of the tribe is located.

(B) COOPERATIVE AGREEMENTS.—A tribe may, through cooperative agreements with such a jurisdiction or jurisdictions—

(i) arrange for the tribe to carry out any function of such a jurisdiction under this section with respect to criminal arsonists or criminal bombers subject to the tribe's jurisdiction; and

(ii) arrange for such a jurisdiction to carry out any function of the tribe under this section with respect to criminal arsonists and criminal bombers subject to the tribe's jurisdiction.

(3) LAW ENFORCEMENT AUTHORITY IN INDIAN COUNTRY.—Enforcement of this section in Indian country, as defined in section 1151 of title 18, United States Code, shall be carried out by Federal, tribal, and State governments under existing jurisdictional authorities.

(k) IMMUNITY FOR GOOD FAITH CONDUCT.—The Federal Government, jurisdictions, political subdivisions of jurisdictions, and their agencies, officers, employees, and agents shall be immune from liability for good faith conduct under this section.

(1) CRIMINAL ARSONIST AND CRIMINAL BOMB-ER MANAGEMENT ASSISTANCE PROGRAM.—

(1) IN GENERAL.—The Attorney General shall, subject to appropriations, establish and implement a Criminal Arsonist and Bomber Management Assistance program (in this subsection referred to as the “Assistance Program”), under which the Attorney General shall award grants to jurisdictions to offset the costs of implementing the other provisions of this section.

(2) APPLICATION.—The chief executive of a jurisdiction desiring a grant under this subsection, with respect to a fiscal year, shall for each such fiscal year submit to the Attorney General an application in such form and containing such information as the Attorney General may require.

(3) INCREASED GRANT PAYMENTS FOR PROMPT COMPLIANCE.—A jurisdiction that, as determined by the Attorney General, has substantially implemented the other provisions of this section not later than two years after the date of the enactment of this Act is eligible for a bonus payment in addition to the amount of grant funds available to such jurisdiction under paragraph (1). The Attorney General may, with respect to a jurisdiction, make such a bonus payment to the jurisdiction for the first fiscal year beginning after the date such determination is made. The amount of the bonus payment shall be as follows:

(A) In the case of a determination that the jurisdiction has substantially implemented this section by a date that is not later than the date that is one year after the date of the enactment of this Act, 10 percent of the total grant funds available to the jurisdiction under paragraph (1) for such fiscal year.

(B) In the case of a determination that the jurisdiction has substantially implemented this section by a date that is later than one year after the date of the enactment of this Act, but not later than the date that is two years after such date of enactment, 5 percent of such total.

(4) AUTHORIZATION OF APPROPRIATIONS.—In addition to any amounts otherwise authorized to be appropriated, there are authorized to be appropriated to the Attorney General, to be available to carry out this subsection, such sums as may be necessary for each of the fiscal years 2010 through 2014.

(m) DEFINITIONS.—For purposes of this section:

(1) CRIMINAL ARSONIST.—The term “criminal arsonist” means an individual who is convicted of any criminal offense for committing arson, attempting arson, or conspiracy to commit arson in violation of the laws of the jurisdiction in which such offense was committed or the United States. Such term shall not include a juvenile who is convicted of such an offense unless such juvenile was tried as an adult for such offense.

(2) CRIMINAL BOMBER.—The term “criminal bomber” means an individual who is convicted of any criminal offense for committing a bombing, attempting a bombing, or conspiracy to commit a bombing in violation of the laws of the jurisdiction in which such offense was committed or the United States. Such term shall not include a juvenile who is convicted of such an offense unless such juvenile was tried as an adult for such offense.

(3) CRIMINAL OFFENSE.—The term “criminal offense” means a Federal, State, local, tribal, foreign, or military offense (to the extent specified by the Secretary of Defense under section 115(a)(8)(C)(i) of Public Law 105-119 (10 U.S.C. 951 note)) or other criminal offense.

(4) EMPLOYEE.—The term “employee” includes an individual who is self-employed or

works for any other entity, whether compensated or not.

(5) FIRE SAFETY OFFICER.—The term “fire safety officer” means an individual serving in an official capacity as a fire investigator, or other arson or bomber investigator, as defined by the jurisdiction for the purposes of this section.

(6) JURISDICTION.—The term “jurisdiction” means any of the following:

- (A) A State.
- (B) The District of Columbia.
- (C) The Commonwealth of Puerto Rico.
- (D) Guam.
- (E) American Samoa.
- (F) The Northern Mariana Islands.
- (G) The United States Virgin Islands.

(H) To the extent provided and subject to the requirements of subsection (j), a federally recognized Indian tribe.

(7) LAW ENFORCEMENT OFFICER.—The term “law enforcement officer” has the meaning given such term in section 1204 of the Omnibus Crime Control and Safe Street Act of 1968 (42 U.S.C. 3796b).

(8) NATIONAL REGISTRY.—The terms “National Registry” and “arsonist and bomber registry” mean the registry of criminal arsonists and criminal bombers established under subsection (a)(1).

(9) RESIDES.—The term “resides” means, with respect to an individual, the location of the individual’s home or other place where the individual habitually lives.

(10) STUDENT.—The term “student” means an individual who enrolls in or attends an educational institution (whether public or private), including a secondary school, trade or professional school, and institution of higher education.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. SCHIFF) and the gentleman from Texas (Mr. POE) each will control 20 minutes.

The Chair recognizes the gentleman from California.

#### GENERAL LEAVE

Mr. SCHIFF. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. SCHIFF. I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the Managing Arson Through Criminal History Act, the MATCH Act, and am very proud to join Congresswoman MARY BONO MACK in sponsoring this important legislation and who has led the charge on this for several years now. I want to congratulate you on your perseverance. This, I think, will be a very important and powerful tool in bringing arsonists to justice.

Our collaboration on this issue stems from a painful understanding of the devastation that arson can cause and has caused in both of our districts. In fact, as we debate this bill today, firefighters are still mopping up the last vestiges of the Station fire which has burned thousands and thousands of

acres in the Angeles Forest in the past month and resulted in the tragic death of two firefighters. The fire was deliberately set, and the perpetrator is still at large. The bill before us today would create a nationwide registry of arsonists to help fire investigators find arsonists and prevent additional fires.

Because arsonists commit their crimes in secret, arson is among the most difficult of crimes to investigate. According to FBI statistics, only about 18 percent of arsons from 2008 have been “cleared” by an arrest. In the wake of a fire, investigators are faced with the daunting challenge of piecing together evidence from a scorched tract of land or a house. The Station fire, for example, is a 250-square-mile crime scene. Investigators have isolated where they believe the blaze originated, but there have been no arrests thus far, despite the offer of a \$150,000 reward.

I know from firsthand experience the difficulty of an arson investigation. When I was an Assistant U.S. Attorney in Los Angeles in the late 1980s and early 1990s, I prosecuted an individual who started fires in the San Bernardino Forest. The arsonist followed a pattern. He used a distinct incendiary device made from a cigarette with matches taped around it. He would drive through the forest and throw the cigarette with the matches taped around it into the brush. The cigarette would burn down to the matches, ignite the matches, which would ignite the brush. The cigarette was basically like a slow fuse. By the time the brush caught on fire, he was far away from the point of origin of the fire.

Catching someone like that who doesn’t have a traditional motive to set a fire or commit a crime is extremely challenging. Eventually, using video surveillance, law enforcement made an arrest.

We discovered in the course of the investigation that the suspect had a history of setting fires using the same distinct incendiary device made from a cigarette with matches taped around it. We didn’t discover that information in an electronic database or even in the suspect’s criminal record. The information was eventually found before the trial, stored in a box in his former parole officer’s basement.

If we had a national arsonist registry at the time, we would have known of convicted arsonists who lived in the region. We would have known of their modus operandi. We might have been able to stop him before he set several of the later fires. Keeping records in your basement is not a sound investigative law enforcement strategy. The national arsonist registry created by the MATCH Act is.

The MATCH Act would create a national registry of arsonists that is similar but more extensive than what three States have right now. Currently,

three States, including California, maintain such registries, but they are very limited. Arsonists can and do cross State lines to start fires. They don't necessarily contain updated information about the arsonist's current address, their place of employment, where they go to school and a myriad of other pieces of information that could be useful to investigators.

Under the MATCH Act, a convicted arsonist would be required to register with the State in which they reside and provide updated biographical information, along with a photograph and information on the cars that they own. No information in this registry would be publicly available. The information would only be accessible to law enforcement and fire investigators.

Last year, the Congressional Budget Office scored the cost of implementing the act at \$17 million over 5 years, that is, if we fully fund a small authorization to offset the costs to States in setting up the program. Given the millions and millions we spend fighting wildfires and the billions, literally billions, in property damage due to arson, this is a reasonable investment to save lives in the future.

The House passed this legislation overwhelmingly in 2007, but unfortunately it was never enacted. It didn't clear the Senate. As my constituents can attest, though, the problem of arson is not going away. And so we press on for this bill that will assist investigators and, we hope, prevent arson fires in the future.

I urge my colleagues to support the bill and reserve the balance of my time.

Mr. POE of Texas. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of H.R. 1727, the Managing Arson Through Criminal History Act of 2009, referred to as the MATCH Act. I commend my colleagues from California, Congresswoman BONO MACK and Congressman SCHIFF, for their hard work on this legislation. My colleagues from California know better than anyone the devastation that arson causes.

The California Station fire has now burned over 160,000 acres, or 251 square miles. The cost for fighting this fire alone stands at \$82 million. The price tag is expected to go over \$100 million. Eighty-nine homes have been burned and, sadly, two firefighters have been killed. Investigators now believe this fire was intentionally set based upon evidence found near the fire's origin.

Many arsonists begin by starting small fires and then escalate to larger and larger fires to satisfy their excitement. Yet only 17.1 percent of arson offenses result in convictions nationwide. Unfortunately, the evidence needed to convict these arsonists is often destroyed by the fire itself. And as arsonists become more sophisticated in

their techniques, identifying and prosecuting them becomes more challenging. Each year, an estimated 267,000 fires are caused by arson. That's right, 267,000. In recent years, arson has been used to burn churches and used by violent activists to protest urban sprawl.

But the ongoing threat remains those who set fires to get a rush and to feed a compulsion. We call those folks "arsonists." Fires have not only caused recent property damage throughout the country and the taking of human lives, not only in California, but this year, two Houston firefighters have been killed fighting fires.

We may never be able to prevent wildfires, but we can implement tools to help prevent arsonists, particularly serial arsonists, from eluding law enforcement and escaping punishment. This will help in capturing them and sending them to prison when convicted.

The MATCH Act creates a national arson registry and requires criminal arsonists to report where they live, where they work and, yes, even where they go to school. In addition, the act requires the national database to include finger and palm print and an up-to-date photograph. The act limits access to information contained in the registry to only law enforcement and fire officials. It exempts juveniles who are adjudicated delinquent from the registry.

The MATCH Act will assist law enforcement officials with identifying and apprehending arsonists, particularly serial arsonists, and ecoterrorists.

I urge my colleagues to support this legislation, and I reserve the balance of my time.

Mr. SCHIFF. Mr. Speaker, I reserve the balance of my time.

Mr. POE of Texas. Mr. Speaker, I yield as much time as she wishes to my colleague from California (Mrs. BONO MACK).

Mrs. BONO MACK. Mr. Speaker, I thank my colleague, Mr. POE, for the time. I am pleased also to rise in support of the Managing Arson Through Criminal History, or MATCH Act, H.R. 1727.

As a Member from California, I was heartened by the support that our delegation received from this House during the Station fire that recently swept through our State, tragically killing two heroic firefighters. As many of you know and have just heard, some of these fires are being investigated as arson.

In what is sadly becoming an annual occurrence, we are faced with the threat of catastrophic wildfires that cause millions of dollars in damage and threaten life. It is when we learn that the first sparks of these fires were caused by arsonists that our greatest fears are realized, that someone would maliciously and purposely start a fire.

□ 1245

These events are reminders of the urgency with which we need to act in passing H.R. 1727, as this legislation was inspired by events in my county, Riverside County, which I'm very proud to represent.

Nearly 3 years ago, my community was devastated by the Esperanza fire, also an arson-caused fire, that cost five heroic U.S. Forest Service firefighters their lives. I, like all of my colleagues in this House, am anxious to provide all of the tools and support we can to combat despicable acts like arson.

Multiple conversations and meetings with firefighters and chiefs in my district led to the creation of this bill. They told me how a central database would provide them with invaluable information in tracking arsonists, more especially serial arsonists. More help is needed in the tracking of this dangerous crime. Even though arson fires account for a majority of the fires in the U.S., the arrest and conviction rate is only 20 percent.

It is our duty as Members of the Congress to provide the tools and infrastructure we can to aid in both the prevention of this crime and speedy apprehension of those who choose to commit it.

It is my sincere belief that the MATCH Act will make a meaningful difference in the way that we approach and deal with arson offenders by establishing a registry for law enforcement.

I would like to especially thank Chairmen CONYERS and SCOTT and Ranking Members SMITH and GOHMERT of the Judiciary Committee. They worked to ensure that this legislation was expeditiously moved through the legislative process and that legitimate concerns were addressed.

I would also like to thank the House leadership on both sides of the aisle for their efforts and hard work in bringing the bill before us today.

And finally, I, too, would like to thank my fellow Californian, my dear friend, ADAM SCHIFF for his partnership on this important issue. I can think of no better colleague in the House of Representatives to work with than I found in ADAM SCHIFF.

So I thank you very much, and I urge passage of this critically important bill.

Mr. SCHIFF. Mr. Speaker, may I inquire how many more speakers my colleague from Texas has.

Mr. POE of Texas. We have no other speakers, and I yield back the balance of my time.

Mr. SCHIFF. Mr. Speaker, I thank my colleague Representative BONO MACK for all of her work on this issue. It's been a pleasure working together.

I think when we had the bill come up in committee last session and the Burbank fire chief, Tracy Pancini, testified, he pointed out really how this bill will be of great service to investigators

by pointing to the case of someone who was a serial arsonist in New York, who set fire to many carports, for whatever reason, for whatever perverse thrill, as my colleague from Texas pointed out some of these arsonists seem to get by setting fires. He was well-known to authorities in New York and he moved to California where he was unknown, and when there were a series of carport fires in California, California authorities didn't necessarily connect it to what happened in New York.

With a national registry, we can connect these events and we can connect the dots, and not only, I hope, put away some of these arsonists, but maybe more importantly deter arsonists who, if they know that they are being tracked and are being followed by this registry, will think twice before they set additional fires.

So, with that, I want to once again thank my colleague and urge the House to support this bill.

I yield back the balance of my time. The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. SCHIFF) that the House suspend the rules and pass the bill, H.R. 1727, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

#### SUPPORTING A REMEMBRANCE DAY FOR HOMICIDE VICTIMS

Mr. SCHIFF. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 757) supporting the goals and ideals of a National Day of Remembrance for Homicide Victims.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

##### H. RES. 757

Whereas homicide is a devastating epidemic in this Nation, destroying families and communities;

Whereas women are disproportionately victims of homicide perpetrated by intimate partners;

Whereas intimate partner homicide is the leading cause of death for African-American women ages 15-45;

Whereas, on average, 3 women per day are murdered by their current or former husbands or partners and the Centers for Disease Control and Prevention finds that women experience 2,000,000 injuries from intimate partner violence each year;

Whereas according to the Centers for Disease Control and Prevention, the cost of intimate partner violence exceeded \$5,800,000,000 in 2003;

Whereas, for the years 1976 to 2005 combined, among all homicide victims, females were particularly at risk for intimate killings and sex-related homicides, with 64.8 percent of all female homicide victims during that time being murdered by an intimate partner;

Whereas one-third of all murdered females are victims of intimate partner homicide annually, with separated females having the highest homicide rate;

Whereas intimate partner violence resulted in 1,544 deaths in 2004, and of those deaths, 25 percent were males and 75 percent were females;

Whereas the time that a victim of domestic violence leaves a violent situation is the most dangerous time for a victim and increases his or her likelihood of becoming a victim of homicide;

Whereas homicide is the second leading cause of traumatic death for pregnant women and recently pregnant women, accounting for nearly 31 percent of maternal injury deaths;

Whereas numerous agencies across this country provide support to the families of homicide victims and the tireless work of agency staff and volunteers is worthy of acknowledgment; and

Whereas victims of domestic violence-related homicides should be remembered during the National Day of Remembrance for Homicide Victims to honor their memories: Now, therefore, be it

*Resolved*, That the House of Representatives—

(1) supports the goals and ideals of a National Day of Remembrance for Homicide Victims; and

(2) acknowledges the epidemic of intimate partner homicide in this Nation, its disproportionate impact on women, and the work of agencies across this country to address this epidemic and provide support and resources to all survivors of victims of homicide, including the families of intimate partner homicide.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. SCHIFF) and the gentleman from Texas (Mr. POE) each will control 20 minutes.

The Chair recognizes the gentleman from California.

##### GENERAL LEAVE

Mr. SCHIFF. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. SCHIFF. I yield myself such time as I may consume.

Mr. Speaker, this resolution expresses support for the goals and ideals of a National Day of Remembrance for Homicide Victims.

On Friday, September 25, 2009, the third annual observance of the National Day of Remembrance for Homicide Victims was held in Washington, D.C., and across the country. This year's observance was organized by the National Organization of Parents of Murdered Children, Mothers Against Drunk Driving, and the Maryland Crime Victims' Resource Center.

Every year, families lose loved ones to senseless acts of violence. Along with their loved ones, these families lose hopes and dreams for the future.

Not only are mothers, fathers, sisters, and brothers affected by the sudden loss of a family member, the lives of friends, coworkers, and neighbors can also be changed forever.

In 2008 alone, over 14,000 individuals lost their lives as a result of violent homicide. Over half of these murder victims were killed by acquaintances, such as a neighbor, friend, or boyfriend.

After the initial shock, as friends and neighbors resume their daily lives, family members are left to deal with their grief and loss and become overwhelmed with picking up the pieces of their lives.

The National Day of Remembrance for Murder Victims acknowledges the long-term trauma families and friends experience after a loved one is murdered and focuses on the importance of providing support, guidance, and counseling to survivors of homicide.

While families deal with their grief, they're also confronted with trying to find some sense of justice through the criminal justice system. The complexities and delays in resolving a criminal case frequently add to their feelings of anger and resentment.

The National Day of Remembrance sends a powerful message to these families and friends alike that we as a Nation remember their loss, honor their courage, and are committed to helping them move on with their lives.

The National Day of Remembrance reminds us that murder impacts each and every one of us and every community across the country. This day also reminds us to rededicate ourselves to working to prevent the violence that destroys lives and devastates families.

I'd like to thank the lead cosponsors of this resolution, DONNA EDWARDS of Maryland and TED POE of Texas, for their leadership in making sure that last week's National Day of Remembrance is honored by Congress.

I urge my colleagues to support this important resolution.

I reserve the balance of my time.

Mr. POE of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Resolution 757 honors a National Day of Remembrance for Homicide Victims. Sadly, thousands of lives are lost due to homicide every year in our Nation. Surviving parents, spouses, family, and friends courageously rebuild their lives while searching for answers and closure for the tragic death of someone they cared about.

I want to commend my friend, the gentlelady from Maryland, DONNA EDWARDS, for introducing this resolution. She has a long-time history of working with victims and victims' families, even before she came to our institution, the House of Representatives.

This National Day of Remembrance for Homicide Victims honors the lives

of those who are lost to murder. It also commits communities, agencies, and other groups towards the goal of rebuilding the survivors' lives and preventing these tragedies in the future.

Since 2000, more than 114,000 Americans have been murdered in our Nation. It is important we remind survivors, family survivors, that we have not forgotten their loved ones and that they are not alone.

The broad bipartisan support for this day of remembrance demonstrates that we are united in our commitment to comfort sufferers and prevent the violence that leads to these tragedies.

This resolution also brings attention to the disturbing issue of spousal or partner abuse in homicides. On average, three women per day are murdered by their current or former husbands. From 1976 to 2005, more than 64 percent of female homicide victims in the United States were murdered by an intimate partner.

According to the National Institute of Justice, intimate partner homicide has declined significantly in the past 25 years. The NIJ cautions, however, that although these declines are truly significant, the statistics may mask the important fact that women are substantially more likely than men to be murdered by intimate partners.

Supporting the goals and ideals of a National Day of Remembrance strengthens the resolve of agencies, communities, and families and people in our country against homicides in our Nation.

I urge all my colleagues to support this resolution.

I reserve the balance of my time.

Mr. SCHIFF. At this time, I'm happy to yield as much time as she may consume to the gentlewoman from Maryland, Donna Edwards, the lead sponsor of the bill.

Ms. EDWARDS of Maryland. Mr. Speaker, I thank the gentleman. I would like to thank also my dear friend and colleague Chairman JOHN CONYERS for bringing this important resolution to the floor.

House Resolution 757, a National Day of Remembrance for Homicide Victims, recognizes the loss and the courage of homicide victims across this country, not just in 1 year but for the many years in which families, community members, take the time to rebuild their lives.

I'd also like to thank my colleague TED POE of Texas for taking the lead with me in making this resolution truly bipartisan in nature because, as we know, the question of homicide is not one that is partisan.

This resolution is about honoring those lives that have been lost to homicide. I particularly want to focus on the women and children who have lost their lives to intimate partner homicide in our country.

In my State of Maryland, at least 48 women and children lost their lives to

intimate partner homicide in the period from July 2007 to July 2008. Nationally, the Centers for Disease Control and Prevention estimate that three women per day are murdered by their current or former partner, boyfriend, or spouse.

Statistically, the most dangerous time for a victim of domestic violence is when she attempts to leave a violent relationship. From working firsthand with victims of domestic violence in shelters, in service programs, and as cofounder and executive director of the National Network to End Domestic Violence, I know the statistic is true, and it's more than a statistic. It's reality for so many women and children.

So when people ask why doesn't she just leave, those of us who have done this work for a long time know exactly why, and it's because of the risk of death, not an imagined fear but a true risk.

Intimate partner violence is the second leading cause of traumatic death for pregnant women. The impact of witnessing domestic violence, especially the homicide of a parent, is devastating for children.

It is my hope that this resolution will begin a dialogue about intimate partner violence and progress to discussing and devising solutions to address this epidemic. Intimate partner violence is something that impacts all our communities, and I know there have been several cases of such violence where I live, and I am sure that's the case for every congressional district across this Nation.

This year, in my congressional district, a woman was shot, tragically, to death outside of her church in Silver Spring as she was going inside to worship on Sunday and other worshippers were gathered for the service.

In March 2003, Ernestine Bunn-Dyson, age 32, was shot to death in my hometown of Oxon Hill by her estranged husband less than 24 hours after he promised in court to leave her alone. Her sister is working hard to bring more attention to this epidemic so more people don't have to suffer and more sisters don't have to be victims.

It's so easy for people to think that intimate partner homicide is something that happens to someone else, someone who looks different, someone who has a different educational background, or someone who just fell in with the wrong person. But a victim of domestic violence and intimate partner violence and homicide can be anyone's sister, mother, aunt, friend, coworker, and of course, the other thousands of victims of homicide.

Our own Lieutenant Governor in Maryland, Anthony Brown, lost his cousin, Cathy Brown, to intimate partner violence just this past last summer. His cousin was shot and killed in her home by her abuser. Lieutenant Governor Brown has worked in Mary-

land along with Governor Martin O'Malley to make sure that our State laws were changed to prevent this kind of violent homicide.

So many survivors and their families in this country have turned their tragedy and pain to healing and advocacy. Our own Lieutenant Governor is an example of such tireless and selfless advocacy.

I ask all of us to take the time today to reach out to someone who may be in a violent situation and lend your support and friendship. It could save their lives. I also ask that we take this day to remember all victims of homicide, all victims of intimate partner homicide, and we must do what we can to stop this pattern at a young age. If other forms of abusive violence are included, from being threatened or emotionally abused, our young children suffer as well. We must be more aggressive in addressing the problem of violence so that it doesn't turn to homicide.

□ 1300

I'd like to thank all of our cosponsors, and I'd like to say that, Mr. Speaker, it's time for us to recognize the tragic cost of homicide to all of our families, and for this Congress and this Nation to turn our attention to their support.

I'd like to recognize the many organizations who have supported this resolution, including the National Network to End Domestic Violence, the Maryland Network Against Domestic Violence, the National Partnership for Women and Families, Legal Momentum, the Family Violence Prevention Fund, and our own local Anti-Violence Organization.

Mr. POE of Texas. I reserve the balance of my time.

Mr. SCHIFF. Mr. Speaker, may I inquire how many speakers my colleague from Texas has remaining.

Mr. POE of Texas. I am prepared to close. There are no other speakers.

Mr. SCHIFF. I reserve the balance of my time.

Mr. POE of Texas. I yield myself such time as I may consume. This is, Mr. Speaker, a very important recognition that we do, as an organization, as a body, to recognize the fact that throughout this country there are families that have suffered the loss of someone they love and they care about, and it's all because of violence.

As my friend and colleague from Maryland, Ms. EDWARDS, has pointed out, many times that violence occurs in the home. It starts with verbal abuse, then physical abuse, and then sometimes results in a homicide. And of all places where a person should be safe in our country, it's in their home, whether it's a spouse or whether it's a child. And because of the epidemic, in my opinion, of violence in the home, more and more Americans and spouses

especially, suffer those consequences and those consequences lead to their death by the hands of someone that claims they love them.

And it's important that we remember those people who are victims of crime. It's been said that when a murder occurs, the killer steals from the victim everything they were and everything they will be. That's the tragedy. And families of homicide victims never get over it. I know Mr. SCHIFF, in his experience in the U.S. Attorney's office, and my experience as a criminal court judge and prosecutor, families of homicide victims think about the death of their loved one every day. Not a day goes by that they don't think about it. And they think about it every day forever. That's the tragedy they live with.

So we, as a Nation, need to raise the awareness and the importance of these families and recognize that those people who have lost family members are Americans that need special recognition, special comfort from us.

So I commend my friend, Ms. EDWARDS from Maryland, for sponsoring this resolution. I am proud to be a coauthor of this resolution.

I yield back the balance of my time.

Mr. SCHIFF. Mr. Speaker, I had the experience recently of being called up for jury duty in Los Angeles and called up for a criminal case and sat through really the entire voir dire process, which I hadn't done in many years. It was a murder case, and what was striking to me—I was not called into the box so I never became a juror—but what was striking to me is, during the voir dire process, they asked each and every juror whether they thought they could sit fairly on the case before them.

This particular case involved two victims, two people who were murdered, one who was a 16-year-old girl. And it was striking to me, both how many prospective jurors had a family member or close friend who'd been the victim of violence, who had been murdered or raped, how many also who could so relate to the circumstances that they felt they couldn't be fair and impartial. But it was extraordinary. There wasn't a single person really in the jury box that hadn't been touched in some way by violent crime.

And I want to thank the gentleman from Maryland for her leadership on this issue and getting us all to take some time to reflect on how violence has touched all of our communities, all of our lives and how we can rededicate ourselves to trying to attack this incredible waste of life. So I thank you.

I urge passage of the bill, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. HOLDEN). The question is on the motion offered by the gentleman from California (Mr. SCHIFF) that the House suspend the rules and agree to the resolution, H. Res. 757.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

#### EXEMPTING FROM CERTAIN PROHIBITIONS SHIPMENTS OF EXPLOSIVES TO INDIAN TRIBES

Mr. SCHIFF. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1333) to amend chapter 40 of title 18, United States Code, to exempt the transportation, shipment, receipt, or importation of explosive materials for delivery to a federally recognized Indian tribe or an agency of such a tribe from various Federal criminal prohibitions relating to explosives, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1333

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. EXEMPTION OF THE TRANSPORTATION, SHIPMENT, RECEIPT, OR IMPORTATION OF EXPLOSIVE MATERIALS FOR DELIVERY TO A FEDERALLY RECOGNIZED INDIAN TRIBE OR AN AGENCY OF SUCH A TRIBE FROM VARIOUS FEDERAL CRIMINAL PROHIBITIONS RELATING TO EXPLOSIVES.

(a) IN GENERAL.—Section 845(a)(3) of title 18, United States Code, is amended by striking “to any agency of the United States or to any State or any political subdivision thereof” and inserting “to any agency of the United States, to any State or any political subdivision thereof, or to any federally recognized Indian tribe or agency thereof”.

(b) INDIAN TRIBE DEFINED.—Section 841 of such title is amended by adding at the end the following:

“(t) ‘Indian tribe’ has the meaning given the term in section 102 of the Federally Recognized Indian Tribe List Act of 1994 (25 U.S.C. 479a).”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. SCHIFF) and the gentleman from Texas (Mr. POE) each will control 20 minutes.

The Chair recognizes the gentleman from California.

#### GENERAL LEAVE

Mr. SCHIFF. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. SCHIFF. I yield myself such time as I may consume.

H.R. 1333 addresses the gap in the law governing the transportation of explosive materials by giving federally recognized Indian tribes the same status already given Federal, State and local governments. In 2002, Congress passed

the Safe Explosives Act, which prohibits the transportation, shipment, receipt and importation of explosive materials without specific Federal permits or licenses.

The act exempts Federal, State and local governments from this requirement, but due to an oversight, the exemption does not cover federally recognized Indian tribes and their agencies. This bill corrects that oversight. Fireworks can play an integral role in the religious and cultural ceremonies of many Indian tribes. This bill will facilitate those religious and cultural practices without compromising safety. This act does not exempt Indian tribes from complying with safe storage requirements. Like State agencies, tribes still will be required to comply with Federal explosives storage regulations.

H.R. 1333 enjoys bipartisan support. I thank the gentleman from Arizona, Mr. RAÚL GRIJALVA, for bringing this oversight to the attention of the House and for his hard work on this bill.

I urge my colleagues to support this important legislation, and I reserve the balance of my time.

Mr. POE of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 1333 makes a simple technical correction to Federal law regulating the transportation and shipment of explosives to provide federally recognized Indian tribes the same exemption as Federal, State and local governments. Under current law the Federal, State, and local governments are exempt from permitting requirements for the purchase or shipment of explosive materials, including commercial fireworks.

Indian tribes, however, are not afforded the same exemption under our law. Fireworks have been a part of the practices of the Pascua Yaqui Tribe and the Colorado River Indian Tribes of Arizona for many years. Some of these practices involve cultural and religious beliefs that are very important to the Pascua Yaqui Tribe, for example.

However, these practices in recent years have been inhibited by the requirements of the Safe Explosive Act of 2002, called the SEA Act. The Safe Explosives Act significantly expanded the Federal explosive laws to include requirements that a license or permit be obtained in order to receive explosives. The SEA Act established background checks and expanded the categories of persons prohibited from possessing explosives. H.R. 1333 ensures that Indian tribes across the country will be able to carry on their same cultural and religious practices that they enjoyed with fireworks celebrations prior to the enactment of the permitting requirements.

It's important to protect the rituals of Native Americans and afford Indian tribes the same treatment under the

law as Federal, State, and local governments currently enjoy.

So I urge my colleagues to support this legislation, and I reserve the balance of my time.

Mr. SCHIFF. Mr. Speaker, I have no further speakers and will reserve the balance of my time.

Mr. POE of Texas. I yield back the balance of my time.

Mr. SCHIFF. Mr. Speaker, I want to thank my colleague from Arizona, Mr. GRIJALVA, for his leadership on this issue and urge passage of the bill.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. SCHIFF) that the House suspend the rules and pass the bill, H.R. 1333, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

#### HONORING DR. NORMAN E. BORLAUG

Mr. BERMAN. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 739) honoring the life and achievements of Dr. Norman E. Borlaug for his many contributions to alleviating world hunger.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

#### H. RES. 739

Whereas the United States honors Norman E. Borlaug as an Iowan, humanitarian, and father of the "Green Revolution";

Whereas Dr. Borlaug was born on March 25, 1914, and grew up on a family farm outside Cresco, Iowa;

Whereas Dr. Borlaug attended the University of Minnesota, where he received B.A. and Ph.D. degrees and was also a star NCAA wrestler;

Whereas, for over 20 years, Dr. Borlaug was a member of the faculty of Texas A&M University;

Whereas Dr. Borlaug spent 20 years working in the poorest areas of rural Mexico where he made his breakthrough achievement in developing a strain of wheat that could exponentially increase yields while actively resisting disease;

Whereas Dr. Borlaug's "green revolution" uplifted hundreds of thousands of the rural poor in Mexico and saved hundreds of millions from famine and outright starvation in India and Pakistan;

Whereas Dr. Borlaug's approach to wheat production next spread throughout the Middle East, and soon his approach was adapted to rice growing, increasing the number of lives Dr. Borlaug has been credited to saving to more than a billion people;

Whereas in 1970, Dr. Borlaug received the Nobel Peace Prize, the only person working in agriculture to ever be so honored, and since then he has received numerous honors and awards, including the Presidential Medal of Freedom, the Public Service Medal, the National Academy of Sciences' highest

honor, the Rotary International Award for World Understanding and Peace, and the Congressional Gold Medal;

Whereas, up until his death on September 12, 2009, Dr. Borlaug continued to work to alleviate poverty and malnutrition throughout the world;

Whereas Dr. Borlaug created the World Food Prize in 1986, which is the "Nobel Prize for Food and Agriculture" and which has honored Laureates from Bangladesh, India, China, Mexico, Denmark, Sierra Leone, Switzerland, the United Kingdom, and the United States;

Whereas the headquarters of the World Food Prize is located in Des Moines, Iowa; and

Whereas Dr. Borlaug's humanitarian works have made him an American hero who will never be forgotten: Now, therefore, be it

*Resolved*, That the House of Representatives honors the life and achievements of Dr. Norman E. Borlaug for his many contributions to alleviating world hunger.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. BERMAN) and the gentlewoman from Florida (Ms. ROS-LEHTINEN) each will control 20 minutes.

The Chair recognizes the gentleman from California.

#### GENERAL LEAVE

Mr. BERMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. BERMAN. Mr. Speaker, I yield myself 3 minutes.

Mr. Speaker, on September 12, 2009, the world mourned the passing of a great humanitarian. Dr. Norman Borlaug, a world renowned plant scientist, dedicated his life to ending global hunger and improving the world's food supply. Known as the Father of the Green Revolution, Doctor Borlaug saved more than a billion lives through his pioneering research and scientific innovation. In fact, he has been credited with saving more lives than any other person in history.

During his 20 years working in the poorest areas of rural Mexico, he developed a strain of "miracle wheat" that drastically increased crop yields and moved the country to food self-sufficiency.

In recognition of his tireless efforts, Dr. Borlaug has received more than 150 international honors. In 1970 he was awarded the Nobel Peace Prize and in 1977 the Presidential Medal of Freedom. Two years ago he was presented with the Congressional Gold Medal, America's highest civilian honor. In his Nobel acceptance lecture, Dr. Borlaug stated, "The first essential component of social justice is adequate food for all mankind."

Regrettably, we remain far from achieving this ideal. While, in theory,

farmers produce enough food to feed every person on the planet, more people are hungry today than ever before. According to new estimates by the United Nations, over a billion people will go hungry every day in 2009, almost one-sixth of humanity.

We should take this opportunity not only to honor the extraordinary contributions of a true American hero, but to recommit ourselves to the goal of eradicating hunger.

I want to recognize and congratulate the sponsor of this resolution, my good friend from Iowa, Mr. BOSWELL, for introducing the resolution honoring Dr. Borlaug.

I reserve the balance of my time.

Ms. ROS-LEHTINEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we gather today to honor the life and the accomplishments of Dr. Norman E. Borlaug, a pioneer in the field of the fight against world hunger. The world suffered a great loss with the recent passing of Dr. Borlaug, whose achievements in the field of agriculture have helped to feed millions of hungry people around the world. He passed from this world bearing the title of Father of the Green Revolution, his breakthrough advancement in wheat production and wheat adaptation having proven vital to those in need.

In rural areas around world, Dr. Borlaug's tireless efforts increased wheat output, helping to feed millions of starving people. Dr. Borlaug spent almost 30 years collaborating with scientists to alleviate world hunger through wheat development. In 1944 he accepted an appointment to the Cooperative Wheat Research and Production Program in Mexico, and it was there that he developed high-yielding, disease-resistant wheat, otherwise known as miracle wheat, opening the Green Revolution in global agriculture.

In 1970, Dr. Borlaug was awarded the distinguished Nobel Peace Prize for his work, the only person in the field of agriculture to be bestowed with such an honor.

□ 1315

He was later awarded such distinctions as the Presidential Medal of Freedom and the Congressional Gold Medal.

Dr. Borlaug's work was essential to those in need. He never wavered in this fight to fight world hunger, and he continued his efforts until his recent death. It is estimated that Dr. Borlaug's work helped to save over 1 billion people from starvation, but nevertheless, he warned that what he had helped to achieve was only a "temporary success in man's war against hunger and deprivation," and he leaves behind a world in which many people still struggle to find enough to eat.

Mr. Speaker, challenges remain before us, but we can indeed be proud of the humanitarian work that Dr.

Borlaug, an American patriot, demonstrated to the world. Today his Green Revolution stands as a singular success story for our efforts to assist those in dire need of our help around the world.

I am pleased to support this important resolution which honors the life of a true American hero, Dr. Norman Borlaug, whose incredible achievements in the fight against hunger should never be forgotten.

I reserve the balance of my time.

Mr. BERMAN. Mr. Speaker, I am very pleased to yield 4 minutes to the sponsor of the resolution, the gentleman from Iowa (Mr. BOSWELL).

Mr. BOSWELL. Mr. Speaker, I rise in support of this resolution. On a personal basis, Dr. Borlaug was one of the most unusual people I met in my life. He was so impressive in so many ways.

On September 12, we lost one of the greatest humanitarians and scientists of our century. Dr. Borlaug has been credited to have saved more than 1 billion lives through his breakthrough work in agriculture. He was a truly remarkable man.

He was born on a small farm outside of Cresco, Iowa. After earning his Ph.D. from the University of Minnesota, he joined a research project in Mexico in 1944. Through this work he developed what was called "miracle wheat" that tripled grain output and helped move Mexico to agriculture self-sufficiency. He then shared this new breed of wheat with Pakistan and India and helped those nations to avert the mass famine and starvations that had appeared imminent.

In a recent article in the Washington Post on Dr. Borlaug, it was stated that "in India, Mexico and other nations susceptible to hunger and famine, he was known as one of the great Americans of modern times."

Not only was he a great scientist, he was a world renowned humanitarian. Dr. Borlaug was one of only five people in history to win the Nobel Peace Prize, the Presidential Medal of Freedom, and the Congressional Gold Medal. He is in the company of Nelson Mandela, Elie Wiesel, Mother Theresa, and Dr. Martin Luther King, Jr. He was also named by Time magazine in 1999 as one of the 100 most influential minds of the 20th century.

After Dr. Borlaug won the Nobel Peace Prize in 1970, the only time in its history the award was given for achievements in agricultural science, he set out to create an award dedicated for significant breakthroughs in food and agriculture. In 1986, Dr. Borlaug founded the World Food Prize to recognize lifesaving achievements that increased the quality, quantity or availability of food in the world. Then in 1990, the prize was moved to my district in Des Moines, Iowa. Now in its 23rd year, the award has recognized individuals from around the world and

has continued to promote global world security.

I mourn the loss of a great Iowan and American, yet I am also reminded of many wonderful memories. He was truly a great person who has had, and will continue to have, a profound impact on all of us. His contributions in the field of agriculture and his commitment to the human condition have fed so many around the world.

Mr. Speaker, I urge my colleagues to join me in honoring this true American hero and father of the Green Revolution with a "yes" vote on H. Res. 739.

Ms. ROS-LEHTINEN. Mr. Speaker, I am so pleased to yield 3 minutes to the distinguished gentleman from Iowa (Mr. LATHAM), a member of the Committee on Appropriations and the ranking member on the Subcommittee on Transportation, Housing, and Urban Development.

Mr. LATHAM. I thank the gentlewoman from Florida for yielding me this time for an opportunity to remember a great American, a great Iowan, Dr. Norman Borlaug, and I am very pleased that the whole Iowa delegation has come together and written a letter to the Iowa State legislature and the Governor to ask that a statue of Dr. Borlaug be placed, representing Iowa, right here in our Capitol. I appreciate the cooperation of everyone.

Dr. Borlaug devoted his life to a historic campaign to save the lives of the world's neediest people using agricultural science for the feeding of those individuals. His innovative leadership in plant breeding and agricultural production gave birth to the Green Revolution, and he was credited with saving over a billion—that's with a "B"—a billion lives from starvation and the generations onward. It will be several billion as time goes on.

I think it's interesting that even in his final days at the age of 95, Dr. Borlaug pressed on with his mission to work for the good of all mankind. His accomplishments and his memory will live on continuing to improve the lives of countless people around the world for generations to come.

It was a great honor for me personally to call Dr. Borlaug a friend. I admired him for his vision and all of his accomplishments, but his modesty was every bit as extraordinary. He once described his work as "a temporary success in man's war against hunger and deprivation." Dr. Norman Borlaug proved that one person can save a billion lives with a powerful vision and a pair of hardworking hands. He will very, very much be missed.

I think a very fitting thing that happened here with Congress was to give Dr. Borlaug the Congressional Gold Medal. I was very proud to have worked together with my colleagues from Iowa to make that achievement. And I think the remembering of his last words is so fitting for the life of

achievement that he had and how he believed in basic science and having it actually relate to production agriculture. He was visiting with another scientist that he had taught on his deathbed. The scientist was telling about a new technology he had. Norman Borlaug, if I may try to quote what he said, he said, "Get it to the farmers. Get it to the people who can actually make use of this technology to feed more people to make it actually utilized in agriculture today for the feeding to stamp out this horrible thing we call starvation around the world."

Once again, I thank the gentlewoman from Florida for this chance and this opportunity to recognize once again a great American, Dr. Norman Borlaug.

Mr. BERMAN. Mr. Speaker, I am very pleased to yield 2 minutes to the gentleman from Iowa (Mr. BRALEY).

Mr. BRALEY of Iowa. Mr. Speaker, I thank the chairman for yielding.

I think most Iowans are modest by nature, and that certainly was Norman Borlaug. But there is no reason for modesty today.

The chairman mentioned in his opening remarks that Norman Borlaug was responsible for saving more lives than any other human being in history. Think about that. Why is it that not every school child in America knows who Norman Borlaug was? Why is it that we live in a culture that celebrates celebrity more than achievement?

The reason we are introducing this bill today is to give proper recognition to one of the greatest Americans who ever lived. That's the truth. That's why we were so honored to have the opportunity to honor Norman Borlaug with a Congressional Gold Medal after his other many important achievements. Those of us from the Iowa delegation had a wonderful dinner with him the night before and heard that amazing story about the time when another famous Iowa plant scientist, who happened to be Vice President of the United States, Henry Wallace, flew back to Des Moines and drove in his Plymouth automobile to Mexico City to attend the inauguration of the Mexican President. He stopped in Mexico to talk to his friend, Norman Borlaug; and together these two brilliant Americans who happened to be born in Iowa talked about charting a future for a plant revolution that changed the face of hunger in the world.

Our challenge is to build on his legacy and to continue his fight against global hunger, global poverty, and to give people around the world the same sense of hope that he brought to his work every day of his life. I am proud to call him someone that we are very honored to honor with this bill and ask for its support and passage.

Ms. ROS-LEHTINEN. Mr. Speaker, I would like to yield 3 minutes to the

gentleman from Iowa (Mr. KING), a member of the Agriculture, Small Business, and Judiciary Committees.

Mr. KING of Iowa. Mr. Speaker, I thank the gentlelady from Florida for yielding.

This is one of these privileges in serving in the United States Congress to come to the floor and join together as a State delegation, our entire Iowa delegation, to celebrate a life so well lived as that of Dr. Norman Borlaug. I believe all of us knew him in some capacity or another, and we certainly watched his career.

I want to say this about Dr. Borlaug. First, he did go to school at the University of Minnesota, and for my Minnesota friends, I can't even imagine what it would have been like if he would have had a full Iowa education. That's part of the banter that goes back and forth across the State lines.

He was also an NCAA wrestler, which is something that goes along with I can't imagine if he had actually wrestled for the Hawkeyes and what that might have been. However, where are the Aggies today? They've got some bragging rights, too. Minnesotans have bragging rights, Aggies have bragging rights. Dr. Borlaug was on the faculty of Texas A&M for 20 years. They all deserve credit for helping shape the life of Norman Borlaug: his birth and his upbringing in Iowa, his education in Minnesota, his faculty involvement at Texas A&M, and his global reach upon starting the Green Revolution; and, as a couple of Members have said, saved the lives of a billion people, a billion people with a "B."

Dr. Norman Borlaug swept aside the fears of the Malthusians and proved that this planet will produce a lot more food than was previously imagined, and that was before we got to this point of some of the genetic tools that we have within the laboratory today.

So, Mr. Speaker, I want to say that you cannot overemphasize the impact of Dr. Norman Borlaug's life. He is a treasure, and his life and his commitment is a treasure for the entire United States, for all of us. I join Mr. LATHAM, and I believe the Iowa delegation, in calling upon the State legislature and the Governor of Iowa to request that his statue be placed in the United States Capitol where it most rightfully belongs, and it would stand there in good stead with any other statue from any other State and the entire United States of America, a life well lived; and we are here celebrating that life of Dr. Norman Borlaug.

Mr. BERMAN. Mr. Speaker, I am very pleased to yield 2 minutes to the gentleman from Texas (Mr. EDWARDS).

Mr. EDWARDS of Texas. Mr. Speaker, one of the greatest privileges of my life was to have met Dr. Norman Borlaug several years ago because of his position as a distinguished professor at Texas A&M University, my

alma mater in my congressional district. It is also an honor for me today to rise in honor of Dr. Borlaug whose actions helped save the lives of a billion people and helped prevent untold conflicts across the globe.

To me, he is an inspiration. To others, he was a husband, father, grandfather, Nobel Peace Prize laureate and Congressional Gold Medal recipient. I believe it could be argued that he was America's greatest ambassador to the world. Most of us hope to make some difference for our communities. Dr. Borlaug made our world a better place.

Growing up on an Iowa farm, Dr. Borlaug went from cultivating fields to consulting global leaders all with the laudable, noble goal of feeding the hungry. Dr. Borlaug once said, "Peace cannot be built on empty stomachs."

For his accomplishments, he was rightfully awarded the Nobel Peace Prize in 1970 for the way in which he used agricultural productivity to help create stability and prevent conflict. In 1984, as has been mentioned, Dr. Borlaug joined my alma mater, Texas A&M, as a distinguished professor of international agriculture. His work at the university and around the world is recognized and continued on by those at the Norman Borlaug Institute for International Agriculture whose employees are currently working in conflict areas such as Iraq and Afghanistan to provide assistance and food to those in need.

Despite his unrivaled achievements, Dr. Borlaug maintained a genuine sense of humility. He is truly an American hero whose dedication to agriculture positively changed the landscape of our world.

Ms. ROS-LEHTINEN. Mr. Speaker, I reserve my time.

Mr. BERMAN. Mr. Speaker, I am pleased to yield 2 minutes to a member of the Foreign Affairs Committee, the gentlelady from Texas (Ms. SHEILA JACKSON-LEE).

Ms. JACKSON-LEE of Texas. I thank the distinguished chairman and the ranking member and the proponent of this legislation, my good friend.

I rise in support of this recognition of Dr. Norman E. Borlaug for his many contributions, raising the bar, if you will, on the horrific impact of hunger in this world.

□ 1330

He engaged in groundbreaking scientific research and personal compassion to help save over a billion people from starvation across the world.

As a member of the Board of Directors of the Congressional Hunger Center, I am deeply saddened by his loss. But he deserves countless accolades—and none of these accolades do full justice to the greatness of his achievements in alleviating hunger.

Dr. Borlaug's work was extremely important to efforts of my former col-

league Congressman Mickey Leland, who represented my district until his untimely death, trying to alleviate the hunger in Ethiopia on the basis of the continuing drought. Both Dr. Borlaug and Congressman Leland dedicated their lives to fighting hunger around the world.

For 20 years, Dr. Borlaug was a distinguished professor of International Agriculture at Texas A&M University. I believe he had the thesis, Teach a Person To Fish Versus Giving a Person a Fish and It Will Allow Them To Eat Forever.

This particular university is located in my good friend Congressman EDWARDS' district, but it is well respected throughout the State and the Nation. It was the home of Dr. Borlaug's Institute for International Agriculture, which develops and promotes science-based solutions to international challenges to agricultural and food production.

Although Dr. Borlaug was honored throughout his career, I'm proud that he continued to research agricultural techniques to alleviate global hunger until his passing.

He will forever be known as the "Father of the Green Revolution." I believe that his work had to do with ending drought and finding out ways of intervention so that countries that suffered from this weather condition could still have the ability to grow crops.

The Green Revolution developed new strains of crops that could withstand environmental threats like the drought. He is, of course, a significant and respected individual who fought with all of his heart starvation around the world.

Mr. Speaker, I rise today in support of H. Res. 739, which honors the life and achievements of Dr. Norman E. Borlaug for his many contributions to alleviating world hunger. I support this resolution because Dr. Borlaug's ground-breaking scientific research and personal compassion helped to save over a billion people from starvation across the world.

As a Member of the Board of Directors for the Congressional Hunger Center, I am deeply saddened by the loss of Dr. Borlaug. His countless accolades do not do full justice to the greatness of his achievements in alleviating hunger. Dr. Borlaug's work was extremely important to the efforts of former Congressman Mickey Leland, who represented my district until his untimely death in 1989. Both Dr. Borlaug and Congressman Leland dedicated their lives to fighting hunger around the world. Without these great Americans more than a billion people around the world would have died from starvation or suffered from malnutrition.

For 20 years, Dr. Borlaug was a Distinguished Professor of International Agriculture at Texas A&M University, located close to my district. Texas A&M is home to the Norman Borlaug Institute for International Agriculture, which develops and promotes science-based solutions to international challenges to agricultural and food production. Although Dr.

Borlaug was honored throughout his career, I am proud that he continued to research agricultural techniques to alleviate global hunger until his passing. After he had gained international fame for his work he built upon his work to create the World Food Prize, known as the "Nobel Prize for Food and Agriculture."

Dr. Norman E. Borlaug will forever be known as the "Father of the Green Revolution" for his work developing new strains of crops that could withstand environmental threats. He developed a new strain of wheat that resisted disease while increasing productivity in the poorest areas of rural Mexico. The significant impact of his work in Mexico was noted around the world and his agricultural developments spread to South Asia where his wheat strain helped to feed millions in India and Pakistan. Dr. Borlaug's techniques were adopted in the Middle East and adapted to rice production. As Speaker of the House NANCY PELOSI said in 2007, "No person, before or since, has done more to answer the call to help liberate the world from hunger."

In 1970, Dr. Borlaug's significant achievement in agriculture was honored by the Nobel Peace Prize. In 1977 he was bestowed the Presidential Medal of Freedom and in 2006, he was awarded the Congressional Gold Medal. Dr. Borlaug has been honored in the places where his work had the greatest impact. The Government of India awarded Dr. Borlaug its second highest civilian honor. He has an agricultural research building named after him in Bolivia and a street named after him in Ciudad Obregon in the Mexican State of Sonora. Academic institutions and agricultural research centers in Iowa, Minnesota, and Texas bear his name as a tribute to his work combating hunger.

Mr. LOEBSACK. Mr. Speaker, I would like to take a moment to honor Dr. Norman Borlaug, a great Iowan, who passed away on September 12. I want to thank Congressman BOSWELL for introducing this resolution.

Dr. Borlaug was born and raised in Iowa but his work is well-known throughout the world. Most notably, Dr. Borlaug developed wheat varieties that were disease resistant and also adapted to various growing environments with increasing yields.

These developments helped feed over a billion impoverished people in Mexico, India, and Pakistan, in addition to Asia, South America, Africa and the Middle East.

For this, Dr. Borlaug was awarded the Nobel Peace Prize, and has also received the Presidential Medal of Freedom and the Congressional Gold Medal. Dr. Borlaug also created the World Food Prize, sometimes called the Nobel Prize for food and agriculture.

Dr. Borlaug's life and work allowed millions of the world's hungry to know a better and more secure life.

Ms. ROS-LEHTINEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BERMAN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. BERMAN) that the House suspend the rules and agree to the resolution, H. Res. 739.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

#### CALLING FOR RELEASE OF LIU XIAOBO

Mr. BERMAN. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 151) expressing the sense of Congress that China release democratic activist Liu Xiaobo from imprisonment, as amended.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

##### H. CON. RES. 151

Whereas Liu Xiaobo has inspired untold numbers of Chinese people to stare down their government and demand change;

Whereas on December 9, 2008, a diverse group of more than 300 Chinese scholars, writers, lawyers, and activists issued Charter 08, a manifesto calling on the Chinese Communist Party to abandon authoritarian rule in favor of democracy, the guarantee of human rights, and the rule of law;

Whereas Liu Xiaobo was one of the original signers of Charter 08 and was taken into custody shortly before the manifesto was released, has been detained ever since, and now faces charges of "inciting subversion of state power";

Whereas Charter 08 documents the widespread failings of the Chinese Communist Party, calls for urgent and extensive political reforms in China, enumerates and endorses the ideas and principles of freedom, human rights, equality, Republicanism, democracy, and constitutional rule, and enumerates 19 recommendations for political reform within Communist China;

Whereas Charter 08 says that "the most fundamental principles of democracy are that the people are sovereign, and that the people select their own government";

Whereas Chinese authorities violated Chinese law in handling Liu Xiaobo's case, including keeping him under "residential surveillance" beyond the legal time limit and at an undisclosed location, denying him access to his family or lawyers, and refusing to allow a fellow Charter 08 signatory to represent him;

Whereas the signatories of Charter 08 represent numerous strata of Chinese society, including former members of the Chinese Communist Party;

Whereas the document which caused him to be confined to a windowless room, without access to books or writing materials, is as simple as those in the founding documents of this country which have inspired us all for over 200 years;

Whereas Liu Xiaobo signed his name to those simple but powerful words despite having already spent 20 months in prison for his part in the 1989 protests in Tiananmen Square, and three years in a re-education through labor camp for challenging China's one-party rule; and

Whereas Liu Xiaobo's leadership has inspired the Chinese people and the world: Now, therefore, be it

*Resolved by the House of Representatives (the Senate concurring), That it is the sense of*

Congress that China's Government immediately release Liu Xiaobo and begin making strides toward true representative democracy.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. BERMAN) and the gentlewoman from Florida (Ms. ROS-LEHTINEN) each will control 20 minutes.

The Chair recognizes the gentleman from California.

##### GENERAL LEAVE

Mr. BERMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. BERMAN. Mr. Speaker, I rise in strong support of this resolution and yield myself such time as I may consume.

This resolution expresses the sense of Congress that China should immediately release democratic activist Liu Xiaobo from prison. I would like to thank my friend Mr. MINNICK of Idaho for sponsoring this important resolution that allows Congress to stand in solidarity with Mr. Liu and to express support for the democratic ideals he is fighting for.

Last December, Chinese police hauled away Mr. Liu, a writer, former university professor, and a veteran of the 1989 Tiananmen protests just hours after the circulation of an online petition he helped organize. Called Charter 08, this petition calls for greater development of human rights and reform of the Chinese political system.

Charter 08 has more than 300 original signers, representing a broad cross-section of Chinese society, including not only dissidents and public intellectuals, but also workers, farmers, entrepreneurs, professionals, local officials, and others. The petition was circulated widely online and accumulated more than 8,000 signatures throughout China before the Chinese Government shut down the Web site.

Charter 08 was conceived and written in conscious admiration of Charter 77, a document issued in 1977 by dissidents in Czechoslovakia. The Chinese document calls for an end to some features of China's current political system, including replacing one-party rule with a system based on human rights and democracy. The courageous Chinese citizens who have signed the charter are bravely declaring that the status quo in China is unacceptable and unsustainable.

Instead of thoughtfully addressing the ideas raised by the petition and responding to the dissidents, the Chinese Government has sought to silence their voices by harassing, intimidating, and arresting them.

Chinese authorities violated Chinese law in the handling of Mr. Liu's case, holding him incommunicado beyond the legal time limit at an undisclosed location and denying him access to his family or lawyers. In June, Mr. Liu was charged with subversion. He could face up to 15 years in jail.

The Chinese Government seems unaware of the irony of its actions, since its efforts to quash Charter 08 only underscore China's failure to uphold the very principles that the charter advances.

I strongly support this resolution and encourage my colleagues to do the same.

I reserve the balance of my time.

Ms. ROS-LEHTINEN. I yield myself such time as I may consume.

Mr. Speaker, I rise in strong and enthusiastic support of this resolution which calls for the release of one of the true heroes of the democracy movement in China. I want to thank our colleague from Idaho, Mr. MINNICK, for introducing this measure and for agreeing to include portions of the similar resolution that was introduced 4 months ago beforehand by my friend, the chairman of the Republican Policy Committee, Mr. McCOTTER.

As a young professor, Liu Xiaobo served bravely as an advisor to the students at Tiananmen Square. For his courageous stand, he was detained and imprisoned by the Chinese Communist authorities. Now he has been detained again.

What led to Mr. Liu's detention this time was his promotion of Charter 08, which he signed last December on the 60th anniversary of the Universal Declaration of Human Rights.

Mr. Liu's court sentencing awaits, however, another anniversary. A military extravaganza to be staged by China's Communist Party will take place tomorrow. Tanks will roll in once again and the sounds of the boots of PLA soldiers will echo once more in Tiananmen Square as they did on that fateful June night two decades ago when democracy in China was killed.

Tomorrow's holiday, October 1, is remembered as the day in 1949 when Chairman Mao stood atop the Gate of Heavenly Peace and declared victory for Communist forces. After that, things were neither heavenly nor peaceful in China. Mr. Liu saw the need for reform.

He and his associates took their inspiration for a charter calling for greater freedom of expression for human rights and for free elections from the Charter 77 movement in Czechoslovakia. One of the architects of that movement, democracy advocate and former Czech President Vaclav Havel, had this to say about Mr. Liu and his efforts. In a December 19, 2008, opinion piece in the Wall Street Journal, Mr. Havel wrote, "The Chinese Government should learn well the les-

son of the Charter 77 movement that intimidation, propaganda campaigns, and repression are no substitute for reasoned dialogue. Only the immediate and unconditional release of Liu Xiaobo will demonstrate that, for Beijing, that this lesson has been learned."

Our words should echo those of that greater fighter for democracy, Vaclav Havel. Beijing, open your eyes. That flashy new weapon that you will display in tomorrow's military parade is no substitute for the torch light of the Goddess of Freedom and the Goddess of Democracy torn down in Tiananmen Square.

Use the October 1 movement, that anniversary, to immediately release democratic activist Liu Xiaobo. That would be the best way to commemorate China's national day.

I urge all of my colleagues to join us in vigorous support for this important resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. BERMAN. I'm pleased to yield 4 minutes to the sponsor of this very important resolution, the gentleman from Idaho (Mr. MINNICK).

Mr. MINNICK. Mr. Speaker, I want to thank the chairman and ranking member for their leadership and for bringing this important issue to the floor.

On May 16, I delivered the commencement address to the 2009 graduates of the University of Idaho. During my speech, I challenged each of those college graduates to take up the cause of Mr. Liu Xiaobo, an intellectual and literary critic who has spent much of his adult life imprisoned or under house arrest by the Chinese authorities because he had the courage to speak and write that China should allow its citizens freedom of speech and urge that it should allow those citizens to select their government by free and open elections.

Today, on the eve of the 60th anniversary of the People's Republic of China, Mr. Liu's trial is set to begin any day on charges which could lead him to be sentenced for up to 15 years in prison. Mr. Liu has been held since officials took him into custody on December 8, 2008, a day before the release of Charter 08, a declaration he coauthored that calls for political reform, greater human rights, and an end to one-party rule in China.

Mr. Liu Xiaobo was formally arrested on June 23, 2009, by the Beijing Public Security Bureau and charged with "inciting subversion of state power." He has been held under criminal detention while Chinese authorities investigate his case.

In the months after taking Mr. Liu into custody, officials kept Liu in residential surveillance under conditions that violated Chinese laws, including denying Mr. Liu access to counsel and keeping him at an undisclosed location beyond the legal time limit.

I urge that the Chinese Government, as a much admired global power and important partner of my country on many issues important to the future of mankind, grant Mr. Liu a free and fair trial. It should be open to the public, including representatives of international news agencies, where the charges against him will be fairly decided by a judge free from political pressure and instructed to consider only the law and facts of the case.

I further urge that Mr. Liu be allowed to be represented by qualified counsel of his own choosing, have the right to face and cross-examine his accusers, and present witnesses and evidence to prove his innocence. If he is allowed to do so, I anticipate he will be cleared of all charges, and then urge that he be immediately set free and allowed to resume his peaceful pursuit of civil rights and a fully democratic government.

Mr. Liu's leadership has been an inspiration to me and to an untold number of people in China and around the world for his courage to stand up for civil liberties and to demand that his great and proud nation allow free elections at all levels of its government. His courage embodies the emerging global consensus that all people should be allowed to speak freely and have the right to demand that their country be governed by a true representative democracy.

By passing this resolution, the House of Representatives will be sending a strong message that the American people do not condone suppression of freedom of thought or expression.

I thank my colleagues and ask for their support.

□ 1345

Ms. ROS-LEHTINEN. I yield myself such time as I may consume.

Mr. Speaker, it is fitting that we meet here today to consider this resolution, for tomorrow, as I said, will mark a day of infamy that has profoundly influenced the history of the world for the past 60 years. On October 1, 1949, Chairman Mao stood astride Tiananmen Gate in Beijing and declared a new communist China. That was the same square where 40 years later on a June 9 night in 1989, tanks and troops overran students, workers and the goddess of democracy, crushing their peaceful cries for democratic reform.

Tomorrow 200,000 PLA troops will march through Tiananmen Square. In a display worthy of the height of Stalinism in the former Soviet Union, Beijing's leader will show off the might of their latest military hardware. Foreign diplomats have been warned to close their windows and stay off their balconies as this parade passes by, however, for fear of being shot.

This is the new China which Mao proclaimed. Some say that we should hold

our tongues with regard to the Beijing regime's actions because that regime holds America's pocketbook. Others say that the day of accommodation has arrived.

But I believe that this is a wrong, misguided, and immoral stance. We should stand tall for American values and with the goddess of democracy and not remain silent in the face of systematic human rights abuses. Next week, that ambassador of peace and serenity, His Holiness the Dalai Lama, will visit us in Washington. Every President since George Herbert Walker Bush has met with the Dalai Lama during his Washington visits, despite vigorous protests from Beijing that he is a splittist. President Obama should do no less.

Tomorrow I will join my voice with that of Liu Xiaobo and the other signers of the Charter 08 whom we honor in this resolution in calling for a new, free and democratic China. This is what we should commemorate on October 1, rather than 60 years of repression by the Communist regime in China.

Mr. Speaker, I'm now pleased to yield such time as he may consume to Mr. CAO, a member of the Homeland Security and Transportation Committees.

Mr. CAO. I thank the gentlewoman from Florida.

Mr. Speaker, I rise today in support of House Concurrent Resolution 151. Today I urge Congress to demand that China release democratic activist Liu Xiaobo from imprisonment. Liu Xiaobo has inspired millions of people to stare down their government and demand change. For his stance on democracy, he has unjustly been put under house arrest with almost no contact with the outside world.

As the Chinese Government commemorates the 60th anniversary of the Communist Party's rule in China, we remember under Communist domination millions of innocent Chinese citizens were imprisoned and murdered. Liu Xiaobo once wrote that "the most fundamental principles of democracy are that the people are sovereign and that the people select their own government. I must ask that the United States, as a representative of the free world, stand with the Chinese people and people all over the world in fighting for freedom and the abolition of totalitarian governments in favor of democracy."

We must resolve to demand that the Chinese Government immediately release Liu Xiaobo and begin making strides toward a true representative democracy.

Ms. ROS-LEHTINEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BERMAN. Mr. Speaker, having no further requests for time, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by

the gentleman from California (Mr. BERMAN) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 151, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. BERMAN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

#### RECOGNIZING 50TH ANNIVERSARY OF ANTARCTIC TREATY

Mr. BERMAN. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 51) recognizing the 50th anniversary of the signing of the Antarctic Treaty, as amended.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

##### H. CON. RES. 51

Whereas the Antarctic Treaty was signed by 12 nations in Washington, DC, on December 1, 1959, "with the interests of science and the progress of all mankind";

Whereas the Antarctic Treaty was established to continue and develop international "cooperation on the basis of freedom of scientific investigation in Antarctica as applied during the International Geophysical Year";

Whereas the Antarctic Treaty came into force on June 23, 1961, after its unanimous ratification by the seven countries (Argentina, Australia, Chile, France, New Zealand, Norway, and the United Kingdom) with territorial claims in the region and five other countries (Belgium, Japan, South Africa, the Soviet Union, and the United States), which had collaborated in Antarctic research activities during the International Geophysical Year from July 1, 1957, through December 31, 1958;

Whereas the Antarctic Treaty now has 47 nations as signatories that together represent nearly 90 percent of humanity;

Whereas Article IV of the Antarctic Treaty states that "no acts or activities taking place while the present Treaty is in force shall constitute a basis for asserting, supporting or denying a claim to territorial sovereignty in Antarctica";

Whereas the 14 articles of the Antarctic Treaty have provided a lasting foundation for maintaining the region south of 60 degrees south latitude, nearly 10 percent of the Earth's surface, "for peaceful purposes only";

Whereas the Antarctic Treaty prohibits "any measure of a military nature";

Whereas the Antarctic Treaty has promoted international nuclear cooperation by prohibiting "any nuclear explosions in Antarctica and the disposal there of radioactive waste material";

Whereas the Antarctic Treaty provides a framework for the signatories to continue to meet "for the purpose of exchanging information, consulting together on matters of common interest pertaining to Antarctica, and formulating and considering, and recom-

mending to their Governments, measures in furtherance of the principles and objectives of the Treaty";

Whereas common interests among the Antarctic Treaty nations facilitated the development and ratification of the Convention on the Conservation of Antarctic Marine Living Resources;

Whereas the international cooperation represented by the Antarctic Treaty offers humankind a precedent for the peaceful governance of international spaces;

Whereas in celebration of the 50th anniversary of the International Geophysical Year, the Antarctic Treaty Parties in their Edinburgh Declaration recognized the current International Polar Year for its contributions to science worldwide and to international cooperation; and

Whereas the International Polar Year program has endorsed the Antarctic Treaty Summit that will convene in Washington, DC, at the Smithsonian Institution on the 50th anniversary of the Antarctic Treaty: Now, therefore, be it

*Resolved by the House of Representatives (the Senate concurring), That the Congress—*

(1) recognizes that the Antarctic Treaty has greatly contributed to science and science cooperation worldwide and successfully ensured the "use of Antarctica for peaceful purposes only and the continuance of international harmony" for the past half century; and

(2) encourages international and interdisciplinary collaboration in the Antarctic Treaty Summit to identify lessons from 50 years of international cooperation under the Antarctic Treaty that have legacy value for humankind.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. BERMAN) and the gentlewoman from Florida (Ms. ROS-LEHTINEN) each will control 20 minutes.

The Chair recognizes the gentleman from California.

##### GENERAL LEAVE

Mr. BERMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. BERMAN. Mr. Speaker, I rise in support of H. Con. Res. 51, a resolution introduced by the gentleman from Ohio (Mr. TIBERI), recognizing the 50th anniversary of the signing of the Antarctic Treaty. On December 1, 1959, 12 countries, including the United States and the former Soviet Union, signed the Antarctic Treaty here in Washington, D.C. The treaty, which was created to govern activities in Antarctica, has been widely seen as a success. The treaty's preamble states: "It is in the interest of all mankind that Antarctica shall continue forever to be used exclusively for peaceful purposes and shall not become the scene or object of international discord."

As a result of the treaty, the Antarctic was the first space in which the international community agreed to

preclude acts or activities to assert, support or deny a claim to territorial sovereignty. This exclusion led to the peaceful and scientific exploration of the continent without geopolitical competition. In celebration of the 50th anniversary, the Smithsonian Institution will host the Antarctic Treaty Summit between November 30 and December 2 in Washington. This gathering will raise awareness of the treaty's accomplishments, provide a forum for a broad cross section of civil society to examine lessons learned from the treaty and discuss how they can be applied globally.

I commend Mr. TIBERI for sponsoring this timely resolution. I urge my colleagues to support it.

I reserve the balance of my time.

Ms. ROS-LEHTINEN. Mr. Speaker, I yield myself such time as I may consume.

For half a century, the Antarctic Treaty has served as the indispensable element, allowing for the expansion of knowledge about that continent and its central role in the life of our planet. As stated in its preamble, the purpose of the treaty is to ensure that Antarctica shall continue forever to be used exclusively for peaceful purposes, the interests of science and the progress of all mankind.

That promise has been fulfilled, Mr. Speaker. The treaty is an enduring demonstration that international cooperation is not only possible across a broad and expanding range of subjects but also among an array of countries that in other areas have been strong competitors and even enemies.

The original seven signatories have since been joined by 40 more, which together represent the vast majority of the population of the world. The growing list of countries with active research efforts on the continent include the United States, Britain, France, Russia, China, and Argentina, among others, underscoring the welcoming setting the treaty has created.

Once a mysterious and far-off land of seemingly marginal relevance to the world in which we live, half a century of scientific research has resulted in the universal recognition of Antarctica's global role. Although cooperation is not mandated, the treaty's promotion of the exchange of research, joint endeavors and free access to all areas of the continent and surrounding waters has resulted in an extraordinarily productive outpouring of knowledge about the continent and its direct impact on the life of our planet.

The treaty has been a laboratory for more than just science and research, however. It has also demonstrated that cooperation across a broad and expanding range of interests can occur without the need for international bureaucracy, bureaucrats or tribunals. The treaty itself was only the beginning. A long list of agreements followed that

have promoted increasingly close cooperation and added additional protections for their continent, ranging from the convention for the conservation of Antarctic marine living resources to the protocol on environmental protection.

In this past half century, we have learned that although Antarctica can be an intimidating and even a harsh environment, it is also a fragile place which humans can easily degrade and even destroy. Thanks to the success of the Antarctic Treaty, we have gained countless benefits for all mankind, learned to care for a precious part of Earth and preserve this wonderful, irreplaceable inheritance for all generations to come.

Mr. Speaker, I reserve the balance of my time.

Mr. BERMAN. I yield back the balance of my time.

Ms. ROS-LEHTINEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. BERMAN) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 51, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the concurrent resolution, as amended, was agreed to.

A motion to reconsider was laid on the table.

#### ENHANCED PARTNERSHIP WITH PAKISTAN ACT OF 2009

Mr. BERMAN. Mr. Speaker, I move to suspend the rules and pass the bill (S. 1707) to authorize appropriations for fiscal years 2010 through 2014 to promote an enhanced strategic partnership with Pakistan and its people, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

S. 1707

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Enhanced Partnership with Pakistan Act of 2009”.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.

Sec. 2. Definitions.

Sec. 3. Findings.

Sec. 4. Statement of principles.

#### TITLE I—DEMOCRATIC, ECONOMIC, AND DEVELOPMENT ASSISTANCE FOR PAKISTAN

Sec. 101. Authorization of assistance.

Sec. 102. Authorization of appropriations.

Sec. 103. Auditing.

#### TITLE II—SECURITY ASSISTANCE FOR PAKISTAN

Sec. 201. Purposes of assistance.

Sec. 202. Authorization of assistance.

Sec. 203. Limitations on certain assistance.

Sec. 204. Pakistan Counterinsurgency Capability Fund.

Sec. 205. Requirements for civilian control of certain assistance.

#### TITLE III—STRATEGY, ACCOUNT- ABILITY, MONITORING, AND OTHER PROVISIONS

Sec. 301. Strategy Reports.

Sec. 302. Monitoring Reports.

#### SEC. 2. DEFINITIONS.

In this Act:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—Except as otherwise provided in this Act, the term “appropriate congressional committees” means the Committees on Appropriations and Foreign Relations of the Senate and the Committees on Appropriations and Foreign Affairs of the House of Representatives.

(2) COUNTERINSURGENCY.—The term “counterinsurgency” means efforts to defeat organized movements that seek to overthrow the duly constituted Governments of Pakistan and Afghanistan through violent means.

(3) COUNTERTERRORISM.—The term “counterterrorism” means efforts to combat al Qaeda and other foreign terrorist organizations that are designated by the Secretary of State in accordance with section 219 of the Immigration and Nationality Act (8 U.S.C. 1189), or other individuals and entities engaged in terrorist activity or support for such activity.

(4) FATA.—The term “FATA” means the Federally Administered Tribal Areas of Pakistan.

(5) FRONTIER CRIMES REGULATION.—The term “Frontier Crimes Regulation” means the Frontier Crimes Regulation, codified under British law in 1901, and applicable to the FATA.

(6) IMPACT EVALUATION RESEARCH.—The term “impact evaluation research” means the application of research methods and statistical analysis to measure the extent to which change in a population-based outcome can be attributed to program intervention instead of other environmental factors.

(7) MAJOR DEFENSE EQUIPMENT.—The term “major defense equipment” has the meaning given the term in section 47(6) of the Arms Export Control Act (22 U.S.C. 2794(6)).

(8) NWFP.—The term “NWFP” means the North West Frontier Province of Pakistan, which has Peshawar as its provincial capital.

(9) OPERATIONS RESEARCH.—The term “operations research” means the application of social science research methods, statistical analysis, and other appropriate scientific methods to judge, compare, and improve policies and program outcomes, from the earliest stages of defining and designing programs through their development and implementation, with the objective of the rapid dissemination of conclusions and concrete impact on programming.

(10) SECURITY FORCES OF PAKISTAN.—The term “security forces of Pakistan” means the military and intelligence services of the Government of Pakistan, including the Armed Forces, Inter-Services Intelligence Directorate, Intelligence Bureau, police forces, levies, Frontier Corps, and Frontier Constabulary.

(11) SECURITY-RELATED ASSISTANCE.—The term “security-related assistance”—

(A) means—

(i) grant assistance to carry out section 23 of the Arms Export Control Act (22 U.S.C. 2763); and

(ii) assistance under chapter 2 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2311 et. seq); but

(B) does not include—

(i) assistance authorized to be appropriated or otherwise made available under any provision of law that is funded from accounts within budget function 050 (National Defense); and

(ii) amounts appropriated or otherwise available to the Pakistan Counterinsurgency Capability Fund established under the Supplemental Appropriations Act, 2009 (Public Law 111-32).

#### SEC. 3. FINDINGS.

Congress finds the following:

(1) The people of the Islamic Republic of Pakistan and the United States share a long history of friendship and comity, and the interests of both nations are well-served by strengthening and deepening this friendship.

(2) Since 2001, the United States has contributed more than \$15,000,000,000 to Pakistan, of which more than \$10,000,000,000 has been security-related assistance and direct payments.

(3) With the free and fair election of February 18, 2008, Pakistan returned to civilian rule, reversing years of political tension and mounting popular concern over military rule and Pakistan's own democratic reform and political development.

(4) Pakistan is a major non-NATO ally of the United States and has been a valuable partner in the battle against al Qaeda and the Taliban, but much more remains to be accomplished by both nations.

(5) The struggle against al Qaeda, the Taliban, and affiliated terrorist groups has led to the deaths of several thousand Pakistani civilians and members of the security forces of Pakistan over the past seven years.

(6) Despite killing or capturing hundreds of al Qaeda operatives and other terrorists—including major al Qaeda leaders, such as Khalid Sheikh Muhammad, Ramzi bin al-Shibh, and Abu Faraj al-Libi—the FATA, parts of the NWFP, Quetta in Balochistan, and Muridke in Punjab remain a sanctuary for al Qaeda, the Afghan Taliban, the Terikh-e Taliban and affiliated groups from which these groups organize terrorist actions against Pakistan and other countries.

(7) The security forces of Pakistan have struggled to contain a Taliban-backed insurgency, recently taking direct action against those who threaten Pakistan's security and stability, including military operations in the FATA and the NWFP.

(8) On March 27, 2009, President Obama noted, "Multiple intelligence estimates have warned that al Qaeda is actively planning attacks on the United States homeland from its safe-haven in Pakistan."

(9) According to a Government Accountability Office report (GAO-08-622), "since 2003, the [A]dministration's national security strategies and Congress have recognized that a comprehensive plan that includes all elements of national power—diplomatic, military, intelligence, development assistance, economic, and law enforcement support—was needed to address the terrorist threat emanating from the FATA" and that such a strategy was also mandated by section 7102(b)(3) of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108-458; 22 U.S.C. 2656f note) and section 2042(b)(2) of the Implementing the Recommendations of the 9/11 Commission Act of 2007 (Public Law 110-53; 22 U.S.C. 2375 note).

(10) During 2008 and 2009, the people of Pakistan have been especially hard hit by rising food and commodity prices and severe energy shortages, with 3% of the population living on less than \$2 a day and 1/3 of the population living below the poverty line accord-

ing to the United Nations Development Program.

(11) Economic growth is a fundamental foundation for human security and national stability in Pakistan, a country with more than 175,000,000 people, an annual population growth rate of two percent, and a ranking of 136 out of 177 countries in the United Nations Human Development Index.

(12) The 2009 Pakistani military offensive in the NWFP and the FATA displaced millions of residents in one of the gravest humanitarian crises Pakistan has faced, and despite the heroic efforts of Pakistanis to respond to the needs of the displaced millions and facilitate the return of many, it has highlighted the need for Pakistan to develop an effective national counterinsurgency strategy.

#### SEC. 4. STATEMENT OF PRINCIPLES.

Congress declares that the relationship between the United States and Pakistan should be based on the following principles:

(1) Pakistan is a critical friend and ally to the United States, both in times of strife and in times of peace, and the two countries share many common goals, including combating terrorism and violent radicalism, solidifying democracy and rule of law in Pakistan, and promoting the social and economic development of Pakistan.

(2) United States assistance to Pakistan is intended to supplement, not supplant, Pakistan's own efforts in building a stable, secure, and prosperous Pakistan.

(3) The United States requires a balanced, integrated, countrywide strategy for Pakistan that provides assistance throughout the country and does not disproportionately focus on security-related assistance or one particular area or province.

(4) The United States supports Pakistan's struggle against extremist elements and recognizes the profound sacrifice made by Pakistan in the fight against terrorism, including the loss of more than 1,900 soldiers and police since 2001 in combat with al Qaeda, the Taliban, and other extremist and terrorist groups.

(5) The United States intends to work with the Government of Pakistan—

(A) to build mutual trust and confidence by actively and consistently pursuing a sustained, long-term, multifaceted relationship between the two countries, devoted to strengthening the mutual security, stability, and prosperity of both countries;

(B) to support the people of Pakistan and their democratic government in their efforts to consolidate democracy, including strengthening Pakistan's parliament, helping Pakistan reestablish an independent and transparent judicial system, and working to extend the rule of law in all areas in Pakistan;

(C) to promote sustainable long-term development and infrastructure projects, including in healthcare, education, water management, and energy programs, in all areas of Pakistan, that are sustained and supported by each successive democratic government in Pakistan;

(D) to ensure that all the people of Pakistan, including those living in areas governed by the Frontier Crimes Regulation, have access to public, modernized education and vocational training to enable them to provide for themselves, for their families, and for a more prosperous future for their children;

(E) to support the strengthening of core curricula and the quality of schools across Pakistan, including madrassas, in order to improve the prospects for Pakistani chil-

dren's futures and eliminate incitements to violence and intolerance;

(F) to encourage and promote public-private partnerships in Pakistan in order to bolster ongoing development efforts and strengthen economic prospects, especially with respect to opportunities to build civic responsibility and professional skills of the people of Pakistan, including support for institutions of higher learning with international accreditation;

(G) to expand people-to-people engagement between the two countries, through increased educational, technical, and cultural exchanges and other methods;

(H) to encourage the development of local analytical capacity to measure program effectiveness and progress on an integrated basis, especially across the areas of United States assistance and payments to Pakistan, and increase accountability for how such assistance and payments are being spent;

(I) to assist Pakistan's efforts to improve counterterrorism financing and anti-money laundering regulatory structure in order to achieve international standards and encourage Pakistan to apply for "Financial Action Task Force" observer status and adhere to the United Nations International Convention for the Suppression of the Financing of Terrorism;

(J) to strengthen Pakistan's counterinsurgency and counterterrorism strategy to help prevent any territory of Pakistan from being used as a base or conduit for terrorist attacks in Pakistan or elsewhere;

(K) to strengthen Pakistan's efforts to develop strong and effective law enforcement and national defense forces under civilian leadership;

(L) to achieve full cooperation in matters of counter-proliferation of nuclear materials and related networks;

(M) to strengthen Pakistan's efforts to gain control of its under-governed areas and address the threat posed by any person or group that conducts violence, sabotage, or other terrorist activities in Pakistan or its neighboring countries; and

(N) to explore means to consult with and utilize the relevant expertise and skills of the Pakistani-American community.

### TITLE I—DEMOCRATIC, ECONOMIC, AND DEVELOPMENT ASSISTANCE FOR PAKISTAN

#### SEC. 101. AUTHORIZATION OF ASSISTANCE.

(a) IN GENERAL.—The President is authorized to provide assistance to Pakistan—

(1) to support the consolidation of democratic institutions;

(2) to support the expansion of rule of law, build the capacity of government institutions, and promote respect for internationally-recognized human rights;

(3) to promote economic freedoms and sustainable economic development;

(4) to support investment in people, including those displaced in on-going counterinsurgency operations; and

(5) to strengthen public diplomacy.

(b) ACTIVITIES SUPPORTED.—Activities that may be supported by assistance under subsection (a) include the following:

(1) To support democratic institutions in Pakistan in order to strengthen civilian rule and long-term stability, including assistance such as—

(A) support for efforts to strengthen Pakistan's institutions, including the capacity of the National Parliament of Pakistan, such as enhancing the capacity of committees to oversee government activities, including national security issues, enhancing the ability

of members of parliament to respond to constituents, and supporting of parliamentary leadership;

(B) support for voter education and civil society training as well as appropriate support for political party capacity building and responsiveness to the needs of all the people of Pakistan; and

(C) support for strengthening the capacity of the civilian Government of Pakistan to carry out its responsibilities at the national, provincial, and local levels.

(2) To support Pakistan's efforts to expand rule of law, build the capacity, transparency, and trust in government institutions, and promote internationally recognized human rights, including assistance such as—

(A) supporting the establishment of frameworks that promote government transparency and criminalize corruption in both the government and private sector;

(B) support for police professionalization, including training regarding use of force, human rights, and community policing;

(C) support for independent, efficient, and effective judicial and criminal justice systems, such as case management, training, and efforts to enhance the rule of law to all areas in Pakistan;

(D) support for the implementation of legal and political reforms in the FATA;

(E) support to counter the narcotics trade;

(F) support for internationally recognized human rights, including strengthening civil society and nongovernmental organizations working in the area of internationally recognized human rights, as well as organizations that focus on protection of women and girls, promotion of freedom of religion and religious tolerance, and protection of ethnic or religious minorities; and

(G) support for promotion of a responsible, capable, and independent media.

(3) To support economic freedom and economic development in Pakistan, including—

(A) programs that support sustainable economic growth, including in rural areas, and the sustainable management of natural resources through investments in water resource management systems;

(B) expansion of agricultural and rural development, such as farm-to-market roads, systems to prevent spoilage and waste, and other small-scale infrastructure improvements;

(C) investments in energy, including energy generation and cross-border infrastructure projects with Afghanistan;

(D) employment generation, including increasing investment in infrastructure projects, including construction of roads and the continued development of a national aviation industry and aviation infrastructure, as well as support for small and medium enterprises;

(E) worker rights, including the right to form labor unions and legally enforce provisions safeguarding the rights of workers and local community stakeholders;

(F) access to microfinance for small business establishment and income generation, particularly for women; and

(G) countering radicalization by providing economic, social, educational, and vocational opportunities and life-skills training to at-risk youth.

(4) To support investments in people, particularly women and children, including—

(A) promoting modern, public primary and secondary education and vocational and technical training, including programs to assist in the development of modern, nationwide school curriculums for public, private, and religious schools; support for the proper

oversight of all educational institutions, including religious schools, as required by Pakistani law; initiatives to enhance access to education and vocational and technical training for women and girls and to increase women's literacy, with a special emphasis on helping girls stay in school; and construction and maintenance of libraries and public schools;

(B) programs relating to higher education to ensure a breadth and consistency of Pakistani graduates, including through public-private partnerships;

(C) improving quality public health to eliminate diseases such as hepatitis and to reduce maternal and under-five mortality rates;

(D) building capacity for nongovernmental and civil society organizations, particularly organizations with demonstrated experience in delivering services to the people of Pakistan, particularly to women, children, and other vulnerable populations; and

(E) support for refugees and internally displaced persons and long-term development in regions of Pakistan where internal conflict has caused large-scale displacement.

(5) To strengthen public diplomacy to combat militant extremism and promote a better understanding of the United States, including—

(A) encouraging civil society, respected scholars, and other leaders to speak out against militancy and violence; and

(B) expanded exchange activities under the Fulbright Program, the International Visitor Leadership Program, the Youth Exchange and Study Program, and related programs administered by the Department of State designed to promote mutual understanding and interfaith dialogue and expand sister institution programs between United States and Pakistani schools and universities.

(c) ADDITIONAL AND RELATED ACTIVITIES.—

(1) AVAILABILITY OF AMOUNTS FOR PAKISTANI POLICE PROFESSIONALIZATION, EQUIPPING, AND TRAINING.—Not less than \$150,000,000 of the amounts appropriated for fiscal year 2010 pursuant to the authorization of appropriations under section 102 should be made available for assistance to Pakistan under this section for police professionalization, equipping, and training.

(2) AVAILABILITY OF AMOUNTS FOR ADMINISTRATIVE EXPENSES.—Up to \$10,000,000 of the amounts appropriated for each fiscal year pursuant to the authorization of appropriations under section 102 may be made available for administrative expenses of civilian departments and agencies of the United States Government in connection with the provision of assistance under this section. Such amounts shall be in addition to amounts otherwise available for such purposes.

(3) UTILIZING PAKISTANI ORGANIZATIONS.—The President is encouraged, as appropriate, to utilize Pakistani firms and community and local nongovernmental organizations in Pakistan, including through host country contracts, and to work with local leaders to provide assistance under this section.

(4) USE OF DIRECT EXPENDITURES.—Amounts appropriated for each fiscal year pursuant to the authorization of appropriations under section 102 or otherwise made available to carry out this section shall be utilized to the maximum extent possible as direct expenditures for projects and programs, subject to existing reporting and notification requirements.

(5) CHIEF OF MISSION FUND.—Of the amounts appropriated for each fiscal year pursuant to

the authorization of appropriations under section 102, up to \$5,000,000 may be used by the Secretary of State to establish a fund for use by the Chief of Mission in Pakistan to provide assistance to Pakistan under this title or the Foreign Assistance Act of 1961 (22 U.S.C. 2151 et seq.) to address urgent needs or opportunities, consistent with the purposes of this section, or for purposes of humanitarian relief. The fund established pursuant to this paragraph may be referred to as the "Chief of Mission Fund".

(6) SENSE OF CONGRESS.—It is the sense of Congress that—

(A) the United States should provide robust assistance to the people of Pakistan who have been displaced as a result of ongoing conflict and violence in Pakistan and support international efforts to coordinate assistance to refugees and internally displaced persons in Pakistan, including by providing support to international and nongovernmental organizations for this purpose;

(B) the Administrator of the United States Agency for International Development should support the development objectives of the Refugee Affected and Host Areas (RAHA) Initiative in Pakistan to address livelihoods, health, education, infrastructure development, and environmental restoration in identified parts of the country where Afghan refugees have lived; and

(C) the United States should have a coordinated, strategic communications strategy to engage the people of Pakistan and to help ensure the success of the measures authorized by this title.

(d) NOTIFICATION.—For fiscal years 2010 through 2014, the President shall notify the appropriate congressional committees not later than 15 days before obligating any assistance under this section as budgetary support to the Government of Pakistan or any element of the Government of Pakistan and shall include in such notification a description of the purpose and conditions attached to any such budgetary support.

## SEC. 102. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated to the President, for the purposes of providing assistance to Pakistan under this title and to provide assistance to Pakistan under the Foreign Assistance Act of 1961 (22 U.S.C. 2151 et seq.), up to \$1,500,000,000 for each of the fiscal years 2010 through 2014.

(b) AVAILABILITY OF FUNDS.—

(1) IN GENERAL.—Of the amounts appropriated in each fiscal year pursuant to the authorization of appropriations in subsection (a)—

(A) none of the amounts appropriated for assistance to Pakistan may be made available after the date that is 60 days after the date of the enactment of this Act unless the Pakistan Assistance Strategy Report has been submitted to the appropriate congressional committees pursuant to section 301(a); and

(B) not more than \$750,000,000 may be made available for assistance to Pakistan unless the President's Special Representative to Afghanistan and Pakistan submits to the appropriate congressional committees during such fiscal year—

(i) a certification that assistance provided to Pakistan under this title or the Foreign Assistance Act of 1961 to date has made or is making reasonable progress toward achieving the principal objectives of United States assistance to Pakistan contained in the Pakistan Assistance Strategy Report; and

(ii) a memorandum explaining the reasons justifying the certification described in clause (i).

(2) **MAKER OF CERTIFICATION.**—In the event of a vacancy in, or the termination of, the position of the President's Special Representative to Afghanistan and Pakistan, the certification and memorandum described under paragraph (1)(B) may be made by the Secretary of State.

(c) **WAIVER.**—The Secretary of State may waive the limitations in subsection (b) if the Secretary determines, and certifies to the appropriate congressional committees, that it is in the national security interests of the United States to do so.

(d) **SENSE OF CONGRESS ON FOREIGN ASSISTANCE FUNDS.**—It is the sense of Congress that, subject to an improving political and economic climate in Pakistan, there should be authorized to be appropriated up to \$1,500,000,000 for each of the fiscal years 2015 through 2019 for the purpose of providing assistance to Pakistan under the Foreign Assistance Act of 1961.

#### SEC. 103. AUDITING.

(a) **ASSISTANCE AUTHORIZED.**—The Inspector General of the Department of State, the Inspector General of the United States Agency for International Development, and the inspectors general of other Federal departments and agencies (other than the Inspector General of the Department of Defense) carrying out programs, projects, and activities using amounts appropriated to carry out this title shall audit, investigate, and oversee the obligation and expenditure of such amounts.

(b) **AUTHORIZATION FOR IN-COUNTRY PRESENCE.**—The Inspector General of the Department of State and the Inspector General of the United States Agency for International Development, after consultation with the Secretary of State and the Administrator of the United States Agency for International Development, are authorized to establish field offices in Pakistan with sufficient staff from each of the Offices of the Inspector General, respectively, to carry out subsection (a).

(c) **AUTHORIZATION OF APPROPRIATIONS.**—

(1) **IN GENERAL.**—Of the amounts authorized to be appropriated under section 102 for each of the fiscal years 2010 through 2014, up to \$30,000,000 for each fiscal year is authorized to be made available to carry out this section.

(2) **RELATION TO OTHER AVAILABLE FUNDS.**—Amounts made available under paragraph (1) are in addition to amounts otherwise available for such purposes.

### TITLE II—SECURITY ASSISTANCE FOR PAKISTAN

#### SEC. 201. PURPOSES OF ASSISTANCE.

The purposes of assistance under this title are—

(1) to support Pakistan's paramount national security need to fight and win the ongoing counterinsurgency within its borders in accordance with its national security interests;

(2) to work with the Government of Pakistan to improve Pakistan's border security and control and help prevent any Pakistani territory from being used as a base or conduit for terrorist attacks in Pakistan, or elsewhere;

(3) to work in close cooperation with the Government of Pakistan to coordinate action against extremist and terrorist targets; and

(4) to help strengthen the institutions of democratic governance and promote control of military institutions by a democratically elected civilian government.

#### SEC. 202. AUTHORIZATION OF ASSISTANCE.

(a) **INTERNATIONAL MILITARY EDUCATION AND TRAINING.**—

(1) **IN GENERAL.**—There are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2010 through 2014 for assistance under chapter 5 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2347 et seq.; relating to international military education and training) for Pakistan, including expanded international military education and training (commonly known as "E-IMET").

(2) **USE OF FUNDS.**—It is the sense of Congress that a substantial amount of funds made available to carry out this subsection for a fiscal year should be used to pay for courses of study and training in counterinsurgency and civil-military relations.

(b) **FOREIGN MILITARY FINANCING PROGRAM.**—

(1) **IN GENERAL.**—There are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2010 through 2014 for grant assistance under section 23 of the Arms Export Control Act (22 U.S.C. 2763; relating to the Foreign Military Financing program) for the purchase of defense articles, defense services, and military education and training for Pakistan.

(2) **USE OF FUNDS.**—

(A) **IN GENERAL.**—A significant portion of the amount made available to carry out this subsection for a fiscal year shall be for the purchase of defense articles, defense services, and military education and training for activities relating to counterinsurgency and counterterrorism operations in Pakistan.

(B) **SENSE OF CONGRESS.**—It is the sense of Congress that a significant majority of funds made available to carry out this subsection for a fiscal year should be used for the purpose described in subparagraph (A).

(3) **ADDITIONAL AUTHORITY.**—Except as provided in sections 3 and 102 of the Arms Export Control Act, the second section 620J of the Foreign Assistance Act of 1961 (as added by Public Law 110-161), and any provision of an Act making appropriations for the Department of State, foreign operations, and related programs that restricts assistance to the government of any country whose duly elected head of government is deposed by military coup or decree, and except as otherwise provided in this title, amounts authorized to be made available to carry out paragraph (2) for fiscal years 2010 and 2011 are authorized to be made available notwithstanding any other provision of law.

(4) **DEFINITIONS.**—In this section, the terms "defense articles", "defense services", and "military education and training" have the meaning given such terms in section 644 of the Foreign Assistance Act of 1961 (22 U.S.C. 2403).

(c) **SENSE OF CONGRESS.**—It is the sense of Congress that the United States should facilitate Pakistan's establishment of a program to provide reconstruction assistance, including through Pakistan's military as appropriate, in areas damaged by combat operations.

(d) **EXCHANGE PROGRAM BETWEEN MILITARY AND CIVILIAN PERSONNEL OF PAKISTAN AND CERTAIN OTHER COUNTRIES.**—

(1) **IN GENERAL.**—The Secretary of State is authorized to establish an exchange program between—

(A) military and civilian personnel of Pakistan; and

(B)(i) military and civilian personnel of countries determined by the Secretary of State to be in the process of consolidating and strengthening a democratic form of government; or

(ii) military and civilian personnel of North Atlantic Treaty Organization member countries,

in order to foster greater mutual respect for and understanding of the principle of civilian rule of the military.

(2) **ELEMENTS OF PROGRAM.**—The program authorized under paragraph (1) may include conferences, seminars, exchanges, and other events, distribution of publications and reimbursements of expenses of foreign military personnel participating in the program, including transportation, translation and administrative expenses.

(3) **ROLE OF NONGOVERNMENTAL ORGANIZATIONS.**—Amounts authorized to be appropriated to carry out this section for a fiscal year are authorized to be made available for nongovernmental organizations to facilitate the implementation of the program authorized under paragraph (1).

(4) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2010 through 2014 to carry out the program established by this subsection.

#### SEC. 203. LIMITATIONS ON CERTAIN ASSISTANCE.

(a) **LIMITATION ON SECURITY-RELATED ASSISTANCE.**—For fiscal years 2011 through 2014, no security-related assistance may be provided to Pakistan in a fiscal year until the Secretary of State, under the direction of the President, makes the certification required under subsection (c) for such fiscal year.

(b) **LIMITATION ON ARMS TRANSFERS.**—For fiscal years 2012 through 2014, no letter of offer to sell major defense equipment to Pakistan may be issued pursuant to the Arms Export Control Act (22 U.S.C. 2751 et seq.) and no license to export major defense equipment to Pakistan may be issued pursuant to such Act in a fiscal year until the Secretary of State, under the direction of the President, makes the certification required under subsection (c) for such fiscal year.

(c) **CERTIFICATION.**—The certification required by this subsection is a certification by the Secretary of State, under the direction of the President, to the appropriate congressional committees that—

(1) the Government of Pakistan is continuing to cooperate with the United States in efforts to dismantle supplier networks relating to the acquisition of nuclear weapons-related materials, such as providing relevant information from or direct access to Pakistani nationals associated with such networks;

(2) the Government of Pakistan during the preceding fiscal year has demonstrated a sustained commitment to and is making significant efforts towards combating terrorist groups, consistent with the purposes of assistance described in section 201, including taking into account the extent to which the Government of Pakistan has made progress on matters such as—

(A) ceasing support, including by any elements within the Pakistan military or its intelligence agency, to extremist and terrorist groups, particularly to any group that has conducted attacks against United States or coalition forces in Afghanistan, or against the territory or people of neighboring countries;

(B) preventing al Qaeda, the Taliban and associated terrorist groups, such as Lashkar-e-Taiba and Jaish-e-Mohammed, from operating in the territory of Pakistan, including carrying out cross-border attacks into neighboring countries, closing terrorist camps in the FATA, dismantling terrorist bases of operations in other parts of the country, including Quetta and Muridke, and taking action when provided with intelligence about high-level terrorist targets; and

(C) strengthening counterterrorism and anti-money laundering laws; and

(3) the security forces of Pakistan are not materially and substantially subverting the political or judicial processes of Pakistan.

(d) CERTAIN PAYMENTS.—

(1) IN GENERAL.—Subject to paragraph (2), none of the funds appropriated for security-related assistance for fiscal years 2010 through 2014, or any amounts appropriated to the Pakistan Counterinsurgency Capability Fund established under the Supplemental Appropriations Act, 2009 (Public Law 111-32), may be obligated or expended to make payments relating to—

(A) the Letter of Offer and Acceptance PK-D-YAD signed between the Governments of the United States of America and Pakistan on September 30, 2006;

(B) the Letter of Offer and Acceptance PK-D-NAP signed between the Governments of the United States of America and Pakistan on September 30, 2006; and

(C) the Letter of Offer and Acceptance PK-D-SAF signed between the Governments of the United States of America and Pakistan on September 30, 2006.

(2) EXCEPTION.—Funds appropriated for security-related assistance for fiscal years 2010 through 2014 may be used for construction and related activities carried out pursuant to the Letters of Offer and Acceptance described in paragraph (1).

(e) WAIVER.—

(1) IN GENERAL.—The Secretary of State, under the direction of the President, may waive the limitations contained in subsections (a), (b), and (d) for a fiscal year if the Secretary of State determines that is important to the national security interests of the United States to do so.

(2) PRIOR NOTICE OF WAIVER.—The Secretary of State, under the direction of the President, may not exercise the authority of paragraph (1) until 7 days after the Secretary of State provides to the appropriate congressional committees a written notice of the intent to issue to waive and the reasons therefor. The notice may be submitted in classified or unclassified form, as necessary.

(f) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Foreign Affairs, the Committee on Armed Services, the Committee on Oversight and Government Reform, and the Permanent Select Committee on Intelligence of the House of Representatives; and

(2) the Committee on Foreign Relations, the Committee on Armed Services, and the Select Committee on Intelligence of the Senate.

**SEC. 204. PAKISTAN COUNTERINSURGENCY CAPABILITY FUND.**

(a) FOR FISCAL YEAR 2010.—

(1) IN GENERAL.—For fiscal year 2010, the Department of State’s Pakistan Counterinsurgency Capability Fund established under the Supplemental Appropriations Act, 2009 (Public Law 111-32), hereinafter in this section referred to as the “Fund”, shall consist of the following:

(A) Amounts appropriated to carry out this subsection (which may not include any amounts appropriated to carry out title I of this Act).

(B) Amounts otherwise available to the Secretary of State to carry out this subsection.

(2) PURPOSES OF FUND.—Amounts in the Fund made available to carry out this subsection for any fiscal year are authorized to

be used by the Secretary of State, with the concurrence of the Secretary of Defense, to build and maintain the counterinsurgency capability of Pakistan under the same terms and conditions (except as otherwise provided in this subsection) that are applicable to amounts made available under the Fund for fiscal year 2009.

(3) TRANSFER AUTHORITY.—

(A) IN GENERAL.—The Secretary of State is authorized to transfer amounts in the Fund made available to carry out this subsection for any fiscal year to the Department of Defense’s Pakistan Counterinsurgency Fund established under the Supplemental Appropriations Act, 2009 (Public Law 111-32) and such amounts may be transferred back to the Fund if the Secretary of Defense, with the concurrence of the Secretary of State, determines that such amounts are not needed for the purposes for which initially transferred.

(B) TREATMENT OF TRANSFERRED FUNDS.—Subject to subsections (d) and (e) of section 203, transfers from the Fund under the authority of subparagraph (A) shall be merged with and be available for the same purposes and for the same time period as amounts in the Department of Defense’s Pakistan Counterinsurgency Fund.

(C) RELATION TO OTHER AUTHORITIES.—The authority to provide assistance under this subsection is in addition to any other authority to provide assistance to foreign countries.

(D) NOTIFICATION.—The Secretary of State shall, not less than 15 days prior to making transfers from the Fund under subparagraph (A), notify the appropriate congressional committees in writing of the details of any such transfer.

(b) SUBMISSION OF NOTIFICATIONS.—Any notification required by this section may be submitted in classified or unclassified form, as necessary.

(c) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Appropriations, the Committee on Armed Services, and the Committee on Foreign Affairs of the House of Representatives; and

(2) the Committee on Appropriations, the Committee on Armed Services, and the Committee on Foreign Relations of the Senate.

**SEC. 205. REQUIREMENTS FOR CIVILIAN CONTROL OF CERTAIN ASSISTANCE.**

(a) REQUIREMENTS.—

(1) IN GENERAL.—For fiscal years 2010 through 2014, any direct cash security-related assistance or non-assistance payments by the United States to the Government of Pakistan may only be provided or made to civilian authorities of a civilian government of Pakistan.

(2) DOCUMENTATION.—For fiscal years 2010 through 2014, the Secretary of State, in coordination with the Secretary of Defense, shall ensure that civilian authorities of a civilian government of Pakistan have received a copy of final documentation provided to the United States related to non-assistance payments provided or made to the Government of Pakistan.

(b) WAIVER.—

(1) SECURITY-RELATED ASSISTANCE.—The Secretary of State, in consultation with the Secretary of Defense, may waive the requirements of subsection (a) with respect to security-related assistance described in subsection (a) funded from accounts within budget function 150 (International Affairs) if the Secretary of State certifies to the appropriate congressional committees that the

waiver is important to the national security interest of the United States.

(2) NON-ASSISTANCE PAYMENTS.—The Secretary of Defense, in consultation with the Secretary of State, may waive the requirements of subsection (a) with respect to non-assistance payments described in subsection (a) funded from accounts within budget function 050 (National Defense) if the Secretary of Defense certifies to the appropriate congressional committees that the waiver is important to the national security interest of the United States.

(c) APPLICATION TO CERTAIN ACTIVITIES.—Nothing in this section shall apply with respect to—

(1) any activities subject to reporting requirements under title V of the National Security Act of 1947 (50 U.S.C. 413 et seq.);

(2) any assistance to promote democratic elections or public participation in democratic processes;

(3) any assistance or payments if the Secretary of State determines and certifies to the appropriate congressional committees that subsequent to the termination of assistance or payments a democratically elected government has taken office;

(4) any assistance or payments made pursuant to section 1208 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108-375; 118 Stat. 2086), as amended;

(5) any payments made pursuant to the Acquisition and Cross-Servicing Agreement between the Department of Defense of the United States of America and the Ministry of Defense of the Islamic Republic of Pakistan; and

(6) any assistance or payments made pursuant to section 943 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417; 122 Stat. 4578).

(d) DEFINITIONS.—In this section—

(1) the term “appropriate congressional committees” means the Committees on Appropriations, Armed Services, and Foreign Affairs of the House of Representatives and the Committees on Appropriations, Armed Services, and Foreign Relations of the Senate; and

(2) the term “civilian government of Pakistan” does not include any government of Pakistan whose duly elected head of government is deposed by military coup or decree.

**TITLE III—STRATEGY, ACCOUNTABILITY, MONITORING, AND OTHER PROVISIONS**

**SEC. 301. STRATEGY REPORTS.**

(a) PAKISTAN ASSISTANCE STRATEGY REPORT.—Not later than 45 days after the date of enactment of this Act, the Secretary of State shall submit to the appropriate congressional committees a report describing United States policy and strategy with respect to assistance to Pakistan under this Act. The report shall include the following:

(1) A description of the principal objectives of United States assistance to Pakistan to be provided under title I of this Act.

(2) A general description of the specific programs, projects, and activities designed to achieve the purposes of section 101 and the respective funding levels for such programs, projects, and activities for fiscal years 2010 through 2014.

(3) A plan for program monitoring, operations research, and impact evaluation research for assistance authorized under title I of this Act.

(4) A description of the role to be played by Pakistani national, regional, and local officials and members of Pakistani civil society and local private sector, civic, religious, and

tribal leaders in helping to identify and implement programs and projects for which assistance is to be provided under this Act, and of consultations with such representatives in developing the strategy.

(5) A description of the steps taken, or to be taken, to ensure assistance provided under this Act is not awarded to individuals or entities affiliated with terrorist organizations.

(6) A projection of the levels of assistance to be provided to Pakistan under this Act, broken down into the following categories as described in the annual "Report on the Criteria and Methodology for Determining the Eligibility of Candidate Countries for Millennium Challenge Account Assistance":

- (A) Civil liberties.
- (B) Political rights.
- (C) Voice and accountability.
- (D) Government effectiveness.
- (E) Rule of law.
- (F) Control of corruption.
- (G) Immunization rates.
- (H) Public expenditure on health.
- (I) Girls' primary education completion rate.
- (J) Public expenditure on primary education.
- (K) Natural resource management.
- (L) Business start-up.
- (M) Land rights and access.
- (N) Trade policy.
- (O) Regulatory quality.
- (P) Inflation control.
- (Q) Fiscal policy.

(7) An analysis for the suitable replacement for existing Pakistani helicopters, including recommendations for sustainment and training.

(b) COMPREHENSIVE REGIONAL STRATEGY REPORT.—

(1) SENSE OF CONGRESS.—It is the sense of Congress that the achievement of United States national security goals to eliminate terrorist threats and close safe havens in Pakistan requires the development of a comprehensive plan that utilizes all elements of national power, including in coordination and cooperation with other concerned governments, and that it is critical to Pakistan's long-term prosperity and security to strengthen regional relationships among India, Pakistan, and Afghanistan.

(2) COMPREHENSIVE REGIONAL SECURITY STRATEGY.—The President shall develop a comprehensive interagency regional security strategy to eliminate terrorist threats and close safe havens in Pakistan, including by working with the Government of Pakistan and other relevant governments and organizations in the region and elsewhere, as appropriate, to best implement effective counterinsurgency and counterterrorism efforts in and near the border areas of Pakistan and Afghanistan, including the FATA, the NWFP, parts of Balochistan, and parts of Punjab.

(3) REPORT.—

(A) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the President shall submit to the appropriate congressional committees a report on the comprehensive regional security strategy required under paragraph (2).

(B) CONTENTS.—The report shall include a copy of the comprehensive regional security strategy, including specifications of goals, and proposed timelines and budgets for implementation of the strategy.

(C) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this paragraph, the term "appropriate congressional committees" means—

(i) the Committee on Appropriations, the Committee on Armed Services, the Committee on Foreign Affairs, and the Permanent Select Committee on Intelligence of the House of Representatives; and

(ii) the Committee on Appropriations, the Committee on Armed Services, the Committee on Foreign Relations, and the Select Committee on Intelligence of the Senate.

(c) SECURITY-RELATED ASSISTANCE PLAN.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall submit to the appropriate congressional committees a plan for the proposed use of amounts authorized for security-related assistance for each of the fiscal years 2010 through 2014. Such plan shall include an assessment of how the use of such amounts complements or otherwise is related to amounts described in section 204.

#### SEC. 302. MONITORING REPORTS.

(a) SEMI-ANNUAL MONITORING REPORT.—Not later than 180 days after the submission of the Pakistan Assistance Strategy Report pursuant to section 301(a), and every 180 days thereafter through September 30, 2014, the Secretary of State, in consultation with the Secretary of Defense, shall submit to the appropriate congressional committees a report that describes the assistance provided under this Act during the preceding 180-day period. The report shall include—

(1) a description of all assistance by program, project, and activity, as well as by geographic area, provided pursuant to title I of this Act during the period covered by the report, including the amount of assistance provided for each program or project, and with respect to the first report a description of all amounts made available for assistance to Pakistan during fiscal year 2009, including a description of each program, project, and activity for which funds were made available;

(2) a list of persons or entities from the United States or other countries that have received funds in excess of \$100,000 to conduct projects under title I of this Act during the period covered by the report, which may be included in a classified annex, if necessary to avoid a security risk, and a justification for the classification;

(3) with respect to the plan described in section 301(a)(3), updates to such plan and a description of best practices to improve the impact of the assistance authorized under title I of this Act;

(4) an assessment of the effectiveness of assistance provided under title I of this Act during the period covered by the report in achieving desired objectives and outcomes as guided by the plan described in section 301(a)(3), and as updated pursuant to paragraph (3) of this subsection, including a systematic, qualitative, and where possible, quantitative basis for assessing whether desired outcomes are achieved and a timeline for completion of each project and program;

(5) a description of any shortfall in United States financial, physical, technical, or human resources that hinder the effective use and monitoring of such funds;

(6) a description of any negative impact, including the absorptive capacity of the region for which the resources are intended, of United States bilateral or multilateral assistance and recommendations for modification of funding, if any;

(7) any incidents or reports of waste, fraud, and abuse of expenditures under title I of this Act;

(8) the amount of funds authorized to be appropriated pursuant to section 102 that were used during the reporting period for administrative expenses or for audits and pro-

gram reviews pursuant to the authority under sections 101(c)(2) and 103;

(9) a description of the expenditures made from any Chief of Mission Fund established pursuant to section 101(c)(5) during the period covered by the report, the purposes for which such expenditures were made, and a list of the recipients of any expenditures from the Chief of Mission Fund in excess of \$100,000;

(10) an accounting of assistance provided to Pakistan under title I of this Act, broken down into the categories set forth in section 301(a)(6);

(11) an evaluation of efforts undertaken by the Government of Pakistan to—

(A) disrupt, dismantle, and defeat al Qaeda, the Taliban, and other extremist and terrorist groups in the FATA and settled areas;

(B) eliminate the safe havens of such forces in Pakistan;

(C) close terrorist camps, including those of Lashkar-e-Taiba and Jaish-e-Mohammed;

(D) cease all support for extremist and terrorist groups;

(E) prevent attacks into neighboring countries;

(F) increase oversight over curriculum in madrassas, including closing madrassas with direct links to the Taliban or other extremist and terrorist groups; and

(G) improve counterterrorism financing and anti-money laundering laws, apply for observer status for the Financial Action Task Force, and take steps to adhere to the United Nations International Convention for the Suppression of Financing of Terrorism;

(12) a detailed description of Pakistan's efforts to prevent proliferation of nuclear-related material and expertise;

(13) an assessment of whether assistance provided to Pakistan has directly or indirectly aided the expansion of Pakistan's nuclear weapons program, whether by the diversion of United States assistance or the reallocation of Pakistan's financial resources that would otherwise be spent for programs and activities unrelated to its nuclear weapons program;

(14) a detailed description of the extent to which funds obligated and expended pursuant to section 202(b) meet the requirements of such section; and

(15) an assessment of the extent to which the Government of Pakistan exercises effective civilian control of the military, including a description of the extent to which civilian executive leaders and parliament exercise oversight and approval of military budgets, the chain of command, the process of promotion for senior military leaders, civilian involvement in strategic guidance and planning, and military involvement in civil administration.

(b) GOVERNMENT ACCOUNTABILITY OFFICE REPORTS.—

(1) PAKISTAN ASSISTANCE STRATEGY REPORT.—Not later than one year after the submission of the Pakistan Assistance Strategy Report pursuant to section 301(a), the Comptroller General of the United States shall submit to the appropriate congressional committees a report that contains—

(A) a review of, and comments addressing, the Pakistan Assistance Strategy Report;

(B) recommendations relating to any additional actions the Comptroller General believes could help improve the efficiency and effectiveness of United States efforts to meet the objectives of this Act;

(C) a detailed description of the expenditures made by Pakistan pursuant to grant assistance under section 23 of the Arms Export Control Act (22 U.S.C. 2763; relating to

the Foreign Military Financing program); and

(D) an assessment of the impact of the assistance on the security and stability of Pakistan.

(2) CERTIFICATION REPORT.—Not later than 120 days after the date on which the President makes the certification described in section 203(c) for a fiscal year, the Comptroller General of the United States shall conduct an independent analysis of the certification described in such section and shall submit to the appropriate congressional committees a report containing the results of the independent analysis.

(c) SUBMISSION.—The Secretary of State may submit the reports required by this section in conjunction with other reports relating to Pakistan required under other provisions of law, including sections 1116 and 1117 of the Supplemental Appropriations Act, 2009 (Public Law 111-32; 123 Stat. 1906 and 1907).

(d) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Appropriations, the Committee on Armed Services, and the Committee on Foreign Affairs of the House of Representatives; and

(2) the Committee on Appropriations, the Committee on Armed Services, and the Committee on Foreign Relations of the Senate.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. BERMAN) and the gentlewoman from Florida (Ms. ROS-LEHTINEN) each will control 20 minutes.

The Chair recognizes the gentleman from California.

#### GENERAL LEAVE

Mr. BERMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. BERMAN. Mr. Speaker, I yield myself 3 minutes.

I rise in strong support of the bill. The United States has an enormous stake in the security and stability of Pakistan. We can't allow al Qaeda or any other terrorist group that threatens our national security interests to operate with impunity in the tribal regions or any other part of Pakistan, nor can we permit the Pakistani state and its nuclear arsenal to be taken over by the Taliban.

To help prevent this nightmare scenario, we need to forge a true strategic partnership with Pakistan and its people, strengthen Pakistan's democratic government, and work to make Pakistan a source of stability in a volatile region.

I'm pleased to bring to the floor S. 1707, the Enhanced Partnership With Pakistan Act of 2009, a bicameral, bipartisan compromise between H.R. 1886 and the original Senate version of this legislation. As in the House bill we passed in June, S. 1707 provides funding

to strengthen the capacity of Pakistan's democratic institutions, including its Parliament, judicial system and law enforcement agencies. It calls for increased assistance to Pakistan's public education system with an emphasis on access for women and girls.

S. 1707 also provides critical security assistance to help the Government of Pakistan in its fight against the extremists that threaten the national security of both Pakistan and the United States. Finally, the compromise text requires that beginning in fiscal year 2011, military assistance may only be provided to Pakistan if the President determines that the Government of Pakistan is continuing to cooperate with the United States in preventing a proliferation of weapons of mass destruction and has both demonstrated a sustained commitment to combating terrorist groups and has made significant efforts towards that end.

Mr. Speaker, I would like to quote from the letter from Secretary of Defense Gates and Admiral Mullen in reference to this legislation. This is a letter sent last Friday: “This bill would support U.S. national security interests in Afghanistan and Pakistan. The Department of Defense strongly supports moving this bill to final passage by the House and Senate as expeditiously as possible.” Or as Secretary Clinton said just yesterday, this bill “will be an essential tool in support of our national security interests.”

I want to congratulate Senators KERRY and LUGAR, the sponsors of this bill, for their hard work and determination in passing it. And I thank them for the open and cooperative spirit that they and their staff showed in crafting this bicameral, bipartisan compromise. I also want to thank my good friend from Illinois (Mr. KIRK) and my good friend from my home State of California (Mr. ROYCE) for their support in crafting this legislation and supporting the compromise. I particularly want to thank the ranking member of the committee, Ms. ROS-LEHTINEN, for her contributions and her help in reaching this point in passing this legislation.

Following is an explanation of the S. 1707, the Enhanced Partnership with Pakistan Act of 2009. The text reflects an agreement reached by the House Committee on Foreign Affairs and the Senate Committee on Foreign Relations on the text of S. 962, based on the text contained in the bill as passed by the Senate, and the text of H.R. 1886, as contained in titles I to III of Division B of H.R. 2410 and passed by the House of Representatives.

#### SUMMARY

S. 1707, the Enhanced Partnership with Pakistan Act of 2009, establishes a legislative foundation for a sustained partnership between the United States and Pakistan, based on a shared commitment to strengthening democracy and the rule of law, improving the living conditions of the people of Pakistan through sustainable economic development, and combating terrorism and violent

extremism. S. 962 seeks to transform the relationship between the United States and Pakistan into a deeper, broader, long-term strategic engagement. The legislation aims to properly balance the relationship between United States and Pakistan by acknowledging and supporting the national security interests of the United States as well as Pakistan's economic and geopolitical interests. United States assistance for Pakistan enhances our mutual security while helping to build economic and political stability in a country that is both regionally and strategically important. Economic assistance is as critical an element to stabilizing Pakistan as strengthening the capacity of the Pakistani military to counter terrorism, especially for projects that provide direct and concrete benefit to Pakistani citizens as a whole. The overall level of economic assistance authorized would be raised substantially by this legislation, with the bulk of this aid intended for projects such as schools, roads, medical clinics, and infrastructure development.

#### SECTION-BY-SECTION ANALYSIS

##### SEC. 1. SHORT TITLE; TABLE OF CONTENTS

The Amendment maintains the title of S. 962 as the Enhanced Partnership with Pakistan Act of 2009 and contains an amended table of contents.

##### SEC. 2. DEFINITIONS

Section 2 contains definitions for the Act, drawing from provisions in both S. 962 and Division B of H.R. 2410.

##### SEC. 3. FINDINGS

Section 3 combines findings from both S. 962 and Division B of H.R. 2410.

##### SEC. 4. STATEMENT OF PRINCIPLES

Section 4 maintains the structure of Division B of H.R. 2410's Section 4, Declaration of Principles, and draws upon S. 962's Statement of Policy. The Section is intended to describe the principles for which the U.S.-Pakistan relationship is governed. It includes the expectations of Congress with regard to the bilateral relationship.

Title I—Democratic, Economic, and Development Assistance for Pakistan

##### SEC. 101. PURPOSES OF ASSISTANCE

Subsection (a) provides for the purposes of assistance until title I. The central purpose of assistance under title I is to demonstrate unequivocally the long-term commitment of the United States to the people of Pakistan. The specific purposes in section 101 draw from both S. 962 and Division B of H.R. 2410: (1) to support the consolidation of democratic institutions; (2) to support the expansion of rule of law, build the capacity of government institutions, and promote respect for internationally-recognized human rights, including building the capacity of law enforcement forces in Pakistan to combat terrorism and violent militancy and expeditiously investigate, arrest, and prosecute alleged criminals, consistent with the rule of law and due process; (3) to promote economic freedoms and sustainable economic development in order to improve the living conditions of the people of Pakistan, especially in areas of direct interest and importance to their daily lives and to strengthen regional ties by offering assistance for issues of mutual and social concern; (4) to support investments in people, including increasing literacy, expanding opportunities for vocational training as well as broad-based general baccalaureate education, helping achieve an appropriate national curriculum for schools across Pakistan, increasing access to basic health care, including services

for women to address Pakistan's high maternal mortality rates, providing assistance to those displaced in ongoing counterinsurgency operations; and (5) to strengthen public diplomacy, including expanding people-to-people engagement between the United States and Pakistan through increased educational, technical, and cultural exchanges and other methods.

Subsection (b) includes further detail regarding programs which Congress believes should be implemented to satisfy the purposes described in subsection (a). In the area of fortifying democratic institutions, programs should include support for the establishment of constituency offices and support for efforts by the Government of Pakistan to promote local experimentation with methods of transition from the Frontier Crimes Regulation, considered outdated by most Pakistanis, to other governing codes. In the area of enhancement and strengthening of the judicial system and law enforcement, programs should include support for a more responsive and sufficiently staffed bench and professional training of judges, public defenders, and prosecutors; support for strengthening the role of civilian law enforcement agencies, such as the Intelligence Bureau in the Ministry of Interior, with enhanced coordination with judicial processes, enhanced forensics capability, data collection and analysis, financial intelligence functions, and maintenance of data systems to track terrorist or criminal activity; support for the development of an elite rapid reaction police force; and support for the improving counterterrorism and counterinsurgency coordination between local government officials, the police, paramilitary, and military leaders.

In the area of support to increase local capacity, programs should include support to governmental institutions at all levels through providing technical assistance to all ministries to improve transparency and the ability to respond to the needs of the people of Pakistan; support for the promotion of fiscal and personnel management, including revenue tracking and expenditure systems; support for training and education to local nongovernmental and civil society organizations on ways to identify and improve the delivery of services to the people of Pakistan; and support for promoting local ownership and participation, including encouraging communities to contribute a percentage of the value of United States projects and activities carried out under this title in the form of labor, in-kind materials, or other provisions.

In the area of supporting economic freedom and economic development and supporting investments in people, the Department of State should work with the Department of Labor to provide educational remediation to victims of the worst forms of child labor. In addition, programs on microfinance and microenterprise activities should include programs to improve the lives of women aimed at addressing the root causes of exploitative child labor and to enable their children to attend school.

In the area of public education more generally, programs should include support for schools that incorporate basic subjects, such as math, science, literature, and history; important additional training in human rights awareness, and where appropriate basic agricultural education and training as well as support for civic education programs focused on political participation, democratic governance and institutions, and tolerance of diverse ethnic and religious groups; where ap-

propriate funding to the Government of Pakistan to use to improve teacher salaries and to recruit and train teachers and administrators, as well as develop formalized salary scales with merit-based increases; construction and maintenance of libraries and public schools, including water and sanitation, perimeter walls where necessary, and consideration for recreation areas; provision of textbooks and other learning materials as well as food assistance for student meals where warranted; and provision of software to educational institutions and students at the lowest possible cost, specifically targeting universities that specialize in information technology, liberal arts, and women's colleges and women's secondary schools. It is intended that programs continue to enable and expand institutions of higher education in partnership with the Pakistan government and other private-public partnerships, specifically for non-sectarian, co-educational institutions such as Forman College in Lahore. It is further intended that an assessment of American Universities abroad be made to determine the value and opportunity for such an institution in Pakistan at this time.

In the areas of support for human rights, programs should include support for programs designed to end traditional practices and punishments that are inconsistent with internationally recognized human rights' norms and protections, such as honor killings and other forms of cruel and unusual punishments; and technical, legal, and law enforcement assistance for the investigation of past disappearances of individuals in Pakistan and the development of national database of such individuals. In the area of support for healthcare efforts, programs should include support for the repairing and building of healthcare infrastructure, including purchase of equipment and training of health professionals, to ensure adequate access to healthcare for Pakistan's population, especially among poor, marginalized, and disadvantaged segments; and promotion of efforts by the Government of Pakistan to reduce maternal mortality, including through the provision of maternal and newborn health services and development of community-based skilled birth attendants.

Subsection (c) provides that no less than \$150,000,000 should be made available for police professionalization, equipping, and training for fiscal year 2010; authorizes up to \$10,000,000 for each fiscal year for administrative expenses of civilian department and agencies in the U.S. Government in connection with title I assistance; encourages the President to use Pakistani organizations, including the use of host country contracts, to work with local leaders to provide assistance associated with this section; requires direct expenditures be paramount in providing assistance; provides that a Chief of Mission Fund of up to \$5,000,000 for each fiscal year may be made available to address the urgent needs or opportunities on the ground, as determined by the Secretary of State; and expresses the Sense of Congress that counterinsurgency operations being carried out by the Government of Pakistan should be designed to minimize civilian casualties and collateral damage to the people of Pakistan and to provide security for the delivery of humanitarian assistance to the affected population, that the Administrator of the United States Agency for International Development should support the development objectives, and that the United States should have a coordinated strategic communications strategy.

Subsection (d) mandates the President to notify Congress no later than 15 days before obligating any assistance under title I to budget support.

#### SECTION 102. AUTHORIZATION OF APPROPRIATIONS

Subsection (a) authorizes \$1,500,000,000 of assistance to Pakistan for fiscal years 2010 through 2014.

Subsection (b) restricts the availability of such funds to the submission of the Pakistan Assistance Strategy Report no later than 60 days after the enactment of this Act to Congress. It further restricts that no more than \$750,000,000 of the amounts appropriated pursuant to the authorization in subsection (a) may be available each year thereafter until the President's Special Representative to Afghanistan and Pakistan certifies that there is reasonable progress achieved in the principal objectives of the United States assistance, as outlined in the Pakistan Assistance Strategy Report.

Subsection (c) allows the Secretary of State to waive the limitations of subsection (b) if the Secretary determines and certifies that it is in the national security interests of the United States to do so.

Subsection (d) expresses the Sense of Congress that there should be authorized to be appropriated up to \$1,500,000,000 for each fiscal years 2015 through 2019 for the purpose of providing assistance to Pakistan, contingent upon an improving political and economic climate in Pakistan.

It should also be noted that bilateral assistance is not the only mechanism for supporting Pakistan's economic and political situation. To the extent that Pakistan continues to evolve toward civilian control of the government and to develop and implement comprehensive economic reform programs, the President should take the lead in mobilizing international financial institutions, in particular the International Monetary Fund and affiliated institutions in the World Bank group, to provide timely and appropriate resources to help Pakistan. The President should also, in conjunction with other governments and international financial institutions (including the International Monetary Fund), support the implementation of a plan by the Government of Pakistan to attack structural economic problems, address pressing social problems, carry out comprehensive economic reform, and relieve immediate and urgent balance of payments requirements in Pakistan. Finally, the President should provide leadership in supporting multilateral agreements to provide government-to-government loans for currency stabilization in Pakistan if the loans can reduce inflation and thereby foster conditions necessary for the effective implementation of economic reforms.

#### SECTION 103. AUDITING

Subsection (a) explains that the Inspectors General of the Department of State, the United States Agency for International Development, and other federal departments other than the Department of Defense, shall audit, investigate, and oversee the obligation and expenditure of such amounts in this title. It is appropriate and essential that the significant increase in assistance be matched with sufficient oversight and accountability. The Inspectors General of the respective agencies are expected to achieve a higher level of coordination and cooperation in their oversight. Congress expects the Secretary of State in consultation with other U.S. government agencies to ensure oversight efforts and support for those efforts are

no less robust than those for the Special Inspectors General created for Iraq and Afghanistan.

Subsection (b) authorizes the aforementioned Inspectors General to establish in-country presence through field offices in Pakistan, as necessary.

Subsection (c) authorizes up to \$30,000,000 for each fiscal year to be made available for auditing, in addition to amounts otherwise available for such purposes.

#### Title II—Security Assistance

Title II draws from title II of Division B of H.R. 2410 and sections 5 and 6 of S. 962.

#### SEC. 201. PURPOSES OF ASSISTANCE

Section 201 declares the purposes for which U.S. security assistance to Pakistan is to be used. It provides that U.S. security assistance to Pakistan be used (1) to support Pakistan's paramount national security need to fight and win the ongoing counterinsurgency within its borders in accordance with its national security interests; (2) to work with the Government of Pakistan to improve Pakistan's border security and control and help prevent any Pakistani territory from being used as a base or conduit for terrorist attacks in Pakistan, or elsewhere; (3) to work in close cooperation with the Government of Pakistan to coordinate action against extremist and terrorist targets; and (4) to help strengthen the institutions of democratic governance and promote control of military institutions by a democratically elected civilian government.

#### SECTION 202. AUTHORIZATION OF MILITARY ASSISTANCE

Subsection (a) authorizes such sums as may be necessary for fiscal years 2010 to 2014 for International Military Education and Training (IMET) programs for Pakistan, including expanded IMET. Subsection (a)(2) provides that a "substantial amount" of such funds should be used to pay for courses of study and training in counterinsurgency and civil-military relations. For this purpose, a substantial amount should be considered approximately 30 percent.

Subsection (b)(1) authorizes such sums as may be necessary for fiscal years 2010 to 2014 for Foreign Military Financing (FMF). Subsection (b)(2)(A) provides that a significant portion of such amounts shall be used for the purchase of defense articles, defense services, and military education and training for activities relating to counterinsurgency and counterterrorism operations in Pakistan. For purposes of this subsection, such articles, services and education and training may include, but are not limited to, the following:

Aviation maintenance and logistics support for United States-origin and United States-supported rotary wing aircraft and upgrades to such aircraft to include modern night vision and targeting capabilities.

Intelligence, surveillance, and reconnaissance (ISR) ground and air manned and unmanned platforms, including sustainment.

Command and control capabilities.

Force protection and counter improvised explosive device capabilities, including protection of vehicles.

Protective equipment, such as body armor and helmets, night vision goggles, and other individual equipment, including load-bearing equipment, individual and unit level first aid equipment, ballistic eye protection, and cold weather equipment.

Appropriate individual and unit level medical services and articles for the Pakistan Army, the Pakistan Frontier Corps, and other appropriate security forces.

Assistance to enable the Pakistani military to distribute humanitarian assistance and establish a tactical civil-military operations capability, including a civil affairs directorate.

Subsection (b)(2)(B) provides that it is the Sense of Congress that a significant majority of funds made available to carry out this subsection for a fiscal year should be used for the purpose described in subparagraph (A). For this purpose, a significant majority should be considered approximately 70 percent of the amounts made available pursuant to the authorization.

Subsection (b)(3) provides that FMF can be provided in fiscal years 2010 and 2011 notwithstanding any other provision of law other than sections 3 and section 102 of the Arms Export Control Act and annual restrictions relating to assistance to a country that has had a duly-elected head of government deposed by a military coup. The purpose of this provision is to allow greater flexibility in the delivery of FMF in FY2010 and 2011 to Pakistan. This authority complements flexibility provided in the Pakistan Counterinsurgency Fund and the Pakistan Counterinsurgency Capability Fund, both of which will allow the United States in fiscal years 2009 and 2010 to provide urgent counterterrorism and counterinsurgency assistance to Pakistan. The Department is encouraged to use the flexibility in FMF to likewise ensure rapid delivery of counterterrorism and counterinsurgency assistance.

Subsection (c) provides that the United States should facilitate Pakistan's establishment of a program to provide reconstruction assistance, including through Pakistan's military, as appropriate, in areas damaged by combat operations.

Subsection (d) establishes a new exchange program to foster civilian rule of military institutions. This program would have civilian and military officials from NATO governments and from governments determined by the Secretary of State to be going through a transition to democracy to provide insight and experience to their counterparts in Pakistan.

#### SECTION 203. LIMITATION ON ASSISTANCE

Subsection (a) provides that beginning in fiscal year 2011, no security-related assistance may be provided to Pakistan in a fiscal year until the Secretary of State, under the direction of the President, makes the certification required under subsection (c) for such fiscal year.

Subsection (b) provides that beginning in fiscal year 2012, no Letter of Offer and Acceptance to sell major defense equipment to Pakistan may be issued pursuant to the Arms Export Control Act (22 U.S.C. 2751 et seq.) and no license to export major defense equipment to Pakistan may be issued pursuant to such Act in a fiscal year until the Secretary of State, under the direction of the President, makes the certification required under subsection (c) for such fiscal year.

Subsection (c) provides for a certification by the Secretary of State, under the direction of the President, to the appropriate congressional committees on three separate matters. Paragraph (1) requires a certification that the Government of Pakistan is continuing to cooperate with the United States in efforts to dismantle supplier networks relating to the acquisition of nuclear weapons-related materials, such as providing relevant information from or direct access to Pakistani nationals associated with such networks.

Subsection (c)(2) requires a certification that the Government of Pakistan during the

preceding fiscal year has demonstrated a sustained commitment to and is making significant efforts towards combating terrorist groups. In making this certification, the Secretary shall take into account the extent to which the Government of Pakistan has made progress on matters described in subparagraphs (A), (B), and (C).

Subsection (c)(3) requires a certification that the security forces of Pakistan are not materially and substantially subverting the political or judicial processes of Pakistan.

Subsection (d) provides none of the funds appropriated for security-related assistance for fiscal year 2010 and each fiscal year thereafter, or any amounts appropriated to the Pakistan Counterinsurgency Capability Fund established under the Supplemental Appropriations Act, 2009 (Public Law 111-32), may be obligated or expended to make payments relating to certain contracts described in paragraphs (A), (B), and (C) of subsection (d)(1), which the Government of Pakistan has committed to pay for using its own national funds. Subsection (d)(2) provides for an exception related to certain construction costs related to such contracts.

Subsection (e) provides that the Secretary of State, under the direction of the President, may waive the limitations contained in subsections (a), (b), and (d) for a fiscal year if the Secretary of State determines that is important to the national security interests of the United States to do so, and provides for a notification prior the exercise of the authority under this subsection.

Subsection (f) includes definitions for this subsection.

#### SECTION 204. PAKISTAN COUNTERINSURGENCY CAPABILITY FUND

This section authorizes the Pakistan Counterinsurgency Capability Fund (PCCF) and applies to any funds in the PCCF. It provides, in part, that funds transferred to the Pakistan Counterinsurgency Fund (PCF), which resides in the Department of Defense, be merged with the funds in the PCCF, except that the funds would still be subject to the limitations in section 203.

#### SECTION 205. REQUIREMENTS FOR CIVILIAN CONTROL OF CERTAIN ASSISTANCE

This section provides that any direct cash security-related assistance or non-assistance payments by the United States to the Government of Pakistan may only be provided or made to civilian authorities of a civilian government of Pakistan. It also provides that the Secretary of State, in coordination with the Secretary of Defense, shall ensure that civilian authorities of a civilian government of Pakistan have received a copy of final documentation provided to the United States related to non-assistance payments provided or made to the Government of Pakistan. The purpose of this provision is to support Pakistan's democratic civilian government and to ensure the increased transparency of such assistance or payments by requiring that the civilian authorities have the documentation related to such assistance or payments and that civilian authorities actually receive the funds related to such assistance or payments. It should be noted that subsection (c), which contains a number of exceptions to the application of this section, was added in an abundance of caution to ensure that certain programs were not interpreted to be included as being affected by subsection (a). This subsection should not be construed in any way as defining the meaning or scope of "security-related assistance" (a defined term under the Act) or "non-assistance payments."

Title III—Strategy, Accountability,  
Monitoring, and Other Provisions

Title III draws from title III of Division B of H.R. 2410 and section 5 and 8 of S. 962.

SEC. 301. STRATEGY REPORTS

S. 962 contained a provision that would require not later than 45 days after the enactment of this Act the Secretary of State to submit to the appropriate congressional committees a report describing United States policy and strategy with respect to assistance to Pakistan. Division B of H.R. 2410 contained no such requirement. Reflecting the approach in S. 962, section 301(a) requires that not later than 45 days after the date of enactment of this Act, the Secretary of State shall submit a report describing United States policy and strategy with respect to assistance to Pakistan. The report shall include, among other items, a description of principal objectives of United States assistance to Pakistan to be provided under title I of this Act; a general description of the specific programs, projects, and activities designed to achieve the purposes of section 101 and the respective funding levels for such programs, projects, and activities for fiscal years 2010 through 2014; and a plan for program monitoring, operations research, and impact evaluation research for assistance authorized under title I of this Act. The purpose of this report is to ensure proper oversight and accountability over economic assistance to Pakistan.

H.R. 2410 contained a provision (section 302) that would require the President to establish and implement a program to assess the effectiveness of assistance provided under title I of this Act through impact evaluation research on a selected set of programmatic interventions, operations research in areas to ensure efficiency and effectiveness of program implementation, and monitoring to ensure timely and transparent delivery of assistance. S. 962 contained no such provision. That requirement has been included in the reporting requirement of subsection (a). The monitoring requirement in the Pakistan Assistance Strategy Report is intended to encourage the President to establish a monitoring program. The President, in developing performance measurement methods under the impact evaluation research, operations research, and program monitoring, should consult with the appropriate congressional committees as well as the Government of Pakistan.

Subsection (a)(7) requires an analysis for the suitable replacement for existing Pakistani helicopters, including recommendations for sustainment and training. The purpose of this reporting requirement is to identify and formulate plans to replace the AH-1F and AH-1S Cobra attack helicopters currently used by the Government of Pakistan for counterinsurgency operations.

Subsection (b) requires the President to develop a comprehensive interagency regional strategy to eliminate terrorist threats and close safe havens in Pakistan and submit a report on the strategy to Congress. The report is premised on the belief that coordination among India, Pakistan, and Afghanistan, along with countries neighboring or closely aligned with the region such as Iran and Saudi Arabia, where appropriate, will be necessary if the United States is to create a viable strategy for sustainable peace and security in this critical region. Subsection (c) requires the President to submit to Congress a report on the strategy not later than 180 days after the enactment of the Act. Subparagraph (3)(B) provides that the report shall include specification of goals and pro-

posed timelines and budgets for implementation of the strategy.

Subsection (c) mandates that not later than 180 days after the date of the enactment of the Act, the Secretary of State shall submit a plan for the proposed use of amounts authorized for security-related assistance for each of the fiscal years 2010 through 2014, as well as how funds in the PCCF fit into such a plan. The purpose of this requirement is to encourage long-term planning regarding security assistance to Pakistan and to facilitate Congressional oversight over such assistance.

SECTION 302. MONITORING REPORTS

Subsection (a) provides that not later than 180 days after the submission of the Pakistan Assistance Strategy Report and every 180 days thereafter, the Secretary of State shall submit a report that describes the assistance provided under title I of the Act, along with related assessments of the extent to which the Government of Pakistan exercises effective civilian control of the military; whether assistance provided to Pakistan has directly or indirectly aided the expansion of Pakistan's nuclear weapons program; and the counterterrorism efforts undertaken by the Government of Pakistan.

Subsection (b) provides that the Comptroller General of the United States shall submit reports that contain a review of, and comments addressing, the Pakistan Assistance Strategy Report; recommendations relating to any additional actions the Comptroller General believes could help improve the efficiency and effectiveness of United States efforts to meet the objectives of the Act; a detailed description of the expenditures made by Pakistan pursuant to grant assistance under section 23 of the Arms Export Control Act; and an assessment of the impact of the assistance on the security and stability of Pakistan. Subsection (b) further requires the Comptroller General to conduct an independent analysis of the certification described in section 203(c) and submit a report containing the results of the independent analysis to Congress.

Subsection (c) provides that the Secretary of State may submit the reports required by this section in conjunction with other reports relating to Pakistan required under other provisions of law. The intent of this provision is to streamline the numerous reporting requirements of this Act and other Acts, including sections 1116 and 1117 of the Supplemental Appropriations Act, 2009 (Public Law 111-32). Reports under these and other provisions of law may be combined and submitted together as long as all elements of each report are included, and the timelines for each provision of law requiring such a report are respected.

I urge all my colleagues to support this bill, and I reserve the balance of my time.

Ms. ROS-LEHTINEN. Mr. Speaker, I yield myself such time as I may consume.

I rise in strong support of S. 1707, the Enhanced Partnership With Pakistan Act of 2009.

□ 1400

The text before us is the result of negotiations between the House Foreign Affairs and the Senate Foreign Relations Committees with substantial input from the Armed Services Committees and other committees of interest as well as the Departments of State and Defense.

Last week, the consensus text was introduced as a new bill, which passed the Senate by unanimous consent on September 24. While the Senate may have felt it appropriate to rush the bill through the process, many of our colleagues and I feel that a bill of this magnitude both in terms of its policy impact and the financial cost should have been considered under regular order, affording the opportunity for robust discussion, rather than being added to the suspension calendar.

Nevertheless, our focus is and must be on providing our civilian and military personnel the necessary resources and authorities to succeed in implementing a U.S. strategy in Afghanistan and Pakistan. The bill before us addresses half of that equation: Pakistan.

Like its predecessor, it attempts to focus more U.S. resources and attention to rebuilding and making more professional the civilian institutions in Pakistan by authorizing \$1.5 billion annually in nonmilitary assistance through fiscal year 2014.

Reminiscent of the House Republican substitute to the House version of this bill, which passed in June, the new text requires, before any economic assistance to Pakistan can be released, that the administration submit a Pakistan Assistance Strategy Report, including a description of the principal objectives of U.S. assistance, a detailed spending plan, and a plan for program monitoring. It further stipulates that no more than half the assistance may be released until the Congress receives a certification from the administration that this significant expenditure of taxpayer dollars is materially contributing to our multifaceted goals related to Pakistan. If need be, these limitations are subject to a national interest waiver.

Perhaps the most significant changes in the text relate to security assistance. As Members will recall, the version considered by the House in June prompted a letter from Secretary of Defense Gates and Admiral Mullen, Chairman of the Joint Chiefs of Staff, and an associated letter from General Petraeus, the head of U.S. Central Command, objecting to the degree of conditionality and limitations on security assistance to Pakistan which they felt would unduly constrain their efforts given the fluid and the dynamic environment that exists in Pakistan. I'm pleased to note, however, that Secretary Gates and Admiral Mullen write that they now feel that the revised text "addresses the key concerns" that they had raised in their April 28, 2009, letter.

Specifically, Mr. Speaker, in section 202 the Department of Defense concerns with inflexibility, being overspecific, and conditionality with respect to funding for the International Military Education and Training and the Foreign Military Financing have been addressed through the use of "such sums"

instead of specific numbers and “a sense of Congress” language instead of the binding percentage limitations.

In section 203, DOD concerns about inflexibility, conditionality, and potential counterproductive effects of certain limitations on security assistance have been addressed with more balanced language on nonproliferation issues as well as counterterrorism. Issues relating to the F-16 program of Pakistan have also been addressed.

In section 204, DOD concerns about the consistency of language authorizing the Pakistan Counterinsurgency Capabilities Fund with the fiscal year 2009 Supplemental and the State/DOD agreement on transfer of funds, these issues have been addressed. The language is now consistent with that bill and prior understanding.

In section 205, DOD concerns about inflexibility and conditionality with respect to a requirement for civilian control of certain assistance have been addressed through better language and strong dual key waiver authority for Secretary of State and Defense.

I thank all of the authorities for making these changes. I thank Mr. BERMAN for his flexibility.

Mr. Speaker, I reserve the balance of my time.

Mr. BERMAN. Mr. Speaker, I am very pleased to yield 4 minutes to one of the key partners in working through this legislation, the chairman of the Middle East and South Asia Subcommittee, vice chair of the committee, the gentleman from New York (Mr. ACKERMAN).

Mr. ACKERMAN. Mr. Speaker, I rise to speak on the resolution before the House. I want to commend the chairman for his strong efforts particularly on the bill as we adopted it in the House in July. The bill before us today had to satisfy other parties and is, in my view, a lesser product for it.

The fundamental question this legislation attempts to answer is: How can we best ensure the full cooperation of the Government and the people of Pakistan in our struggle against al Qaeda, the Taliban, and other sources of violence, terror, and regional instability? In the text authored by Chairman BERMAN, the answer to this question was to propose a long-term partnership, one in which both sides had both interests and responsibilities, a partnership of equals who were expected to constantly and appropriately judge whether or not the relationship was succeeding.

The compromise bill before us today, however, is not a blueprint for a partnership; it is a recipe for disappointment followed by disillusionment.

Pakistan is too big and too complex to be a proper subject for the Senate's preferred Pygmalion-like approach. Even if Pakistanis sought such a relationship, which they very definitely do not, Pakistan is simply beyond our shaping.

Pakistan's interests and our own are not very closely aligned. We see India as a major ally. They see India as unalterably rapacious and inherently dangerous. We see the Afghan Taliban as a wicked, oppressive, and violent group intent on returning Afghanistan to primitive theocratic darkness. They see it as a useful insurance policy. We see Pakistan's ongoing relationship with radical Islamic terrorist groups as utterly illegitimate. They see these groups as both fundamentally just and as essential leverage. They see it as an unwarranted foreign imposition and potentially a violation of their rights. And the list of contradictions could go on across a range of subjects from madrassas to arms sales, from state enterprise corruption to feudal land reforms.

Setting aside the differences we have with the Government of Pakistan, I think we should all be very circumspect about the ability of our own government to carefully spend \$1.5 billion a year in Pakistan. The history of our assistance programs with Pakistan does not inspire confidence in either the rectitude of our partners or our own ability to spend the taxpayers' money effectively.

The response to such concerns is predictable: Shall we do nothing? No, of course not. Pakistan is a country we can ignore only at our own peril. Only a fool could pretend that what happens there is not and will not become our concern. This bad neighborhood will definitely come to visit us if we choose not to visit it.

But our success will depend chiefly on reforms taken in Pakistan by Pakistanis. I see little in the bill to provide any assurance that such changes are on the way. I fear again we are choosing to be Pakistan's patron rather than its partner. In the end, Pakistan will absorb what we offer and remain the same Pakistan, and, worst of all, they will claim once again that we have failed them.

But we have no choice but to pass this bill.

Ms. ROS-LEHTINEN. Mr. Speaker, I am pleased to yield 3 minutes to the gentleman from California (Mr. ROYCE), the ranking member on the Subcommittee on Terrorism, Nonproliferation and Trade, who has been working hard on this bill from the very beginning.

Mr. ROYCE. Mr. Speaker, I rise in support of this legislation, and I commend Chairman BERMAN for his Pakistan assistance legislation, which is the basis of the Senate bill that we are considering here. I also want to thank Ranking Member ROS-LEHTINEN for pressing the important issues that have made this a better bill.

There is no doubt that Pakistan is critical to America's security. Having made several trips to Pakistan, I observed that large parts of that country

are a hotbed of radical jihadism. It's a country, of course, with a nuclear arsenal. And while its security situation has improved since last spring, Pakistan very much remains a country in crisis.

Pakistan is a partner, too. Any country receiving this amount of U.S. aid had better be one. But there can be no *carte blanche*. This bill's conditions on aid reflect years of bad experiences. It's only right that Pakistan not be proliferating, or covertly aiding militants, as an aid condition. It's only right that those positions are in that underlying bill that Chairman BERMAN has brought forward here. We should also proceed with the understanding that aid has the potential to worsen economic and political conditions.

Operating in Pakistan is very difficult. U.S. aid workers are limited in their in-country travels because of security. I have concerns about establishing too big a footprint in Pakistan, in other words, the so-called diplomatic surge. The fact is that if the U.S. isn't welcomed in much of Pakistan, it may not be the case that this addition of personnel on the ground is helpful. So I think a balance is needed in that, and that's an issue that I hope and trust that the State Department will reflect on.

I am pleased that the trade position, the provision on trade, that was added to this bill when it passed the House was dropped in the Senate. And the reason I am pleased with that is that that provision, allegedly a development-plus for Pakistan, was at best a do-nothing provision. Some argue it would actually decrease U.S./Pakistan trade. It's a shame that this Congress can't muster the will to liberalize trade with Pakistan, which would do far more for its development than development aid.

Finally, I would like to second my colleague's concerns about neighboring Afghanistan. Trends there aren't moving in our direction. It's past time for decisive action.

Mr. BERMAN. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Virginia (Mr. CONNOLLY).

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise in support of S. 1707, the Enhanced Partnership With Pakistan Act of 2009.

Mr. Speaker, this is a national security bill. It authorizes military assistance to help Pakistan disrupt and defeat al Qaeda and insurgent elements, and requires that the majority of such assistance be focused on critical counterinsurgency and counterterrorism efforts. Additionally, the bill requires that all military assistance flow through the democratically elected Government of Pakistan.

The legislation authorizes \$1.5 billion each year for development and economic assistance. In order for complete release of these funds, the President's

Special Representative must certify that Pakistan is making progress towards achieving the principal objectives of U.S. assistance. The legislation also authorizes funding for military education and training and \$150 million to equip, train, and professionalize the Pakistani police.

The military funding in this bill has a specific purpose, that Pakistan improve its border security and fight the counterinsurgency within its own borders. There's a new provision that specifically bars the use of foreign military financing for any new F-16 purchases or upgrades.

I understand the concerns about Pakistan's commitment to fighting terrorism. I myself have concerns about its nuclear arsenal and its past history of proliferation. That is why the bill states that no security-related assistance may be provided to Pakistan until the Secretary of State certifies that the Government of Pakistan is continuing to cooperate with the United States. Moreover, Pakistan must demonstrate a sustained commitment toward combating terrorist groups.

With these protections, Mr. Speaker, I believe this is a very useful bill. I thank the chairman for his leadership.

Ms. ROS-LEHTINEN. Mr. Speaker, I am pleased to yield 3 minutes to the gentleman from California (Mr. ROHRABACHER), the ranking member on the Subcommittee on International Organizations, Human Rights and Oversight.

□ 1415

Mr. ROHRABACHER. Mr. Speaker, I rise in strong opposition to spending billions more of our people's money and sending it to Pakistan. As the bill states: "The United States has contributed more than \$15 billion since 2001 in military and economic assistance to Pakistan." The bill before us commits the American people to another \$15 billion. That is \$30 billion, \$30 billion that we don't have. The Federal budget this year is \$4 trillion, and \$2 trillion of that is deficit spending. We are borrowing in order to cover it.

President Obama right here in this Chamber said that we are losing an average of 750,000 jobs a month. Our economy is as weak as it has ever been. Our people are in need. The debt we are creating will break their backs and destroy our economy. The proposition before us today would have us borrow another \$15 billion from China in order to give to Pakistan. We need to focus on the jobs for the American people, not for the Pakistanis. We need to have the discipline to be responsible, and borrowing billions more from China to give to Pakistan is not responsible.

What we have here is \$15 billion that we have already spent. Well, where has it gotten us? After 9/11 and spending all of this money, our military reports

right now indicate that the ISI, that is the Pakistani intelligence service, still provides support for the Taliban. We have given aid to Pakistan in the past, and they have used their money to build nuclear weapons. And when we complained about it, President Musharraf from Pakistan said his people were willing to eat grass in order to have a nuclear weapon.

Pakistan's government still works hand in glove with the enemy factions in Saudi Arabia and in China. American soldiers still die every day because our diplomats won't face reality, and they keep telling us that Pakistan is just coming around, while it's clear they are just playing us like a fiddle. We've heard this for years.

Pakistani and Chinese leaders, however, during that time transferred nuclear technology to North Korea, Iran and Libya. And to this day, Pakistan won't give our intelligence services a chance to actually talk to that nuclear conduit, Dr. Abdul Khan, who actually transmitted nuclear secrets to these other countries. The Pakistani Government buys its weapons from China with money that they borrow from us. It is a twisted, ludicrous logic for us now to borrow money from the Chinese to give to the dictators in China who will then sell weapons to the Pakistanis.

Pakistan was with us in the Cold War. We remember that. But the Cold War is over. Pakistan is now with China. And both governments, Chinese and the Pakistanis, plot and maneuver against our interests all the time. Well, the threat of radical Islam is real, but it's not going to be solved by our being irresponsible with \$15 billion of taxpayers' money.

Mr. BERMAN. Mr. Speaker, I am pleased to yield 2 minutes to a member of the committee, the chair of the Congressional Pakistan Caucus, and the colleague whom I had the privilege of traveling to Pakistan with earlier this year, Ms. SHEILA JACKSON-LEE of Texas.

Ms. JACKSON-LEE of Texas. Let me thank the chairman very much for his work, very hard work, I might add, Chairman BERMAN, and to the ranking member for the opportunity to support this legislation that has the Senate title. I also support the House bill, which we worked very hard on. But I support the idea that this bill provides for enhanced monitoring, evaluation, and auditing of U.S. assistance. It requires a Presidential report on Pakistan, including an evaluation of Pakistan's progress on counterterrorism and an assessment of whether assistance provided to Pakistan is in any way facilitating the expansion of Pakistan's nuclear weapons program and requires that all assistance to Pakistan be provided through a civilian government.

We are treading water if we keep going back over and over again on

what was. Yes, we have to acknowledge that Pakistan was our friend in the Cold War, and we have to know the Pakistan people in fact want democracy. They are strong and resilient people. When they had the tragedy in the Swat territory, those individuals that went to refugee camps did not stay long. Why? Because they wanted to go back and restore their lives and work.

We need to establish friends with those who want to be friends. We know for sure that the Pakistan military has lost and shed blood on the border of Afghanistan and Pakistan. Yes, there are problems which we can fix with this legislation, \$1.5 billion a year that will help them on their economic recovery.

I am disappointed that the legislation that Congressman VAN HOLLEN had, that we have not been able to work that through. We worked it in the House bill on the investment zones, if you will, which I think is a positive step. But what we did do is we provided opportunity for schooling and an opportunity to ensure that young Pakistani men are not drawn to the teachings of those who would do harm, the violent teachings that have gone on, giving them alternatives in terms of promoting education.

My friends, don't throw the baby away with the bath water. We have friends in Pakistan. That government needs to know that we are an ally, but oversight is imperative. A regional plan is imperative, and recognizing a friend when you see it. Fight the Taliban. Fight Osama bin Laden. Recognize your friends, and pass this legislation.

Ms. ROS-LEHTINEN. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Texas, Dr. PAUL.

Mr. PAUL. I thank the gentlelady for yielding.

Mr. Speaker, I rise in opposition to this bill. Sometimes I wonder how we can, with a straight face, bring a bill up like this with the conditions of this country, especially financially. I oppose this bill for two reasons. One, we don't have the money. That would be a pretty good reason not to support it. And the other reason is I do not believe it's in our national security interests. I know this is being promoted as benefiting our national security, but I do not believe it helps us one bit. This bill was essentially voted on in June, and the vote was 234-185, which means that it is assumed at least 56 or more individuals in the Congress have switched their votes.

Now they say they have tinkered with the bill and changed it a little bit, but it's an authorization that could be \$15 billion. So it hasn't had that much of a change. But today it is expected that these individuals will change and vote for this bill not really asking the questions.

Now, the bill is defined as fortifying democratic institutions. That is a good

goal. But it never, never works. We are in 130 countries, we have 700 bases around the world, and we pursue this, and we are bankrupting our country by trying to maintain this empire. I have often made the point that the way we treat our fellow countries around the world is we tell them what to do, and if they do it we give them money. If they don't do it, we bomb them. Under this condition, we are doing both. We are currently dropping bombs in Pakistan. The CIA is dropping bombs, and innocent people get killed.

If you want to promote our good values and our democratic process, you can't antagonize the people by literally killing people over there, because if bombs were falling on this country, we wouldn't be all that happy with that. So this does not improve our conditions whatsoever.

I would suggest another proposal for our foreign policy, not using bombs and bribes, but what about neither one? What about just talking to people? What about reducing tariffs? What about trading with them? Instead, it is this form of foreign policy that will not serve our interests.

Mr. BERMAN. Mr. Speaker, I'm very pleased to yield 2 minutes to the gentleman from Maryland, the author of important legislation that was part of the House bill and unfortunately is not part of the final compromise, the gentleman from Maryland (Mr. VAN HOLLEN).

Mr. VAN HOLLEN. Mr. Speaker, I thank the chairman of the committee, Mr. BERMAN, and congratulate him and Ranking Member ROS-LEHTINEN on bringing this important bill to the floor.

We have to learn from our past mistakes. And the fact is that the economic and political stability of Pakistan is essential to U.S. security interests, and we know what has happened in the past when we have ignored that fact. Because when the Soviet Union withdrew its forces from Afghanistan in 1989, the United States lost interest in Afghanistan, and we reduced our commitment to Pakistan at the same time. And we all know the consequences. The consequences we saw on September 11, 2001. Because what happened in that power vacuum in Afghanistan was that Taliban took power. They invited al Qaeda in, and the result is the horrible attacks that we saw September 11, 2001.

We must not repeat those mistakes. We must provide a substantial and solid foundation to our relationship with Pakistan which includes not only military assistance but economic assistance and also should require a trade relationship. And I am disappointed that the reconstruction opportunity zones provisions were dropped from this bill. They were supported by the President of Pakistan who thought they were important to economic de-

velopment there. They were part of President Obama's security strategy with respect to Pakistan and Afghanistan which he announced in March. Ambassador Holbrooke in a letter to the Speaker of the House said that the ROZs, reconstruction opportunity zones, are a vital component of our policy towards Pakistan in a moment of great challenge, indeed crisis, for that critically important nation.

I hope, Mr. Chairman, we can continue to work on this. Thank you for your leadership here. I thank Representative LEVIN, as well, and other Members, because I think that the Pakistani President is a good judge of what the economic impact would be. And I do find it curious when sometimes Members of this Congress substitute their judgment as to what would be in the economic interests of Pakistan.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. BERMAN. Mr. Speaker, I will yield the gentleman 1 additional minute.

Mr. VAN HOLLEN. Thank you, Mr. Chairman.

We just heard from the previous speaker that we should focus on trade more than aid. And I do think we need to move forward on trade because we do know that that provides for more sustainable foundation to long-term economic growth in Pakistan. And the idea behind the reconstruction opportunity zones was to create more incentive for businesses to operate out of some of the troubled regions in Pakistan and provide alternatives to taking up a gun or joining the Taliban or joining the insurgency. So I think this is a very important part of our strategy.

I'm very hopeful that we can move forward on this with the Senate. I'm disappointed again that the Senate has decided not to go forward at this time. And I just want to underscore again the statements made by Secretary Clinton as well as Ambassador Holbrooke and the President of the United States that we should move forward on this on an expeditious basis.

Again, I thank the chairman for his leadership.

Ms. ROS-LEHTINEN. Mr. Speaker, at this time, I am pleased to yield 2 minutes to the gentleman from Illinois (Mr. KIRK), a valuable member of the Committee on Appropriations.

Mr. KIRK. Mr. Speaker, foreign assistance works best when we accomplish with treasure what we would have otherwise had to do with blood. We have 68,000 Americans in uniform in Afghanistan. And they are helping our NATO allies and the Afghan Government to fight al Qaeda and the narco-Taliban. The narco-Taliban rests and rearms in Pakistan, in Quetta and the frontier area. This legislation gives us leverage and resources to encourage Pakistani resistance to the Taliban,

the murderers of their own prime minister. By weakening the narco-Taliban, we improve chances for the Afghan Government to expand its authority on both sides of the border.

Now last year I served with ISAF's Regional Command South in Kandahar, Afghanistan, and we had regular reports of men and material moving from Quetta and Spin Boldak into Afghanistan to attack Afghan and NATO positions. This legislation enables us to work on both sides of this border against the narco-Taliban.

I commend our ranking member, Ms. ROS-LEHTINEN, and Chairman BERMAN for making this a bipartisan bill, because that's the way our troops would want it. When the Taliban shoots at our guys, they are not shooting at Republicans or Democrats. They are shooting at Americans. And we are responding with unity.

We have no failure option in Afghanistan. If we ignore this problem, we risk repeating the mistakes so clearly described in the 9/11 Commission Report. And with North America's tallest building located in Chicago, I believe it's our duty to absolutely prevent an attack from Pakistan or Afghanistan from ever happening again to the people of the United States. And I thank both of our leaders for bringing this legislation to the floor.

Mr. BERMAN. Mr. Speaker, I am very pleased to yield 2 minutes to the gentlewoman from California (Ms. HARMAN), who is very much the moving party in the language that insists on Pakistani cooperation and on dismantling nonproliferation networks in the final version of this legislation.

□ 1430

Ms. HARMAN. I thank the gentleman for yielding and salute his leadership on this committee and our long, long, long friendship as southern California Representatives.

I rise in support of this legislation and again thank the committee leadership and committee members for including language in the original House bill and the original committee's report reflecting many of the concerns I have about nuclear proliferation in Pakistan. Regrettably, some of that language is not in this compromise, though I applaud section 203's limitations.

Mr. Speaker, Pakistan poses one of the most complex foreign policy challenges facing the United States today. It sits at the intersection of vital security interests, from terrorism to nuclear proliferation to the war in Afghanistan.

A secure and stable Pakistan is of critical importance to the United States, and yet, with a large al Qaeda presence, a vibrant Taliban insurgency, and widespread political unrest, that stability is anything but guaranteed.

Recent news reports suggest that the city of Quetta is becoming the new

stronghold for the Taliban. Our extremely capable Ambassador to Pakistan, Anne Patterson, says that "our intelligence on Quetta is vastly less, we have no people there, no cross-border operations, no predators."

The stakes are truly high. Pakistan's nuclear stockpile cannot be allowed to fall into the wrong hands.

In March, I worked with Chairman BERMAN to incorporate language that would guarantee U.S. investigators access to individuals suspected of proliferation activities. While that language is not in this bill, this bill does limit security-related assistance contingent upon Pakistan's help dismantling proliferation networks and combating terrorist groups.

A few weeks ago, a Pakistani court lifted the requirement that A.Q. Khan, the mastermind of the most notorious nuclear smuggling ring ever, remain under police escort when traveling around the country. Just recently, Khan boasted to the press that the Government of Pakistan was complicit in his past activity.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. BERMAN. Mr. Speaker, I'm pleased to yield an additional 1 minute to the gentlelady.

Ms. HARMAN. I thank the gentleman.

Mr. Speaker, it is my hope that the aid authorized by this bill will persuade President Zardari and his government to do more to crack down on proliferation offenders and become better partners with the world community in stabilizing their country.

Mr. Speaker, this bill is a very large, 5-year down payment on long-term success in Pakistan. We need to be clear-eyed about the opportunities and to embrace them, but also clear-eyed about the risks.

Ms. ROS-LEHTINEN. Mr. Speaker, I'd like to yield myself such time as I may consume.

I'm pleased that in this bill overly prescriptive reporting and related requirements have been replaced by more appropriate and time-limited provisions for Pakistan strategy reports, for accountability, and for monitoring of assistance.

Robust accountability provisions are included and are vital to reassure the American taxpayer that their moneys are being well-spent, and this is particularly the case for Pakistan, where many Pakistanis and groups, like Transparency International, are deeply concerned about the integrity of high-level officials in that country.

Mr. Speaker, of all the foreign policy challenges facing the United States, stabilizing and transforming and reforming Pakistan may be one of the most daunting. The good news is that leaders in Islamabad have shown increased willingness to confront those militants who have targeted the Paki-

stani State from bases in the Northwest Frontier Province and from South Waziristan.

A number of militant leaders have been killed or captured, most prominently the leader of the Pakistani Taliban.

SWAT and other conflict-affected areas of the Northwest Frontier Province are stabilizing. Although some progress has been achieved, much remains to be done.

Pakistan and Afghanistan are part of a wider theater of operations and, despite important differences, must be considered jointly, as the administration itself suggested following the conclusion of a comprehensive strategic review of Af-Pak policy this March.

Suddenly, however, President Obama has apparently decided to rethink the entire strategy in Afghanistan after his hand-picked new commander there, General Stanley McChrystal, warned that the war could be lost if he doesn't get more troops in the next 12 months.

The stunning magnitude of this reversal was highlighted in an article, an op-ed in *The Wall Street Journal* of September 22.

The author Leslie Gelb, a former Pulitzer Prize-winning reporter, columnist and president emeritus of the Council on Foreign Relations, wrote:

"I'm lost on President Barack Obama's Afghanistan policy, along with most of Congress and the U.S. military. Not quite 8 months ago, Mr. Obama pledged to 'defeat' al Qaeda in Afghanistan by transforming that country's political and economic infrastructure, by training Afghan forces and adding 21,000 U.S. forces for starters.

"He proclaimed Afghanistan's strategic centrality to prevent Muslim extremism from taking over Pakistan, an even more vital Nation because of its nuclear weapons. And a mere 3 weeks ago, he punctuated his commitments by proclaiming that Afghanistan is a 'war of necessity,' not one of choice. White House spokesmen reinforced this by promising that the President would 'fully resource' the war."

Leslie Gelb goes on, "Yet less than 1 week ago, Mr. Obama said the following about troop increases: 'I'm going to take a very deliberative process in making those decisions. There is no immediate decision pending on resources, because one of the things that I'm absolutely clear about is you have to get the strategy right and then make a determination about resources.'"

Gelb points out, "Americans are now confused and caught somewhere between remembering the President's insistence on Afghanistan's importance to U.S. security and rapidly rising pressure from his party to bring the troops home."

Mr. Speaker, if the U.S. is going to prevail against al Qaeda and the

Taliban and win in Afghanistan, the administration must take immediate steps to fully implement the strategy without any further vacillating or delays.

Thus, while today we prepare to vote strongly in support of S. 1707 and, in the words of Secretary Gates and Admiral Mullen, "strongly signal to the Pakistani people our long-term commitment to partnering with them to combat terrorism and extremism," I must ask: What about Afghanistan? How much more time will pass before General McChrystal is provided the resources and the personnel that he deems necessary to succeed in Afghanistan?

As for Pakistan, we join with the executive branch on a bipartisan basis to support policies that will help our friends there transform their country into a stable and prosperous democracy that will support U.S. interests in the region, that opposes militancy within and outside its borders, commits to a secure Afghanistan, and will maintain responsible controls over its nuclear weapons capability.

This bill helps us to achieve those objectives, and I urge its support.

And with that, I yield back the balance of our time.

Mr. BERMAN. Mr. Speaker, I'm pleased to yield 2 minutes to the gentleman from Washington, a former member of the Foreign Affairs Committee, Mr. SMITH.

Mr. SMITH of Washington. I rise in support of this legislation.

I want to thank Chairman BERMAN and Ranking Member ROS-LEHTINEN for their hard work in crafting this compromise and getting a bill that the House and Senate can agree on.

We need to strengthen our relationship with Pakistan. This is a very, very difficult part of the world, and this is a very, very difficult relationship. But none of that overcomes the basic fact that we need a strong relationship with Pakistan for our own national security interests. The threat is real, as has been described by a large number of my colleagues. The threat from Islamic extremism, through al Qaeda and other groups, comes from this region in large part through al Qaeda, in large part through the Taliban, and threatens us.

To defeat that, we need partners in the region. We need a partner in Afghanistan. We need a partner in Pakistan. And the good news is Pakistan is taking steps in the right direction. As has been mentioned, they have stepped up and confronted the violent extremists that threatened them and pushed back against them. They are working with us to train their forces in counter-insurgency tactics so they can better do this, and they have also taken the first basic steps in getting a lasting democracy in place. This has been a lengthy challenge for them as they

have dealt with governance and economic issues, but they have made progress.

They need our help to build on that progress, because if they cannot provide a decent government, a decent governance, it makes it all too easy for the violent extremists to prey on their failures and recruit Pakistanis to their cause. With our support, they can build a better economy. They can build the basics of government to provide for their people. Without it, they're going to have a very, very difficult time accomplishing that task. That will be a threat to the region and that will be a threat to us.

This bill shows a commitment from the United States to a long-term relationship. For too long, the Pakistanis have felt that we only used them for our own interests and then walked away and have been reluctant to embrace us, reluctant in some ways to confront the Taliban for fear that we will not be there to help them when it is truly needed.

This bill shows the long-term commitment to the partnership that we must have with a Pakistani Government that seems increasingly willing to have that partnership.

I urge support for this legislation.

Mr. BERMAN. Mr. Speaker, I yield myself the remaining time.

First, I would like to just pick up on the theme the gentleman from Washington just stated. This truly is a bill that is in the interests of the American people and the Pakistani people. That's why we're talking about authorizing these kinds of funds.

I can assure you, in the context of a failed state, in the context of a victory by the insurgency in Pakistan, the sum total of this bill is peanuts compared to the costs to America and to the rest of the world in terms of international instability and conflict and war.

We've come a long way on this legislation. I think we've built a broad base of support on a bipartisan basis and with both Houses.

I particularly want to thank some key people on my staff who have worked on this legislation: Jasmeet Ahuja and Daniel Silverberg, as well as the other staff members, David Abramowitz and others who have worked so hard, and on the minority side, Yleem Poblete. And to Jamie McCormick and the others, thank you for all your cooperation and help to get to this point.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise today in support of S. 1707, an act to authorize appropriations for fiscal years 2010 through 2014 to promote an enhanced strategic partnership with Pakistan and its people. S. 1707 establishes a new, more positive framework for U.S.-Pakistan relations. This bill is a bipartisan, bicameral compromise and is crucial to the success of a wide range of U.S. national security and foreign policy interests, while ensuring accountability and account-

ability for the assistance we give. I was an original cosponsor of H.R. 1886 an earlier version of this legislation. H.R. 1886, was passed by this body with bipartisan support on June 12th, and I remain unwavering in my support for this assistance package to Pakistan.

Like its predecessor, S. 1707 establishes a set of principles that should govern the U.S.-Pakistan relationship, including the actions that the two countries should take to maintain a robust, relevant and lasting relationship. The bill is comprised of three titles.

The first title provides Democratic, Economic and Development Assistance for Pakistan; the second Title provides Security Assistance for Pakistan; and the third Title requires the President to develop a regional security strategy; provides for enhanced monitoring, evaluation, and auditing of U.S. assistance; requires a Presidential report on Pakistan, including an evaluation on Pakistan's progress in counterterrorism and an assessment of whether assistance provided to Pakistan is in any way facilitating the expansion of Pakistan's nuclear weapons program; and requires that all assistance to Pakistan be provided through a civilian government in Pakistan established by free and fair elections.

Pakistan is a critical ally of the United States. For too long, however, our relationship with Pakistan has been one of fits and starts, depending on events in the region and who happens to be in power in Pakistan. It is time for us the United States to forge a truly strategic partnership with Pakistan, one that goes beyond our mutual interest today in counterinsurgency and counterterrorism and speaks to the everyday needs of the average Pakistani.

S. 1707 accomplishes these objectives. The legislation would significantly expand economic, social and democracy assistance to help lay the foundation for a stronger, more stable Pakistan. As requested by President Obama, this legislation triples the authorization for U.S. economic, social, and democratic development assistance to Pakistan to \$1.5 billion a year. This assistance promotes democratic institutions in the short term. In the short term, it provides immediate funding for democratic institutions such as Pakistan's parliament and judicial institutions. For the long term, this legislation enables Pakistan's next generation by funding educational and vocational opportunities for women and girls and religious minorities.

As much as we must focus on the internal conflicts in Pakistan, we must not forget the external issues affecting the region as a whole and the need for stabilization.

Over the years, U.S. assistance to Pakistan has fluctuated with political events, sending mixed messages and leading most Pakistanis to question both our intentions and our staying power. Today, many Pakistanis believe the United States will cut and run when it serves our purpose, a belief which undermines our longterm efforts to defeat extremists, foster democratic change, and support transparent and accountable institutions that promote security and stability in Pakistan.

However, the status quo is not working: many in the United States believe we are paying too much and getting too little—and most

Pakistanis believe exactly the opposite. Without changing this baseline, there is little likelihood of drying up popular tolerance for anti-U.S. terrorist groups or persuading Pakistani leaders to devote the political capital necessary to deny such groups sanctuary and covert material support.

The bill helps bridge a sustainable U.S.-Pakistan partnership through an increased focus on public diplomacy and engagement. S. 1707 authorizes a new exchange program for Pakistani civil servants and military officers in order to foster greater respect for and understanding of the principle of civilian rule in Pakistan's military. By building bridges to Pakistan and its people, the legislation is intended to provide a new, more positive framework for U.S.-Pakistan relations. Finally, the bill authorizes an extensive increase in military assistance to help Pakistan wage an effective counterinsurgency campaign against those forces that threaten Pakistan's national security.

This legislation establishes a new, more positive framework for U.S.-Pakistan relations. The legislation establishes a set of principles that should govern the U.S.-Pakistan relationship, including the actions that the two countries should take to maintain a robust, relevant and lasting relationship.

Although, I believe that this bill is crucial and will be effective, it is only one piece of a greater strategy. This bill did not, as I have proposed, create a militant rehabilitation program to specifically prevent youth from turning to militancy from the onset. Financial support and job opportunities would be provided to graduates of the rehabilitation programs as incentives for steering insurgents away from militancy. This amendment would have greatly fostered counterterrorism efforts, and I hope that some of the many outstanding groups working in Pakistan will take the initiative in implementing this proposal.

I have been to Pakistan many times. My belief in this country and its relationship with the United States drove me to co-chair the Pakistan Caucus.

Benazir Bhutto, shortly before her death said that "The next few months are critical to Pakistan's future direction as a democratic state committed to promoting peace, fighting terrorism and working for social justice. Democracy is necessary to peace and to undermining the forces of terrorism." I had the pleasure of knowing the late Benazir Bhutto and losing her was truly a tragedy felt beyond Pakistan. She made this statement over two years ago, yet it is relevant today more than ever.

On May 19, 2009, Secretary of State Hillary Clinton announced \$110 million in emergency assistance for the South Asia nation of Pakistan, including aid for civilians fleeing a military offensive against Taliban militants in the northwest. The United Nations refugee agency issued a report stating that more than 1.4 million people in the North West Frontier Province (NWFP) have been registered as displaced since May 2, describing the flood as the largest and swiftest to take place anywhere in the world in recent years.

The newly-registered internally displaced persons (IDP) took the total number of those who have fled their homes in the SWAT valley and surrounding areas to two million.

I am hopeful that the \$110 million in emergency assistance will get to the people on the ground and will be of assistance to them. It is important that the people of Pakistan see that the aid is coming from America to give a face to this aid. It is essential to global security and the security of the United States.

The surge of IDPs followed the launch of a military offensive in late April. President Asif Ali Zardari acted after U.S. officials stepped up warnings that Islamabad's willingness to tolerate and negotiate peace deals with the militants was endangering both Pakistan and the wider region. The Taliban fighting spread to NWFP districts and SWAT.

President Obama's new approach to Pakistan is different than anything that has been tried before. America has expressed that it will support the democratically-elected government and it will have a clear and transparent relationship. This bill has the support of the President, Secretary Clinton, Secretary Gates, Admiral Mullen, and Senators KERRY and LUGAR.

In conclusion, I urge you to support S. 1707, which seeks to and effectively establishes a new, more positive and enduring framework for U.S.-Pakistan relations. This legislation is timely. It is bipartisan. It is accountable. It is effective.

Mr. AL GREEN of Texas. Mr. Speaker, I rise in strong support of S. 1707, the Enhanced Partnership with Pakistan Act of 2009, a bipartisan bill designed to forge a true strategic partnership with Pakistan and its people, strengthen its democratic government, and support Pakistan so it may become a force for stability in a volatile region.

This legislation triples the authorization for U.S. economic, social, and democratic development assistance to Pakistan to \$1.5 billion a year for fiscal years 2010 through 2014. The bill provides that this aid be provided with a particular focus on strengthening democratic institutions, promoting economic development, and improving Pakistan's public education system.

The bill also authorizes military assistance to Pakistan to help it disrupt and defeat al Qaeda and relevant insurgent elements, and requires that such assistance be focused primarily on helping Pakistan with its critical counterinsurgency and counterterrorism efforts.

The security of Pakistan and the United States is closely linked. We cannot succeed in defeating al Qaeda by ourselves. Therefore, it is critically important that we develop a robust, long-term relationship with our strategic partners to prevail against those who threaten our national security.

S. 1707 is an essential tool in our efforts to dismantle terrorism and underscores the United States' long-term commitment to the people of Pakistan.

I urge my colleagues to join me in supporting S. 1707, the Enhanced Partnership with Pakistan Act of 2009.

Mr. BERMAN. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. BERMAN) that the House suspend the rules and pass the bill, S. 1707.

The question was taken; and (two-thirds being in the affirmative) the

rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed.

Votes will be taken in the following order:

H.R. 2442, by the yeas and nays;

H.R. 1771, by the yeas and nays;

H.R. 1053, by the yeas and nays.

Remaining postponed questions will be taken later in the week.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 5-minute votes.

#### BAY AREA REGIONAL WATER RECYCLING PROGRAM EXPANSION ACT OF 2009

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 2442, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 2442, as amended.

The vote was taken by electronic device, and there were—yeas 240, nays 170, not voting 22, as follows:

□ 1507

So (two-thirds not being in the affirmative) the motion was rejected.

The result of the vote was announced as above recorded.

Stated for:

Ms. SLAUGHTER. Madam Speaker, on rollcall No. 743, had I been present, I would have voted "yea."

Mr. GEORGE MILLER of California. Madam Speaker, I was unavoidably detained and missed rollcall vote No. 743 on passage of the Bay Area Regional Water Recycling Program Expansion Act. Had I been present, I would have voted in favor of this important legislation to provide 2.6 billion gallons of water per year for drought-stricken California.

Stated against:

Mr. MYRICK. Madam Speaker, I was unable to participate in the following vote. If I had been present, I would have voted as follows: Rollcall vote 743, on motion to suspend the rules and pass the bill, as amended—H.R. 2442, Bay Area Regional Water Recycling Program Expansion Act of 2009—I would have voted "nay."

# CHESAPEAKE BAY SCIENCE, EDUCATION, AND ECOSYSTEM ENHANCEMENT ACT OF 2009

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 1771, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 1771, as amended.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 338, nays 78, not voting 16, as follows:

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Two minutes remain in the vote.

□ 1514

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated against:

Mr. AKIN. Madam Speaker, on rollcall No. 744, had I been present, I would have voted "nay."

# CHESAPEAKE BAY ACCOUNTABILITY AND RECOVERY ACT OF 2009

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 1053, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 1053, as amended.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 418, nays 1, not voting 13, as follows:

[Roll No. 745]

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1521

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

## PERSONAL EXPLANATION

Mr. CONYERS. Madam Speaker, on September 30th, due to personal reasons, I was unable to cast the three votes that were called on that day. Had I been present, I would have voted "yes" on rollcall votes 743 (H.R. 2442); 744 (H.R. 1771) and 745 (H.R. 1053).

## PERSONAL EXPLANATION

Ms. JACKSON-LEE of Texas. Madam Speaker, on the vote H.R. 2442, Bay Area Regional Water Recycling Pro-

gram Expansion Act of 2009, I was unavoidably detained in the Transportation and Security Subcommittee. I'd like to register the vote for "yea."

## MAKE HEALTH CARE AFFORDABLE

(Ms. JENKINS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JENKINS. The health care debate we're having right now is complex. It's personal. It will affect every single American. And it will affect our Nation's financial stability for years. We must get this right.

It appears the current House proposal is not what Americans are asking for. Just yesterday, a Senate committee rejected the so-called "public option" on a bipartisan vote.

Republicans have solutions that I believe most Americans agree on—solutions to root out waste, fraud and abuse; solutions to provide care regardless of preexisting conditions; solutions to help families access affordable care; solutions to reduce the cost of defensive medicine; solutions to fix the system without destroying it.

This debate must be thorough and the solution bipartisan. It's time to come together and to make health care affordable.

## IN TRIBUTE TO DR. VASCO SMITH

(Mr. COHEN asked and was given permission to address the House for 1 minute.)

Mr. COHEN. I rise today to honor the life and legacy of a great Memphian and a great American, Dr. Vasco Smith. Dr. Smith was one of the stalwarts of civil rights in our city of Memphis and in the Nation. He served on the county commission with me from 1978 to 1980, but he served on the county commission in Shelby County from 1973 until 1994. He and his fellow county commissioner, Jesse Turner, Sr., were known as the Freedom Fighters.

Jesse Turner, Sr., was the national treasurer of the NAACP. Dr. Vasco Smith's wife, Maxine Smith, was the national secretary of the NAACP. Vasco Smith and Jesse Turner worked on all things in civil rights in Memphis and stood up when others did not and were always a voice of conscience and reasonableness and morality in my community.

Dr. Smith was a great county commissioner. He worked with me and others to build the Regional Medical Center, our general hospital in Memphis that serves the people that need health care. He was a dentist who served his community as a physician. He served in the Air Force and served our Nation.

He was a special man to me because he showed moral rectitude of the type that's rarely seen. He knew justice beyond color. He will be remembered in

Memphis as a great civil rights leader, as a husband, a father, a professional, and a great Memphian.

He'll be buried Friday. I'll be there with him. His was a life well lived.

#### NET NEUTRALITY

(Mr. GINGREY of Georgia asked and was given permission to address the House for 1 minute.)

Mr. GINGREY of Georgia. Madam Speaker, on Monday, The Washington Post published an editorial criticizing SEC Chairman Julius Genachowski's net neutrality proposal. This proposal would call for the Federal Government to introduce unnecessary regulation that would inherently slow down the Internet for all users.

Unfortunately, H.R. 3458, the so-called Internet Freedom Preservation Act, mirrors Chairman Genachowski's proposal and is currently pending in the House.

Today, the Internet runs smoothly and networks balance your email, music downloads, and streaming video because the Internet runs without government interference or regulation. Yet, net neutrality would destroy this model of service that consumers have come to expect and that already works—and works well.

Madam Speaker, in this case, The Washington Post got it right. Implementing net neutrality will stifle the very technological growth we need to continue to stay competitive in the global marketplace, and it needs to be defeated.

#### WORKING TO END HUNGER IN AMERICA

(Mr. MCGOVERN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MCGOVERN. Mr. Speaker, I rise to recognize my colleague and fellow Hunger Caucus co-Chair, Congressman JOHN BOOZMAN of Arkansas, for his leadership in the fight to end hunger. On Monday, Congressman BOOZMAN hosted a hunger relief and nutrition roundtable to address hunger in his district, an issue that affects one in seven Arkansas residents.

Joined by Dr. Janey Thornton, deputy under secretary of Agriculture for Food, Nutrition and Consumer Services, this forum brought together local antihunger leaders to coordinate efforts and discuss innovative ways to eliminate hunger in Arkansas' Third Congressional District. Today, more American than ever struggle to put food on their tables. Hunger is getting worse here in America, and we should do more to combat it. I encourage my colleagues to follow Congressman BOOZMAN's example and host forums to address the problem of hunger in their congressional districts. We owe it to

our constituents to come together and to put an end to hunger in America once and for all.

I would like to insert into the RECORD the following article from The Morning News:

[From The Morning News]

#### LACK OF TRANSPORTATION WORSENS HUNGER, EXPERTS SAY

(By Doug Thompson)

ROGERS.—A full food bank does a hungry person no good if it's miles away and he cannot drive there, hunger experts agreed.

Janey Thornton, deputy undersecretary for Food, Nutrition and Consumer Services for the U.S. Department of Agriculture, met Monday with directors of local food relief agencies and charities along with 3rd District Rep. John Boozman, R-Rogers. At least 50 people attended the forum at the Center for Nonprofits in Rogers.

"Do you have problems with 'food deserts?'" Thornton asked soon after the question and answer portion began. "There are large areas across the country where people don't have a big chain store nearby for a variety of reasons." Attendees replied that poor people, particularly the elderly, lack transportation. They go to convenience stores that sell a few groceries. That's a trend nationwide, Thornton said.

"There's little or no fresh fruits and vegetables," at these small stores, Thornton said. "They're also a whole lot more expensive. Milk and other basics can cost two times the amount that you'd find at a chain store."

"Transportation is a huge, huge problem among seniors," said Marge Wolf, director of the Northwest Arkansas Food Bank in Bethel Heights. Wolf added that a lack of basic cooking skills has also become a problem.

"Since the recession began, we're having more and more people who don't know how to cook," Wolf said. "We have food at the bank where, if we give it to someone, they do not know how to cook it."

That is a national trend also, Thornton said. Many could buy food that was at least partly prepared, requiring only heating or some simple preparation to eat when they were employed, she said. "There are some food banks across the country that are installing kitchens to give basic cooking lessons," she said.

It would also help if more people learned to garden, Thornton added. This skill is of great value to the poor, she said. Her home state of Kentucky has a program where seniors show students how to plant gardens in the spring, then tend the gardens while students are away during the summer. The food is harvested in the fall and served in school cafeterias, she said.

□ 1530

#### SPECIAL ORDERS

The SPEAKER pro tempore (Ms. KILROY). Under the Speaker's announced policy of January 6, 2009, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

#### WE, THE SUBJECTS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE of Texas. Madam Speaker, the United States Constitution starts out with the words "We the People." It's right there at the beginning, written large so folks don't miss it. It means that we are a self-governing people. It means that the Constitution is an agreement between the people and the government. It's not an outline of what the government will give people. It's designed to keep government in a box, to keep it under control. Its purpose is to limit what government can do to the people, not the other way around. The Constitution does not live. It does not breathe. It's not an evolving document with constant change of its true meaning. It says the things it says in plain, simple language.

A current Supreme Court Justice told me recently that the Constitution means what five of the nine Justices says it means. Well, that elitist statement may be true as a practical matter, but the writers of the Constitution never wanted five Justices in a dark, damp, secret room to make the Constitution mean what the Judges wanted it to mean. It seems many of the Supreme Court opinions are so twisted with outcome-based decisions that they are the result of the ebb and flow of political and social opinion. The Constitution is not some elusive ideal that changes with time but was written to prevent government, or Judges, from making it mean different things at different times or different things depending on who is in charge, whether it be Judges, Congress, or even Presidents.

There are simple rules for adding to or taking away from the Constitution. There is a high threshold on that process for good reason. The people have to agree to change the Constitution by the complicated amendment process. The Constitution is a self-governing people's agreement with our government, an agreement that says to government that government must stay within these limits or the government violates its contract with the people by disregarding its duty to stay within those bounds of the Constitution.

Now the question to be asked is: Is our government out of control?

As the Constitution is the framework, the Declaration of Independence is our Nation's heart. The Declaration of Independence gave us the justification for establishing this new Nation. The Constitution is the foundation of this new Nation. The Declaration proclaims that our rights come from the Almighty God. They are inalienable. That means our rights cannot be stolen from us by government. We must make sure government recognizes our individual rights. Government can't change what our God-given rights are, and government doesn't give people rights. Government has no rights. Government has power, power that comes from the people because we give our government that power.

Even though it's seldom taught in our Nation's Ivy League law schools, rights are from the Almighty, not from government. If rights are from government, then government can take them away at its whim. Millions of Americans over the centuries have shed blood and even died to put government power in its box, in its place. We are to control government. Government was not established in this country to run roughshod over the people.

There seems to me, now, to be an attack on individual rights by our own government. America's founding as a Nation put an end to the centuries-long notion of "might and power make right." Today, some in this country want to forget about that. Our Founding Fathers called these elites princelings—elite power-grabbers who want to be able to tell us how to live and run our own lives. Some are at the levers of government right now. Might and power does not make right.

Some want government to have the power to control every aspect of our lives. Those that urge a government takeover of health care are a prime example. Government should not have the power over our health, who our doctors are, or what medical procedures are allowed. Government should not have abusive power over our individual lives. It's really not about health or health care. It's about power, and it's about control, government dictating how we live.

In the name of "saving the planet," government wants to tell us what kind of light bulbs we use or how much water is in our toilets or what type of energy we may or may not use. It doesn't matter if those intentions are good; government does not have that authority or right. It's abusing the power we granted to it.

Our government, in my opinion, is out of control, borrowing and spending and taxing and taxing, doing things it has no business doing for us that it has turned into doing things to us. The American people know that their freedom and liberty are being crushed. Has government broken free of its constitutional restraints?

In town hall meeting after town hall meeting across the country, Americans have made it clear: Leave us alone to live our lives. Liberty over tyranny. Stop spending money we don't have. Government is taking our money in the name of government power. The people have had enough. They do not want to be treated like subjects of government control.

And that's just the way it is.

#### WISHING MRS. RUTH LINCOLN A HAPPY 112TH BIRTHDAY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Arkansas (Mr. SNYDER) is recognized for 5 minutes.

Mr. SNYDER. Madam Speaker, today, September 30, is the birthday of Mrs. Ruth Lincoln. I say today is her birthday because, unfortunately, she passed away 2 weeks ago, but she had been looking forward to turning 112 years old today.

This is a picture I took of her about a year ago. This is my son Penn Snyder. This is Mrs. Ruth Lincoln. She was born in 1897 as Ruth Myers. What I like about this picture is Mrs. Lincoln, born in 1897, spans the 20th century with my little boy who was born in 2006. It's a 21st century little boy connecting with the 19th century.

She was born in a log cabin in Oklahoma in 1897. She married Ben Lincoln. Her first vote, her first Presidential election vote was the election in which women in this country were allowed to vote for the first time, and despite her efforts, President Warren Harding was elected President over her vote for Mr. James Cox.

She graduated from college from Oklahoma A&M, which became Oklahoma State. I had visited several times with Mrs. Lincoln in the last several years. She loved growing old. She told me how she loved growing old, and it became very important to us to find out exactly how old she was growing; meaning, was she the oldest person in Pulaski County? Was she the oldest person in Arkansas? Would, at some point, she become the oldest person in the United States? She loved that aspect of growing old.

She loved Bridge and was an avid player until late in her life. She had loved her family, and she had a lot of family. In fact, many of you know Senator BLANCHE LINCOLN, who is married to Mrs. Lincoln's grandson Steve.

It is difficult to say that someone who was 2 weeks short of turning 112 died unexpectedly, but a lot of us in central Arkansas looked forward to Mrs. Ruth Lincoln's birthday. She would always do something special. I remember one a couple of years ago. I think it was her 110th, when she prided herself on going out in the middle of a bridge we call, in Arkansas, the Big Dam Bridge that crossed the Arkansas River and had quite a festivity out there when she walked some on the bridge after being helped out of her wheelchair.

In the last few months, she had been dwindling. Her daughter was quoted as saying that she knew it was her time, but I know Mrs. Lincoln well enough to know she was hoping that her time would be several years from now. She was proudly hoping that perhaps she could become the oldest person in the world. Today we celebrate the memory of Mrs. Ruth Lincoln on what would have been her 112th birthday.

#### CONGRATULATING DARREN ZHU FOR BECOMING A DAVIDSON FELLOW

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from North Carolina (Ms. FOXX) is recognized for 5 minutes.

Ms. FOXX. Madam Speaker, today I had the privilege to meet Darren Zhu, an exceptional student from North Carolina's Fifth Congressional District who is a freshman at Yale University. Darren is in Washington today to receive a prestigious scholarship from the Davidson Institute for Talent and Development.

At the age of 17, he has already made impressive contributions to his community and in the fields of science and math. Darren is a resident of Winston-Salem and a 2009 graduate of the North Carolina School of Science and Mathematics, where he pursued his interests and developed his skills in math and science.

After meeting him today, I understand why he was honored as a Davidson Fellow by the institute. The project that helped him win this scholarship award struck me as the sort of work you would find graduate students doing. In his research, he worked to develop more efficient data storage technology by exploring nanofabrication methods for spintronics, which are a type of powerful electronics. I'm told that his work has applications in the nanotech industry, especially in the field of nanolithography.

The scholarship he won comes from the Davidson Institute. I would be remiss if I didn't highlight their program, the Davidson Fellows program that recognizes the accomplishment of gifted students like Darren.

The Davidson Institute seeks to nurture and support extremely gifted young people through its many programs and scholarships. The Davidson Fellow Scholarship that Darren received recognizes students under the age of 18 for making significant contributions to society in either science, technology, mathematics, music, literature, philosophy, or any other graduate-level work considered outside the box. Since 2001, the institute has awarded \$3.1 million in scholarships to 127 students.

The institute also runs a public school in Nevada for profoundly gifted middle and high school students. In addition, the institute provides a wealth of resources for teachers and parents of highly gifted students. This organization is to be commended for its strong commitment to helping our Nation steward one of our most precious resources, our young people.

I congratulate Darren Zhu for the amazing work that helped him win this important scholarship from the Davidson Institute. I look forward to hearing how he continues to develop his gifts as he pursues his college education.

HONORING THE LIFE, SERVICE  
AND SACRIFICE OF PRIVATE  
FIRST CLASS WILLIAM "LEE"  
MEREDITH OF VIRGINIA BEACH

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Virginia (Mr. NYE) is recognized for 5 minutes.

Mr. NYE. Madam Speaker, I rise today to honor the life, service, and sacrifice of Private First Class William L. Meredith of Virginia Beach, Virginia, who was killed in action while serving our country in Afghanistan on September 21, 2009.

Private Meredith, or Lee as his friends called him, grew up in Virginia Beach where he attended Ocean Lakes High School. Lee was a kind and thoughtful young man who was close to his friends.

As the oldest of three brothers in a military family, he often spoke of joining the military himself. In April of 2008, Lee enlisted in the Army and was assigned to the 569th Engineer Company, 4th Engineer Battalion, stationed at Fort Carson, Colorado.

The mission of the 4th Engineers is both critically important and highly dangerous. They specialize in locating and disposing of bombs in order to keep supply routes open. With IED attacks continuing in Iraq and on the rise in Afghanistan, their skills are in high demand.

In February of this year, Lee's unit shipped out to Iraq, but in April they were redeployed to Afghanistan as part of the renewed effort to defeat the Taliban.

Last Monday, just weeks after his 26th birthday and 10 days before he was scheduled to return home on leave, Private Lee Meredith was tragically killed in action in Kandahar when a roadside bomb detonated near his vehicle.

Lee was proud to be in the Army and to wear our country's uniform. In the 7 months that he served overseas, Lee earned both the Afghanistan and Iraq Campaign Medals, the Combat Action Badge, the Bronze Star, and the Purple Heart.

As a soldier, a brother, a son, and a friend, he made a lasting impact on those who knew him, and as an American hero, his service and sacrifice will always be remembered.

GOVERNMENT NEEDS TO BE  
ACCOUNTABLE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Virginia (Mr. FORBES) is recognized for 5 minutes.

Mr. FORBES. Madam Speaker, when you travel around the country today, one of the things that we see is that a lot of people are divided over different issues. But one thing that they all seem to be in unison about is the need for our government to be accountable, the administration to be accountable

to the House and to the Senate and for us to be accountable to the people that we represent.

Oftentimes, we spend hours on this floor debating just how we're going to bring about that accountability, and that's why it's so disappointing at the end of the day to realize it doesn't really matter what we put in the statutes because the administration is determined that they're just not going to comply with it.

This year, Madam Speaker, when we're looking at one of the largest budgets we have, the defense budget, the Secretary of Defense issued a gag order prohibiting hundreds of members of the Pentagon from doing what they do every year, and that is to just communicate with Members of Congress, to tell them where cuts were being made and where moneys were going to various programs. It's one thing if they want to stop them from talking to Members of Congress, but then when they failed to comply with the statutes that dictate that they send us information so that we can make those independent assessments, Madam Speaker, that's where it becomes even more frustrating.

The statute that's passed by this Congress, signed by the President, says that the Secretary of Defense, when he sends his budget over, has to give the Armed Services Committee a shipbuilding plan. It makes common sense. It makes good sense that we know how many ships we were going to build, how many ships we were going to have so we could compare them with other nations. And then he has to certify that the budget he sends over meets that plan.

He has to do the same thing with an aviation plan, required by law that he submits to us an aviation plan telling us which planes we are going to build, how many planes we're going to have, and a certification that the budget complies with that aviation plan.

□ 1545

This year he just refused to do it. When we asked him about it, he responded with no information at all. So the Armed Services Committee, on a bipartisan basis with every member of the Armed Services Committee agreeing, every Democrat, every Republican, passed a congressional inquiry mandating that the Secretary of Defense comply with the law and send us the shipbuilding plan and the aviation plan by September 15 so we would have those figures before the conference committee came back on the Defense authorization bill. And, Madam Speaker, to date he has refused to submit those plans to the Armed Services Committee.

So, Madam Speaker, the difficulty we have is this: How do you as the Secretary of Defense look at our men and women in uniform across the world

who are defending this country and say to them, You need to comply with the law, you need to comply with the regulations that we send out of the Pentagon, but it does not apply to him and he continues to skirt the law?

Madam Speaker, the American people deserve better, and we're going to continue to fight until we get that information to hold the accountability that we think they need.

URGING SUPPORT FOR H. RES. 782,  
A RESOLUTION DEMANDING  
IRAN DISCLOSE FULLY AND  
ALLOW UNFETTERED INSPEC-  
TION OF ITS NUCLEAR PROGRAM

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Georgia (Mr. JOHNSON) is recognized for 5 minutes.

Mr. JOHNSON of Georgia. Madam Speaker, I rise today in support of H. Resolution 782. This is a resolution that I have introduced and which demands that Iran fully disclose its nuclear facilities, its nuclear development facilities, and also allow unfettered international inspection of its nuclear program.

The elimination of nuclear weapons is an issue that is certainly very close to my heart, and I would like to see that nuclear weapons actually are removed from the face of the planet. So it certainly goes in the wrong direction were we as a Nation to tolerate another nation, especially Iran, acquiring the technology to develop nuclear weapons.

What's troubling is last week the whole world learned that Iran has concealed construction of an enrichment facility near the city of Qom. And they did that without knowing that our intelligence community already knew that the facility was over there. It just had not been publicly disclosed, as it was last week. I guess one of the motivations for not disclosing it prior to last week was to just see how deep in the bad faith bucket would Iran pull its water from. They had no intention of revealing it. It was secret. They exercised deception to conceal it. So our country's announcement last week I'm sure was not a happy time for the Iranian leadership.

Having set the model for how they will deal with the international community insofar as nuclear enrichment and from that acquiring or building a nuclear weapon, we have to make sure that we reverse that bad faith into good faith if at all possible. One of the ways of doing that is through continued tightening of sanctions and to isolate the country of Iran for continuing to be deceptive about its nuclear intentions and its nuclear program.

So while my resolution, H. Res. 782, does not impose sanctions, it just merely puts the House of Representatives on record, as we approach the Geneva talks coming up on Thursday,

that we want to have disclosure immediately, immediate international inspections, and immediate access by inspectors to its nuclear facilities. That's what this resolution does.

My friend Chairman HOWARD BERMAN of the Foreign Affairs Committee has a number of options that he is considering with respect to sanctions. So in no way would I want this bill to interfere with other measures that will be coming forward out of his committee. But this is necessitated by haste because of the approaching deadline for the Geneva talks to begin.

We have got wide bipartisan support, and I hope my colleagues will join the 39 Members from both sides of the aisle who have already cosponsored it.

**THE AMERICAN PEOPLE DESERVE BETTER THAN A HEALTH CARE REFORM BILL DRAFTED IN SECRECY, AND THEY WILL DEMAND IT**

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Georgia (Mr. DEAL) is recognized for 5 minutes.

Mr. DEAL of Georgia. Madam Speaker, I have a message from the citizens of Georgia: don't dare bring a bill before this House that spends one dime of taxpayer money to provide health care for illegal aliens.

During the month of August, the citizens of my State and the country spoke out on health care reform. Their outcry was unlike anything we have seen in recent years. Town hall meetings, TEA parties, freedom rallies, they all became the forum in which the public protest was intended to send a message to this House.

But here we are 2 months later, and none of the concerns of August have been addressed. In particular, no version of the health care reform that is before the House includes the language that I offered that would require proof of citizenship before receiving taxpayer-funded health care. Now it appears that the House is in a holding pattern. Media reports indicate that Speaker PELOSI is drafting her own version of health care reform. Other reports suggest that President Obama and the White House are drafting another bill.

What appears very clear is that these bills are being drafted in secret and behind closed doors and that there is no intention to submit them to the House committees for hearings or for mark-ups.

I call on the Speaker and the President to open up the process, allow Republicans such as me, the ranking member of the Health Care Subcommittee of the Energy and Commerce Committee, to participate in the drafting of this bill. It's time for the law to clearly state that those who want taxpayer-funded health care must

prove and must verify that they are citizens. I have language that will make that happen. But thus far it has been rejected along a party-line vote. Today the other body rejected a similar proposal along a party-line vote.

If health care is to be written in secret, if the normal committee processes are bypassed, if illegal aliens are allowed to receive taxpayer-funded health care, if a bill is rushed through this House with no opportunity to read it, if any of these things happen, I predict that the historic outcry of the American people during August will pale in comparison to the voices of concern that they will raise as a result of that abuse.

Madam Speaker, this issue is too big, it is too important to our people, it is too destructive of our free market enterprise system to be cloaked in secrecy and rushed through this body in a partisan wheelbarrow. If that happens, the Members of this House should be outraged. But, more importantly, the American people will be outraged.

Tyranny by whatever name it bears and whatever iron fist it raises is still tyranny. The American people deserve better and they will demand it.

**EXTOLLING THE U.S. ARMY CORPS OF ENGINEERS**

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Georgia (Mr. WESTMORELAND) is recognized for 5 minutes.

Mr. WESTMORELAND. Madam Speaker, times of crisis make or break reputations. My home State of Georgia experienced such a crisis in the past 2 weeks, with rainfall and floods believed to set the benchmark for a 500-year period.

Last week President Obama declared parts of Georgia a disaster area, opening up Federal aid, and the House of Representatives paid tribute to both the victims of the flood and the courageous emergency workers who put their own lives on the line to protect lives and property.

Tragically, despite our best efforts, at least 10 Georgians died in those floods. Seven of those deaths were in Douglas County, part of which I represent. The State of Georgia estimates that 20,000 homes suffered extensive damage, thousands were at least temporarily homeless, and damages have reached \$500 million and could rise from there.

The worst destruction occurred in the upper Chattahoochee River basin. Because the rising water flowing down the river could have easily snowballed and ravaged areas south of West Point Dam, we're fortunate that areas of west Georgia didn't experience devastation on the scale seen in north Georgia and metro Atlanta.

While areas southwest of Atlanta did see some inevitable flooding during the

heaviest rainfalls on record, counties south of West Point Lake benefited from the excellent management of the lake by the U.S. Army Corps of Engineers.

In recent years the Corps of Engineers has battled both extremes from divvying up sacred water resources during a painful drought in 2007 to taming raging floodwaters in recent weeks.

The Corps has performed important water management tasks that most Americans take for granted. The Corps takes abuse when it has to issue tough decisions, but its many good works go unnoticed.

I want to correct that oversight today. The Corps management of the basin and specifically West Point Lake during the floods unquestionably saved lives and property. The Corps has acted with foresight and skill, and my constituents in west Georgia benefited from the actions immensely.

When heavy rains began to fall in north Georgia and metro Atlanta, the Corps prepared early for the deluge of water heading downstream and strategically released water from the lake to create more storage capacity. A leading expert on West Point Lake, Joe Maltese of LaGrange, called the Corps' early maneuvering "brilliant."

"Throughout the week of the floods, the Corps used the water storage capacity it had been given to its fullest and held nature's fury back to protect as much and as many as they could downstream below West Point Dam," Maltese said.

□ 1600

The Corps walked a tightrope trying to assure the dam held back all it could against a mighty surge, and they succeeded.

Even though this year's flood set the 500-year benchmark, the Corps managed to keep the dam below record levels set in 2003 while at the same time regulating releases to prevent massive flooding below the dam.

Residents of Troup County, the county where West Point Lake is, have stood united in their praise of the Corps of Engineers. The LaGrange-Troup County Chamber of Commerce West Point Lake Committee gave the Corps a sincere thank you. And the city of West Point, which did suffer some flooding, is grateful that the Corps of Engineers prevented the worst from happening. "The Corps did an excellent job controlling the river," said West Point police chief David Kerr.

To that, I would like to add my gratitude and congratulations to the fine men and women of the Corps of Engineers for their efforts during a trying time for Georgia. When crisis hit, these public servants stood ready and able. When reputations could be made or broken, they made theirs. We will never know how many lives were saved

by their actions, and for that we're all grateful. And the people of west Georgia want to commend the Army Corps of Engineers.

#### HEALTH CARE REFORM

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida (Mr. GRAYSON) is recognized for 5 minutes.

Mr. GRAYSON. Last night here in this Chamber I gave a speech. I'm not going to recount every single thing that I said, but I will point out that immediately after that speech, several Republicans asked me to apologize. Well, I would like to apologize. I would like to apologize to the dead. And here is why. According to this study, "Health Insurance and Mortality in U.S. Adults," which was published 2 weeks ago, 44,789 Americans die every year because they have no health insurance. That's right, 44,789 Americans die every year according to this Harvard study called Health Insurance and Mortality in U.S. Adults. You can see it by going to our Web site, grayson.house.gov.

That is more than 10 times the number of Americans who have died in the war in Iraq. It's more than ten times the number of Americans who died in 9/11. But that is just once. This is every single year. That's right, every single year. Take a look at this. Read it and weep. And I mean that. Read it and weep because of all the Americans who are dying because they don't have health insurance.

Now I think we should do something about that. And the Democratic health care plan does do something about that. It makes health care affordable to those who can't afford insurance, and it saves these people's lives. Let's remember that we should care about people even after they are born. So I call upon the Democratic Members of the House, I call upon the Republican Members of the House, and I call upon all of us to do our jobs for the sake of America, for the sake of those dying people and their families. I apologize to the dead and their families that we haven't voted sooner to end this holocaust in America.

#### VOTING RIGHTS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Virginia (Mr. WOLF) is recognized for 5 minutes.

Mr. WOLF. Madam Speaker, I have now written Attorney General Eric Holder on four occasions asking for an explanation of the dismissal of an important voter intimidation case, *U.S. v. New Black Panther Party*. To date, the answers provided are scant and, in at least one important regard, factually inaccurate.

In 1981, I was the only member, Republican or Democrat, of the Virginia

delegation in the House to vote for the Voting Rights Act and was harshly criticized by the editorial page of *The Richmond Times Dispatch*. And when I supported the act's reauthorization in 2006, I was again criticized by editorial pages. My commitment to voting rights is unquestioned. It is imperative that we protect all Americans' right to vote. This is a sacrosanct and inalienable right of any democracy.

This New Black Panther Party case was brought in January by career attorneys in the Department of Justice's Civil Rights Division against the party and several of its members for deploying uniformed men to a polling station in Philadelphia on Election Day last November to harass and intimidate voters, one of whom brandished a nightstick to voters. The public, and every Member, if they care, can view the video of the incident as well as other examples of the party's intimidation in a clip from the National Geographic Channel documentary entitled "Coming to a Polling Place Near You" posted on the Web. And it can be seen at [www.electionjournal.org](http://www.electionjournal.org).

One of the witnesses of the Election Day incident, Bartle Bull, a veteran civil rights activist who served as Bobby Kennedy's New York campaign manager in 1968, has publicly called this "the most blatant form of voter intimidation" he has ever seen. He also reminded us that "Martin Luther King did not die to have people in jackboots with billy clubs block the doors of polling places, and neither did Robert Kennedy. It's an absolute disgrace."

In July, *The Washington Times* reported that improper political influence by Associate Attorney General Thomas Perrelli led to the dismissal of the case, a politicizing of career employees.

This inexplicable dismissal came over the objections of the career attorneys on the trial team as well as the department's own appeal office, which advised that the complaint was "sufficient to support the injunctions" sought by the career lawyers, and that the "government's predominant interest is preventing intimidation, threats and coercion against voters."

Despite this guidance urging that the department pursue a judgment in this case, it was dismissed in May over the career attorneys' objections. However, this unjustified dismissal has not gone unnoticed. I have worked with the Judiciary Committee Ranking Member LAMAR SMITH to demand answers from Attorney General Holder.

I am pleased that the U.S. Commission on Civil Rights has also taken note of this case. The Commission has an important statutory responsibility to "investigate voting rights deprivation and make appraisals of Federal policies to enforce Federal voting rights laws."

Congress instilled this independent oversight responsibility of the Com-

mission in statute, and it says: "All Federal agents shall fully cooperate with the Commission to the end that it may effectively carry out its functions and duties."

The Commission wrote to Attorney General Holder on June 16, June 22 and August 10 requesting answers on the dismissal of this case. It also voted at its September meeting to make its review of this case the primary focus of its 2009 independent report.

Earlier today, the Commission sent a fourth letter to Attorney General Eric Holder, which I submit for the *RECORD*, reiterating its request for information and asking him to respond no later than October 14 or it will proceed with an investigation using its statutory authorities.

I applaud the Commission. I call on Attorney General Holder to answer the questions posed in my letters dated June 8, July 17, July 22 and July 31, as well as comply with the Commission's request for information so it may complete its report. I also urge the Attorney General to allow Members of Congress to meet with the career attorneys in the trial team and appeal the body so that they may answer legitimate questions.

Again, if Members of Congress want to see the case that Eric Holder has dropped, just go to [www.electionjournal.org](http://www.electionjournal.org). It's the National Geographic channel. And you will see Eric Holder has to start answering the letters that the Civil Rights Commission sends and Members have sent.

Finally, the trial team should be allowed to bring the case again—per the guidance I obtained from the Congressional Research Service's American Law Division in its July 30 memo—to allow our nation's justice system to work as it was intended: impartially and without bias.

U.S. COMMISSION ON CIVIL RIGHTS,  
Washington, DC, September 30, 2009.

Hon. ERIC H. HOLDER, Jr.,  
Attorney General, U.S. Department of Justice,  
Washington, DC.

Re: U.S. Commission on Civil Rights Review  
and Report on the Implications of Enforcement Actions in *United States v. New Black Panther Party for Self-Defense*, Civ.  
No. 09-0065 SD (E.D. Pa.) (NBPP case)

DEAR ATTORNEY GENERAL HOLDER: The Commission requests that you instruct Department officials to fully cooperate, as 42 U.S.C. 1975b(e) requires, with our overdue information requests in the above-referenced matter. To that end, we also ask you to identify an individual who will exercise the substantive authority to coordinate the Department's responses to our current and future requests.

Pursuant to formal proceedings, the Commission initiated an inquiry into the implications of the Department's enforcement actions in the NBPP case as reflected in our letters to DOJ of June 16 and 22. We received a largely non-responsive letter from Portia Roberson in late July and none of the documents we requested. On August 7, the Commission voted 6-0, with two members abstaining, to expand its investigation by sending a follow-up letter to the Department. On

August 10, the Commission addressed its letter to you, explaining our need for the information. For example, we stressed our need for information on previous voter intimidation investigations so that we could determine whether the Department's action in the NBPP case constitutes a change in policy and, if so, what the implications of that change might be.

At our most recent meeting on September 11, 2009, the Commission voted to make its review of the implications of the NBPP matter the subject of its annual enforcement report. The Commission was aware that the Department's Office of Professional Responsibility (OPR) had initiated an inquiry into some aspects of the NBPP case to determine whether further review is warranted. Although a letter from Ms. Roberson of September 9 expresses the Department's desire to delay any response to the Commission until the OPR investigation is complete, you may rest assured that the Commission will be sensitive to OPR's internal ethics review as we move forward with our own inquiry. As the discussion at our recent meeting indicates, the Commission will work to accommodate any legitimate concerns the Department may have regarding specific requests for information once the Department begins its production.

The Commission has a special statutory responsibility to investigate voting rights deprivations and make appraisals of federal policies to enforce federal voting rights laws. The Commission must form an independent judgment regarding the merits of the NBPP enforcement actions (regardless of how the decisions were made) and the potential impact on future voter-intimidation enforcement by the Department. Accordingly, Congress has provided, in a provision with no statutory exceptions, that, "All Federal agencies shall fully cooperate with the Commission to the end that it may effectively carry out its functions and duties." 42 U.S.C. § 1975b(e).

It is important to note that many aspects of the Commission's inquiry have no connection with the matters subject to OPR's jurisdiction. As set forth in our August 10 letter, the Commission will seek to determine:

- 1) the facts and the Department's actions regarding prior voting intimidation investigations;
- 2) the underlying conduct in Philadelphia giving rise to the NBPP case;
- 3) whether the decision in the NBPP case is consistent with departmental policy or practice in prior cases or amounts to a change in policy or practice;
- 4) the extent to which current policy or practice as reflected in the NBPP case may encourage voter intimidation; and
- 5) whether that policy or practice is consistent with proper enforcement of section 11(b) of the Voting Rights Act.

The Commission may also seek to determine whether any decisions in the case were induced or affected by improper influences. Thus, there may be some areas of potential overlap with OPR's internal review, including an examination of the decision-making process in the case. With regard to these questions, if there are concerns as to the timing or content of specific discovery requests, the Commission will work with the Department to resolve them in a prompt and satisfactory manner. In addition to my personal availability to speak with your representatives, the Commission has appointed a subcommittee of commissioners to focus on any discovery issue that might arise in our investigation.

Accordingly, please identify the individual with substantive responsibility for the production of documents, scheduling of interviews and any possible depositions. If you have not done so by October 14th, however, it will be necessary for us to propound our interrogatories and interview requests directly on the affected Department personnel.

Thank you in advance for your cooperation and prompt reply to these requests.

Sincerely,

GERALD A. REYNOLDS,  
*Chairman.*

#### DEFUNDING ACORN

The SPEAKER pro tempore (Mr. MINNICK). Under a previous order of the House, the gentleman from Arizona (Mr. FRANKS) is recognized for 5 minutes.

Mr. FRANKS of Arizona. Mr. Speaker, recently this body moved to cut off all funding, all Federal funding, from the Association of Community Organizations for Reform Now, or ACORN.

By now we have all seen reports of several recent videos revealing ACORN employees coaching two young individuals on how to obtain government-subsidized housing to set up an underground prostitution house with underage girls brought into this country illegally.

But this is only the beginning of ACORN's criminal activities, Mr. Speaker. ACORN is under investigation in at least 14 States for voter registration fraud. And ACORN workers have consistently employed criminal tactics, including establishing an illegal quota system and illegally compensating canvassers. ACORN has repeatedly reported false information to the IRS and to the Department of Labor. And to cap it off, Mr. Speaker, ACORN and its affiliates have received more than \$53 million in Federal funds from 1994 to 2008 and were eligible for up to \$8.5 billion more from the economic stimulus bill and the 2010 Federal budget.

Mr. Speaker, I believe one of the most overlooked and astounding trophies in ACORN's criminal hall of fame is its role in fighting for policies that led to the mortgage crisis and ultimately catalyzed our current economic recession. ACORN fought vigorously for regulatory reform of the Community Reinvestment Act, a 1977 bill that drastically weakened mortgage lending standards. The result of the new regulations ACORN lobbied for was that banks were no longer rated because they made good loans or their standard of equitable lending, but rather, they were rated based on the number of loans they made, regardless of the ability of the borrower to pay back the loan or to qualify for a loan in the first place.

Banks were hit with large fines if they refused to dole out these toxic loans, the majority of which they knew would not be repaid. And if they still

dared resist the government's mandate, ACORN would publicly picket them or threaten to hit these banks with lawsuits to force them to comply.

Mr. Speaker, although the mainstream media has been largely silent on the ties between ACORN and President Obama, it was actually during this time in the early part of President Obama's career when he was working with ACORN that President Obama was part of the lawsuit to force Citibank to abandon its time-tested lending standards and disperse millions and millions of dollars in high-risk loans. Now this isn't speculation, Mr. Speaker. His name is listed on the records of the lawsuit. President Obama played a significant role in helping to shape the mortgage debacle that caused America's recent and ongoing economic crisis.

The result of the lawsuits like the one filed by Mr. Obama and ACORN has been that millions of dollars in toxic loans were made as a result of ACORN and its subsidiaries using the CRA regulations to bludgeon America's financial institutions into making loans they never should have and otherwise never would have made. As we all know now, those toxic loans were packaged and resold on Wall Street, and the entire system began to crumble.

If those original loans, Mr. Speaker, that were sold to Wall Street had been made under the traditional, financially sound practices based on income, down payments and credit histories, rather than the politically correct and financially fatal criteria that Barack Obama sued to achieve, the entire financial meltdown might have been avoided.

But how many Americans know that, Mr. Speaker? How many Americans are aware of the role that ACORN and one of their lawyers and close allies by the name of Barack Obama played in creating the housing and financial crisis?

Mr. Speaker, the ironic reality now is that President Barack Obama is put in the schizophrenic position of signing a bill to defund the very organization that helped to launch his career and ultimately helped get him elected. And the silence from the Obama administration on the ACORN issue has been unbelievable, Mr. Speaker.

The Obama administration and liberal Democrats in Congress now have a choice. They can take a sincere stand against corruption by launching investigations into ACORN and work with Republicans to pass the Defund ACORN Act to stop all Federal funding for ACORN, or they can throw their supposed commitment to transparency and accountability out the window for good.

Mr. Speaker, let us hope that they will choose to stand against allowing ACORN or any other corrupt organization to receive one more dime of taxpayer dollars now or ever again.

□ 1615

## JOBS, JOBS, JOBS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana (Mr. PENCE) is recognized for 5 minutes.

Mr. PENCE. Mr. Speaker, well, Washington, D.C., is focused on a lot of things these days. The debate over health care continues outside of committee hearings, and we hear news reports that health care reform is being rewritten in the back hallways of this building somewhere.

We also heard today that leading Members of the Senate on the Democratic Party introduced a national energy tax, the so-called cap-and-trade legislation, that will raise the cost of utilities on working families and small businesses across this country by dramatic amounts. And of course, the President is making plans to travel to Copenhagen later this week on an economic development mission for the city of Chicago.

But I've got to tell you, as a constituent of mine from Alexandria, Indiana, that's with us today, Mr. Speaker, might well attest, when I'm back home, folks aren't talking about how we can pass legislation that raises utility rates or how we can pass legislation that will lead to a government takeover of health care paid for by hundreds of billions of dollars in new taxes and individual mandates, and they're not much talking about the Olympics. What folks back in Alex are talking about is jobs. They're talking about what in the world this Congress is going to do to put America back to work.

Now, back in February when Congress passed the so-called stimulus bill, Speaker NANCY PELOSI stood on this floor and said, This bill is about jobs, jobs, jobs. The administration suggested that if we didn't borrow nearly \$1 trillion from future generations of Americans and spread it out in the so-called stimulus spending, that unemployment would reach 8 percent.

In fact, this very useful chart illustrates the point. The Obama administration said that without passing the stimulus bill, unemployment would go from 7.5 percent upwards over 8 percent. They said, with the stimulus bill being passed, that unemployment would not exceed 8 percent.

Now, as people are looking in from the gallery and around the country can see for themselves, the reality is a little bit different. Since the passage of the so-called stimulus bill back in January, not only has unemployment exceeded the high water mark the administration projected at 8 percent, but now it's almost 9.7 percent, and I say with a heavy heart, it might be rising as soon as this Friday.

You know, look, we need a strategy for energy independence in this coun-

try, a strategy that begins to take us in the direction of new resources and exploiting our current reserves. Our American Energy Act does that.

We need health care reform in this country that will lower the cost of health insurance for working families and small businesses and lowers the cost of health care in the long term without a government takeover. Chicago might even need the Olympics in 2016.

But more than anything else, we ought to be willing to set all those enterprises aside and work on this. We ought to be willing to do what has always worked to get this economy moving again, and that is fiscal restraint in Washington, D.C., and tax relief for working families, small businesses, and family farms. You combine that with a pro-growth trade policy, you combine that with policies that will result in a stable dollar, you combine that with rational regulatory reform, and you have a prescription for economic renewal and growth. In a word, to borrow the Speaker's phrase, you have a prescription for jobs, jobs, jobs.

And I have to tell you, Mr. Speaker, apart from providing for the common defense and apart from, I believe, standing up for the values that make this country great, we have no higher calling in this institution than to pursue policies that will create conditions to create growth in this country.

And so I challenge my colleagues as we find ourselves talking about government takeovers of health care with their higher taxes, as now the Senate begins in earnest to work on passing a cap-and-trade bill in the name of climate change that will result in a massive national energy tax, why don't we all just do what they're doing back in Alex, Indiana? Let's take a breath. Let's have those debates in the cool of the day, after first and foremost we come together in a bipartisan way, we do what President Kennedy did, we do what President Reagan did, we do what President George W. Bush did after the tower fell, and we pass fast-acting tax relief for working families, small businesses, and family farms this year, and we begin to practice fiscal restraint on Washington, D.C. That combination of traditional American principle applied to this economy will create nothing short of jobs, jobs, jobs, and that's still job one on Capitol Hill.

## HEALTH CARE

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Missouri (Mr. AKIN) is recognized for 60 minutes as the designee of the minority leader.

Mr. AKIN. Mr. Speaker, it's a pleasure to be able to join you and my colleagues today and those who are in the gallery to talk about something that

has been the talk of the town now for a number of months and is an intensely personal and important subject to all of us, and that is the health care of the bodies that we have to live inside.

A great deal has been said and a great deal more needs to be said in clarifying exactly where we are on this issue because of its tremendous importance, its importance to us in an economic sense as a Nation, its importance to us as close to 20 percent of our entire gross domestic product, but also, as I said, because of the importance that each of us have to live inside our own bodies and are much attached to our health care system.

Now, one of the great concerns about what's being proposed is is that the government will not immediately but indirectly and inevitably take over health care. Just as we saw earlier this year, the president of General Motors is being fired by the President of the United States. That's a unique situation. Usually we separate our private industry from the Federal Government, and what is being proposed here is, over time, the government takeover of one-fifth or so of our economy; that is, health care.

Now, when the government does too much, we have come over time to recognize certain consequences. First of all, it becomes very expensive because the government, with its \$500 hammers, is not the most efficient. In fact, you could sometimes talk about a health care system with the efficiency of the post office and the compassion of the IRS.

The inefficient allocation of resources is legendary, particularly in other countries that have had the government try to run the health care system. The quality is degraded, and we will talk about those in hard statistics, particularly with people who have, for instance, cancer. We will take a look at what the cancer survival rates are in some of the European countries that have socialized medicine as opposed to the American medical system that we have in this country today.

And then, of course, to me, perhaps one of the more frightening things is bureaucratic rationing. That is, decisions not by a doctor and the patient, but decisions made by some bureaucrat that gets in the way.

Now, the first thing that the people have commented sometimes is, if health care is expensive now, just wait until it's free. That seems to be the experience for, particularly, people of Canada and other Nations.

We have heard that this is a system that's being proposed by our President that's going to be simple, that it's going to save money. In fact, he said if it were going to cost us one dime more, then he wouldn't even support it. And yet we take a look at the simplicity of the organization—this is the Democrats' bill. It's an organization chart

for the Democrats' bill. It's complicated. This is trying to put a 1,000-page bill onto one poster, which obviously it is going to look a little bit complicated. But you have here a tremendous maze of interlocking organizations and groups trying to replace a fifth of the U.S. economy. Obviously, it's going to be somewhat complicated. The question is, in this maze, can the patient find their way to their doctor. That is a good question.

Well, what are we talking about in terms of costs here? Is there some way that we could try to decipher when the President tells us this isn't going to cost us much, in fact, the efficiency is going to be such that we can do this whole thing without spending any more money, what sort of a way can we get a handle on that?

Well, one of the things we have already is Medicaid and Medicare and Social Security. Those, of course, are the three huge entitlement programs that have been running for some period of time, and we have here cost projections as to the rate of increase in the expenses for Medicare and Medicaid. And when you take a look at these over time, what you realize is that if nothing is changed in Medicare or Medicaid, Social Security, that the U.S. Government at a certain point out here, at 2052, for instance, that there will be nothing else in the Federal budget. They will absorb the entire Federal budget.

We have a certain tax rate that we're running, and what we found in terms of tax policy is you can raise people's taxes but it doesn't raise the amount of money the government is pulling in. You can raise taxes so much it stalls the economy and you end up taking the same thing in in taxes as you did when your tax rate was lower.

So this is kind of our historic tax rate, and when you project that out, you realize that Medicare and Medicaid, at least a big portion of this blue chart, is going to gobble up all of the Federal revenues. That means we won't spend any money, not just on food stamps or welfare, not just on art, not just on sort of ancillary things, but there will be no money for defense or anything else with the way that these programs are going.

So the President, when he says this is going to be very efficient, it's going to save a whole lot of money, and you say, well, what do we have as an example of that sort of government efficiency, you've got Medicare and Medicaid. Those are not very comforting examples as to what's going to happen to our GDP.

In fact, the President's made a lot of promises. He complained, as he came in to give his talk here about 3 weeks ago on health care, that he had inherited a \$1 trillion deficit. In fact, he had not. It was about a \$250 billion deficit, which is bad, shouldn't have inherited that,

and yet what we have here proposed in the last 6 months, you can see the level of spending at \$3.6 trillion that we've spent in 6 months on all of these—here's the Wall Street bailout. That's \$250 billion. That was started in the previous administration, but half of it was spent by our current President.

Then you've got the economic stimulus. I would call it the porkulous bill, didn't have much to do with stimulus at all. There goes \$787 billion more. And then you have got SCHIP and then the appropriations. You've got an IMF.

This cap-and-tax, the House has passed this one. This is the biggest tax increase in the history of our country. The President made the promise that if you're making less than \$250,000, don't worry, we're not going to tax you, except a little detail. Anytime you flip your light switch, you are going to get taxed, with this \$846 billion which is, of course, the biggest tax hike in our history. And then, of course, the government health care that's being proposed, it even dwarfs that.

So we're talking about a pattern in history of a tremendous rate of spending. In fact, if you were to take a look at all of the deficits from George Washington to George Bush, that comes out about five-something trillion. We're looking at \$8 trillion for this administration.

So we have a promise that this isn't going to cost very much. We don't have very much historical data to give us any sense that this is going to be a financially responsible package.

Now, one of the things that goes to the heart of health care, and I think probably if a bunch of just plain old Americans were going to stand around and say, you know, let's talk about what are you going to do to health care, one of the things you'd say, well, one thing we know for sure is that we want to make sure that the relationship between the doctor and the patient is left alone. We don't like this deal where the insurance company comes in and gets between the doctor and the patient, and so one of the things we want is to leave that sacrosanct. If you like your doctor or health care provider, you can keep them. If you like your health care plan, you can keep that, too. This is what the President told us in July. He's repeated it. Is that true, though?

He's also said it's not going to cost anything. He also said you're not going to be taxed anything if you make less than \$250,000. So what is the truth of this statement? Can you really keep what you currently have, because this is a very important question because 100 million Americans have health care policies and relations with doctors that they like just fine right now. And we've probably got, when you sort through it, about 15 million people who are not insured. And so the question is: Are we going to basically take apart

entirely and try to rebuild the system for 100 million people in order to deal with a problem 15 million? That's the question.

So here's the promise that comes from the President, but is that really true? Well, here's MIT health care economist Gruber. He says, with or without reform, that won't be true.

□ 1630

His point is that the government is not going to force you to give up what you have. But that's not to say that other circumstances won't make that happen. In fact, what's going to happen, and that's what this MIT professor was going to talk about, is that when the government jumps in to this entire equation and starts to have a government option, what it tends to do is crowd out the private provider. So over a period of time, your employer is going to say, I'd rather pay the fine and just dump your health insurance on the government; and more and more people do that until, guess what, there is only the government left, the single provider.

Now, you can say, well, do you have any evidence that that's going to go on? Well, we did. It was a week before last, we just voted in a way to make the student loans in America—almost all of them are all going to be provided now through the government. Originally, the government came in just to help the student loan process. But now what's happened over a period of time, the government can easily forgive a student that doesn't pay their loans, whereas the private companies can't.

So the government has an advantage because they keep soaking the taxpayer. And so the question then is, that's what this is, that Jonathan is saying here, what his point is, that what's going to happen inevitably is that we're going to end up with a government-driven system and, therefore, you will not be able to keep your insurance or your health care provider.

And so what is being said is not, in fact, true. Along the same lines, and of particular importance, is this entire question about whether we are going to allow government agents or bureaucrats or people working for the government to make health care decisions. Is the government going to jump into the middle of the doctor/patient relationship? Well, that's not the kind of amendment that's allowed on this House floor. The Democrat Party does not allow us to make amendments that we might like to make. It has to go through Rules Committee. They control the Rules Committee, and if they have an amendment that would be embarrassing or they don't want, they just say you can't have it in the rules to offer that amendment.

But in committees, we do offer amendments. This is an amendment that was offered by Dr. GINGREY. Dr.

GINGREY is a good doctor from Georgia, been a medical doctor a long time, now joining us here in Congress. And he said a very simple sentence: nothing in this section shall be construed to allow any Federal employee or political appointee to dictate how a medical provider practices medicine. In other words, this amendment would guarantee the doctor/patient relationship. It would say that that doctor/patient relationship is not going to be interfered with by some government bureaucrat. Well, how did this amendment fare in NANCY PELOSI's committee that was putting together the House health care bill? Well, here's how it came out. The Republicans, 23 Republicans voted "yes." We want to keep that doctor/patient relationship sacrosanct, and none of them were against it. If you take a look at the Democrats, however, 32 Democrats voted against this, which, if you say you're against this, then it suggests that you're going to be in favor of letting bureaucrats control costs. And only one Democrat voted for it.

So what happened? Well, this amendment failed. When this amendment failed, it, again, raises a serious question whether what the President says is really true, Are you going to be able to keep your doctor? Are you going to be able to keep your health insurance? Will you get your health insurance through the same place you get it now, or is it all going to be provided by some government? Now, I have had either the fortune or misfortune of being in public office for a number of years. And one of the experiences that those of us who are public servants have is we get phone calls. We get phone calls from our constituents and they say, hey, Congressman AKIN, I've got a problem with this, that and the other government agency. Can you help out? Or I've had really a hard time with this, this, and this. Can't you do something about this? And so we, in a sense, then go to bat for our constituents with different either State or Federal agencies.

I recall one of my earliest experiences as a State rep, and there was a bad intersection where there had been some accidents in my district, and we needed to get a left-turn arrow put in at a traffic light. I would bet that I made over 100 phone calls over a 2- or 3-year period to the highway department in our area trying to talk them into putting one lousy left-turn arrow into a traffic light signal. There was already a lane painted for the left turn, so all they had to do was to change the traffic light. It took me several years to talk the highway department into putting one silly left-turn arrow in.

Now, can you imagine what goes on if we're Members of Congress and we get phone calls saying, the government that you represent has told my wife that she can't get that heart bypass. They've told my mother that she can't

get that heart bypass. They've given her a bottle of aspirin and told her to go home and wait to die. Is that the sort of thing that we want to deal with with the bureaucrats getting in the way of health care decisions? I don't think so. This amendment should not have failed. If the American public knew that this amendment were being offered, they would have called their Congressman and said, don't you mess with the relationship between me and my doctor, or between our family and our doctor. That's what's at stake.

Now, from my point of view, this becomes personal. I was elected to Congress in the year 2000, came here in 2001 to serve. And one of the things I found out about this Congress is the fact that there are some Navy doctors in this building in a clinic. So sometimes if somebody's walking around in the summer and they have a stroke or this or that, they've got an ambulance, then the first place they go is to the little clinic right here in the Capitol Building. It's almost like a little mini-city for a certain number of blocks. There are some medical professionals that are there. And those medical professionals also offer physicals, your yearly physical. So I had not had a physical because I had been in the State of Missouri in the Missouri legislature, and basically, what happened there was my insurance had a health care provider that there was no way you could go see your primary care doctor, and so the insurance company was getting between me and some potential doctor that I could never even figure out who the doctor was. They said my primary care physician is so and so. You call them and you could never see them. So I walked into the clinic downstairs in this building feeling bullet-proof, about 52 or 53 years old, and they told me my health was great except for one little detail. Congressman AKIN, you have cancer. Now that's the sort of word that gets your attention when somebody tells you that you've got cancer. And so it was that because I was here and I had access to health care, I was able to get the cancer treated.

But if you take a look, when it talks about cancer, let's talk about the survival rates between men and women in the United States. In men it's 62 percent, 66 percent in women in the U.S. Take a look at where it is with socialized medicine in the United Kingdom: 44 percent. For women it's not 66, but it's 52. So in other words, your chances of survival in America are a whole, whole lot better with our free enterprise system. So all of this talk about how bad American health care is, boy, that's a lot of hooey. We still have a very, very good health care system; and to try to destroy what 100 million people enjoy just to try and take care of 15, that doesn't seem to make sense.

I have been joined by my good colleague. Did you want to join us on the

health care discussion? Please jump in. I yield.

Mr. MCCLINTOCK. I thank the gentleman for yielding. Mr. Speaker, I wanted to address a matter of the health care debate that was brought up by none less than the President of the United States in this very Chamber just several weeks ago where he assured us that it was not going to add a penny to the deficit. I don't think we can fully appreciate the magnitude of the health care debate without also recognizing the magnitude of the Nation's deficit, and I'd have to call into question the accuracy of the President's assurances to this House several weeks ago.

I brought along a chart. This represents, both as a percentage of GDP as well as total dollars, our deficit over the past 40 years, from 1970 to 2010. As you can see, we've not done a very good job of managing our Nation's finances, except for 4 years during the Clinton administration. I might add, there was a Republican Congress, but give credit where credit's due. Bill Clinton produced 4 years of surplus budgets. We then go into the Bush years which was the most fiscally irresponsible that we've seen in peace time. The last budget deficit taking nearly 3 percent of the gross domestic product of our country.

Mr. AKIN. So let's just go along. So you're saying the worst we had up through Bush was 3 percent of GDP.

Mr. MCCLINTOCK. That's this bar and this point right here.

Mr. AKIN. Right.

Mr. MCCLINTOCK. Now, this red line, that red line is this year's budget deficit ending today, September 30. That's the full fiscal year deficit. You can see it's on a magnitude completely unprecedented in the history of our Nation.

Mr. AKIN. That number is incredible to me. Let me just try and put that in context, what you're saying. When the President started his speech on health care in this Chamber, he complained about inheriting a \$1 trillion deficit or something, when it was I guess, 250 billion, so he magnified—

Mr. MCCLINTOCK. Well, actually, fiscal 2008 was about \$450 billion.

Mr. AKIN. He said it was \$1 trillion.

Mr. MCCLINTOCK. Bush added another 700 billion with the bailout which of course Obama supported. So he can't just blame Bush for that. He supported that bailout, adding another 700 billion. The point is today this year's budget deficit exceeds \$1.6 trillion and that is absolutely catastrophic. We all know that if you live beyond your means today, of necessity, you're going to have to live below your means tomorrow and that's the tomorrow that we're creating for our country.

Mr. AKIN. So just to reclaim my time a minute, what you're saying, gentleman, is we've got a big financial

problem with this promise that this health care system isn't going to cost anything.

Mr. McCLINTOCK. Exactly right. I mean, as we know—

Mr. AKIN. And you're saying that red line that you showed, was that about three times more deficit than what he had inherited from President Bush?

Mr. McCLINTOCK. Actually nearly four times more than last year's deficit.

Mr. AKIN. So the President that stood here and told us he had inherited a deficit didn't mention the fact that he had four times more that he'd spent in 6 months or 8 months than the deficit that he inherited.

Mr. McCLINTOCK. He has dramatically increased that deficit beyond anything that we've seen in the peacetime history of our Nation.

Mr. AKIN. Anything in the peacetime history, so that'd be a combination of all of these things. Did you count the biggest tax hike in history, the cap-and-tax?

Mr. McCLINTOCK. We're just looking right now at what we've spent in fiscal 2008 and what we expect to spend by the end of midnight tonight. That's a nearly fourfold increase in a single year.

Mr. AKIN. And that's not even including the biggest tax hike in the history of our country passed by the House that means every time you flip your light switch on you're going to pay taxes on that.

Mr. McCLINTOCK. This is on the spending side, not on the tax side. In fact, the deficit is the difference between what we spend and what we take in. That's what we're talking about with the deficit. And that's four times larger than it was last year. And as I said, that is being taken out of the future economic prosperity of our country. That's being taken from our kids.

Now we have before us the health care measure which is nearly \$1 trillion more. But we are told, don't worry, that won't add a dime to the deficit. Well, pardon my skepticism but—

Mr. AKIN. A trillion dollars won't add a dime to the deficit? That is a stretch.

Mr. McCLINTOCK. This is the same President who recently announced that he'd underestimated the current deficit projection by \$2 trillion. But he assures us this isn't going to add anything more, we're going to pay for it. Well, my problem with that is we've got plenty of experience with government health plans, both in this country and abroad. They've produced very consistent results. They've produced massive cost overruns, followed by an absolutely brutal rationing of care. Now, the point I wanted to make in coming down to the floor today is that when this health bill was considered by the House Committee on Labor and Education, I offered a simple amendment

to take the President at his word, to take the Democrats at their word that this is not going to add to the deficit. So the amendment simply said that we're going to suspend the cost components of the bill if the Congressional Budget Office determines that it will be adding to the deficit.

Mr. AKIN. So you basically just took the President's words and just put an amendment to say, okay, we're going to hold your feet to the fire. You said it's not going to add one dime to the deficit so we're going to put an amendment on the bill—

Mr. McCLINTOCK. We've been assured from the outset that this was not going to add to this catastrophic deficit. So when H.R. 3200 was taken up before the House Committee on Labor and Education, that's exactly the amendment that I offered. If the Congressional Budget Office says this is adding to the deficit, we'll suspend the cost provisions of the bill. Well, perhaps not surprising to you or to those who follow this carefully, but I think surprising to a lot of folks who believed the President, that amendment was defeated on a straight party-line vote.

□ 1645

Mr. AKIN. Let me just highlight what you said then.

What you're saying was the President said this is not going to add a dime to the deficit or that he wouldn't support it.

Mr. McCLINTOCK. Yet just a few months before that on a straight party-line vote, his supporters in this House defeated an amendment that would have protected the Treasury against this measure adding to our deficit.

Mr. AKIN. And that was your amendment then?

Mr. McCLINTOCK. It was.

Mr. AKIN. Congressman McCLINTOCK from California simply taking what the President said, offering it as an amendment, and in a straight party-line vote, it was defeated.

Does that leave you with any comfort that we're not going to add a dime to the deficit?

Mr. McCLINTOCK. No, it leaves me with a great deal of confidence that the supporters of this bill don't believe that claim. And that's the point I came down here to make. If the President's supporters actually believed this bill would not add to the deficit, they should have had no problem with the amendment. Obviously, they don't have that confidence.

Mr. AKIN. They don't believe that's going to happen.

How are they going to pay for this whole thing, anyway? The Congressional Budget Office says it's a trillion-dollar bill for this basically having the government take over all of this health care, and, of course, that's just for openers.

Mr. McCLINTOCK. Well, we know what H.R. 3200 says. About a half a tril-

lion dollars is going to be from raising the taxes of the very wealthy individuals who earn over \$250,000 a year. Well, we get paid pretty well by the taxpayers for our jobs, but that doesn't affect us. It doesn't affect most people. What a relief, right? Until you scratch the surface and you realize that more than half of those taxpayers aren't very wealthy and they aren't even individuals. They are small businesses filing as subchapter S corporations that are barely holding on by their fingernails right now. Those are the people who will be bearing that.

Mr. AKIN. So now we're going to increase your taxes, right? Is that what you're saying? We're going to increase the tax on small business, is that right, what we're doing?

Mr. McCLINTOCK. If H.R. 3200 is passed, that's precisely what it proposes.

Mr. AKIN. Let's take a look at the logic of that.

If we increase taxes on small business, they have less money to invest. Small businesses create 80 percent, or 79 percent of the new jobs in our country. We've got unemployment now, not at 8 but 9-something percent. And so what we're going to do is we're going to tax small businesses, which is going to make it even harder for them to put in new pieces of equipment or new processes to hire new people, so we're going to kill jobs even more by going to this socialized medicine.

Mr. McCLINTOCK. Not necessarily. It will still be very easy to build a successful small business in America. All you'll have to do is start with a successful large business.

Mr. AKIN. I guess that doesn't help us do much in terms of the unemployment. So a piece of it is going to be we're going to tax small business.

My understanding is, though, that some of this is going to come out of the hide of people that are on Medicare.

Mr. McCLINTOCK. No doubt of that. We've seen the proposals. And the attack particularly on Medicare Advantage.

Mr. AKIN. My understanding that was \$500 billion—isn't that close to half of that trillion—is going to come out of Medicare.

Mr. McCLINTOCK. That's what the authors are proposing.

Mr. AKIN. I am kind of scratching my head because every year we've got a problem that Medicare, they keep trying to automatically ratchet down how much we're spending on it, and then they don't pay the doctors anything, and the doctors are not going to take anybody in Medicare anymore. So we quick-quick do a patch.

I know you have really been keeping an eye on the numbers here, and we very much appreciate your leadership. The people of California did a good job of sending you here.

But how in the world—you're a good numbers man—how in the world are we

going to cut \$500 billion out of Medicare and not expect to feel that somehow?

Mr. MCCLINTOCK. The fact is ultimately I think the supporters of the bill realize that their numbers don't add up. That's why they have opposed every attempt to actually enforce the fiscal integrity of this measure by amendment. The question I think all of us should be asking right now is if the authors of this plan have no faith in its fiscal integrity, why should the rest of us?

Mr. AKIN. That is really a good question.

And the thing that's disturbing for my good friend from California, the thing that's disturbing is that you're not the only guy that's offered amendments in committee on this bill.

Mr. MCCLINTOCK. Quite right.

Mr. AKIN. The amendment that I just mentioned a moment ago—which I think to me, it's personally scary—and this is a medical doctor, and what he's saying in this bill is nothing in this section shall be construed to allow any Federal employee or political appointee—that is a bureaucrat—no bureaucrat can dictate how you and the doctor, how that medicine is going to be delivered.

In other words, the doctor and the patient make the decisions. And again, just like your amendment, this thing goes down in flames on a straight party-line vote.

How can you stand there and vote that you want bureaucrats to ration health care? I don't understand it. But I do understand why Americans would be strenuously opposed to this.

Mr. MCCLINTOCK. While we're on the subject of amendments that have already been offered to H.R. 3200, there are two others we ought to mention. One, making it very clear that illegal aliens will not be entitled to care under this plan. That was voted down on a straight party-line vote. So obviously the intent of the authors of the bill is something quite a bit different than the President assured us was the intent on the floor several weeks ago.

Mr. AKIN. Just to reclaim my time for a minute, this is the President. I've got the actual flip of his quote on that subject:

"There are also those who claim that our reform effort will insure illegal immigrants. This, too, is false. The reforms I'm proposing would not apply to those who are here illegally."

Now, that's pretty plain what the President said, but is it true?

Mr. MCCLINTOCK. Yet an amendment that made that clear was voted down on a straight party-line vote in committee.

Another amendment that was offered, as you know, was to require Members of Congress to take the public option.

Mr. AKIN. Well, there's a poison pill.

Mr. MCCLINTOCK. And interestingly enough, that amendment was killed on a straight party-line vote in the Ways and Means Committee.

Mr. AKIN. Here is actually the text of this amendment. This is the Heller amendment, one of our colleagues. Bright fellow. He offers this amendment in committee: In order to utilize the public health insurance option, an individual must have his or her eligibility determined and approved under the income and eligibility verification system—that's this—and the systemic alien verification for entitlements, SAVE programs, under section 11.

In other words, what they're saying is if you want to get this free health care from the government—which is going to be very expensive for your free health care—you've got to prove you're here legally.

Now, this amendment also was offered in committee. Republicans gave it 15 "yes" votes and zero "noes," no one voted against it, and yet the Democrats had 26 people saying, No, we don't want this in the bill. That means, in other words, that there is no enforcement mechanism for these illegals, that they're just going to come in and we're supposed to pick up the tab for all of these other people.

In fact, it was interesting to note that this very question was sent to the Congressional Research, which is a nonpartisan group, and they point the same thing out. The President is just flat wrong.

It says here, under 3200—that's Speaker PELOSI's bill—health insurance exchange would begin operation in 2013 and would offer private plans alongside a public option. Does not contain any restrictions on noncitizens, whether legally or illegally present.

This is just a bunch of researchers who read the bill. Which is, of course, when you've got a thousand-page bill and all of this—but that's what they came up with.

You've given us a number of examples: One, it's not going to add a dime to the deficit. We know that's not true because you offered the amendment. And then the other one is that you get to keep your doctor and you get to keep your insurance. And then there's this thing that it's not going to fund illegals.

I can see why the American public would be upset because they're getting very conflicted information.

Mr. MCCLINTOCK. You mentioned the researchers reading the bill. The big problem for supporters of this government takeover of our health care system is very simple: the American people are reading the bill and are realizing the impact that it will have on their lives and are now rejecting it by a substantial margin.

Mr. AKIN. That raises another question, that the American public has a

chance to read the bill. Because what's being proposed by those of us who are Republicans is that we want to make sure that there are 72 hours for people to be able to read something before they pop it up for a vote.

You and I sat here on this floor, and we find out that 300 pages of amendments were passed at 3 o'clock in the morning, and the next day we're supposed to vote on a thousand-page bill with 300 pages of amendments. And the usual policy is there's a copy of the bill here in this Chamber. Well, there wasn't any copy of the bill, on that cap-and-tax bill. They were still busy trying to collate the amendments when they were taking the vote.

And the American public thinks, hey, maybe it's a good idea if you guys read the bills before you pass them. We have a proposal to allow for 72 hours so people could read the bill.

Mr. MCCLINTOCK. I come from the California legislature, and I thought that was a process that had deteriorated. But the California legislature in its constitution requires that a bill be in print for 30 days before any action; even a committee changing a punctuation mark. Thirty days.

Mr. AKIN. I thought California was the land of the fruits and the nuts. All of us in Missouri, we kind of worry about California out there. And yet you are so much more sober than the way this institution is.

Mr. MCCLINTOCK. California still has a few last vestiges of sobriety in its process, that being one of them. A proposal that a bill should be in print 72 hours before final passage doesn't sound so radical.

Mr. AKIN. Doesn't sound radical to me at all. I don't think our constituents, gentleman, would think that's radical that we would have 72 hours at least to look over some proposal before we're going to be voting on it.

And yet what we saw in that huge bill—I guess it was 1,300 pages when you put the 300 with the thousand—the biggest tax increase in history. Snap, bam, we passed it right out of the House here.

Mr. MCCLINTOCK. And don't forget the so-called stimulus bill.

Mr. AKIN. Oh, that was a piece of work.

Mr. MCCLINTOCK. \$787 billion, more than three-quarters of a trillion dollars, the biggest spending bill in the history of this country, introduced at 11 o'clock at night and taken up for debate at 10 o'clock the next morning.

Mr. AKIN. And did that have some ACORN funding in it?

Mr. MCCLINTOCK. And if you want to know why it is that the Federal Government would end up sending out 4,000 stimulus checks to incarcerated felons at various penitentiaries, there's your answer.

Mr. AKIN. That was another piece of efficiency and government at work, especially when you do things in the mid-night hour and try to hide things under the basket that way.

Mr. MCCLINTOCK. As you know, there's a lot of concern among the Members of Congress, particularly on this side of the aisle, that the intention of the majority is to suddenly emerge with a new health care bill in the same manner that we saw the stimulus jammed through. That's why we're seeing so much resistance among Democratic Party leaders to the discharge petition that requires the bill be in print for 72 hours and bring it to the House floor for a vote.

Why would they be resisting?

Mr. AKIN. Just think a minute. Let's say that you were the Speaker, Speaker PELOSI, and you had a bill that was going to do these things: one, it's going to take \$500 billion from Medicare. So that doesn't mean that your older people in America are going to be too happy with it. Two, it's quite clear that it will provide abortions over time, free abortions for people using taxpayers' money. That doesn't make the pro-life community too happy.

So they've got the older people on Medicare, you've got the pro-life people upset. Then if you're a small business person—small business employs about 80 percent of the people in America—they're going to get a huge tax increase to help pay for this government takeover. Well, the small business people aren't going to be too happy with it.

Let's see what else you've got.

You've got a hundred million people who have insurance policies, and those insurance policies, they're pleased with because they have a good relationship with their doctor. So they're getting good health care currently. And that whole system is going to be completely rewritten. They've been promised they can keep what they have, but they're not going to be able to. So they're not going to be very happy either.

When you start putting all of those things together, you're going to have illegal immigrants being able to get free health care on the back of the U.S. taxpayer, you start putting that all together and you're Speaker PELOSI, that's a hard bill to pass. So you've got to do something tricky to get that thing through.

Mr. MCCLINTOCK. Justice Brandeis long ago told us that sunlight is the best of disinfectants, sunlight on this bill that the majority seems so frightened of. And that's why it's so important to get that 72 hours' notice, not just for the Members of Congress who are being asked to vote on it but for the people of the United States who are being asked to live under it ought to have some chance to know what bills are being proposed and being adopted by this Congress in their name that di-

rectly affects the quality of their lives and their families' lives.

Mr. AKIN. I was just talking a little bit earlier. Did you serve in the California House as well?

Mr. MCCLINTOCK. Yes.

Mr. AKIN. I'm sure that you've gotten phone calls from your constituents and they're saying, Hey, Congressman, I'm having trouble with this, that, or the other part of the Federal Government, I'm trying to get my passport or this or that. And you or your office goes to bat for those people trying to talk to different Federal agencies to help them with their problem.

Now, I'm just trying to picture in my mind. Let's say that the Democrats jam this thing down everybody's throats. Can you picture getting a call from somebody from your district and they say, The bureaucrat that you're in charge of in that Federal Government just told my mom she couldn't have a heart bypass.

How are you going to deal with a constituent like that?

Mr. MCCLINTOCK. That's a story that we hear all the time out of those nations that have allowed their governments to take over their health care system. There's an article I believe in the Wall Street Journal today telling the story of a Canadian from Calgary who had a hip problem. It was going to be more than a year before they would allow her the surgery. Of course they're not allowed to have private insurance in Canada. As the bumper sticker says, The government hates competition.

□ 1700

She traveled to Montana and paid \$50,000 out of her own pocket so that she could get that hip surgery done in a timely manner.

Mr. AKIN. I think The Wall Street Journal had another guy—I remember, because he was in his late fifties—and the Canadian system said, Sorry, you're too old. You can't get a hip replacement. Well, I'm 62 and my hip has been giving me trouble. I'm probably going to have to get a hip replacement. I fell on some ice when I was jogging 10 years ago. They basically tell me, Take some aspirin and suck it in, buddy, because you're not allowed to have that.

Mr. MCCLINTOCK. You may remember the story of the Calgary mother a few years ago. It was a big story at the time. I think she had identical quintuplets. The odds of that are something like one in a zillion.

Mr. AKIN. Winning the lottery.

Mr. MCCLINTOCK. So a great deal of publicity. What didn't get a lot of publicity was the fact that that Calgary mother had her baby in Great Falls, Montana.

Mr. AKIN. Are those all U.S. citizens now?

Mr. MCCLINTOCK. By the way, she wasn't just visiting Montana. She had

to be rushed more than 300 miles south to an American hospital to have those babies, just as the woman with the hip surgery, also from Calgary, had to travel to Montana to have her hip surgery done. And the question occurs: If we allow the same thing to happen to the American health care system, where are we going to go for necessary surgery when all of us end up on a waiting list?

We all know that a common hallmark of the bureaucracy is long waiting lines, whether it's at the DMV or the post office. Long waiting lines at the DMV and the post office are inconvenient and they're annoying, but a 6-month waiting list for needed heart surgery can be downright fatal.

Mr. AKIN. Well, Congressman MCCLINTOCK, you just brought up a little bit of a tender subject for me. Just about 6 or maybe it was 8 weeks ago, my father, who's 88, in the State of Missouri, went to a new heart doctor. His new heart doctor took a look at the medicines his previous doctor had prescribed and said, What did the doctor do for your heart? My dad said, Well, I don't know what you mean. He just gave me these medicines.

So you can see this troubled look in his new doctor. The new doctor says, Well, you need to come in tomorrow, and we're going to give you a chemical stress test. I don't know how exactly that works, but it's like a stress test of being on a treadmill, except it's for older people. They do it chemically, somehow.

He didn't go very far and the doctor said, Stop, that's good enough. He said, You need to come in the beginning of next week for this heart catheterization, or whatever it is. So he comes in and they put him out and they take a camera and go up through his leg and look at his heart.

He wakes up—and they said they might put some stents in or something—and they said, Well, we didn't do anything. And I was at the meeting with the doctor. The doctor said, Your heart is in too bad a shape to put in stents. You need open heart surgery.

This is, mind you, about a week and a half elapsed, or so. So I'm at the meeting on Monday and he says, Here's the numbers. First of all, if you have open heart surgery at 88 years old, because it should have been done earlier, you've got about a 10 percent chance of a major complication. But if you don't get it this next year, you've got a 50 percent chance of a major heart attack. So you take a look at the numbers and you go, Okay, he explained it so I understand it.

So the doctor said, Well, you can come in tomorrow or Thursday. It's Monday. My father goes in Tuesday, has a seven-way heart bypass and by Saturday he's back home again, and he's doing well now.

Now people want to say that the American health care system is broken, but I would suggest that that being done in less than 3 weeks, a seven-way heart bypass and the technology involved in that, that's the kind of thing that you're never going to see with a government-run health care system.

Mr. MCCLINTOCK. Fortunately, there is a better alternative. It can be summed up in a word: Freedom. We have the ability through the tax system to provide a refundable, prepaid tax credit; a health voucher, if you will, on a sliding income scale that would bring within the reach of every American family a basic health plan that they could choose according to their own needs; that they could own, regardless of who their employer is; and that they could change if it failed to suit their needs.

Mr. AKIN. So the government wouldn't have to run the whole thing at all.

Mr. MCCLINTOCK. Correct. It would be the individual owning their own policy.

Mr. AKIN. That's something about freedom, isn't it?

Mr. MCCLINTOCK. You can tell a nonresponsive insurance company, You're fired—I'll take my business elsewhere. You know, in all the years I've held public office, I've never had anybody write a letter to me and say, My grocery store stopped carrying Wheaties this month, and you need to pass a law to force them to do so.

Why don't I get those letters? Because it's a lot easier to take your business to the next supermarket that does have what you want at a price that's competitive.

Mr. AKIN. That's called freedom, isn't it?

Mr. MCCLINTOCK. The problem is, today in this country, unless you're self-employed, chances are you don't own your own health plan. Your employer owns it or the government owns it. And you don't control it and can't tell a nonresponsive health plan or a nonresponsive company, You're fired, because you don't own the plan to begin with.

If we can use the tax system to bring within the means of every family that basic health plan that they will own, they will then have the same power over their health plan, over their health insurance company, that they have right now over their grocery store—to take their business elsewhere if it fails to meet their needs.

Mr. AKIN. Gentleman, what you're talking about is you're talking about one of a whole series of different Republican proposals of what can be done to health care. Our position in being very critical of socialized medicine is not to say that there aren't things that are constructive or positive that should be done with our current health

care system. In fact, a lot of the problems in our health care system were put there because we already have the government with its big nose in about half of it.

But there are some things that can be done. As you say, one of the things is you own your own health care policy. People sometimes use the word "portability." That is, if you own it, you can take it with you as you go from job to job. It also means if you're insured, you're not going to get uninsurable because you already have the health care plan.

Mr. MCCLINTOCK. And if you have that voucher that brings within your reach that basic health plan and then have the freedom to shop around for that plan that best meets your needs, you are in a controlling position that will protect you against nonresponsive insurers, nonresponsive health plans.

But that's going to require a couple of other things, which is also included in Republican legislation. One of those things is the freedom to shop across State lines for that plan that might give you better services at a lower cost. I know in California we don't have that freedom. We don't require Californians only to shop at California retailers or only to bank at California banks.

Mr. AKIN. You just don't buy your groceries in California. You can go across State lines to buy groceries.

Mr. MCCLINTOCK. Exactly. We don't allow the freedom of Californians—and this is true of most States—to go across State lines to buy a better health plan.

Mr. AKIN. That makes a whole lot of sense, doesn't it?

Mr. MCCLINTOCK. Of course it does.

Mr. AKIN. And the way that works is that of course you've got different States that have their own requirements for health care, but if a plan meets the requirements of a given State, and that company wants to sell their health plan to someone over a State line, now you've got a chance for shoppers to get a better price on their product. And it tends to break up the monopolies that an insurance company can generate in a particular State market.

I picture, gentleman, that that's going to be particularly effective where you've got basically large metropolitan areas that span several States. You can go back and forth and kind of shop for what's better for you. Is that your impression?

Mr. MCCLINTOCK. Exactly right. You remember what Will and Ariel Durant wrote. This was before the government took over our automobile manufacturers. They asked the question, What makes Ford a great car? Chevrolet. Competition.

We restrict competition in the health care field. And that's one of the reasons why people have such restrictions on their choices.

Another of the restrictions on their choices, of course, are the endless number of mandates that are imposed by State governments and the Federal Government. Every one of those mandates require you to pay for coverage you might not want, you might not need, but you're being forced to pay for.

Mr. AKIN. Or you might not be able to afford.

Mr. MCCLINTOCK. I tell you another thing that needs addressing—and that's where this debate is so healthy; there are things that have to be changed—and that's the question of preexisting conditions.

I had a fellow come to me a few years ago. He had left his job and therefore lost his insurance. So he was now trying to get insurance as a private individual. He couldn't find it anywhere. Why? Preexisting condition. He had bursitis.

He says, Look, I don't care about the bursitis. I'll take care of that myself. I'm concerned about a catastrophic disease or a catastrophic illness. Just write me a policy for all of that and I'll take care of the bursitis myself.

The response was, We'd love to write you such a policy, but we can't.

Mr. AKIN. Why would that be, gentleman?

Mr. MCCLINTOCK. It's against the law.

Mr. AKIN. Against the law federally?

Mr. MCCLINTOCK. In California. I actually introduced legislation in the California legislature that would allow health plans to provide coverage and write out that preexisting condition. Also, by the way, legislation to allow Californians to shop across State lines. Both of those were killed on straight party-line votes in the California legislature, and now we're watching the same reforms being defeated here by the Democrats in this Congress.

Mr. AKIN. It's interesting that we seem to—as a political party system, the Democrats seem to be wedded to trying to copy what did not work well in the United Kingdom or in Canada. You can take a look at these cancer statistics and other measures of quality and they're really bad.

If you look overall at cancer in the United Kingdom, you're looking at a 50 percent survival rate. Whereas in America, the numbers are so much higher. So why do we want to repeat something that doesn't work? Why do we want to mess up something that 100 million Americans have got a good system going, and we want to just turn it over to the government?

It's almost like we've got these blinders on. Regardless, we know the government should do it all. And so half the Democrats want to go that way, the other half are kind of dragging their feet—and I'm thankful for them.

Mr. MCCLINTOCK. But Americans know better. There's a certain degree

of skepticism that the same government that pays \$400 for a hammer and \$600 for a toilet seat and is currently running a \$1.6 trillion annual deficit is somehow going to keep our health care costs down. There's a great deal of skepticism that the same government that runs FEMA is going to somehow bring efficiency to our doctors' offices. And there is a great deal of skepticism that the same government that runs the IRS is going to bring compassion and understanding to our insurance companies.

Mr. AKIN. You know, that's the thing that I find hard, the amount of faith that's required, when you take a look at the performance of government agencies, to turn our physical bodies over to those government agencies to take care of us. It's kind of a hard thing to swallow.

As you say, the compassion of the IRS, the efficiency of the post office. FEMA, we've seen that—legendary. But we've got other ones. You've got the Department of Energy.

Do you know why the Department of Energy was created? To make sure we weren't dependent on foreign oil. Aren't you glad that we've got all those employees making sure we're not dependent on foreign oil?

And then you've got the CIA; the cloak and dagger stuff. Well, that would be great, but they're the ones that gave us a report in Gulf War I that the Iraqis were 10 years away from making a bomb, a nuclear device. When we got in there, they were about a year to a year and a half away from making it in Gulf War I. So we go to Gulf War II, they tell us, Oh, within a year, year and a half, they'll have a bomb. We get in there, and they weren't doing anything.

And we want to trust our health care to these agencies? It's one thing if it's the post office or something, a letter gets missed. What happens—that's what I'm asking you my friend—what happens when we get the call and somebody says, Congressman MCCLINTOCK, they're not letting my mom get the heart bypass, and I don't have any other alternative. How are we going to deal with that? How can we explain that?

Mr. MCCLINTOCK. We've seen it time and again, every single time, whether it's in Britain or Canada or in places like Tennessee and Massachusetts that have tried the same thing. Very consistent results. Every time. Massive cost overruns that must be then followed by a brutal rationing of care.

Mr. AKIN. That's the other thing that's interesting. America, such a great country, and we have these fifty States. And the States, to some degree, were like little laboratories. People could try stuff in the States and see how it worked. And then, if it worked really well, perhaps you might want to

bring it to the Federal level. But why would we want to repeat the failed experiment of Massachusetts and Tennessee?

□ 1715

Mr. MCCLINTOCK. I just want to thank you, Congressman, for organizing this discussion today and for including me in on it. I know you have some remarks to conclude with, so I will yield back.

Mr. AKIN. I very much appreciate your taking some time to join with us. This is such an important discussion. Your experience in California with the great amendments that you offered both in California but now, I understand, in committee are making it clear that the promise, we are not going to spend one dime of deficit, and yet it gets defeated on a straight party-line vote. It took some courage to offer that amendment, but at least it defined where we are in this entire situation. And I'm very thankful that you came out and joined with us today on a very important discussion.

The talk is that sometime in the next couple of weeks, this whole thing may come down to a vote. Once again, I go back to my own personal experience with having been a survivor of cancer, coming into this very building, having medical doctors tell me, Congressman AKIN, you are fit as a fiddle except for the fact you have cancer. That's a sobering kind of thing. So what had happened to me was the insurance companies had discouraged my getting a physical. I should have. If I had been smart, I would have forced myself to get a physical and line up and wait for it all, but I didn't do it until I got here in Congress.

Well, here's what happens, one step worse than an insurance company getting between you and your doctor, and that's when the Federal Government gets in between and starts to ration and dictate what's going to happen. We have this experience in the United Kingdom with what happens in cancer there, and in Italy and Spain. Then you take a look at the U.S. results, and in spite of the complaints about American health care, if you're some well-to-do sheik from Bahrain and you have got unlimited billions of dollars or millions of dollars to spend and you're sick, guess where you come. You come to the good old USA for our health care because we still have a lot of good things going on with the level of services we provide.

There are changes that need to be made, but the change doesn't need to be socialized medicine. It doesn't need to be a government system which will crowd out all of the privates. It doesn't need to be a system which is going to create an incentive for private companies to dump their employees on the government. It doesn't need to be a system which is going to take \$500 bil-

lion of Medicare funds away from people who are on Medicare. It doesn't need to be a system that basically guarantees that illegals can get health care at the public trough. It doesn't need to be a system that says that we're going to use Federal money to provide free abortions for anybody who wants those. And it doesn't need to be, above all, a system that is driven by bureaucrats getting between the patient and the doctor. Those are things that we don't need in America.

Americans, in spite of the fact that a great preponderance of media have not been giving all the facts and pointing out that these quotations are not true, in spite of that fact, Americans across the board, whether they're liberal or conservative or whatever, they're saying, Please, don't take our one-fifth of the economy and completely redesign it to fit 15 million people who may not have insurance when 100 million people are comfortable with what they have.

We need some reforms. We need some changes, and there are some very good things we can do. We haven't even mentioned tort reform, the high cost of defensive medicine. That's one thing that's needed to be fixed for a long time. That will drive health care costs down. We haven't even mentioned here today the fact that people that work for big companies or the government get to buy their health insurance with pretax dollars; whereas, a small business or self-employed person has to pay for their health insurance with after-tax dollars. That is not just. It should not stand. We should not tolerate this.

There are changes we need to make, but socialized medicine is certainly not one of them. All you need is a little common sense to look at the foreign countries or the two States in America that tried this Pelosi-type plan and you will see that this is not the direction we need to go.

### 30-SOMETHING WORKING GROUP ON HEALTH CARE

The SPEAKER pro tempore (Mr. BOCIERI). Under the Speaker's announced policy of January 6, 2009, the gentleman from Ohio (Mr. RYAN) is recognized for 60 minutes as the designee of the majority leader.

Mr. RYAN of Ohio. I thank you, Mr. Speaker. This is our traditional 30-something hour. We will be talking about health care and try to rebut some of the claims that have been made earlier here tonight. But before we do this, we have had several situations going on in the Pacific, and we wanted to yield as much time as the gentlelady from Guam may consume to talk about the circumstances that are going on in her district.

I gladly yield to Ms. BORDALLO.

TSUNAMI IN AMERICAN SAMOA

Ms. BORDALLO. Mr. Speaker, thank you very much, and I want to thank

the gentleman from Ohio for giving me some time to discuss the very serious disaster that just happened in one of the U.S. territories in the Pacific.

I come to the House floor this evening in the wake of a tsunami that struck yesterday on the shores of the Samoan Islands, resulting from an earthquake centered in the Tonga Trench of the Pacific Ocean. The epicenter of this earthquake is estimated to have been about 120 miles south of the islands of Independent or Western Samoa and from American Samoa, which is represented in this body by our distinguished colleague Mr. FALEOMAVAEGA.

The strength of this earthquake was measured by the United States Geological Survey at 8.0 magnitude on the Richter scale. Eyewitness accounts indicate that the tsunami triggered by this earthquake brought four back-to-back series of waves, ranging from 15 to 20 feet in height, to the shores of American Samoa and that these powerful waves penetrated up to a mile inland upon impact.

Given the gravity of the situation at hand, I convey on behalf of my constituents, the people of Guam, our deepest condolences and sympathies to the Governor and the first lady of American Samoa, to our colleague Mr. FALEOMAVAEGA, and to their entire community on this tragedy. Our hearts and our prayers are with the families who have lost loved ones or who have been injured as a result of the disaster.

Mr. Speaker, our island communities in the Pacific stand in solidarity with the people of Samoa, as do our fellow Americans from all across our country. When disaster strikes, we pull together as Americans and as a country, and in the Pacific, we do so as fellow islanders.

The people of American Samoa are no strangers to the course of nature and to the forces of the sea. The Samoan culture has survived over centuries. Living in harmony with the sea is rooted deep in their culture and way of life. They are a great seafaring and resilient people with a strong sense of family and community. We know that they are pulling together at this time to comfort and to console each other and to begin to rebuild and recover. Their spirit has not been diminished or dampened. Rather, it is being tested, and they are answering the call tremendously.

The fatality rate for this disaster continues to rise, as does the number reported to have been injured, and we grieve with our fellow Americans. The President this morning issued a major disaster declaration for American Samoa, and the Federal Emergency Management Agency, FEMA, under the leadership of its administrator, Mr. Craig Fugate, is marshaling and coordinating the relief resources as we speak. An AC-130 aircraft and a U.S.

Navy frigate have been dispatched to deliver the first line of Federal relief. The arrival in American Samoa of other assets will follow in the coming hours, bringing critical food, water, medicine, medical supplies, and personnel. All branches of our military, including the National Guard, are organizing their contribution to this humanitarian mission as we speak.

Our allies and friends in the region have already reached out, extending invaluable diplomatic lines of support and important messages of encouragement. Governor Tulafono, Congressman FALEOMAVAEGA, and other island leaders have been in around-the-clock communications with Federal officials and leaders of neighboring islands as to the situation on the ground and the status of recovery efforts. Mr. FALEOMAVAEGA, we know, would be with us today as we continue our legislative duties here in Congress, but recognizably is on his way home.

I know several of my other colleagues intended to join me tonight in commenting on this tragedy and in sending words of condolence and encouragement to Mr. FALEOMAVAEGA's constituency. I am facilitating this Special Order as the chairwoman of the Subcommittee on Insular Affairs, Oceans and Wildlife. The chairman of the Natural Resources Committee, Mr. RAHALL of West Virginia, is unable to join us in person tonight, but his remarks will be entered into the RECORD, and he has asked me to speak to this matter.

Before yielding, however, I want to also emphasize the importance that this tragedy has underscored for the network of Federal disaster and natural hazard resources and partnerships spanning the Pacific region. The United States Geological Survey of the Department of the Interior has provided real-time data on the earthquake. The Pacific Tsunami Warning Center at the National Oceanic and Atmospheric Administration's National Weather Service issued the watches, the warnings and the advisories for the region with respect to the tsunami and continues to stand watch. The National Ocean Service and other components of NOAA have been working in the region and with local officials in recent years to improve natural hazard planning and to map the coastal areas for their vulnerabilities.

FEMA's National Response Coordination Center and the Regional Response Coordination Center for Region IX have been critical to these early response efforts, as has the incident management assistant team and the planning and response team that they have deployed to provide direct support in American Samoa. The Coast Guard and other components of the Department of Homeland Security have also set in motion important services supporting these recovery efforts.

Every branch of the armed services under the Pacific Command is also to be recognized for the humanitarian missions that they have put underway for the people of American Samoa, Western Samoa, and the Kingdom of Tonga. Personnel at the Office of Insular Affairs at the Department of the Interior and the Department of State are also initiating response efforts within their respective agencies and with the governments of the affected islands.

And most importantly are the first responders and the civilian defensive authorities and personnel of the Government of American Samoa, including those working at the LBJ Tropical Medical Center, caring for the many, many injured. They are to be commended for the outstanding job that they are performing in this time of urgent need.

Ultimately, after recovery, we will review and examine the sequence of steps leading up to and immediately following this natural disaster. We will do so for the purpose of further bolstering our defense and to improve our capability to prepare for and respond to such disasters. I know Mr. FALEOMAVAEGA has long been a leader in Congress for strengthening FEMA and NOAA's capabilities in the Pacific region, and I have joined him in working to protect such disaster assistance and weather forecasting services for the freely associated States under the terms of the compact.

We have also worked to build these resources in the territories. Four years ago, in the aftermath of the devastating tsunami which hit Indonesia and affected more than 12 other countries in Southeast Asia, Mr. FALEOMAVAEGA introduced legislation to specifically provide for the establishment of a tsunami hazard mitigation program for all the United States insular areas. Mr. FALEOMAVAEGA's legislation was ultimately incorporated into an act of the 109th Congress, Public Law 109-424, which improved tsunami detection, forecasting, warnings, notification, preparedness, and mitigation for the entire United States, and is a basis for the United States leadership toward the development of a global integrated tsunami warning and education system.

Mr. Speaker, we will have challenges before us in terms of preparing our island and coastal communities for tsunamis and other natural disasters, but we have come a long way, especially since the Federal Government established the Pacific Tsunami Warning Center in Hawaii in 1948.

On Guam, we have weathered many, many supertyphoons and earthquakes, among other natural disasters. We recognize the tremendous lift that is provided to a community when our brothers and our sisters reach out to lend a helping hand and words of encouragement. When backup resources are sent

and leaders work together in time of need, we pull together and we recover. This is the American way. But it is also deeply rooted in the values of the indigenous people of the Pacific, including our Samoan friends.

Again, I know Mr. FALEOMAVAEGA, his constituents, and Governor Tulafono have the support of this body with respect to recovery from this disaster. We look forward to working with them in the coming days and weeks to ensure the lines of relief are there for their community.

I want to again, Mr. Speaker, thank Mr. RYAN of Ohio for his indulgence in allowing me to utilize some of his time tonight. Mr. Speaker, I want to thank my colleagues for keeping the people of American Samoa, Western Samoa, and the Kingdom of Tonga who have been impacted by this tragedy in their thoughts and in their prayers.

□ 1730

Mr. RYAN of Ohio. Mr. Speaker, we also have the Representative here from the Northern Mariana Islands, Mr. SABLAN.

I yield to the gentleman.

Mr. SABLAN. I would like to thank the gentleman from Ohio for yielding to me.

Mr. Speaker, people in the Pacific Islands may be separated by thousands of miles, but we all feel that we are part of one family.

The tragedy that is unfolding now in American Samoa is not remote to us in the Northern Mariana Islands. We feel the horror and the pain, as if it were happening to us.

I am not speaking metaphorically. Some in my own family have relatives from American Samoa and our islands are home to many American Samoans. They are school principals. They are program administrators. They are utility engineers. They are neighbors. They are friends. They are family. And they fill a vital and much-appreciated role in the life of the Northern Mariana Islands.

So today we are terribly, terribly saddened by the loss of life in American Samoa, by the images of homes washed away, by the knowledge that it will not be days or months but truly years before the people and life of American Samoa can be said to be recovered.

I come to the floor today hoping to raise the awareness of this House to the challenges our fellow Pacific Islanders and fellow Americans now face in American Samoa, and I hope that this House and the Federal Government as a whole will respond as Americans traditionally respond when community in our Nation is struck by natural disaster, with every possible aid and assistance to help American Samoans rebuild.

I placed a call late yesterday afternoon to our colleague and friend, Con-

gressman ENI FALEOMAVAEGA, just when this tragedy was taking place. He and his staff were already on the phone calling Federal and territorial offices to respond to this horrible tragedy. He is now on his way to American Samoa to do what he has to do for his people and the islands.

I want to commend President Obama, Homeland Security Secretary Janet Napolitano, Interior Secretary Ken Salazar, and the new Assistant Secretary for Insular Affairs, Anthony Babauta, who have already responded with the appropriate speed.

Even as the earthquake struck yesterday and the series of tidal waves began to sweep across the heavily populated coastal areas of American Samoa, the Interior Department was keeping the Speaker's Office and the rest of this House informed of events. The President has promptly issued a disaster declaration, and the Federal Emergency Management Administration is taking all appropriate response actions. The Coast Guard is on hand, and other elements of the U.S. military are assisting in bringing personnel and supplies as quickly as they can to American Samoa.

But the distances to cover are vast. The logistical difficulties are very great. A disaster of this magnitude only serves to highlight the particular vulnerability of islands to natural disasters and, indeed, to any disruption to the normal day-to-day life.

Island communities, because of their isolation, do not have the same resilience that communities on the continent take for granted. The people of American Samoa cannot drive away from the devastation to seek shelter with friends and families in other parts of the United States. There are but a few air flights a week in and out of Pago Pago, and the cost is prohibitive for a community with income levels way below the national average.

FEMA cannot drive in with trailers to provide emergency housing, or tarps and tents to provide temporary shelter. There are no highways across the ocean. Power plants are stand-alone, not connected to some continental network. Fuel supplies are not replenished by pipeline but depend on long-distance tankers. Food stocks on-island are limited. Few people can afford to keep much in reserve. And now the thin line of supply for food is also no doubt disrupted.

Mr. Speaker, I hope I have made the point. Americans in American Samoa need the help of the rest of America. In the days of sorrow ahead for American Samoa, throughout the long days of recovery American Samoa now faces, I urge my colleagues to open their hearts and support every effort to give comfort and aid to a people who are truly in need.

Mr. RYAN of Ohio. Reclaiming my time, I thank the gentleman and ex-

tend the condolences from the people of my district in Ohio and the rest of the House. Tsunamis and hurricanes and all of the natural disasters that we watch on TV, I think it's important that the Representatives come here today and share with us kind of the human side of it, and we realize that these are human beings that have been hurt and families that have been displaced. And we want to just extend our condolences to the gentleman and the gentlewoman and also the gentleman who couldn't make it here from American Samoa.

Our hour tonight, Mr. Speaker, what is left of the hour, is to talk about an issue that is pressing for the country. It has been the topic of conversation here in the United States Congress for several months. It's been a topic in the country for decades going back to Teddy Roosevelt, Franklin Roosevelt, upward and onward to Truman and Johnson and as of late, in recent history, President Clinton in the early 1990s and now President Obama to try to deal with the situation of health care in the United States of America.

This is an issue that we hear as elected Representatives day in and day out where we get letters from constituents who have problems with the insurance industry, who have been hurt, displaced, not covered. The coverage that they have doesn't necessarily work.

I think this whole debate breaks down into two separate categories. There's the financial aspect of health care reform and bending the cost curve and making sure that our country doesn't go belly up because we keep going down the same road and we don't muster up the courage to have change. And then the other track is the social justice track, the idea that the way that human beings, the way that American citizens are now getting treated by insurance companies is unfair, not right, cruel, and something that needs to stop.

So collectively as a country in the past election, the country overwhelmingly voted for change, and they overwhelmingly voted for health care change. And one of the major planks in President Obama's platform was health care, health care reform, bringing some justice to the system, and helping to bend the cost curve in the system.

I think everybody recognizes the social justice side. I think everyone has heard stories. It has happened to them. It has happened to family members. It may happen to somebody that they know where someone is denied coverage because they have a preexisting condition or a family goes bankrupt because of a health care catastrophe in their family.

And what this reform does is it eliminates those two major problems that we have in our health care system, where we are collectively as a country saying it is not right for a human

being, a United States citizen to have to file for bankruptcy because they got sick or someone in their immediate family got sick. Now, I hope we can all agree upon that.

When some of our friends on the other side talk about liberty and freedom and they cue up the patriotic music to try to destroy health care reform in the United States, I would like to ask the question, How free is the person that just had to file bankruptcy because they got sick? How liberated is the person who has to file bankruptcy because they got sick? Is that their idea of freedom, Mr. Speaker? Is that the TEA baggers' idea of liberty, Mr. Speaker? I don't believe that it is. But that is the great debate we are having in this country.

There are people in this country who will end up on one side of that fence or the other. And the side that President Obama and the Democrats have been pushing is to say that when you go bankrupt because you got sick or someone in your family got sick, you are less free. You have fewer options.

There are others who are trying to kill health care reform, who say if you go bankrupt, tough luck. We'd rather have the concept of liberty, the concept of freedom.

But our job when we come to Washington and make laws and reforms is to actually take these ideas that the Founding Fathers have given us that are written all over these buildings, all over Washington, D.C., in State capitals all over the country, and that our kids read about in the history books and on the computer that when they are implemented, those definitions mean something. And this health care reform will make American citizens more free. It will allow them more opportunity, more options. It's bad enough you've got to deal with being sick and you're sick enough that you have to spend so much money that you go bankrupt; then you've got to be bankrupt, which is not a pretty process. It strangles your ability to be free.

So I have to laugh, if it wasn't so sad, when we hear about people in this debate talk about liberty and freedom. You're doggone right it is. And we are trying to enhance liberty, enhance freedom, actually make it work for people. In my congressional district, if we do nothing, we will have 1,600 families go bankrupt because of health care concerns, 1,600 just in my district.

Half of the bankruptcies in the United States of America are because of health care issues. Now, to me that doesn't sound like the principal of freedom. And we're going to fix it.

The same with preexisting conditions. So you're in a job and you have health care and you or your spouse has some kind of condition that you know if you get out of the current pool that you're in, you're going to end up in the shark tank, basically, right now and

you're not going to be able to get health care coverage. So you want to start a business or you want to go somewhere else where maybe you could make more money or you could express more of your talent, more of your ability. You could grow. You could learn new things and maybe provide more for your family. But you don't do it because you know if you leave your job that you won't be able to get health insurance.

Now, I ask my friends who talk about freedom and liberty, is that person more free? Is that person liberated to pursue happiness? I don't think they are.

So I will have the debate all day long, Mr. Speaker, with the TEA bag groups and the TEA baggers and everybody else who wants to have this debate about freedom and liberty because this reform bill and the insurance reform components of this are about increasing people's freedom. It's about protecting them in a market in which they need some consumer protections in order for them not to be strangled, not to be strapped, not to be forced to go bankrupt.

I yield to my friend from right across the border in Pennsylvania.

□ 1745

Mr. ALTMIRE. I thank the gentleman from Ohio.

I sat with the gentleman for a while and listened to one of the groups that came before us, and I couldn't help but think about the fact that they seem to miss the fact that I would agree: The worst possible thing we could do in health care reform, as a Congress, is to pass a bill that makes the system worse. We are capable of doing that. We are not going to do that, but that would be the worst possible outcome.

But a very close second is to do nothing. The gentleman from Ohio said that businesses and families in this country struggle every day with the decisions relating to the cost of health care. I, in visiting my district recently, had an opportunity to speak to a Rotary Club in my district. A business owner came up to me afterwards, and he showed me his health care statements for the past 4 years, his annual increases. The lowest increase on an annual basis that that small business owner had experienced, he had 12 employees, was 28 percent. That was the smallest increase he had. He told me, I can't do this anymore. I can't afford health care. I'm going to have to tell my 12 employees this week that I have to drop them. He couldn't offer health care any more.

Well, that is unacceptable in America. And that is what is going to continue to happen if we sit back and do nothing while the cost of health care continues to rise two and three times the rate of inflation every single year.

I had a woman come up to me at one of my meetings who was one of these

people who had attended one of the TEA parties that the gentleman refers to. She was very angry, and she was telling me all the reasons why she opposed what she perceived us to be doing on health care and everything else that was getting under her skin. She was really getting herself worked up. She looked at me, and she said, Don't you dare take my money to pay for those people who don't have health care. Because, she said, I have worked hard for everything I have, and my family is covered, and if those people aren't, well, that's too bad. That's their problem. I'm not worried about them. I have worked to put myself in a position to provide for my family. She said, forget about those people. That's not my problem. I'm not paying for them.

I said, Well, here is the issue: You are paying for them, because they show up at the hospital, they get treated, and the hospital sends the bill to us. That's how that works. And this woman who came to this event to fight, she wanted to take me on. When I said that, she softened. And she said, You know, it's so funny that you say that because I just had a procedure done at the hospital in February, and the insurance company denied part of my claim, and I had to pay \$18,000 out of pocket. So she went through the bill very closely because she was the one paying the money. She called the hospital, and she said, Why does everything on this bill cost more than it should? Why does an aspirin cost \$10?

And the hospital told her, Well, that is because we have so many people who come through our doors that can't pay at all, we have to shift those costs to the people who can pay. So therefore, everything on the bill costs five times more than it should.

Similarly, I had a gentleman tell me about all the reasons why he didn't want to do health care reform. He said that we have the best system anywhere in the world and everything worked fine, and even if you don't have insurance, you get treated, and everything is free, and it's great. He said, I have a nephew who is 15 who had a hip problem, and he showed up at Children's Hospital of Pittsburgh and he got the best care anywhere in the world. And he is great, and he is fine now. I stopped him. I said, wait a minute. You said he didn't have insurance. How did he pay for this great care that he got? He said, well, I guess Children's Hospital paid for it. And I said, well, no, that is not what happens. We paid for it, because Children's Hospital eats those costs, and then they transfer the loss to the people who have insurance. That's the way that works. And he got it.

The point of this story is we can hear all the examples on the other side politically of why it's better to do nothing, and we should make everybody very afraid of reform. But everybody in

the country, every family and every business and every individual in the country, regardless of their political affiliation, has had an experience in the health care industry that shows them that we can do better. They have had to spend a half hour on the phone haggling with an insurance claims adjuster who has just denied their claim. There is that small business owner who has to make the heart-wrenching decision to drop coverage for his 12 employees. There is someone who had to wait 9 months for an appointment with the dermatologist or had a bad quality experience with a grandparent in a nursing home. Everybody has had something happen that shows we can do better.

Yes, we have to preserve what works in our system. I'm one who believes as much as anybody in this Congress that we do have the best health care system anywhere in the world. Our innovation, our medical technology, our research, our quality of care at the high end exceeds anything available anywhere else in the world. There is no question about that. And we need to preserve that. But that doesn't mean we don't pay too much, costs go up too much, we are pricing our small businesses out of the market.

And if you get sick or injured and that insurance company is able to drop you, well, what is the point of having health care insurance to begin with if you only have it until you get sick or until you get injured?

So what we are saying in the legislation that we are considering is, insurance companies won't be able to drop you as soon as you get sick or injured after you have paid premiums for years and years. They won't be able to do preexisting condition exclusions. They won't be able to set your rates based on your individual health status. They will have to take all comers, no lifetime caps or annual caps on out-of-pocket expenses for people with chronic diseases, which is a big problem in the insurance industry. These are the problems we are trying to solve.

We are going to help small businesses afford health care by helping business owners like the one I talked about in that Rotary Club to be able to qualify for tax credits to help him afford coverage for his employees. We are going to give more information to health care consumers in the country so they can compare based on cost, based on quality, and based on access to provider, all the plans that are available to them. We're going to squeeze out the inefficiencies of the current system and apply those savings to bringing more people into the system, those who are outside the health care system that simply can't afford health insurance now. These are the reforms that we're talking about.

So when you see the charts and graphs on the other side of the big bu-

reaucracy identical to what those charts were in 1993 and they recycled them from 16 years ago, that's not what we're talking about. And we can come down here and have a discussion on the merits of the Canadian health care system or what they do in Great Britain. And that's interesting. That's an interesting discussion to have. But it has nothing to do with what we're talking about. That's not what we are doing in our bill. It's completely unrelated. But in order to scare people and gin up political support to foist a failure upon this Congress and this administration so that they can use it for political purposes, they make things up.

Mr. RYAN of Ohio. If the gentleman would yield. The issue coming from the other side is interesting, because just a couple of years ago, our friends had control of the entire government. They had control of the House, and they had control of the Senate. Your class came in, and we had a great year. But prior to 2006, there were 6 years that President Bush, the Senate and the House were all Republican. They could have implemented some kind of health care reform. It didn't have to be necessarily what we are doing, but really, not to do anything to try to bring some justice to the system and, in the process, spend \$2.5 trillion over 10 years on the Bush tax cuts that went to primarily the top 1 percent of the people in the country.

Now we're talking about a bill here that is deficit neutral, that will be paid for, that is \$900 billion over 10 years, a little more than a third of what they spent on tax cuts, and we'll start bending the cost curve and bring some justice to end these stories. I think it's important to talk about that, because we all run into the business person you talk to who says they don't have health care any more, from the example you used earlier.

So let's track those 12 families. Now they are out, and they are swimming with the sharks. Hopefully no one has a preexisting condition so when they go out now on their own, out of the plan that they were in, and they try to get some coverage, hopefully they don't have a preexisting condition. But what if they do?

And I bet that there is somebody in that group, some family, some spouse, some worker there that probably does, and they are not going to be able to get insurance or they are going to have insurance that is going to cost so much that it is going to be really not helpful. And so they may go without. Now, not having gotten any treatments, they may go 1 year, they may go 2 years, but now all of a sudden a very small problem turns into a very, very big problem, so that at some point, this person ends up in the emergency room. If they are older they end up in the Medicare program. In both instances, they cost us a heck of a lot more

money than they would have if they were able to stay in that plan, get preventative care and get consistent treatment. They could have dealt with a sickness that they may have had so it doesn't become chronic and costly.

That's what's happening all over the country. Our friends are scratching their heads saying, How in the heck does this get so expensive? Well, it happens every day. We see these situations happening all the time. A lady called in to one of my telephone town halls about a month ago. She is 60 years old. She makes \$32,000 a year. She works. And her company, same situation, just dropped her health care. She basically said on the call, I may just wait until I get into Medicare. So here you have someone that is working, 60 years old, and can't get health care in the United States of America.

That is a whole other topic of how bad and wrong and cruel that is, but just from the sheer numbers standpoint, this person is going to go 5 years without health care? And then when she goes into the Medicare program, she will have how many different problems that could have been prevented in those 5 years? You wonder why Medicare is going to go belly up.

Well, part of the reform is to make sure that those people that are that age, all Americans, but people that age will have some basic level of health care.

Mr. ALTMIRE. I would just say before turning it over to the gentleman from Connecticut, on that point, as I said, we are already paying for the people who don't have health care. So to our colleagues listening here tonight and to those who may be paying attention to this debate, we are trying to bring people into the system so that we can spread out the risk pool and bring insurance costs down for everybody by bringing more people into the risk pool. So if somebody gets sick and they have insurance, they can show up and get an antibiotic in the first place, so it doesn't evolve into pneumonia where they spend 6 days in the hospital 2 months later, and then we have to pay their bill.

That's the point. We are trying to rationalize the system so that we bring down costs so people who have insurance today, that's the point here. We can have a philosophical argument about what our moral obligation is as a society on offering coverage to everybody and should everybody who lives in the United States of America have access to health insurance. That's not the debate we are having. The debate we are having is, we need to get them their health care in the most appropriate, cost-efficient setting, and that's not the emergency room. That's not the appropriate setting for them, and that's only going to drive up costs.

So by getting them into the system, we are bringing down insurance costs

for everybody, and we are getting them their care in a way that is more appropriate and more cost effective.

I yield to the gentleman from Connecticut.

Mr. MURPHY of Connecticut. I just was in a meeting with some of my hospital CEOs, and they are talking about having a tough year this year. And they said that they were hopeful, though, that they might see some increases from their private providers, from their private insurance companies that send them obviously a lot of money. And they said that because they were making the case to their private insurers right now, Mr. RYAN and Mr. ALTMIRE, that because they had had so many more people coming in without insurance because the number of people that no longer have coverage has increased, and the number of people coming through their doors that don't have any source of payments has gone up, they are hopeful that they will be able to convince the private insurance companies to raise their rates by 5 percent or so to compensate for all those people that are coming in the door without insurance.

That happens every day out there in the negotiations between hospitals and doctors and private insurers. The pressure is on private insurance companies to make up for all the people that show up without insurance. The insurance companies don't eat that money. They pass that along in higher premiums. So everybody out there who is on private insurance today, the 70 percent of individuals who are happy with their current coverage, need to know that your premiums are higher so that those insurance companies can help compensate and keep in business the hospitals and physicians that are caring for all the people that don't have insurance.

Now to your point, Mr. RYAN, about how Medicare is taking on the cost of all these folks that are uninsured from age 55 to 65 and then show up at the door of Medicare with all sorts of problems—let me share this story. In Connecticut, our major insurer, Blue Cross Blue Shield, is walking around with a chart trying to sort of push back, as far as I can tell, on health care reform. And their chart shows, as they claim, that the cost of taking care of a Medicare or Medicaid patient is comparable or a little bit more than the cost of taking care of somebody that has no insurance today.

□ 1800

Apparently, the reason they're showing that chart is to make an argument that you should just leave these people uninsured, because if you put them on insurance, it will actually cost you more.

We know that's not true. We know that by giving insurance to people, by allowing them access to their primary

care physician to get them preventative care, that's going to cost less than leaving them uninsured. But they make a totally unfair comparison. They're comparing the cost of someone who is uninsured to the cost of the Medicare and Medicaid system which have the sickest, the most expensive people on their rolls.

And so I think it's a caution for all of our colleagues who look at our current government health care program, Medicare and Medicaid, and say, ooh, if you really look at the per patient cost there, those are pretty expensive programs. Well, they're pretty expensive programs because Medicare and Medicaid insure the most expensive people out there, insure the sickest of the sick, the old and the frail and the elderly. All of the end-of-life care is paid for by that.

Mr. RYAN of Ohio. And why do the programs even exist? Because you can't make money off of sick people. I mean, how disingenuous to walk around saying, boy, look how expensive Medicare is. No kidding. Everybody is 65 and older. Yes, that's expensive, but no one was doing it. So we decided as a country that it may be a good idea to protect those senior citizens and provide them a little bit of dignity.

Mr. MURPHY of Connecticut. And you know what the insurance companies call the money that they spend on health care? They call it medical loss. Medical loss, that's what it is to an insurance company. To you, it's a medical benefit. It is care that you get that keeps you alive. To an insurance company, it is called medical loss. It is a bad thing to spend money on you.

That doesn't mean that there are bad people running insurance companies. It just means that in the end, if the motivation is profit, if the motivation is to return as much money to your shareholders as you can, then every dollar that you're spending on care is less money that you're getting as a return on your investment, which is why so many of us believe that there is just an inherent conflict between good business and good medicine. It doesn't mean that the two can't coexist. It means that government has to step in and try to set a set of rules to make sure that in every instance good business doesn't trump good medicine, and let me give you an example of why that is.

Every insurance company executive will tell you, yeah, listen, if it was up to me, I wouldn't deny care for all these people that have preexisting conditions. But if I stop doing that, then I'm going to be at a disadvantage against all my competitors. If I start accepting in all of these patients with cancer and hypertension and lupus and whatever it may be, well, then I'm going to get all the sick people, my premiums are going to go up, and I'm not going to be able to compete with everybody else.

And so they tell you, listen, if it was up to me, I would do it, but you need to set the playing field even between all of us. Insurance companies, listen, we might be fighting them on a lot of things, but they'll actually come in and tell you that if the government comes in and says that we should all take patients with preexisting conditions and we're all living by the same rules, well, then that's fair; we can live with that in the end.

The fact is that I listen over and over again to our Republican friends say that, yeah, we're for that, too. We think that we should stop people with preexisting conditions from being excluded from insurance. Well, they had control of this Congress for 12 years. They had the House. They had the Senate. They had the Presidency. They had everything. They didn't do it. They didn't do it. They would have had insurers with them on that. They would have the public with them on that, but they didn't do it.

So it just is beyond me how we can listen to so many of our colleagues on the Republican side of the aisle come down here and tell us that they were for this all along, that they were for trying to stop these discriminations against people with preexisting conditions, because they could have done something about it. They could have done something about it.

And for all those people out there that say, listen, government should stay out of health care, this is a prime example of where government needs to come in and set fair rules that insurance companies need to play by, because if you leave it up to the private sector, they're going to push sick people off of their rolls, push sick people off to the side.

I don't want a government takeover of health care, you don't want a government takeover of health care, but there are some places that government needs to step in and fix it.

Mr. RYAN of Ohio. Well, you think about how a game started like basketball or football or just of any sport; right? At some point, you know, Naismith puts up the peach basket and starts throwing a ball and they decide, well, we'll cut a hole and the ball will fall through. That will be good. But then you start getting teams, and at some point someone threw an elbow at somebody's face and hit them with an elbow in the face and they couldn't play anymore. And the people organizing the game said, you know what, that's not really fair. That's not what the game is. So that's illegal because here's the game. You each get five people. You put it in the thing, but whatever the rules are, and then rules consistently evolve to make the game more fair.

And so here we are in the United States, well, we're saying that government is not going in to run anything.

What we're going to do is create new rules, and one of the rules is you can't be denied for a preexisting condition because it's unfair. We are all agreeing as a country, and our friends on the other side, we will see how they vote when they have an opportunity to vote for this, because it's unfair. Going bankrupt in the United States for a health care reason is unfair. We want to change that rule. That rule no longer applies. And so what we're trying to do is make the game of health care more fair.

But there's a point that I wanted to just touch on for a minute. One of the points I wanted to touch base on that Mr. MURPHY just made is how the insurance industry has acknowledged that this will be a level playing field for all the different insurance companies, and if we do preexisting condition, making sure that no one can pay any more than a certain percentage of their income out of pocket per year to prevent bankruptcies, those kinds of things. There's an important point that I think we need to acknowledge and talk about more.

If insurance companies have to cover everyone, if they can't play the game that they're playing now—the game now is how do I get sick people off of my rolls so they don't cause me a medical loss and how do I not get people on my rolls that I know are going to cost me money, and those people are going to be diabetics and heart disease and cancer patients.

And I had one cancer patient come to a roundtable I had who said, you know, she had cancer and then she lost her job and then was out with another job trying to get insurance on her own. She was denied. Her cancer had been gone for years and years, but it hadn't been gone 10 years, so insurance companies would continue to deny her coverage.

And so what we're saying here, if everybody is covered, if insurance companies can't deny anybody coverage, they will have to take you. There is a new business model that will be created within the insurance industry, because the game of keeping people off your rolls, or getting sick people off your rolls, is over. The new game for the insurance company is going to be how do we keep the people that are in our pool under our coverage healthy.

So you are going to see them investing money into wellness, prevention. They're going to be very interested in what the kids are eating at schools. They're going to be very interested in the pesticides that we're putting on our food that may cause cancer. They're going to be very, very interested in obesity rates. They're going to be very interested in what physical education programs look like in our schools.

We can have a real ally among the insurance industry to partner with us, with nutritionists, with dietitians,

with, you know, preventative and wellness groups. We will now have an ally. Instead, the insurance companies are now the enemy because they don't want to make these investments.

Now they're slowly starting to be—because I think they're reading the tea leaves here is that they're going to be slapped down and they're going to have to cover everybody, and because of that, they are going to be able to make investments, and I think it's going to end up being a very, very good thing.

Mr. MURPHY of Connecticut. I agree, and as I said, I think that's why, on this issue of setting a level playing field amongst insurers, where they're not allowed to keep out people who are sick, where they're also not allowed to price people who get sick at an exorbitantly higher rate than other people, you know, insurers want to be part of that change because it does allow them to get back to trying to be about wellness and about health care rather than trying to be about moderating risk.

So I think in this fight we have allies. Now, listen, insurers may not like other parts of this bill. They may not want the public option to put pressure on their rates to come down, but there are a lot of other pieces here that they're partners on.

I want to just present one other example of where it's appropriate for the government to come in here and set new rules, and you said it right here. You know, if you don't want the government regulating health care, well, then you've got to dial the clock back about 50 years or so, because the government right now not only is paying about 55 percent of all health care dollars in this country, but we're heavily regulating health care insurance today.

It happens mostly at the State level, but every single State has a pretty well staffed insurance department that's regulating health care today. It just doesn't do it very well, in large part because if you're an individual buying health care insurance or you're a small business purchasing on behalf of you and maybe five others, you're getting a pretty raw deal. It's pretty simple economics. You are negotiating on behalf of one or five versus large employers who can either bear the risk themselves and they just self-insure or they have enough employees so that when they're trying to cut a deal with the insurance company they can get a pretty good deal. But for that one guy out there that's just buying an individual policy, he's paying the highest rate. He's paying the highest rates because he's got no purchasing power.

So we're just trying to change the rules for him. He would still go out and purchase insurance, but he would be able to purchase insurance in an exchange that this legislation sets up, where he would be joined with everybody else in his State or in his region

who is looking for an individual policy, and we would join their forces together and negotiate on their behalf. We'd have insurance companies bid into the exchange to bid to have the right to offer coverage to all of those individuals, and we would leverage the purchasing power of thousands of individuals.

Now, health insurance companies would still be regulated, just like they are today, but rather than operating in a market in one State at a time, rather than operating in a market where they are allowed to essentially negotiate with one person and one person and one person, they would now be negotiating with a pool of individuals, which would lower the costs for those people. Just a different way to structure the market. Still a regulated insurance market. It's just a different set of regulations.

It's another example of where government, by setting a more fair set of rules for insurance companies and individuals, can lower prices. That's what this legislation is talking about doing; not taking over the health care system, but establishing a different set of rules that benefits our constituents, individuals, and small businesses who have gotten the short end of the stick so far.

Mr. RYAN of Ohio. And so you go to this exchange that's going to be—there will be an essential benefits package that will be set by the Surgeon General and a group of experts who will decide what the essential benefits package would be, you know, dental, maternity, hospital, all the basics, and every insurance company that goes into this exchange, that will be the bare minimum. So there won't be any of this, I'm paying a lot of money out of pocket but my coverage is terrible, or, I don't have any to begin with. There will be this essential benefits package which will be the baseline coverage for every single private insurer that comes to the exchange.

Then they can build on that with premium plans, Cadillac plans, however high they want to go, so people who have a lot of money, there are still going to be plans up there because insurance companies will be making money.

What we're asking here in the House side now is, in addition to all of these private insurers, we put in, basically, a Medicare program, a Medicare program that will compete with all of the other private insurers. Everyone, 80 percent of the people who have Medicare like it. Sixty-five percent of the American people say this is a good idea. But that Medicare that would be in the exchange with all the other insurance companies would compete with all of them, but they wouldn't have to put money into marketing. They wouldn't have to pay a CEO \$100 kajillion a year or, turns out, like \$200,000 a minute or an hour, whatever it is nowadays and

would compete. And by not having to put all that money into advertising and all those other things could help bring costs down, and everyone else in the exchange would now have to compete with that.

So you want to talk about choice, that public option and the way we're setting up the exchange is all about choice. And if you're a family of four making less than \$89,000 a year, you're going to qualify for some health care credits, some subsidies. So you will get the subsidy from the government based on your income, and then you go to the exchange and pick any plan you want. No government bureaucrat's telling you what—no, you've got to pick this plan; no, I mean that one; you pick this one. There's none of that.

□ 1815

You get the credit and then you go to the exchange. And if you want the public option, you could pick it. If you don't want it, you don't have to pick it.

Mr. MURPHY of Connecticut. Mr. RYAN, I think for those of our colleagues who are against this exchange, they've got to go to their constituents and the American people and explain to them why they don't believe that individuals should be able to join together and negotiate for lower rates.

If they're against the public option, they have to make the argument to their constituents why they don't think their constituents should have the choice to choose the same kind of health care that Members of Congress and Medicare beneficiaries and soldiers and veterans and public employees have. This is about banding people together to get lower rates, giving people more choice. And the reason why both of those ideas, Mr. RYAN, and I'll wrap up, have broad public support, every single poll that comes back says 60, 70 percent support the idea of the insurance exchange and a public option within it is because that's what they want. That's what they want, the ability to negotiate together and the ability to have more choice.

Mr. RYAN of Ohio. And how do our friends who talk about freedom and liberty want to deny the ability to basically buy into a Medicare-type program? That seems to me like it's limiting the consumers' choice, limiting freedom. And what we're saying is they have all got to compete. They have all got to be there. We're going to help you pay for it because we know if you don't get insurance you're going to go cost us a heck of a lot more money in the emergency room and this is all about choice.

And you know, if you like what you have, you keep it. That's fine. So you know, this is good. I think about the 1,600 families in my district that go bankrupt because of health care. I think of the people that will have opportunity and options because of what

we're trying to set up here and reform this system.

But as we close, Mr. Speaker, I would just like to say, if you look at what we have tried to do and what we have done over the course of the last 7 or 8 months, we've taken on the oil industry; we're taking on the insurance industry. Since we've been here, we've raised the minimum wage, increased money for Pell Grants, taken the banks out of student loans so that people can afford to go to college, make investments back into the middle class, infrastructure money, stimulus money, thousands of teachers are at school right now because of stimulus money that is coming out, invested in the green technologies, green energy.

If you look, issue by issue by issue by issue, everything that we have done has been sticking up for the middle class and taking on the special interests that have been driving down wages, driving up health care costs, making it difficult for small businesses, making it difficult to go to college, cutting every business in on the deal, no matter what; and it's important to recognize that this reform proposal and this reform bill is all about giving the middle class consumer protections, choice, and affordable health care in a system that has justice.

So I want to thank my friend from Connecticut, I want to thank our friend from Pittsburgh, western PA, who was here. And, again, our condolences out to people in the Pacific who are going through a very, very difficult time who shared with us earlier in the hour.

With that, we yield back the balance of our time.

#### FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has agreed to a concurrent resolution of the House of the following title:

H. Con. Res. 191. Concurrent resolution directing the Clerk of the House of Representatives to make technical corrections in the enrollment of H.R. 2918.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2918) "An Act making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes."

#### NATIONAL HEALTH CARE

The SPEAKER pro tempore (Mr. SCHAUER). Under the Speaker's announced policy of January 6, 2009, the gentleman from Iowa (Mr. KING) is recognized for 60 minutes.

Mr. KING of Iowa. Mr. Speaker, it is an honor and a privilege to address you

here on the floor of the House of Representatives. And having listened to the dialogue that was presented by my colleagues, often I will be able to see them on C-SPAN and then I'm inspired to come over here and take up the other side of the argument. They have inspired me for a number of years now, especially the gentleman from Ohio, who has headed up some of the dialogue that has brought, I think, significant philosophical disagreement, although personal disagreement seems to be nonexistent, at least from my part.

And the strong sales pitch that they've given on the government option compels me to lay out the facts on this case; and I'll say present it to you, Mr. Speaker, from a different perspective. The first perspective is this: this is, this perspective, Mr. Speaker, is the old HillaryCare perspective. This is the flow chart that is the basis of the facts on the original national health care act bill that was put together as a result of President Bill Clinton's speech here in the well on September 22, 1993.

And out of that came sometimes closed-door meetings, some would say secret. I really just think they were just closed-door meetings that were headed up by Hillary Clinton, now Secretary of State. And as that plan to take over the entire health care system in the United States in 1993 and '94 took shape, this is the flow chart that grows from it. This is the flow chart, this is actually out of *The New York Times*, Mr. Speaker, is the source of this document. But I had a similar one that I hung in my office for quite a long time.

And to see this government that was created by that proposal back in '93 and '94 was enough to scare me out of the private sector and into politics to try to engage in saving Americans from this disaster that was coming, that was delivered to us and served up by at that time President and Mrs., I'll say the first man and the first lady of America, for that period of time in the early nineties.

Now, when you have the living day-lights scared out of you and you're scared out of the private sector and into politics, it's kind of good to be in a position to seek to, let me say, put the brakes on such a disastrous policy. This is a black and white policy, Mr. Speaker. It was back in those days when we didn't have newspapers that were in full color. The Internet was just forming in a way, but we see all of these new government agencies that are shaped here. And we have some of the things that stand out on it.

Let me say, two cases of ombudsmen that are there to be liaisons between people and government because government is so impossible to deal with we have to give them ombudsmen. And then each one of these is a government agency. The acronyms, many of them I don't recognize anymore. I knew most

of them, probably not all of them at the time because this is such a maze and a menagerie. HMO provider plan is one of them. And the accountable health plan. Accountable. So this, black and white, not full color version, is a pretty scary proposition; and Harry and Louise and others scared this right out of the United States Congress.

When Senator Phil Gramm stepped out on the floor of the Senate right down that hallway and he said, this legislation will pass over my cold, dead political body, he meant it. A lot of people thought that it wouldn't hold up to be true and that Phil Gramm would get run over. Instead, the American people stood with Phil Gramm and many others and they rejected this national health care plan.

Well, fast forward 15 years, Mr. Speaker. Here's the black and white version, rejected. Here is the modern technicolor version. And I expect that we will have an opportunity to defeat this scary legislation. It's scarier because we can see it now in full color. In the black and white are existing government agencies and programs. And so we can see as we look across here, these are existing Departments, Treasury, Veterans, Defense Department. Here are existing, well, let me say government-run operations. Here are CMS, Congressional Medicaid Services, here is Medicaid. There's SCHIP. Big debate we've had on that. Here's Medicare.

Down here are where I'd bring your focus. Let me predict also that we have a chance to kill this, and in about 15 years we'll see the 3-D color version of this. It will come up and it will be you'll put on your 3-D glasses and there will be the display, and government will be so big and complicated you can't understand it in two dimensions. It's multiple dimensions. But this is for us to be able to understand. And anybody that read the bill and didn't look at the flow chart is a brilliant person if they can track all of this. If you read the bill, follow the flow chart you have to still be a brilliant person to understand what they're doing.

But I'd direct your attention down to the private insurers, Mr. Speaker. This is 1,300 companies today. The President has said there are two principles that we need to address and fix in this health care in the United States. One of them is that we don't have enough competition among health insurance companies. So we have 1,300 health insurance companies. The gentleman from Ohio said we just need to have the government option, one more. I haven't quite heard the President say; 1,301 companies selling insurance is the magic number. In fact, he would cringe if he had to be confronted with such an idea that adding one more, it being government, to 1,300 companies is somehow constructive. It's not. It's de-

structive to the private sector and the American people know it.

But these are the private insurers in this little white box existing. And they would be, under this bill, forced into—all of their health insurance policies would have to meet the traditional health insurance plans. In order to qualify, these traditional health insurance plans would have to meet the new government standards. There are approximately 100,000 different varieties of health insurance policies available in the market across the 50 States. Now, you can't buy them from State to State. We need to be able to buy health insurance across State lines. That would put all 1,300 companies in competition with each other, and it would put all 100,000 policies within reach of any American.

But instead, they want to shut that down and set up a government-run option, government regulated health insurance company, and that is these two purple circles here to bring your focus, Mr. Speaker. The qualified health benefits plans. And this would be these 1,300 companies, 100,000 policies that would have to be approved by the new government agency called the Health Choices Administration. Yeah, they're all about choice and all about change.

Health choices administration commissioner. The commissioner, he's not called a czar. He's called a commissioner. The reason he's called a commissioner is because we're full up to here with czars. And so he would be the central planner for all public health insurance and private health insurance in America. A czar, a commissioner, a "commissar," I call him a "commi-czar-issioner." He would be the guy with all the juice that could make all the rules if he could just direct his new Health Choices Administration that would be empowered by legislation proposed by the people on this side of the aisle that the President will find he gets anything in it, a title that looks like a national health care plan of any kind, a path to his goal, which is single-payer, and we know it and we've seen the video tape. The videotape doesn't lie. It might get edited slightly, but the President's for a single-payer plan.

That is the socialized medicine model. We know that. Why don't we just be honest about it? I mean, if the President would step up and say I think that the United States of America can actually run socialized medicine better than any other country in the world, better than any country ever has, then he could make his case as to why. But instead they want to say it's not socialized medicine, just the same way they wanted to argue that amnesty wasn't amnesty. Well, even if you're the President of the United States, you don't get to redefine the English language.

□ 1830

This is about the health choices commissioner calling these shots, Mr. Speaker, and the very idea that socialized medicine could be called something else. In fact, when we declared it to be the House Democrats' health plan, the public option—they want to call it the public option plan, we want to call it the government plan. The government plan is the government health insurance plan that would eventually replace most, if not all, of the private health insurance in America. They wanted to censor that.

In fact, this chart was banned from being mailed out under our franking mailing privileges because it was deemed to not be accurate because it called it the "organizational chart of the House Democrats' health plan." So I just posted it on my Web page and said, Come and take it. This is the truth.

By the way, this has been clearly and carefully vetted. Congressman KEVIN BRADY of Texas on the Ways and Means Committee, he went down and carefully examined every component of this bill, put his staff on it, and challenged them to make sure it was all correct. This chart has withstood all criticism. This is a chart that shows what's going on with health care here in the United States.

The points that come from the President are health care in America costs too much money, and we have too many that are uninsured, and that we need more competition in health insurance.

I think I pointed out that competition is not what we need more of, but if he's right on that, we can provide the maximum amount if we just simply allowed everybody to buy health insurance in America wherever they choose and simply go around these State mandates.

So, for example, a similar policy in New Jersey that would cost a young man, 25 years old, \$6,000 a year can be bought in Kentucky for \$1,000 a year, and that's the difference in the mandates.

So yes, vote with your feet. Surely you'd think about moving to Kentucky. Business will go there. They need to come to Iowa, too, by the way, Mr. Speaker. But we can solve a lot of this health insurance competition simply by allowing insurance to be purchased across State lines by providing for the portability so people can take it with them. That solves the problem of competition in a far more effective way than the President's proposal of starting up and running and putting taxpayer dollars into a Federal health insurance policy.

The best example I know of to describe what will happen if we have a Federal health insurance policy can be what happened with the flood insurance in America. In 1968, this Congress

passed a National Flood Insurance Act, and what it did was it put the Federal Government in competition with the property and casualty companies that were selling flood insurance at the time. And then the Federal Government decided we need to be able to compete in this marketplace and so we'll keep low premiums and we'll require the loans on real estate that are given through national banks to include Federal flood insurance. That was 1968.

This is 2009. There is no private property and casualty flood insurance property available in America because the Federal Government has crowded out all the competition, and now they own the flood insurance in the United States. It has been nationalized, and the flood insurance program has a \$19.2 billion deficit—in the red. The only way to get that back—well, they can't get it back. They just simply borrow money from the Chinese or the Saudis and drive us further into debt and pay the deficit of a bad business model. That's what's going on with health insurance.

Now I'm going to make just one more brief point, and I see that the gentlelady from Minnesota has arrived to add her dynamics to this debate.

These are the uninsured in America, Mr. Speaker. I have to edit this a little bit because my numbers aren't all the way I'd like them: 47 million uninsured. I have 44 to 47 million. So I simply start out with a high number, 47 million of those uninsured, and then said, Let's break this down. Let's break this down and find out who really are these people? And do we really want to provide for a government plan out of the taxpayers' dollars to fund this universe of 47 million who don't have health insurance?

So we start around the top. These are the illegals. That number is 6 million in this chart; it was 5 million in my other chart. These are the people that were here under the 5-year bar. Non-citizens who were barred by law from public benefits, that number was 5.2 million. But they add up to 10, 10 million people, the legal and illegal who are disqualified by law from public benefits.

Then you go to those who are earning more than \$75,000 a year. That's 9 million. Presumably they could write a check for a premium for their own health insurance but they've opted not to.

Then you have those eligible for health insurance under their employer, roughly 10 million—9.7 is the number I recall. They've opted out, perhaps. They're eligible and didn't sign up, or they opted out.

Then we have those that are eligible for government benefits. That's generally going to be Medicaid people. And that's actually the 9.7 million, and it's 6 million that are eligible by employers but don't sign up.

Now, take all of these numbers that come pretty fast, Mr. Speaker, and I can just tell you what the math is: 47 million minus those that are disqualified for the reasons that I've given leaves us this number: It's actually 12.1 million people that are Americans without affordable options. That's the universe of people that really we're trying to address.

Here's the real chart. This is all of the American people right here, 306 million people, and here are all of the categories of folks that I've listed that I don't believe we should be subsidizing their health insurance: the immigrants, the illegals, those that are already qualified under Medicaid and don't bother to sign up, those that are making over \$75,000 a year, those that qualify for an employer plan and opt out. That's all of these people along this spectrum from blue to yellow.

Then we have all of these covered Americans here which are 84 percent of the American people. Who are we really trying to address? Americans without affordable options. Here they are. Less than 4 percent. And for less than 4 percent, the proposal from the people on this side—and I am not going to accuse them of being rational, Mr. Speaker—the proposal is that we tear asunder the entire health insurance industry in America and the entire health care delivery system in America—the best in the world by many standards—in order to get at this less than 4 percent that are Americans without affordable options.

There would not be a rational person that would declare that to be rational behavior, Mr. Speaker.

I would be happy to yield to the gentlelady from Minnesota to pick up from wherever it is I might have left off.

Mrs. BACHMANN. I thank the gentleman from Iowa, and I thank you for clearly laying out what the problem is and what some of the solutions are that are being offered by the Democrat majority that controls both the House and the Senate and the White House.

As the gentleman stated, we're looking at about 85 percent of the American people who have health care who, in survey after survey, have demonstrated that they are happy with their health care; they have no desire to change that system that they're currently able to receive. They're very worried, though, because they know that the Federal Government very likely will cause their current insurance system that they have to go away. And they're right.

President Obama has made three things abundantly clear: one is that if we have current insurance, we won't lose it; we will be able to hold on to it. We know that's patently false from the legislation that the House has taken up, H.R. 3200. It states quite clearly that within 5 years, insurance programs would all have to conform with

the Federal Government. And that's individual insurance plans, which are only 8 percent of all outstanding insurance plans. Other programs are employer-sponsored plans. So overwhelmingly within 5 years, all insurance plans will have to come under the one-size-fits-all option.

And isn't it interesting with the proposal of the public option, pretty soon that will be like the blob that ate New York City. The public option will be the only option for the American people.

It happened with the student loan situation 2 weeks ago. The last vote we took was to have the Federal Government take over the student loans in this country. Twenty-five years ago, all student loans were private. Then the government introduced a public option. Well, that one choice, just as Representative KING of Iowa said, adding that one choice to 1,300 insurance companies was like having the Federal Government add one choice to multiple hundreds of banks across the country that were already making loans privately to students.

But here's the problem. Let's be serious and let's be honest with the American people. The government doesn't like competition. It didn't like competition when it came to the student loans that were offered. It wanted all of the revenue that potentially could come out of that, and it thought it could do a better job, even though on the private sector more people chose to go with private student loans than the public student loans. It didn't matter. The Federal Government wanted to have the whole market to itself, and it captured that market.

It's the same thing now with health care. The President of the United States is suggesting that he wants a public option. As a matter of fact—and this shouldn't shock anyone—during the course of his campaign when he was running for President, he clearly stated that he wanted to see the Federal Government have a single-payer plan where the Federal Government would be the provider of all of the health insurance in the United States.

Knowing that, it's no shock that this is the direction that this body wants to go. We know that. Let's be honest. Let's not dance around this. Members within this body on the other side of the aisle—meaning the Democrats in this body—numbers of them have said they want a single-payer plan. What's that? Government takeover of health care. That's the ultimate goal, Mr. Speaker, to have the government take over health care.

What's the result? Health care will cost far more than it ever did in the past. It will be more expensive to individuals, more expensive to businesses, and it will provide less services. We know that. We know that's exactly what's going to happen despite the fact

that the President has said if you have health care, you will get to keep it. Wrong.

Then the President said each American would be able to save about \$2,500 a year. In other words, we'd see cost savings of about \$2,500 a year. There is no estimate anywhere that has ever verified that wild statement that the President made.

Then the final statement that the President has made over and over and over again, people making \$250,000 a year or less would not see any tax increases. Well, that's verifiably false. We know exactly that Americans will see tax increases.

But there's something that hasn't been talked about much, and it's the whole idea of school-based clinics in schools all across America. And that's in H.R. 3200.

Now, this would raise the hackles on the necks of school parents all across this country when they understand section 2511 of H.R. 3200. The House government takeover of health care bill has a section called school-based health clinics. It would allow a non-profit health agency—just say Planned Parenthood because that's what this is written for. Again, we need to be serious. Planned Parenthood is an organization that is the largest abortion provider in the United States. And written into this bill is a provision whereby Planned Parenthood could become the proprietor for school-based clinics in every school across the United States. These have been more accurately called school sex clinics.

One of the very first school sex clinics that was put into this country was in St. Paul, Minnesota. And it was told to the families and the parents that this would actually reduce pregnancy. Of course we knew it wouldn't reduce pregnancy. It increased pregnancy. It increased sexually transmitted diseases. It was a disaster for young women in St. Paul public schools.

The greatest, kindest, most compassionate gift we could give to our young people—whether it's young girls or young boys—is to teach them and tell them the travesty that they can encounter with early onset of sexual activity. It really is an epidemic now in this country.

For so many girls across this country now, 25 percent of girls have sexually transmitted diseases, potentially life-threatening sexually transmitted diseases. Boys as well.

This isn't the kind of country that we grew up in, but today where we have almost a patting on the back of telling young people, It's your choice; do whatever you want to do. Now the Federal Government is going the final step, and they're saying, Let's put sex clinics in our schools.

Can you believe this, Mr. Speaker? Let's put sex clinics in our schools, and let's put Planned Parenthood in charge

of these sex clinics, because the bill requires under this provision, Planned Parenthood would be authorized to serve as a sponsoring facility for the Nation's schools. As a matter of fact, the bulk of this health care bill is scheduled to go into effect in 2013. Remember, all the taxes will start this coming January, Mr. Speaker. Right away, at the time we can least afford it, the taxes will go into place, but the provisions of this bill actually go into effect in 2013.

Not the school-based sex clinics. They would go into effect next summer so that these clinics would appear in public schools next fall, and it would require that the school-based sex clinic would provide on-site access during the school day when school is in session and have an established network of support and access to services with back-up health providers when the school is closed. Can you imagine what this would cost, Mr. Speaker, if every school in the United States had a built-in health clinic? And this health clinic, parents won't have access to.

How do we know that? Parents are going to be excluded from Planned Parenthood as they write these clinics because the bill orders that these clinics protect patient privacy in student records.

□ 1845

What does that mean? It means that parents will never know what kind of counsel and treatment that their children are receiving. As a matter of fact, the bill goes on to say what's going to go on—comprehensive primary health services, physicals, treatment of minor acute medical conditions, referrals to followup for specialty care. Is that abortion?

Does that mean that someone's 13-year old daughter could walk into a sex clinic, have a pregnancy test done, be taken away to the local Planned Parenthood abortion clinic, have their abortion, be back, and go home on the school bus that night? Mom and dad are never the wiser. They don't know any different.

As a matter of fact, the bill also provides for mental health planning. This is very concerning. In our State in Minnesota we've done a lot of research on this. Mental health; mental health assessments; crisis intervention; counseling; treatment; referral to a continuum of services, including emergency psychiatric care, and mom and dad can't know what's going on?

Mr. Speaker, I am almost without words to think that we have come to the time when the Democrats that control Washington, D.C.—and, make no mistake, they control every level of power in this city. Now they want the taxpayers, if they haven't been beleaguered enough, to pay for sex clinics all across the United States.

Planned Parenthood, which takes in a billion dollars a year, \$300 million of

which is taxpayer subsidies—hey, that was just the prologue. This is the gravy train. Because now it would be billions and billions and billions on into the future.

What did the President say earlier this week or last week? He wants America's schools to have longer school days and longer school years. Where in the Constitution does it say that the President decides how long the school day is or how long the school year is? And now we're going to have the sex clinics in the schools and they're essentially going to take over the health care services of our kids?

I don't know about you, Representative KING, but this is highly offensive to me as a parent to think the audacity—the audacity of the President and of this Congress stepping into this area of privacy of family life.

Mr. KING of Iowa. Reclaiming my time, I just so appreciate the analysis that's been delivered, Mr. Speaker, by the gentlelady from Minnesota. I think about what this is like to be a parent and to deliver your child to a public education system that had this kind of a Federal mandate laid out.

I think back to the days when education was actually local. I often think about where I live. There's a country school just across the road from my house. I actually missed going to the country school by about 5 weeks because of the circumstances involved. And I regret I didn't have that experience. But I grew up around people that did—many of them.

At that time, it was about four miles by four miles, the school district, and the people that owned the land paid the taxes and they hired the teacher and they approved the curriculum. And they bought the coal and hauled it in and carried the ashes and clinkers out. And if they didn't like the job the teacher was doing, they fired her and hired a new one. And if they weren't happy with the curriculum, they changed it. That was local control. And it reflected the values—the moral, academic, and religious values of the people that were paying the taxes.

Today, we have a growing Federal reach that reaches way down into the heart of our educational system from K through 12 and wanting to get into preschool—and is, in some ways—and they want to go clear back to the womb and they want to inject themselves into the unborn children as well with Planned Parenthood, to set them up as somehow the protectors of young children, when they're the people that abort little babies.

We had a debate and a vote here on the floor of the House, and it was an amendment offered by Congressman PENCE of Indiana that would have unfunded Planned Parenthood. And that's what this Congress has an obligation to do. We've got to get there. We've got to get there eventually. No organization

that provides abortion services or counseling should have Federal taxpayer dollars involved.

\$300 million, as Mrs. BACHMANN has said, \$300 million out of a billion in receipts, fungible money, poured into, you might as well say, one pot of money and sets them up with clinics in our schools so the young girls can go in and out of there and be recruited in the hallways by an organization that's vested in what? Promiscuity. Promiscuity is what Planned Parenthood is invested in.

If you doubt that, Mr. Speaker, I would just submit this proposal. Pull promiscuity out of the equation and see what's left of Planned Parenthood? See what they call for services that are there. There's very little that's left. Without promiscuity, you don't have a birth control program and you don't have an abortion problem and you don't have all of this counseling that goes on with it either.

They are a destructive purpose in this society, and it is something that no taxpayer should be compelled to fund, whether it's in this country or whether it's overseas.

I yield to the gentlelady.

Mrs. BACHMANN. If the gentleman would yield, Planned Parenthood has a real problem on their hands—a big problem on their hands—almost on the level of ACORN and the problems that ACORN has had. It's simply this. There's a case that's been filed in California, and Planned Parenthood apparently, allegedly, has been overcharging the Federal Government tens of millions of dollars, because what is alleged is that Planned Parenthood has fraudulently marked up the birth control pills that they have been giving out to people.

So they have been giving out birth control pills free to people in California and charging the Federal Government for those pills. They aren't charging the going rate, allegedly, according to this complaint. They've overcharged the Federal Government.

Well, the President stood in this Chamber and said that he was planning to pay for this big health care extravaganza by getting rid of waste, fraud, and abuse in the health care system. Easily, Planned Parenthood can be considered a part of "the health care system." Why? The President considers abortion part of health care. He considers abortion, what he calls reproductive rights, which is a code word for abortion, he considers that essential health care. Well, by the President's own definition, Planned Parenthood is a part of his essential care.

And this is the payoff. This is the payoff to Planned Parenthood. They would be given free access to our kids all day long, and this is an organization that allegedly has overcharged the Federal Government tens of millions of dollars.

Here's another opportunity for the IRS; here's another opportunity for them to go after a 501(c)(3) organization. Again, they brought in a billion dollars last year. They received probably \$300 billion worth of benefits, meaning they didn't pay any taxes, but they received \$300 billion of taxpayer money. This is an organization that should be investigated by the IRS; very, very likely should lose its 501(c)(3) status, as should ACORN; and they should have all taxpayer subsidies pulled everywhere across the United States.

Mr. KING of Iowa. Reclaiming my time, I agree with the gentlelady from Minnesota. I regret that I didn't bring a similar sign for Planned Parenthood, but I did bring one for ACORN.

As we talk about 501(c)(3)s, not-for-profit organizations, ACORN might claim that they are filed as some kind of a not-for-profit organization. That was one of their reports. We see at least 45 of their affiliates that are filed as 501(c)(3)s, not-for-profit organizations. We see that ACORN's money flows into a central account, and then it's distributed from that central account out to the entities as ACORN needs them.

One big pot of money, one big cookie jar with a lot of Federal dollars involved, State dollars involved, donor dollars involved, tax avoidance dollars involved, and what is ACORN involved in? Other enterprises that are—I'll call them unethical and immoral, Mr. Speaker. And I will go down the list of some of the things that I recall that ACORN has been involved in.

By the way, the linkage with some of what's coming out of Planned Parenthood I think is useful. And I think that's a constructive linkage to make. This segue from Planned Parenthood to ACORN is one that is a natural segue.

Never was it envisioned by a limited government to be funding such huge, behemoth national and international organizations for the purposes of breaking down the core of our society and turning it into an immoral mass of people. They have attacked our institutions, and they have worked within our schools and the educational institutions and the institutions of government and the institutions also of the media.

Mrs. BACHMANN. If the gentleman would yield, just to add to that, Planned Parenthood was one of the organizations that gave money to ACORN for the purpose of voter registration before this last election. And it wasn't just Planned Parenthood. It was also the teachers' union.

We've seen videos coming out in these last 2 weeks of little schoolchildren, kindergarten schoolchildren, on videos, they're all across the Internet, where little children are being taught praise of the United States almost in a personality cult-like worship in video after video after video.

Again, this is concerning because we have a teachers' union—there's nothing wrong with unions—but we have a teachers' union that came out and gave money to ACORN for the purpose of voter ID.

It's interesting how you can link Planned Parenthood with ACORN, with the President. And there's a lot of questions that need to be answered.

Mr. KING of Iowa. I did happen to bring my poster of the President and ACORN to help add some clarity to this matter. As critical as the United States Senate, the United States House of Representatives, and the public has been of ACORN—and they deserve every bit of it and a lot more, Mr. Speaker—there hasn't been enough focus on the involvement of the President with ACORN.

His political start was with ACORN. That's by his own self-admission. He said, You've been here from the very beginning. I've been with you from the beginning. Some of the statements from the leader of ACORN ties that back in. I believe her first name is Madeleine, the last name is Talbot, the head organizer of ACORN in Chicago; she has said that she and Obama were working together in this cause from the beginning.

President Obama headed up Project Vote. Project Vote is indiscernible from ACORN. They are one in the same. And that's ACORN's position on it as well as any objective analysis that's taken place.

So he made his reputation with ACORN. ACORN was "Get Out the Vote for President Obama." He paid them to get out the vote even though they registered it as—let's see—as production and lighting.

Mrs. BACHMANN. Staging materials. That was a big problem for the President during, of course, the election because he had falsely listed on his FEC report that money that was given was for staging materials. That was very concerning. That was brought to the attention of the campaign. They changed that once they found out about that. But, again, this is over \$800,000 that was transferred from the Obama campaign to ACORN.

But you were correct when you went back in history, and actually the President back in 1991 took time off from his law firm to run a voter registration drive for Project Vote and an ACORN partner that was soon fully absorbed under the ACORN umbrella.

This is in a Wall Street Journal article written by John Fund: The drive registered 135,000 voters. It was considered a major factor in the upset victory of Democrat Carol Moseley Braun over incumbent Democrat Senator Alan Dixon in the 1992 Democrat Senate primary.

Congressman KING, I wonder if you can comment on this. This is something I don't understand. Why in the

world would ACORN have a tax-exempt status? Why in the world would ACORN be receiving taxpayer money when they worked consistently in election after election to elect one political party—the Democrat Party? Why are the taxpayers paying allegedly for the election of Democrats?

Mr. KING of Iowa. Clearly, according to law, they cannot be a 501(c)(3) not-for-profit organization if they advocate for candidates in a partisan fashion. One might argue that some of the activities were not partisan.

I will make this argument. This is a picture I took at ACORN's headquarters in New Orleans; 2609 Canal Street in New Orleans. This is the weekend before the Fourth of July. I stood across the street with a 300-millimeter lens.

Mrs. BACHMANN. Was this prior to the election?

Mr. KING of Iowa. It was this year. It was after the election in the fall of 2008. So this would be on or about July 1st or 2nd, 2009. I took this shot of the window. This is about the second floor of this most fortified building in the neighborhood in New Orleans, the ACORN headquarters, and in the window is this huge—we call them barn signs—this huge campaign poster: Obama for President '08. Easily it can be seen right here.

This no Photoshop, Mr. Speaker. I mean I'm here on the floor of the United States Congress. I took the picture personally.

Hanging over on this side is the ACORN banner that one can easily see. This is ACORN's headquarters. The doors are barred, the windows are barred, but you can see through the bars to see that they're still advertising for the election of 2008, and that is a violation of their not-for-profit status.

That picture itself, Mr. Speaker, should be enough to get the IRS to go in and do a complete forensic examination and audit of ACORN and all of their 361 identified and other unidentified affiliates if we're going to have any integrity in this country.

□ 1900

When you are a partisan organization and you are collecting donation dollars, Federal tax dollars and political subdivision grants that are coming in, and they are coming in to a series of affiliates, maybe as many as 361 different ones, you commingle that into accounts, and you deploy thousands of people across the country to register voters and you brag about it—an issue in a press release that ACORN did says that they registered 1.3 million new voters when, in fact, the number of actual legitimate voters was closer to 450,000.

Mrs. BACHMANN. If the gentleman will yield, in my home State of Minnesota, it was 41,000 voters who were

registered by ACORN. And of course we know year after year, election after election, State after State, the polls' rolls are flooded with false and fraudulent voter registrations, and there's a reason for that. If you have that many, it is very difficult for those who are in charge of the voter registration polls to be able to make accurate counts. Plus, once a person casts their vote—let's say you register the day before you cast your vote—that vote stands. That vote isn't thrown out. So there is method in the madness for ACORN.

Again, you take a look at tax money going in, tax-exempt status, and you see one political party being benefited. How is this allowed? I don't understand it. And what's amazing to me is there hasn't been one investigation yet, not from the Department of Justice. We haven't seen one from the Department of Housing. ACORN, after all, was the organization that was literally shaking down banks, shaking down mortgage companies. This was also at the behest—our President, again, was involved in ACORN during this time.

All of this agitating was going on for the purpose of relaxing lending standards, lowering lending standards. But for the work of ACORN lowering those lending standards, would we have had the disaster in housing that we have today? I mean, these are very serious questions. And nobody's investigating? Not the IRS, not the Department of Justice, not the Department of Housing. We've been hearing that the IRS will be investigating ACORN, but there have been no investigations.

As a matter of fact, as you and I stand here, has there even been a defunding of ACORN? There have been votes, but has one dime been cut off from that? That's why the American people know that something doesn't smell right now, and they have to continue to call their Member of Congress. They have to continue to call their Senator and demand a full and complete investigation.

Has an audit occurred? Does the gentleman know? Has any audit occurred? I believe the gentleman told me that there is something like 361 affiliate organizations under the ACORN umbrella. Has a full audit occurred?

Mr. KING of Iowa. If the gentlelady will yield, I will lay out the picture of this of the way I think it is in America with the ACORN investigation.

There have been investigations going on within some States for voter registration fraud primarily. Now, those States string up to—we used to have a total of 12, then 14, and now as many as 20 States over time. In only one case do we have an investigation of ACORN as an entity.

Mrs. BACHMANN. Do we have a Federal investigation? These are Federal dollars that are going in. Again, ACORN has received \$53 million from 1994 forward. But since the President of

the United States, Barack Obama, came in, a former employee under ACORN with Project Vote, he now has given access to this organization of \$8.5 billion, an unheard of amount of money. Certainly the taxpayer has the right to demand that investigation occur.

Yet when George Stephanopoulos did an interview with the President and asked him about ACORN, the President didn't seem to know. He didn't seem to know much about the votes we took in the House and the Senate. He didn't know much about ACORN. Maybe it's because he's working on going to Copenhagen to get the Olympics in Chicago. I don't know, but he certainly didn't seem to know much about ACORN.

Mr. KING of Iowa. Let me reclaim and capture the breadth of what is going on here in America, and then I will yield to the gentleman from Texas.

Mr. Speaker, it's this: In over a cumulative period of time from about 1990 until today, which is coming to be almost two decades, there have been a string of smaller investigations that took place within the States. As we speak, though, ACORN is under trial in Nevada for direct violations of Nevada's voter registration laws that prohibits paying commissions for registering voters.

So, for the first time, ACORN, as an entity, is on trial in a State. It looks like there is a very strong case on the part of the prosecution. There have also been as many as 70 convictions of ACORN employees, for election fraud, mostly.

There are new indictments in Florida, 11 individuals indicted that worked for ACORN; six were arrested, five were on the loose. I haven't heard if they collected them or not. Those are some of the things that are taking place.

But now this Congress fully understands, having voted twice in the United States Senate and once on the floor of the House to reject funding to ACORN, fully understand that ACORN is a corrupt, criminal enterprise, almost an economy unto itself that draws in money from many different sources, the fungibility of it poured into usually a central account and distributed out to the active entities of the 361 affiliates of ACORN to conduct partisan political exercises, shake down lenders.

Madeline Talbott has bragged about that, who is the mentor of President Obama as he went into ACORN and Chicago politics back in the early nineties, as the gentlelady from Minnesota said. So they have been involved in shaking down lenders and using the Community Reinvestment Act, which was written to prohibit lenders from drawing a red line around certain districts that they didn't want to loan money into.

And ACORN has been involved with red-lining themselves and shaking

down bankers to force them to loan money into their red-lined districts. They contributed significantly to the mortgage lending meltdown that we had. They have been corrupting the election process. They're promoting child prostitution. In five cities, we have them on videotape.

And by the way, \$1 million of embezzlement covered up for 8 years by Wade Rathke, whose brother was the embezzler in-house. And when the board rose up to make an issue of it, they fired the board of directors. This is a completely corrupt, criminal enterprise.

Mrs. BACHMANN. Let alone the charitable organizations, large, well-known charitable organizations that have put money into ACORN. It's time these charitable organizations and the trustees of those organizations be held responsible for putting money into the account of a corrupt organization.

Mr. KING of Iowa. And I'm advised that the Catholic Church has ceased their contributions into ACORN. I'm very happy about that. It's easier for me to put money in the collection plate on Sunday.

I would be happy to yield to the gentleman from Texas, who always has a unique and accurate viewpoint, my friend LOUIE GOHMERT.

Mr. GOHMERT. I appreciate my friend from Iowa and my friend Mrs. BACHMANN. I was able to listen to some of the argument that you've been providing and debate that's been put forth. I know you were discussing health care earlier and now ACORN. I would like to tie the two things together, actually, because I haven't heard a lot of people point this out.

Despite the President, during his joint session of Congress as an invited guest in this House, coming in and saying that we have not—those critics of the Democratic plan, he said we are not engaged in honest debate, that we were using scare tactics, that we have been using bogus claims, wild claims, demagoguery, distortion, acrimony, cynical and irresponsible, facts and reason are thrown overboard, that we're robbing the country of opportunity, killing the President's good bill. Then he actually used the "L" word and said something that was a lie, plain and simple. But it's hard for me to appreciate that because the only bill we had to go from was H.R. 3200.

And as my friends here have been doing, you take the bill—and this is just the first half of it—and you read from the bill. It's kind of hard to distort or not engage in honest debate when you are reading from the bill. But I would like to direct you to page 99, the subsection, Consumer Assistance with Choice.

Mrs. BACHMANN. What is the section number?

Mr. GOHMERT. It's on page 99 of the bill. This is section 205, entitled, Outreach and Enrollment of Exchange-Eligible

Individuals and Employers in Exchange-Participating Health Benefits Plan. That is on page 95. Well, we get over here to Consumer Assistance with Choice: To provide assistance, to exchange eligible individuals and employers, the commissioner shall—not "may," but "shall"—and it includes things like assist exchange-eligible individuals in selecting exchange-participating health benefits plans and obtaining benefits through such plans. So that's one of the things that the commissioner shall do.

You go down to subsection 3, two-thirds of the way down page 100, Use of Other Entities. In carrying out this subsection, the commissioner may work with other appropriate entities to facilitate the dissemination of information under this subsection and to provide assistance as described in paragraph 2, which included assisting exchange-eligible individuals in selecting exchange-participating health benefit plans and obtaining the benefits in those plans.

Well, if you recognize this language, this is the kind of language that has normally been used to hire ACORN to go out and do the work. This is what it says: You may work with other appropriate entities to facilitate the dissemination of information and to sign these people up to the Federal health plan.

So that is a potential source—like my friend Mrs. BACHMANN was pointing out—of not millions or hundreds of millions, but potentially billions of dollars for these people who obviously have been engaged in political efforts, but to go and evangelize the world, or at least this Nation, for the Democratic health care plan. That is there, and I don't see how you deny that is another source of revenue for ACORN.

Mr. KING of Iowa. Mr. GOHMERT, can you draw a distinction between this language that you read in H.R. 3200 in the health care bill and the language that would perhaps enable ACORN to be the ones that are counseling on, let me say, mortgage loans for houses of prostitution, or how to avoid taxes by underreporting income that might come in as cash by the work of a prostitute, or an ability to file a tax return that would qualify someone who underreports their income for their earned income tax credit, or the ability to claim child prostitutes as dependents? Do any of those things seem to also fit in this similar authorization language that allowed ACORN to do all those things that I listed that might also qualify them to be the loan counselor as well as now the health insurance counselor under this exchange that is here?

Mrs. BACHMANN. I would also add to the gentleman, if we look at the legislation that came before us, the very beginning of this year, it was the expansion of AmeriCorps. Remember, that

was a \$5 billion bill. Part of that bill were volunteers—of course they're all paid—but these volunteers were also going to be health workers. So it would be curious to look at that language as well to see if they also paid money to community organizations to be workers under AmeriCorps, kind of to also link together with this particular provision, and then work with an ACORN as these volunteers under AmeriCorps all for the effort of putting together this plan.

It really reminds me of the poster that the gentleman from Iowa has of the President with ACORN stitched onto his shirt with the windmills in the background. We're looking at a complete dominance and takeover of American society. Remember, it was just 1 year ago that we had the \$700 billion bailout. Prior to that bailout, 100 percent of business profits were private.

After that time, today, 30 percent of all private business profits today are owned or controlled by the Federal Government. And if the President gets his dream to come true and takes over 18 percent of health care, that means he will have taken over and controlled 48 percent of our private economy.

And if his national energy tax, the cap-and-trade global warming tax, goes through, that's another 8 percent, or 56 percent of our private economy that he plans to take over. That is something that should give pause to every American. It's stunning. It's stunning, and it's frightening.

Mr. KING of Iowa. I will pick up on that. This part that I think is not understood by the White House is that this economy that we have is not simply a giant chain letter that is generated by government borrowing and government spending. A chain letter is a Ponzi scheme, and underneath it there's not substance there.

We have an economy that's based upon our natural resources and adding value to our natural resources, and the intellectual basis that contributes to the value that we add to our natural resources, you have to produce things that have value. The most essential ones are the things that are necessities for life, and the services that build around that are the services that make it more efficient to produce the necessities for life.

The recreational spending is disposable income. All of this is real, and it's founded on production. But government, government has no ability to do that. Government obstructs production, and they add a weight on to the legitimate economy.

We have two sectors of the economy: the productive sector, which is the private producing sector I have described, and then in my less charitable moments I describe it as the parasitic sector, the sector of the economy that sucks the lifeblood out of the producers.

I yield to the gentleman from Texas.

□ 1915

Mr. GOHMERT. In answer to the gentleman's question about the language, having seen some of the videos of the propositions that were put literally to ACORN workers in different cities about bringing in illegal immigrants under-age for prostitution, I have to say that this language on page 100 would fit. They were assisting them in obtaining benefits, and "obtaining benefits" is the language in this bill, but just, unfortunately, we are assisting them in obtaining benefits for activity that was illegal and immoral.

I mean, to have under-age kids engaged in prostitution, the damage that that does to those young kids is just deplorable. But this is language that specifically would allow them to assist and to obtain benefits through these plans. So it fits right into their efforts.

Mrs. BACHMANN. I would ask the question of the gentleman from Iowa, didn't the President say to us at the very beginning of this debate in early August that we needed to pass this health care bill, or I guess I should say in July, that we had to pass this bill by August 1 so we could hurry up and start saving money? Do you remember that? We are going to save money if we have the government take over health care in the United States.

I'm wondering, to the gentleman from Texas and the gentleman from Iowa, how in the world does paying people ACORN, for instance, to do all of this assistance, how does that save money?

Mr. GOHMERT. Let me just say he also said, as the gentlewoman had mentioned, that his plan would save all this money and nearly pay for the whole plan by eliminating waste, fraud, and abuse; and yet we're not going to eliminate the waste, fraud, and abuse unless we pass his bill.

But, now, in the days of my being a judge, what we saw was if you knew that fraud was going on and you allowed it to continue and you had a duty or an obligation to do something about the fraud and you did nothing, you were an accomplice to that fraud. So it just staggers the imagination that somebody would know where the waste, fraud, and abuse is, know exactly the amount of waste, fraud, and abuse or potentially very close to the amount of waste, fraud, and abuse and we're not going to do anything until we pass his bill? That's a little tough to swallow.

Mr. KING of Iowa. And that is as if it's a bargain. And there are some better ways of saying that out there, and they don't come to me immediately, but if it has to be the bargain that we have to adopt a national health care act in order to get the waste, fraud, and abuse cleaned up, if the American people's demand that Congress clean up

corruption, waste, fraud, and abuse has to be held hostage to somebody's government medical plan, I think that tells you what's going on.

This operation has got to go. That is the ACORN logo. And this man has been part and parcel of it for nearly 20 years. And his political life, his public life cannot be separated from ACORN and from Project Vote and from the full continuum of history of his political life, including having been hired by ACORN, worked for ACORN, done so as a pro bono attorney for ACORN, been a trainer of ACORN's workers, having hired ACORN to get out the vote but it was misrepresented in his document and, additionally, having hired ACORN, move the Census to the White House from the Commerce Department, then back from the White House to the Commerce Department when the public outcry got so great, but left a link and a liaison so that they have oversight in the White House anyway. And twice now the Census Bureau has said, well, we're not going to use ACORN with our census workers.

I didn't believe them the first time. I don't know that I believe them the second time. But it's certain that they must have confessed they weren't telling the truth the first time or they wouldn't announce the second time that they were going to sever their relationship. The U.S. Treasury has now said that they don't want to use ACORN to counsel them for the tax services that are out there. The list goes on and on and on.

ACORN and all their affiliates are a pariah. This is their logo on the shirt of the President of the United States. He is part and parcel. And we've got to dig through this all the way. This United States Congress and four to six committees in the House and committees in the Senate have to launch complete investigations and hearings. The IRS has to do this. The Department of Justice has to do this. The American people demand it, and so do I, Mr. Speaker, and so do the speakers here on this floor.

I thank the gentlewoman from Minnesota and the gentleman from Texas for their contribution.

#### CONFERENCE REPORT ON H.R. 3183, ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

Mr. PASTOR of Arizona (during the Special Order of Mr. KING of Iowa) submitted the following conference report and statement on the bill (H.R. 3183) making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes:

CONFERENCE REPORT (H. REPT. 111-278)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R.

3183), making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

*That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes, namely:*

#### TITLE I

##### CORPS OF ENGINEERS—CIVIL DEPARTMENT OF THE ARMY CORPS OF ENGINEERS—CIVIL

*The following appropriations shall be expended under the direction of the Secretary of the Army and the supervision of the Chief of Engineers for authorized civil functions of the Department of the Army pertaining to rivers and harbors, flood and storm damage reduction, shore protection, aquatic ecosystem restoration, and related efforts.*

#### INVESTIGATIONS

*For expenses necessary where authorized by law for the collection and study of basic information pertaining to river and harbor, flood and storm damage reduction, shore protection, aquatic ecosystem restoration, and related needs; for surveys and detailed studies, and plans and specifications of proposed river and harbor, flood and storm damage reduction, shore protection, and aquatic ecosystem restoration projects and related efforts prior to construction; for restudy of authorized projects; and for miscellaneous investigations and, when authorized by law, surveys and detailed studies, and plans and specifications of projects prior to construction, \$160,000,000, to remain available until expended.*

#### CONSTRUCTION

##### (INCLUDING TRANSFER OF FUNDS)

*For expenses necessary for the construction of river and harbor, flood and storm damage reduction, shore protection, aquatic ecosystem restoration, and related projects authorized by law; for conducting detailed studies, and plans and specifications, of such projects (including those involving participation by States, local governments, or private groups) authorized or made eligible for selection by law (but such detailed studies, and plans and specifications, shall not constitute a commitment of the Government to construction); \$2,031,000,000, to remain available until expended; of which such sums as are necessary to cover the Federal share of construction costs for facilities under the Dredged Material Disposal Facilities program shall be derived from the Harbor Maintenance Trust Fund as authorized by Public Law 104-303; and of which such sums as are necessary to cover one-half of the costs of construction, replacement, rehabilitation, and expansion of inland waterways projects (including only Chickamauga Lock, Tennessee; Kentucky Lock and Dam, Tennessee River, Kentucky; Lock and Dams 2, 3, and 4 Monongahela River, Pennsylvania; Markland Locks and Dam, Kentucky and Indiana; Olmsted Lock and Dam, Illinois and Kentucky; and Emsworth Locks and Dam, Ohio River, Pennsylvania) shall be derived from the Inland Waterways Trust Fund: Provided, That \$1,500,000 of the funds appropriated under this*

heading in title I of division C of the Omnibus Appropriations Act, 2009 (Public Law 111-8; 123 Stat. 601-609) is transferred to the Investigations account and, in addition to funds appropriated by this Act, applied toward the cost of carrying out the Seven Oaks Water Conservation Study, California: Provided further, That the Chief of Engineers is directed to use \$12,594,000 of the funds appropriated herein for the Dallas Floodway Extension, Texas, project, including the Cadillac Heights feature, generally in accordance with the Chief of Engineers report dated December 7, 1999: Provided further, That the Chief of Engineers is directed to use \$1,417,000 of funds available for the Greenbrier Basin, Marlinton, West Virginia, Local Protection Project to continue engineering and design efforts, execute a project partnership agreement, and initiate construction of the project substantially in accordance with Alternative 1 as described in the Corps of Engineers Final Detailed Project Report and Environmental Impact Statement for Marlinton, West Virginia Local Protection Project dated September 2008: Provided further, That the Federal and non-Federal shares shall be determined in accordance with the ability-to-pay provisions prescribed in section 103(m) of the Water Resources Development Act of 1986, as amended: Provided further, That the Chief of Engineers is directed to use \$4,000,000 of the funds appropriated herein for planning, engineering, design or construction of the Grundy, Buchanan County, and Dickenson County, Virginia, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River Project: Provided further, That the Chief of Engineers is directed to use \$2,750,000 of the funds appropriated herein to continue planning, engineering, design or construction of the Lower Mingo County, Upper Mingo County, Wayne County, McDowell County, West Virginia, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River Project: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use \$9,500,000 of the funds appropriated herein for the Clover Fork, City of Cumberland, Town of Martin, Pike County (including Levisa Fork and Tug Fork Tributaries), Bell County, Harlan County in accordance with the Draft Detailed Project Report dated January 2002, Floyd County, Martin County, Johnson County, and Knox County, Kentucky, detailed project report, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River: Provided further, That not less than \$3,000,000 of the funds provided for the Levisa and Tug Forks in Kentucky shall be used for the project in the Town of Martin, Kentucky.

#### MISSISSIPPI RIVER AND TRIBUTARIES

For expenses necessary for flood damage reduction projects and related efforts in the Mississippi River alluvial valley below Cape Girardeau, Missouri, as authorized by law, \$340,000,000, to remain available until expended, of which such sums as are necessary to cover the Federal share of eligible operation and maintenance costs for inland harbors shall be derived from the Harbor Maintenance Trust Fund: Provided, That the Secretary of the Army, acting through the Chief of Engineers is directed to use \$9,661,000 appropriated herein for construction of water withdrawal features of the Grand Prairie, Arkansas, project.

#### OPERATION AND MAINTENANCE

For expenses necessary for the operation, maintenance, and care of existing river and harbor, flood and storm damage reduction, aquatic ecosystem restoration, and related projects authorized by law; providing security for infrastructure owned or operated by the Corps, including administrative buildings and labora-

tories; maintaining harbor channels provided by a State, municipality, or other public agency that serve essential navigation needs of general commerce, where authorized by law; surveying and charting northern and northwestern lakes and connecting waters; clearing and straightening channels; and removing obstructions to navigation, \$2,400,000,000, to remain available until expended, of which such sums as are necessary to cover the Federal share of eligible operation and maintenance costs for coastal harbors and channels, and for inland harbors shall be derived from the Harbor Maintenance Trust Fund; of which such sums as become available from the special account for the Corps established by the Land and Water Conservation Act of 1965 (16 U.S.C. 460l-6a(i)), shall be derived from that account for resource protection, research, interpretation, and maintenance activities related to resource protection in the areas at which outdoor recreation is available; and of which such sums as become available from fees collected under section 217 of the Water Resources Development Act of 1996 (Public Law 104-303) shall be used to cover the cost of operation and maintenance of the dredged material disposal facilities for which such fees have been collected: Provided, That 1 percent of the total amount of funds provided for each of the programs, projects or activities funded under this heading shall not be allocated to a field operating activity prior to the beginning of the fourth quarter of the fiscal year and shall be available for use by the Chief of Engineers to fund such emergency activities as the Chief of Engineers determines to be necessary and appropriate; and that the Chief of Engineers shall allocate during the fourth quarter any remaining funds which have not been used for emergency activities proportionally in accordance with the amounts provided for the programs, projects or activities.

#### REGULATORY PROGRAM

For expenses necessary for administration of laws pertaining to regulation of navigable waters and wetlands, \$190,000,000, to remain available until expended.

#### FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

For expenses necessary to clean up contamination from sites in the United States resulting from work performed as part of the Nation's early atomic energy program, \$134,000,000, to remain available until expended.

#### EXPENSES

For expenses necessary for the supervision and general administration of the civil works program in the headquarters of the United States Army Corps of Engineers and the offices of the Division Engineers; and for the management and operation of the Humphreys Engineer Center Support Activity, the Institute for Water Resources, the United States Army Engineer Research and Development Center, and the United States Army Corps of Engineers Finance Center, \$185,000,000, to remain available until expended, of which not to exceed \$5,000 may be used for official reception and representation purposes and only during the current fiscal year: Provided, That no part of any other appropriation provided in title I of this Act shall be available to fund the civil works activities of the Office of the Chief of Engineers or the civil works executive direction and management activities of the division offices: Provided further, That any Flood Control and Coastal Emergencies appropriation may be used to fund the supervision and general administration of emergency operations, repairs, and other activities in response to any flood, hurricane, or other natural disaster.

#### OFFICE OF ASSISTANT SECRETARY OF THE ARMY (CIVIL WORKS)

For the Office of Assistant Secretary of the Army (Civil Works) as authorized by 10 U.S.C. 3016(b)(3), \$5,000,000, to remain available until expended.

#### ADMINISTRATIVE PROVISION

The Revolving Fund, Corps of Engineers, shall be available during the current fiscal year for purchase (not to exceed 100 for replacement only) and hire of passenger motor vehicles for the civil works program.

#### GENERAL PROVISIONS, CORPS OF ENGINEERS—CIVIL

SEC. 101. (a) None of the funds provided in title I of this Act, or provided by previous appropriations Acts to the agencies or entities funded in title I of this Act that remain available for obligation or expenditure in fiscal year 2010, shall be available for obligation or expenditure through a reprogramming of funds that:

(1) creates or initiates a new program, project, or activity;

(2) eliminates a program, project, or activity;

(3) increases funds or personnel for any program, project, or activity for which funds have been denied or restricted by this Act, unless prior approval is received from the House and Senate Committees on Appropriations;

(4) proposes to use funds directed for a specific activity for a different purpose, unless prior approval is received from the House and Senate Committees on Appropriations;

(5) augments or reduces existing programs, projects or activities in excess of the amounts contained in subsections 6 through 10, unless prior approval is received from the House and Senate Committees on Appropriations;

(6) INVESTIGATIONS.—For a base level over \$100,000, reprogramming of 25 percent of the base amount up to a limit of \$150,000 per project, study or activity is allowed: Provided, That for a base level less than \$100,000, the reprogramming limit is \$25,000: Provided further, That up to \$25,000 may be reprogrammed into any continuing study or activity that did not receive an appropriation for existing obligations and concomitant administrative expenses;

(7) CONSTRUCTION.—For a base level over \$2,000,000, reprogramming of 15 percent of the base amount up to a limit of \$3,000,000 per project, study or activity is allowed: Provided, That for a base level less than \$2,000,000, the reprogramming limit is \$300,000: Provided further, That up to \$3,000,000 may be reprogrammed for settled contractor claims, changed conditions, or real estate deficiency judgments: Provided further, That up to \$300,000 may be reprogrammed into any continuing study or activity that did not receive an appropriation for existing obligations and concomitant administrative expenses;

(8) OPERATION AND MAINTENANCE.—Unlimited reprogramming authority is granted in order for the Corps to be able to respond to emergencies: Provided, That the Chief of Engineers must notify the House and Senate Committees on Appropriations of these emergency actions as soon thereafter as practicable: Provided further, That for a base level over \$1,000,000, reprogramming of 15 percent of the base amount a limit of \$5,000,000 per project, study or activity is allowed: Provided further, That for a base level less than \$1,000,000, the reprogramming limit is \$150,000: Provided further, That \$150,000 may be reprogrammed into any continuing study or activity that did not receive an appropriation;

(9) MISSISSIPPI RIVER AND TRIBUTARIES.—The same reprogramming guidelines for the Investigations, Construction, and Operation and Maintenance portions of the Mississippi River and Tributaries Account as listed above; and

(10) FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM.—Reprogramming of up to 15

percent of the base of the receiving project is permitted.

(b) **DIMINIMUS REPROGRAMMINGS.**—In no case should a reprogramming for less than \$50,000 be submitted to the House and Senate Committees on Appropriations.

(c) **CONTINUING AUTHORITIES PROGRAM.**—Subsection (a)(1) shall not apply to any project or activity funded under the continuing authorities program.

(d) Not later than 60 days after the date of enactment of this Act, the Corps of Engineers shall submit a report to the House and Senate Committees on Appropriations to establish the baseline for application of reprogramming and transfer authorities for the current fiscal year: Provided, That the report shall include:

(1) A table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level;

(2) A delineation in the table for each appropriation both by object class and program, project and activity as detailed in the budget appendix for the respective appropriations; and

(3) An identification of items of special congressional interest.

SEC. 102. None of the funds in this Act, or previous Acts, making funds available for Energy and Water Development, shall be used to implement any pending or future competitive sourcing actions under OMB Circular A-76 or High Performing Organizations for the U.S. Army Corps of Engineers.

SEC. 103. None of the funds made available in this title may be used to award or modify any contract that commits funds beyond the amounts appropriated for that program, project, or activity that remain unobligated, except that such amounts may include any funds that have been made available through reprogramming pursuant to section 101.

SEC. 104. None of the funds in this Act, or previous Acts making funds available for Energy and Water Development, shall be used to award any continuing contract that commits additional funding from the Inland Waterways Trust Fund unless or until such time that a long-term mechanism to enhance revenues in the Fund sufficient to meet the cost-sharing authorized in the Water Resources Development Act of 1986 (Public Law 99-662) is enacted.

SEC. 105. The project for navigation, Two Harbors, Minnesota, being carried out under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577), and modified by section 3101 of the Water Resources Development Act of 2007 (121 Stat. 1133), is further modified to direct the Secretary to credit, in accordance with section 221 of the Flood Control Act of 1970 (42 U.S.C. 1962d-5b), toward the non-Federal share of the project the cost of planning, design, and construction work carried out by the non-Federal interest for the project before the date of execution of a partnership agreement for the project.

SEC. 106. Section 154(h) of title I of division B of the Miscellaneous Appropriations Act, 2001 (114 Stat. 2763A-254) (as enacted into law by Public Law 106-554) is amended by striking "\$40,000,000" and inserting "\$60,000,000".

SEC. 107. The Secretary is directed to use such funds as are necessary, from amounts made available in this Act under the heading "Construction", to expedite acquisition of those properties located in the vicinity of Martin, Kentucky, that were damaged by the floodwaters in the May 2009 flood event and that fall within Phases 3 and 4 of the mandatory and voluntary acquisition elements identified in Plan A of the Chief of Engineers, Town of Martin Non-structural Project Detailed Project Report, Appendix T, Section 202 General Plan, dated March 2000.

SEC. 108. Within 90 days of the date of the Chief of Engineers Report on a water resource matter, the Assistant Secretary of the Army (Civil Works) shall submit the report to the appropriate authorizing and appropriating committees of the Congress.

SEC. 109. (a) **IN GENERAL.**—Subject to subsection (b), none of the funds made available by this Act may be used to carry out any water reallocation project or component under the Wolf Creek Project, Lake Cumberland, Kentucky, authorized under the Act of June 28, 1938 (52 Stat. 1215, ch. 795) and the Act of July 24, 1946 (60 Stat. 636, ch. 595).

(b) **EXISTING REALLOCATIONS.**—Subsection (a) shall not apply to any water reallocation for Lake Cumberland, Kentucky, that is carried out subject to an agreement or payment schedule in effect on the date of enactment of this Act.

SEC. 110. Section 592(g) of Public Law 106-53 (113 Stat. 380), as amended by section 120 of Public Law 108-137 (117 Stat. 1837) and section 5097 of Public Law 110-114 (121 Stat. 1233), is further amended by striking "\$110,000,000" and inserting "\$200,000,000" in lieu thereof.

SEC. 111. The project for flood control, Big Sioux River and Skunk Creek, Sioux Falls, South Dakota authorized by section 101(a)(28) of the Water Resources Development Act of 1996 (Public Law 104-303; 110 Stat. 3666), is modified to authorize the Secretary to construct the project at an estimated total cost of \$53,500,000, with an estimated Federal cost of \$37,700,000 and an estimated non-Federal cost of \$15,800,000.

SEC. 112. Section 595(h) of Public Law 106-53 (113 Stat. 384), as amended by section 5067 of Public Law 110-114 (121 Stat. 1219), is further amended by—

(1) striking the phrase "\$25,000,000 for each of Montana and New Mexico" and inserting the following language in lieu thereof: "\$75,000,000 for Montana, \$25,000,000 for New Mexico"; and

(2) striking "\$50,000,000" and inserting "\$100,000,000" in lieu thereof.

SEC. 113. The project for flood damage reduction, Des Moines and Raccoon Rivers, Des Moines Iowa, authorized by section 1001(21) of the Water Resources Development Act of 2007 (121 Stat. 1053), is modified to authorize the Secretary to construct the project at a total cost of \$16,500,000 with an estimated Federal cost of \$10,725,000 and an estimated non-Federal cost of \$5,775,000.

SEC. 114. The project for flood damage reduction, Breckenridge, Minnesota, authorized by section 320 of the Water Resources Development Act of 2000 (Public Law 106-541; 114 Stat. 2605), is modified to authorize the Secretary to construct the project at a total cost of \$39,360,000 with an estimated Federal cost of \$25,000,000 and an estimated non-Federal cost of \$14,360,000.

SEC. 115. Section 122 of title I of division D of the Consolidated Appropriations Resolution, 2003 (Public Law 108-7; 117 Stat. 141) is amended by striking "\$10,000,000" and inserting "\$27,000,000" in lieu thereof.

SEC. 116. The Secretary of the Army is authorized to carry out structural and non-structural projects for storm damage prevention and reduction, coastal erosion, and ice and glacial damage in Alaska, including relocation of affected communities and construction of replacement facilities: Provided, That the non-Federal share of any project carried out pursuant to this section shall be no more than 35 percent of the total cost of the project and shall be subject to the ability of the non-Federal interest to pay, as determined in accordance with 33 U.S.C. 2213(m).

SEC. 117. Section 3111(1) of the Water Resources Development Act, 2007 (Public Law 110-114; 121 Stat. 1041) is amended by inserting after

the word "before", the following: ", on and after".

SEC. 118. The flood control project for West Sacramento, California, authorized by section 101(4), Water Resources Development Act, 1992, Public Law 102-580; Energy and Water Development Appropriations Act, 1999, Public Law 105-245, is modified to authorize the Secretary of Army, acting through the Chief of Engineers, to construct the project at a total cost of \$53,040,000 with an estimated first Federal cost of \$38,355,000 and an estimated non-Federal first cost of \$14,685,000.

SEC. 119. Section 528(b)(3)(C)(ii) of the Water Resources Development Act of 1996 (110 Stat. 3769; 121 Stat. 1270) is amended—

(1) in subclause (I), by striking "subclause (II)" and inserting "subclauses (II) and (III)"; and

(2) by adding at the end the following:

"(III) **TEN MILE CREEK WATER PRESERVE AREA.**—The Federal share of the cost of the Ten Mile Creek Water Preserve Area may exceed \$25,000,000 by an amount equal to not more than \$3,500,000, which shall be used to pay the Federal share of the cost of—

"(aa) the completion of a post authorization change report; and

"(bb) the maintenance of the Ten Mile Creek Water Preserve Area in caretaker status through fiscal year 2013."

SEC. 120. As soon as practicable after the date of enactment of this Act, from funds made available before the date of enactment of this Act for the Tampa Harbor Big Bend Channel project, the Secretary of the Army shall reimburse the non-Federal sponsor of the Tampa Harbor Big Bend Channel project for the Federal share of the dredging work carried out for the project.

SEC. 121. Notwithstanding any other provision of law, including section 103(c)(4) of Public Law 99-662 (33 U.S.C. 2213(c)(4)), the cost of any work carried out heretofore or hereafter on construction of the trail system authorized for the J. Percy Priest Dam and Reservoir, Tennessee by section 5132 of Public Law 110-114 (121 Stat. 1249) shall be a Federal cost, the total of which may not exceed \$10,300,000.

SEC. 122. Section 3112(1) of the Water Resources Development Act, 2007 (Public Law 110-114; 121 Stat. 1041) is amended by inserting after the word "before", the following: ", on and after".

SEC. 123. Section 805(a)(2) of Public Law 106-541 (114 Stat. 2704) is amended by striking "2010" each place it appears and inserting "2013".

SEC. 124. The Secretary of the Army is authorized to carry out the project for storm damage reduction, Kahuku, Oahu, Hawaii, at a total cost of \$6,700,000, with an estimated Federal cost of \$4,360,000 and an estimated non-Federal cost of \$2,340,000.

SEC. 125. The Secretary of the Army is authorized to acquire 24 parcels of land consisting of approximately 235 acres located within Township 21 South, Range 28 East, Sections 25, 26, 27, 34, 35 and 36, and township 22 south, Range 28 East, Section 3 in Tulare County, for the Dam Safety Seismic Remediation project at Success Dam on the Tule River in the State of California, authorized by section 10 of the Flood Control Act of December 22, 1944 (58 Stat. 901); Provided, That the lands shall be available for use in connection with any activity carried out at the Success Dam Reservoir.

SEC. 126. during the 1-year period beginning on the date of enactment of this Act, the Secretary of the Army shall implement measures recommended in the efficacy study, or provided in interim reports, authorized under section 3061 of the Water Resources Development Act of 2007 (121 Stat. 1121), with such modifications or emergency measures as the Secretary of the

Army determines to be appropriate, to prevent aquatic nuisance species from bypassing the Chicago Sanitary and Ship Canal Dispersal Barrier Project referred to in that section and to prevent aquatic nuisance species from dispersing into the Great Lakes.

## TITLE II

### DEPARTMENT OF THE INTERIOR

#### CENTRAL UTAH PROJECT

##### CENTRAL UTAH PROJECT COMPLETION ACCOUNT

For carrying out activities authorized by the Central Utah Project Completion Act, \$40,300,000, to remain available until expended, of which \$1,500,000 shall be deposited into the Utah Reclamation Mitigation and Conservation Account for use by the Utah Reclamation Mitigation and Conservation Commission. In addition, for necessary expenses incurred in carrying out related responsibilities of the Secretary of the Interior, \$1,704,000, to remain available until expended. For fiscal year 2010, the Commission may use an amount not to exceed \$1,500,000 for administrative expenses.

##### BUREAU OF RECLAMATION

The following appropriations shall be expended to execute authorized functions of the Bureau of Reclamation:

##### WATER AND RELATED RESOURCES

###### (INCLUDING TRANSFERS OF FUNDS)

For management, development, and restoration of water and related natural resources and for related activities, including the operation, maintenance, and rehabilitation of reclamation and other facilities, participation in fulfilling related Federal responsibilities to Native Americans, and related grants to, and cooperative and other agreements with, State and local governments, federally recognized Indian tribes, and others, \$951,158,000, to remain available until expended, of which \$48,740,000 shall be available for transfer to the Upper Colorado River Basin Fund and \$17,256,000 shall be available for transfer to the Lower Colorado River Basin Development Fund; of which such amounts as may be necessary may be advanced to the Colorado River Dam Fund; of which not more than \$500,000 is for high priority projects which shall be carried out by the Youth Conservation Corps, as authorized by 16 U.S.C. 1706: Provided, That such transfers may be increased or decreased within the overall appropriation under this heading: Provided further, That of the total appropriated, the amount for program activities that can be financed by the Reclamation Fund or the Bureau of Reclamation special fee account established by 16 U.S.C. 4601-6a(i) shall be derived from that Fund or account: Provided further, That funds contributed under 43 U.S.C. 395 are available until expended for the purposes for which contributed: Provided further, That funds advanced under 43 U.S.C. 397a shall be credited to this account and are available until expended for the same purposes as the sums appropriated under this heading: Provided further, That \$4,000,000 of the funds appropriated under this heading shall be deposited in the San Gabriel Basin Restoration Fund established by section 110 of title I of appendix D of Public Law 106-554: Provided further, That \$3,500,000 of the funds appropriated under this heading shall be available for the "Power Program Services" to implement the Bureau of Reclamation's hydropower facilities installations identified under section 1834 of the Energy Policy Act of 2005: Provided further, That the funds provided herein for the St. Mary Storage Unit facilities, Milk River Project, Montana, shall be used on a nonreimbursable basis: Provided further, That funds available for expenditure for the Departmental Irrigation Drainage Program may be expended by the Bureau of Reclamation for site remediation on a nonreimbursable basis.

##### CENTRAL VALLEY PROJECT RESTORATION FUND

For carrying out the programs, projects, plans, habitat restoration, improvement, and acquisition provisions of the Central Valley Project Improvement Act, \$35,358,000, to be derived from such sums as may be collected in the Central Valley Project Restoration Fund pursuant to sections 3407(d), 3404(c)(3), and 3405(f) of Public Law 102-575, to remain available until expended: Provided, That the Bureau of Reclamation is directed to assess and collect the full amount of the additional mitigation and restoration payments authorized by section 3407(d) of Public Law 102-575: Provided further, That none of the funds made available under this heading may be used for the acquisition or leasing of water for in-stream purposes if the water is already committed to in-stream purposes by a court adopted decree or order.

##### CALIFORNIA BAY-DELTA RESTORATION

###### (INCLUDING TRANSFERS OF FUNDS)

For carrying out activities authorized by the Water Supply, Reliability, and Environmental Improvement Act, consistent with plans to be approved by the Secretary of the Interior, \$40,000,000, to remain available until expended, of which such amounts as may be necessary to carry out such activities may be transferred to appropriate accounts of other participating Federal agencies to carry out authorized purposes: Provided, That funds appropriated herein may be used for the Federal share of the costs of CALFED Program management: Provided further, That the use of any funds provided to the California Bay-Delta Authority for program-wide management and oversight activities shall be subject to the approval of the Secretary of the Interior: Provided further, That CALFED implementation shall be carried out in a balanced manner with clear performance measures demonstrating concurrent progress in achieving the goals and objectives of the Program.

##### POLICY AND ADMINISTRATION

For necessary expenses of policy, administration, and related functions in the Office of the Commissioner, the Denver office, and offices in the five regions of the Bureau of Reclamation, to remain available until expended, \$61,200,000, to be derived from the Reclamation Fund and be nonreimbursable as provided in 43 U.S.C. 377: Provided, That no part of any other appropriation in this Act shall be available for activities or functions budgeted as policy and administration expenses.

##### ADMINISTRATIVE PROVISION

Appropriations for the Bureau of Reclamation shall be available for purchase of not to exceed seven passenger motor vehicles, which are for replacement only.

##### GENERAL PROVISIONS—DEPARTMENT OF THE INTERIOR

SEC. 201. (a) None of the funds provided in title II of this Act for Water and Related Resources, or provided by previous appropriations Acts to the agencies or entities funded in title II of this Act for Water and Related Resources that remain available for obligation or expenditure in fiscal year 2010, shall be available for obligation or expenditure through a reprogramming of funds that—

(1) initiates or creates a new program, project, or activity;

(2) eliminates a program, project, or activity;

(3) increases funds for any program, project, or activity for which funds have been denied or restricted by this Act, unless prior approval is received from the Committees on Appropriations of the House of Representatives and the Senate;

(4) restarts or resumes any program, project or activity for which funds are not provided in this Act, unless prior approval is received from the Committees on Appropriations of the House of Representatives and the Senate;

(5) transfers funds in excess of the following limits, unless prior approval is received from the Committees on Appropriations of the House of Representatives and the Senate:

(A) 15 percent for any program, project or activity for which \$2,000,000 or more is available at the beginning of the fiscal year; or

(B) \$300,000 for any program, project or activity for which less than \$2,000,000 is available at the beginning of the fiscal year;

(6) transfers more than \$500,000 from either the Facilities Operation, Maintenance, and Rehabilitation category or the Resources Management and Development category to any program, project, or activity in the other category, unless prior approval is received from the Committees on Appropriations of the House of Representatives and the Senate; or

(7) transfers, where necessary to discharge legal obligations of the Bureau of Reclamation, more than \$5,000,000 to provide adequate funds for settled contractor claims, increased contractor earnings due to accelerated rates of operations, and real estate deficiency judgments, unless prior approval is received from the Committees on Appropriations of the House of Representatives and the Senate.

(b) Subsection (a)(5) shall not apply to any transfer of funds within the Facilities Operation, Maintenance, and Rehabilitation category.

(c) For purposes of this section, the term "transfer" means any movement of funds into or out of a program, project, or activity.

(d) The Bureau of Reclamation shall submit reports on a quarterly basis to the Committees on Appropriations of the House of Representatives and the Senate detailing all the funds reprogrammed between programs, projects, activities, or categories of funding. The first quarterly report shall be submitted not later than 60 days after the date of enactment of this Act.

SEC. 202. (a) None of the funds appropriated or otherwise made available by this Act may be used to determine the final point of discharge for the interceptor drain for the San Luis Unit until development by the Secretary of the Interior and the State of California of a plan, which shall conform to the water quality standards of the State of California as approved by the Administrator of the Environmental Protection Agency, to minimize any detrimental effect of the San Luis drainage waters.

(b) The costs of the Kesterson Reservoir Cleanup Program and the costs of the San Joaquin Valley Drainage Program shall be classified by the Secretary of the Interior as reimbursable or nonreimbursable and collected until fully repaid pursuant to the "Cleanup Program-Alternative Repayment Plan" and the "SJVDP-Alternative Repayment Plan" described in the report entitled "Repayment Report, Kesterson Reservoir Cleanup Program and San Joaquin Valley Drainage Program, February 1995", prepared by the Department of the Interior, Bureau of Reclamation. Any future obligations of funds by the United States relating to, or providing for, drainage service or drainage studies for the San Luis Unit shall be fully reimbursable by San Luis Unit beneficiaries of such service or studies pursuant to Federal reclamation law.

SEC. 203. None of the funds appropriated or otherwise made available by this or any other Act may be used to pay the salaries and expenses of personnel to purchase or lease water in the Middle Rio Grande or the Carlsbad Projects in New Mexico unless said purchase or lease is in compliance with the purchase requirements of section 202 of Public Law 106-60.

SEC. 204. Funds under this title for Drought Emergency Assistance shall be made available primarily for leasing of water for specified drought related purposes from willing lessors, in compliance with existing State laws and administered under State water priority allocation.

SEC. 205. Section 9 of the Fort Peck Reservation Rural Water System Act of 2000 (Public Law 106–382; 114 Stat. 1457) is amended by striking “over a period of 10 fiscal years” each place it appears in subsections (a)(1) and (b) and inserting “through fiscal year 2015”.

SEC. 206. Section 208(a) of the Energy and Water Development Appropriations Act, 2006 (Public Law 109–103; 119 Stat. 2268), is amended—

(1) in paragraph (1)—

(A) by redesignating clauses (i) through (iv) of subparagraph (B) as subclauses (I) through (IV), respectively, and indenting the subclauses appropriately;

(B) by redesignating subparagraphs (A) and (B) as clauses (i) and (ii), respectively, and indenting the clauses appropriately;

(C) by striking “(a)(1) Using” and inserting the following:

“(a) ACTION BY SECRETARY.—

“(1) PROVISION OF FUNDS.—

“(A) IN GENERAL.—Using”;

(D) in subparagraph (A) (as so redesignated)—

(i) in the matter preceding clause (i) (as so redesignated), by inserting “or the National Fish and Wildlife Foundation” after “University of Nevada”;

(ii) in clause (ii)(IV) (as so redesignated), by striking the period at the end and inserting “; and”;

(iii) by adding at the end the following:

“(iii) to design and implement conservation and stewardship measures to address impacts from activities carried out—

“(I) under clause (i); and

“(II) in conjunction with willing landowners.”; and

(E) by adding at the end the following:

“(B) NATIONAL FISH AND WILDLIFE FOUNDATION.—

“(i) DATE OF PROVISION.—The Secretary shall provide funds to the National Fish and Wildlife Foundation pursuant to subparagraph (A) in an advance payment of the available amount—

“(I) on the date of enactment of the Energy and Water Development and Related Agencies Appropriations Act, 2010; or

“(II) as soon as practicable after that date of enactment.

“(ii) REQUIREMENTS.—

“(I) IN GENERAL.—Except as provided in subclause (II), the funds provided under clause (i) shall be subject to the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3701 et seq.), in accordance with section 10(b)(1) of that Act (16 U.S.C. 3709(b)(1)).

“(II) EXCEPTIONS.—Sections 4(e) and 10(b)(2) of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3703(e), 3709(b)(2)), and the provision of subsection (c)(2) of section 4 of that Act (16 U.S.C. 3703) relating to subsection (e) of that section, shall not apply to the funds provided under clause (i).”; and

(2) in paragraph (2)—

(A) in the matter preceding subparagraph (A), by striking “paragraph (1)(A)” and all that follows through “beneficial to—” and inserting “paragraph (1)(A)(i), the University of Nevada or the National Fish and Wildlife Foundation shall make acquisitions that the University or the Foundation determines to be the most beneficial to—”; and

(B) in subparagraph (A), by striking “paragraph (1)(B)” and inserting “paragraph (1)(A)(ii)”.

SEC. 207. Section 2507(b) of the Farm Security and Rural Investment Act of 2002 (43 U.S.C. 2211 note; Public Law 107–171) is amended—

(1) in paragraph (1), by striking “or” at the end;

(2) in paragraph (2), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following:

“(3) for efforts consistent with researching, supporting, and conserving fish, wildlife, plant, and habitat resources in the Walker River Basin.”.

SEC. 208. (a) Of the amounts made available under section 2507 of the Farm Security and Rural Investment Act of 2002 (43 U.S.C. 2211 note; Public Law 107–171), the Secretary of the Interior, acting through the Commissioner of Reclamation, shall—

(1) provide, subject to subsection (b), \$66,200,000 to establish the Walker Basin Restoration Program for the primary purpose of restoring and maintaining Walker Lake, a natural desert terminal lake in the State of Nevada, consistent with protection of the ecological health of the Walker River and the riparian and watershed resources of the West, East, and Main Walker Rivers; and

(2) allocate—

(A) acting through a nonprofit conservation organization that is acting in consultation with the Truckee Meadows Water Authority, \$2,000,000, to remain available until expended, for—

(i) the acquisition of land surrounding Independence Lake; and

(ii) protection of the native fishery and water quality of Independence Lake, as determined by the nonprofit conservation organization;

(B) \$5,000,000 to provide grants of equal amounts to the State of Nevada, the State of California, the Truckee Meadows Water Authority, the Pyramid Lake Paiute Tribe, and the Federal Watermaster of the Truckee River to implement the Truckee-Carson-Pyramid Lake Water Rights Settlement Act (Public Law 101–618; 104 Stat. 3294);

(C) \$1,500,000, to be divided equally by the city of Fernley, Nevada, and the Pyramid Lake Paiute Tribe, for joint planning and development activities for water, wastewater, and sewer facilities;

(D) \$1,000,000 to the United States Geological Survey to design and implement, in consultation and cooperation with other Federal departments and agencies, State and tribal governments, and other water management and conservation organizations, a water monitoring program for the Walker River Basin; and

(E) \$45,000,000 to implement the 1996 Truckee River Water Quality Settlement Agreement by acquiring water rights for the benefit of the Truckee River and Pyramid Lake.

(b)(1) The amount made available under subsection (a)(1) shall be—

(A) used, consistent with the primary purpose set forth in subsection (a)(1), to support efforts to preserve Walker Lake while protecting agricultural, environmental, and habitat interests in the Walker River Basin; and

(B) allocated as follows:

(i) \$25,000,000 to the Walker River Irrigation District, acting in accordance with an agreement between that District and the National Fish and Wildlife Foundation—

(I) to administer and manage a 3-year water leasing demonstration program in the Walker River Basin to increase Walker Lake inflows; and

(II) for use in obtaining information regarding the establishment, budget, and scope of a longer-term leasing program.

(ii) \$25,000,000 to advance the acquisition of water and related interests from willing sellers authorized by section 208(a)(1)(A)(i) of the Energy and Water Development Appropriations Act, 2006 (Public Law 109–103; 119 Stat. 2268).

(iii) \$1,000,000 for activities relating to the exercise of acquired option agreements and implementation of the water leasing demonstration program, including but not limited to the pursuit of change applications, approvals, and

agreements pertaining to the exercise of water rights and leases acquired under the program.

(iv) \$10,000,000 for associated conservation and stewardship activities, including water conservation and management, watershed planning, land stewardship, habitat restoration, and the establishment of a local, nonprofit entity to hold and exercise water rights acquired by, and to achieve the purposes of, the Walker Basin Restoration Program.

(v) \$5,000,000 to the University of Nevada, Reno, and the Desert Research Institute—

(I) for additional research to supplement the water rights research conducted under section 208(a)(1)(A)(ii) of the Energy and Water Development Appropriations Act, 2006 (Public Law 109–103; 119 Stat. 2268);

(II) to conduct an annual evaluation of the results of the activities carried out under clauses (i) and (ii); and

(III) to support and provide information to the programs described in this subparagraph and related acquisition and stewardship initiatives to preserve Walker Lake and protect agricultural, environmental, and habitat interests in the Walker River Basin.

(vi) \$200,000 to support alternative crops and alternative agricultural cooperatives programs in Lyon and Mineral Counties, Nevada, that promote water conservation in the Walker River Basin.

(2)(A) The amount made available under subsection (a)(1) shall be provided to the National Fish and Wildlife Foundation—

(i) in an advance payment of the entire amount—

(I) on the date of enactment of this Act; or

(II) as soon as practicable after that date of enactment; and

(ii) except as provided in subparagraph (B), subject to the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3701 et seq.), in accordance with section 10(b)(1) of that Act (16 U.S.C. 3709(b)(1)).

(B) Sections 4(e) and 10(b)(2) of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3703(e), 3709(b)(2)), and the provision of subsection (c)(2) of section 4 of that Act (16 U.S.C. 3703) relating to subsection (e) of that section, shall not apply to the amount made available under subsection (a)(1).

SEC. 209. Notwithstanding the provisions of section 11(c) of Public Law 89–108, as amended by section 9 of Public Law 99–294, the Commissioner is directed to modify the April 9, 2002, Grant Agreement Between Bureau of Reclamation and North Dakota Natural Resources Trust to provide funding for the Trust to continue its investment program/Agreement No. 02FG601633 to authorize the North Dakota Natural Resources Trust Board of Directors to expend all or any portion of the funding allocation received pursuant to section 11(a)(2)(B) of the Dakota Water Resources Act of 2000 for the purpose of operations of the Natural Resource Trust whether such amounts are principal or received as investment income: Provided, That operational expenses that may be funded from the principal allocation shall not exceed 105 percent of the previous fiscal year's operating costs: Provided further, That the Commissioner of Reclamation is authorized to include in such modified agreement with the Trust authorized under this section appropriate provisions regarding the repayment of any funds that constitute principal from the Trust Funds.

SEC. 210. Title 1 of Public Law 108–361 is amended by striking “2010” wherever it appears and inserting “2014” in lieu thereof.

SEC. 211. (a) Section 3405(a)(1)(M) of Public Law 102–575 (106 Stat. 4709) is amended by striking “countries” and inserting “counties”.

(b) A transfer of water between a Friant Diversion contractor and a south-of-Delta CVP agricultural water service contractor, approved during a two-year period beginning on the date of

enactment of this Act shall, be deemed to meet the conditions set forth in subparagraphs (A) and (I) of section 3405(a)(1) of Public Law 102-575 (106 Stat. 4709) if the transfer under this clause—

(1) does not interfere with the San Joaquin River Restoration Settlement Act (part I of subtitle A of title X of Public Law 111-11; 123 Stat. 1349) (including the priorities described in section 10004(a)(4)(B) of that Act relating to implementation of paragraph 16 of the Settlement), and the Settlement (as defined in section 10003 of that Act); and

(2) is completed by September 30, 2012.

(c) As soon as practicable after the date of enactment of this Act, the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service, shall revise, finalize, and implement the applicable draft recovery plan for the Giant Garter Snake (*Thamnophis gigas*).

### TITLE III DEPARTMENT OF ENERGY ENERGY PROGRAMS

#### ENERGY EFFICIENCY AND RENEWABLE ENERGY

For Department of Energy expenses including the purchase, construction, and acquisition of plant and capital equipment, and other expenses necessary for energy efficiency and renewable energy activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion, \$2,242,500,000, to remain available until expended: Provided, That funds provided under this heading in this and prior appropriation Acts are available for on-site and off-site improvements for the Ingress/Egress and Traffic Capacity Upgrades project at the National Renewable Energy Laboratory: Provided further, That, of the \$80,000,000 provided under the wind energy subaccount under Energy Efficiency and Renewable Energy, up to \$8,000,000 may be competitively awarded to universities for turbine and equipment purchases for the purposes of studying turbine to turbine wake interaction, wind farm interaction, and wind energy efficiencies, provided that such equipment shall not be used for merchant power production: Provided further, That, of the amount appropriated in this paragraph, \$292,135,000 shall be used for the projects specified in the table that appears under the heading "Congressionally Directed Energy Efficiency and Renewable Energy Projects" in the joint explanatory statement accompanying the conference report on this Act.

#### ELECTRICITY DELIVERY AND ENERGY RELIABILITY

For Department of Energy expenses including the purchase, construction, and acquisition of plant and capital equipment, and other expenses necessary for electricity delivery and energy reliability activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion, \$171,982,000, to remain available until expended: Provided, That, within the funding available funding the Secretary shall establish an independent national energy sector cyber security organization to institute research, development and deployment priorities, including policies and protocol to ensure the effective deployment of tested and validated technology and software controls to protect the bulk power electric grid and integration of smart grid technology to enhance the security of the electricity grid: Provided further, That within 60 days of enactment, the Secretary shall invite applications from qualified entities

for the purpose of forming and governing a national energy sector cyber organization that have the knowledge and capacity to focus cyber security research and development and to identify and disseminate best practices; organize the collection, analysis and dissemination of infrastructure vulnerabilities and threats; work cooperatively with the Department of Energy and other Federal agencies to identify areas where Federal agencies with jurisdiction may best support efforts to enhance security of the bulk power electric grid: Provided further, That, of the amount appropriated in this paragraph, \$13,075,000 shall be used for projects specified in the table that appears under the heading "Congressionally Directed Electricity Delivery and Energy Reliability Projects" in the joint explanatory statement accompanying the conference report on this Act.

#### NUCLEAR ENERGY

For Department of Energy expenses including the purchase, construction, and acquisition of plant and capital equipment, and other expenses necessary for nuclear energy activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion, and the purchase of not more than 36 passenger motor vehicles, including one ambulance, all for replacement only, \$786,637,000, to remain available until expended: Provided, That, of the amount appropriated in this paragraph, \$2,500,000 shall be used for projects specified in the table that appears under the heading "Congressionally Directed Nuclear Energy Projects" in the joint explanatory statement accompanying the conference report on this Act.

#### FOSSIL ENERGY RESEARCH AND DEVELOPMENT

For necessary expenses in carrying out fossil energy research and development activities, under the authority of the Department of Energy Organization Act (Public Law 95-91), including the acquisition of interest, including de-feasible and equitable interests in any real property or any facility or for plant or facility acquisition or expansion, and for conducting inquiries, technological investigations and research concerning the extraction, processing, use, and disposal of mineral substances without objectionable social and environmental costs (30 U.S.C. 3, 1602, and 1603), \$672,383,000, to remain available until expended: Provided, That for all programs funded under Fossil Energy appropriations in this Act or any other Act, the Secretary may vest fee title or other property interests acquired under projects in any entity, including the United States: Provided further, That, of the amount appropriated in this paragraph, \$36,850,000 shall be used for projects specified in the table that appears under the heading "Congressionally Directed Fossil Energy Projects" in the joint explanatory statement accompanying the conference report on this Act.

#### NAVAL PETROLEUM AND OIL SHALE RESERVES

For expenses necessary to carry out naval petroleum and oil shale reserve activities, including the hire of passenger motor vehicles, \$23,627,000, to remain available until expended: Provided, That, notwithstanding any other provision of law, unobligated funds remaining from prior years shall be available for all naval petroleum and oil shale reserve activities.

#### STRATEGIC PETROLEUM RESERVE

For necessary expenses for Strategic Petroleum Reserve facility development and operations and program management activities pursuant to the Energy Policy and Conservation Act of 1975, as amended (42 U.S.C. 6201 et seq.), \$243,823,000, to remain available until expended.

#### NORTHEAST HOME HEATING OIL RESERVE

For necessary expenses for Northeast Home Heating Oil Reserve storage, operation, and management activities pursuant to the Energy Policy and Conservation Act, \$11,300,000, to remain available until expended.

#### ENERGY INFORMATION ADMINISTRATION

For necessary expenses in carrying out the activities of the Energy Information Administration, \$110,595,000, to remain available until expended.

#### NON-DEFENSE ENVIRONMENTAL CLEANUP

For Department of Energy expenses, including the purchase, construction, and acquisition of plant and capital equipment and other expenses necessary for non-defense environmental cleanup activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion, \$244,673,000, to remain available until expended.

#### URANIUM ENRICHMENT DECONTAMINATION AND DECOMMISSIONING FUND

For necessary expenses in carrying out uranium enrichment facility decontamination and decommissioning, remedial actions, and other activities of title II of the Atomic Energy Act of 1954, and title X, subtitle A, of the Energy Policy Act of 1992, \$573,850,000, to be derived from the Uranium Enrichment Decontamination and Decommissioning Fund, to remain available until expended.

#### SCIENCE

##### (INCLUDING TRANSFER OF FUNDS)

For Department of Energy expenses including the purchase, construction, and acquisition of plant and capital equipment, and other expenses necessary for science activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or facility or for plant or facility acquisition, construction, or expansion, and purchase of not more than 50 passenger motor vehicles for replacement only, including one law enforcement vehicle, two ambulances, and three buses, \$4,903,710,000, to remain available until expended: Provided, That \$15,000,000 appropriated under this heading under prior appropriation Acts for the Advanced Research Projects Agency—Energy is hereby transferred to the "Advanced Research Projects Agency—Energy" account: Provided further, That, of the amount appropriated in this paragraph, \$76,890,000 shall be used for the projects specified in the table that appears under the heading "Congressionally Directed Science Projects" in the joint explanatory statement accompanying the conference report on this Act.

#### NUCLEAR WASTE DISPOSAL

For nuclear waste disposal activities to carry out the purposes of the Nuclear Waste Policy Act of 1982, Public Law 97-425, as amended (the "NWPAA"), \$98,400,000, to remain available until expended, and to be derived from the Nuclear Waste Fund: Provided, That of the funds made available in this Act for nuclear waste disposal and defense nuclear waste disposal activities, 2.54 percent shall be provided to the Office of the Attorney General of the State of Nevada solely for expenditures, other than salaries and expenses of State employees, to conduct scientific oversight responsibilities and participate in licensing activities pursuant to the NWPAA: Provided further, That notwithstanding the lack of a written agreement with the State of Nevada under section 117(c) of the NWPAA, 0.51 percent shall be provided to Nye County, Nevada, for on-site oversight activities under section 117(d) of the NWPAA: Provided further, That

of the funds made available in this Act for nuclear waste disposal and defense nuclear waste disposal activities, 4.57 percent shall be provided to affected units of local government, as defined in the NWPA, to conduct appropriate activities and participate in licensing activities under Section 116(c) of the NWPA: Provided further, That of the amounts provided to affected units of local government, 7.5 percent of the funds provided for the affected units of local government shall be made available to affected units of local government in California with the balance made available to affected units of local government in Nevada for distribution as determined by the Nevada affected units of local government: Provided further, That of the funds made available in this Act for nuclear waste disposal and defense nuclear waste disposal activities, 0.25 percent shall be provided to the affected federally-recognized Indian tribes, as defined in the NWPA, solely for expenditures, other than salaries and expenses of tribal employees, to conduct appropriate activities and participate in licensing activities under section 118(b) of the NWPA: Provided further, That notwithstanding the provisions of chapters 65 and 75 of title 31, United States Code, the Department shall have no monitoring, auditing or other oversight rights or responsibilities over amounts provided to affected units of local government: Provided further, That the funds for the State of Nevada shall be made available solely to the Office of the Attorney General by direct payment and to units of local government by direct payment: Provided further, That 4.57 percent of the funds made available in this Act for nuclear waste disposal and defense nuclear waste disposal activities shall be provided to Nye County, Nevada, as payment equal to taxes under section 116(c)(3) of the NWPA: Provided further, That within 90 days of the completion of each Federal fiscal year, the Office of the Attorney General of the State of Nevada, each affected federally-recognized Indian tribe, and each of the affected units of local government shall provide certification to the Department of Energy that all funds expended from such payments have been expended for activities authorized by the NWPA and this Act: Provided further, That failure to provide such certification shall cause such entity to be prohibited from any further funding provided for similar activities: Provided further, That none of the funds herein appropriated may be: (1) used directly or indirectly to influence legislative action, except for normal and recognized executive-legislative communications, on any matter pending before Congress or a State legislature or for lobbying activity as provided in 18 U.S.C. 1913; (2) used for litigation expenses; or (3) used to support multi-State efforts or other coalition building activities inconsistent with the restrictions contained in this Act: Provided further, That all proceeds and recoveries realized by the Secretary in carrying out activities authorized by the NWPA, including but not limited to, any proceeds from the sale of assets, shall be available without further appropriation and shall remain available until expended: Provided further, That of the funds made available in this Act for Nuclear Waste Disposal, \$5,000,000 shall be provided to create a Blue Ribbon Commission to consider all alternatives for nuclear waste disposal: Provided further, That no funds provided in this Act or any previous Act may be used to pursue repayment or collection of funds provided in any fiscal year to affected units of local government for oversight activities that had been previously approved by the Department of Energy, or to withhold payment of any such funds.

#### TITLE 17 INNOVATIVE TECHNOLOGY LOAN GUARANTEE PROGRAM

Such sums as are derived from amounts received from borrowers pursuant to section

1702(b)(2) of the Energy Policy Act of 2005 under this heading in prior Acts, shall be collected in accordance with section 502(7) of the Congressional Budget Act of 1974: Provided, That for necessary administrative expenses to carry out this Loan Guarantee program, \$43,000,000 is appropriated, to remain available until expended: Provided further, That \$43,000,000 of the fees collected pursuant to section 1702(h) of the Energy Policy Act of 2005 shall be credited as offsetting collections to this account to cover administrative expenses and shall remain available until expended, so as to result in a final fiscal year 2010 appropriations from the general fund estimated at not more than \$0: Provided further, That fees collected under section 1702(h) in excess of the amount appropriated for administrative expenses shall not be available until appropriated.

#### ADVANCED TECHNOLOGY VEHICLES MANUFACTURING LOAN PROGRAM

For administrative expenses in carrying out the Advanced Technology Vehicles Manufacturing Loan Program, \$20,000,000, to remain available until expended.

#### DEPARTMENTAL ADMINISTRATION

For salaries and expenses of the Department of Energy necessary for departmental administration in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the hire of passenger motor vehicles and official reception and representation expenses not to exceed \$30,000, \$288,684,000, to remain available until expended, plus such additional amounts as necessary to cover increases in the estimated amount of cost of work for others notwithstanding the provisions of the Anti-Deficiency Act (31 U.S.C. 1511 et seq.): Provided, That such increases in cost of work are offset by revenue increases of the same or greater amount, to remain available until expended: Provided further, That moneys received by the Department for miscellaneous revenues estimated to total \$119,740,000 in fiscal year 2010 may be retained and used for operating expenses within this account, and may remain available until expended, as authorized by section 201 of Public Law 95-238, notwithstanding the provisions of 31 U.S.C. 3302: Provided further, That the sum herein appropriated shall be reduced by the amount of miscellaneous revenues received during 2010, and any related appropriated receipt account balances remaining from prior years' miscellaneous revenues, so as to result in a final fiscal year 2010 appropriation from the general fund estimated at not more than \$168,944,000.

#### OFFICE OF THE INSPECTOR GENERAL

For necessary expenses of the Office of the Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, \$51,927,000, to remain available until expended.

#### ATOMIC ENERGY DEFENSE ACTIVITIES

##### NATIONAL NUCLEAR SECURITY

##### ADMINISTRATION

##### WEAPONS ACTIVITIES

For Department of Energy expenses, including the purchase, construction, and acquisition of plant and capital equipment and other incidental expenses necessary for atomic energy defense weapons activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion, the purchase of not to exceed one ambulance; \$6,384,431,000, to remain available until expended: Provided, That \$357,800,000 is provided to Stockpile Systems activities including \$91,956,000 for the B61 Stockpile Systems activities: Provided further, That upon completion of the Nuclear Posture Review

and confirmation of the requirement for the B61-12, the NNSA is authorized to reallocate an additional \$15,000,000 within the Stockpile Systems activities to support the continuation of the B61-12 non-nuclear upgrade study, with notification to cognizant congressional committees within 15 days of the implementation of this action: Provided further, That no funds may be obligated or expended for B61-12 nuclear components without prior approval by the Appropriations Committees of the House and Senate: Provided further, That, of the amount appropriated in this paragraph, \$3,000,000 shall be used for the projects specified under the heading "Congressionally Directed Weapons Activities Projects" in the joint explanatory statement accompanying the conference report on this Act.

#### DEFENSE NUCLEAR NONPROLIFERATION

For Department of Energy expenses, including the purchase, construction, and acquisition of plant and capital equipment and other incidental expenses necessary for defense nuclear nonproliferation activities, in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion, and the purchase of not to exceed one passenger motor vehicle for replacement only, \$2,136,709,000, to remain available until expended: Provided, That, of the amount appropriated in this paragraph, \$250,000 shall be used for the projects specified under the heading "Congressionally Directed Defense Nuclear Nonproliferation Projects" in the joint explanatory statement accompanying the conference report on this Act.

#### NAVAL REACTORS

For Department of Energy expenses necessary for naval reactors activities to carry out the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition (by purchase, condemnation, construction, or otherwise) of real property, plant, and capital equipment, facilities, and facility expansion, \$945,133,000, to remain available until expended.

#### OFFICE OF THE ADMINISTRATOR

##### (INCLUDING TRANSFER OF FUNDS)

For necessary expenses of the Office of the Administrator in the National Nuclear Security Administration, including official reception and representation expenses not to exceed \$12,000, \$420,754,000, to remain available until expended: Provided, That \$10,000,000 previously appropriated for cleanup efforts at Argonne National Lab shall be transferred to "Non-Defense Environmental Cleanup": Provided further, That, of the amount appropriated in this paragraph, \$13,000,000 shall be used for the projects specified in the table that appears under the heading "Congressionally Directed Office of the Administrator (NNSA) Projects" in the joint explanatory statement accompanying the conference report on this Act.

#### ENVIRONMENTAL AND OTHER DEFENSE ACTIVITIES

##### DEFENSE ENVIRONMENTAL CLEANUP

##### (INCLUDING TRANSFER OF FUNDS)

For Department of Energy expenses, including the purchase, construction, and acquisition of plant and capital equipment and other expenses necessary for atomic energy defense environmental cleanup activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion, and the purchase of not to exceed four ambulances and three passenger motor vehicles for replacement

only, \$5,642,331,000, to remain available until expended, of which \$463,000,000 shall be transferred to the "Uranium Enrichment Decontamination and Decommissioning Fund": Provided, That, of the amount appropriated in this paragraph, \$4,000,000 shall be used for projects specified in the table that appears under the heading "Congressionally Directed Defense Environmental Cleanup Projects" in the joint explanatory statement accompanying the conference report on this Act.

#### OTHER DEFENSE ACTIVITIES

For Department of Energy expenses, including the purchase, construction, and acquisition of plant and capital equipment and other expenses, necessary for atomic energy defense, other defense activities, and classified activities, in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion, and the purchase of not to exceed 12 passenger motor vehicles for replacement only, \$847,468,000, to remain available until expended: Provided, That of the amount appropriated in this paragraph, \$3,000,000 shall be used for projects specified in the table that appears under the heading "Congressionally Directed Other Defense Activities Projects" in the joint explanatory statement accompanying the conference report on this Act.

#### DEFENSE NUCLEAR WASTE DISPOSAL

For nuclear waste disposal activities to carry out the purposes of Public Law 97-425, as amended, including the acquisition of real property or facility construction or expansion, \$98,400,000, to remain available until expended.

#### POWER MARKETING ADMINISTRATIONS

##### BONNEVILLE POWER ADMINISTRATION FUND

Expenditures from the Bonneville Power Administration Fund, established pursuant to Public Law 93-454, are approved for the Leaburg Fish Sorter, the Okanogan Basin Locally Adapted Steelhead Supplementation Program, and the Crystal Springs Hatchery Facilities, and, in addition, for official reception and representation expenses in an amount not to exceed \$1,500. During fiscal year 2010, no new direct loan obligations may be made.

##### OPERATION AND MAINTENANCE, SOUTHEASTERN POWER ADMINISTRATION

For necessary expenses of operation and maintenance of power transmission facilities and of marketing electric power and energy, including transmission wheeling and ancillary services pursuant to section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), as applied to the southeastern power area, \$7,638,000, to remain available until expended: Provided, That notwithstanding 31 U.S.C. 3302 and section 5 of the Flood Control Act of 1944, up to \$7,638,000 collected by the Southeastern Power Administration from the sale of power and related services shall be credited to this account as discretionary offsetting collections, to remain available until expended for the sole purpose of funding the annual expenses of the Southeastern Power Administration: Provided further, That the sum herein appropriated for annual expenses shall be reduced as collections are received during the fiscal year so as to result in a final fiscal year 2010 appropriation estimated at not more than \$0: Provided further, That, notwithstanding 31 U.S.C. 3302, up to \$70,806,000 collected by the Southeastern Power Administration pursuant to the Flood Control Act of 1944 to recover purchase power and wheeling expenses shall be credited to this account as offsetting collections, to remain available until expended for the sole purpose of making purchase power and wheeling expenditures: Provided fur-

ther, That notwithstanding the provisions of 31 U.S.C. 3302 and section 5 of the Flood Control Act of 1944, all funds collected by the Southeastern Power Administration that are applicable to the repayment of the annual expenses of this account in this and subsequent fiscal years shall be credited to this account as discretionary offsetting collections for the sole purpose of funding such expenses, with such funds remaining available until expended: Provided further, That for purposes of this appropriation, annual expenses means expenditures that are generally recovered in the same year that they are incurred (excluding purchase power and wheeling expenses).

##### OPERATION AND MAINTENANCE, SOUTHWESTERN POWER ADMINISTRATION

For necessary expenses of operation and maintenance of power transmission facilities and of marketing electric power and energy, for construction and acquisition of transmission lines, substations and appurtenant facilities, and for administrative expenses, including official reception and representation expenses in an amount not to exceed \$1,500 in carrying out section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), as applied to the Southwestern Power Administration, \$44,944,000, to remain available until expended: Provided, That notwithstanding 31 U.S.C. 3302 and section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), up to \$31,868,000 collected by the Southwestern Power Administration from the sale of power and related services shall be credited to this account as discretionary offsetting collections, to remain available until expended, for the sole purpose of funding the annual expenses of the Southwestern Power Administration: Provided further, That the sum herein appropriated for annual expenses shall be reduced as collections are received during the fiscal year so as to result in a final fiscal year 2010 appropriation estimated at not more than \$13,076,000: Provided further, That, notwithstanding 31 U.S.C. 3302, up to \$38,000,000 collected by the Southwestern Power Administration pursuant to the Flood Control Act of 1944 to recover purchase power and wheeling expenses shall be credited to this account as offsetting collections, to remain available until expended for the sole purpose of making purchase power and wheeling expenditures: Provided further, That notwithstanding 31 U.S.C. 3302 and section 5 of the Flood Control Act of 1944, all funds collected by the Southwestern Power Administration that are applicable to the repayment of the annual expenses of this account in this and subsequent fiscal years shall be credited to this account as discretionary offsetting collections for the sole purpose of funding such expenses, with such funds remaining available until expended: Provided further, That for purposes of this appropriation, annual expenses means expenditures that are generally recovered in the same year that they are incurred (excluding purchase power and wheeling expenses).

##### CONSTRUCTION, REHABILITATION, OPERATION AND MAINTENANCE, WESTERN AREA POWER ADMINISTRATION

For carrying out the functions authorized by title III, section 302(a)(1)(E) of the Act of August 4, 1977 (42 U.S.C. 7152), and other related activities including conservation and renewable resources programs as authorized, including official reception and representation expenses in an amount not to exceed \$1,500; \$256,711,000 to remain available until expended, of which \$245,216,000 shall be derived from the Department of the Interior Reclamation Fund: Provided, That notwithstanding 31 U.S.C. 3302, section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), and section 1 of the Interior Department Appropriation Act, 1939 (43 U.S.C. 392a), up to

\$147,530,000 collected by the Western Area Power Administration from the sale of power and related services shall be credited to this account as discretionary offsetting collections, to remain available until expended, for the sole purpose of funding the annual expenses of the Western Area Power Administration: Provided further, That the sum herein appropriated for annual expenses shall be reduced as collections are received during the fiscal year so as to result in a final fiscal year 2010 appropriation estimated at not more than \$109,181,000, of which \$97,686,000 is derived from the Reclamation Fund: Provided further, That of the amount herein appropriated, \$7,584,000 is for deposit into the Utah Reclamation Mitigation and Conservation Account pursuant to title IV of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That notwithstanding 31 U.S.C. 3302, up to \$349,807,000 collected by the Western Area Power Administration pursuant to the Flood Control Act of 1944 and the Reclamation Project Act of 1939 to recover purchase power and wheeling expenses shall be credited to this account as offsetting collections, to remain available until expended for the sole purpose of making purchase power and wheeling expenditures: Provided further, That of the amount herein appropriated, up to \$18,612,000 is provided on a nonreimbursable basis for environmental remediation at the Basic Substation site in Henderson, Nevada: Provided further, That notwithstanding 31 U.S.C. 3302, section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), and section 1 of the Interior Department Appropriation Act, 1939 (43 U.S.C. 392a), funds collected by the Western Area Power Administration from the sale of power and related services that are applicable to the repayment of the annual expenses of this account in this and subsequent fiscal years shall be credited to this account as discretionary offsetting collections for the sole purpose of funding such expenses, with such funds remaining available until expended: Provided further, That for purposes of this appropriation, annual expenses means expenditures that are generally recovered in the same year that they are incurred (excluding purchase power and wheeling expenses).

##### FALCON AND AMISTAD OPERATING AND MAINTENANCE FUND

For operation, maintenance, and emergency costs for the hydroelectric facilities at the Falcon and Amistad Dams, \$2,568,000, to remain available until expended, and to be derived from the Falcon and Amistad Operating and Maintenance Fund of the Western Area Power Administration, as provided in section 2 of the Act of June 18, 1954 (68 Stat. 255) as amended: Provided, That notwithstanding the provisions of that Act and of 31 U.S.C. 3302, up to \$2,348,000 collected by the Western Area Power Administration from the sale of power and related services from the Falcon and Amistad Dams shall be credited to this account as discretionary offsetting collections, to remain available until expended for the sole purpose of funding the annual expenses of the hydroelectric facilities of these Dams and associated Western Area Power Administration activities: Provided further, That the sum herein appropriated for annual expenses shall be reduced as collections are received during the fiscal year so as to result in a final fiscal year 2010 appropriation estimated at not more than \$220,000: Provided further, That notwithstanding the provisions of section 2 of the Act of June 18, 1954 (68 Stat. 255) as amended, and 31 U.S.C. 3302, all funds collected by the Western Area Power Administration from the sale of power and related services from the Falcon and Amistad Dams that are applicable to

the repayment of the annual expenses of the hydroelectric facilities of these Dams and associated Western Area Power Administration activities in this and subsequent fiscal years shall be credited to this account as discretionary offsetting collections for the sole purpose of funding such expenses, with such funds remaining available until expended: Provided further, That for purposes of this appropriation, annual expenses means expenditures that are generally recovered in the same year that they are incurred.

**FEDERAL ENERGY REGULATORY COMMISSION  
SALARIES AND EXPENSES**

For necessary expenses of the Federal Energy Regulatory Commission to carry out the provisions of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including services as authorized by 5 U.S.C. 3109, the hire of passenger motor vehicles, and official reception and representation expenses not to exceed \$3,000, \$298,000,000, to remain available until expended: Provided, That notwithstanding any other provision of law, not to exceed \$298,000,000 of revenues from fees and annual charges, and other services and collections in fiscal year 2010 shall be retained and used for necessary expenses in this account, and shall remain available until expended: Provided further, That the sum herein appropriated from the general fund shall be reduced as revenues are received during fiscal year 2010 so as to result in a final fiscal year 2010 appropriation from the general fund estimated at not more than \$0.

**GENERAL PROVISIONS—DEPARTMENT OF  
ENERGY**

SEC. 301. None of the funds appropriated by this Act may be used to prepare or initiate Requests For Proposals (RFPs) for a program if the program has not been funded by Congress.

SEC. 302. None of the funds appropriated by this Act may be used—

(1) to augment the funds made available for obligation by this Act for severance payments and other benefits and community assistance grants under section 4604 of the Atomic Energy Defense Act (50 U.S.C. 2704) unless the Department of Energy submits a reprogramming request to the appropriate congressional committees; or

(2) to provide enhanced severance payments or other benefits for employees of the Department of Energy under such section; or

(3) develop or implement a workforce restructuring plan that covers employees of the Department of Energy.

SEC. 303. The unexpended balances of prior appropriations provided for activities in this Act may be available to the same appropriation accounts for such activities established pursuant to this title. Available balances may be merged with funds in the applicable established accounts and thereafter may be accounted for as one fund for the same time period as originally enacted.

SEC. 304. None of the funds in this or any other Act for the Administrator of the Bonneville Power Administration may be used to enter into any agreement to perform energy efficiency services outside the legally defined Bonneville service territory, with the exception of services provided internationally, including services provided on a reimbursable basis, unless the Administrator certifies in advance that such services are not available from private sector businesses.

SEC. 305. When the Department of Energy makes a user facility available to universities or other potential users, or seeks input from universities or other potential users regarding significant characteristics or equipment in a user facility or a proposed user facility, the Department shall ensure broad public notice of such availability or such need for input to universities and other potential users.

When the Department of Energy considers the participation of a university or other potential user as a formal partner in the establishment or operation of a user facility, the Department shall employ full and open competition in selecting such a partner. For purposes of this section, the term "user facility" includes, but is not limited to: (1) a user facility as described in section 2203(a)(2) of the Energy Policy Act of 1992 (42 U.S.C. 13503(a)(2)); (2) a National Nuclear Security Administration Defense Programs Technology Deployment Center/User Facility; and (3) any other Departmental facility designated by the Department as a user facility.

SEC. 306. Funds appropriated by this or any other Act, or made available by the transfer of funds in this Act, for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 2010 until the enactment of the Intelligence Authorization Act for fiscal year 2010.

SEC. 307. Of the funds made available by the Department of Energy for activities at Government-owned, contractor-operated laboratories funded in this Act or subsequent Energy and Water Development Appropriations Acts, the Secretary may authorize a specific amount, not to exceed 8 percent of such funds, to be used by such laboratories for laboratory directed research and development: Provided, That the Secretary may also authorize a specific amount not to exceed 4 percent of such funds, to be used by the plant manager of a covered nuclear weapons production plant or the manager of the Nevada Site Office for plant or site directed research and development.

SEC. 308. (a) In any fiscal year in which the Secretary of Energy determines that additional funds are needed to reimburse the costs of defined benefit pension plans for contractor employees, the Secretary may transfer not more than 1 percent from each appropriation made available in this and subsequent Energy and Water Development Appropriation Acts to any other appropriation available to the Secretary in the same Act for such reimbursements.

(b) Where the Secretary recovers the costs of defined benefit pension plans for contractor employees through charges for the indirect costs of research and activities at facilities of the Department of Energy, if the indirect costs attributable to defined benefit pension plan costs in a fiscal year are more than charges in fiscal year 2008, the Secretary shall carry out a transfer of funds under this section.

(c) In carrying out a transfer under this section, the Secretary shall use each appropriation made available to the Department in that fiscal year as a source for the transfer, and shall reduce each appropriation by an equal percentage, except that appropriations for which the Secretary determines there exists a need for additional funds for pension plan costs in that fiscal year, as well as appropriations made available for the Power Marketing Administrations, the title XVII loan guarantee program, and the Federal Energy Regulatory Commission, shall not be subject to this requirement.

(d) Each January, the Secretary shall report to the Committees on Appropriations of the House of Representatives and the Senate on the state of defined benefit pension plan liabilities in the Department for the preceding year.

(e) This transfer authority does not apply to supplemental appropriations, and is in addition to any other transfer authority provided in this or any other Act. The authority provided under this section shall expire on September 30, 2015.

(f) The Secretary shall notify the Committees on Appropriations of the House of Representatives and the Senate in writing not less than 30 days in advance of each transfer authorized by this section.

SEC. 309. (a) Subject to subsection (b), no funds appropriated or otherwise made available by this Act or any other Act may be used to record transactions relating to the increase in borrowing authority or bonds outstanding at any time under the Federal Columbia River Transmission System Act (16 U.S.C. 838 et seq.) referred to in section 401 of division A of the American Recovery and Reinvestment Act of 2009 (Public Law 111-5; 123 Stat. 140) under a funding account, subaccount, or fund symbol other than the Bonneville Power Administration Fund Treasury account fund symbol.

(b) Funds appropriated or otherwise made available by this Act or any other Act may be used to ensure, for purposes of meeting any applicable reporting provisions of the American Recovery and Reinvestment Act of 2009 (Public Law 111-5; 123 Stat. 115), that the Bonneville Power Administration uses a fund symbol other than the Bonneville Power Administration Fund Treasury account fund symbol solely to report accrued expenditures of projects attributed by the Administrator of the Bonneville Power Administration to the increased borrowing authority.

(c) This section is effective for fiscal year 2010 and subsequent fiscal years.

SEC. 310. Section 1702 of the Energy Policy Act of 2005 (42 U.S.C. 16512) is amended by adding at the end the following new subsection:

"(k) WAGE RATE REQUIREMENTS.—All laborers and mechanics employed by contractors and subcontractors in the performance of construction work financed in whole or in part by a loan guaranteed under this title shall be paid wages at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code. With respect to the labor standards in this subsection, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40, United States Code."

SEC. 311. None of the funds made available by this Act may be used to make a grant allocation, discretionary grant award, discretionary contract award, Other Transaction Agreement, or to issue a letter of intent totaling in excess of \$1,000,000, or to announce publicly the intention to make such an award, including a contract covered by the Federal Acquisition Regulation, unless the Secretary of Energy notifies the Committees on Appropriations of the Senate and the House of Representatives at least 3 full business days in advance of making such an award or issuing such a letter: Provided, That if the Secretary of the Department of Energy determines that compliance with this section would pose a substantial risk to human life, health, or safety, an award may be made without notification and the Committees on Appropriations of the Senate and the House of Representatives shall be notified not later than 5 full business days after such an award is made or letter issued.

SEC. 312. (a) ULTRA EFFICIENT VEHICLES.—Section 136 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17013) is amended—

(1) in subsection (a)—

(A) in paragraph (1), by inserting "an ultra efficient vehicle or" after "means"; and

(B) by adding at the end the following new paragraph:

"(5) ULTRA EFFICIENT VEHICLE.—The term 'ultra efficient vehicle' means a fully closed compartment vehicle designed to carry at least 2 adult passengers that achieves—

"(A) at least 75 miles per gallon while operating on gasoline or diesel fuel;

"(B) at least 75 miles per gallon equivalent while operating as a hybrid electric-gasoline or electric-diesel vehicle; or

“(C) at least 75 miles per gallon equivalent while operating as a fully electric vehicle.”;

(2) in subsection (b)—

(A) by inserting “, ultra efficient vehicle manufacturers,” after “automobile manufacturers”;

(B) in paragraph (1)—

(i) by striking “or” at the end of subparagraph (A);

(ii) by striking “and” at the end of subparagraph (B) and inserting “or”; and

(iii) by adding at the end the following new subparagraph:

“(C) ultra efficient vehicles; and”;

(C) in paragraph (2), by inserting “, ultra efficient vehicles,” after “qualifying vehicles”;

(3) in subsection (g), by inserting “or are utilized primarily for the manufacture of ultra efficient vehicles” after “20 years”; and

(4) in subsection (h)(1)(B), by striking “automobiles” the first place it appears and inserting “ultra efficient vehicles, automobiles.”;

(b) RECONSIDERATION OF PRIOR APPLICATIONS.—The Secretary of Energy shall reconsider applications for assistance under section 136 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17013) that were—

(1) timely filed under that section before January 1, 2009;

(2) rejected on the basis that the vehicles to which the proposal related were not advanced technology vehicles; and

(3) related to ultra efficient vehicles.

SEC. 313. (a) Except as provided in subsection (b), none of the funds appropriated or otherwise made available by this title for the Strategic Petroleum Reserve may be made available to any person that as of the enactment of this Act—

(1) is selling refined petroleum products valued at \$1,000,000 or more to the Islamic Republic of Iran;

(2) is engaged in an activity valued at \$1,000,000 or more that could contribute to enhancing the ability of the Islamic Republic of Iran to import refined petroleum products, including—

(A) providing ships or shipping services to deliver refined petroleum products to the Islamic Republic of Iran;

(B) underwriting or otherwise providing insurance or reinsurance for such an activity; or

(C) financing or brokering such an activity; or

(3) is selling, leasing, or otherwise providing to the Islamic Republic of Iran any goods, services, or technology valued at \$1,000,000 or more that could contribute to the maintenance or expansion of the capacity of the Islamic Republic of Iran to produce refined petroleum products.

(b) The prohibition on the use of funds under subsection (a) shall not apply with respect to any contract entered into by the United States Government before the date of the enactment of this Act.

(c) If the Secretary determines a person made ineligible by this section has ceased the activities enumerated in (a)(1)–(3), that person shall no longer be ineligible under this section.

SEC. 314. Section 132 of the Energy and Water Development Appropriations Act of 2006 (119 Stat 2261) is amended—

(1) in subsection (a)(3), by striking “Corps of Engineers” and inserting “Southwestern Power Administration”;

(2) by adding at the end of subsection (a) the following new paragraph:

“(5) PAYMENT TO NON-FEDERAL LICENSEE.—Southwestern Power Administration shall compensate the licensee of Federal Energy Regulatory Commission Project No. 2221 pursuant to paragraph (3) using receipts collected from the sale of Federal power and energy related services. Pursuant to paragraph (6), Southwestern Power Administration will begin collecting receipts in the Special Receipts and Disbursement account upon the date of enactment of this

paragraph. Payment to the licensee of Federal Energy Regulatory Commission Project No. 2221 shall be paid as soon as adequate receipts are collected in the Special Receipts and Disbursement Account to fully compensate the licensee, and in accordance with paragraph (2), such payment shall be considered non-reimbursable.”;

(3) by adding at the end of subsection (a) the following new paragraph:

“(6) The Southwestern Power Administration shall compensate the licensee of Federal Energy Regulatory Commission Project No. 2221 in annual payments of not less than \$5,000,000, until the licensee of Federal Energy Regulatory Commission Project No. 2221 is fully compensated pursuant to paragraph (3). At the end of each fiscal year subsequent to implementation, any remaining balance to be paid to the licensee of Project No. 2221 shall accrue interest at the 30-year U.S. Treasury bond rate in effect at the time of implementation of the White River Minimum Flows project.”;

(4) by adding at the end of subsection (a) the following new paragraph:

“(7) ESTABLISHMENT OF SPECIAL RECEIPT AND DISBURSEMENT ACCOUNTS.—There is established in the Treasury of the United States a special receipt account and corresponding disbursement account to be made available to the Administrator of the Southwestern Power Administration to disburse pre-collected receipts from the sale of federal power and energy and related services. The accounts are authorized for the following uses:

“(A) Collect and disburse receipts for purchase power and wheeling expenses incurred by Southwestern Power Administration to purchase replacement power and energy as a result of implementation of the White River Minimum Flows project.

“(B) Collect and disburse receipts related to compensation of the licensee of Federal Energy Regulatory Commission Project No. 2221.

“(C) Said special receipt and disbursement account shall remain available for not more than 12 months after the date of full compensation of the licensee of Federal Energy Regulatory Commission Project No. 2221.”; and

(5) by adding at the end of subsection (a) the following new paragraph:

“(8) TIME OF IMPLEMENTATION.—For purposes of paragraphs (3) and (4), ‘time of implementation’ shall mean the authorization of the special receipt account and corresponding disbursement account described in paragraph (7).”.

#### TITLE IV

#### INDEPENDENT AGENCIES

##### APPALACHIAN REGIONAL COMMISSION

For expenses necessary to carry out the programs authorized by the Appalachian Regional Development Act of 1965, as amended, for necessary expenses for the Federal Co-Chairman and the Alternate on the Appalachian Regional Commission, for payment of the Federal share of the administrative expenses of the Commission, including services as authorized by 5 U.S.C. 3109, and hire of passenger motor vehicles, \$76,000,000, to remain available until expended.

##### DEFENSE NUCLEAR FACILITIES SAFETY BOARD

##### SALARIES AND EXPENSES

For necessary expenses of the Defense Nuclear Facilities Safety Board in carrying out activities authorized by the Atomic Energy Act of 1954, as amended by Public Law 100-456, section 1441, \$26,086,000, to remain available until expended.

##### DELTA REGIONAL AUTHORITY

##### SALARIES AND EXPENSES

For necessary expenses of the Delta Regional Authority and to carry out its activities, as authorized by the Delta Regional Authority Act of 2000, as amended, notwithstanding sections

382C(b)(2), 382F(d), 382M, and 382N of said Act, \$13,000,000, to remain available until expended: Provided, That no funds in this Act shall be expended for the relocation of the Delta Regional Commission headquarters.

##### DENALI COMMISSION

For expenses of the Denali Commission including the purchase, construction, and acquisition of plant and capital equipment as necessary and other expenses, \$11,965,000, to remain available until expended, notwithstanding the limitations contained in section 306(g) of the Denali Commission Act of 1998.

##### NORTHERN BORDER REGIONAL COMMISSION

For necessary expenses of the Northern Border Regional Commission in carrying out activities authorized by subtitle V of title 40, United States Code, \$1,500,000, to remain available until expended.

##### SOUTHEAST CRESCENT REGIONAL COMMISSION

For necessary expenses of the Southeast Crescent Regional Commission in carrying out activities authorized by subtitle V of title 40, United States Code, \$250,000, to remain available until expended.

##### NUCLEAR REGULATORY COMMISSION

##### SALARIES AND EXPENSES

For necessary expenses of the Commission in carrying out the purposes of the Energy Reorganization Act of 1974, as amended, and the Atomic Energy Act of 1954, as amended, including official representation expenses (not to exceed \$25,000), \$1,056,000,000, to remain available until expended: Provided, That of the amount appropriated herein, \$29,000,000 shall be derived from the Nuclear Waste Fund: Provided further, That revenues from licensing fees, inspection services, and other services and collections estimated at \$902,402,000 in fiscal year 2010 shall be retained and used for necessary salaries and expenses in this account, notwithstanding 31 U.S.C. 3302, and shall remain available until expended: Provided further, That the sum herein appropriated shall be reduced by the amount of revenues received during fiscal year 2010 so as to result in a final fiscal year 2010 appropriation estimated at not more than \$153,598,000: Provided further, That of the amounts appropriated, \$10,000,000 is provided to support university research and development in areas relevant to their respective organization's mission, and \$5,000,000 is to support a Nuclear Science and Engineering Grant Program that will support multiyear projects that do not align with programmatic missions but are critical to maintaining the discipline of nuclear science and engineering.

##### OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, \$10,860,000, to remain available until expended: Provided, That revenues from licensing fees, inspection services, and other services and collections estimated at \$9,774,000 in fiscal year 2010 shall be retained and be available until expended, for necessary salaries and expenses in this account, notwithstanding 31 U.S.C. 3302: Provided further, That the sum herein appropriated shall be reduced by the amount of revenues received during fiscal year 2010 so as to result in a final fiscal year 2010 appropriation estimated at not more than \$1,086,000.

##### NUCLEAR WASTE TECHNICAL REVIEW BOARD

##### SALARIES AND EXPENSES

For necessary expenses of the Nuclear Waste Technical Review Board, as authorized by Public Law 100-203, section 5051, \$3,891,000, to be derived from the Nuclear Waste Fund, and to remain available until expended.

OFFICE OF THE FEDERAL COORDINATOR FOR  
ALASKA NATURAL GAS TRANSPORTATION  
PROJECTS

For necessary expenses for the Office of the Federal Coordinator for Alaska Natural Gas Transportation Projects pursuant to the Alaska Natural Gas Pipeline Act of 2004, \$4,466,000 until expended: Provided, That any fees, charges, or commissions received pursuant to section 802 of Public Law 110-140 in fiscal year 2010 in excess of \$4,683,000 shall not be available for obligation until appropriated in a subsequent Act of Congress.

GENERAL PROVISIONS

NUCLEAR REGULATORY COMMISSION REPORTING  
REQUIREMENT

SEC. 401. The Nuclear Regulatory Commission shall, not later than 60 days after the date of enactment of this Act, provide a report to the Committees on Appropriations of the House of Representatives and the Senate identifying barriers to and its recommendations for streamlining the issuance of a Combined Construction and Operating License for qualified new nuclear reactors.

SEC. 402. Section 382B of the Delta Regional Authority Act of 2000 is amended by deleting (c)(1) and inserting in lieu thereof the following: “(1) IN GENERAL—VOTING.—A decision by the Authority shall require the affirmative vote of the Federal cochairperson and a majority of the State members (not including any member representing a State that is delinquent under subsection (g)(2)(C)) to be effective.”.

AUTHORITY OF NUCLEAR REGULATORY  
COMMISSION

SEC. 403. The Nuclear Regulatory Commission may use funds made available for the necessary expenses of the Nuclear Regulatory Commission for the acquisition and lease of additional office space provided by the General Services Administration in accordance with the fourth and fifth provisos in the matter under the heading “Salaries and expenses” under the heading “Nuclear Regulatory Commission” under the heading “Independent agencies” of title IV of division C of the Omnibus Appropriations Act, 2009 (Public Law 111-8; 123 Stat. 629).

TITLE V

GENERAL PROVISIONS

SEC. 501. None of the funds appropriated by this Act may be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before Congress, other than to communicate to Members of Congress as described in 18 U.S.C. 1913.

LIGHT BULB RESTRICTION

SEC. 502. To the extent practicable funds made available in this Act should be used to purchase light bulbs that are “Energy Star” qualified or have the “Federal Energy Management Program” designation.

SEC. 503. Title IV of division A of the American Recovery and Reinvestment Act of 2009 (Public Law 111-5) is amended by adding at the end of the title, the following new section 411:

“SEC. 411. Up to 0.5 percent of each amount appropriated to the Department of the Army and the Bureau of Reclamation in this title may be used for the expenses of management and oversight of the programs, grants, and activities funded by such appropriation, and may be transferred by the Head of the Federal Agency involved to any other appropriate account within the department for that purpose: Provided, That the Secretary will provide a report to the Committees on Appropriations of the House of Representatives and the Senate 30 days prior to the transfer: Provided further, That funds set aside under this section shall remain available for obligation until September 30, 2012.”.

AGENCY ADMINISTRATIVE EXPENSES

SEC. 504. (a) DEFINITIONS.—In this section:

(1) ADMINISTRATIVE EXPENSES.—The term “administrative expenses” has the meaning as determined by the Director under subsection (b)(2).

(2) AGENCY.—The term “agency” —

(A) means an agency as defined under section 1101 of title 31, United States Code, that is established in the executive branch and receives funding under this Act; and

(B) shall not include the District of Columbia government.

(3) DIRECTOR.—The term “Director” means the Director of the Office of Management and Budget.

(b) ADMINISTRATIVE EXPENSES.—

(1) IN GENERAL.—All agencies shall include a separate category for administrative expenses when submitting their appropriation requests to the Office of Management and Budget for fiscal year 2011 and each fiscal year thereafter.

(2) ADMINISTRATIVE EXPENSES DETERMINED.—In consultation with the agencies, the Director shall establish and revise as necessary a definition of administrative expenses for the purposes of this section. All questions regarding the definition of administrative expenses shall be resolved by the Director.

(c) BUDGET SUBMISSION.—Each budget of the United States Government submitted under section 1105 of title 31, United States Code, for fiscal year 2011 and each fiscal year thereafter shall include the amount requested for each agency for administrative expenses.

SEC. 505. None of the funds made available in this Act may be transferred to any department, agency, or instrumentality of the United States Government, except pursuant to a transfer made by, or transfer authority provided in this Act or any other appropriation Act.

SEC. 506. Specific projects contained in the report of the Committee on Appropriations of the House of Representatives accompanying this Act (H. Rept. 111-203) that are considered congressional earmarks for purposes of clause 9 of rule XXI of the Rules of the House of Representatives, when intended to be awarded to a for-profit entity, shall be awarded under a full and open competition.

SEC. 507. (a) The Continuing Appropriations Resolution, 2010 is amended—

(1) in subsections (a) and (b) of section 158, by striking “section 158” each place it appears and inserting “section 157”; and

(2) in section 162, by striking “sections 158 through 162” and inserting “sections 157 through 161”.

(b) The amendments made by subsection (a) shall take effect as if included in the enactment of the Continuing Appropriations Resolution, 2010.

This Act may be cited as the “Energy and Water Development and Related Agencies Appropriations Act, 2010”.

And the Senate agree to the same.

JOINT EXPLANATORY STATEMENT OF  
THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 3183) making appropriations for energy and water development for the fiscal year ending September 30, 2010, and for other purposes, submit the following joint statement to the House and Senate in explanation of the action agreed upon by the managers and recommended in the accompanying conference report.

The language and allocations set forth in House Report 111-203 and Senate Report 111-45 should be complied with unless specifically addressed to the contrary in the conference report and statement of managers. Report language included by the House which is not contradicted by the report of the Senate or the conference, and Senate report language which is not contradicted by the report of the House or the conference is approved by the committee of conference. The statement of managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where both the House report and Senate report address a particular issue not specifically addressed in the conference report or joint statement of managers, the conferees have determined that the House report and Senate report are not inconsistent and are to be interpreted accordingly. In cases in which the House or Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. Senate amendment: The Senate deleted the entire House bill after the enacting clause and inserted the Senate amendment. The conference agreement includes a revised bill.

Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

TITLE I

CORPS OF ENGINEERS—CIVIL  
DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

The summary tables included in this title set forth the dispositions with respect to the individual appropriations, projects, and activities of the Corps of Engineers. Additional items of the Act are discussed below.

INVESTIGATIONS

The conference agreement provides \$160,000,000 for Investigations, instead of \$142,000,000 as proposed by the House and \$170,000,000 as proposed by the Senate.

The allocation for projects and activities within the Investigations account is shown in the following table:

*Red River of the North Basin, Minnesota, North Dakota, and South Dakota.*—The conference agreement includes \$3,000,000 to continue various flood damage reduction studies in North Dakota and Minnesota. Studies are ongoing under this authority in the Fargo, North Dakota-Moorhead, Minnesota Metro area, Pembina, North Dakota, and the area upstream of Fargo, North Dakota. Additional studies of the Sheyenne River are to be undertaken to evaluate solutions to the 2009 spring flood.

*Coastal Field Data Collection.*—The conference agreement includes \$4,483,000 for this nationwide program. The Wave Data Study should also be continued within this overall funding amount. The conferees have included a portion of the climate change funding requested in the Operation and Maintenance account in this line item to ensure that this data collection effort continues.

*Flood Plain Management Services Program.*—The conference agreement includes \$8,059,000 for this nationwide program. The conferees

have provided a listing in the table of projects that should be given priority if cost-sharing funds are available from the local sponsors. However, the Corps should view these amounts as guides and reprogram funds within this line item as appropriate to move these studies forward as rapidly as possible.

*Planning Assistance to States.*—The conference agreement includes \$7,161,000 for this nationwide cost-shared program. The conferees have provided a listing in the table of projects that should be given priority if cost-sharing funds are available from the local sponsors. However, the Corps should view these amounts as guides and reprogram funds within this line item as appropriate to move these studies forward as rapidly as possible.

*Research and Development.*—The conference agreement includes \$20,508,000 for the Corps' nationwide research and development programs. Some of the additional funds provided should be utilized for climate change re-

search to be conducted in concert with the Coastal Data Information Program.

#### CONSTRUCTION

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$2,031,000,000 for Construction, instead of \$2,143,679,000 as proposed by the House and \$1,924,000,000 as proposed by the Senate.

The conferees direct the Administration to report, not later than March 31, 2010, on an updated detailed accounting of receipts into and obligations and expenditures from the Inland Waterways Trust Fund. The report shall include a list of priority projects eligible for additional funding, including the cost-benefit ratio, life-safety information, total lifecycle cost remaining, and incremental information for each project.

The allocation for projects and activities within the Construction account is shown in the following table:
